"When the representatives of the University Senate come to the Altoona Campus on May 6, they will see that in setting, programs, spirit and mission, the Altoona Campus is indeed a microcosmic reflection of the greater University," Dr. Veach concludes. "During the 1980s, these perceptions will guide the Altoona Campus in its continuing close relationship and service to its students and community. Perhaps more than ever before, we will seek the counsel of our local constituencies to cement our mutual commitment to quality education and community service."

74% of PSU's graduates quickly find employment

Seventy-four percent of Penn State's bachelor's degree recipients find employment within three months of graduation.

According to a Career Development and Placement Center survey, another 12 percent are headed for graduate school, and 11 percent were unemployed 90 days after picking up their diplomas.

Approximately 3 percent said they were waiting to hear from graduate schools, had jobs pending but hadn't started work or were not actively looking for work.

"The major problem facing most college graduates is not unemployment," says Dr. James M. Slick, manpower information specialist for the Career Development and Placement Center. "It's underemployment — not finding the job that meets the student's level of expectation or the level to which predecessors were hired."

"Employment opportunities for the 1979 college graduate were better than any year since 1970," he adds, "and the improvement in the employment market is projected to continue into 1980."

Dr. Slick's conclusions are based on responses from more than 5,700 Penn State graduates between November 1978 and May 1979. That's more than 60 percent of those who earned associate, bachelor's, master's and doctoral degrees at the University during that period.

The national demand for engineers is reflected in the fact that 91 percent of the College of Engineering's bachelor's degree recipients had jobs within three months. Only 3 percent were unemployed.

The lowest average starting salary paid to bachelor's degree graduates in any engineering discipline was \$15,879.

The Colleges of Business

Administration and Earth and Mineral Sciences also were quite successful in placing graduates. Those with diplomas from the Petroleum and Natural Gas Engineering curriculum have the highest average starting salary — \$21,761.

"Employment figures alone can be misleading," Dr. Slick cautions. "In the College of Science, for example, fully one-third of all bachelor's degree recipients go directly to graduate school."

Grad school is also a popular option for those earning degrees in liberal arts, agriculture, and arts and architecture.

Despite publicity about teacher surpluses, there was an increase in the number of College of Education grads entering the classroom as teachers. Fifty-six percent of education degree earners had classroom positions compared to 45 percent a year ago; another 19 percent were in non-teaching jobs.

"It should be noted that since the survey is taken only three months after graduation, it's reasonable to assume that if re-surveyed at a later time, the results would show more graduates employed in fields for which they prepared," Dr. Slick notes.

Three factors other than supply and demand affect the employment of graduates, he says. These include career goals which require advanced degrees, the willingness of graduates to change geographic locations to find jobs, and their previous employment history.

"Many of the graduates involved in this survey had previous full-time work experience related to their college major. In some instances they will continue with their former employer."

The survey also showed that the employment rate for associate, master's and doctoral degree recipients was low. Associate and master's degree graduates had 6 percent unemployment while Ph.D.s had a 5 percent rate.

Dr. Carson Veach

News in Brief

Gerontology Center announces Summer Series

The Gerontology Center of the University will offer its Fifth Annual Summer Series in Gerontology July 7-18.

Researchers, teachers, students, older adults, human service practitioners and interested laypeople are invited to participate in a variety of credit courses, research seminars, practitioner workshops and public lectures, according to Dr. Dennis Hamelster, Series coordinator.

"The Summer Series brings participants together in a living-learning environment and provides formal and informal opportunities for sharing learning experiences and exchanging viewpoints," he says. "Flexible scheduling enables participants to attend two weeks, one week, one or two days, or as little as a two-hour evening."

For further information, write Dr. Hamelster in care of the Summer Series in Gerontology, Amy Gardner House, University Park, PA 16802, or call him at (814) 865-1767.

Ballroom Dance Club seeks faculty adviser

The Penn State Ballroom Dance Club is seeking a new faculty adviser and other persons interested in helping to teach the various styles of ballroom dancing — the fox trot, polkas, and Latin dances. Club members meet Friday evenings from 7 to 8:30 in Room 133 White Building. For further information, call Chris Brennan at 238-5711 or Fred Borchuck at 865-9774.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until p.m., May 8, 1990. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

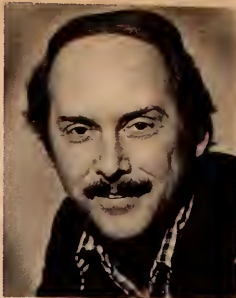

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT FOOD SUPERVISOR — HOUSING & FOOD SERVICE, University Park. Responsible for assisting in the supervision of dining hall operations. Duties include: preparing requisitions, supervising daily housekeeping of dining hall area, supervising food preparation, interviewing and hiring part-time employees and maintaining dining hall records. Bachelor's degree in hotel and restaurant management, institutional management, food and nutrition, or equivalent, with 3-12 months of effective experience.

SUPERVISOR, SURGERY RESEARCH ANIMAL LAB — COLLEGE OF MEDICINE, Hershey. Responsible for hiring, supervising, evaluating, and training Animal Care Technicians. Assist in the animal operating room in the implantation of artificial hearts and/or mechanical circulatory assist pumps, etc. Perform clinical lab work. Bachelor's degree in biology, plus one year of effective experience or any combination of experience and formalized training.

SENIOR CLINICAL DIETITIAN — COLLEGE OF MEDICINE, Hershey. Responsible for the development, coordination and evaluation of patient nutritional care and educational program in specialty areas, e.g. pediatrics, renal, critical care complex, radiology patients, etc. Serve as a nutrition specialist for physicians and other health care professionals. Establish, implement and evaluate standards of nutritional care for quality assurance studies. A bachelor's degree in food and nutrition or equivalent, plus an approved internship or traineeship and registration, and two to three years of effective experience. Master's degree is preferred.

COORDINATOR, CAMPUS RESIDENTIAL LIFE — Beaver, McKeessport Campus. Responsible for the Office of Student Affairs for carrying out specific responsibilities for the Residence Hall program. The responsibilities include administration of the conduct standards system, selection and supervision of student assistants, developing cultural, social and educational programs, and counseling of students. Bachelor's degree or equivalent, plus one to two years of directly related experience required; or a master's degree or equivalent in student personnel or related field, with three to six months of residential hall experience.

Robert O'Hearn

URTC invites guest designer

The University Resident Theatre Company's final presentation of the 1979/80 season, *The Taming of the Shrew*, opens tonight (May 1) in The Playhouse and continues through May 17. As with all the company's productions, the play features a mixed cast of student and professional performers. However, this is the first URTC show for which the scenic design has been created by a guest professional designer.

He is Robert O'Hearn, a designer whose name appears in *Who's Who in America* and who is a member of United Scenic Artists. His portfolio includes designs for plays, operas, and ballets — among them the *Marriage of Figaro*, *Parsifal*, and *Der Rosenkavalier* for the Metropolitan Opera Company. *The Nutcracker Suite* for the Los Angeles Ballet; *Carmen and Swan Lake* in Strasbourg; and *The Pearl Fishers* for the New York City Opera.

In addition to his design work with URTC, Mr. O'Hearn's residence at Penn State includes a series of lectures and seminars on design.

Tickets for *The Taming of the Shrew* may be reserved by calling 865-1884 from 10 a.m. to 6 p.m. Mondays and 10 a.m. to 9 p.m. Tuesdays through Saturdays.

'Concert in the Park' is slated

The University's Concert White Band will present its annual "Concert in the Park" at 7 p.m., Monday, May 5, at Fisher Plaza.

Selections will include tunes from the Broadway musical, *Annie*, a medley of other popular Broadway show tunes, marches from the era of the town park bands, and a travelogue of music from other lands.

The band is under the direction of Dr. Darhyl S. Ramsey, assistant professor of music education.

The audience is invited to bring blankets, lawn chairs, or even a picnic supper to the concert, to which admission is free.

In case of rain, the concert will be held Monday, May 12, same time and place.

Workshops are offered

Three Continuing Education workshops for secretaries will be offered this month in Keller Conference Center. They are:

— Stress and the Secretary, May 6: topics to include sources of stress in the work place, identifying personal symptoms, stress reduction techniques, and deep muscle relaxation.

— Oral Communication in the Office, May 16: topics to include overview of communication in the office, communicating interpersonally and nonverbal communication in the office; oral communication problems and strategies.

— Writing Skills for Secretaries, May 22: topics to include proper intention in communication, complex ideas and simple sentences, logic of grammar and punctuation, and diplomatic editing.

For further information contact the Conference Center at 865-7557.

Harvard astronomer to talk

"Stonehenge and Its Cousins: Megalithic Observatories" is the title of an illustrated lecture to be presented Tuesday, May 6, by Dr. Owen Gingerich, professor of astronomy and history of science at Harvard University.

The talk, which is scheduled for Room 119 Osmond Laboratory at 8 p.m., is sponsored by the Department of Astronomy and is part of the official observance of the University's 125th Anniversary.

Dr. Gingerich is noted for his ability to convey the excitement of astronomical topics in laymen's terms. The author of more than 200 technical articles and reviews, he has also written on astronomy in several encyclopedias and popular scientific journals, and he is widely known as the editor of a collection of Scientific American articles entitled "New Frontiers in Astronomy."

He serves as associate editor of the *Journal for the History of Astronomy* and on the editorial board of the *American Scholar*, the Phi Beta Kappa quarterly. At Harvard he teaches "The Astronomical Perspective," a core science course for non-scientists.

Dr. Gingerich has served two terms as President of the International Astronomical Union's Commission on the History of Astronomy and a term as councilor of the American Astronomical Society (AAS). He is currently organizing a Division of Historical Astronomy for the AAS. He is a member of the American Philosophical Society and the American Academy of Arts and Sciences.

HUB features ASLA display

The Professional Awards Traveling Exhibit of the American Society of Landscape Architects (ASLA) is on display through May 17 in the Browning Gallery of the HUB on campus.

The works of professional landscape architects, all honor and merit recipients in a national competition held by ASLA, were selected for the exhibit. Projects in the show range from designs for public and private housing to planning aspects for the Forest Service.

Pitt psychiatrist to give Arnold Lecture

Dr. Paul Pilkonis, assistant professor of psychiatry at the Western Psychiatric Institute of the University of Pittsburgh's Medical School, will speak at the third annual Carroll C. Arnold Memorial Lecture next week. The lecture, open to the public, will begin at 3:30 p.m. on Wednesday, May 7, in the auditorium of the Kern Graduation Building.

Speaking on "The Rhetoric of Mental Health," Dr. Pilkonis will discuss non-pharmaceutical approaches to personality problems, particularly depression.

The lecture series was established by the Department of Speech Communication to honor Dr. Arnold, who retired as professor emeritus of speech communication in 1977.

New office

(Continued from page 1)

interactions and aiding faculty members in building new ones will be primary Industrial Research functions," Dr. Cunningham adds. "Research under industry or industry-government agency support will be as usual be the responsibility of the principal investigator. Project negotiating assistance of the type provided by the SIR program will be available on request."

Mr. Lundy sees benefits to the University in terms of opening new sources of research support, exchange of ideas and knowledge between Penn State faculty members and industry.

development of long-term relationships for the faculty as well as good will for the University, and enhancement of employment opportunities in industry for students participating in research.

Dr. John W. Davis, a research associate in the Center for Air Environment Studies, and Dr. John W. White, professor of floriculture, have been named associate directors of Industrial Research and Innovation. Dr. White is a well known researcher in greenhouse energy conservation and has contributed to the concept of movable thermal blankets. He directs research in solar methods of heating greenhouses, heat storage in eutectic salts and water, and heat conserving properties of alternative greenhouse structures.

Dr. Davis is a specialist in air pollution abatement in industrial environments and has for several years researched the use of olive molding sand in reducing airborne silica in foundries. Such projects are vital to Pennsylvania foundries struggling to meet Office of Occupational Safety and Health Administration standards.

"In the next few months, we'll open a dialogue with industry executives about research and information exchange opportunities," explains Mr. Lundy. "We welcome contacts from faculty members interested in exploring new industrial research and will assist them in continuing or renewing present contacts."

Persons wishing more information should contact the Office of Industrial Research and Innovation, Room 225 Pond Laboratory, University Park, PA 16802 (814) 865-9519.

University policy regulates employment of minors

State and federal regulations and University policy on the employment of minors should be kept in mind by those who contemplate hiring summer help, according to the University's Employment Division.

The law defines a minor, for employment purposes, as anyone under age 18 who has not been graduated from high school. (There is an exception to this. If the chief administrator of the school district determines that an individual under age 18 has attained his or her academic potential and declares that a high school graduation is not required, that person no longer is considered a minor for purposes of employment.)

By University policy, PS-2,

Employment of Minors, a person under 16 years of age is not permitted to work for the University under any circumstances. In addition, by law, no minor age 16 or 17 may be employed by the University, even for one hour, unless he or she obtains and submits a certificate of employment (commonly called "working papers").

The certificate of employment is issued by the public school authority in which the minor resides. (Certain special

arrangements for obtaining certificates can be made for minors who attended school a long distance from the area in which they are being employed.) The employment certificate must be on file in the University's Employment Office (or appropriate business or personnel office at facilities away from University Park) before a minor begins to work. The certificate is issued for a special job, and a minor cannot be transferred from one job to another unless a new certificate is obtained for the new job. Also, the Employment Division must be notified when the minor terminates, so that the certificate can be returned to the issuing school district.

Where there is any doubt about the age of an applicant for a position, the applicant must submit a proof of age card. This card also is issued by the minor's school district. A birth certificate should not be requested.

Persons contemplating employing a minor should refer to policy PS-2. Any questions concerning the policy or the employment certificate procedure should be directed to the Employment Division at 865-1387 (Network number 475-1387).

Current faculty sabbatical policy is described by PS-17

Because of the current interest in sabbatical procedures at Penn State and because of some recent changes in these procedures, the Senate Office is publishing below the latest version of the policy PS-17, Leave of Absence with Pay (Sabbatical). PS-17 defines the eligibility requirements, the deadline for application, and other considerations of which the faculty must be aware.

PURPOSE: To provide a period of time for study or research, the object of which is to enable recipients to increase their usefulness in their work with the University. A leave with pay (sabbatical) is a privilege which may be granted to an individual who has demonstrated, preferably by published or otherwise recognized work, substantial ability in scholarship, research and training, or other creative work.

ELIGIBILITY FOR FACULTY: Faculty members with standing appointments are eligible for sabbatical leaves if all of the following conditions are met:

1. They hold the rank of Professor, Associate Professor, Assistant Professor, Senior Research Associate, Research Associate, Librarian, Associate Librarian, or Senior Academic Librarian. (This includes academic administrators carrying such ranks.)
2. They have served the University for a minimum of six calendar years, including at least 18 terms of full-time service;
3. They either:
 - a. Possess tenure, or
 - b. If in an untenured position have served at least seven years in one of the ranks listed in number one above. In such instances, the use of restricted funds for sabbatical leaves must be permitted by the granting agency.

ELIGIBILITY FOR CERTAIN STAFF-EXEMPT PERSONNEL:

The following personnel who have served the University effectively for a minimum of six (6) calendar years of active, full-time service and who have arranged to use the leave for graduate training are eligible to apply:

1. Cooperative extension personnel with the titles: Senior Extension Agent, Extension Agent, Associate Extension Agent, or Assistant Extension Agent.
2. Continuing Education personnel with the job titles of Assistant Director for Continuing Education, Area Director, Area Representative including Coordinators and Specialists in various subject matter or program areas.
3. Staff exempt personnel permanently assigned away from University Park and whose positions require the attainment of advanced degrees in the judgement of the appropriate functional member of the President's staff.

ELIGIBILITY FOR EXECUTIVES AND ADMINISTRATORS:

When unusual circumstances warrant, employees classified as Executive or Administrator who have served the University effectively for a minimum of six (6) calendar years of active full-time service may apply. Such applications shall be reviewed by a staff committee made up of the Provost and the two senior vice presidents which shall make a recommendation to the President.

AGE LIMITATIONS: A leave with pay is not granted to an individual who, because of mandatory retirement age requirements, would not provide two contractual years of full-time service to the University following return from leave.

APPLICATIONS FOR LEAVE: Application for leave with pay (sabbatical) shall be made on a form provided by the University (General Forms Usage Guide Form GS-19, see page 4.22) and shall be submitted with the department head's recommendation to the cognizant dean. The dean shall forward the application to the college-level sabbatical leave committee, which shall be appointed by the dean in consultation with the approved faculty organization. This committee shall review the application, consult with whomever is appropriate and desired, and submit its recommendations to the dean. The dean shall consider the recommendations of the department head and the college committee and, after careful fiscal and academic load considerations, determine whether to forward the application for review to the Provost of the University, with his/her own evaluation and recommendations appended. Applications which the dean decides to support are submitted to the Provost who appends his/her recommendations, giving particular attention to equity and fiscal considerations, and forwards them to the President of the University for final review and approval.

The director of the Intercollege Research

Programs and Facilities shall perform the same functions as the dean in appointing a review committee, reviewing applications, and submitting recommendations for faculty members associated with Intercollege Research Programs and Facilities. An institute or faculty director shall function as a department head in reviewing and processing applications.

In the case of faculty assigned to Commonwealth Campuses, the Campus Director shall forward his/her recommendations to the Dean of Academic Instruction for Commonwealth Campuses. The Dean shall review the recommendations and forward to the appropriate college dean those which he/she supports. All college deans will forward their recommendations for faculty at the Commonwealth Campuses to the Dean of Academic Instruction for Commonwealth Campuses, who shall be responsible for ensuring that equitable fiscal and academic load considerations are applied throughout the system.

If the Dean of Academic Instruction for Commonwealth Campuses and the college dean recommend against approval, the application shall not be sent to the Provost of the University. If both are positive in their recommendations, or if the recommendations are split, the application is forwarded to the Provost of the University.

GENERAL CRITERIA FOR REVIEW OF APPLICATIONS:

The following broad criteria are pertinent to the review and evaluation of sabbatical leave applications:

1. To what extent has the candidate demonstrated previous scholarly productivity in the area of proposed activity, and is the proposal a natural extension of prior experiences? If a change in scholarly direction is indicated, is a rationale presented?
2. Is the plan for the academic leave detailed, comprehensive, and sound? Are the objectives specified, is the significance of the work described, is the methodology appropriate, and are the expected products listed?
3. Is the candidate committed to the project and is he/she prepared to do what the plan proposes?
4. To what extent will the academic leave contribute to the candidate, to his/her colleagues, and to undergraduate, graduate, public service, and research programs in the department and college?
5. Can assurance be given that approval of the sabbatical leave will not jeopardize the quality and scope of the program and that the candidate's responsibilities can be maintained in his/her absence?
6. If the candidate is to visit or coordinate work with another facility, is there evidence that the candidate has contacted those responsible for that facility and has been accepted by them?
7. To what extent does the proposal have the support of the candidate's department head and/or faculty colleagues?

PRESENTATION BY DEAN: The dean is responsible for evaluating the proposal in terms of the above criteria, and should present information support applications for leaves with pay. It is essential that the applicant submit a carefully developed plan for the use of the leave indicating how the completion of the plan will enable the applicant to improve research and/or teaching ability and other services to the University.

APPROVAL OF LEAVES WITH PAY: The decision on applications for leaves with pay will be made by the President after consideration and recommendation by the Provost.

DEADLINE FOR APPLICATION:

Applications for leave of absence with pay shall be submitted to Personnel Administration by November 15 for action by January 1.

LENGTH OF LEAVE: The leave with pay may be granted for a maximum of one calendar year (four terms). The period of leave may include terms in two consecutive academic years. However, such leaves are granted only for terms during the faculty member's regular salary contract period. Pay for such a leave comes from either University funds or sponsored project funds if permitted by the sponsor.

SALARY PAYMENTS WHILE ON LEAVE:

Those eligible for a leave with pay may elect to apply for one of the following options:

If Salary Contract Is	Salary Payments May Be For
Plan A	(a) 2 terms (6 months or 24 weeks) at full pay (b) 3 terms (9 months or 36 weeks) at two-thirds pay (c) 4 terms (12 months or 48 weeks) at half pay
Plan M	(a) 2 terms (6 months or 24 weeks) at full pay (b) 3 terms (9 months or 36 weeks) at two-thirds pay
Plans B through L	(a) 2 terms (6 months or 24 weeks) at full pay (b) 3 terms (9 months or 36 weeks) at two-thirds pay (c) the entire year of service off with pay not to exceed the minimum dollars payable in option (a) above

No additional financial support of any kind other than that provided in this section shall be provided by the University.

MEMBERSHIP IN EMPLOYEE BENEFITS WHILE ON LEAVE:

An individual who is granted a leave and who is a member of the University's insurance program is required to maintain membership during the leave. If the individual is a member of a retirement plan in effect at the University, the individual is required to contribute to that plan. The amount that is contributed is determined by the salary received from the University during leave. (NOTE: An individual who is granted a leave of absence with less than full pay within three years of retirement should contact the Employee Benefits Division to determine in what manner the leave of absence will affect retirement income.)

ELIGIBILITY FOR EDUCATIONAL PRIVILEGES:

A person who is on leave of absence with pay and who is eligible for education privileges will retain those privileges during the period of the leave. Dependents of faculty or staff members who are eligible for Grants-In-Aid will retain the eligibility during the time that the staff member is on leave with pay.

RETURN TO ACTIVE SERVICE REQUIREMENT:

Individuals granted leaves with pay are required to return to full-time active service with the University for two (2)

consecutive contractual years or, if they do not return or do not remain for the full two years, to refund all of the salary received from the University during the leave. There will be no proration of the amount to be returned if an individual remains for any time less than the two years.

REPORT OF WORK ACCOMPLISHED: At the conclusion of the leave, the recipient is required to submit a report of the work accomplished to the President via the department head and dean. The report should indicate how the experience improved the recipient's capacity to serve the University. In general, the reports are to be submitted within two months of the return from leave.

SUBSEQUENT LEAVES WITH PAY: An individual becomes eligible to apply for a subsequent leave with pay under the terms and conditions specified above, provided that a period of at least six (6) calendar years of active full-time service, including at least eighteen (18) terms of active full-time service, have passed since beginning a previous leave with pay.

Campus Update

Donald Gravatt, deputy commissioner of the Philadelphia Police Department, will deliver the principal address at a two-day conference on urban crime, sponsored by the Delaware County Campus on May 2 and 3.

The conference will examine the dimensions of urban crime from the viewpoints of law enforcement officers, correctional personnel, municipal and community leaders, and educators. Representatives from colleges and agencies in six states will participate in panels and discussions.

Provost Eddy will deliver the opening remarks. In addition to Mr. Gravatt's talk, panel discussions are planned on women and crime, sentencing reform, use of deadly force, and community crime prevention.

The conference, which is part of Penn State's official observance of its 125th anniversary, is one of a series of annual public conferences sponsored by Delaware County to examine various problems in contemporary life.

Report of Nominating Committee for 1980-81

The Nominating Committee, consisting of the elected representatives of Senate Council, met April 24, 1980. The following list of nominees was transmitted to the Chairman of the University Faculty Senate prior to the April 24, 1980, Senate Council meeting for subsequent distribution with the Agenda for the May 6, 1980, meeting of the University Faculty Senate. Additional nominations may be made from the floor of the Senate May 6, 1980.

AMOCO, DiMeo recipients will be honored on Sunday

Four Pennsylvania State University faculty members have been named recipients of the 1980 AMOCO Foundation Outstanding Teaching Awards, given to recognize excellence in teaching performance by senior faculty members in the undergraduate program.

The recipients are H. Eugene Goodwin, professor of journalism at University Park; Robert B. Mitchell, associate professor of biology at University Park; Mervyn C. Mills, associate professor of English and humanities at the Ogotz Campus; and Harold W. Aurand, associate professor of history at the Hazleton Campus. A \$1,000 check accompanies each award.

Provost Edward D. Eddy said the recipients were chosen from a group nominated by faculty members and students and were recommended as finalists by a University Council committee of faculty members and students chaired by Dr. Robert E. Dunham, vice president for undergraduate studies.

The awards will be presented at the May 11 Honors Convocation.

Prof. Goodwin, a former reporter and

editor for the *Washington Star*, the Associated Press and the *Baltimore Sun*, came to Penn State in 1957 as director of the School of Journalism, resigning the post in 1969 to teach full-time. According to Dr. Robert O. Blanchard, current director of the School, Prof. Goodwin is "a demanding teacher who can teach both skills and theory courses and both lecture and lab courses."

His curricular contributions to the School involved transforming the news editing course from a seminar to a practical editing course in which students produce a simulated newspaper under deadline; redeveloping the news media ethics course from lecture format to that of panel discussion; and helping to develop the School's Language Usage Test, also used by newspapers and other journalism schools. A student of Prof. Goodwin's writes: "In four years at Penn State, no other professor has influenced my life in more ways... he is the best there is."

Dr. Mitchell, who joined Penn State's Department of Biology in 1969, last year won the C.I. Noll College of Science Outstanding Teaching Award. He has developed two undergraduate courses, the

Biology of Man and the Biology of Aging, the latter being cited for its innovativeness by the American Gerontology Institute. He also is faculty adviser to the PSU Biological Society, an undergraduate organization.

The College of Science AMOCO Award Nomination Committee said that, "When the results of class evaluations were completed by students in all his courses, he consistently received the highest possible rating by an average of 80 percent of the respondents." A student of Dr. Mitchell's writes: "In the classroom he is enthusiastic and vibrant. His interest and love of the material he teaches can easily be seen by the amount of preparation and creativity found in each lecture."

Dr. Mills, who joined the Ogotz faculty in 1959 and received the Campus's Outstanding Teaching Award in 1976, teaches courses in Science, Technology and Society, theatre, film, the arts, English and an integrated English/history course he helped to develop with Dr. Claire Hirshfield. As coordinator of the English faculty at Ogotz, he was instrumental in establishing the Campus's Reading and Writing Center and helping to design the

(Continued on page 4)

Dr. John J. Coyle, professor of business administration, director of the undergraduate program in the College of Business Administration and head of the Department of Business Logistics, is the recipient of the first Raymond R. DiMeo Award for Instructional Improvement.

Formal presentation of the award will be made by Dr. Robert E. Dunham, vice president for undergraduate studies, Sunday, May 11, at the University's Honors Convocation in Eisenhower Auditorium.

The DiMeo Award, which consists of a certificate and \$500, is intended to recognize and encourage significant contributions by a faculty member for the improvement of undergraduate instruction over and above classroom teaching performance. Penn State faculty members at all campuses are eligible.

Dr. Coyle will be recognized for his multi-faceted service and for his key role in developing new and innovative undergraduate courses.

He was the developer of Business Logistics 102, a course which uses a multi-media approach. Offered at nine locations

(Continued on page 4)

Faculty invited to Honors Convocation

All faculty members are invited to participate in the academic procession of the 1980 Honors Convocation, to be held at 2 p.m. Sunday, May 11, in Eisenhower Auditorium.

More than 300 undergraduates and five faculty members will be recognized for academic excellence during the program.

Dr. J. William Holl, professor of aerospace engineering and 1973 winner of the Christian R. and Mary F. Lindback Award for Superior Teaching, will address honored students, their families and Penn State faculty members and guests on "The Sessaw of Life."

Faculty members in academic regalia — which they should supply themselves — should plan to meet platform party members in the Green Room of Eisenhower Auditorium no later than 1:45 p.m. Seating in the front rows of the auditorium will be reserved for those in the procession. Faculty and staff not wishing to be members of the procession are invited to attend the program as members of the audience.

Vision care coverage begins July 1

Beginning July 1, 1980, vision care coverage will be provided at no cost to all regular full-time faculty and staff members of the University.

Enrollment cards will be mailed to all eligible persons. They should be completed and returned to the Employee Benefits Division (Room 133 Willard Building) no later than June 6, 1980.

If dependent coverage is elected, the contribution (through payroll deduction) will be \$1.08 for those paid monthly and 50 cents for those paid biweekly.

The plan will provide a benefit of 100 percent of the first \$10 of eligible charges incurred by a covered individual and an additional benefit of 80 percent of charges in excess of \$10, up to a maximum total benefit of \$45, in the first benefit period. The first benefit period of the program will begin from July 1, 1980, through Dec. 31, 1981 (18 months). Thereafter, it is anticipated that the benefit period will be on a calendar year basis (Jan. 1-Dec. 31).

Descriptive information, a claim form and an envelope in which a vision claim may be filed directly with the Equitable

Life Assurance Society will also be mailed to each regular full-time faculty and staff member. Booklets providing a detailed explanation of the program will be distributed as soon as they are printed.

The most common eligible charges which will be covered up to the limits described will be: 1) one vision examination (including refraction) by a qualified provider of service during a benefit period; 2) one set of lenses during a benefit period; 3) one set of frames during any two consecutive benefit periods.

With the addition of the Vision Care Plan to the University's benefits program, it should be remembered that: 1) hospital/surgical/major medical claims are submitted to the Employee Benefits Division; 2) dental claims are submitted directly to the Prudential; and 3) vision care claims are submitted directly to the Equitable Life Assurance Society.

Persons with questions about this new benefit program should contact their personnel representatives, business managers or the Employee Benefits Division (865-1473, Network 475-1473).

Bus service will link boroughs

Centre Line weekday bus service between Bellefonte and State College will begin Monday, May 12, the Centre Area Transportation Authority has announced.

"The new service is being provided to help ease the energy situation, and we hope it will be used by the hundreds of University faculty and staff members who commute from the Bellefonte-Milheim area," said Dr. Peter B. Everett, associate professor of man-environment relations and chairman of the CATA Operating Committee.

"University employees who live in outlying areas and drive through Bellefonte might also wish to use the service, because four free parking areas will be available in downtown Bellefonte for them to park their cars and board the bus," he added.

An extension of Centre Line's State College-Nittany Mall "X Route," the new line will travel Route 26 from the Mall to Bellefonte. The fare for the 12-mile ride will be \$1 per person one way.

(Continued on page 4)

Penn Staters

Dr. Wilbur Zelinsky, professor of geography, has received a Guggenheim Fellowship for 1981-82 to support a study of the modern nation-state and the manipulation of cultural symbols. Dr. Zelinsky's fellowship is one of 276 awarded to scholars, scientists and artists chosen from 3,066 applicants in the Guggenheim Memorial Foundation's 56th annual competition. The grants are made on the basis of demonstrated accomplishment in the past and strong promise for the future.

A total of 96 American colleges and universities are represented by the recipients, whose awards total \$4,605,500.00 for 1981-82. Dr. Zelinsky was among eight faculty members at six different Pennsylvania educational institutions who received grants, and his was the only one received by a Penn State faculty member.

A member of the Penn State geography faculty since 1963, Dr. Zelinsky served as department head from 1970-76; he also served as director of the University's Population Issues Research Office from 1972-74. He has held a number of positions in the Association of American Geographers, including the presidency in 1972-73.

Dr. Arthur W. Rose, professor of geochemistry, recently assumed the presidency of the Association of Exploration Geochemists at its biennial international symposium in Hanover, West Germany. Dr. Rose also presented a paper at the symposium, "Regional and Local Uranium Anomalies in the Devonian Catskill Formation near Sandstone-type Uranium Prospects in Pennsylvania."

Dr. Toby N. Carlson, associate professor of meteorology, was one of eight U.S. scientists invited to attend a joint American/European meeting of the Heat Capacity Mapping Mission (HCMM) Experimental Team in Ispra, Italy. Sponsored by NASA, the conclave was held to discuss results of indirect soil moisture measurements taken by the HCMM satellite.

Dr. John C. Griffiths, professor emeritus of petrography, recently gave an invited seminar on "Problem Solving in Geosciences" to students and faculty in Kent State University's Department of Geology.

Dr. Hans A. Panofsky, Evan Pugh Professor of Atmospheric Sciences, recently gave a seminar on "Threats to the Ozone Layer" at Colorado State University.

Leslie P. Greenhill, professor emeritus of education and director emeritus of the UDIS, has completed a four-city lecture series on the use of scientific film. The tour was sponsored by the Goethe Institute, a Munich-based organization concerned with the dissemination of information about German culture, especially education and science. Audiences in New York, Boston, Miami and Ottawa heard Mr. Greenhill's address on "Film as a Means of Safeguarding Source Material in Ethnology." He also spoke in Miami and Ottawa on "Film as an Instrument for Research in the Technical Sciences."

Dr. John R. Daugherty, assistant professor of environmental resource management, has been elected to the board of directors of the National Association of Environmental Professionals. The Association is an interdisciplinary professional society of persons engaged in all aspects of the environmental process, including education, assessment, administration and implementation.

Bookshelf

Money and the Financial System: Theory, Institutions and Policy by Raymond E.

Lombra, James B. Herendeen and Raymond C. Torto, has been published by McGraw-Hill, Inc. Dr. Lombra is an associate professor and Dr. Herendeen a professor of economics at the University. Dr. Torto teaches at the University of Massachusetts at Boston.

Their book, which is intended as an undergraduate text for courses in money and banking and financial markets, presents an integrated view of the functioning of the economy. The role of money and the financial system in determining the aggregate level of output, employment, prices, and interest rates is emphasized. The book explains the major determinants of spending, saving, investing, and financing decisions for the household, business, government, and foreign sectors of the economy. These sector decisions are combined to determine aggregate economic behavior.

Special emphasis is also given to the behavior of the Federal Reserve System and its role in influencing the money supply, interest rates, and the rate of inflation. In addition, the authors discuss the role of fiscal policy, the interrelation between fiscal and monetary policy, and policies aimed at moderating inflation through increasing the aggregate supply of output.

To acquaint educators, practitioners and students with the long and rich history of rural social work, Dr. Emilia E. Martinez-Brawley, assistant professor of social welfare, has collected a group of writings for a new book, *Pioneer Efforts in Rural Social Welfare: Firsthand Views since 1908*. The book was published by Penn State's Press.

In a foreword, Leon H. Ginsberg, commissioner of the West Virginia Department of Welfare, notes that "the book provides the best collection of information ever gathered together in one place on approaches through the years to the problems of American small towns and rural areas. . . . Learning how we came to be what we are is both interesting and enjoyable. It also helps us do our jobs more adequately."

The book is organized into three sections: Rural Welfare, 1908-1916; World War I, the Postwar Years, and the Regionalization of Rural Services, 1917-1927; and The Depression and the New Deal.

Dr. Martinez-Brawley, noting that the birth of rural social work can be traced to the Country Life Commission of 1908 appointed by President Theodore Roosevelt and the National Conference of Charities and Corrections of the same year, begins the collection with the President's message transmitting his Commission's report to Congress. Readers will become acquainted with the pioneering work done by church groups, the YMCA, the Red Cross and the Family Welfare Association. The great influence of both defunct and surviving magazines is stressed. Other articles are devoted to the vision of pioneer workers in the field, including such well known figures as Gifford Pinchot, L.H. Bailey and Henry Wallace.

Promotions

Staff Exempt

Michelle Jais to administrative aide at Hazleton.

Staff Non-Exempt

Sherry K. Koch to OPD credit and collection aide at Hershey.

Clerical

Sharon R. Hassinger to secretary B in Health, Physical Education and Recreation.

Technical Service

Robert G. Brodzina to maintenance worker general C in Physical Plant.

Harry J. Crater to maintenance worker utility in Physical Plant.

Richard O. Lowery to machinist A in Applied Research Laboratory.

Daniel F. Smith to maintenance worker utility in Physical Plant.

John M. Wojcik to bookstore helper at Delaware County.

Retirements

Mary Leona Price, a stockroom clerk/laboratory attendant in the College of Agriculture, retired April 1 with 20 years of service to the University.

She began her employment on July 22, 1959, as a maid for Housing and Food Services, working in North Halls for 10 years before transferring to the Department of Plant Pathology in 1969.

Mrs. Price and her husband, Carl, have three married daughters; one, Carol Cunningham, is a janitress for Maintenance & Operations. The Prices reside in Port Matilda.

Ilda F. Stapen, a secretary at the New Kensington Campus since Oct. 1, 1968, retired April 1.

Obituaries

MacLean M. Babcock, 92, professor emeritus of industrial engineering at the University, died on April 8. He joined the Penn State faculty in 1916, and was promoted to full professor in 1946.

Born June 10, 1887, in Saugatuck, Mich., Prof. Babcock earned his B.S. at Michigan State University in 1910 and his M.S. at Penn State in 1922.

Martha B. Bardo, a Continuing Education secretary from 1944-67, died on April 24. She was born on April 26, 1904.

Mary C. Leigey, a counterwoman with Housing & Food Services from 1958-70, died on April 24. She was born Nov. 29, 1904, in Snow Shoe.

Robert H. Younker, 49, a lead painter with the Office of Physical Plant, died on April 27. Mr. Younker, born July 31, 1930, in Huntingdon, Pa., had been a University employee since 1953.

Elsewhere in Academe

Stepped up recruiting among the various constituencies for higher education could produce over a million more students than might be expected from current projections based on demographic data and present enrollment patterns, according to an American Council on Education study, "College Enrollment: Testing the Conventional Wisdom Against the Facts."

Among groups which the A.C.E. report targets are minority and lower income groups, women aged 18 to 34, and men aged 35 to 64. The study also examines potential markets among foreign students and the possibility of providing more courses for industrial employees. By attracting only slightly larger percentages of these constituencies to higher education, a projected loss through the 1980s of 797,000 students might be turned into a gain of more than 300,000, the study concludes.

Colleges and universities in many states are finding the competition for appropriations

unusually keen this year, according to a recent story in the Chronicle of Higher Education. Financial problems for higher education are compounded by declining balances in state treasuries, a recession which decreases state revenues while increasing welfare program spending demands, erosion of the purchasing power of state appropriations by inflation, and the threat of the federal government to cut off revenue sharing with the states. Since over half the money that states receive from revenue sharing is earmarked for education and social services, cutbacks in this area would drastically affect public education programs, according to Gov. Harry Hughes of Maryland, testifying for the National Governors Association before the House Intergovernmental Relations and Human Resources Subcommittee.

Information due on professional activities

Member of the faculty and staff who wish their publications and professional activities listed in the University's annual bibliographies should send this information to their department heads, research deans, or intercollege research unit directors.

Detailed instructions for the submission of these listings have been supplied by Dr. R.G. Cunningham, vice president for research and graduate studies, in a memo available from department heads and research deans.

Commonwealth Campus faculty should send their listings to their department heads at University Park, with an informational copy to their Campus director and Commonwealth Campus dean.

Submissions should be in the department head's hands in sufficient time to reach the Office of the Vice President for Research and Graduate Studies by July 31.

The bibliography is printed in two publications, "Research Publications and Professional Activities" and "University Publications and Reports to Agencies."

Materials suitable for submission include research papers and articles, books reviewed and printed by established publishers, substantive and/or final reports sent to state and federal agencies, informational material (articles and reports printed in non-standard journals), novels, short stories, musical compositions, exhibits of fine arts, inventions, patents, and any other activity that meets recognized standards of excellence in its field.

(34-1) The Fulbright University Teaching and Advanced Research Abroad Program will make more than 500 awards in 1981-82. More than 100 countries have requested American scholars in fields ranging from accounting to zoology. About 75% of the awards are for university teaching, but there is usually also time for research. Announcement booklets are available from the Council for International Exchange of Scholars (CIES) (202-834-4960). Some copies are available from Research Information Service (RIS), 8 Old Main (865-1372). The Faculty Fulbright Advisor is Richard L. Grube, 208 Engineering C (865-3741). The application deadlines are June 1, 1980, and July 1, 1980. (Ref. CIES Announcement).

INTERCOM is an internal communications medium published weekly during the four terms of the class schedule for the faculty and staff of The Pennsylvania State University.

Arts Roundup

News in Brief

Dr. Somers

Health care expert to discuss geriatrics

Anne R. Somers, professor of community medicine and family medicine in the College of Medicine and Dentistry of New Jersey-Rutgers Medical School, will speak on "The Geriatric Imperative" at 8 p.m. Wednesday, May 14, in the HUB Auditorium.

Her presentation, open to the public, is part of the Spring Colloquium Series of the Community Systems Planning and Development grant program of the College of Human Development.

She is co-author of the book, *Health and Health Care: Policies in Perspective*, which received the 1977 Norman A. Welch M.D. Memorial Award for "meritorious contribution to the literature of medical economics" from the National Association of Blue Shield Plans.

She is author or co-author of a half dozen other books, including *Health Care in Transition: Directions for the Future*; *Hospital Regulation: The Dilemma of Public Policy*; *Medicare and the Hospitals: Issues and Prospects*; *Doctors, Patients and Health Insurance: The Organization and Financing of Medical Care*; and *Workmen's Compensation: The Prevention, Insurance, and Rehabilitation of Occupational Disability*.

The author of more than 100 articles and monographs, Prof. Somers serves on the editorial boards of *Diabetes Care*, *Inquiry*, *Forum on Medicine*, *Health Education and Patient Counseling*, and *Family and Community Health: The Journal of Health Promotion & Maintenance*.

A member of the National Academy of Sciences-Institute of Medicine and its Advisory Committee on Health Promotion and Disease Prevention, she received the Distinguished Career Award from the American Public Health Association's Public Health Education Section in 1978.

She is an honorary Fellow of the American College of Hospital Administrators and the College of Physicians of Philadelphia. In 1975, she received an honorary doctor of science degree from the Medical College of Wisconsin.

South Pacific educator, writer in residence

Albert Wendt, educator, novelist, short story writer and poet, will be a guest at the University from May 10 through May 15.

He will address the Comparative Literature luncheon group at noon on Tuesday, May 13, at the Hotel State College. His topic will be "Conflicts of Modernization in Pacific Literature."

Born in Western Samoa and educated in Samoa and New Zealand, Prof. Wendt is lecturer in Commonwealth and South Pacific literature and creative writing at the University of the South Pacific and director of the University of the South Pacific Center in Apia. He was formerly principal of Samoa College.

Among his published works are two novels, *Sons for the Return Home* and *Pouliuli*; a collection of short stories, *Flying-Fox in a Freedom Tree*; and a collection of poetry, *Inside Us the Dead*.

Another novel is in progress. His visit is sponsored by the Department of Anthropology, the Institute for the Arts and Humanistic Studies and the Center for the Study of Higher Education.

Weekend gem, mineral show to be held in Wagner

The Nittany Valley Mineral Club, sponsored by the Department of Geosciences, will hold a gem and mineral show from 10 a.m. to 9 p.m. Saturday, May 10, and from noon to 6 p.m. Sunday, May 11, in the Wagner Building Drill Room.

The show will feature various demonstrations, dealers, displays, faceting, fossils, gem stones, jewelry making and supplies, lapidary materials, and mineral specimens.

Computer Graphics Film Festival is May 13

A Computer Graphics Film Festival, sponsored jointly by the Computer Science Club and the Computation Center, will be presented by Dr. Ingrid Carlsson at 8 p.m. Tuesday, May 13, in Room 102 Forum Building.

Movies and video tapes covering such diverse graphics application areas as engineering, mathematics, medicine, chemistry, aerospace, TV commercials, computer art, and commercial movies will be shown. Some highlights include "Voyager 2 Encounters Jupiter"; "The Human Brain," winner of 12 awards, including first prize at the International Science Film Festival in Philadelphia, 1976; "Hunger," an Academy Award nominee and winner of a Special Jury Prize at the Cannes Film Festival; and short clips from *Star Wars* and *The Black Hole*.

Ethics subject of talk by Hershey professor

Dr. K. Danner Clouser, professor of medical humanities at the Hershey Medical Center, will speak on "Problems of Applying Ethical Theory to Practice" this evening (May 8) at 8 p.m. in Room 202 Borland Laboratory. The program, open to all, is presented by the Center for Value Studies and Professional Ethics.

Phi Beta Kappa annual banquet May 10

Penn State's Lambda Chapter of Phi Beta Kappa will hold its annual banquet and initiation of new members on Saturday, May 10, at the Nittany Lion Inn. The event will begin with a reception at 5:30 p.m. in the Fireside Room, followed by the banquet and initiation at 6 p.m. in the Assembly Room.

The evening's speaker will be Dr. Dale B. Harris, professor emeritus of psychology and human development, on "Humanizing the Social Sciences." Members may make reservations by calling Dr. Roland H. Good, chapter secretary, at 865-7533.

Spring enrollment up

Spring Term enrollment at the University totals 48,742 resident instruction students, an increase of 1,541 over last year.

A total of 29,622 students, 262 more than last Spring Term, are enrolled at the University Park campus. Enrollment at the Commonwealth Campuses is 14,584 — up 1,073. The Behrend College, the Milton S. Hershey Medical Center and the Radnor Graduate Center also showed increases.

"I am very pleased with the continued growth of enrollment across the University system," said Dr. Robert E. Dunham, vice president for undergraduate studies. "The increase for Spring Term is even greater than the increase for the Winter Term, indicating an improvement in the retention of students."

Spring Term enrollment is 2,064 students at the Capital Campus; 1,591 at the Behrend College; 524 at the Milton S. Hershey Medical Center and 357 at the Radnor Graduate Center.

Princeton philosopher is Dotterer lecturer

Dr. Richard Rorty, professor of philosophy at Princeton University, will present the Philosophy Department's 11th Annual Dotterer Lecture at 8 p.m. Tuesday, May 13, in Room 305 HUB. His topic will be "Nineteenth Century Idealism and Twentieth Century Textualism."

Dr. Rorty, president of the Eastern Division of the American Philosophic Association, is the author of *Philosophy and the Mirror of Nature* and the editor of *The Linguistic Turn: Recent Essays in Philosophical Method*. He has worked in the areas of philosophy of mind, philosophy of language, American pragmatism, and the history of philosophy.

He has taught at Yale and Wellesley College and has been a visiting professor at Catholic University of America, the University of California at Santa Barbara, the University of Pittsburgh, and J.W. Goethe Universität. In addition, Dr. Rorty was a Fellow of the American Council of Learned Societies (1969-70) and a Guggenheim Fellow (1973-74).

The Dotterer Lecture Series was created in honor of the late Professor Ray Dotterer, head of the Department of Philosophy from 1938-47.

Hort holding Mother's Day sale

The Department of Horticulture is sponsoring a Mother's Day Flower Sale from noon to 4 p.m. on Saturday, May 10, behind Tyson Building.

Available are bedding plants, flowering baskets, geraniums, fuchsia baskets, impatiens, outdoor perennials and many other flowering plants.

Summer Term calendar data due

The deadline for submitting items to be included in the University Park Summer Term Calendar is Friday, May 16. Items should be addressed to Calendar Editor, Room 312 Old Main (865-2501).

Campus Colleagues to hear Dr. Emily Taylor

Dr. Emily Taylor, director of the Office of Women in Higher Education, American Council on Education, will lead an informal discussion during the Campus Colleagues meeting on Thursday, May 15, from 4:30-6:30 p.m. in the Assembly Room of the Nittany Lion Inn.

AMOCO

(Continued from page 1)

Ogontz Educational Opportunity Program.

An adult student enrolled in his experimental Arts 198A course recalls: "Dr. Mills has unparalleled energy and enthusiasm... I have never in my life had a course with anyone like Dr. Mills — and that includes four years at Cornell, two and a half at Temple and 27 credits at Penn State, plus others."

Dr. Aurand, who joined the Hazleton faculty in 1964 and subsequently received its Outstanding Teaching Award, has teaching and research interests in the social and labor history of the anthracite coal

regions. He is author of the book "From the Molly Maguires to the United Mine Workers (1971). He teaches a variety of history courses, including one of his own development, American Immigration. In his courses in American Labor History and Mining Lore and Literature, he arranges to have older persons and retired coal miners come to class for discussions and interviews.

Typical of the comments from his students is: "I learned why things happened, not when they happened... This is the first time I enjoyed history."

DiMeo award

(Continued from page 1)

in the Penn State system, it annually reaches over 2,000 students through either live instruction or pre-recorded tapes.

During the last two years, he helped develop a communications honor course, jointly offered by the College of Business Administration and the Department of Speech Communication. He also helped establish a career development course for business administration students.

According to the nominating petition, Dr. Coyle "has grown in excellence along with the College of Business Administration and the University. Although he serves the College in many capacities... Dr. Coyle's primary interest lies with the student and with the improvement of undergraduate instruction."

After receiving bachelor's and master's degrees in business administration from Penn State, in 1957 and 1959, respectively, Dr. Coyle earned a doctorate at Indiana University. While at Indiana (1959-62), he held a U.S. Steel fellowship.

In 1961, he joined the Penn State faculty as an assistant professor of business administration. He became a full professor in 1967 and a department head in 1973.

Students in the College of Business Administration have recognized Dr. Coyle's contributions four times, voting him the outstanding teacher and the outstanding adviser awards twice each.

Bus link

(Continued from page 1)

"The fare is much cheaper than driving," Dr. Everett points out. "Studies by private insurance firms peg the current cost of driving a car at anywhere between 29 to 40 cents per mile; the bus line rate is about eight cents per mile."

Even cheaper rates will prevail if riders buy an annual pass for \$190, a three-month pass for \$50, or a "Big 22" ticket yielding 22 rides for \$20.

To acquaint potential riders with the new line, CATAs is distributing packets containing route maps, schedules and coupons for five free rides. University employees may obtain the packets by contacting their parking coordinators.

Though the schedule had not been completely worked out by INTERCOM's deadline, Dr. Everett said buses will leave Bellefonte and State College every half hour between 6 a.m. and 8 a.m., every hour between 8 a.m. and 4:30 p.m., and every half hour between 4:30 and 6:30 p.m. Mondays through Fridays. The line will not operate on weekends.

The "park and ride" lots in Bellefonte will be located at: the Willowbank Building; the church parking lot next to Centre Crest; the Department of Public Welfare; and the National Guard Armory. A fifth lot will be available at the Nittany Mall.

More details will be published and aired through local media, Dr. Everett added.

Penn State Intercom

Barash, Donkin and Wilkinson award winners named

What distinguishes a good administrator?

"My philosophy is to delegate responsibility. An administrator has only a limited capacity to keep on top of a large number of details," says Graduate School Dean James B. Bartoo.

The recipient of this year's John E. Wilkinson Award for Administrative Excellence, Dean Bartoo has served Penn State as head of the Department of Mathematics and Statistics, dean of the Graduate School, acting vice president for research, interim provost, and executive officer of the College of Human Development.

He lays no claims to being a "perfect" administrator. "I don't always meet deadlines," he notes, "and sometimes I forget things. I often operate with a lot of clutter, and I've even been known to move slightly beyond University policy. But if I have been able to be helpful in some of my administrative assignments, it's because of the good people around me. The people I work with in the Graduate School keep the operation going."

Dean Bartoo joined the faculty in 1952, a graduate of Edinboro State College with M.S. and Ph.D. degrees in mathematics from the University of Iowa. He began his administrative career in 1960.

"Whether I work for the College, the Boy Scouts, or whatever, I believe that I'm in this world to serve my fellow man."

The words are those of Dr. Robert Flipse, who has been

President Oswald will present the three all-University awards to their recipients at a special program this weekend.

chosen to receive the 1980 Barash Award for Human Service.

Dr. Flipse's philosophy was impressed upon him through the actions of his uncle, with whom he lived while growing up on a Kansas farm.

"I was the oldest of five children," he recalls, "and I lost both my parents when I was eight years old. My uncle, who was a bachelor, took us all in and reared us. Those were the Depression years, and he was hard pressed to earn his living from farming. But he gave me the opportunity to develop and even helped some while I was working my way through college. It's because of him that I feel an obligation to help others."

(All of the above stories continue on page 4)

When Dr. Robert S. Friedman came to Penn State in 1968 as head of the Department of Political Science, he lost little time involving himself in service to the University.

His University activities were a logical outgrowth of his scholarly interests. "My field is the politics of bureaucracy, so I have a natural curiosity about organizations," he notes. "As a result, it's a pleasant task to participate in University service while also engaging in a learning experience of professional value to me."

Currently, his committee work includes membership on the President's Faculty Advisory Committee and the Provost's Committee on Planning and Budget, activities which account, in part, for his being named recipient of the 1980 McKay Donkin Award.

The award is given annually to the full-time faculty or staff member or retiree who has contributed most to the "economic, physical, mental or social welfare of the faculty."

"When I came to Penn State," Dr. Friedman recalls, "the political science department was experiencing some internal turmoil. My first task was to try to bring a modicum of peace to a group of scholar-teachers in a high quality environment. I saw my role as being a catalyst to

Senate approves report of the Basic Skills Committee

Meeting for the first time outside University Park, the Faculty Senate devoted most of its May 6 session at the Altoona Campus to a debate on the report of its Special Committee on Basic Skills and to the wording of a recommendation proposed by Curricular Affairs on 800-level courses.

In his introductory comments, President Oswald noted the growing part which the Commonwealth Campuses continue to play in the undergraduate educational mission of the University. He pointed out that when he became president in 1970, 18 percent of the University's baccalaureate degree recipients started their educational careers at a Campus. The figure is currently close to 50 percent.

The most controversial section of the Basic Skills Report (May 1 INTERCOM) was the recommendation to discontinue offering Math 0 since it "is not directly linked to subsequent courses in mathematics nor is it a prerequisite to any other mathematics course."

Senator Donald Rung, professor and head of mathematics, explained that the material covered in Math 0 is on a seventh and eighth grade level, that Math 0 was designed to help students remove basic skills deficiencies, and that he felt this charge had been fulfilled.

Senator Thomas Daubert pointed out

that students can graduate from Penn State without taking a single course in mathematics, and his concern was echoed by a number of senators, among them Robert Blackson (Altoona), who noted that there was no assurance in the proposed legislation that students would have learned basic arithmetic skills before they graduated from Penn State.

Senator Patricia M. Overdeer (Ogontz) reported that "most of the students we get in Math 0 really need individual help, and they won't get it at a learning center where they sit by themselves and read."

Senator Richard McCarl remarked that there are still several units at Penn State which do not require mathematics as a prerequisite and the problem should be handled by these programs and not by basic skills legislation.

Commenting on the debate, Senator Robert E. Dunham, vice president for undergraduate studies, said that there have been persons who have passed Math 0 with a grade as high as an "A," who subsequently failed the University's math proficiency examination.

"It's true that students have difficulties, and it's true that we probably ought to be doing a lot for them," Dr. Dunham continued. "We could offer courses in reading, which we're not doing at very many locations, courses in study skills, in

listening skills, and in a lot of other things that would help them get moving in their college programs. But we really don't have enough money to do all these things now, and so we're trying to look at the budget and find out the best way to spend a limited amount of money."

"English 4 is a prerequisite for English 10. You must take it if you place at that level, and if you pass it, you remove the deficiency. There is no tracking needed for that. But if you get involved with the arithmetic side of the house, you must track students, and the tracking and the administration costs . . . are expensive. I think the money could be better spent. . . ."

The Senate voted to continue credit courses in English to help students strengthen writing skills (English 4) and to discontinue Math 0. Also passed was the Committee's recommendation to cease tracking and retake-testing procedures, as well as to discontinue the provision requiring students to be dropped from degree status for failure to remove Basic Skills deficiencies within three terms of enrollment.

The Basic Skills Committee had argued for the continuation of English 4 because it is a prerequisite to English 10 for students scoring 31 or below on the English

(Continued on page 3)

An Open Letter to the Faculty

University Park's Spring Commencement on May 31 is the University's most prestigious academic ceremony. It provides faculty members an opportunity to join with graduates, their parents and friends in the celebration of this memorable day in a Penn State student's educational career. The participation by faculty members in the ceremony is especially appreciated by graduates, who this year number over 5,000. We are fortunate to have as our 1980 commencement speaker Governor Richard Thornburgh, well respected for his public service and civic leadership.

I invite personally all faculty members to attend the Spring ceremony at Beaver Stadium and to join in the formal academic procession. Faculty members in academic regalia should assemble at 10:15 a.m. in the Home Team Locker Room area. Reserved seating on the field will be provided. In the event of rain, please plan on attending your College's ceremony. Your dean's office can give you specific information on alternate sites.

I look forward to joining with you in honoring our Spring graduates.

John W. Oswald

John W. Oswald

Penn Staters

Dr. Thomas E. Long, associate professor of vocational and counselor education, has been named as a Senior Fulbright Scholar to Ireland. While in Ireland, Dr. Long will lecture in psychology and counseling at University College, Dublin, and study the effects of rapid industrialization on the development of career related psycho-social services for youth and adults.

At its 65th Annual Conference recently in San Diego, the National University Extension Association presented a number of awards to the University. They include: — The Stanley C. Robinson Award of NUEA's Conferences and Institutes Division to Wayne R. Bechdel, assistant dean for continuing education and public service in the College of Arts and Architecture. The award was made because of Mr. Bechdel's contributions as director of the Keller Conference Center, the number of conferences and participants tripling during his tenure. He also was cited for his role in developing many innovative projects in his present post.

— The Faculty Service Award to Dr. Joseph F. Bradley, professor of finance. The award came about largely because of Dr. Bradley's 25 years of service as academic chairman of the annual Penn State Credit Union Institute, a continuing education service of the College of Business Administration.

— NUEA's Creative Programming Award to the University for the Bethlehem Mine Union-Management Seminar. This program was developed to improve inter-personal awareness and working relations between union and management of two coal divisions of Bethlehem Steel Corporation. Dr. J. Richard Zelinka, assistant professor of management development, College of Engineering, is academic coordinator.

— NUEA's award for Outstanding Independent Study Course in the Noncredit Category to Penn State for a course developed in beginning stamp collecting through a grant from the American Philatelic Society. Dr. Gerald C. Eggert, professor of American history, is academic coordinator.

— A certificate of excellence for the Sports Camps Campaign in the category of publications campaign for a single program.

Dr. John Waldhausen, professor and chairman of surgery at Hershey, has been elected a trustee and assistant secretary of the American College of Cardiology for 1980-81.

Dr. Mary Jane Irwin, assistant professor of computer science, presented a paper, "Designing Pipeline Architecture Using On-Line Algorithms," at the Seventh International Symposium on Computer Architecture in LaBauze, France, May 4-8.

Dr. Alphonse Leure Dupree, associate professor of anatomy at Hershey, was invited to present seminars at the University of Illinois Medical Center; the National Eye Institute, NIH; and the University of Chicago. His topic was "Retinal Pigment Epithelial Cytopathology in Rats Following Metal Chelation and Zinc Deficiency."

Dr. Ronald A. Smith, associate professor of physical education, recently gave a presentation on "Winning and a Theory of Competitive Athletics in America" at the R. Tait McKenzie Symposium at the University of Tennessee, Knoxville.

Dr. Edward Danis, DUS consultant to Liberal Arts, has been named editor of the National Association of Academic Affairs Administrators (ACAA) Newsletter. Dr. Danis, who is also an affiliate assistant professor of comparative literature, was appointed to this position at the ACAAD National Conference held in Boston last month.

Dr. Robert E. Dunham, vice president for undergraduate studies, has been given the Air Force ROTC Outstanding Service Award for 1980, the highest award the AFOTC can bestow upon a civilian, for his outstanding moral, intellectual and material support to the Penn State AFOTC detachment.

Dr. Dunham was also the recipient of the Department of Army's Distinguished Service Award last fall for similar contributions to Penn State's Army ROTC program.

During Dr. Dunham's tenure, the Penn State AFOTC detachment three times has received the Air Force Outstanding Unit Award, with one of those coming this year. No other University has ever received the award more than twice.

Enrollments in the Penn State AFOTC program have doubled during this period, and scholarship students have increased to more than 75 percent of the cadet class.

Irvin H. Kocheil, director of Behrend College, received an honorary doctor of laws degree from Gannon University on April 24. The citation said:

"He has through the years and to an unprecedented degree demonstrated those personal and professional qualities we look for and cherish most in an educator: the ability to shape and mold; to create and inspire; to act and achieve so that learning may continue to grow for us and our posterity."

The citation also refers to Irvin Kocheil's "inspired leadership," which transformed "a one year transfer center with a limited student enrollment to the only four year degree granting college within the multicampus system of The Pennsylvania State University, outside the University Park Campus. . . . His singular dedication and devotion to Behrend College have been accompanied by contributions to his profession beyond the college and to public service within the community of Erie and the Commonwealth."

Dr. Evan G. Pattishall Jr., professor of behavioral science and interim dean of the College of Human Development, has been invited to become a member of the Academy of Behavioral Medicine Research. The Academy, consisting of approximately 120 selected U.S. research scientists, promotes standards for research within the field of behavioral medicine and fosters collaborative research between biomedical and behavioral scientists. Dean Pattishall came to his current post on Oct. 1, 1979, from the College of Medicine in Hershey, where he was chairman of the Department of Behavioral Science and associate provost for health education.

Dr. Gerald Phillips, professor of speech communication, has been elected first vice-president of the Eastern Communication Association, which has more than 1,000 members in New England, the Middle Atlantic states, West Virginia and northern Ohio. He will assume his post in Spring 1981 and become president of the group the following year.

Bookshelf

Dr. Robert J. Brown, associate professor of finance at Capitol Campus, is principal author of *Life Cycle Costing*, a 300-page book published by Fairmont Press. Rudolph K. Yanuck, a graduate of Capitol's Master of Administration Program, is co-author.

The book covers techniques and applications of life cycle costing, with particular emphasis on energy-saving projects. It is designed to be of special interest to engineers and architects.

Dr. Thomas A. Hale, associate professor of French and comparative literature, is co-editor of a book of selected papers from the third meeting of the African Literature Association, held in 1977 at the University of Wisconsin. Entitled *Artist and Audience: African Literature as a Shared Experience*, it was published by Three Continents Press of Washington, D.C.

A general theme of both the book and a conference is that teachers of African literature have failed to give adequate attention to the context in which particular works were conceived or written.

Dr. Hale, who holds a B.A. and M.A. from Tufts University and a Ph.D. from the University of Rochester, all in French literature, joined the Penn State faculty in 1973. He is the author of a study of Aime Cesaire, the Martinican poet and playwright, and co-edited an earlier volume of ALA papers, *The Teaching of African Literature*.

25-year chairs

Prof. O'Connell

Mr. Dixon

Mr. Owens

Mrs. Fravel

The College of Engineering has presented 25-year service awards to William D. O'Connell, associate professor of electrical engineering, and Robert C. Owens, engineering side in the Noise Control Laboratory of the Mechanical Engineering Department; and Kenneth H. Dixon Jr., group-leader mechanic for experiments and maintenance in the Industrial and Management Systems Engineering Department.

Professor O'Connell, who earned his B.S. and M.S. at Pitt, joined the University as an instructor in 1949, was named an assistant professor in 1955 and an associate professor in 1961.

He served four years in the U.S. Navy during World War II, more than half of them in the South Pacific as an aviation chief electrician's mate. Before joining Penn State's faculty, Professor O'Connell worked at Westinghouse Electric Company and at the Elliott Company in Ridgway, Pa., as an applications engineer.

Currently teaching courses in energy conservation, networks, industrial electronics, and power system stability, he has handled 38 different courses during the past 25 years.

Electrical engineering students elected him "Prof. Snarf" (favorite professor) in 1964, and in 1965 he was elected "Prof. Snarf" for the College of Engineering by the Engineering Student Council.

Mr. Owens started at Penn State in 1954 as an engineering aide at the Ordnance Research Lab, where he worked in electronics research.

Before coming to Penn State, Mr. Owens, who served with the U.S. Army in the South Pacific during World War II, worked at Philco Corporation in Philadelphia. He joined the Noise Control Lab in 1972 and is currently responsible for maintaining laboratory equipment. An expert in building analog and digital electronics equipment, Mr. Owens helps run experiments in both the laboratory and field. He has a reputation as an "uncanny whiz" at troubleshooting when equipment fails.

A native of Clearfield and a graduate of Clearfield Area High School, Mr. Dixon joined the University as an aide in the Agronomy Department in 1953. Four years later he transferred to Industrial and Management Systems Engineering as a technician in the machine shop.

In 1968 Mr. Dixon received his journeyman machinist certificate and in 1974 was promoted to group leader of the maintenance mechanics. In this post, he supervises three other technicians. Mr. Dixon also maintains and builds all

equipment and instruments used in his department's laboratory classes and in the many research projects conducted by its faculty members and graduate students. One research instrument which he built (a project that took many months) was a surface tracing device which measures accurately to 1/10,000 of an inch. The holder of a certificate to teach vocational machine shop, Mr. Dixon has been an instructor at Rockview Correctional Institution for three years.

Active in his community, Mr. Dixon has been a member of the Harris Township Lions Club for 10 years, serving as president, secretary, and currently as a member of the board of directors. His hobbies include building muzzle loading rifles, gardening, cutting firewood, and cross country skiing.

Mr. Dixon has a Penn State family. His wife, Lane, is an acquisitions clerk in Patton Library, and his daughter, Diane, is a 1979 graduate of the College of Health, Physical Education and Recreation.

Mary Jane Fravel, a counter attendant in Pollock Dining Hall, recently received her 25-year chair from the University.

She started working for Penn State on March 23, 1955, as a counter attendant in Waring Dining Hall, transferring to Pollock when it opened in 1960. She has been with Housing & Food Services for her entire career.

The Mill Hall R.D. resident has three daughters. One of them, Mary Lou Houtz, is a data scheduler in Shields Building.

Obituary

Gertrude E. Mason, a clerk in the Library, died May 3. Born in Sodus, Mich., she started work at the University in 1965 as a maid with Housing and Food Services and joined the Library staff the following year.

(332-2) Advanced Research in India 1981-82 fellowships are available through the Indo-American Fellowship Program. Sought are not Indian specialists, but individuals whose disciplinary or professional skills can be enhanced by the opportunity to carry out research in India. New people and new ideas are wanted. Areas of interest include: Natural, applied and social sciences and professional areas such as architecture, business, law, medicine, public health, museum work, and creative arts. Fellowships are long term (6-10 months) or short-term (2-3 months). The application deadline is July 1, 1980. Contact the Council for International Exchange of Scholars (CIES) (202-833-4798). (Ref: CIES Announcement).

(335-1) The National Science Foundation announces four (4) programs for which proposals may be submitted at any time of the year and which require 6-9 months to process. They are: Doctoral Dissertation Research Proposals in Environmental Biology (contact 202-357-9586); Biological Research Resources (contact 202-357-7475); Development in Science Education (DISE) (contact 202-282-7910); and Information Science and Technology (contact 202-357-9569). (Ref: NSF Bulletin, May 1980).

NOTE: Many NSF telephone numbers have been changed recently. A new Spring 1980 Organizational Directory containing the new numbers is available by calling this column's contact number.

INTERCOM is an internal communications medium published weekly during the four terms of the class schedule for the faculty and staff of The Pennsylvania State University.

Special Events

Thursday, May 15

Campus Collegues meeting, 4:30-6:30 p.m., Assembly Room, Nittany Lion Inn. Dr. Emily Taylor, dir. of Office of Women in Higher Education, American Council on Education, speaker.

Folklore Society, Square Dance, 7:30 p.m., Room 301 HUB.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Friday, May 16

Let day to sign Spring Term Emergency Loans, Room 108 Shields.

Early registration begins for Summer Term, 8:30 a.m.-4:30 p.m., Room 112 Shields. Also May 19-22.

Sports: track (men), Penn State Open, 3 p.m. Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Mark Morey, geography, on "Appalachian Spring: A Visual Evocation."

Shaver's Creek Nature program, Evening Bird Walk with David and Barbara Middleton, 5:15-7 p.m., Toftrees Game Lands. Park by Coffee Grinder Restaurant.

Commonplace Theatre, *Monterey Pop*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Saturday, May 17

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Sunday, May 18

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Monday, May 19

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Tuesday, May 20

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Wednesday, May 21

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Thursday, May 22

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Friday, May 23

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Saturday, May 24

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Sunday, May 25

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Monday, May 26

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Tuesday, May 27

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Wednesday, May 28

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Thursday, May 29

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Friday, May 30

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Saturday, May 31

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Sunday, June 1

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Monday, June 2

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Tuesday, June 3

Sports: tennis (men) vs. Mercyhurst, 1 p.m. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

*URTC, *The Taming of the Shrew*, 8 p.m., The Playhouse.

Monday, May 19

Final examinations. France-Cinema, *Barbarella*, 7 and 9 p.m., Room 112 Kern.

Color Slide Club meeting, 7:30 p.m., Room 189 Materials Research Lab.

Tuesday, May 20

Final examinations. College of Agriculture faculty meeting, 4 p.m., Room 301 Ag. Admin Bldg.

Friends of the Museum annual meeting, 8 p.m., Museum of Art.

Wednesday, May 21

Final examinations.

Thursday, May 22

Final examinations.

Outdoor pool open daily, 10:30 a.m.-6 p.m., through May 29.

1907 poster from show at Museum.

Friday, May 23

Residence Halls close for Spring Term, 3 p.m.

Saturday, May 24

Shaver's Creek Nature Center, Dr. Paul Risk, on "Wilderness Survival and Edible Plants," slides and walk, 2-4 p.m., Stone Valley.

Sunday, May 25

Shaver's Creek Nature Center, Brown "Things" walk, 2-3 p.m., Stone Valley.

Seminars

Thursday, May 15

Chemistry, Jay K. Kochi, Indiana Univ., Bloomington, on "Structural and Mechanistic Aspects of Metal Complexes in Free Radical Chemistry," 12:45 p.m., Room 333 Whitmore (new listing).

Mathematics, Andrew Wiles, Harvard Univ., on "Cyclotomic Fields," 4 p.m., Room 103 McAllister (new listing).

Friday, May 16

Analytical Chemistry, Paul Shepson, grad. student, on "The Photooxidation of Propionaldehyde," 11-10 a.m., Room 333 Whitmore.

Physical Chemistry, William Sanders, grad. student, on "Collisional Alignment of Molecular Rotations," 4 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Undergraduate Art Education Exhibit, mixed media, through May 16.

HUB Galleries: Jeanne Stevens Soliman, ceramic sculpture, The Gallery, "Landscape Architects Professional Awards Traveling Exhibit," through May 17, Browning Gallery.

Ryan Nettles, sculpture, through May 17, Gallery Lounge, Mike Starnier, pottery, and Rome Hanks and Friends, group photo exhibit, through May 17, Art Alley.

Kern Gallery: Mary Bissett, photographs, through May 17; Matt Reitz, glass, through May 23.

Museum of Art: Diane Pepe, recent work on paper; highlights from the permanent collection; European posters (1895-1930) from the permanent collection.

Pattee Library: Patricia O'Connor, paintings, East Corridor Gallery; Dennis Aumiller, photographs, Lending Services Lobby.

Ceramics, Main Lobby, Yachad, Living in Jerusalem, through May 18, West Pattee Ground Floor.

New program to offer infant/toddler, pre-school day care

The Child Development/Child Services Laboratory, operated by the Individual and Family Studies Program of the College of Human Development, will expand its services this summer to include new infant/toddler and pre-school day care programs.

IFS, which will also extend its morning and afternoon nursery programs, is completing negotiations with the Child Development Council of Centre County to administer, staff and conduct the infant/toddler segment of the day care programs, according to Dr. Fred W. Vondracek, IFS program head.

"The day care programs, to be located in Henderson Human Development Building, will be open from 7:30 a.m. to 5:30 p.m. five days a week, 50 weeks a year," Dr. Vondracek says.

The infant/toddler day care program will enroll children from six weeks through two years of age; the pre-school day care program will enroll three- to five-year-olds. Both programs should become operational between July 1 and September 1, according to current plans.

The nursery school, which enrolls children three to five years old, will lengthen its morning and afternoon sessions from 2½ to three hours, five days a week. In addition, it will begin operating 50 weeks per year, discarding the current 10-week sessions that parallel University terms.

"We anticipate having space for a total of 80 to 100 children in all four programs," Dr. Vondracek notes.

"The expansion of child care services is being undertaken to improve graduate and undergraduate training and research opportunities and to meet the needs of a changing society in which fully half of the women now work," he explains. "We hope it also will strengthen the good relations between the College of Human Development and community service agencies."

The day care and nursery school programs will allow for research projects not only by Human Development faculty members, but also for researchers in other departments and colleges. Dr. Vondracek points out.

He adds, however, that research and training will be "conducted in such a way as to enrich the programs, not to interfere with them. The College has been offering a nursery school program continuously for 57 years, and the resulting expertise allows us to conduct research that is relatively non-intrusive and does not interfere with the welfare of the children."

Details of the cooperative agreement between the Child Development Council and the University pertaining to the Infant/Toddler day care program are yet to be finalized. Parents who want information about enrolling children in the nursery school or the day care programs, however, should contact Janice G. Reese, IFS academic coordinator, in Room S-105 Henderson Human Development Building (863-0241).

Admissions Program (INTERCOM, May 1) allowing highly qualified students to leave secondary school after completion of the junior year and enroll at Penn State as regular degree candidates.

Proposals were passed to require two units of Math and one of Science as prerequisites for admission to the College of Health, Physical Education and Recreation; and to realign the structure of several Senate committees to make them conform more closely with the administrative structure of the University.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 473-1387). Applications for these staff vacancies will be accepted until 5 p.m., May 21, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT DIRECTOR OF NURSING SERVICES - COLLEGE OF MEDICINE, Hershey Responsible to the Assistant Hospital Director/Chief of Nursing Services for assisting with the administration of the Department of Nursing Services within assigned patient care areas, including planning, organizing, staffing, coordinating, and evaluating activities necessary for continuation and supervision of nursing care. A bachelor's degree in nursing or equivalency, plus four to five years of effective experience and licensed to practice as a registered nurse by the Pennsylvania State Board of Nurse Examiners.

LEAD PROGRAMMER - MANAGEMENT ENGINEERING, University Park Perform detailed system design, develop, test, document, and maintain programs; keep abreast of state-of-the-art techniques in system design and development; Bachelor's degree or equivalent in computer science or related field, plus three to four years of effective experience in programming and system design. Proficiency in COBOL on third generation computer equipment is desired.

PATIENT UNIT COORDINATOR - COLLEGE OF MEDICINE, Hershey Responsible to the Assistant Hospital Director/Chief of Nursing Services or the Assistant Director of Nursing Services as designated for the operation of the patient care unit, including nursing care activities, the coordination of patient care plans, and maintaining acceptable standards of good patient care on a 24-hour basis. A bachelor's degree in nursing or equivalency, plus three to four years of effective experience and licensed to practice as a registered nurse by the Pennsylvania State Board of Nurse Examiners.

OPHTHALMIC ECHOGRAPHY SPECIALIST - COLLEGE OF MEDICINE, Hershey Responsible to the Clinic Supervisor and the Chief, Division of Ophthalmology, for patient diagnosis.

ultrasographic examinations, as well as for conducting clinical research and instruction of health care professional in ultrasonography. Bachelor's degree in the biological sciences, plus two years of specialized training and one to two years of effective experience.

FINANCIAL AID COORDINATOR - WAGE MONITORING - OFFICE OF STUDENT AID, University Park Responsible to the Director of Student Aid for the administration of the University Wage Payroll Monitoring System, for counseling students on financial aid matters, and for assisting in the internal administration of all financial aid programs. Master's degree or equivalent in student personnel services, public administration, business administration, or other related field, plus up to one year of effective experience required.

STAFF DEVELOPMENT INSTRUCTOR - COLLEGE OF MEDICINE, Hershey Responsible to the Inservice Program Coordinator for planning and teaching various nursing service educational programs. Strives to increase the level of knowledge among professional staff through various programs of orientation, skill training, continuing education, and leadership training. Bachelor's degree with one to two years of effective hospital nursing experience or diploma graduate with two to four years of effective hospital experience, with a minimum of two years as an Inservice Instructor preferred.

Part-time instructors needed

The English department will probably need several part-time instructors to teach one or two sections of Composition per term, beginning Fall 1980. Applicants should have at least a master's degree in English or a related field, as well as some teaching experience, either on the high school or college level. Beginning instructors are required to attend an orientation session before Fall Term begins, and to participate in a weekly staff meeting throughout their first year of teaching. Anyone interested in applying should submit a resume and writing sample to Robert D. Hume, associate head, Department of English, Room 118 Burrows Building, University Park, PA 16802.

Senate

(Continued from page 1)

placement test. These students must continue to follow the English 4-10-20 sequence.

Another Committee recommendation accepted by the Senate asks the Vice President for Undergraduate Studies to instruct DUS to revise the Student Profile of Academic Abilities to show a student reading skills assessment. Senate monitoring of the Basic Skills program is transferred to the Senate Committee on Undergraduate Instruction.

Senators also engaged in a lengthy debate on a Curricular Affairs recommendation on 800-level courses. Ultimately, it was decided to give colleges and program areas responsibility for determining the application of these credits to their requirements.

After reexamination of its 800-level courses, each program area is to drop any such courses duplicating 1-399 courses; renumber into the 1-399 series courses which would be appropriate at the baccalaureate level, even though not appropriate for the major of the sponsoring department; and provide justification for continuing 800-level courses. Changes should be in effect before the printing of the 1982-83 University Bulletin.

Curricular Affairs also recommended that associate degrees conferred by Penn State be combined into three groups: Associate in Arts, Associate in Science, and Associate in Engineering. The Committee explained that because the associate degree program was founded by the College of Engineering and because that program is the largest in the nation, it deserves a separate category. The Senate agreed to this.

In other business, the Senate accepted a report of its Committee on Admissions, Records and Scheduling to set up an Early

News in Brief

Dr. Grubb to head 1980 U.P. United Way drive

Dr. Richard E. Grubb, senior vice president for administration, has been named 1980 chairman for the United Way program at the University Park Campus.

In announcing the appointment, President Oswald said, "I am delighted that Dr. Grubb has accepted the leadership role for this important program. As a chief officer of the University he understands well the importance of the University's support of United Way."

"Dr. Grubb's organizational skills and ability to relate to all members of the University are leadership qualities essential in implementing a successful United Way campaign."

United Way is the only charitable contribution plan endorsed by the University. Employees can contribute through payroll deduction.

In Centre County, 27 agencies, including Red Cross, several youth agencies, home health agencies, and organizations working with mental health are included in the annual United Way drive conducted in early Fall. Penn State employees also have the option of contributing to United Ways in other counties.

Walker, Hetzel award recipients announced

The Eric A. Walker and Ralph Dorn Hetzel awards will honor three graduating seniors at Spring Commencement on May 31. Ann Carr (HPER), a four-year standout with the Women's Gymnastics Team, will

receive the Walker Award as the student "whose activities and achievements have enhanced the public esteem and renown of the University."

Carol J. Mattis and Shelly Harry Young, both of the College of Business Administration, are the recipients of the Hetzel Award, which recognizes the "achievements and potential of outstanding undergraduate students who have demonstrated the qualities of responsible leadership... and give promise of public-spirited achievement in the future."

Ms. Mattis, who has made the Dean's List for eight consecutive terms, is principal oboist with the Penn State Symphony. Mr. Young, a resident assistant and a Dean's List student, is chairman of USG's Race Relations Board.

Winners of the awards are selected by a committee appointed by the Vice President for Student Affairs.

Parents advised to review health benefits for dependents

Faculty and staff members with children are reminded that dependent children are only covered under the University's health insurance programs until the age of 19, unless they are full-time students. Those who are full-time students continue to be covered until age 23.

Parents of children approaching age 19 or 23 should be aware of these facts so that they can apply for other health insurance coverage in advance if they so desire.

The University's insurance carrier does offer a hospital/surgical/medical plan to which the group insurance program may be converted. Information and application forms for this conversion

coverage may be obtained from the Employee Benefits Division, Room 133 Willard Building (865-1473). Information about other, independent coverage programs can be obtained from commercial agencies or salespersons.

PENNTAP issues study

PENNTAP (the Pennsylvania Technical Assistance Program), in cooperation with the U.S. Small Business Administration, has published a 555-page economic study on *The Status of Small Businesses in Region III*.

Hardback editions have been distributed to governors and commerce-related officials in the Region III states of Delaware, Maryland, West Virginia, Virginia, Pennsylvania, and the District of Columbia. Federal departments and major libraries are also receiving the volume.

Eighteen authors selected from throughout the Region provided research and analysis chapters for the study, which was originated to create information and data for legislative and policy-making discussions at the recent White House Conference on Small Business.

Paul W. Houck, PENNTAP information coordinator, served as editor and supervisor for the project. He also authored the lead overview chapter, "Does It Have To Be Us vs. Them?" Dr. H. LeRoy Marlow, director of PENNTAP, was the project contractor.

The chapter entitled "Energy Impact on Small Business" was authored by Dr. Edwin W. Biederman Jr., a PENNTAP technical specialist.

PENNTAP is a continuing education service which has partial funding from the Pennsylvania Department of Commerce.

Pennsylvania official participates in workshop

Pennsylvania's Deputy Secretary for Budget, Robert Bittenbender, led a discussion of the Commonwealth's experience in the statewide application of program budgeting at a one-day workshop on Program Budgeting at a national meeting of the American Society for Public Administration. The workshop was conducted by Dr. Robert J. Mowitz, director of the University's Institute of Public Administration.

The theme of the conference, which was held April 13-16 in San Francisco, was "The Challenge of the 1980s - Improving the Credibility of the Public Service."

Some spaces available for Stratford Festival trip

Some space will be available for faculty and staff members on a July 25-27 trip to the Stratford Shakespeare Festival. The trip is arranged annually for students in English 549 (Shakespeare).

The \$92 per person fee includes tickets to three plays, lodging for three nights in Stratford rooming houses, and round trip transportation, in University vans.

Tickets have been reserved for *Henry V*, *Much Ado About Nothing* (starring Maggie Smith) and *Titus Andronicus*.

Details about exchange rates, restaurants, crossing borders, trip insurance, etc. will be supplied after space has been reserved. Down payments of \$20 per person should be sent to Judd Arnold, Department of English, 5232 Burrows Building (865-9445), University Park.

Dean Bartoo

(Continued from page 1)

"I have never sought out an administrative post," he comments. "When Dean Ben Ewema first asked me to become head of mathematics, I gave him all the reasons why he should pick someone else. When President Eric Walker talked to me about becoming Graduate School dean, I tried to impress on him that I thought he should look somewhere else."

Administrators, Dean Bartoo believes, must establish priorities. "Sometimes in order to keep the paper moving, you simply can't afford to sit back and look at all sides of an issue and cogitate about it," he says. "You just can't get too far behind."

"People often look at administrative officers and think that the decisions they make are pretty arbitrary. But when you're occupying an office, you may have to make a decision on the basis of the information that's available. You hope it's good and that it's complete, but as a survival mechanism, you just have to keep the decisions flowing."

One theory of administration, according to Dean Bartoo, advocates assuming as much power as is necessary to get a job done.

"I hope I've never abused my position," he says. "I always worry that I may not have brought all the necessary segments of the University into the consultation process. Frankly, I have overlooked people on occasion; but that's true of almost any administrator."

Looking back, Dean Bartoo recalls with enjoyment his years in the mathematics department and the opportunity he had to be a party to the formation of the present Departments of Computer Science and Statistics. But among the administrative jobs at his present level, he considers that of the dean of the Graduate School the best.

"I don't have to get too wrapped up in everyday routine and budgets," he explains. "My personal relationships with people are not too closely tied up with their economic well being and positions, so I can relate to them on a different plane than a college dean."

Commenting on Dean Bartoo's 20 years of administrative service, the Wilkinson Award nomination says:

"James Bartoo has picked his way among the high peaks and valleys of administration dependably, cheerfully, with full effort and often on difficult assignment."

"He has evolved that careful balance between status quo and brass innovation, which has helped the University to continue to serve constructively while crucial personnel searches were underway. He is modest, firm, fair and intelligent."

Established in 1970 by the friends of John E. Wilkinson, lifelong Centre County businessman, the award is given annually to a Penn State administrator whose performance methods and achievements exemplify administrative excellence. It carries a \$500 stipend.

Dr. Flipse

(Continued from page 1)

The Barash Award, created in 1975 by the family of the late Sy Barash of State College, recognizes a full-time member of the faculty, staff or student body at University Park "who has contributed most, apart from regular duties, to human causes, public service activities and organizations or welfare of other humans."

Dr. Flipse, who is an assistant dean and assistant director of the Agricultural Experiment Station, was cited by the awards committee for his work with the Boy Scouts of America.

"Living on a farm nine miles from town, I didn't have a chance to enter scouting as a boy," he notes.

However, three of his four sons are Eagle Scouts (and Penn State alumni) and the fourth, who is still in high school, has only one rank to go. His daughter, also a Penn State graduate, was active in Girl Scouting, and Mrs. Flipse is a merit badge counselor for the Boy Scouts and helps with the local troop committee.

Dr. Flipse received the Scouts' Silver Beaver Award in 1967 for his outstanding service to boys. He serves as scouting coordinator for the Harris Township Scout troop and as council commissioner and woodbadge training coordinator for the Juniata Valley Council of the Boy Scouts. Among his numerous responsibilities are the planning, direction and implementation of training programs for Cub Scouts, Boy Scouts and Explorers.

He is also a member of the National Council Subcommittee on Boy Scout Advancement.

Scouting is not Dr. Flipse's only "extracurricular activity." He served 18 years as a Harris Township auditor, is active in the Harris Township Lions Club and in the University Baptist Church.

A professor of dairy science and a member of the faculty since 1950, he holds a B.S. in dairy husbandry from Kansas State, and M.S. and Ph.D. degrees in animal nutrition from Michigan State. He won the 1969 Borden Award for his research on the biochemistry and metabolism of bovine sperm.

How does he manage to find time for everything? "I have a well organized wife who helps point me in the right direction," he reports. "And I don't watch television; for many years we didn't even have one in the house. That saves me a lot of time."

"Then some of my hobbies - hiking, camping, and canoeing, for example - combine family recreation with scouting activities. I manage to keep a half acre garden under cultivation as well."

The Barash Award, which consists of a \$1,000 check, is named for a Penn State alumnus and former State College businessman, Sy Barash, who died in 1975. Over the years, Mr. Barash devoted much time, energy and leadership to humanitarian causes.

Dr. Friedman

(Continued from page 1)

the maintenance of a well-regarded faculty in the mainstream of our discipline."

During his tenure, the department expanded its scope in comparative politics and strengthened its American politics and public policy segments.

"Illustrative of the things I'm especially proud of was the department's initiation and development of working relationships with colleagues at sister institutions in Germany and Venezuela," he reflects.

The year after his arrival, Dr. Friedman chaired the Committee to Create a Graduate Council, the advisory group to the dean of the Graduate School, and served as a Graduate Council member from 1971-73. Except for a two-year absence, he has been a member of the Faculty Senate since 1970, serving as vice-chairman in 1971-72.

"One of my most challenging roles," he says, "came as chairman of the Joint Faculty/Administrative Committee on Faculty Participation in University Governance in 1974."

The final report - often referred to as the "Friedman Report" - proposed changes in the role of the faculty in University governance, most of which were approved by the Senate and adopted by the President and the Board of Trustees.

In addition to bureaucracy, Dr. Friedman has done research in the areas of public administration, state politics and public policy, particularly science policy and regulatory policy. Since 1976, he has been director of the University's Center for the Study of Science Policy.

Dr. Friedman, who received his B.A. from Johns Hopkins and his M.A. and Ph.D. from the University of Illinois, served on the faculties of the University of Maryland, Louisiana State University and the University of Michigan before coming to Penn State.

Currently, he is engaged in a National Science Foundation-funded project with his wife, Renee, and other staff members of the Center for the Study of Higher Education on organized research units as training grounds for scientists and engineers.

The Donkin Award nominating statement says of him: "His wise and impartial direction of the (political science) department was something of a model for other departments." As a long-time Senate member, he "has worked to make its legislation enhance the quality of academic life at Penn State."

The \$500 award honors the late McKay Donkin, vice president for finance and University treasurer from 1957 to 1968.

Penn State Intercom

President Oswald congratulated Dr. Athleen Stere prior to the May 6 Senate meeting at Altoona.

Stere, Henszey to receive 1980 Lindback awards

Athleen J. Stere likes to describe herself as an "old-fashioned" teacher.

"I believe in organization and structuring for beginning students," says this Altoona-based associate professor of biology and co-winner of the 1980 Christian R. and Mary F. Lindback Award for Distinguished Teaching.

"I don't go in for a lot of song and dance acts in class," Dr. Stere continues. "The students are there to learn fundamentals."

Constantly searching for new ways to keep her material fresh and vital, Professor Stere has evolved a method of diagramming on the black board with colored chalks to clarify her lectures.

As one student recalled: "Although this may not seem initially to be noteworthy, its effectiveness was demonstrated repeatedly to me when I began to be able to identify students who had taken courses from Professor Stere by their collections of colored pencils. Most of them found this technique so effective they utilized it in other courses."

To help her in teaching Anatomy 1, Professor Stere prepared a complete set of microscope slides of histological sections of various bodily tissues, normal and pathological. These slides are used as demonstrations in laboratories, and as extra material provide students with an introduction to histology, thus broadening their knowledge of gross anatomy.

But if Professor Stere permits no compromises with the curriculum, she also sets no limits on the time she is willing to make available to students.

"I get to know my students personally," she says. "They come to my office, and they stay around after class. I'm probably

(Continued on page 4)

Dr. Benjamin N. Henszey

"Business Law 243 is the only first period class I've had I didn't mind getting up for."

That's high praise from a student — as any faculty member who has met an 8 o'clock class knows — and it's typical of the evaluations Benjamin N. Henszey receives.

An associate professor of business law, Dr. Henszey is the co-recipient of this year's Christian R. and Mary F. Lindback Award for Distinguished Teaching. The award will be presented by President Oswald at Spring Commencement exercises on May 31.

Professor Henszey had only been a full-time faculty member for two years when in 1975 he won the College of Business Administration's Alumni Association Award for Outstanding Teaching. Since then, with colleague Barry L. Myers, he has restructured Business Law 243. With the help of a course improvement grant from the Office of the Vice President for Undergraduate Studies, detailed course outlines, audio tapes illustrating important legal concepts, packets of cases, and new testing procedures were instituted.

While 243 is required of all students in Business Administration, many of those who take it become so excited about the subject that they go on to Business Law 400 — the advanced course which Professor Henszey developed and teaches. When first introduced, the course was offered

(Continued on page 4)

20 Penn State Campuses will hold Spring Commencement exercises

Faculty members at University Park are invited to participate in the May 31 Spring Commencement exercises. They should assemble in academic regalia at 10-15 a.m. in the Home Team Locker Room area at Beaver Stadium for the formal academic procession. Reserved seating will be provided on the field.

In case of rain, three commencement exercises will be held at 10:30 a.m. in the morning, and two ceremonies at 2 p.m. in the afternoon.

In the morning, the Colleges of Agriculture, Business Administration and Health, Physical Education and Recreation will attend ceremonies in Recreation Building. Eisenhower Auditorium will house the College of Engineering, and Schwab Auditorium, the Graduate School.

In the afternoon, students from Arts and Architecture, Earth and Mineral Sciences, Education, Human Development and Science will graduate in Recreation Building. Those from Liberal Arts, Bachelor of Philosophy candidates, and students earning associate degrees from all colleges, will go to Eisenhower Auditorium.

News in Brief

HUB parking lot to be closed May 29

The HUB parking lot, Brown F, will be closed to members of the faculty and staff, as well as to visitors, on Thursday, May 29, to accommodate the Delegate Election of Trustees. Persons with Brown F parking stickers should park in a designated open faculty/staff area in accordance with University parking rules and regulations. The closed open areas are Blue D at the Milton S. Eisenhower Auditorium, and Blue F and Blue G at Pollock and South Halls.

Otto named interim head as Beaver director search continues

David B. Otto has been named interim director of the Beaver Campus until a permanent director is chosen.

Making the announcement, President Oswald said more time is needed to complete the search for a new director.

"With the Spring Term rapidly coming to an end," said Dr. Oswald, "we need more time to make certain that we select the most qualified individual for the position."

Mr. Otto, who has been acting director at the Campus for almost a year, has graciously agreed to serve as interim director. He will have full responsibility for administering the Campus. I am indeed grateful to him for agreeing to assume this additional responsibility."

Mr. Otto will serve as interim director at least until January, and possibly until the Summer of 1981, depending on the availability of a permanent director.

Dr. Oswald said the search will be reopened at the beginning of the academic term this fall with the appointment of a new advisory search committee. The

(Continued on page 3)

Penn State will hold 20 commencement exercises this Spring at its campuses. The schedule follows:

Altoona, May 31, 10:30 a.m., Adler Gymnasium. Speaker: Cynthia Parsons, education editor, *The Christian Science Monitor*.

Beaver, May 30, 7 p.m., Brodhead Cultural Center. Speaker: Dr. Earland Carlson, president, Westminster College.

Behrend College, May 31, 10 a.m., Wilson Grove. Speaker: Dr. Herrington J. Bryce, vice president, The Academy for Contemporary Problems and chief economic consultant, NAACP.

Berks, May 31, 10:30 a.m., Library Building. Speakers: Dr. Harold Perkins, Campus director; Denton Steffy, assistant professor of engineering and chairman, Berks Faculty Senate; and June A. Roedel, chairman of the Campus Advisory Board.

Capitol, June 14, 11 a.m., Founders Hall at the Milton Hershey School. Speaker: Ginny Thornburgh, Pennsylvania's First Lady.

Delaware County, May 31, 10 a.m., outside on campus. Speaker: The Honourable Louis A. Bloom, judge, Court of Common Pleas of Delaware County.

DuBois, May 30, 2 p.m., Gymnasium of the Multi-Purpose Building. Speaker: Dr. Raymond O. Murphy, University vice president for student affairs.

Fayette, May 31, 10:30 a.m., Lecture Hall. Speaker: John Bigley, Fayette student.

Hazleton, May 29, 7 p.m., outside of Main Building. Speaker: Henry Giuliani, attorney at law.

McKeesport, May 31, 10 a.m., Buck Union Building. Speaker: Dr. Harry R. Faulk, director, Educational Management Development Center of the School of Urban and Public Affairs, Carnegie-Mellon, and former McKeesport Advisory Board member.

Milton S. Hershey College of Medicine, May 24, 10 a.m., Founders Hall. Speaker: Dr. H. Arnold Muller, Secretary of Health for the State of Pennsylvania.

Mont Alto, May 31, 11 a.m., outside on campus. Speaker: Willard Gregory, associate professor of chemistry, who is retiring.

New Kensington, May 29, 7 p.m., Forum Theater on campus. Speaker: Still to be announced.

Ogontz, May 29, 8 p.m., Physical Education Building. Speaker: Dr. Theodore Gross, provost, Capitol Campus.

Schuylkill, May 31, 2 p.m., Multi-Purpose Building on campus. Richard Russell, district attorney of Schuylkill County.

Worthington Scranton, May 30, 7 p.m., Multi-Purpose Building (Gym). Speaker: Sister Marian Denise Walsh, administrator, St. Joseph's Center, Scranton.

Shenango Valley, June 1, 2 p.m., Auditorium on campus. Speaker: David A. Lucas, graduating associate degree student at Campus.

Wilkes-Barre, May 31, 2 p.m., outside on grounds.

York, May 29, 8 p.m., Student Center. Speaker: Jeanette Reibman, Pennsylvania State Senator.

Penn Staters

Robert A. Patterson, senior vice president for finance and operations and treasurer of the University since 1971, has been awarded an honorary doctorate of letters by Grove City College.

Mr. Patterson received his bachelor of science degree in business administration from the College in 1939. He holds a master of business administration degree from New York University, in whose Graduate School of Business he served as an associate professor of finance, supplementing his business and financial career.

Immediately before joining the University in 1968 as vice president for finance and treasurer, Mr. Patterson had been for six years secretary and treasurer of the Long Island Railroad Company. Prior to that, for 13 years, he held the posts of director of research and assistant to the president of the Company.

Before joining the Railroad, Mr. Patterson was assistant treasurer and a statistical analyst at Eastern Airlines.

A native of Turtle Creek, Pa., Mr. Patterson served in the Naval Air Forces during World War II.

He is currently a director of the Mid-State Bank and Trust Company of Altoona, chairman of the board of the Pennsylvania State University Press, Ltd., and treasurer of the Pennsylvania Research Corporation. He is also a member of the Centre County Higher Education Authority and a trustee of Grove City College.

Dr. Joseph F. Bradley, professor of finance, has been selected to receive the Fred Brand Jr. Award for 1980 as the outstanding teacher in the College of Business Administration. The award, made annually, is based on excellence in teaching at the undergraduate level. The recipient is selected by the Student Council in the College of Business Administration.

Dr. Bradley joined the Penn State faculty in 1948. Throughout his career he has taught at both the undergraduate and graduate level. In addition to devoting time to undergraduate instruction, Dr. Bradley has been an active researcher and writer. He is the author of 11 books, 23 articles and eight monographs.

Three faculty members in the College of Agriculture were cited for outstanding performance at the annual banquet of Gamma Sigma Delta, the agriculture honor society.

Honored for exceptional service in research was Dr. Earl M. Kesler, professor of dairy science. His studies of high-producing cows were described as "setting a standard for other studies throughout the world." The citation also pointed out that Dr. Kesler's findings in calf nutrition have led to modern feeding programs. Among his innovations are the use of waste milk for feeding calves, production of veal with milk replacers, and methods to determine protein and energy levels for high producing cows.

Dr. James H. Mortensen, associate professor of agricultural education, was honored for outstanding teaching. He is responsible for the University's undergraduate program in vocational agriculture and developed the only agriculture course now being taught at the Commonwealth Campuses. Former students have rated him among the four most stimulating teachers in the College.

Cited for achievements with the Cooperative Extension Service was Dr. Richard S. Adams, professor of dairy science extension. A national authority on the feeding of dairy cattle for maximum milk production, Dr. Adams has contributed to Pennsylvania's large increase in milk production through his teaching and writing, his citation said.

Dr. Charles G. Haas, professor of chemistry, is the winner of the 1980 C.I. Noll Award for excellence in undergraduate teaching in the College of

Science. The Noll Award is granted by the College of Science Student Council.

A member of the faculty since 1951, Dr. Haas is a graduate of Virginia Polytechnic Institute and holds M.S. and Ph.D. degrees from the University of Chicago. His courses for non-chemistry majors, Chemistry 12 and 13, have been widely praised by students. Recently he has experimented successfully with a computer-managed instruction program developed at the University of Wisconsin. The program enables students to take a series of ungraded quizzes designed to point out their weaknesses in mastery of course materials. The quizzes are corrected and analyzed by a computer, which then gives each student an individual "prescription" for improvement.

Dr. Anthony Cutler, professor of art history, has received a \$10,000 publication subsidy from the Millard Meiss Fund of the College Art Association. The grant is to assist in the publication of Dr. Cutler's book, *The Aristocratic Psalter in Byzantium*, by the Picard publishing house in Paris.

Dr. Elliot Vessell, professor and chairman of pharmacology at Hershey, has been elected for a two-year term as president of the American College of Clinical Pharmacology. He previously served as vice president of the organization.

Dr. Ruth L. Pike, professor emerita of nutrition science, has been named to Hunter College's Hall of Fame. A Hunter alumna, she was a faculty member at Penn State from 1943 to 1976. Her research on physiological adjustments during pregnancy, specifically on the effects of low sodium diets, earned her a Borden Award.

Dr. James B. Bartoo, dean of the Graduate School, has been elected chairman of the Council of Academic Deans. He will assume office July 1, serving for one year. Dr. Stuart Forth, dean of the Libraries, was reelected vice chairman.

George M. Gerhart, dean of student affairs at Shenango Valley, has been installed as president of the Pennsylvania College Personnel Association.

J. Ross Somerville is spending three months at Patter Library as a visiting assistant librarian, working with the Pacific collection in the Rare Books Room. Mr. Somerville, who assisted with the compilation and preparation for publication of the New Zealand National Bibliography, pre-1890 imprints, has recently been working on the compilation of the current New Zealand National Bibliography at the Alexander Turnbull Library in Wellington. He holds a B.A. degree in modern languages from the University of Otago (New Zealand) and a post-graduate diploma from the New Zealand Library School.

Dr. James E. Van Horn, associate professor of family sociology extension, has received the International Year of the Child Recognition Award from the U.S. Department of Health, Education and Welfare "in recognition of outstanding commitment to children." Dr. Van Horn is one of Pennsylvania's appointed delegates to the White House Conference on Children and is chairman of the Statewide Planning Group and project director for the Pennsylvania Forum on Families.

At the invitation of the Council of Graduate Schools, David L. Young, professor and head of landscape architecture, this month served as an external reviewer for the Master of Landscape Architecture program at the University of Georgia.

Dr. Robert Arbuckle, director of the New Kensington Campus, has been elected president of the Board of Directors of the Southwestern Pennsylvania Higher Education Council, Region 8. The Council represents 49 institutions of higher learning and addresses such issues as

programming, faculty exchange and staff development.

Dr. Robert K. Murray, professor of American history, was recently named Western Kentucky University's Distinguished Lecturer for 1980 and presented three lectures at the University's Bowling Green campus. The first was on his latest book *Trapped!*; the second dealt with "The Uses of History"; the third was titled "Rating the Presidents: Performance vs. Image." Dr. Murray on May 2 also gave the banquet lecture for the annual convention of the Federated Historical Societies of Pennsylvania.

Dr. Michael A. Smyer, assistant professor of human development and associate chairman of the Gerontology Center, is one of 15 U.S. scholars chosen to receive a 1980 Research Fellowship in Applied Gerontology from the Gerontological Society, Washington, D.C. The Society's fellowship program is supported financially by the Administration on Aging, Dept. of Health and Human Services. Dr. Smyer, in collaboration with the Pennsylvania Dept. of Aging, will study policy regarding family support of older adults.

C. Herbert Wheeler, professor of architectural engineering, has been appointed the permanent secretary for the newly established Professional Development Group of the Union Internationale des Architectes. The UIA, founded in 1948 to unite architects of all countries, sponsors working groups in the fields of housing, urban planning, education, public health, work places, and the newly established area of professional development. Prof. Wheeler will attend the meeting of the UIA College of Delegates in London this June as a member.

Ron Gallas, assistant professor of art, is one of 10 artists nationwide to be selected for participation in the University of Notre Dame's 1980 Summer Ceramics Workshop. During his two-week residency at Notre Dame, Mr. Gallas will work as an artist and present a slide lecture about his work.

Dr. Harold R. Sargent, director of the Shenango Valley Campus, has been invited to present a paper in July at the Sixth International Conference on Improved University Teaching in Lausanne, Switzerland. Dr. Sargent's presentation will deal with the theoretical implications of demographics related to future collegiate enrollment patterns.

Dr. Donald J. Willower, professor of education, spoke on "Research in Educational Administration" at a Rutgers University seminar. He also discussed his studies of schools as social systems at the first National Graduate Student Research Seminar, which was held in Boston under the sponsorship of the National Institute of Education and the American Educational Research Association.

Ernest R. Weidhaas, Engineering's assistant dean for Commonwealth Campuses, has been elected chairman of the Technical College Council (TCC) of the American Society for Engineering Education. The TCC consists of representatives from each ABET-accredited (Accreditation Board for Engineering and Technology) university and institution conducting engineering technology programs.

Promotions

Staff Non-Exempt

Susan D. Bird to junior data documenter in Management Services.

Clerical

Catharine B. Hess to secretary C in Agriculture.

Barbara Shulman to secretary C in Earth and Mineral Sciences.

Sherri L. Wheeland to data preparation operator B in Management Services.

Technical Service

Donald E. Gummo to utility analyst in Physical Plant.

Keith McWilliams to cement finisher in Physical Plant.

Brian K. Patrick to mechanic, metal shop at Hershey.

Randall K. Pott to refrigeration technician in Physical Plant.

Rebecca A. Wealand to operating room assistant at Hershey.

25-year chair

Harvey M. Jensen, associate professor of engineering research at the Applied Research Laboratory, is celebrating his 25th year at the University. A graduate of Iowa State University, Professor Jensen worked as a test engineer for Commonwealth Edison in Chicago before joining ARL in May 1955. He became an assistant professor in July 1962 and assumed his present rank in 1965.

During his years at ARL, he has supervised the development of several major engineering projects from the initial concept of system design through construction, testing, and final evaluation. At present, he is responsible for the analysis and evaluation of experimental measurements and computer simulation with the Development Engineering Department. He holds two patents relating to steering control of torpedoes and has served on several committees appointed by the Department of the Navy to evaluate major underwater systems and test programs.

Professor Jensen is the father of three sons, all of whom are Penn State alumni.

News in Brief

(Continued from page 1)

present search was undertaken last year when Dr. Joseph Giusti resigned as director on July 1 to become chancellor of Indiana-Purdue University at Fort Wayne.

Mr. Otto held a variety of positions in the New Castle Area School System from 1961 to 1966. He served as a math teacher, guidance counselor, athletic business manager and teacher in the evening adult program.

During this time, he also was an evening school administrator at the Penn State Continuing Education Office in New Castle and, later, the Shenango Valley Campus service area.

In 1966, Mr. Otto became an assistant district administrator at the Behrend Campus. In 1968, he was appointed assistant director for Continuing Education at the Beaver Campus.

University's contribution to TIAA to rise

On behalf of each faculty or staff member who belongs to Teachers' Insurance and Annuity Association (TIAA) retirement program, the University makes a contribution which by law is determined each year by the State Employees' Retirement Board, based on an actuarial evaluation.

From July 1, 1979, through June 30, 1980, the amount of the University's contribution has been 7.85 percent. That amount will be increased beginning July 1, 1980, to 7.90 percent of salary.

Faculty and staff members will continue to contribute 5 percent of salary.

Libraries announce term break schedule

The University Libraries will adhere to the following schedule during the Spring Term break.

Pollock Library is closed for term break. Today (May 22) the other libraries will close at 7 p.m. On Friday, the hours will be 7:45 a.m. to 5 p.m.

The libraries will be closed for Memorial Day weekend Saturday, May 24, through Monday, May 26, but will be open Tuesday, May 27, through Friday, May 30, from 7:45 a.m. to 5 p.m.

The libraries will be closed for the weekends of May 31-June 1 and June 7-8.

They will be open Monday, June 2, through Friday, June 6, and Monday and Tuesday, June 9-10, from 7:45 a.m. to 5 p.m.

On Wednesday, June 11, the first day of classes, the libraries will resume regular summer hours, which are 7:45 a.m. to 10 p.m. Monday through Thursday; 7:45 a.m. to 9 p.m. Friday; 7:45 a.m. to 5 p.m. Saturday; and 1 p.m. to 10 p.m., Sunday.

No INTERCOM next week

INTERCOM will not appear on May 29. Publication will resume June 5, and the Summer Term Calendar will be published in the issue of June 12.

Terrace Room to remain open for lunch during break

The HUB Terrace Room will remain open for lunch and dinner through Friday of this week. Lunch will be the only meal served from Tuesday, May 27, through Friday, May 30, and from Monday, June 2, through Friday, June 6. The HUB will be closed the weekends of May 24-26, May 31-June 1, and June 7-8. Regular service resumes Monday, June 9.

Employees urged to be watchful for bees' nests

The approaching "bee season" means several things for University personnel, according to H.O. Triebold Jr., manager of Safety Services.

The location of bees' nests should be reported to foremen and supervisors. The Department of Entomology is interested in collecting bees and, if contacted at 865-

1895, will have the nests safely removed. Landscaping and painting personnel should be particularly attuned to spotting bees' nests.

"In addition," Mr. Triebold says, "employees who are allergic to bee stings should be certain that their foremen or supervisors are aware of this fact. In the event such employees are stung, they should be taken immediately to a physician. Also, persons who require prescribed medication for bee stings should have it with them at all times."

Instructor sought

The Management Development Services unit of Continuing Education is seeking someone to teach in supervisory training and management development. Qualifications must include teaching experience in management and a minimum of five years of management experience in functional areas such as engineering, production, marketing, industrial relations, or human resources development. Minimum educational qualifications are a master's degree in business administration or doctorate in speech communication, industrial engineering, or industrial psychology. ABDs will be considered. Moderate travel is required in the position, which is available July 1. Salary and academic rank commensurate with qualification. Please apply by May 30 to Employment Division, Room 117 Willard Building, The Pennsylvania State University, University Park, PA 16802.

Sorbonne librarian visits

The University Libraries' established expertise in computerized lending operations attracted a visit from a representative of the Sorbonne, Madeleine Paulian, who visited Pattee recently to review its computer efforts. The Sorbonne is preparing to establish automated lending services in its library.

Under a grant from the Franco American Commission for Education Exchange, Mlle. Paulian is also visiting libraries at Northwestern University, the Universities of Michigan and Illinois, Michigan State, Columbia, Yale, and the Library of Congress.

Subjects needed for physiology study

Male faculty and staff members are needed for the completion of a physiology research project assessing heart exchange efficiencies in individuals of different body types. Applicants should be between 18 and 40 years old, inactive and overweight.

Individuals will receive complete physical fitness and body composition assessments and, following the study, will be given an exercise prescription. Interested persons should phone Jim Bell, a doctoral student in physiology, at 865-3453 between 2-5 p.m. weekdays.

Fly Fishing workshops offered

Penn State's always popular Fly Fishing Workshops will be offered this year on May 31 and June 21. Participants will hear Joe Humphreys, assistant professor of physical education, discuss water temperature and stream strategy, while demonstrating casting and angling techniques and how to build a leader and tie the basic knots. Individualized instruction will be offered at Fisherman's Paradise.

Each one-day workshop will begin with an 8 a.m. breakfast meeting, and the remainder of the day will be spent at Fisherman's Paradise. Enrollees will need fishing gear and a 1980 Fishing License.

Additional information is available from Continuing Education (865-3443).

Outdoor pool opens

The outdoor pool will open its 1980 season for University students, faculty/staff members and their families on Thursday, May 22, according to L.D. MacNeill, director of aquatics. The daily hours will be 10:30 a.m. to 6 p.m.

The regular summer schedule, with daily hours from 10:30 a.m. to 8 p.m. will begin on Friday, May 30.

Admission to the pool is \$1 per person per day, but members may purchase special rate swim tickets for \$10—allowing 15 swims. The guest fee is \$1 per person daily and all guests must be college age, except when the pool is open for members and their families. Children under 18 must be accompanied by an adult who must remain with them.

Varied fare for a Nittany Summer

A wide array of summer entertainment, ranging from pianist-comedian Victor Borge and the Ohio Ballet to country-blues singer Crystal Gayle, will be offered during this year's Nittany Mountain Summer Festival.

The season will open June 28 with the venerable Mr. Borge. His current show, "Comedy with Music," incorporates gags, skits, musical joking and, of course, some piano playing.

Blind folk guitarist Doc Watson will bring his group to University Park on July 11. He will be accompanied by his son, Merle, and singers Mary McCaslin and Jim Ringer.

Jazz and ragtime, rhythm and swing as played by the New Orleans Ragtime Orchestra are scheduled for July 12. The group's repertoire includes marches, cakewalks, waltzes and blues by such composers as Scott Joplin and Louis Armstrong.

Ms. Gayle, who appears July 18, was chosen as the 1977 and 1978 Outstanding Female Vocalist by the Academy of Country Music and the Country Music Association.

Under the artistic direction of Heinz Poll, the young dancers of the Ohio Ballet will come to Eisenhower Auditorium on July 26.

In addition, Fred Waring and the Young Pennsylvanians will be in residence at Penn State this summer as members of the Fred Waring Choral Workshop staff. Special concerts featuring the workshop members will be presented at the end of each of the three workshop sessions on July 3, 4, 24, and 25 and August 7 and 8.

Brochures and ticket order forms may be obtained by calling (814) 863-0255 weekdays from 9 a.m. to 4 p.m. Out-of-town patrons may call collect. Phone orders on Master Charge and Visa may be placed by calling the above number starting June 3. The Eisenhower Auditorium box office opens Tuesday, June 10. Box office hours are 9 a.m. to 4 p.m., Monday through Friday.

Calendar May 22- June 3

Special Events

Thursday, May 22

Final examinations.

Outdoor Pool open daily, 10:30 a.m.-6 p.m., through May 29.

Mathematics seminar, Jerome Keisler, Univ. of Wisconsin, on "When Are Two Stochastic Processes the Same?" 4 p.m., Room 103 McAllister.

School of Music seminar, William S. Newman, emeritus prof. of music, Univ. of North Carolina/Chapel Hill, on "Performance Practices in the Music of Beethoven," 7 p.m., Room 115 Music 8ldg. Seating limited, phone 865-0431 for reservations.

Friday, May 23

Adult Education Brown Bag luncheon, noon; discussion on "Adult Education in Third World Nations," 12:25 p.m., Room 101 Kern.

Residence Halls close for Spring Term, 3 p.m.

Saturday, May 24

Shaver's Creek Nature Center, Dr. Paul Risk on "Wilderness Survival and Edible Plants," 2-4 p.m., Stone Valley.

Sunday, May 25

Shaver's Creek Nature Center, Spring "Things" walk, 2-3 p.m., Stone Valley.

Monday, May 26

Memorial Day observed, University offices closed.

Thursday, May 29

Board of Trustees meeting, Keller 8ldg.

Friday, May 30

Board of Trustees meeting, Keller 8ldg.

Outdoor Pool open for Summer, daily, 10:30 a.m.-8 p.m.

Saturday, May 31

Commencement, 10:30 a.m., Beaver Stadium. Governor Richard Thornburgh, speaker.

Old Main Tower open, noon-5 p.m.

Monday, June 2

Applications for faculty study spaces in Pattee Library for Summer Term taken, 7:15 a.m., Room 106 Central Pattee. Information, 865-5420.

Tuesday, June 3

University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.

Exhibits

HUB Galleries: Jeanne Stevens Sollman, ceramic sculpture, The Gallery.

Kern Gallery: Matt Reitz, glass, through May 23.

Museum of Art: selected works from the permanent collection, opens May 25; Diane Pepe, recent work on paper, through June 1; highlights from the permanent collection, through June 8; European posters (1895-1930) from the permanent collection.

Pattee Library: Patricia O'Connor, paintings, through May 30, East Corridor Gallery; Dennis Aumiller, photographs, through May 30, Lending Services Lobby.

Coaching offers way to help influence young people

For the next four months, when Old Main tolls 5 and most University administrators are heading home for dinner, Leonard "Len" Brush, associate director for the Office of Planning and Budget, will be on his way to the baseball field.

He's not an over-eager fan of some local team. Mr. Brush is simply trying to be on time for the dozen or more 14-16-year-old youngsters who depend on him as their baseball coach.

He has kept up this seasonal routine, which includes three games and two practices each week, since coming to Penn State in 1969. Aside from being a team manager, he is vice president of the State College Teener League.

The desire to see his two sons play ball and to make friends in a new town provided the incentive for Mr. Brush to begin coaching in 1969. He followed his sons through the Pee Wee League, Little League and Teener League, but when his boys grew out of Teener League, Mr. Brush stayed on.

"I had no intention of becoming so involved 11 years ago," he recalls. "But the baseball program soon grew to be a hobby — an enjoyable, rewarding way to expend my extra energy."

During those 11 years, Mr. Brush says he discovered that community athletics are a "built-in magnet" for getting to know people in the community.

"For this community, baseball is really another way to achieve town and gown relations," he says. "The businessmen and

Mr. Brush "rallies his troops" at a practice.

women and parents provide the financial impetus, supplying uniforms and equipment as well as coaching; and I've seen quite a few prestigious faculty members out there on the field with the kids — and not just their own kids."

Even more important, he adds, is the opportunity the youth baseball program has given him to be a teacher and "second father," as well as a coach with responsibility for having a strong influence on young lives.

"When you walk out onto the field that first day, you discover you're dealing with much more than a bag of equipment and a list of names — 15 to 20 wide-eyed little faces help you realize that."

"From then on, you've got to be aware that each player is an individual with special sensitivities, talents and goals. The reward is often working with the young person who's not at the top of the talent heap, but who may 'get it all together'.

even if it's during the last game of the season.

"While you do everything reasonable to win," Mr. Brush continues, "it's more important for the youngsters to realize that it's not the actual winning but achieving a winning, positive attitude about yourself, first, that really counts."

Apparently Mr. Brush has discovered a way to convey that winning attitude to the players he's coached. His record includes about 200 wins, 90 losses and 7 league championship titles within the last 10 years in three separate youth baseball programs.

When he is not on the baseball field or in

Old Main developing computer-based information systems in the Office of Planning and Budget, Mr. Brush manages a little time to spend with his wife, Liz, and their five children, Kathy, Vicki, Vince, Terry and Tammy, aged 16 through 22. Kathy is a sophomore at State College High School; Vicki is a senior and will attend Penn State in the Fall; Vince is a second term student and member of the Behrend College baseball team; Terry is a tenth term student and member of University Park's baseball team; and Tammy will graduate from Penn State this month.

"Organized youth baseball has come a long way since my childhood days when team t-shirts with patches were big stuff," Mr. Brush notes. "But the excitement of winning, the learning and growing that comes with losing don't change. As a coach, you can simply bring new meaning to those boyhood experiences."

Dr. Stere

(Continued from page 1)

one of the few teachers who will give them my home telephone number. One of my anatomy students used to call me regularly each Saturday morning at 8:30 a.m. Saturday is the only morning I have to sleep late, so at first I was a little annoyed. Then I thought, 'If that girl is self-disciplined enough to get up and study on Saturday mornings, I can give up some sleep to help her.'

A former student, writing back to the University, noted: "It has been years since my graduation from the Pennsylvania State University, yet I still feel obliged to maintain personal contact with Professor Stere. If ever there was an outstanding teacher and student friend, it is Athleen Stere."

Professor Stere, a Boston native, received her undergraduate education at Bryn Mawr College and then earned a master's degree at Radcliffe. For two years, she was a teaching fellow at Harvard University, going on to hold research assistantships at the Boston University School of Medicine and Albert Einstein Medical Center in Philadelphia. She completed her Ph.D. at Penn State in 1971, her research centering on cell physiology and the effects of oxygen deprivation on the heart muscle.

Her teaching career at Penn State began in 1963 when she joined the faculty at University Park as a research assistant, moving to the Altoona Campus in 1971. At University Park, she served as the coordinator for Biology 437, Animal Histology, and prepared the laboratory manual used for 14 years in that course. With Professor Adam Anthony, she initiated two new biology courses, Biology 538, Microscopic Histochemistry, and Biology 539, the Analytical Histochemistry Laboratory. She also prepared a laboratory manual for the latter course.

Increasingly, she notes, she has begun to counsel women students who come to her to discuss the problems they may encounter in trying to combine a career in science with marriage and a family.

Dr. Stere has managed to do this herself. She is the mother of three children, two of whom, David and Deborah, are Penn State alumni. The youngest, Robert, will begin at the Altoona Campus next Fall.

Dr. Henszey (Continued from page 1)

once a year, but enrollments were so high that it is now given three times annually. Dr. Henszey has co-authored a text for the course because he could not find one that suited him.

He also co-authored *Introduction to Basic Legal Principles for Business Law* 2413, with Professor Myers and Professor Reed T. Phalan.

A graduate State native and a 1961 graduate of Williams College with a major in English, Dr. Henszey was graduated from Dickinson Law School with a J.D. degree. He has authored numerous articles for professional journals and, having completed all the requirements for the M.L.T. degree (Master of Law and Taxation) at Georgetown Law School, is scheduled to graduate later this month. Before joining the faculty as a part-time instructor in 1970, he practiced law for two years and accounting for three.

Asked to describe his method of teaching, he explains:

"To me the challenge lies in finding ways to state things clearly and simply. I teach through repetition. I try to make my lectures so clear and well ordered that the students can learn all they need to during class hours."

"At the same time, I want my lectures to interest and stimulate those students who

thought they wouldn't like the subject but were required to take it. I think students feel comfortable with me as a person after they get to know me; I have an open door policy, and I never turn anyone away."

Dr. Henszey's theories on teaching are borne out by student evaluations.

"Professor Henszey's presentation of the material is systematic and logical, which makes learning the material very easy," one student wrote. "In addition, his presentation helps aid in retention. Dr. Henszey emphasizes important points which many students might have overlooked."

Students also appreciate the opportunity for discussion in his classes. "Open class discussion was common," one student wrote. "Usually several students would lead the discussion of cases, having been instructed to prepare them in advance, in much the same way that law school students do. I felt that while this format required more advance work on our part, I had developed a greater understanding of the material than it had been presented in lecture format."

Dr. Henszey sums up: "The important thing is to enjoy what you do. If you do, you'll be good at it, and students will feel your enthusiasm."

Staff Vacancies

The following vacancies for positions classified as staff management or staff nonmanagement have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 07-1387). Applications for these staff vacancies will be accepted until 5 p.m., May 25, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

COLLEGE HEALTH NURSE — OUTPATIENT SERVICES, UNIVERSITY HEALTH SERVICES, University Park. Respond to Head College Health Nurse, Outpatient Services, for providing general nursing services and assisting licensed physicians and dentists in the Outpatient area. Graduate from an accredited nursing program or its equivalent and currently licensed in Pennsylvania as a registered nurse plus six to nine months of effective experience, required.

SUPERVISOR, COMPUTER CENTER OPERATIONS — COLLEGE OF MEDICINE, Hershey. Responsible for the supervision and coordination of the activities of employees involved in Computer Center operations. Supervises keyboard operators, control clerks, computer operators, etc., and for the day-to-day operations of the Medical Computer Center. Data processing school graduate with three to four years of effective experience in computer operations, peripheral and offline equipment operations, and in supervising personnel.

JUNIOR ENGINEERING AIDE — APPLIED RESEARCH LABORATORY, University Park. Responsible to the Project Engineer or designated Senior Engineering Aide for assistance in the fabrication, testing, installation, operation, and maintenance of non-standard electronic parts, components, and equipment. Associate's degree or equivalent in electrical engineering technology program, plus three months of effective experience. Position may require travel on field assignments, including assignments aboard ships at sea.

ENGINEERING AIDE — APPLIED RESEARCH LABORATORY, University Park. Responsible to the Project Engineer or Senior Engineering Aide for the design and layout of routine electronic circuitry. Assist with the conduct of tests with the collection, compilation, and analysis of data. Associate's degree or equivalent in electrical engineering technology program, plus two to three years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments, including assignments aboard ships at sea.

Festival Theatre to mount four shows

For its 23rd consecutive season, Penn State's Festival Theatre will present four professional productions — *The Good Doctor*, *Pal Joey*, *Ah Wilderness!* and *Can't Help Loving' Dat Kern*.

Neil Simon's adaptation of Chekov, *The Good Doctor*, will be the first offering, playing in the Pavilion Theatre June 19-22, 24-29 and July 1-6. The master of Broadway comedy has fashioned a play with contemporary meaning based on characters created by the great 19th century Russian dramatist and storyteller.

Gene Kelly created the title role in *Pal Joey*, the musical written by Richard Rodgers, John O'Hara and Lorenz Hart. Frank Sinatra starred in the movie version. It is scheduled for *The Playhouse* June 26-29, July 1-6 and 8-13.

Eugene O'Neill's comedy, *Ah Wilderness!*, will run in the Pavilion

Theatre July 17-20, 22-27, and July 29-Aug. 3. Set in 1906, this early work by America's greatest playwright is his only comedy.

Festival 1980 will close with *Can't Help Loving' Dat Kern*, a musical based on works by Jerome Kern. It will be mounted at *The Playhouse* July 24-27, July 29-Aug. 3, and Aug. 5-10.

Subscriptions to the Festival Theatre, which is produced through the Department of Theatre and Film, are now on sale. Purchasing a season's subscription will save the buyer 20 percent on the four shows.

While window sales at the Festival Box Office in *The Playhouse* lobby will not begin until May 27, subscriptions may be ordered now either by calling 865-1884 or by writing Festival 1980, Room 137 Arts Building, University Park.

Dean Scannell

Scannell to head new Continuing Ed, Campus system

Dr. Robert J. Scannell, for the past 10 years dean of the College of Health, Physical Education and Recreation, has been named vice president and dean of the new University-wide System of Continuing Education and Commonwealth Campuses, effective July 1.

His appointment was approved by the University's Board of Trustees at its May 29-30 meeting.

Dr. Scannell, in his new assignment, will oversee the integration of formerly

separate administrative units for Penn State's Commonwealth Campuses and Continuing Education.

In announcing Dr. Scannell's appointment, President Oswald said: "Dr. Scannell's familiarity with the various Penn State campuses and his outstanding record as an administrator make him eminently qualified for this challenging new position. He has served the University well, both in his duties as dean and on a number of high-level, ad hoc committees dealing with a variety of

problems of vital importance to the interests of the University."

Integration of Continuing Education and the Commonwealth Campuses resulted from a recommendation of the Steering Committee involved with compiling *A Perspective on the '80s*. The report noted that "new demands of the '80s suggested that greater coordination and integration of the two units are desirable."

The President and Provost were charged by the Board of Trustees with

(Continued on page 4)

June 5, 1980 Volume 9, Number 36

Penn State Intercom

From the Trustee Docket

Operating budget adopted

The Trustees adopted an operating budget for the fiscal year 1980-81.

The budget is based on the appropriation level for Penn State as recommended by the Governor and expected to be acted upon shortly by the legislature. The appropriation increase would be \$6.922 million or 5.8 percent.

The gap between what Penn State requested and the appropriation recommended by the Governor is approximately \$14.5 million. To close the gap, President Oswald explained, several difficult measures have been taken.

"First of all," he said, "the University, in a continuing effort, has made internal reductions and reallocations of \$2.2 million for the next fiscal year, bringing the 10-year total to more than \$23.4 million.

"The University also will forego about \$2.6 million in essential expenditure increases related to inflationary cost increases."

On the income side, he continued, the University has added \$1.2 million to its budget from increases in indirect cost recovery and investment income, and nearly \$1.4 million from enrollment changes.

On the expenditure side of the budget, the largest amounts by far are devoted to appropriate salary adjustments for faculty members and staff, and for related staff benefits.

As is noted in the Trustee docket: "The University has placed the highest possible priority on salary adjustments for faculty and staff members in a period of high inflationary pressure. The recommended salary adjustments for all employees not covered by negotiated contracts represent an approximate 9 percent increase over the 1979-80 filled salary base. Portions of these funds will be used for basic salary increments, for merit increases, and for promotions.

Some additional funds have been provided, (1) where extreme market conditions exist; (2) for certain individual equity considerations; and (3) as part of a long-range effort to correct differences that exist between our Commonwealth Campuses plus Behrend College and respective branches of other comparable public universities. The overall 9 percent increase in the salary budget base, however, does not constitute an automatic percent increase for any individual or group of employees."

Dr. Oswald further noted that, in the budget request submitted initially to the

State last September, the University acknowledged the necessity of students sharing to some degree with the State the increased costs of education. Therefore, at that time, a 5 percent increase in tuition was proposed.

It is apparent now that an additional 5.5 percent increase in tuition is necessary to entirely close the gap, he said, adding: "The additional tuition income provided

Is your vision card in?

Faculty and staff members are reminded that the deadline to complete and return their Vision Card enrollment cards to the Employee Benefits Division, Room 133 Willard Building, is tomorrow, June 6.

The cards were included in packets which were mailed to all participants in the benefits program. All — repeat ALL — cards should be returned, even if dependent coverage is not being elected under the program.

only a portion of funds needed to make up the gap between the State appropriation and the amount requested.

"The tuition increases were as low as we could make them in view of the high inflation affecting us this year."

Effective with the Fall Term at the University Park campus, undergraduate students who are Pennsylvania residents will pay \$156 more a year for tuition, an annual increase from \$1,485 to \$1,641. At the Behrend College and other Penn State campuses, the increase will be from \$1,281 to \$1,416. Tuition at the Capitol Campus will be increased by \$153, to \$1,593 a year.

The tuition increase for out-of-state undergraduate students at all locations will be \$315 to \$3,297 per year.

In-state graduate students will pay \$168 more at University Park and \$153 more at all other locations. Out-of-state graduate students will pay \$348 more per year at all locations.

The rates for in-state graduate students will be \$1,749 at University Park and \$1,593 at all other locations. Out-of-state graduate students will pay \$3,498 at all campuses.

Annual tuition rates are based on full-time attendance for three of the four annual terms.

Tuition for in-state students at The Milton S. Eisenhower Medical Center will remain at \$5,550 per year. Out-of-state medical students will continue to pay \$8,670.

"Medical students experienced a 25 percent tuition increase last year," Dr.

Oswald said. "As a result, Penn State's current tuition level for medical students is among the highest in the nation for public medical schools."

Graduate students at Hershey will pay University Park rates.

The University's general funds portion of the operating budget totals \$238 million. Funded primarily by State appropriations and student tuition, it supports the University's basic programs of teaching, research and public service.

No State or tuition funds are used to support the Hershey Medical Center Hospital or auxiliary enterprises such as residence halls, food service, intercollegiate athletics and the book stores. All are self-supporting.

Of the total Medical Center operating budget of \$85,433,000, only 4 percent comes from State funds.

The total University operating budget for 1980-81, including the general funds portion, as well as all auxiliary enterprises and estimated research grants and other funds, is \$443 million. This is an increase of about 8 percent over last year's figure of \$410 million. A total of \$127 million would come from State appropriations.

Should the final appropriation be different than the amount recommended by the Governor, said Dr. Oswald, the budget will be revised accordingly and returned to the Trustees for their approval.

Consent decree discussed

The University's Trustees discussed the use of a consent decree between the University and the State Department of Environmental Resources for completion of a sewage treatment project at University Park.

The consent decree, to be submitted to the Commonwealth Court, provides for construction of a piping system to dispose of treated sewage by spraying it on Penn State-owned game lands in Centre County.

The spraying technique, developed by Penn State researchers, has been approved by federal and State environmental agencies and would bring the University sewage system into legal compliance, according to Robert A. Patterson, senior vice president for finance and operations.

"A low bid of \$3,774,663 was received on the construction," Mr. Patterson told the Board of Trustees. "This is lower than was estimated."

"To take advantage of the favorable bids, it has been possible for the University officers to arrange a plan with the special assistance of the Commonwealth of Pennsylvania for construction of this facility from Commonwealth funds, including \$1,134,000 available from an earlier phase of the project, plus escrow and escalation funds."

(Continued on page 3)

Dr. Klevans

Klevans named Faculty Senate chairman-elect

Dr. Edward H. Klevans, professor of nuclear engineering, has been selected chairman-elect of the Senate.

Other faculty members elected by the Senate membership in last month's balloting include:

Secretary: Dr. Nancy M. Tischler, professor of English and humanities at Capitol Campus.

Faculty Advisory Committee: Richard L. McCarl, biochemistry; Irwin Feller, economics, to fill the term vacated by Dr. Klevans.

Faculty Rights and Responsibilities: University Park, Arthur E. Goldschmidt, history, member; Donald M. Crider, rural sociology, alternate. Other than University Park, William L. Emkey, physics, Allentown. Deans, Eugene J. Kelley, business administration, member; Robert J. Scannell, HPER, alternate.

Standing Joint Committee on Tenure: Mary McCammon, mathematics, member; Russell A. Reed, chemistry, Berks, alternate.

University Promotion and Tenure Review Committee: Ronald L. Filippelli, Libraries; Robert F. Schmalz, geology; John Kolesar, engineering, Wilkes-Barre.

Dr. Klevans, a member of the faculty since 1966, is serving his second term in the Senate. He has been chairman of the Intra-University Relations and Faculty Affairs Committees and is an elected member of the Faculty Advisory Committee. He was also a member of the Provost's Advisory Committee on Planning and Budget.

An electrical engineering graduate of Penn State, Dr. Klevans earned his master's and doctorate in nuclear engineering from the University of Michigan. His research, conducted with support from the U.S. Department of Energy, focuses on the controlled fusion process, and he is a recipient of the Glenn Murphy Award of the American Society of Engineering Education for his contributions as a nuclear educator.

Penn Staters

Dr. Richard C. Bradt, professor of ceramic science and engineering and head of the Department of Materials Science and Engineering, has been chosen as the 1980 U.S. recipient of the Richard M. Fulrath Award, a U.S./Japanese-sponsored citation. Dr. Bradt is being recognized for his work on the relationship between the structure and mechanical behavior of ceramic materials.

Inaugurated in 1978, the Fulrath Awards annually honor both U.S. and Japanese ceramic scientists. Dual symposia are held in Japan and the U.S., with the awardees serving as speakers. Dr. Bradt will make technical presentations at symposia held in conjunction with an American Ceramic Society meeting in San Francisco in October, and a meeting of the basic science division of the Japanese Ceramic Society in Nagoya in January.

Administered in the U.S. by the Department of Materials Science and Mineral Engineering at the University of California, Berkeley, and by the Northern California Section of the American Ceramic Society, the Fulrath Awards were established by a U.S.-Japanese committee. They honor the late Professor Richard M. Fulrath, a member of the Berkeley faculty, who made many contributions, in both the U.S. and Japan, to the study of technical ceramic materials. He died in 1977.

Dr. Bradt is co-editor of five volumes of proceedings of international symposia on the structure and mechanical behavior of ceramic materials. He has published more than 100 research papers with students and colleagues, and has advised or co-advised nearly 50 graduate students in their research.

A member of the Penn State faculty since 1967, he received his B.S. in metallurgy from the Massachusetts Institute of Technology and his Ph.D. in materials engineering from Rensselaer Polytechnic Institute.

Dr. Alegria Bendelac, assistant professor of French at Schuylkill, received two summer seminar awards from the National Endowment for the Humanities. She will participate in "The Novel in History" seminar, offered by Columbia University. A member of the Schuylkill faculty since 1976, Dr. Bendelac previously taught at Fordham. She is the author of two volumes of poetry, one of which, *Tourmaline*, won the Prix Blaise Cendrars in France.

Retirements

Louis E. Silvi, special assistant to the vice president for business since August 1977 and formerly general manager of The Nittany Lion Inn, will retire June 30 after more than 25 years of service.

Mr. Silvi, a native of Massachusetts, received an associate degree in hotel and restaurant arts at City College of San Francisco and a B.A. in business administration from Denver University. During World War II, he served in the European Theatre with the U.S. Army. Before coming to Penn State, he held administrative positions at Mountaintop Country Club in

Three new deans are appointed

Dr. Love

Dr. McAlexander

Dr. Cahir

Dr. Gene M. Love, professor and head of the Department of Agricultural Education, has been named associate dean for resident education in the College of Agriculture, effective July 1. He succeeds Dr. Jerome K. Pasto, who is retiring June 30.

Dr. Love, who earned his bachelor's, master's and doctoral degrees at Penn State, has been a department head since 1975. Before coming to the University, he was coordinator of agricultural education programs at the University of Missouri-Columbia for nine years. Earlier he served on the agricultural education faculty at Penn State and on the Stanford University faculty while on assignment in the Philippines. He also taught agriculture in high schools and is a veteran of the U.S. Air Force.

In 1979, he received the Distinguished Service Award of the American Association of Teacher Educators in Agriculture, of which he is a past president. In 1971, he earned the Education Research Award of the American Institution of Cooperation.

Dr. Robert H. McAlexander, coordinator since 1968 of international agricultural programs, has been promoted to assistant dean and director of international agricultural programs. Dr. McAlexander will be responsible for development and coordination of international programs conducted by the College of Agriculture. Penn State agricultural researchers and specialists are involved in projects in Uruguay, Kenya and Sri Lanka.

A member of the Penn State faculty since 1956, Dr. McAlexander is also professor of farm management. He earned his B.A. in mathematics in 1943 at State Teachers College in Peru, Neb. After serving three years in the U.S. Air Force weather service, he graduated from Iowa State College in 1949 with a B.A. in agricultural education. He was awarded the M.S. in agricultural economics from Oregon State College and the Ph.D. from Iowa State. Prior to joining the Penn State faculty, Dr. McAlexander held positions at Iowa State and Oregon State.

He is the author of numerous scientific articles in the areas of agricultural economics and international agriculture. His research has included the economics of forage crop irrigation, pasture improvement and land renovation, mushroom production, poultry production and enterprise combinations on Pennsylvania farms.

Birmingham, at the Lido Restaurant and Latham's Inn on Cape Cod, and at the University of Kansas Student Union.

In addition to his duties at the Inn, he served as a part-time instructor for the Department of Hotel and Restaurant Administration, administering practicum courses for students and lecturing.

Mr. Silvi has been active in many civic, fraternal and professional organizations and intends to continue to pursue consulting work for colleges and private industry, particularly in connection with facilities design and production techniques for food service.

A cocktail buffet will be held in his honor on Saturday, June 21, from 6:30 to 9 p.m. in the Colonial Room of the Nittany Lion Inn. Anyone interested in attending may call 865-7633 for additional information.

Dr. John Cahir, professor of meteorology, has been named associate dean for resident instruction in the College of Earth and Mineral Sciences, effective July 1.

He succeeds Dr. E. Willard Miller, professor of geography, who will retire in June with emeritus rank after serving 35 years on the Penn State faculty.

Dr. Cahir, who received his B.S. in 1961 and his Ph.D. in 1971, both in meteorology from Penn State, joined the University faculty in 1965. He teaches courses in the areas of synoptic meteorology, climatology, and applications of satellites.

His research interests include application of minicomputer-based analysis methods to short-range weather forecasting; effects of cloudiness on the earth's radiation balance; and structure of small-scale circulations that produce cloud bands near fronts and jet streams.

In 1971, Dr. Cahir received his College's Wilson Teaching Award; in 1969, he was awarded the American Meteorological Society's Seal of Approval for Television Weather Forecasting; and last year, he received the Award for Outstanding Contributions to Applied Meteorology made annually by the National Weather Association.

He serves as an editor of *Monthly Weather Review*, published by the American Meteorological Society, and, for the past two years, has been chairman of the AMS Committee on Weather Forecasting and Analysis. He also has served on a National Academy of Science committee to evaluate the research program of the National Environmental Satellite Service, and a National Weather Association committee on automation.

He has been a member of Penn State's University Senate since 1973, serving on its Steering Committee for the *Perspective on the '80s* and the Task Force on Programs and Priorities for the Plan for the '80s. Other Senate groups he has served on include the Joint Presidential-Senate Committee on Remedial Education, the Joint Administration-Senate Committee on Insurance, the Ad Hoc Committee to Study the Implications of Collective Bargaining, and the Provost's Advisory Committee on Planning and Budget.

He is the co-author of two books, *Principles of Climatology and The Atmosphere*, and a number of articles, papers, and reports.

He has also appeared regularly on WPSX-TV's State of the Weather/World program.

Lucille Z. Brown is enjoying the Penn State rocking chair which her co-workers gave her at her retirement party.

An offset duplicator operator in Ag Communications, Mrs. Brown was a member of the staff from February 1962 until this April. While she operated the duplicator and other processing machines for the past 11 years, prior to that she worked in South and West Halls as a maid with the Department of Housing and Food Services.

Mrs. Brown's husband retired from the Fish Commission two years ago, and they plan to spend much of their time this summer in a trailer home they keep in Port Royal, where Mr. Brown enjoys fishing. The couple have a son, Gary, who graduated from Penn State in 1970 with a major in accounting.

Promotions Staff Exempt

Martha T. Driver to assistant director of undergraduate admissions in Undergraduate Admissions.
Barbara J. McKee to assistant extension agent in Agriculture.
Thomas M. Shea to admissions counselor II in Undergraduate Admissions.

Clerical

Carol A. Bresnock to senior correspondence secretary at Worthington Secretariat.
Baiba Briedas to secretary A in Liberal Arts.
Mary Jane Johnson to secretary B in Intercollege Research Programs.
Brenda L. Stroud to secretary C in Undergraduate Admissions.
Lisa M. Urban to clerk typist A in Agriculture.

Technical Service

James E. Dillen to stockroom inventory clerk in Science.
Chester M. Poorman to operator, centralized copy center in Business Services.
Franklin R. Straub Sr. to utility worker at Hershey.

Carpooler

Miriam Mackey, of Flemington (Phone: 748-5009), would like to car pool and is willing to drive to Lamar or Beech Creek to hook up with other riders. She works from 8 a.m. to 4:30 p.m. in Finlay Dining Hall.

Obituaries

Edgar E. Ambrosius, a professor of mechanical engineering from 1944 to 1969, died May 18 at the age of 76. Professor Ambrosius held B.S. and M.S. degrees from the University of Illinois and had taught at the Universities of Kansas and Oklahoma before coming to Penn State.

While at the University, he supervised the design and installation of the Department of Mechanical Engineering's Power Transmission Laboratory and in 1967 received the College of Engineering's advising award. His research centered around fluid flow measurement, and he was the co-author of two books. An active member of the American Society of Engineering Education, he served on that organization's Council from 1954-56.

Gerald A. Porter, a senior research aide in the College of Agriculture, died May 20. Mr. Porter held two Penn State degrees, a B.S. in agricultural education '59 and an M.S. in agronomy '61. He had been a member of the staff since 1965.

Molly E. Shannon, a counter attendant with Housing and Food Services from 1964 to her retirement in 1975, died May 23. A native of Sunbury, she was 69.

Helen M. Beir Lair, a food service worker with Housing and Food Services since Sept. 21, 1969, died May 21 at the age of 64.

Calendar

June 6-15

Special Events

Friday, June 6

Office of Gifts and Endowments, Alumni Coffee Hour, 9:15 a.m., Fireside Room, Nittany Lion Inn.

Alumni Institute: panel discussion — five faculty members look at the 1960s; 10:30 a.m.; lectures, 2 and 3:30 p.m., Keller Conference Center. Free tickets, Keller Registration Desk.

Aethon String Quartet, 7 p.m., Fireside Room, Nittany Lion Inn. Limited seating.

Saturday, June 7

Alumni Assn., All Class Luncheon, 12:30 p.m., Rec Hall. Presentation of 1980 Outstanding Alumni Awards and Oswald Paw Medal; report by President Osland.

Sunday, June 8

Residence Halls open for Summer Term. University Chapel Service, 9:30 a.m., Eisenhower Chapel.

Monday, June 9

Orientation and Advising for Summer Term. International students' orientation, 2:30 p.m., Room 112 Kern.

Continuing Education registration, 4-8 p.m., Room 101 Kern.

Tuesday, June 10

Registration for 10 week Summer Term, 8 a.m.-5 p.m., IM Bldg.

Continuing Education registration, 9 a.m.-1 p.m., Room 101 Kern.

University Libraries orientation tours: Pattee — 9 and 11 a.m., 1 and 3 p.m.; Branches — undergraduate students, 10 a.m., graduate students, 2 p.m.

Wednesday, June 11

10 week Summer Term classes begin, 8 a.m.

Pre-registration forms for Fall Term accepted in Room 112 Shields, through July 9.

Drop/Add, 1-4 p.m., HUB Station.

University Libraries orientation tours: Pattee — 9 and 11 a.m., 1 and 3 p.m.; Branches — undergraduate students, 10 a.m., graduate students, 2 p.m.

Thursday, June 12

Drop/Add, 9 a.m.-4 p.m., HUB Station. Also June 13, 16 and 17.

University Libraries orientation tours: Pattee — 9 and 11 a.m., 1 and 3 p.m.; Branches — undergraduate students, 10 a.m., graduate students, 2 p.m.

Friday, June 13

Penn State Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.

Saturday, June 14

France-Cinema, Herzog, *Nosferatu*, 7 and 9 p.m., Room 112 Kern.

Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.

Explanazanga film, *Night of the Living Dead*, dusk, Fisher Plaza.

Sunday, June 15

Free U registration, 11 a.m.-4 p.m., Room 301 HUB.

Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.

Exhibits

Chambers Gallery: Steven Devrin and Rome Hanks, photographs, Kevin Slick, Art Education graduate student, watercolors; Sally Benz, Art Education graduate student, baskets, all open June 11.

HUB Gallery: Jeanne Stevens Soliman, ceramic sculptures.

Kern Gallery: Mary McGuire, ceramics; John Lazebny, photographs, opens June 9.

Museum of Art: highlights from the permanent collection, through June 8; European posters (1895-1930) from the permanent collection; selected works from the permanent collection.

Pattee Galleries: Rose Shumskas, recent drawings, East Corridor Gallery; Sandy Copia, recent works, Lending Services; Sally Benz: "Founding a University: An Exhibit in Honor of The Pennsylvania State University's 125th Anniversary," Main Lobby, all open June 9.

Trustee docket

(Continued from page 1)

It will be the University's responsibility to construct and maintain research and monitoring equipment.

The sewage project was begun in 1968 under a State Capital Program. The first phase, completed in 1976, consists of a surge tank, a pumping system and a main distribution line from the University Park campus to the game lands.

The second phase — a finger system consisting of about 56 miles of various sized piping, 3 to 8 inches in diameter — will allow spraying of the treated sewage over two areas, totaling 600 acres, on the game lands.

The spraying meets the standards of all environmental control agencies, Mr. Patterson said. It has been extensively tested by Penn State's College of Agriculture and found to be odorless, as well as harmless to vegetation and animals in the area.

Foster elected by alumni

Lawrence G. Foster, corporate vice president for public relations and assistant chairman of the board of Johnson & Johnson, is the newest member of the Board of Trustees.

Mr. Foster was elected to a three-year term, along with six incumbents. The new board member, elected by Penn State alumni, replaces Charles W. Shaeffer of Baltimore, who did not seek re-election.

Re-elected by alumni were Walter J. Conti of Doylestown and Ralph D. Hetzel Jr. of Valencia, Calif.

Trustees re-elected by delegates from county agricultural societies were Raymond E. Sperry of Atlantic, and State Rep. Roger A. Madigan of Towanda.

County industrial society delegates re-elected H. Thomas Hollowell Jr. of Rydal and J. Lloyd Huck of New Vernon, N.J.

Mr. Foster, a 1948 graduate of Penn State, began his professional career as a journalist. He worked as a reporter, bureau chief and night city editor for the *Newark News*. In 1957, he joined Johnson & Johnson, the international health care products company.

In his present position, Mr. Foster is responsible for a worldwide communications program. As president of the Penn State Alumni Association from 1973 until 1975, Mr. Foster initiated the Alumni Vacation College and the Alumni Fellows Program. He also has been active in the Alumni Council and the Penn State

Fund Council. In 1979, he received the University's Distinguished Alumnus Award.

Walter J. Conti, owner of Conti Cross Keys Inn in Doylestown, has been vice president of the Board of Trustees since January 1979. A 1952 graduate of the University, he is vice president of the National Restaurant Association and active in numerous professional and public service organizations, including the Governor's Council on Physical Fitness.

Ralph D. Hetzel Jr., a 1933 graduate of Penn State, is provost and vice president of the California Institute of the Arts. Previously he was dean of the College of Fine and Professional Arts at Kent State University.

Rep. Roger Madigan was elected to the State legislature from the 110th District in 1976 and re-elected in 1978. He serves on a number of committees in the House of Representatives. A 1951 graduate of Penn State, he is a former dairy farmer and also operates a beef farm near Towanda.

Raymond E. Sperry operates a 350-acre poultry and grain farm in Crawford County. In 1975, he received the Pennsylvania Master Farmer Award. He is a past master of the Atlantic Grange and a director of the Crawford County Fair.

H. Thomas Hollowell Jr., an executive, economist and inventor, has been chairman of the board of Standard Pressed Steel in Jenkintown since 1971. He holds a number of patents and has served on the boards of numerous corporations and institutions.

J. Lloyd Huck is president and chief operating officer of Merck and Co., Inc., one of the nation's largest pharmaceutical firms. A 1946 graduate of Penn State, he was a 1980 Alumni Fellow of the University.

Capitol changes approved

The Trustees have approved changes in the division structure for academic units at the Capitol Campus in Harrisburg.

According to Theodore L. Gross, provost and dean at Capitol, all existing academic programs will be retained, but the number of academic administrators responsible for budgetary and personnel actions will be reduced.

"This new structure is more efficient," Dr. Gross said. "It replaces nine administrative units with six and affords us substantial other economies as well."

"Academically, it unites programs in ways that continue the interdisciplinary approach traditionally practiced at Penn

State Capitol. It will make possible many new forms of cooperation."

The new structure will take effect July 1. Dr. Gross said the selection process for division heads will begin immediately, and their names will be announced as soon as possible.

The new divisions, their degrees and component elements are:

— Science, Engineering and Technology. Bachelor of Technology with majors in building construction, electrical design engineering, energy, mechanical design engineering, transportation and water resources engineering technologies; Master of Engineering; Bachelor of Science in Mathematical Sciences in these interest areas: actuarial science, computers, education and managerial science, and an option in industrial hygiene.

— Business Division. Bachelor of Business Administration: Options in accounting, business administration, finance, health care management, marketing, economics and computer applications; Master of Administration.

— Behavioral Science and Education Division. Bachelor of Social Science: Options in psychosocial and secondary education; Master of Education; Master of Psychology; Bachelor of Education; Elementary Education. Concentrations in early childhood, humanities, mathematical sciences and social science.

— Humanities Division. Bachelor of Humanities: Options in American studies, business-humanities, literature, multimedia journalism, philosophy and secondary education English. Master of Arts in American Studies; Master of Arts in Humanities.

— Public Affairs Division. Bachelor of Social Science: option in public policy; Master of Public Administration; Master of Regional Planning.

— Richard H. Heindel Library.

Keller to get small store

A small bookstore outlet, 22 by 30 feet, to provide books, supplies and other items to students in Continuing Education programs will be built in the lobby of the Keller Conference Center.

"This will provide a convenience for the large number of Continuing Education students who use the center and need to purchase course materials," Ralph Zilly, vice president for business, said. "The project will be self-amortizing through the outlet's receipts."

(Continued on page 4)

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff appointment have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 846-1387 (network line 475-1287). Applications for these staff vacancies will be accepted until 5 p.m., June 12, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with *Fast Employment practices* (P5-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

CLASSIFICATION ANALYST, OFFICE OF PERSONNEL ADMINISTRATION University Park. Responsible to the Manager for assisting in various administrative duties related to the University's wage and salary classification plan. Gather information for review of existing positions or classification and evaluation of new positions. Write job descriptions based on the compiled data. Assist in conducting research, surveys, and compiling data for a wide variety of special projects and reports. Bachelor's degree or equivalent, preferably in personnel administration or industrial engineering, plus a minimum of one to two years of effective administrative experience, preferably in job evaluation and classification activity.

COLLEGE HEALTH NURSE — COMMONWEALTH CAMPUSES, DuBois Campus — Responsible administratively to the Dean of Student Affairs and professionally to the Director of Nursing Services for providing nursing care to the student body, including the treatment of minor and temporary illnesses and accidents, plus making appointments and referring students and employees to a physician or hospital when

necessary. Provide and execute a nursing regimen within the limits of standard nursing practices and University policies and University Health Services policy and procedures. Implement medicine regimens under the direction of a licensed physician or dentist. Graduate of an accredited nursing program or its equivalent and current licensure in Pennsylvania as a registered nurse, plus six to nine months of effective experience with some public health experience or training.

ASSISTANT DIRECTOR (DEVELOPMENT PROGRAMS) — STUDENT AFFAIRS University Park. Responsible to the Director of Residential Life Programs for the overall administration and coordination of the Developmental Programs of Residential Life Programs. For example, orientation of new students and coordination of various publications, and the TIPS System. A master's degree in student personnel administration or equivalent, plus two to four years of effective experience are required.

DENTAL HYGIENIST — COLLEGE OF MEDICINE, Millersburg Health Center — Responsible to the Director of Nursing Services for providing dental services pertaining to patient dental care and patient dental education programs. Candidates should be graduates of a state licensed and accepted school of dental hygiene and possess a license to practice dental hygiene in the state of Pennsylvania, plus one to two years of effective experience.

ASSISTANT DIRECTOR OF NURSING — COLLEGE OF MEDICINE, Hershey — Responsible to the Assistant Hospital Director/Director of Nursing Services for assisting with the administration of the Department of Nursing Services within assigned patient care areas, including the planning, organizing, staffing, coordinating, and evaluating activities necessary for continuation of nursing care and supervision of nursing care. M.S.N. in nursing administration or related area preferred, or equivalency, and three to four years' effective experience with a hospital setting and relating to the area of accountability to designated and current

license as a registered nurse by the Pennsylvania Board of Nurse Examiners.

ADMISSIONS COUNSELOR I — UNDERGRADUATE ADMISSIONS University Park. Responsible to the Associate or Assistant Director of Admissions for general assistance in handling of the more routine Admissions matters in an assigned regional area. Participate in and administer Admissions activities for freshmen, advanced standing, transfer, provisional, and nondegree students who are baccalaureate or associate degree candidates for University Park Campus and for assigned Commonwealth Campuses/Berks/Colebrook College. Bachelor's degree (or equivalent) plus six to nine months of effective experience in educational administration. A record of participation in and knowledge of academic and extracurricular or civic activity is desirable.

ASSIGNMENT OFFICE SERVICES ASSISTANT — HOUSING AND FOOD SERVICES University Park. Responsible for supervising the accounting of monies received through the Room Assignments Office and for preparing reports. Provide clerical controls for Housing and Food Service operations. High school or equivalent, plus two years of business school or associate degree in accounting or related field, plus one to two years of effective experience.

FINANCIAL AID COORDINATOR — OFFICE OF STUDENT AID University Park. Responsible to the Assistant Director of Student Aid for providing and delivery functions for Commonwealth Campus students, and for assisting in the internal administration and operation of all financial aid programs. Develop and maintain a strong working knowledge of all federal, state and institutional sources of financial aid. Assist students with financial concerns by providing information, counseling, and referral to aid services. Assist in the awarding and adjusting of financial aid packages. Master's degree or equivalent in student personnel services, public administration, business administration, or other related fields, plus one to one year of effective experience required.

Trustee docket

(Continued from page 3)

Ulerich set up fund

The Mr. and Mrs. William K. Ulerich Ophthalmology Fund has been established at Hershey to provide long-term financial support for the continuation and expansion of ophthalmology research, including the purchase of equipment.

From gifts totaling \$25,000 for this purpose from Mr. and Mrs. Ulerich of Clearfield, Pa., \$5,000 will be retained as the initial principal of the fund.

In announcing the scholarship, President Oswald commented:

"This is but another example of Bill Ulerich's sustained and generous commitment to Penn State. For more than 50 years as student, alumnus and Trustee, he has devoted himself to the welfare of the University, its students and its traditions."

Mr. Ulerich, a newspaper publisher and radio station executive, has actively supported Penn State since his graduation in 1931 with a B.A. in journalism. A member of the University's Board of Trustees from 1951-57 and from 1963 to the present, he served as president of the Board from 1976-79.

An ex-president of the national Penn State Alumni Association, he was named a Distinguished Alumnus of the University in 1969. In 1978, Mr. Ulerich received the Lion's Paw Medal, given for notable service to the University. In 1977, he received an honorary doctor of laws degree from Dickinson School of Law.

HUB renovation to start

Final plans for renovation of the University bookstores and food service areas in the Hetzel Union Building received Trustees approval.

The action allows the University to begin obtaining bids and awarding contracts on the projects. It will centralize three bookstore outlets into a single operation, while diversifying HUB food services and providing space for the Career Development and Placement Center to conduct interviews.

"A substantial portion of the work will be done by University employees," Ralph Zilly, vice president for business, said. "No University or tuition money is involved. The project will be self-amortizing through bookstore and food service receipts."

"Because of the extent of this renovation and because all the areas involved already are in use, the project will take place in a series of steps to minimize inconvenience to students and other users of these facilities."

Beginning this summer, Mr. Zilly reported, the HUB lower-level area containing the Lions Den, a cafeteria and three dining rooms will be closed for remodeling. This section will reopen in the Fall of 1981 as four separate food service nodes, offering three meals a day with a variety of service options.

"As soon as the new food operations open, it will be possible to shut down the Terrace Room cafeteria for remodeling," Mr. Zilly said. "This will allow us to move the bookstore from its three current locations into the Terrace Room."

The bookstore, located in two rooms, on separate floors of the HUB and in a third room in the nearby McAllister Building, will complete its move to the remodeled Terrace Room by the summer of 1982.

Remodeling will then begin on the three vacated bookstore locations. The lower-level HUB bookstore will be converted to a ratskeller-type restaurant; the present upper-level store will provide space for student organization offices and meeting rooms; and part of the McAllister bookstore will be converted to a placement interview area.

Also to be remodeled is the open "game room" area in the HUB. "This space will have new equipment, better noise control, and a food outlet serving beverages and

baked goods," Mr. Zilly noted.

"Besides consolidating the bookstore operation into a single, more convenient unit, the project will improve utilization of space," Mr. Zilly said. "The bookstore will expand from its current total area of 18,000 to 24,000 square feet."

The project is scheduled for completion in the Fall of 1981 at an estimated overall cost of \$2.87 million.

Feldstein gives report on Alumni Association activities

Efforts to support University operations on several fronts highlighted the past year's activities of the Penn State Alumni Association, Jay Feldstein, its president, told the Trustees. The 50,000-member organization has stepped up efforts to support University goals.

"The Alumni Office is working closely with the Admissions Office in identifying and training alumni volunteers to help recruit outstanding students for Penn State," Mr. Feldstein said. He added that several Penn State clubs both in and out of Pennsylvania are involved in the effort to support the admissions staff.

President Oswald commented that he was "very pleased that Mr. Feldstein was able to be present at the meeting of the Board. Alumni are a key element of the Board of Trustees, and it is most appropriate that the president of the Alumni Association is reporting on the excellent support activity being carried out."

Alumni also are involved in support of the University Career Development and Placement Center, Mr. Feldstein said. Volunteers are providing career counseling and job placement assistance, and alumni societies in Penn State's academic colleges have held a number of Career Days over the past year.

Support also has been provided for financially needy students. "One club in Arizona is even interested in establishing a scholarship fund that could help students from Arizona defray the out-of-state tuition costs to attend Penn State, and has made an initial contribution to that effort," Mr. Feldstein reported.

A survey of Penn State graduates taken by a University advanced marketing class this spring shows the makeup of the alumni body has changed since the last such survey in 1971, Mr. Feldstein said.

"Since that time, our alumni body has grown considerably younger — 43 percent of our total alumni have graduated since that last survey was taken. We also have" quite a few more females than we did nine years ago."

Alumni attitudes toward the University continue to be positive, Mr. Feldstein said. Up to 95 percent affirmed such statements as, "My experience at Penn State was satisfying and rewarding," "I am proud to have graduated from Penn State," "I would be pleased to have my child attend Penn State."

Other 1979-80 activities reported on by Mr. Feldstein included the Alumni Fellows program, which returned 11 eminent alumni to Penn State campuses to share career experiences; an Alumnus Day which drew about 400 participants for workshops and seminars on topics for women; the Alumni Vacation College; and the modernization of the Alumni Association's record-keeping systems.

A 1959 graduate of Penn State, Mr. Feldstein, a practicing attorney in Pittsburgh, recently was named chairman of the Pennsylvania Lottery Commission.

Elisabeth Blissell honored

The library building at New Kensington has been named the Elisabeth S. Blissell Library in honor of a founder and chief benefactor of the campus.

The library, a two-story, brick and concrete structure, holding more than 30,000 volumes opened in 1970.

"Mrs. Blissell was the driving force in establishing the New Kensington Campus," President Oswald said. "Her commitment and determination

have helped to bring higher education to many people in the New Kensington area who otherwise, would not have had the opportunity. It is with great pleasure that I have recommended the renaming of the library in her honor."

In 1958, Mrs. Blissell succeeded in what had been a long effort to establish a college presence in the New Kensington area. She persuaded the Chamber of Commerce to forgo a fund drive for a new Chamber building in favor of a campaign to bring Penn State to New Kensington.

After spearheading a drive to raise \$40,000 for refurbishing of a school building to house the Penn State Center, she began working on acquiring land for a campus. A 30-acre tract was donated by the Aluminum Company of America in 1963. Mrs. Blissell then helped lead a campaign to raise more than \$1.2 million to build the present physical plant.

In addition, Mrs. Blissell personally raised \$5,000 to enable disadvantaged youths to attend the campus. Currently, she serves as an unpaid campus consultant in the development of an Allegheny-Kiski Valley Ethnic Cultural Center.

Ikenberry to receive Honorary Alumnus status

Dr. Stanley O. Ikenberry, president of the University of Illinois, will be named an honorary alumnus of Penn State at ceremonies to be held Saturday, June 7, during Penn State's Alumni Reunion weekend.

Dr. Ikenberry served as senior vice president for administration at Penn State until his appointment at Illinois last year.

"Stan Ikenberry is a most deserving recipient of the Honorary Alumnus Award," President Oswald told the Trustees. "His devotion to Penn State during his service here was obvious to many people in the University community."

"Stan has an exceptional grasp on the broad range of responsibilities necessary for success in higher education administration. While here, he was always effective in communicating with Penn State's external and internal constituencies."

The Honorary Alumnus Award was established in 1973 to honor a person who is not a Penn State graduate but who has made significant contributions toward the welfare, reputation or prestige of the University. It is not an annual award but is given only when the Alumni Association wishes to honor an exceptional individual.

Program titles changed

The title of the Speech Pathology graduate program in the College of Education has been changed to Communication Disorders, following a similar change made recently in the name of the undergraduate program. In addition to speech pathology and audiology, the current graduate program includes studies in education of the hearing impaired and thus requires a broader title.

Similar reasoning dictated a change in the title of the Education of Exceptional Children graduate program, which has been renamed Special Education. The new title emphasizes the program's interest in the needs of exceptional individuals across a wide range of ages and is the more conventional label used across the nation. The undergraduate program has also been renamed Special Education.

Scannell

(Continued from page 1)

implementing this administrative integration with advice from representatives of appropriate University groups, including, especially, Commonwealth Campus and Continuing Education faculty members and staff.

President Oswald said Dr. Scannell, in accordance with conditions set forth by the Trustees in establishing this new position, will devote this first six months to developing the plan for action and

organization of the integration in consultation with appropriate faculty members and administrators. The integration, Dr. Oswald emphasized, will be purely administrative and will not alter academic organizations nor academic authority. Departmental responsibilities, including promotion and tenure policies, for example, will not be affected.

When those details have been approved by Dr. Oswald and Provost Eddy, the integration of the two units will take place. As chief administrator of the new unit, Dr. Scannell will report to Dr. Eddy and will serve as a member of the President's Staff and the Council of Academic Deans.

"I look forward," said Dr. Scannell, "to the challenges and opportunities presented by the administrative responsibility for these two excellent units of Penn State. I will do my best to measure up to the confidence that Dr. Oswald and the Board have expressed in me. The period of time they have provided for discussions with faculty members, students and staff before I assume day-to-day responsibilities will be extremely valuable as we develop details of the integration."

As dean of the College and director of its Research Institute, Dr. Scannell has directed widely recognized programs in both men's and women's athletics. He joined the Penn State faculty in 1961, following three years of service at John Adams High School in South Bend, Ind.

In 1963, he was appointed representative for Commonwealth Campus programs. He became associate dean for undergraduate resident instruction in 1967 and was named dean of the College in 1970.

With teaching and research interests that focus on motor skill learning and program administration, Dr. Scannell has served as editor of the Pennsylvania Journal of Health, Physical Education and Recreation. He was chairman of the University Faculty Senate in 1968-69.

He has been active in other campus leadership positions, serving as chairman of the Council of Academic Deans, vice-chairman of the University Council, and chairman of major subcommittees or task forces in developing both the 1972 and 1980 University master plans.

Deann Scannell holds three degrees in physical education — a B.S. magna cum laude '57 from Notre Dame, and M.S. and Ph.D. degrees from Penn State in 1959 and 1964, respectively.

According to Dr. Oswald, the goals of the integration will include reducing administrative overhead, maintaining the integrity of resident instruction at the Commonwealth Campuses, improving coordination of educational activities at the campuses and retaining the central management of Continuing Education programs. Enhancing the distinctive identity of each campus, he said, would remain a high priority with the new unit.

String quartet formed

A graduate string quartet that will perform throughout the summer has been formed by the School of Music.

Players in the Atherton String Quartet include violinists Laura Hardison, Willamsen and Mary Beth Lons, violist Becky McKee and cellist Annette Torregrossa, all of whom are candidates for the Master of Music degree. Donald Hopkins, violinist with the Alard String Quartet and an associate professor of music, will coach the group.

Dr. Maureen Carr, director of the School of Music, conceived the idea for the quartet as a "chamber music showcase."

The Atherton String Quartet's first performance is scheduled for 7 p.m. Friday, June 6, in the Fireside Room of the Nittany Lion Inn. The musicians will present a program of works by Mozart, Beethoven, Mendelssohn and Smetana for visiting alumni. The performance is free and open to the public, but seating will be limited.

Penn State Intercom

1980-81 academic promotions announced, effective July

The following promotions have been announced, effective July 1.

TO PROFESSOR

Eunice N. Askov, Education
John E. Ayers, Plant Pathology
Elmer W. Borklund, English
W. Dale Brownawell, Mathematics
John W. Burnside, Medicine, Hershey
John J. Cahir, Meteorology
Robert W. Christina, Physical Education
Frank A. Clemente, Sociology
Alan Davis, Geology
David R. DeWalle, Forest Hydrology
Roger M. Downs, Geography
Earl K. Graham Jr., Geophysics
Claire Hirschfeld, History, Ogontz
Winand K. Hock, Plant Pathology
Extension
David F. Hultsch, Human Development
Leon J. Johnson, Soil Mineralogy
Thomas J. Knight, American Studies and History
Daniel M. Landers, Physical Education
Alphonso F. Lingis, Philosophy

Thomas E. Long, Vocational Education and Counselor Education
M. Jeffrey Maisels, Pediatrics and Obstetrics and Gynecology, Hershey
Lloyd A. Morley, Mining Engineering
James W. Robinson, Electrical Engineering
John S. Shenk, Plant Breeding
Karl E. Spear, Ceramic Science and Engineering
Joseph Stach, Electrical Engineering
Kermit R. Tantum, Anesthesia, Hershey
Donald P. Verene, Philosophy
Paul J. Wangness, Animal Nutrition
Roger P. Ware, Mathematics
William Waterhouse, Mathematics
Steven M. Weinreb, Chemistry

TO ASSOCIATE PROFESSOR

Peter C. Appelbaum, Pathology, Hershey
Veerasingham P. Bhavanandan, Biological Chemistry, Hershey
Frederick M. Brown, Psychology, Worthington Scranton
Jacob De Rooy, Economics, Capitol
Mark W. Dirsmith, Accounting

Joseph R. Drago, Surgery, Hershey
Frederick R. Eisele, Social Policy
Robert M. Feinberg, Economics
Thomas A. Frank, Audiology
Robert H. Gannon, English
Kathryn M. Grossman, French, Beaver
Harold A. Harvey, Medicine, Hershey
Rugh A. Henderson, Family and Community Medicine, Hershey
David J. Hufford, Behavioral Science, Hershey
James R. Klein, Physics
Worthington Scranton
Antonio C. Lasaga, Geochemistry
Thomas A. Lloyd, Obstetrics and Gynecology and Pharmacology, Hershey
Christiane P. Makward, French
Thomas J. McGlynn Jr., Medicine, Hershey
Jack B. McManis, English
Yash P. Mehra, Economics
Philip J. Morris, Aerospace Engineering
Paul C. Painter, Polymer Science
David L. Pearson, Biology

G. Fred Riemann Jr., Philosophy, Ogontz
Dennis W. Schneck, Medicine and Pharmacology, Hershey
Jerry F. Shoup, Engineering, Capitol
Eugene R. Slaski, History, Allentown
Thomas G. Stehney, Engineering, Fayette
Kim C. Steiner, Forest Genetics
Richard W. St. Pierre, Health Education
Charles H. Strauss, Forest Economics
John M. Tarbell, Chemical Engineering, Hershey

TO SENIOR RESEARCH ASSOCIATE

Donald E. Kerr, Intercollegiate Research Programs and Facilities
Donald E. Thompson, Intercollegiate Research Programs and Facilities
John O. Yocum, Agriculture

TO LIBRARIAN

Albert J. Miller, New Kensington

TO ASSOCIATE LIBRARIAN

M. Sandra Wood, Hershey

Program evaluation criteria a priority, Franz says

Determining criteria and mechanisms for the evaluation of academic programs could be the Senate's first priority during the coming year, in the view of its new chairman, George Franz.

As Penn State moves through the eighties, some programs will undoubtedly be closed out or reorganized, believes Dr. Franz, an assistant professor of history at Delaware County.

"What we have to avoid is making decisions on gut reactions," Dr. Franz emphasizes. "We need agreed upon procedures that people can accept and understand."

In an interview, and in a speech delivered at the Senate's June 3 meeting, Dr. Franz discussed a number of issues that he thinks the Senate will confront during 1980-81. Many of these have been identified in *A Perspective on the '80s*, and they include:

— Finding an appropriate method of evaluating instruction, a procedure that varies greatly among departments. "We have all kinds of mechanisms — IEFs, peer reviews, alumni surveys — *ad infinitum* and we might add *ad nauseum*. Yet we have not really addressed the question, let alone answered it," Dr. Franz said.

— Providing incentives for research. Dr. Franz believes research needs more visibility and support within the University.

— Assisting with the merger of the Commonwealth Campuses and Continuing Education. "The merger goes to the fundamental organization of the University," Dr. Franz points out. "I suspect it will entail the development of new and different missions for these units as well as structural changes."

— Delegation of authority. "This will come up in a fall report," Dr. Franz says.

(Continued on page 3)

Dr. Franz

Faculty Senate winds up year; four legislative proposals are passed

Confronted by its longest docket of the academic year, the University Faculty Senate passed four legislative reports, including modifications to PS-23 and its administrative guidelines (story below). It also heard a number of informational reports.

Senator Judd B. Arnold (English) presented a report from the Committee on Admissions, Records and Scheduling, on "The Academic Consequences of Recent Admission Trends at Penn State." A summary of this report also begins below.

Two proposals from the Committee on Curricular Affairs were approved. The first establishes common numbers 295, 395, and 495 "to identify courses offering

internships, individual field experiences or practicums where the experiences are offered off-campus and do not include regular classroom or group instruction with faculty."

The second proposal adds a sentence to the catalog description of the common courses 296 and 496. (The addition is in capital letters.)

"296.496. Independent Studies (1-12) Creative projects, including research and design, which are supervised on an individual basis and which fall outside the scope of formal courses. A specific title may be used in each instance and will be entered on the student's transcript. STUDENTS MAY NOT REGISTER FOR

THESE COURSES WITHOUT PRIOR WRITTEN APPROVAL OF A FACULTY SPONSOR IN THE DEPARTMENT OR PROGRAM IN WHICH THE COURSES ARE LISTED." The legislation is designed to clear up misuse by some students of 296 and 496 courses, probably due to misunderstanding of the intent of the courses.

A report from the Committee on Extended Degrees applauded the successful implementation of the University's extended degree program in nursing. The Senate accepted the Committee's recommendation that it continue to grant a waiver to the time limits for completion of the extended

degree nursing program until the next scheduled review by the Committee in 1982.

A report on faculty salary analyses among Penn State locations was offered by the Senate Committee on Faculty Affairs. Breakdowns were presented for each of the three Penn State location groupings — University Park, the Commonwealth Campuses, and Capitol Campus, Behrend College and Radnor Center. "These tables," according to the report, "show that University Park average salaries are higher than those for other locations at all ranks except instructor. Also there are differences among colleges."

(Continued on page 7)

Four modifications to PS-23 accepted

The University Faculty Senate at its June 3 meeting accepted four recommendations from its Committee on Faculty Affairs for modifications to PS-23. One other recommendation listed earlier in the Senate docket was withdrawn by the Committee for further study.

The recommendations will be forwarded to the University administration for consideration and future implementation. Faculty Affairs was responding to 11 recommendations proposed in January of

this year by the Joint Faculty/Administration Commission to Review and Make Recommendations on University Policy Governing Promotion and Tenure. Committee Chairman Edward H. Klevans noted that Faculty Affairs will continue to study the Commission's report and present further legislative proposals during the coming Senate year.

The first modification adds a paragraph to the following statement, already in the

(Continued on page 7)

Admissions tracking can help planning

To help make faculty members more effective in academic planning, the Senate's Committee on Admissions, Records and Scheduling prepared a detailed report describing some of the data available on student academic competencies.

The report was presented by Dr. Judd Arnold at the June 3 Senate meeting.

The Committee has monitored the academic consequences of Penn State's admissions processes since 1977. Its report

points out that, "A fuller awareness by the faculty of each college of its own college's success in attracting the best students should stimulate fuller cooperation with the office of the Dean of Admissions in identifying and more effectively advertising the kinds of programs most likely to attract the best."

While the Committee report in the Senate docket offers a great deal of general data, Dr. Arnold noted that detailed

(Continued on page 6)

Penn Staters

Dr. Karl G. Stoeckel, associate dean of academic affairs in the College of Health, Physical Education and Recreation, has been appointed acting dean, effective July 1.

Dr. Stoeckel will assume the duties of Dr. Robert J. Scannell, who has been named vice president and dean of the new University-wide System of Continuing Education and Commonwealth Campuses. "I am deeply grateful to Dr. Stoeckel for agreeing to take on this responsibility," President Oswald said. "Because of his strong academic and administrative credentials, I am confident that Dr. Stoeckel will provide good leadership and stability for the College while a search for a permanent dean is conducted."

A faculty member since 1970, Dr. Stoeckel was the winner of the 1979 McKay Donkin Award, presented annually to the member of the faculty or staff who has contributed most to the "economic, physical, mental or social welfare of the faculty."

Dr. Stoeckel was recognized for his work in conducting an exercise program for individuals considered "high risks" for heart attacks.

A graduate of the University of Wisconsin with both bachelor's and master's degrees, Dr. Stoeckel received his doctorate from the University of Illinois.

He was a member of the Wisconsin faculty for 10 years prior to coming to Penn State in 1970 as professor of physical education and associate dean for resident instruction. He was named professor and associate dean for academic affairs in 1974.

He has written widely on the subject of fitness and has been a pioneer in the development of physical fitness programs for cardiac-risk individuals.

Dr. Stoeckel also has been a physical activity consultant to a number of hospitals and other institutions.

He was made a fellow of the American College of Sports Medicine in 1965, and the College cited him for his work in 1978.

Dr. Thomas A. Hale, associate professor of French and comparative literature, has received a Fulbright award to teach and conduct research at the University of Niamey in Niger. Dr. Hale will teach English and African literature, and collect oral literature in the Songhay-Zarma-speaking area of Niger, where he lived from 1964 to 1966 while serving as a Peace Corps volunteer.

Dr. Ernest C. Pollard, Evan Pugh Research Professor Emeritus of Biophysics, was recently awarded the Monie A. Ferst Medal and \$1,000 prize by the Society of Sigma Xi. The medal is awarded to an outstanding scientist for "encouraging excellence in research through Inspiration, Example, and Teaching." In conjunction with the award, a symposium of research talks by former students of Dr. Pollard was arranged. Dr. Pollard served as head of the Biophysics Department at Penn State from 1962 until his retirement in 1971. He is currently a Research Scholar in the Zoology Department at Duke University.

Zeijko D. Kujundzic, associate professor of art at the Fayette Campus, is one of five artists whose work is featured in a specially mounted sculpture exhibit at the Zenith Gallery, Washington, D.C., through Aug. 31. The Gallery exhibit was part of the 11th International Sculpture Conference held June 4-7 in the capital. After the last biennial conference in Toronto in 1978, Professor Kujundzic's works were included in a selected show that toured London, Paris and Brussels.

Elizabeth Winston, assistant professor of humanities and English at Capital Campus, has been selected as one of 12 participants in a National Endowment for the Humanities seminar for college

teachers at Emory University in Atlanta this summer. The topic of the seminar is "George Eliot and Other Victorian Novelists."

Dr. Heinz Henisch, professor of the history of photography, is serving as project consultant for a new exhibition, "Album: Original Photographs from the Atlanta Historical Society," which continues through Aug. 8 at the Peachtree Center Gallery of Handsake Center for the Arts, Atlanta, Ga. The more than 100 vintage photographs, selected with Dr. Henisch's assistance, illustrate both the history of the city and the history of photography. Dating from 1840-1930, the photographs were chosen for their artistic and technical merit. The exhibit catalog "Photography: Its History and Development as an Art Form." He also presented a slide lecture on "The Beginnings of Photography" in conjunction with the exhibit's opening on June 3.

Robert Allen, director of Audio Visual Services, has been chosen president-elect of the Consortium of University Film Centers. CUFC is composed of 57 university institutional members who operate film rental libraries, about 30 commercial film distributors and a number of public and private agencies involved with film distribution.

The National Academy of Sciences recently issued a report on the Status of Cement and Concrete R & D in the United States, the result of an extensive study by a committee chaired by Professor Della M. Roy, of the University's Materials Research Laboratory and Department of Materials Science and Engineering. Data summarized showed that the present level of R & D in the industry is inadequate to meet current needs and future challenges. Recommendations were made by Dr. Roy and the committee regarding specific efforts required for economic, institutional, and technological improvement.

Wesley G. Houser, associate professor of engineering at the Capital Campus, has been issued a U.S. Patent for an acoustic sensing device invented when he was an associate professor of engineering research at the Applied Research Laboratory. The device, intended primarily for use in underwater mine warfare, provides improved capability to discriminate between large ships and small ships. Through the use of a novel combination of hydrophones and electronic circuitry, the device recognizes the ultra low frequency acoustic signals that come only from large ships.

Murray S. Martin, associate dean of the University Libraries, has been elected president of the Pittsburgh Regional Library Center. The Center is one of 21 library networks in the United States and includes 81 libraries in Pennsylvania, West Virginia and Maryland. Its aims are to improve library service, help with the application of automation to libraries and assist in the development of resource sharing.

The Penn State Beaver Campus Distinguished Service Award has been presented to Elton E. Price, assistant professor of physical education, in recognition of his "courageous and sensitive actions both in the leadership of your skilled and dedicated colleagues and in your years of involvement in the development of our students."

Mr. Price is the athletic coordinator for the men's and women's athletic program at the Beaver Campus.

Dr. Henry P. Sims, associate professor of organizational behavior, was chosen president-elect of the Eastern Academy of Management at the group's annual meeting May 8-10 in Buffalo, N.Y. He will become president in August 1981.

Jane E. McCormick, assistant to the vice president for student affairs, has been selected for honorary membership in

Mortar Board, a national honor society. Ms. McCormick was nominated by the Penn State Chapter in recognition of her national and local leadership and service to her profession and the community. She is past president of the National Association for Women Deans, Administrators and Counselors.

Dr. Paul B. Baltes, professor of human development, has been appointed a senior fellow and director of the German Max-Planck Society for the Advancement of Sciences, effective January 1981. Senior fellowship in the society, which operates 50 research institutes with an annual budget of \$500 million, is a distinguished research appointment, comparable to membership in the U.S. National Academy of Sciences. Dr. Baltes will be co-director of the Max-Planck Institute for Human Development and Education in West Berlin, and will also hold an honorary professorship of psychology with the Free University of Berlin. Dr. Baltes, who earned his B.A., M.A. and Ph.D. at the University of Saar, Germany, came to Penn in 1972 as director of the Division of Individual and Family Studies.

Bookshelf

Stanley Rosen, professor of philosophy and fellow in the Institute for the Arts and Humanities Studies, has published a new book this week entitled *The Limits of Analysis*. (Basic Books: New York).

The work is addressed to the relation between analytical reason and the context as well as foundations of analytical thinking. It offers a detailed technical analysis of the procedures, largely adapted from the paradigm of mathematics, by which 20th century philosophers have attempted to resolve central metaphysical questions like those of being, existence, non-being, unity, essence, and intuition.

Dr. Rosen attempts to demonstrate that these analytical procedures not only fail to provide answers to traditional metaphysical questions, but obscure the original questions and incorporate traditional difficulties in an unnoticed way into their ostensible clarificatory analyses. Central to this section of his book is the defense of intuition, in several senses, including the perception of formal structures, the capacity to decide what to do next, the ability to apply rules, to see the point of an argument, and to know how to begin an analysis as well as to judge when it is finished.

Dr. Rosen then goes on to discuss ways of extending mathematically-influenced paradigms of rationality in order to deal satisfactorily with the comprehensive enterprise of analytical thinking, as for example in its manifestation as modern science. He deals extensively with the rhetorical justification of rationality, and with the connection between philosophical rhetoric and what are now called "world-views" or attempts to think the whole of experience. This section contains detailed discussions of historical paradigms such as Plato, Fichte, Nietzsche, Kant, and Hegel, all of whom provide pivotal examples of the attempt to capture conceptually the very foundations of conceptual thinking, or else to rebel against conceptualism, as in the case of Nietzsche.

The book attempts to rehabilitate comprehensive modes of thinking and to defend them against narrow technicism without sacrificing the virtues of technical or analytical thinking.

Dr. Wayne L. Myers, associate professor of forest biometrics, is principal author of *Survey Methods for Ecosystem Management*, a 397-page textbook published recently by John Wiley & Sons. His co-author is Dr. Ronald L. Shelton of Michigan State University.

The book shows how survey information can be obtained for each component of the ecosystem as well as how this information can be used in effective ecosystem management. The approach combines survey operations with

data banks into a comprehensive survey information system.

"Rising demands, pollution, and conflicts between interest groups make it essential that ecosystems be managed scientifically under the guidance of interdisciplinary teams," the authors write. "Such integrated management requires comprehensive information on the status of ecosystems, along with a broad base of ecological understanding among all those involved in the management effort."

Promotions

Staff Exempt

Roseann C. Lanyon to admissions counselor II in Undergraduate Admissions.

Staff Non-Exempt

Jane E. Snover to insurance billing supervisor at Hershey.

Clerical

Robin S. Carson to secretary C in Business Administration.

Louise W. Coons to accounting clerk at Hershey.

Eileen M. Hedricks to clerk, invoice A at Hershey.

Lois A. O'Shell to patient unit secretary at Hershey.

Bonita A. Simpson to inpatient billing clerk at Hershey.

Technical Service

Harry L. Gunter to waste water treatment plant operator A in Physical Plant.

Joseph F. Kepp to group leader, janitorial worker — day at Capital.

Russell W. Knapp III to group leader, print shop at Hershey.

Katherine M. Lordan to animal caretaker A at Hershey.

John H. McLaughlin to group leader, landscape at Capital.

Herbert L. Reese to janitorial worker, group leader in Physical Plant.

Stephen Sampel to operating mechanic in Physical Plant.

Teresa F. Shirk to lab attendant, stockroom clerk in Agriculture.

Carpooler

There are two openings in this carpool. Leave Snow Shop at 7 a.m. Work from 8 a.m. to 5 p.m. Phone 863-0211 or 387-6554. Other drivers preferred. Myra Bowling, 329 Whitmore Lab.

Obituaries

Louis D. Goodfellow, professor emeritus of psychology at the Altoona Campus, died May 22 at the age of 74. Dr. Goodfellow taught at Altoona from 1946 until his retirement in 1971, and in 1967 was honored for his contributions with the Christian R. and Mary F. Lindback Award for Distinguished Teaching.

Dr. Goodfellow earned his B.S. in psychology in 1929 at Lafayette College, his M.S. in education from Penn State in 1930, and his doctorate in psychology in 1932 at Northwestern University.

Norman C. Dale, a county agent with the College of Agriculture from 1919 to 1958, died May 29. He was 84 years old. A native of College Township in Centre County, he earned his B.S. in animal husbandry in 1918 and his M.S. in agricultural economics in 1933, both at Penn State.

Madeline F. Speary, a senior clerk in the College of Human Development when she retired in October 1966, died May 30 at the age of 75. Born in Spring Township, she began her Penn State service in 1944 as a clerk in the then College of Home Economics.

Augustus J. DeMoro, a maintenance mechanic at the Capital Campus when he retired in March 1970, died May 31. He was 66. He joined the Capital staff in January 1969.

Retirements

Dr. Jerome K. Pasto, associate dean for resident instruction in the College of Agriculture, retires June 30 with emeritus rank.

In 1971 Dr. Pasto was named one of the "Outstanding Educators of America" by the organization bearing that name. He was honored for leadership in revising curricula in the College of Agriculture and for providing graduate study opportunities in agriculture for black Americans.

In 1973-74, he was president of the National Association of Colleges and Teachers of Agriculture. In 1979 at its annual meeting, the Association presented him with a plaque "in recognition of outstanding service."

Last year he was elected to the Council for the College of Agriculture and Life Sciences and to the Agricultural Experiment Station, both at Cornell University.

In 1979, he also was honored by the resident instruction section of the National Association of State Universities and Land Grant Colleges "in grateful appreciation of his valuable leadership and distinguished services in educating agricultural students." Over the years, he had numerous responsibilities within in the organization, among them the chairmanship of the resident instruction section, Division of Agriculture.

Dr. Pasto joined the Penn State faculty in agricultural economics in 1950. In 1957, he took a two-year leave of absence to work as an agricultural production consultant with the United Nations' Food and Agricultural Organization at its Rome headquarters.

In 1960, he headed a three-man exploratory mission to Venezuela for the Pan American Union. The team examined the agricultural potential for settlement in the lowlands next to the Andean mountains.

In the late 1970s, Dr. Pasto was active in helping the Agricultural Alumni Society establish a museum for antique farm and household equipment. His interest in history was further evidenced when, as part of the nation's bicentennial celebration, he recreated a speech by Evan Pugh, Penn State's first president. Dr. Pasto gave 40 presentations in costume, with the assistance of Dr. James Van Horn as narrator.

Raised on a farm near Elmira, N.Y., Dr. Pasto graduated from Cornell in 1938, with a major in agronomy. He worked with the U.S. Department of Agriculture until the outbreak of World War II. For three years, he served in the Pacific as an air combat intelligence officer in the Navy, retiring as a lieutenant commander. In 1946, he earned a master's degree in farm management, and in 1950, a Ph.D. in land economics, both at Cornell. He is the author or co-author of 70 publications and articles, including 14 bulletins published by the Agricultural Experiment Station at University Park and at Cornell.

Marjorie E. Grove, an offsite duplicator operator in the Office of Student Affairs, retired June 1. She began her University service on April 1, 1974.

Dr. Luther H. Harshbarger, Penn State's first professor of religion and first chairman of the Department of Religious Studies, is retiring June 29 with the rank of professor emeritus of humanities and religious studies.

A faculty member for 31 years, Dr. Harshbarger earned a B.A. from McPherson College and a B.D. from Yale University Divinity School. After serving as a pastor in several states, he went to Europe in 1944 as senior representative of the World's Alliance of YMCAs. From 1947-49, he was director of World's

YMCA Services to Prisoners of War for Germany, for which he later received the Officers Cross of Merit of the Federal Republic of Germany.

He came to Penn State in 1949 as executive secretary of the Penn State Christian Association, now the United Christian Ministry. In 1951, he was appointed University chaplain and in 1954 became the first full-time chaplain and coordinator of religious affairs, Juniata College in 1955 conferred upon him the honorary Doctor of Divinity degree.

The fifteens saw the building of the Helen Eakin Eisenhower Chapel and the initiation of a religious studies program. Dr. Harshbarger became Penn State's first professor of religion in 1957, continuing as chaplain and coordinator. He was awarded a Fulbright Travel Grant to India in 1963.

In 1965, when a Department of Religious Studies was instituted, he became its chairman, a position he held until 1975, when he chose to return to full-time teaching.

More recently, he has been a visiting professor in higher education at Yale University Divinity School, a consultant in humanities at the American University in Beirut and a consultant in theological education to the Danforth Foundation.

A textbook he co-authored in 1968, with John Mourant, a former member of the Department of Philosophy, Judaism and Christianity: Perspectives and Traditions, currently is being re-issued by the Irving Press. Much of Dr. Harshbarger's research has been on the English and American romantics, and 19th century American religious thought. Dr. Harshbarger's University colleagues have established a Luther H. Harshbarger Fund for Religious Studies, to provide scholarship aid for students majoring in the field and to finance an annual lecture by a guest speaker. Contributions may be made through the Office of Gifts and Endowments.

Following his retirement, Dr. Harshbarger and his wife, Marian, plan to continue living on their Nittany Valley farm. The couple has two sons, one of whom, Dohn, is dean of student affairs at Behrend College.

Evelyn E. Cooper, a food preparator with Housing and Food Services since Sept. 21, 1969, retired May 25.

Marie C. Kuti, bookstore manager at Shenango Valley, retired May 31. She began work at the Campus April 1, 1967.

Clarence M. Woodring, a dining hall worker with Housing and Food Services since Oct. 10, 1966, retired May 23.

Pollock's loss will be the Blue Golf Course's gain.

Pollock Dining Hall parted with its head cook, Martha B. Weaver, on May 24, but Mrs. Weaver's husband, Fred (who retired five years ago) is already planning the golf lessons he's going to give her.

Mrs. Weaver joined the Housing and Food Services staff in September 1958, starting out as a counter lady in Waring Dining Hall. She moved to Pollock when it opened in 1960, at first as a relief cook.

The Weavers have a van, in which they plan to travel to Colorado and British Columbia (they have a son in each area); and while they'll maintain their home in Park Forest, they may spend part of the winter in Florida. They have lots of grandchildren to visit. Together, their sons, and their daughter, who lives in Kaywood near State College, have 10 children.

Mrs. Weaver says she loved her work and will miss it, but her husband has been anxious for her to retire so they can do more things together.

Although June 28 marks the official retirement date of John C. Rudy, a combustion equipment mechanic in the College of Earth and Mineral Sciences, Penn State will still have two representatives of the Rudy family on its staff.

Mrs. Reta Rudy is employed as a bindery operator in Business Services, and one of the couple's two sons, Kenneth, is an engineering aide at the Breazeale Nuclear Reactor.

Mr. Rudy's job was to maintain all the equipment used in coal research programs in E&MS and to do coal analyses. He plans to keep his hand in during retirement by servicing oil burners and helping friends install heating units. He also is planning to leave himself some time to enjoy his favorite pastimes of hunting, fishing and camping.

Franz

(Continued from page 1)

"The issue involves giving faculty in associate degree programs more authority, as well as the nature and scope of our extended degree programs."

— "The ever-present question" of PS-23 revision. Dr. Franz is hopeful that will be completed this year.

Dr. Franz also intends to make use of forensic sciences to enable the Senate to take up other issues of importance to the University community without regard to specific legislation.

"To be frank," he told the Senate, "the Senate is uncomfortable with general policy questions. We much prefer the arcane student rule to the abstract policy."

For Fall Term — probably in November — Dr. Franz is proposing a debate on the academic consequences of a calendar change to the semester system.

"For the Winter Term," he said, "probably the February meeting." I propose we have a forensic session that would provide an update and analysis of developments, particularly as they relate to governance, in the area of collective bargaining. I believe this to be of interest to the faculty, particularly in light of the recent activities in California.

"For the Spring Term, if the Freshman Year Committee has progressed sufficiently, I suggest we have a session based on its findings."

Coming from a Commonwealth Campus, does Dr. Franz believe he brings a different point of view to the Senate chairmanship?

"I might see specific issues somewhat differently — problems of research or promotion and tenure," he says. "But I was secretary of the Senate for a year and then chairman-elect, and throughout the past two years there was a large degree of unanimity among all the officers. I can't think of anything in the last year on which

George McMurtry and I held different views."

"The Commonwealth Campus faculty doesn't vote as a bloc any more than do engineering or liberal arts faculty. We do hold a caucus — as do most of the colleges in the Senate. During my eight years in the Senate, there's never been an issue where there has been total agreement in the caucus. Campus senators may tend to vote for other campus senators for an office, but we only have 30 some votes. In fact, I think most campus senators have two viewpoints. For example, I frequently look at issues from the point of view of a historian and for their effect on the College of the Liberal Arts."

Dr. Franz sees the role of the Senate chairman as that of organizer or facilitator.

"The Senate work is done by committees," he points out. "If the committees are good and their chairmen are good, you get good reports. If we have a successful year, it's because we did a good job of staffing the committees and naming the chairmen."

How representative is the Faculty Senate?

"The Senate is one spokesman for the faculty," Dr. Franz says. "We try to present a faculty viewpoint to the President, the Provost and other University officers. Sometimes the Senate is criticized because of its long, fruitless debates. But I submit that in those cases, the faculty itself is divided. Many times we agree on general concepts — such as the necessity of planning for the '80s, but we get hung up on details. When the faculty does agree — and that's very often — a piece of legislation goes through smoothly. In any case, the Senate debate helps clarify the issues."

One program on which the Senate did reach agreement was the University Scholars Program. It is a program which Dr. Franz helped bring to the floor and the legislation he is proud of having sponsored.

In his speech, Dr. Franz further described the role of the Senate.

"We must realize that we are not administrators and our role is not to establish minute procedures and detailed programs. As faculty, our primary functions are teaching, research and public service. Additionally, as faculty in an institution that believes in shared governance, and which has functioned increasingly more effectively under that principle, we have an added burden, especially as Senators, of providing guidance and legislative authority for the establishment of policy. Our function is to establish or modify existing academic policies, where appropriate, and then to monitor the implementation of that policy."

A member of the faculty since 1968, Dr. Franz holds an A.B. in history from Muhlenberg College and his M.A. and Ph.D. from Rutgers University. A specialist in the history of Pennsylvania during the colonial and revolutionary periods, he is currently completing the editing of the papers of Martin Van Buren, with the aim of making them available by 1982, the year of the bicentennial of Van Buren's birth. They will be prepared for publication by the Microfilming Corporation of America.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

University Park Calendar

Summer Term 1980

Thursday, June 12

Drop Adds, 9 a.m.-4 p.m., HUB Station. Also June 13, 16 and 17.
University Libraries orientation tours: Pattee — 9 and 11 a.m., 1 and 3 p.m.; Branches — undergraduate students, 10 a.m., graduate students, 2 p.m.
HUB Craft Center Open House, 7:30 p.m., Room 312 HUB.

Friday, June 13

Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.
Commonsplace Theatre, *Jimi Hendrix*, 7 and 9 p.m., Room 112 Kern.

Saturday, June 14

France-Cinema, *Wifemistress*, 7 and 9 p.m., Room 112 Kern.
Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.
Explanaganza film, *Night of the Living Dead*, dusk, Fisher Plaza.

Sunday, June 15

Free U registration, 11 a.m.-4 p.m., Room 301 HUB.
Karate Club film, *Dirty Harry*, 7, 9 and 11 p.m., Room 111 Forum.
Commonsplace Theatre, *Jimi Hendrix*, 7 and 9 p.m., Room 112 Kern.

Week of June 16

Monday, June 16

HUB Craft Center classes begin.
France-Cinema, *Wifemistress*, 7 and 9 p.m., Room 112 Kern.
Color Slide Club meeting, 7:30 p.m., Room 189 MRL.

Tuesday, June 17

Explanaganza concert, Rustical Quality String Band, 7 p.m., Fisher Plaza.
Penn State Karate Club demonstration, 7:30 p.m., Room 106 White.

Thursday, June 19

Festival Theatre, Neil Simon, *The Good Doctor*, 8 p.m., The Pavilion Theatre.

Friday, June 20

Late registration deadline and add deadline for 10 week Summer Term.
Commonsplace Theatre, *Dr. Strangelove*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre.

Saturday, June 21

France-Cinema, Brusati, *Bread and Chocolate*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre.
Explanaganza film, *Sound of Music*, dusk, Fisher Plaza.

Sunday, June 22

Commonsplace Theatre, *Dr. Strangelove*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *The Good Doctor*, 7:30 p.m., The Pavilion Theatre.

Week of June 23

Monday, June 23

France-Cinema, *Bread and Chocolate*, 7 and 9 p.m., Room 112 Kern.

Tuesday, June 24

Explanaganza concert, Duo (Tad & Bob), 7 p.m., Fisher Plaza.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre.

Wednesday, June 25

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre.

Thursday, June 26

Festival Theatre, Hart and Rodgers, *Pal Joey*, 8 p.m., The Playhouse, *The Good Doctor*, 8 p.m., The Pavilion Theatre.

Friday, June 27

Pass/Fail for 10 week Summer Term.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Saturday, June 28

France-Cinema, Carle, *Normande*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, Victor Borge, "Comedy in Music," 8 p.m., Eisenhower Auditorium.
Explanaganza film, *Psycho*, dusk, Fisher Plaza.

Sunday, June 29

Festival Theatre, *The Good Doctor*, 7:30 p.m., The Pavilion Theatre; *Pal Joey*, 7:30 p.m., The Playhouse.

Week of June 30

Monday, June 30

Pass/Fail for 10 week Summer Term.
Registration for 8, 9 and 3 week Summer Terms, 1-5 p.m., Activities Room, IM Bldg.
France-Cinema, *Normande*, 7 and 9 p.m., Room 112 Kern.

Tuesday, July 1

Drop deadline, pass/fail and course repeat deadline for 10 week Summer Term.
Explanaganza concert, Buffalo Chipmunks, 7 p.m., Fisher Plaza.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Wednesday, July 2

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Thursday, July 3

Phi Delta Kappa/College of Education Summer Lecture Series, 11:10 a.m., Room 112 Kern.
Dr. Robert Scanlon, Secretary of Pa. Dept. of Public Education, speaker.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Friday, July 4

Independence Day. No classes. University offices closed.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Saturday, July 5

Opening reception for Sidney Goodman exhibit 3-5 p.m., Museum of Art.
Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Sunday, July 6

Central Pennsylvania Festival of the Arts Gala 7-9 p.m., Museum of Art.
Festival Theatre, *The Good Doctor*, 7:30 p.m., The Pavilion Theatre; *Pal Joey*, 7:30 p.m., The Playhouse.

Week of July 7

Monday, July 7

Funce-Cinema, Antonioni, *Zabriskie Point*, 7 and 9 p.m., Room 112 Kern.
Interdisciplinary Symposium on Value lecture, 8 p.m., Room 101 Kern. James Martin, psychology, speaker.

Tuesday, July 8

Late registration deadline and add deadline for 6 week Summer Term.

Explanagaza concert, Arthur Goldstein Quartet, 7 p.m., Fisher Plaza.
Summer Series in Gerontology lecture, 7:30 p.m., Room 112 Kern. Yolanda Jeschick, exec. dir., Pa. Senior Center Institute, and Eugene F. Erway, exec. dir., Pa. Council on Aging, on "A Forum on the Political Process as an Advocate for Older Adults."
Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Wednesday, July 9

Late registration deadline and add deadline for 8 week Summer Term.

CPA, Children's Day, campus and town locations.

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Thursday, July 10

14th Annual Central Pennsylvania Festival of the Arts, campus and town locations, through July 13.

Summer Series in Gerontology lecture, 7:30 p.m., Room 112 Kern. "The 1981 White House Conference on Aging: Local Organizations and Grass-Roots Involvement."
Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Friday, July 11

Board of Trustees meeting, Mont Alto Campus.

Pass/fail for 6 week Summer Term.

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, Doc and Merle Watson, with Mary Mc-Coslin and Jim Ringer, 8 p.m., Eisenhower Auditorium.

Saturday, July 12

Board of Trustees meeting, Mont Alto Campus.

France-Cinema, *Roseng, Walkabout*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, New Orleans Ragtime Orchestra, 8 p.m., Eisenhower Auditorium.

Explanagaza film, *Electric Zachariah*, dusk, Fisher Plaza.

Sunday, July 13

Festival Theatre, *Pal Joey*, 7:30 p.m., The Playhouse.

Spectrum, New Orleans Ragtime Orchestra, 8 p.m., Eisenhower Auditorium.

Explanagaza film, *Electric Zachariah*, dusk, Fisher Plaza.

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, New Orleans Ragtime Orchestra, 8 p.m., Eisenhower Auditorium.

Monday, August 4

France-Cinema, *Picnic at Hanging Rock*, 7 and 9 p.m., Room 112 Kern.

Interdisciplinary Symposium on Value lecture, 8 p.m., Room 101 Kern. Robert Price, philosophy, speaker.

Tuesday, August 5

Red Cross Bloodmobile, 10 a.m.-5 p.m., HUB Ballroom.

Explanagaza concert, Reuben & The Hipsters, 7 p.m., Fisher Plaza.

Festival Theatre, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.

Wednesday, August 6

Last day to sign Summer Term NDSL and University Long Term Loans, Room 108 Shields.

Late drop deadline for 10 week Summer Term. Festival Theatre, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.

Thursday, August 7

Late drop deadline for 6 week Summer Term. Festival Theatre, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Friday, August 8

Commonplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Saturday, August 9

France-Cinema, Bunuel, *The Obscure Object of Desire*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.

Explanagaza film, *Fillmore*, dusk, Fisher Plaza.

Sunday, August 10

Commonplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' Dat Kern*, 7:30 p.m., The Playhouse.

Monday, August 11

France-Cinema, *The Obscure Object of Desire*, 7 and 9 p.m., Room 112 Kern.

Tuesday, August 12

Late drop deadline for 8 week Summer Term. Explanagaza concert, The Dance Band, 7 p.m., Fisher Plaza.

Thursday, August 14

Phi Delta Kappa/College of Education Summer Lecture Series, 11:10 a.m., Room 112 Kern.

Richard Chait, ast. provost, on "Motivation and Rewards: What Works in Academe."

Saturday, August 16

France-Cinema, Wertmuller, *Love and Anarchy*, 7 and 9 p.m., Room 112 Kern.

Explanagaza film, *Animal Farm*, dusk, Fisher Plaza.

Week of August 18

Monday, August 18

France-Cinema, *Love and Anarchy*, 7 and 9 p.m., Room 112 Kern.

Color Slide Club meeting, 7:30 p.m., Room 169 MRL.

Tuesday, August 19

Explanagaza concert, Duet, 7 p.m., Fisher Plaza.

Wednesday, August 20

Last day to sign Summer Term Emergency Loans, Room 108 Shields.

Summer Term classes end, 9:55 p.m.

Thursday, August 21

Final examinations.

Friday, August 22

Final examinations.

Saturday, August 23

Final examinations.

Sunday, August 24

Residence Halls close for Summer Term, 3 p.m.

Monday, August 25

International Student Arrival Day Orientation, 8:30 a.m.-5 p.m., Room 101 Kern.

Tuesday, August 26

THE GRADE POINT AVERAGES SHOWN HERE ARE THE OFFICIAL TRANSCRIPT GRADE POINT AVERAGES

Senate

(Continued from page 1)

The report continues:

"It appears that the mission of the specific campus is instrumental in accounting for differences among locations. This is indicated by use of the 1978-79 AAUP report on faculty salaries, in which Penn State average salaries were reported for the first time in accordance with AAUP institutional classifications by mission. These classifications were designed by the AAUP to facilitate comparisons among institutions of like missions. Penn State's campuses were reported according to the following categories: Type I—institutions granting doctoral degrees (University Park); Type IIA—institutions granting primarily baccalaureate and some advanced degrees (Behrend, Capitol, and Radnor); and Type III—institutions providing lower division baccalaureate instruction and granting two-year degrees (Commonwealth Campuses). These AAUP categories are consistent with Penn State's own interpretation of the missions of these educational units. . . ."

The tables show that for each rank, University Park average salaries, when compared with 10 other Type I

northeastern universities, are in the top half and are above the national average. For Radnor, Capitol and Behrend, when compared with 12 Type IIA institutions, the average salary at each rank is above the national average for the category.

Average salaries at Commonwealth Campuses were compared with those of 12 Type III two-year institutions, all of which are branch campuses of public universities. At the associate and assistant professor rank, the Commonwealth Campus average salaries are approximately at the median for the sample and slightly below the national average. The average salary for Commonwealth Campus professors is higher than the Type III national average and is the same as the national average at the rank of instructor.

An informational report on program evaluation criteria was presented by the Committee on Planning and Development. It notes: "Some of the lessons of the 1970's program reviews as well as of the 'Perspectives' priorities were that program evaluation criteria must be 1) integrated with University and college goals; 2) made part of the planning process at both program and college levels; and 3) that some standard, minimum set of data be gathered routinely across all programs. . . ." The report also offers a

preliminary discussion of design and implementation issues for program evaluation.

The Committee had also presented an earlier status report on the University's physical plant. It encouraged the Penn State administration to:

"1. Continue, insofar as possible, adequate funding for maintaining the present structures, attendant utility systems and landscape features, so that faculty, staff, students, alumni and friends may be proud of our physical plant.

"2. Be creative in establishing projects for University giving which would fund maintenance or rehabilitation of existing structures as opposed to building new ones, or any of the more visible projects in which interest can be aroused.

"3. Make expenditures necessary to solve problems while they are small and before they become large and costly.

"4. Consider for implementation such experiments as the 'dormitory democracy' of the University of Connecticut where lighter dormitory maintenance was taken over by students, with a decrease in cost and vandalism.

"5. Continue study of maintenance problems and their priorities."

Noting that 27 buildings at various campuses had been listed in this report as scheduled for demolition, Dr. M. Frank

Mallette, Committee chairman, pointed out that these were long-range rather than immediate projections.

The Faculty Rights and Responsibilities Committee offered its annual report on petitions submitted to it. Chairman Donald Olson noted that the Committee was not an appeals board and that its mandate was to review petitions only in the light of procedural fairness. Two petitions were received last year, but no formal hearing boards were established, Dr. Olson reported.

The Senate also offered a resolution congratulating Dr. Paul Baker, professor of anthropology, on his election to the National Academy of Sciences and commended the other Academy members on the faculty—Dr. Philip Skell, Evan Pugh Professor of Chemistry; Dr. Karl H. Beyer Jr., clinical professor of pharmacology at Hershey; and Dr. Bernard B. Brodie, adjunct professor of pharmacology at Hershey. Penn State's members of the National Academy of Engineering were also commended. They include: President Emeritus Eric Walker; Dr. Elburt Osborne, vice president for research emeritus; Dr. Rustum Roy, director of the Materials Research Laboratory; and Deans Nunzio Palladino (Engineering) and Charles Hosler (Earth and Mineral Sciences).

PS-23

(Continued from page 1)

Policy:

"The department committee will normally provide the first level of evaluation for tenure and promotion using criteria appropriate to the faculty member's responsibilities. The department head, after consultation, shall forward the committee's recommendation together with his or her own to the appropriate dean. If either the department committee or department head (or both) has (have) a positive recommendation for tenure or promotion, the dean shall forward all such recommendations to the college or University Libraries review committee for further consideration. If the negative recommendations on tenure from both the department head and the department committee are upheld, the college or University Libraries dean, shall notify the faculty member in writing (see Section IV.4); negative promotion decisions do not require such formal notification."

The following sentence was added: IN ALL CASES WHERE A CANDIDATE HAS PROFESSIONAL RESPONSIBILITIES IN MORE THAN ONE UNIT, THE RESPONSIBILITY FOR THE DEPARTMENTAL LEVEL REVIEW WILL LIE WITH THE UNIT REPRESENTING THE CANDIDATE'S HOME ADMINISTRATIVE AREA. EACH UNIT SHALL PROVIDE EVALUATIONS TO BE INCLUDED IN THE DOSSIER. SPECIALLY CONSTITUTED COMMITTEES ARE NOT NECESSARY TO ACCOMPLISH THESE REVIEWS.

The Committee explained its rationale thus:

"A significant number of the tenure-track faculty have professional responsibilities in more than one unit. In some cases, it has not been clear which unit has the primary responsibility for the evaluation. In fact, the University does designate a Home Administrative Area for each faculty member. However, even when a designated Home Administrative Area is known, there is a risk that the tenure and promotion evaluation process may not include input from the other units.

"While the dossier instructions address this problem, neither PS-23 nor the revised administrative guidelines for the promotion and tenure review process speak to this issue. The proposed

legislation clarifies this matter."

Recommendation 2 dealt with the composition of review committees. It added a paragraph (indicated by capital letters) to the existing policy.

"Department and college or University Libraries committees shall consist of members of the faculty selected by procedures approved by the faculty of those units and by the dean of the college or the University Libraries. Commonwealth Campus committees shall consist of members of the campus faculty selected by procedures approved by the faculty of the campus, the campus director, and the Dean of Academic Instruction for Commonwealth Campuses. The faculty of the unit concerned should determine the size of the review committee, but in no case should a review committee consist of fewer than three members.

IN ORDER TO INSURE CONTINUITY IN THE REVIEW PROCESS, THE PROCEDURES SHALL PROVIDE THAT SOME MEMBERS OF THE REVIEW COMMITTEE AT EACH LEVEL SHALL, WHERE POSSIBLE, SERVE FOR AT LEAST TWO YEARS, WHEN TERMS OF SPECIFIED LENGTH ARE USED. THE TERMS OF COMMITTEE MEMBERS SHOULD BE STAGGERED.

The Committee report noted that there may be serious discontinuities in the methods, values and philosophies of the peer review committees from one year to the next. The University-level committee requires staggered terms to assure a degree of continuity, and the above legislation brings department, campus and college committees into line.

Faculty Affairs' third recommendation was made to make explicit the idea that in case of negative recommendations for promotion at the initial level, a dean may uphold such a decision and not forward the recommendation to the College Committee. This is already what is done in practice for both tenure and promotion, but it is explicit only for tenure at the present time. The proposal as passed by the Senate (with the addition in capital letters) reads:

"The department committee will normally provide the first level of evaluation for tenure and promotion using criteria appropriate to the faculty member's responsibilities. The department head, after consultation, shall forward the committee's recommendation together with his or her own to the appropriate dean. If

either the department committee or department head (or both) has (have) a positive recommendation for tenure or promotion, the dean shall forward all such recommendations to the college or University Libraries review committee for further consideration. IF BOTH RECOMMENDATIONS ARE NEGATIVE AND ARE UPHOLD BY THE DEAN, THE NEGATIVE DECISION SHALL BE FINAL. If the negative recommendations on tenure from both the department head and the department committee are upheld, the college or University Libraries dean shall notify the faculty member in writing (see Section IV.4); negative promotion decisions do not require such formal notification."

The final proposal passed by the Senate was offered by the Committee to make it impossible for a candidate for promotion or tenure to be denied review by the academic department if the campus committee and the director both make negative recommendations and if the dean of the college and the Dean of Academic Instruction for Commonwealth Campuses choose not to forward the dossier. "PS-23 should guarantee that a faculty member at a Commonwealth Campus will receive both campus and departmental review," the Committee report said. (Capital letters indicate additions; italics, deletions.)

"In the case of a faculty member on the Commonwealth Campuses, although a review may be initiated at the departmental level, the evaluation by a faculty committee on the campus will normally be the initiation point and a part of the first level of evaluation. The campus director or appropriate academic officer, after consultation, shall forward the campus committee's recommendation together with his or her own to the office of the dean of the respective college or University Libraries and to the Office of the Dean of Academic Instruction for Commonwealth Campuses. If either the campus review committee or the campus administrator (or both) has (have) made a positive recommendation the office of The College or University Libraries dean shall forward such THE CAMPUS recommendations to the department head for review by him or her and by a department review committee, which for such cases should include majority representation of Commonwealth Campus faculty. The department head, after consultation, shall forward the committee's recommendation together with his or her own to the office of the dean of the college or University

Libraries, and the dean's office shall forward all four campus and department recommendations to the college or University Libraries review committee. When it has been judged appropriate by a department and the respective dean of the college or University Libraries, in consultation with the Dean of Academic Instruction for Commonwealth Campuses, the college or University Libraries dean may transmit the recommendations directly to a college or University Libraries review committee. If the recommendations from the campus committee, and the campus administrator, THE DEPARTMENT COMMITTEE AND THE DEPARTMENT HEAD are both all negative, the college or University Libraries dean and the Dean of Academic Instruction for Commonwealth Campuses shall jointly determine whether to uphold the negative recommendations, or transmit them for further consideration. If either the college or University Libraries dean or the Dean of Academic Instruction for Commonwealth Campuses determines that further review is appropriate, the recommendations shall be forwarded to the next level of review. If the negative recommendations on tenure from both the campus and THE DEPARTMENT committee and campus administrator are upheld by the deans, the Dean of Academic Instruction for Commonwealth Campuses shall notify the faculty member accordingly in writing (see Section IV.4); negative promotion decisions do not require such formal notification."

Funding Sources

For further information, call 865-1372

(337-1) The Resource Information Service (RIS) provides information to faculty and staff to support their mission of obtaining project funding for instruction, research, continuing education and for fellowships. RIS is the liaison between Penn State and the Office of Federal Programs (OFF/ASCU), Washington, D.C. OFF provides Penn State with continuous monitoring of public and private agencies. RIS reviews subscribed information from numerous sources, including the Federal Register and the Commerce Business Daily, and receives direct mailings from agencies concerning their programs. RIS makes direct (unsolicited) information distributions to faculty and staff to promote awareness of public and private programs, responds to faculty/staff inquiries about programs and contacts; and through a Preliminary Proposal Outline (PPO) mechanism, locates support funds. For detailed information about RIS assistance, contact: M.R. Kohler, Room 3 Old Main, 865-1372 (Network 8-475-1372).

News in Brief

Work on Shortlidge Road to continue through June

Improvements to Shortlidge Road at University Park are necessitating one-way traffic patterns on portions of the street, according to Howard O. Triebold, Jr., manager of University Safety Services.

The construction work, under contract to Herbert R. Imbt, Inc., of State College, is scheduled for completion by Friday, June 27, weather permitting. The improvements involve resurfacing the roadway and replacing deteriorated curbing.

Although the work will affect Shortlidge Road in its entirety — from College to Park avenues — one-way traffic is being confined to one-block areas within the boundaries of immediate construction activity, Mr. Triebold said.

To further accommodate traffic and bus routes, Curtin Road between Shortlidge and Bigler roads has been opened to vehicles during the construction period. The removal of vehicular barriers to the segment of Curtin Road between Shortlidge and Bigler roads will also permit access to parking lots whose usual entrances may be closed temporarily, particularly the Blue A and K lots.

Work on Shortlidge Road between Curtin and Park also will affect access to the Green D, C and J lots, but affected faculty and staff members may park in any open staff lot during that time, Mr. Triebold said.

Senate chairpersons selected for coming year

Standing committee chairpersons for the 1980-81 Senate year were announced at the June 3 meeting. They are:

Academic and Athletic Standards: John F. Kavanaugh, chairman; George A. Etzweiler, vice-chairman;

Academic and Physical Planning: M. Frank Mallette, chairman; Donald C. Rung, vice-chairman;

Admissions, Records, and Scheduling: E. Emory Ensore Jr., chairman; Janet Atwood, vice-chair;

Commonwealth Campuses and Continuing Education: Carter L. Ackerman, chairman; Sara L. Whildin, vice-chair;

Curricular Affairs: Robert W. Carubba, chairman; Eugene S. Lindstrom, vice-chairman;

External Affairs: Ernest L. Bergman, chairman; Nunzio J. Palladino, vice-chairman;

Faculty Affairs: Cara Lynne Schengrund, chair; Manfred Kroger, vice-chairman;

Libraries: Philip A. Klein, chairman; Leon J. Johnson, vice-chairman;

Research: John D. Martz, chairman; Daniel R. Frankl, vice-chairman;

Student Affairs, Awards and Scholarships: Robert C. Baldwin, chairman; Thelma J. Baker, vice-chair; **Undergraduate Instruction:** Richard L. McCarl, chairman; Robert J. Heinsohn, vice-chairman.

'Good Doctor' opens June 19

The Penn State Festival Theatre opens its 1980 season on Thursday, June 19, with Neil Simon's comedy, *The Good Doctor*. The show, which runs through July 6, is a change of pace from the earlier comedies with which Simon's name has been associated. In this work, he brings nine of Anton Chekhov's short stories to life on stage.

The Good Doctor is directed by William James Kelly, assistant professor of theatre and film, who also directed last Spring's production of *The Taming of the Shrew*. The script calls for five actors to play the 23 roles in the show, and Professor Kelly has brought together a group of familiar and new faces to meet the challenge.

Ken Jenkins, whose energetic Petruchio was a favorite of "Shrew" audiences, returns in the role of the Narrator. Peg French and Charles Roney are also familiar to Penn State audiences. French appeared last season in URTC productions of *Shadow Box*, *You Can't Take It With You*, and *Inmates of the Convent of St. Mary Egyptian*. Charles Roney returns for his second season at Festival Theatre, having appeared last season in *Absurd Person Singular* and *Boy Meets Girl*.

The cast is rounded out by two newcomers to Penn State — Julie Nesbitt and Haskell Gordon. Nesbitt's New York work includes *Getting Out* and *The Last Day at the Dixie Girl Cafe*. Haskell Gordon appeared on Broadway as John Hancock in 1976 and in the national company of *Chicago*.

The Good Doctor plays at the Pavilion Theatre June 19-22, 24-29, and July 1-6. To reserve tickets, call the Festival Box Office at (814) 865-1884. Tickets are also available for upcoming shows — *Po Jolay*, *Al, Wilderness!*, and *Can't Help Lovin' Dat Keren*.

Penn State Scholars to visit June 16-17 and 19-20

More than 810 outstanding high school students have been nominated to visit the University Park Campus in June as part of the Penn State Scholars Program. One group will visit June 16 and 17, and a second group on June 19 and 20.

The Scholars program, initiated in 1975 to recognize and encourage excellence in academic scholarship, provides an opportunity for top students in and near Pennsylvania to meet with Penn State faculty members and current students. Accompanied by their parents, the high schoolers get a chance to discuss career opportunities, academic programs, and other campus activities. They will also compete for some 30 Penn State four-year scholarships.

The students, who are nominated for the program by their high school principals, are the top academic students in the junior classes of their respective schools. Last year, more than 100 students were offered full or partial tuition scholarships.

Each year, approximately one-third of the participants enroll at Penn State.

Three faculty members receive fellowships

Three members of the faculty have been awarded Provost's Fellowships to participate in the Institute for Administrative Advancement (IAA) at the University of Wisconsin-Madison July 20 to Aug. 8.

The recipients are Suzanne K. Getz, assistant professor of human development at Mont Alto; Suzanne Striedieck, senior assistant librarian and chief, Serials Department; and Patricia A. Ward, associate professor of French and comparative literature.

The three-week intensive IAA seminar is designed to prepare qualified faculty members for administrative posts in higher education administration.

A member of the faculty since 1976, Dr. Getz earned her B.S. in psychology at Penn State in 1972 and was elected to Phi Beta Kappa. Her Ph.D. in child psychology was granted by the University of Minnesota — Institute of Child Development, and her research interests center around preschool children — their behavior, the influence of socialization agents on them, and their interaction with the social environment.

Dr. Getz serves as chair of the Mont Alto Campus Faculty Association, as a member of the College of Human Development Dean's Budget Review Committee, and as Dean's Representative for the College.

Ms. Striedieck holds a bachelor's degree from Penn State in political science (1966) and an M.L.S. from the University of Pittsburgh. She was a serials cataloger at

Publications data should be turned in

Members of the faculty who wish their publications and professional activities listed in the University's annual bibliographies should send this information to their department heads, research deans, or intercollege research unit directors.

Detailed instructions for the submission of these listings were given in a May 1 memo from Dr. R. G. Cunningham, vice president for research and graduate studies. Copies of this memo are available from department heads or research deans.

Commonwealth Campus faculty members should send their listings to their department heads at University Park, with a copy to their Campus directors and Commonwealth Campus deans.

Contributions should be in the department heads' hands in sufficient time to reach the office of the Vice President for Research and Graduate Studies by July 31.

The bibliography is printed in two publications, *Research Publications and Professional Activities* and *University Publications and Reports to Agencies*. To be included are research papers and articles, books that have been reviewed and printed by established publishers, substantive and/or final reports sent to state and federal agencies, information materials (articles and reports printed in non-standard journals), and novels, short stories, musical compositions, exhibits of fine arts, inventions patents and any other activity that meets recognized standards of excellence in its field.

Football applications due

Applications for faculty/staff football season tickets are available at the Athletic Ticket Office, Room 237 Recreation Building. Full-time University employees who do not already have faculty/staff season tickets can order a maximum of two tickets.

Faculty/staff members who ordered season tickets last year should have reordered their tickets by this time. Anyone who had seats last year and wants them again this year should return the application immediately.

Pattee from 1969 to 1975, leaving to head the Serials Department at SUNY-Buffalo's Libraries. She returned to Penn State in 1977.

In addition to her departmental responsibilities, she is a member and served for two years as chairman of the Libraries Systems Liaison Council, which is overseeing the Libraries' automation of its procedures. She is also a member of the Library Faculty Organization Council and chaired its Ad Hoc Committee on Constitutional Revision. From 1977 to 1979, she served on the Libraries Planning Committee.

A graduate of Eastern Nazarene College, Dr. Ward earned her M.A. and Ph.D. at the University of Wisconsin-Madison. She held a Fulbright Fellowship at the Sorbonne in Paris during 1966-67. The following year she was named an assistant professor of comparative literature at SUNY-Albany, leaving there in 1972 to come to Penn State. She has served as acting head of the Department of French, a position she will hold again during the coming academic year, and as acting director of the Comparative Literature Program.

An active scholar, Dr. Ward is the author of many articles and of two books, *The Medievalism of Victor Hugo* and *Joseph Joubert and the Critical Tradition: Platonism and Romanticism*. She has also been active in professional organizations, serving as vice-president of the National Conference on Christianity and Literature.

Elsewhere in Academe

The Florida legislature is considering recommendations by a joint legislative-executive commission on post-secondary education for gradual elimination of remedial programs at the college level over the next 10 years. The panel urged "vastly improved" remedial programs in elementary and high schools.

In Utah, the University of Utah accepted a faculty senate recommendation that no student may receive a B.S. degree without earning credit for at least one college-level algebra course. The university, which has an open admissions policy, also announced that it will no longer give credits for remedial math courses.

Total graduate enrollment at state universities and land-grant colleges declined by 0.6 percent between Fall '78 and '79, according to data submitted by 139 of the 141 members of the National Association of State Universities and Land-Grant Colleges. These schools reported a total graduate enrollment of 463,774. The drop in graduate enrollment occurred at a time when undergraduate enrollments at the same institutions rose 2.5 percent. Ivy League institutions such as Harvard and Princeton have also reported fewer graduate applications.

The number of women enrolled at the graduate level in the land-grant institutions continues to grow — up more than 1 percent between '78 and '79 for a total of 212,986. The number of male students dropped 2 percent to 250,788.

Included in this year's authorization bill for the National Science Foundation appropriation is a provision for \$23 million in fiscal 1981 to be allocated to encourage girls and young women to pursue careers in science and mathematics. Recommended by the U.S. Senate Subcommittee on Health and Scientific Research, this proposal would create a number of special education projects, including training programs for teachers and counselors, graduate and postgraduate fellowships and retraining programs for women scientists wishing to re-enter the labor market.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 675-1387). Applications for these staff vacancies will be accepted until 5 p.m., June 19, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

APPLICATIONS ANALYST/PROGRAMMER-OFFICE OF PLANNING & BUDGET, University Park Together with the Lead Applications Analyst/Programmer conduct analyses of data processing and customer data problems and needs. Determine detailed requirements to solve problems and prepare computer programs and systems to achieve desired ends. Baccalaureate degree or equivalent experience in computer systems. One to two years of effective experience in computer programming and analysis required. Knowledge of PL/I and Algol programming languages and structured programming techniques is helpful.

SYSTEMS ANALYST — MANAGEMENT SERVICES, University Park Responsible for assisting customers/users in defining information handling problems, in assessing plausible alternative technical solutions, and in specifying system design which can be effectively implemented within the processing technologies available to Management Services; also responsible for planning and assisting in Public Service Program Analysis and Programmers and assisting in their education program. Specific functions of this position include fact-finding (data gathering and analysis), task planning, cost-benefit and feasibility studies, systems documentation, information flow and utilization analyses, etc. Bachelor's degree or equivalent, with training in computer systems and systems planning, plus two to four years of effective experience in data processing. Applications experience in IMS DB/DC is desirable.

Penn State Intercom

Jim Barnhart uses Pattee's closed circuit television reader.

University Libraries strengthen services for persons with visual and other handicaps

Three years ago Jim Barnhart didn't need the University Libraries' services for the visually handicapped. Then tumors developed on his optic nerves. His 20/20 vision became 20/600 in the left eye and "able to sense light" in the right eye.

Now the equipment in Room 7 of Pattee Library helps keep him in school.

It includes: A Perkins braille typewriter, an eight-RPM record player, a tape recorder/player specially designed for the visually handicapped, a large-type typewriter, a closed-circuit television reader, large mounted magnifying glasses called optical viewers, and miscellaneous aids and appliances for handicapped users.

Also the Libraries will soon acquire a portable closed-circuit unit with microphone attachment which will enable visually handicapped students to tap the vast resources of Pattee's microfiche holdings.

"Jim's case shows that any one of us can become severely handicapped without warning," says Charles H. Ness, assistant dean of the Libraries, adding:

"Although the number of Penn State students and employees using services at this time for the visually handicapped is small—eight to 10 at most—we view the continuous build-up and strengthening of our program as quite important."

Jim Barnhart is a sophomore business logistics major. When he had full sight, he was a surveying technology student at Mont Alto Campus, but he changed careers soon after his loss of vision.

"The service for the visually handicapped provided by the Libraries is one of the main reasons why I'm doing fairly well in studies at University Park," he says, "along with the confidence I've developed in this year that I can do anything I want to do."

Jim uses the closed circuit television in Room 7 for some of his reading. A camera focuses on the printed page which is then enlarged on a television screen. The user focuses the camera, make the print large or small, and move the printed page as he or she reads.

Other services available to the visually impaired include the loan of tape cassette records, blank tapes, and large print. As a talking calculator is also available for use by students, according to Dean Ness.

"We've been helped immeasurably by such groups as Delta Gamma Sorority and the Faculty Women's Club," he says.

"Recently, the Delta Gamma Alumnae of State College helped purchase an entire 72-volume braille dictionary for the University Libraries. They've also contributed funds for many of the other aids to the visually handicapped which we now have, including the tape recorders used by the Faculty Women's Club."

Sight conservation and aid to the visually handicapped is the national philanthropy of Delta Gamma, according to Mrs. Diane Knight, local chapter president.

Members of the Faculty Women's Club record textbook-related materials for handicapped students. The students request specific books or articles to be read. This academic year, nearly 100 such requests were received and filled.

"Penn State is one of the few institutions of higher learning I am aware of which has a coordinated program with an association such as the Faculty Women's Club to record materials for handicapped students," Dean Ness says.

"Although the number using the service is small, the amount of work just one or two students generate can be very great. A student, for example, might at one time keep as many as 10 volunteer readers busy recording books and articles not otherwise available."

The University Libraries perform another function for the visually impaired, according to Dean Ness, by trying to familiarize students with the broad range of services and materials for handicapped readers on the state and national levels.

Special education majors in the College of Education have also benefited from attending seminars in Pattee where equipment and aids for the handicapped are demonstrated.

Dean Ness, who was formerly director of the U.S. Regional Library for the Blind and Physically Handicapped in Philadelphia and who is also a member of several national committees on the handicapped, notes that the visually handicapped are not the only persons served through library efforts.

A communicator for the deaf and speech-impaired is available, for example.

Temperament study to move to Penn State

The New York Longitudinal Study—the oldest human temperament study extant—will be moved to Penn State during the next several years.

The study's records and data banks will be housed in the Individual and Family Studies (IFS) program in the College of Human Development.

Co-directors of the study will be Dr. Richard M. Lerner, associate professor of child development, and Dr. Jacqueline V. Lerner.

"In effect, we've already begun to do work on the project," Professor Lerner says. "Right now we're starting to move copies of the records to Penn State, but the entire process will take several years."

Launched in 1956, the New York Longitudinal Study was designed by Stella Chess, M.D., and Alexander Thomas, M.D., of the New York University Medical Center, where the study has been housed for 24 years.

Drs. Chess and Thomas were convinced that individual differences in behavioral styles and reactions are exhibited from birth, and that this temperamental individuality plays a significant role in normal and deviant psychological development. At the time, this view ran counter to the conventional wisdom, which placed decisive and even exclusive emphasis on the role of the mother and, secondarily, on other intra- and extra-familial environmental influences.

Following 133 subjects from early infancy onward, Drs. Chess and Thomas and their multidisciplinary research team have found evidence confirming their view that development is shaped neither by temperament nor other intrinsic factors alone, but always by a continuously evolving organism-environment interactional process.

Currently, the researchers are completing a follow-up of the NYLS sample to determine consistencies of temperament from childhood to early adulthood and the influence of temperament in these two age periods of psychological functioning.

Dr. Lerner became acquainted with the

Dr. Scanlon

State officer to speak July 12

Dr. Robert G. Scanlon, Pennsylvania's secretary of education, will be the first speaker for the summer lecture series sponsored by the College of Education Alumni Society and by Phi Delta Kappa, a professional education fraternity.

Dr. Scanlon will speak on "School Improvement: Higher Education's Challenge" at 11:10 a.m. Thursday, July 3, in Room 112 Kern Building. He will be introduced by Dr. Henry J. Hermanowicz, dean of the College of Education.

"Every school a good school" is Dr. Scanlon's stated goal. He says it can be reached by building partnerships among all involved in education. Dr. Scanlon pays site visits to schools two days each week to help learn first-hand what's going on in schools and how to make them better.

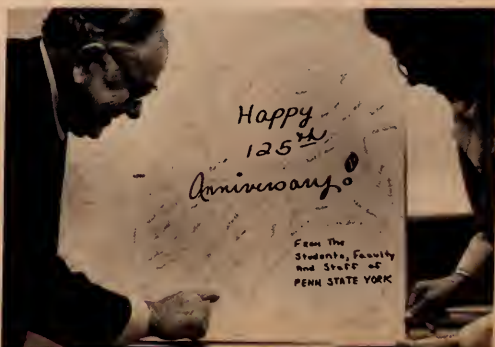

He has spent nearly 30 years as a teacher and administrator. Before being named secretary of education last year, he was executive director of Research for Better Schools in Philadelphia.

He received his doctorate from the University of Pittsburgh and his master's and bachelor's degrees from Duquesne University.

Dr. Scanlon's talk will be one of four lectures sponsored this summer by Education's Alumni Society and Phi Delta Kappa to commemorate Penn State's 125th anniversary.

On July 15, Dr. Kenneth Mortimer,

President Oswald and his executive secretary, Mary Lou McCorkle, admire a giant card signed by members of the York Campus faculty, staff and student body and sent to Dr. Oswald.

Penn Staters

Dr. John C. Snowdon, professor of engineering research at ARL, is the recipient of the Acoustical Society of America's Trent-Crede Medal for 1980. The medal recognizes Dr. Snowdon's "multi-faceted activities in the field of mechanical vibrations and shock, as an outstanding teacher and lecturer, author, and researcher" during the past 26 years.

Born and educated in London, Dr. Snowdon was awarded the Ph.D. from the University of London and the Diploma of Imperial College in 1956. In 1965, the University of London conferred the degree of Doctor of Science on Dr. Snowdon in recognition of his research accomplishments.

Dr. Snowdon is the author of numerous scholarly articles, as well as of a graduate text and reference book, *Vibration and Shock in Damped Mechanical Systems*. He was selected president-elect of the Acoustical Society of America in 1976, but was unable to serve his term as president in 1977 because of illness. He has been a Penn State faculty member since 1961.

Dr. Stanley Rosen, professor of philosophy and fellow of the Institute for the Arts and Humanistic Studies, presented several lectures during the past spring. At Harvard University, he discussed "Nihilism: Ten Years After." His topic at Boston University was "Dynamism, Energeia, and the Megarians"; and at Vassar College he spoke on "Strauss's Hermeneutics." Dr. Rosen has also been appointed to a three-year term on the Committee on International Cooperation of the American Philosophical Association.

Baritone Robert Trehy, professor of music, played the parts of the Old Prince and General Rayevsky in four performances of Prokofiev's *War and Peace*, which was produced by Sarah Caldwell's Boston Opera Company and conducted by William Fred Scott. He was also featured in three performances in Heinz Hall with the Pittsburgh Symphony in a program titled "An Evening of Lerner and Loewe." Appearing with Mr. Trehy were tenor Jon West and soprano Bonnie Murray.

Professor Richard L. Frautschi, head of the Department of French, has been awarded an International Research and Exchanges Board grant for research in Poland and Czechoslovakia in 1981 and also a Camargo Foundation Fellowship, Cassis, France. He will pursue research on a supplement to a bibliography of eighteenth-century French prose fiction.

Dr. Allen T. Phillips, professor of biochemistry, has been appointed to a second five-year term as an editor of the *Journal of Bacteriology*, published by the American Society for Microbiology (ASM). He is responsible for manuscripts submitted in the areas of enzymology and microbial metabolism.

Samuel P. Bayard, professor emeritus of English and comparative literature, has been awarded the honorary Doctor of Literature degree by Waynesburg College. Professor Bayard, who retired in 1973, continues to teach one or two courses each year and in 1977 received the award for emeritus distinction from the College of the Liberal Arts Alumni Society.

Dr. Kathryn L. Towns, associate professor of educational psychology at the Capital Campus, was re-elected co-convenor of the National Women's Studies Association for 1980-81 at its annual May conference, held at Indiana University at Bloomington.

Dr. Inyong Ham, professor of industrial engineering, received the 1980 Systems Division Award from the American Institute of Industrial Engineers at the AIIE Conference held in May in Atlanta.

William R. Schmalstieg, professor and head of the Department of Slavic Languages, has been chosen president-elect of the Association for the Advancement of Baltic Studies, a 900-member international scholarly organization devoted to the study of the history and culture of the Baltic republics. Professor Schmalstieg, who will assume his duties as president in 1982, is the author of several monographs and numerous articles in the Baltic field and is the co-author of *An Introduction to Modern Lithuanian*, the third edition of which has just appeared.

Dr. Moylan C. Mills, associate professor of English, humanities and the arts at the Ogonitz Campus, has been chosen as president-elect of the Pennsylvania Division, American Association of University Professors. Dr. Mills, who was program chairman at the Association's recent state meeting in Harrisburg, will assume the presidency in 1982.

Three faculty members and a student in the Department of Landscape Architecture received an honorable mention award of \$3,000 in the Milwaukee Lakemont Planning and Design Competition. Associate professors A. Mark Battaglia and James R. DeTuerk, assistant professor Daniel R. Jones, and senior Daniel B. Burke were among the 140 contestants who submitted usage plans for an undeveloped tract of land along Lake Michigan, adjacent to Milwaukee's central business district.

William Toombs, professor of higher education and research associate in the Center for the Study of Higher Education, participated in a seminar at Simon Bolivar University in Caracas, Venezuela, on the occasion of the tenth anniversary of the institution. In addition to his conference paper entitled, "Interdisciplinarity in General Education: Problems in Program Design," Dr. Toombs conducted three seminars under the auspices of the Ministry of Education at Colegio Universitario Francisco de Miranda for faculty from these emerging three-year institutions.

Dr. Frank J. Swetz, professor of mathematics and education at Capitol, will serve as a visiting professor in the Department of Education at the National University of Malaysia from June 1980 through June 1981. In addition to conducting research on mathematics learning in Malaysia, he will assist in curriculum and program development at the university.

Dr. Natalie K. Isser, associate professor of history, and Dr. Lita L. Schwartz, professor of education psychology, both at the Ogonitz Campus, will present papers at the Sixth International Conference on Improved University Teaching in Lausanne, Switzerland, in July. Dr. Isser's topic will be the ethical dimensions in teaching the social sciences; Dr. Schwartz will speak on "Perspectives on Tying Research to Teaching."

Dr. Judith Newman-Hornblum, assistant professor of human development at Ogonitz, was elected secretary of the Jean Piaget Society at its Tenth Annual Symposium last month. The international society of educators continues Piaget's research into the stages of intellectual development in children and adults.

Dr. Joan Sulewsky, associate professor of obstetrics and gynecology at Hershey, has been elected to the board of directors of the Visiting Nurses Association.

Dr. James C. Wambold, associate professor of mechanical engineering, has been named chairman of the Subcommittee on Methods for Analyzing Pavement Profile and Roughness Measurements for the Committee on Traveled Surface Characteristics of the American Society of Testing Materials.

Dr. Frank Melone, assistant professor of psychology and head of the Career Development and Placement Center at Ogonitz, has been voted president-elect of the Philadelphia Society of Clinical Psychologists. He will assume the presidency in 1981 for a two-year term.

Dr. C. Dennis Pegden, associate professor of industrial engineering, received the 1980 Dow Outstanding Faculty Award from the Middle Atlantic Section of the American Society for Engineering Education.

Dr. Carson W. Veach, Altoona Campus director, has announced the appointment of Robert L. Smith as associate director for administration. Long-time business manager and financial officer, Mr. Smith has been a part of the Campus since its founding as the Altoona Undergraduate Center in 1939. He is an associate professor of economics. Mr. Smith holds bachelor's and master's degrees from Penn State.

Nancy Cline, associate librarian and head of the Documents Section, is the 1980 recipient of the Award for Outstanding Contribution to the University Libraries.

She was recognized for "her national preeminence in the fields of government documents and microforms and in appreciation of her constructive leadership and enthusiastic participation in many activities furthering the mission of University Libraries System."

Ms. Cline has headed the Documents Section since 1971. She has held several offices in the American Library Association and served as chairman of its Government Documents Round Table from 1976 to 1978. In 1976, Ms. Cline was appointed to the Public Printer's Council on Micropublishing and became chairman of the Council in 1979. From October 1977 until September 1979, she held an appointment by the U.S. Public Printer to the Depository Library Council and chaired its Committee on Micrographics.

Ms. Cline holds A.B. and M.L.S. degrees from UC-Berkeley.

Dr. Neil Mercado, assistant professor of biology, was named Outstanding Teacher for 1979-80 at Ogonitz during recent honors ceremonies. Joseph C. Meyers, assistant professor of speech communication at the Campus, was named Outstanding Advisor at the same program.

Michael R. Lynch, a 1945 graduate of the University and a retired associate professor of agriculture and coordinator of Extension staff development, was honored with the 1980 Lions Paw Medal by the Lion's Paw Alumni Association during Alumni Reunion Weekend for his work in compiling and presenting a slide photograph history of the University. Complete with music and narration, he has presented the show, "For the Glory of Old State," more than 600 times to alumni clubs, reunion classes, and various other groups.

Promotions

Staff Exempt

Rosalie Bloom-Brooks to unemployment compensation officer in Personnel Administration.

William B. Devlin to manager of personnel in Agriculture.

Robert L. Maney to employee relations officer in Personnel Administration.

Nancy H. Miller to assistant to the dean for public relations and broadcasting activities in Arts and Architecture.

Clerical

Carol E. Brobeck to secretary B in Engineering.

Helen D. Brouse to clerk, scheduling A in Registrar's.

Martha Daley to secretary B in Liberal Arts.

Dorren T. Diehl to secretary C in Science.

Linda C. Garrick to clerk records A in Liberal Arts.

Carol M. Hayes to cashier-check cashier in Penn State Bookstore.

Barbara Prucey to clerk typist A in Physical Plant.

Beth A. Ream to clerk stenographer A in Engineering.

Jacquelyn L. Watson to clerk A - lending services in Libraries.

Technical Service

John J. Ceccarelli to utility worker at Nittany Lion Inn.

Thomas Cox to boiler operator in Physical Plant.

Carl G. Fidora to mechanic A in Housing and Food Services.

Dennis Marince to offset duplicator operator in Agriculture.

Wayne Mills to group leader, janitorial worker (night) at Capitol.

Harry Pense to coal and ash equipment operator in Physical Plant.

Eugene B. Tyson to preventive maintenance worker in Physical Plant.

Obituaries

Dr. Albert F. Buffington, professor emeritus of German, died June 18. Widely known throughout Pennsylvania as an authority on Pennsylvania German folklore, he served on the faculty from 1945 to 1965 and was the author of *Early Pennsylvania German Dialogues and Plays* and co-author of *Songs Along the Mahantong and The Pennsylvania Germans*.

A graduate of Bucknell University, his M.A. and Ph.D. were conferred by Harvard.

Rhoda Cable, a maid at the Nittany Lion Inn from 1957 to 1964, died June 16 at the age of 80.

Thomas E. Hile, an employee of the Office of Physical Plant from 1964 to 1976, died June 16. Born April 4, 1914, in Burnham, Pa., Mr. Hile worked as a janitor and as a boiler operator.

Ruth M. Tressler, a maid with Housing and Food Services from 1951 to 1960, died June 17 at the age of 82.

Anna Hartscock, a counterwoman and relief cook with Housing and Food Services, died June 12. Employed from 1950 to 1961, she was 85.

Wilbur B. Hoy, a pharmacist at the Ritter Health Center from 1947 to 1963, died June 16 at the age of 82.

Carroll S. Shaffner, an assistant in animal science in the College of Agriculture from 1950 to 1971, died June 7. A native of West Union, Ill., he was 73.

Thomas H. Franklin Sr., a dining hall worker with Housing and Food Services from 1953 to 1969, died June 5. The Huntingdon, Pa., native was 72.

J. Richard Hanscom, an equipment attendant with the College of Health, Physical Education and Recreation from 1937 until 1961, died June 7. Born in Tyrone, Pa., he was 89.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Retirements

On June 29, Dr. Kent Forster, professor of European history and since 1970 head of the Department of History, will retire with emeritus rank.

Dr. Forster earned his A.B. at Washington and Lee University in 1937 and his M.A. and Ph.D. in history at the University of Pennsylvania. He joined the Penn State faculty immediately upon completion of his Ph.D. in 1941. After teaching for two semesters, he served with the Armed Forces, returning to campus in 1944.

Following a summer in 1948 with The American Friends Service Committee's trans-Atlantic Shipboard Orientation Program, and an assignment the next year with the New School for Social Research's study abroad program, Dr. Forster became committed to international education at Penn State. In 1950 he was resident director in Britain for Penn State's first Summer Seminar in Europe. One of four faculty members selected by President Milton S. Eisenhower, he helped to organize and teach the interdisciplinary courses in International Understanding developed in the 1950s. Director of Penn State's Summer Workshop on International Understanding in 1957 and 1958, he became a member of the original faculty committee which launched the present-day Penn State International Study Programs.

In 1967 he accompanied, as faculty advisor, the Penn State students going to the University of Cologne and the University of Strasbourg. Meanwhile, Fulbright lectureships at the University of Helsinki (1956-57), the University of Vienna (1961-62), and service with West Germany's Falkenstein Seminar for German gymnasium teachers (1962) afforded him an opportunity to work with European students. Subsequently, he held visiting professorships in European history at the American University of Beirut (1967-68) and the University of Nairobi (1976-77). He also taught at Bowling Green State University and the University of Alaska and has been a guest lecturer at the Universities of Copenhagen, Graz, Belgrade, Sarajevo, and a number of American institutions.

Dr. Forster drew extensively on his first-hand European experiences in his teaching of modern European history courses at Penn State and in 1959 was the recipient of the Christian R. and Mary F. Lindback Award for Distinguished Teaching. His research interests have been in the field of European diplomatic history, with special emphasis in recent years on Finnish-Russian relations. In 1970 he held an American Philosophical Society grant for research in Finland.

He is the author or co-author of five books, 30 professional articles and reviews, and of a number of other publications. He serves on the editorial boards of *The Historian* and of the Penn State Press.

Dr. Forster expects to remain in the Penn State community continuing his work in Finnish-Russian relations and offering an occasional course in history.

Dr. Alice F. Beatty, professor of biology and entomology at the DuBois Campus is retiring June 30 with emeritus rank. Dr. Beatty has been a faculty member since 1956, when she began teaching part-time. She assumed a full-time position in 1964.

She holds B.S. and M.S. degrees from Southern Methodist University, and a Ph.D. from Louisiana State University. Prior to coming to Penn State, she was an

instructor at Ward Belmont College, Highland Junior College and Arlington State College, and an assistant professor from 1948 to 1956 at East Texas State College.

Dr. Beatty, who served as the Biology Club sponsor at DuBois, directed marine biology fieldtrips each March from 1967-72 as well as Great Smoky Mountain National Park Wildflower Pilgrimages from 1970-73. She has served on numerous Campus and University committees. Her research interests have included the morphology, taxonomy, and ecology of Odonata of Mexico, Texas, Pennsylvania and E. Canada, as well as *Drosophila* cytogenetic research, and study of osmo-regulation in marine invertebrates, plant taxonomy, biogeography and environmental biology.

After more than 30 years of service, Arthur D. Brickman, professor of mechanical engineering, is retiring June 30 with the rank of professor emeritus.

Dr. Brickman joined the faculty in 1946 as an instructor, becoming a full professor in 1964. He received his B.S. from the University of Minnesota and an M.S. from Penn State. Taking a leave of absence between 1951 and 1953, he served as an assistant professor at the Massachusetts Institute of Technology. From 1961 to 1963 he was a National Science Foundation Fellow at the University of Michigan where, in 1963, he received a Ph.D.

In 1967, he won the Christian R. and Mary F. Lindback Award given by the University each year for outstanding undergraduate teaching. He also received, in 1964, the Western Electric Fund Award for excellence in teaching, presented by the Allegheny Section of the American Society for Engineering Education.

At Penn State, Dr. Brickman pioneered the development of senior and graduate courses in automatic control; introduced scale-model equipment for studying shock and vibration effects in machinery; and was instrumental in the establishment of his department's Dynamic Simulation Laboratory.

Over the years he has published about 25 technical articles and papers. Also, he is the co-author, with E.E. Ambrosious and R.D. Fellows, of a textbook, *Mechanical Measurements and Instrumentation*.

His research areas have included the design of hydrodynamic transducers, evaluation of highway surface roughness, and instrumentation for the artificial heart.

Dr. Floyd W. Hicks, professor and chairman of poultry science extension, will retire July 1 with more than 17 years of service. He will hold emeritus rank. Prior to his appointment at Penn State, he served 16 years on the extension staff at Michigan State University, where he earned B.S., M.S. and Ph.D. degrees.

In the area of poultry science, Dr. Hicks has emphasized educational and field study programs dealing with poultry management through environmental control. He is co-author of *Pennsylvania Poultry Handbook and Poultry Science Topics* and the author of numerous technical papers and popular articles.

An advisor to Pennsylvania's Poultry Federation and Gamebird Breeders Association, he was a poultry consultant to the United Arab Emirates. At Penn State, Dr. Hicks served in the University Faculty Senate. His efforts in behalf of the State's poultry producers were recognized in 1975 when he received the Allied Industryman of the Year Award from the Pennsylvania Poultry Federation.

Dr. Marjorie M. Knoll, professor of family economics and home management, will retire with emerita rank on June 30.

She came to Penn State in 1962 as professor and head of the Department of Home Management, Housing and Household Equipment in the then College of Home Economics.

Dr. Knoll has published numerous journal articles, reports, and monographs and is co-author of the textbook *Management for Modern Families*, now in its fourth edition. Her research interests include the economic benefits of family/household membership, family decision-making in allocation of resources, and goal-oriented behavior of families and/or households.

After teaching in Nebraska public school systems for 12 years, Dr. Knoll started her academic career in 1947 as an instructor in home management at Michigan State University. Having earned her Ph.D. in household economics and management at Cornell University in 1954, Dr. Knoll joined the faculty there as an assistant professor, receiving subsequent promotions to full professor.

Dr. Knoll earned her B.S. in home economics and her M.A. in family economics at the University of Nebraska, which in 1973 honored her as an outstanding alumna.

Dr. Knoll will continue to reside in State College after her retirement.

Dr. Frank J. McArdle, professor of food science, will retire June 30 with the rank of professor emeritus.

In addition to his duties at University Parks, Dr. McArdle served two assignments with Penn State-U.S. Agency for International Development programs in India. He was a consultant for three months in 1969 and an adviser for two years during 1970 and 1971.

Dr. McArdle also served as a consultant with the U.S. Public Health Service in Central America. He presently devotes some time to consulting for food industries.

He joined the Penn State faculty in the Department of Horticulture in 1958. In 1966 he served in Nicaragua as food technology consultant for the U.S. Interdepartmental Committee on Nutrition for National Defense.

His research and teaching have dealt with the preservation quality in processed foods. This includes determination of heat processing schedules for preserving foods, especially canned products.

A native of Monroeville, Ind., Dr. McArdle is a graduate of Purdue University. He also received the M.S. in food microbiology and the Ph.D. in food technology from Purdue.

Dwain N. Walcher, M.D., professor of human development and senior adviser for college development and relations in the College of Human Development, will retire with emeritus rank on June 30.

Dr. Walcher came to Penn State in 1969 as director of the Institute for the Study of Human Development, relinquishing the post last year to become the College's senior adviser. From 1971-73, he also served as special assistant to the Provost for health care program development.

The author of 29 journal articles and/or book chapters, Dr. Walcher was co-editor of four books during his tenure at Penn State.

An Illinois native, he earned his B.S. in biology and his M.D. at the University of Chicago. He taught at Yale and the Indiana University School of Medicine, and was an associate director at the National Institute

for Child Health and Human Development.

Dr. Walcher and his wife, Emily, are moving to Indianapolis, Ind., where he will assume a full-time administrative post with the Indiana State Board of Health on July 21.

C. Herbert Wheeler, FAIA registered architect and professor of architectural engineering, will retire June 29 with the rank of professor emeritus.

Professor Wheeler has been with the University since 1964. He has taught and coached senior architectural engineering students as instructor of the professional practice course; as supervisor of the senior thesis projects program, which he developed; and as career counselor.

One of Professor Wheeler's primary activities has been advancing education for managers of architectural and engineering firms. To stimulate profession leaders to share their experiences and raise the quality of their practice, he has conducted 23 educational conferences at Penn State and in other locations.

Professor Wheeler earned his B.Arch. from the University of Pennsylvania and his M.S. at the Massachusetts Institute of Technology. He also took post graduate work at MIT in acoustics and creative engineering. Before joining the Penn State faculty, he was chief architect of the J.G. White Engineering Corporation.

The co-author of two books published by the American Institute of Architects (AIA), *Emerging Techniques of Architectural Practice* and *Emerging Techniques 2 - Architectural Programming*, Professor Wheeler is the author of many technical articles and papers. He is a fellow of the AIA.

Professor Wheeler plans to remain in State College and to continue to serve as a consultant to architectural and engineering firms and as an instructor in architectural practice management education.

Dr. John Withall, professor of education and educational psychology, will retire with emeritus rank June 30.

Dr. Withall, who came to Penn State in 1964 as a distinguished visiting professor in educational psychology, stayed on to head the Department of Secondary Education. In 1969, he took a position as coordinator/adviser to the Comparative Education Study and Adaptation Center of the University of Lagos, Nigeria, returning to Penn State in 1972 as professor of education and educational psychology.

Born in London, England, Dr. Withall earned his B.A. and M.Ed. from Bishop's University, Quebec, and his Ph.D. in educational psychology and psychotherapy from the University of Chicago.

Prior to coming to Penn State, he served on the faculties of Brooklyn College and the University of Delaware. He also was an associate in charge of instructional conferences for the National Education Association; executive secretary of the U.S. Educational Foundation in Karachi, Pakistan; director of research and training for the Mental Health Teacher Education Project at the University of Wisconsin, Madison; and Wisconsin's overseas representative with the Peace Corps at Abidjan, Ivory Coast.

Dr. Withall has served as an educational consultant to elementary and secondary school personnel as well as to institutions of higher learning in Southeast Asia, West Africa, Central America and the United States. A fellow of the American Psychological Association, he was awarded the first Outstanding Teaching Award of the College of Education in 1977.

(Continued on page 4)

(Continued from page 3)

G. Brant Shoemaker Jr., associate professor of English at the Osgood Campus, retired May 1 after 22 years of service.

Professor Shoemaker graduated from the University of Pennsylvania and earned his M.A. at the University of Connecticut. Before coming to Penn State, he taught at Connecticut, Penn, and Fenn College in Cleveland.

Known as "Kensington's Poet," he has published several books of poetry, which include *Taps and Other Poems*, *The Peacock Lady*, *Philadelphia Poems*, and *Krishna Impaled*. His poetry also has been published in both British and American literary magazines.

A leader in the poetry therapy movement, Professor Shoemaker last year was elected as regional vice president for the Association for Poetry Therapy by the Department of Psychiatry of Columbia Hospital in New York. He also serves on the board of directors of the Leonardo da Vinci Academy, the arts and sciences organization of the United Nations.

Willard W. Gregory, an associate professor of chemistry at Mont Alto, is retiring July 1. He joined the staff as an instructor in 1958 after working for R.B. Wall Co. of Wilkes-Barre and The Hitchner Biscuit Company in West Pittston. Both his A.B. and M.S. degrees in chemistry were granted by Cornell University.

John Gross, associate professor of engineering at Shenango Valley, is retiring June 29 after 14 years of service. He holds bachelor's and master's degrees from the University of Pennsylvania. A registered architect, he was associated with the architectural firm of Hunter, Heiges, and Gross before joining the Campus faculty on Sept. 1, 1967.

Marian A. Quick, associate professor of the hearing impaired, will retire June 30. A 1941 graduate of Penn State, Professor Quick obtained a master's degree from Smith College. She joined the faculty in 1970 after having taught at the Universities of Pittsburgh and Syracuse and serving from 1962-70 as director of the Lower School at the Pennsylvania School for the Deaf.

Edwin W. Gamble Jr., assistant professor of music, will retire June 30. He has been a member of the faculty since Sept. 1, 1950.

Modesta W. Gregory, assistant professor of mathematics at the Wilkes-Barre Campus, will retire from the University on June 30 with nearly 23 years of service. Professor Gregory, who earned her B.S. in mathematics at Penn State in 1936, taught in three public school systems in Pennsylvania before joining the University faculty in 1957.

John E. McHugh Jr., an assistant professor of health and physical education, will retire June 30. A member of the faculty since September 1949, he holds three Penn State degrees — a B.A. '42, a B.S. '49, and an M.S. '56 (physical education). Mr. McHugh was a rifle, pistol and hunter safety instructor.

Jesse I. Pollard, assistant professor of physics at the Hazleton Campus, will retire from the University on June 30 with 18 years of service. Professor Pollard earned his B.S. in physics/chemistry at Mars Hill (N.C.) College, his M.Ed. in educational administration at the University of Maryland and his M.S. in physics at the University of Michigan. He joined the University in 1962, after teaching at Campbell College, Clemson University and Jacksonville University.

Dr. Stanton W. Simkins, assistant professor of educational psychology at Mont Alto, is retiring June 30 after serving on the faculty since September 1972. Dr. Simkins holds a B.S. from Ohio State and M.Ed. and D.Ed. degrees from the University of Pittsburgh. A former superintendent of schools in Camp Hill, he also taught part-time at the Fayette Campus from 1966-69.

Philip W. Zettler-Seidel, assistant professor of physics at the DuBois Campus, will retire from the University on June 29 with 16 years of service. Professor Zettler-Seidel, who earned his Dipl. Ing. at the University of Leipzig, came to the University as an instructor in 1964, holding previous instructorships at Fairleigh Dickinson and Carnegie-Mellon Universities.

Melvin Bennett, associate librarian and head of the Engineering Library, will retire June 30 after 15 years of service.

He received his B.A. in economics and B.S. in library science from the University of Oklahoma and earned his M. Libr. at Emory University. He was the head reference librarian at Texas A & M and also served on the staff of the Carnegie Library in Pittsburgh, where he was responsible for the preparation and publication of a "Purchase Guide for Branch and Small Libraries in Science and Technology." As librarian at the Missile Test Center at Cape Kennedy, he instituted a technological library program.

Georgia R. Coffin, associate librarian and chief catalog librarian, will retire July 12. She became a University staff member in 1970. Prior to coming to Penn State, she was employed as head of the Catalog Center at the State Library of Ohio. She was also head of cataloging at the University of Wyoming Library and a rare books librarian at Cornell University.

Ms. Coffin holds a bachelor of arts degree in sociology from the University of Colorado and a bachelor of science degree in library science from the University of Denver. She was also the recipient of a master of library science degree from the University of Illinois.

L. Hays Chambers Jr., dean of Student Affairs at the DuBois Campus, retired June 1 after 20 years of service.

A graduate of Frostburg State College, he received his M. Ed. at Penn State. In addition to his staff duties, he was an affiliate assistant professor and taught an introductory course in psychology. His attrition-survival study of DuBois Campus students, conducted in 1973-74, provided information for the Associate Degree Admissions Program.

Mr. Chambers has also been very active in community affairs, particularly with youth groups.

Herbert M. Bowlby, an instructor in history at Mont Alto since Sept. 1, 1970, will retire June 30.

Dorothy E. Mothersbaugh is one of the few people who's not going to travel after retirement. Instead, she plans to fill her days actively gardening, doing needlework,

spending more time with her 11 grandchildren, and enjoying her new home in Spring Mills.

Mrs. Mothersbaugh, a records clerk in the office of the University Registrar, will retire on June 28. She first joined the University staff on a part-time basis in the records office and worked in that capacity for 12 years. She became a full-time employee in 1965.

As a records clerk, Mrs. Mothersbaugh has registered students, mailed out transcripts, assisted at commencement, and worked with the permanent records of all campuses.

She has two daughters and three sons; one son, Robert, is employed at the University as a caretaker in the deer pens.

Samuel S. Walker, an inventory clerk for the Office of the Controller, will retire from the University on June 30 with 23 years of service.

Mr. Walker has held a number of positions at Penn State, beginning in 1957 when he joined the staff of the Accounting Department. In 1959 he transferred to the Bursar's office and was

employed as a teller. From 1960 to 1971, he acted as a supply clerk for Army ROTC in the Military Science Department. More recently, as an inventory clerk, Mr. Walker was responsible for keeping track of all incoming University furniture and equipment.

His wife, Miriam, has also had a long relationship with the University. She retired as an assistant supervisor in Housing after 20 years of employment. One of the couple's five children, Edgar, graduated from Penn State in Business Administration in 1960.

Nella L. Berglin, a copying clerk in the Libraries, will retire June 28. She has been a member of the staff since Nov. 23, 1971.

Altona Director Carson W. Veach (left) and Associate Director Dr. Kjell Meling (both standing) congratulate Pasquale Cellini (left) and William Allhouse.

William C. Allhouse and Pasquale Cellini, assistant professors of electrical engineering, were honored recently for 25 years of service teaching at Penn State's Altona Campus.

A 1949 graduate of Capital Institute of Technology, Professor Allhouse joined the faculty at the Campus in 1954 as an instructor in the math and electronics associate degree program. He received his

Miriam E. Costic, a residence halls hostess at the Beaver Campus, is retiring July 1. She has been at the Campus since April 14, 1968.

Margaret B. Zinn, an accounting clerk in Continuing Education, will retire June 28. She joined the staff on June 22, 1970.

Russell L. Thomas, a maintenance mechanic at the Wilkes-Barre Campus, will retire June 30 after serving since May 24, 1968.

Nancy M. Filson, a janitorial worker in the Office of Physical Plant since April 15, 1974, will retire June 28.

B.S. in electrical engineering from Penn State in 1965, becoming an assistant professor in 1967. He has served as president of the Altona Campus faculty.

Pasquale Cellini has also been a member of the Altona faculty since 1954. A graduate of Penn State with a B.S. in electrical engineering, he is vice-president of the Altona Engineering Society.

Thirty-one clerical employees of the University have completed a six-week Clerical Enrichment Program.

Participating were:

Merilee Barner, clerk, Patter; Darlene Barton, clerk typist B, Arts & Architecture; Amy Bohm, secretary C, Business Administration; Linda Garbrick, data preparation operator, Alumni Office; Alice Haines, clerk A, Patter; Mary Hoover, secretary C, Education; Mary Kusterbender, clerk typist, Personnel Administration; Marian Lauck, accounting clerk, Bursar's; Cathye Neff, secretary C, Bursar's;

Joann Smith, clerk typist, Engineering Science & Mechanics; Brenda Stroud, clerk typist, Patter; Jacquelyn Watson, clerk typist, Patter; Jan White, secretary C, Business Administration; Ossie Williams, catalog clerk, Patter; Lori Winnick, secretary C, Education; Patricia Wilmer, clerk typist, Business Administration; Mary Zeigler, accounting clerk A, Business Services; Ester Zettle, clerk, Patter;

Hallye Bathurst, secretary C, Education; Anna Bove, secretary C, President's Office; Nina Comly, accounting clerk, Housing & Food Services; Marjorie Groff, secretary C, Human Development; Teresa Hummel, secretary C, Science; Joyce Jones, secretary B, Housing & Food Services; Nancy McGinnis, clerk typist, Liberal Arts; R. Kay Moore, receptionist, typist, Agriculture; Lisa Ott, clerk typist B, Agriculture; Lisa Urban, clerk typist B, Agriculture; Jeannette Willower, clerk B,

ARL; Nancy Winnett, stenographer A, Admissions.

Previous graduates of the Basic Supervisory Management Course recently completed the Supervisory Management Course. During the eight sessions, experiential exchanges and application of management principles in the University environment were discussed by class participants under the leadership of Dennis Keiser, coordinator of employee and management development.

Completing the course were:

Betty Arnold, library assistant, Patter; Clarence Bachmann, accountant, dining halls, Housing & Food Services; Dennis Bender, art specialist, Continuing Education; Dorothy Carolus, associate housekeeping supervisor, Housing & Food Services; Betty Davis, circulation supervisor, Patter; Shirl Dillion, senior housekeeping supervisor, Housing & Food Services; Frances Durkin, head clerk, Patter;

Gary Feltenberger, assistant supervisor, laundry services, Housing & Food Services; Betty Fisher, associate housekeeping supervisor, Housing & Food Services; Fred Hall, shops supervisor, ARL; Gary McClinton, supervisor, machine shop, ARL; George Patrick, accountant, Bursar's; Wayne Stump, supervisor, computer operations, Patter; Gardner Wagner, foreman, waste water treatment plant, Physical Plant; G. Robert Grieb, assistant supervisor, Management Services.

University Park Calendar

June 26 - July 9

Special Events

Thursday, June 26

Festival Theatre, Rodgers and Hart, *Pal Joey*, 8 p.m. The Playhouse; *The Good Doctor*, 8 p.m. The Pavilion Theatre.

Friday, June 27

Pass/fail for 10-week Summer Term. Commonsplace Theatre, Fellini, *La Dolce Vita*, 6 and 9 p.m., Room 112 Kern.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

CSA Summer Orientation Social, Ruben and The Hipsters, 8 p.m., Room 102 Kern. Free with Graduate I.D.

Saturday, June 28

France-Cinema, Carle, *Normande*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Spectrum, Victor Borge, "Comedy in Music," 8 p.m., Eisenhower Auditorium. Explaganza film, *Psycho*, dusk, Fisher Plaza.

Sunday, June 29

Commonsplace Theatre, *La Dolce Vita*, 6 and 9 p.m., Room 112 Kern.

Festival Theatre, *The Good Doctor*, 7:30 p.m., The Pavilion Theatre; *Pal Joey*, 7:30 p.m., The Playhouse.

Monday, June 30

Pass/fail for 10-week Summer Term. Registration for 8-6- and 3-week Summer Terms, 1-5 p.m., Activities Room, IM Bldg. France-Cinema, *Normande*, 7 and 9 p.m., Room 112 Kern.

Tuesday, July 1

Drop deadline, pass/fail and course repeat deadline for 10-week Summer Term. University Libraries orientation tours, Pattee - 9 and 11 a.m., 1, 3, and 7 p.m.; Branches - undergraduate students, 10 a.m., graduate students, 2 p.m.

Explaganza concert, Buffalo Chipkickers, 7:30 p.m., Fisher Plaza.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Wednesday, July 2

University Libraries orientation tours: Pattee - 9 and 11 a.m., 1, 3, and 7 p.m.; Branches - undergraduate students, 10 a.m., graduate students, 2 p.m.

Commons Nontime Concert, Dan Johnson, 12 noon, lobby of Kern.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Thursday, July 3

University Libraries orientation tours: Pattee - 9 and 11 a.m., 1 and 3 p.m.; Branches - undergraduate students, 10 a.m., graduate students, 2 p.m.

Phi Delta Kappa/College of Education Summer Lecture Series, 11:10 a.m., Room 112 Kern. Dr. Robert G. Scanlon, Pennsylvania Secretary of Education, on "School Improvement: Higher Education's Challenge."

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Friday, July 4

Independence Day. No classes, University offices closed.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Saturday, July 5

Opening reception for Sidney Goodman exhibit, 3-5 p.m., Museum of Art.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Sunday, July 6

Central Pennsylvania Festival of the Arts Gala, 7-9 p.m., Museum of Art.

Festival Theatre, *The Good Doctor*, 8 p.m., The Pavilion Theatre; *Pal Joey*, 8 p.m., The Playhouse.

Monday, July 7

France-Cinema, Antonioni, *Zabriske Point*, 7 and 9 p.m., Room 112 Kern.

Interdisciplinary Symposium on Value lecture, 8 p.m., Room 101 Kern. James Martin,

Richard Ryder plays the title role in Festival Theatre's production of the Rodgers and Hart musical "Pal Joey." Ryder, who has appeared on Broadway in "Oh! Calcutta" and "Via Galactica," makes his Festival debut as Joey Evans - singer, dancer, ladies man, shooting for stardom on the Chicago nightclub circuit. The show includes such Rodgers and Hart standards as "Bewitched, Bothered and Bewildered" and "I Could Write a Book." It is running at the Playhouse June 26-29; July 1-6, 8-13. Tickets are available at the Festival Box Office (865-1884).

psychology, on "Adequacy and Ecstasy: Further Developments Toward a Self-Reflective Theory of the Development of Consciousness."

Tuesday, July 8

Late registration deadline and add deadline for 6-week Summer Term.

Explaganza concert, Arthur Goldstein

Quartet, 7:30 p.m., Fisher Plaza. Summer Series in Gerontology lecture, 7:30 p.m., Room 112 Kern. Yolanda Jeselnick, exec. dir., Pa. Senior Center Institute, and

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Eugene F. Erway, exec. dir., Pa. Council on Aging, on "A Forum on the Political Process as an Advocate for Older Adults."

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Wednesday, July 9

Deadline for preregistration for Fall Term 1980, Room 112 Shields.

Late registration deadline and add deadline for 8-week Summer Term.

CPA, Children's Day, campus and town locations.

Commons Nontime Concert, Jive Bombers, 12 noon, lobby of Kern.

Festival Theatre, *Pal Joey*, 8 p.m., The Playhouse.

Exhibits

Chambers Gallery: Steven Dervin and Rome Hanks, photographs; Kevin Slick, Art Education graduate student, watercolors; Sally Bentz, Art Education graduate student, baskets, through July 2. Central Pennsylvania Festival of the Arts, Child Art Exhibit, opens July 7.

HUB Gallery: Jeanne Stevens Soltman, ceramic sculptures, through June 30. Central Pennsylvania Festival of the Arts, exhibit by famous Pennsylvania painters, opens July 8.

Kern Gallery: John Latzenby, photographs, through June 28. Central Pennsylvania Festival of the Arts, juried prints and drawings and hand made paper, opens July 6.

Museum of Art: European posters (1895-1930) from the permanent collection, through June 29. Selected works from the permanent collection. Sidney Goodman, paintings, drawings and graphics, 1959-1979, opens July 5. Central Pennsylvania Festival of the Arts, juried crafts, opens July 6.

Pattee Library: Rose Shumkas, recent drawings, East Corridor Gallery; Sandy Opela, recent works, Learning Services Lobby; "Founding a University: An Exhibit in Honor of The Pennsylvania State University's 125th Anniversary," Main Lobby. All exhibits through July 1.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 473-1387). Applications for these staff vacancies will be accepted until 3 p.m., July 3, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

ASSISTANT DEAN OF STUDENT AFFAIRS, The Behrend College. Responsible to the Dean of Student Affairs for administration and coordination of the various functions within the Student Affairs operation at The Behrend College, primarily in the areas of Residential Life and Conduct Standards. Living in a residence hall apartment is required. Acts for the Dean of Student Affairs as assigned. Master's degree or equivalent in college student personnel services or related field, plus two to four years of effective experience.

ASSISTANT COORDINATOR RESIDENCE LIVING, Capital Campus. Responsibilities include the supervision of resident assistants, development of programming, maintenance of order in the Residence Hall; liaison with Housing and Food Services. Requires living in residence hall. Bachelor's degree in sociology, psychology or related field and up to two years of effective experience. This is a 10-month appointment from August through June of each year.

SYSTEMS ANALYST, College of Medicine. Coordinate data information for departments. Determine computer systems specifications and record layouts and develop procedures to process information by electronic data processing equipment. Confer with departments to determine the problems and the type of data to be processed. Formulate logic of statements of business problems and devise technical solutions of problems through the use of electronic data processing. Bachelor's degree in accounting with knowledge of third generation programming language, plus four years of data processing experience.

DATA ADMINISTRATION COORDINATOR, Management Services. Responsible to the Supervisor of Data Base Activities for documenting data base policies and guidelines, participating with data users in reviewing policy, informing data users of policies and guidelines, and supporting systems development.

activities by providing the necessary tools and reference aids concerning the scope and fidelity of the existing University data bases. Responsible for maintaining the dictionary for the University data bases. Bachelor's degree (or equivalent) in information science, library science, or business administration plus one to two years of administrative and business experience in record keeping. Computer science experience is highly desirable.

ADMINISTRATIVE AIDE, College of Earth and Mineral Sciences, Elder's Ridge Mine Mechanic's School, Indiana County. Maintain program financial accounts, assemble teaching resource materials, maintain student records, initiate and prepare faculty related paperwork, compile periodic reports and surveys, conduct job placement surveys, coordinate student placement services and oversee the physical plant of the facility. Two-year business college degree or equivalent, plus one to two years of effective experience; or high school business/commercial education with two-four years of effective experience. Position is funded until Dec. 30, 1980, with continuation possible.

State officer

(Continued from page 1)

director of the Center for the Study of Higher Education at the University, will speak on "The Future of the Academic Profession in the '80s."

On August 1, Dr. Paul Birby, professor emeritus of education, will moderate a panel discussion on international education entitled "Needed: World Citizen Teachers."

The final lecture will be August 14 with Dr. Richard Chait, assistant provost, discussing "Faculty Development in the 1980s."

All of the lectures are free, and the public is invited.

Flatpickers, ragtime for arts festival weekend

Dw. Watson, one of the greatest living flatpickers, and his son Merle, plus the New Orleans Ragtime Orchestra, a group devoted to the lively music of jazz and ragtime, will be providing a weekend of musical entertainment as part of the Nittany Mountain Summer Festival's Spectrum of Music and Dance on Friday and Saturday, July 11 and 12.

Watson, blind since early childhood, is an instrumental virtuoso of legendary stature, renowned for his stylized flat picking and amazing speed on a guitar and for his complete control of every aspect of the performance. In addition, like Will Rogers, he can spin yarns, set a mood and take an audience on a fascinating trip to

his home in the mountains of North Carolina.

The New Orleans Ragtime Orchestra will lead its listeners through a nostalgic tour of a vibrant part of America's musical past on Saturday, July 12. The musicians, many of whom have performed with other legendary New Orleans jazz bands such as Lee Dorsey's, bring warmth and spontaneity to their mainstay, ragtime, as well as to rhythm and swing, blues, marches, cakewalks and waltzes.

Phone orders on Master Charge and Visa for tickets may be placed by calling (814) 863-0255 weekdays, from 9 a.m. to 4 p.m. Tickets are also on sale at the Eisenhower Auditorium box office weekdays, from 9 a.m. to 4 p.m.

"Innocent abroad" — how to mount a successful exhibit

Not knowing that it takes 18 to 24 months to mount an important art exhibit, Elmore Browne did it in four.

When he first conceived the idea for an exhibit of paintings by Henry O. Tanner and Horace Pippin, two black Pennsylvania artists, Mr. Browne was blissfully ignorant of such matters as gallery security, insurance certificates, and the transportation of valuable works of art.

By the time the last of the 32 paintings from his April 13-May 10 show was returned this month, Mr. Browne, director of the Paul Robeson Cultural Center, had developed sufficient expertise to have been trusted with \$837,000 worth of art.

It was last January when Mr. Browne decided that a show of Pennsylvania black artists, coinciding with the Black Arts Festival and the University's celebration of its 125th birthday, might be a good idea.

"After a little research, I became convinced that I'd better limit the scope of the show if I was going to arrange it in time for the Spring Festival," he says. "I decided to concentrate on the works of Henry O. Tanner, born in 1859, and Horace Pippin, born in 1889."

"These two Pennsylvanians were art pioneers who overcame the odds against their success during the same period that Penn State was struggling to become a force in higher education. Because of their parallel struggles, I felt that the exhibit would be appropriate for the 125th birthday celebration of the University."

"As far as we could determine," Mr. Browne adds, "the works of these two artists had never been exhibited together before."

Tanner and Pippin could hardly have been more different in training and work.

Born in Pittsburgh, Tanner grew up in Philadelphia. Unable to find anyone to instruct him, he persisted until he was accepted into the Pennsylvania Academy of the Fine Arts, where he became a student of the great Thomas Eakins. Ignored in his native country, he emigrated to France and won acclaim for his intensely felt paintings of Biblical scenes.

The horrors of World War I so affected Tanner that he was unable to paint for some time, and the emergence of the various modern movements in art had obscured his achievements when he died in 1937.

World War I almost destroyed Pippin physically. A member of the black 369th Infantry Regiment (all of whose survivors received the Croix de Guerre for bravery), he returned to his West Chester home unable to lift his right arm. Completely

untaught, he began to paint to pass the time, supporting his right hand with his left. Finally discovered at age 49, he died in 1946.

Mr. Browne, having consulted various references to locate the names of owners of paintings by Tanner and Pippin, decided to concentrate his search on the East Coast. He began to call curators at various museums.

"I was amazed at how enthusiastic and cooperative they were," he remarks. "For example, when I called the director of the Brandywine River Museum at Chadds Ford, she said they didn't have anything; but she knew of two Pippins at Bryn Mawr College and suggested I try there. It was the same at the six museums. At the Metropolitan in New York, they showed me a Tanner which they couldn't loan because it was painted on cardboard and was very fragile; but they put me in touch with a collector who did have a painting

available.

"I found out that museums have committees which have to pass on anything that's loaned, and these committees usually take 60 to 90 days to act. Since I didn't have that much time, many of the museums expedited their procedures."

A source of support and encouragement to Mr. Browne was Dr. Harold Dickson, professor emeritus of art history, who has arranged several major exhibits such as the "Masterworks by Pennsylvania Painters in Pennsylvania Collections," which launched the University's Museum of Art.

"Elmore had unerringly picked the two black painters most worthy of doing," Dr. Dickson notes. "They're marvelously contrasted. I thought such a truly professional selection was worth pushing." Among Dr. Dickson's contributions was getting Harry Henderson to write the catalog. Mr.

Henderson, a former *Collegian* editor (1936), is the co-author of *Six Black Masters of American Art* and of the forthcoming *History of America's Black Artists*.

Meanwhile, Mr. Browne had managed to snag paintings from the Smithsonian Institution, the Pennsylvania Academy of the Fine Arts, and the Whitney Museum of American Art — to name only a few of the institutions and individuals who collaborated in his venture. But the borrowed paintings had to be insured, and the University's Risk Management Office was having some difficulty in finding insurance due to the limited lead time. Mr. Browne helped solve that problem by asking some of the owners to continue their insurance and arranging for Penn State to reimburse them later.

Getting a release and collecting the paintings posed other problems. Loan agreement forms had to be mailed and filled out by all parties concerned and insurance guaranteed from wall-to-wall. When paintings were picked up, two people had to be with the vehicle in case one became sick or had to leave the vehicle.

"At Penn State, we had to guarantee that we had a secure place to store the paintings prior to hanging them," Mr. Browne points out, "and once hung, the gallery had to have limited access, with guards on hand when it was open and electronic warning systems when it was closed."

The HUB Gallery met these specifications, but Mr. Browne visited his show at least once each day to make certain all the paintings were still there.

The actual hanging of the exhibit was supervised by Richard Mayhew, associate professor of art. The Saturday before the Sunday opening, Professor Mayhew, Mr. Browne and several art students worked from noon to midnight.

After the exhibit had opened, several persons who owned paintings by Tanner wrote offering to loan them.

"If I had it to do over, I could do an even better exhibit," Mr. Browne notes, "because I'd be armed with the lessons I've learned. You need time to research a show like this. It's hard to put it together on your own, especially if you're rushed."

But Mr. Browne has obviously been encouraged by the reception accorded his maiden effort. So much so that a visitor to his office may find him looking through a book titled *Two Centuries of Black American Art*. His eye has lit upon the works of Jacob Lawrence, and it's just possible that there will be a special exhibit at the 1981 Black Arts Festival.

Mr. Browne gets Tanner's "The Banjo Lesson" ready to return.

News in Brief

News Bureau wins award

Penn State's news bureau has been named best in the nation for "excellence in news writing" in competition sponsored and judged by Newsweek magazine.

The award is part of the "Creativity 80" recognition program of the Council for the Advancement and Support of Education (CASE).

The University's Department of Public Information and Relations also won an exceptional achievement award for its internal communications program. In the "creative ideas for programs and communications" category, the department won two awards: a citation for its "Think Time" program, in which each staff member spends a day thinking of ideas to improve department performance; and a special award for its "Supplement Service," in which staff members write stories geared to newspaper special-interest supplements.

OGC cited

The University's Office of Gifts and Endowments has won an honorable

mention in the Improvement category of the 1980 Alumni Giving Incentive Awards Program co-sponsored by U.S. Steel and the Council for the Advancement and Support of Education (CASE).

Charles Lupton, executive director of OGE, and George Moellenbrock, director of annual giving, will receive the award — which includes a \$1,000 check — at the annual CASE assembly in Detroit in July. The honorable mention (tantamount to second place) came in competition with 279 colleges and universities throughout the United States and Canada.

To be considered for the improvement category, an institution must have recorded a 25 percent increase in the amount of gifts received for the year, plus a 10 percent increase in the number of alumni contributions. The University was also a finalist in the Sustained Performance category.

From 1977-78 to 1978-79, the number of Penn State alumni giving to the annual fund increased from 18,159 to 21,341, with the amount contributed rising from \$1,025,682 to \$1,367,779.

During the same period, total alumni support to Penn State through all channels rose from \$1,337,910 to \$2,499,876.

Handicapped

(Continued from page 1)

It is a hand-held device that spells words on tape. In addition, access to Pattee for persons in wheelchairs is facilitated by a ramp leading from the rear parking lot to a special entrance in East Pattee. Within the building, nearly every area except the central stacks is accessible to wheelchairs.

Assistance, however, is frequently required by handicapped persons when they must use doors and elevators. Persons with mobility problems are encouraged to seek the help of staff members when it is needed.

Dean Ness views services for the handicapped as a plus not only for the users but for the University's student recruiting efforts. He explains: "At a time when admissions growth is high priority, the importance of adding more equipment and maintaining good and effective service is very important if we are to attract academically qualified students who have disabilities."

Elsewhere in Academe

Faculty members at the University of California at Berkeley have rejected representation by the Berkeley Faculty Association, an affiliate of the American Association of University Professors. Of 1,512 faculty members eligible to vote, 532 cast their ballots for "no representation" and 477 voted for the Association.

□

Responding to a public-ethics law passed last year by the Maryland legislature, about 400 University of Maryland faculty members have announced that they will file suits in federal district court challenging the constitutionality of the law. The law requires all state employees earning more than \$19,619 a year to file a 12-page financial disclosure statement. Eleven Towson State University faculty members were earlier awarded a temporary order by the U.S. District Court in Maryland restraining the ethics commission from making the forms available to the public.

From the Press

Pennsylvania Politics Today and Yesterday: The Tolerable Accommodation. By Paul B. Beers. 475 pages. \$16.75.

A sort of rough justice characterizes the Pennsylvania political scene, the author argues, if justice is defined in Learned Hand's words as "the tolerable accommodation of the conflicting interests of society."

Mr. Beers explains Pennsylvania's rejection of ideological extremes by reviewing the Commonwealth's traditional virtues: tolerance of diversity, independence in thought and action, and patience under adversity.

The book's narrative starts with Boss Matt Quay forcing his way into the U.S. Senate in 1900 and ends with Gov. Dick Thornburgh balancing the taxpayers' demand for budget-cutting against his party leaders' desires for patronage.

Within that span, Mr. Beers tells the story of the rogues (Pennrose, the Vares and Cianfrani), the reformers (Pinchot, Leader and Duff), and the greater number whose real achievements were dimmed by implications of corruption (Earle, Fine and Shapp).

Mr. Beers is the author of four previous books, including *The Pennsylvania Sampler* and *The Republican Years*. A newspaperman for three decades, he has been the "Reporter at Large" columnist for *The Evening News* since 1961 and associate editor of the *Harrisburg Daily* since 1969. A Pulitzer Prize nominee and a Professional Journalism Graduate at Stanford, Mr. Beers is a graduate of Wilkes College and the Columbia University Graduate School of Journalism.

Rivers of Pennsylvania. By Tim Palmer. 208 pages. Over 100 illustrations, many in color. \$18.95, paper. A Keystone Book.

Pennsylvania has some 45,000 miles of usable streams, and this book is designed for the active or prospective canoeist, kayaker, boater or rafter. Hikers, campers, fishermen — indeed, anyone interested in the outdoors — will also find something of interest in it.

Each chapter features the author's experience on a major stream in one of Pennsylvania's three great river basins — the Susquehanna, the Ohio, and the Delaware, with notes on the Genesee, Lake Erie and Potomac watersheds.

A section is devoted to practical suggestions for recreation — where to go boating, fishing, hiking and camping. Tips on safety and comfort are provided, and maps furnished. The introduction supplies a geographical and geological overview.

Mr. Palmer, a 1971 Penn State alumnus in landscape architecture, won the Eric Walker Award. He is now chief planner of Looming County.

Gracanica: King Milutin's Church and Its Place in Late Byzantine Architecture. By Slobodan Curcic. 274 pages. 133 illustrations. \$27.50.

Although its picturesque five-domed shape is probably the most frequently photographed monument of medieval Serbia, Gracanica is the only major church from that era without a scholarly monograph. Dr. Curcic, currently associate professor of history of architecture at the University of Illinois,

prepared this study as his doctoral dissertation at the Institute of Fine Arts of New York University. It was awarded the 1977 prize from the Joint Committee on Eastern Europe of the American Council of Learned Societies and the Social Science Research Council. Extensively revised, the book has received a grant from the Millard Meiss Publication Fund of the College Art Association of America.

Dr. Curcic describes the political and cultural conditions in Serbia at the time of King Milutin (1282-1321), who granted the founding charter to a monastery of which nothing remains but the church of Gracanica. He explores the history of Gracanica, analyzes its architecture and

the relationship of Gracanica to late Byzantine architecture, and discusses the church's original purpose and dating.

Learning the Fiddler's Ways. By Matthew G. Guntharp. Introduction by Robert C. Doyle. Foreword by Samuel P. Bayard. 159 pages. \$15.95, cloth. \$8.95, paper.

This book is written for persons who want to know more about fiddling — both "old-time" and bluegrass — and about the musicians who keep an old folk art alive.

The book grew out of a Doyle-Guntharp recording project, begun in 1973, to collect and preserve the "old-time" folk tunes of the fiddlers in Pennsylvania's Buffalo Valley, a rural region in Union and Snyder counties. Of equal import was their desire to learn how the art is approached and interpreted by individual players and transmitted from generation to generation.

Aside from methodological insights for collecting folk music, the book offers discussions of bowing and fingering techniques; transcriptions of favorite Buffalo Valley tunes, with comments on ornamentation and repertoires; and introductions to the fiddlers themselves, with emphasis on their experiences and lore. A glossary explains special terms.

Mr. Guntharp plays fiddle and mandolin with the Buffalo Chipkickers, a State College-based band organized by Mr. Doyle when the two were students of folklore at Penn State.

Clouds and Storms: The Behavior and Effect of Water in the Atmosphere. By F.H. Ludlum. 405 pages. 282 illustrations. \$57.50.

This is the last book written by Frank Ludlum, a professor of meteorology at Imperial College, London, and editor of *Weather* magazine. Dr. Ludlum died in 1977. In this work, he treats the physics of clouds and precipitation, producing an integrated picture of atmospheric processes.

A skilled writer as well as a master of his subject, Dr. Ludlum wrote the book as a reference and text for all atmospheric scientists and scholars in related fields. But it can also be used as a guidebook for persons wishing to understand something of the nature and complexity of weather and climate. It is illustrated with numerous line drawings, map analyses and photographs.

Rhetoric as Philosophy: The Humanist Tradition. By Ernesto Grassi. 122 pages. \$14.95.

Ernesto Grassi is emeritus professor of philosophy at the University of Munich and the author of numerous books on the nature of art, myth, imagination and the philosophical history of culture.

In this book, his first for English readers, he goes back to the Italian humanist tradition and aspects of earlier Greek and Latin thought to develop a concept of rhetoric as the basis of philosophical thought. In the development of modern philosophy since Descartes and Locke, rhetoric has been seen as superfluous to knowledge — as the speech that plays on the emotions. Professor Grassi connects rhetoric with the power of language to bring the starting points for thought into being. This power of speech is at the basis of the philosophical and rational search for truth.

Pennsylvania Prints from the Collection of John C. O'Connor and Ralph M. Yeager. Catalog compiled by Judith W. Hansen. 176 pages. 83 illustrations; 7 in color. \$16.95, cloth. \$10, paper.

This catalog includes the collection of town views, scenes from Pennsylvania history, and portraits which enthralled visitors to Penn State's Museum of Art. Many of the prints have hung in State College's Tavern Restaurant, which Mr. O'Connor and Mr. Yeager owned.

Ranging in time from an early 1757 view of Bethlehem to one of Pittsburgh printed in 1902, the prints reflect a wide range of styles. Competing firms strove to outdo one another for their eager 19th century audiences.

Early straightforward views gave way to composite ones including the major buildings of a town, and then to elaborate cartographic projections and bird's-eye views. Print processes and methods used by various artists are described, and active publishing firms — Fowler and Moyer, for example, issued over 170 Pennsylvania town prints — identified.

Fluorescent Lamp Phosphors: Technology and Theory. By Keith H. Butler. 351 pages. 228 illustrations. \$39.50.

This is the first published description of methods for the manufacture of fluorescent lamp phosphors, written by the retired manager of GTE Sylvania's Phosphor Research Laboratory.

Dr. Butler discusses the various factors controlling the selection of specific phosphors for use in lamps and presents a unique systematic application of group theory to the problem of explaining the excitation and emissions spectra in terms of crystal structure of the host material and the energy levels of the added foreign ions which are the so-called activators responsible for fluorescence. Unusual topics from various specialized fields are included, and the appendix offers essential tables for dealing with the spectra of ions in crystals.

Asian Women in Transition. Sylvia A. Chipp and Justin J. Green, Editors. 262 pages. \$16, cloth. \$8.95, paper.

Based on field research, the contributions of this volume bring together the perspectives of political science, anthropology, sociology, and economics. The varied cultural and ideological contexts of Asian countries — including Islam, Buddhism, Hinduism, Catholic Christianity, and the thought of Mao Tse-tung — are considered comparatively. Among the nations discussed are mainland China, Japan, the Philippines, Malaysia, Indonesia, India, Pakistan, and Bangladesh.

Methodological challenges and opportunities are addressed: for instance, distinguishing between real and merely apparent change, avoiding fixation on female "stars" whose upper-class cosmopolitanism is quite atypical, and reading between the lines of official handouts. Each chapter of the book suggests topics for further research and sources for further reading.

The Palazzo da Porto Fesca, Corpus Palladianum Vol. VIII. By Erik Forsman. 186 pages. 128 illustrations; 6 color plates and 9 scale drawings. \$42.50.

This is one in a series of monographs, each devoted to a major building of Andrea Palladio (1508-1580), the best-known architect of the Veneto in the 16th century and one of the greatest and most influential artists of the Italian Renaissance. Until the publication of this series, available reproductions of even the most famous of the architect's villas have been limited, particularly in regard to interior decorations.

The Palazzo da Porto Fesca exists today as a fragment of a larger and more imposing plan. Palladio designed it as an urban residence to introduce into Venetian architecture a new synthesis of the contemporary Roman style, ancient classical tradition, and Venetian building customs. It shows Palladio's fully matured style and reflects his study of Roman archaeology and his knowledge of the work of Bramante.

Tennyson & His Publishers by June Steffensen Hagen. 233 pages. \$17.50.

At his death, Alfred Tennyson left two fine country houses and a personal estate roughly the equivalent of \$278,600 (with a buying power today of some \$2,090,000). He is one of the few poets to have grown rich from the sale of his works.

Dr. Hagen, an assistant professor of English at The King's College, Briarcliff Manor, describes the people and circumstances surrounding the publication of Tennyson's poetry. Her subjects include the vagaries of audience and market, the idiosyncrasies of publishers, the exigencies of family and houses, the fluctuations of reputation, and the fear of piracy.

Drawing heavily on previously unpublished personal and business correspondence from materials at the Tennyson Research Center, and from the archives of two of Tennyson's publishers, Macmillan and Kegan Paul, Dr. Hagen explains negotiations, details agreements, and wherever possible reports on sales and income figures.

Setting the tone for her conclusions, in her preface Dr. Hagen notes: "... Tennyson almost without exception made his choices on artistic rather than mercantile grounds."

American Paintings in The Toledo Museum of Art: A Comprehensive Catalog of 277 Paintings. Catalog by Susan E. Strickler. Edited by William Hutton. 228 pages. 277 illustrations; 8 in color. \$24.50, cloth. \$14.50, paper.

Most of the principal artists and stylistic currents in American painting from the mid-18th century to the present are represented in this catalog. Included are artists such as Thomas Cole, Sanford Gifford, Ralph Blakeford, William Merritt Chase, and Charles Hassam. Separate entries are provided for each painting, including a biography of the artist, physical data, listings of provenance and exhibitions, and a full bibliography.

In an introduction, the Museum's senior curator, William Hutton, surveys the development of the collection.

Three architectural engineering majors have been conducting energy profiles of University Park buildings as the first step in making the buildings more energy efficient. From left, Anne Beatty, Janet Rozmus and Brad Beiswanger.

Students developing "energy profiles"

When they graduate, Anne Beatty, Brad Beiswanger and Janet Rozmus can claim safely that they know more about buildings at University Park Campus than any other students.

The three architectural engineering majors have spent hundred of hours poking around steam pipes, sump pumps and blue prints as they conduct "energy profiles" of campus buildings for the Office of Physical Plant.

"The energy profile is the first step toward making improvements in buildings' ability to use energy more efficiently," says J. Carroll Dean, manager of energy conservation programs for the University. "Students have been conducting energy profiles for us since 1976. About 110 profiles are completed out of approximately 200 buildings on campus."

"We look for structural characteristics, building use, energy-consuming equipment and systems," Mr. Beiswanger says, "anything that might give a clue on how to make the building more energy efficient."

The students are assigned to buildings by Joe Capios, an engineering analyst in the Office of Physical Plant. Once the profiles are complete, they go to Thomas E. Tabor, an engineer in the design and engineering department. It's his job to

study them and come up with recommendations for improvements.

Mr. Tabor says his recommendations range from adding wall insulation to changing building ventilation methods to removal of unneeded energy wasting equipment.

"One of the most significant energy savings we've had," he says, "came at Eisenhower Auditorium. We found that better coordination of schedules between auditorium management and computer operators at our Central Control System resulted in a 54 percent avoidance of energy costs."

Often, inexpensive solutions can lead to large energy savings, he adds.

"The profile may show a bookcase in front of a heat register. Use a little elbow grease, move the bookcase and the heat gets out better."

The surveys by students are providing another important function, Mr. Dean notes. A number of federal grants are available to colleges and universities to make energy-related building improvements. To be eligible, however, detailed information on buildings must accompany the grant applications.

"Since students have been working with us for about four years," he says, "we're ahead of the game in some respects."

lecturers are:

"The Nature of Research," Dr. Rosemary Schraer, professor of biochemistry and assistant provost; "Nuclear Waste Disposal," Dr. Rustum Roy, professor, solid state science and director, Materials Research Laboratory; "Someone Wants Your TV," Marlowe Foreman, director of media and learning resources, Continuing Education; "To Build an Artificial Heart," Dr. Winfred Phillips, associate dean, College of Engineering; "The Mammary Gland-Food, Sex, Cancer," Dr. Stuart Patton, Evon Pugh professor of agriculture; "Weather Predicting in the 21st Century," Dr. Charles Hosler, dean, College of Earth and Mineral Sciences; "Aspects of Modern Art," Dr. Jeanne Chenuault-Potter, associate professor of art history; "Walking and Running," Dr. Peter Cavanaugh, associate professor of biomechanics; "Politics 1980 - The Greatest Show on Earth," Dr. Phillip Stebbins, associate professor of history; "Stone Age Man in This Century," Dr. Napoleon Chagnon, professor of anthropology; and "Dual Career Families," Louise Sandmeyer and Mary Cianni Surridge, counselors, Career Development and Placement.

Further information about the Alumni Vacation College can be obtained from Heather R. Gilbert, assistant executive director, Alumni Association, Room 105 Old Main.

Statewide study conducted by PSU sociologists

More responsive government, better roads and increased job opportunities are the top concerns of Pennsylvanians for the 1980s, according to a massive survey conducted by Penn State sociologists.

Dr. Dan E. Moore, associate professor of rural sociology, directed the three-month project, which produced a remarkable 73 percent response rate. More than 14,000 of 20,000 people approached mailed back a 10-page, 200-question survey.

"We hear a lot about apathy these days," said Dr. Moore, "but I think it's fair to say that Pennsylvanians are extremely interested in the direction their local communities will take in the '80s."

More than 87 percent of those surveyed said government should pay more attention to citizen concerns in the 1980s. Eighty-six percent would like to see higher priority given to road repairs; only 36 percent favor construction of more new roads. Increased job opportunities are a high priority item for 82 percent.

Besides the top three concerns, the respondents gave high priorities to programs to deal with teen-age drug and alcohol use; protection from abuse for children, the elderly and the handicapped; and preservation of Pennsylvania's farmland.

The survey, entitled "Pennsylvania: The Citizens' Viewpoint," was prepared by Dr. Moore and project coordinator Anne Ishler in consultation with more than 100 key individuals in State and local government, civic groups and the media.

Results of the survey are being made available to government officials and policy makers at all public and private levels to aid in planning and programming for the '80s.

"We believe the survey will help take some of the guesswork out of government and civic planning," Dr. Moore said.

"Because of the extremely large sampling of public opinion the high rate of response and the depth of the questioning, more information on citizens' concerns is available now than at any time in the past. The opportunity for government to be responsive has never been better."

"Public opinion does not make decisions," Dr. Moore commented, "but it provides the context in which decisions are made."

Dr. Moore said the size of the sampling made it possible for the research team to compile and analyze data county-by-county and region-by-region.

"On the local level," Ms. Ishler explains, "a parent-teacher group might use its county's findings to develop a series of local programs on jobs, recreation or drug abuse. At the State level, officials can use the results to assess public opinion on such issues as public transportation or community development."

One section of the Penn State questionnaire dealt with energy, and respondents gave strong support to Pennsylvania's coal industry. More than 80 percent see promoting the use of coal and coal by-products as a high priority; 81 percent consider the coal industry a key to providing more jobs.

In a section on economic development, providing incentives to expand existing Pennsylvania industries rated high.

Initial results of the extensive survey will be published in a 16-page tabloid to be distributed to government and civic leaders, media representatives, survey participants and interested citizens. Data will continue to be analyzed throughout the summer. Reports on individual regions and counties will be announced as they become available.

Funding Sources

For further information, call 865-1372

(338-1) Unsolicited Proposals are an agency-approved method of submitting research/instruction program ideas to appropriate funding sources. Early agency contact is recommended, including telephone calls, letters of intent, and personal visits with agency staff. Names of contacts and other procedural information are available by calling 865-1372. Network 8-473-1372.

Chinese to learn theatre operations

A group of Chinese students from Taiwan is spending the next six months at the University as participants in the Internship in Auditorium Management program.

The six students - Chuan-Ping Chu, Chang-An Wang, Pay Yung Lin, Eric Y.C. Chang, Patricia Ssuto and Day-Lih Tung - were selected for participation in the program by the Ministry of Education of the Republic of China, Taiwan; and arrangements between the Ministry of Education and the University were finalized by the Cultural Division of the Coordination Council for North American Affairs in Washington.

During their stay at University Park, the students will focus on five major areas pertaining to the operation of theaters and auditoriums.

Seminars devoted to the five areas - theater and auditorium management, stage and production management, sound and theater electronics, theatrical lighting and scenic construction - will be conducted weekly. The interns also will be able to visit other major facilities for the performing arts, such as Lincoln Center in New York City and the Kennedy Center in Washington.

A sixth area of study, touring, will be optional to the program and will be coordinated with artist management organizations in New York City.

Project director is Dr. Walter H. Walters, dean of the College of Arts and Architecture. William E. Crockett and Douglas R. Maddox, associate professors of theater, are co-project assistants.

Study

(Continued from page 1)

study as a graduate student at the City University of New York, working under NYLS senior research associate Dr. Sam J. Korn. Through him, Drs. Chess and Thomas, who are preparing to retire, became aware of Dr. Lerner's research in child and adolescent development and of his interest in the role of temperament in this process.

"Because of its multidisciplinary orientation," Dr. Lerner says, "the NYLS will provide a variety of research opportunities at Penn State for developmental psychologists, family sociologists, and those interested in social science research methodology."

Dr. Fred W. Vondracek, IFS program head, noted that "the decision to seek a new home for the study in the IFS program represents a recognition of the continuing importance of interdisciplinary efforts in the study of human development and the position of national and international leadership attained by Penn State's IFS faculty members in this area."

Penn State Intercom

Goodman's "Self Portrait" was selected for the 1967 Whitney Annual.

Museum mounts Goodman retrospective

Sidney Goodman, an artist whose paintings "discover the disconcerting in the ordinary, the mysterious in the familiar" is having a retrospective at the University's Museum of Art.

Two floors of the Museum have been devoted to 90 paintings, watercolors and drawings by the artist. The show was organized by William D. Davis, assistant director of the Museum, and its registrar, Richard J. Porter, who also prepared the catalog essay.

Born in South Philadelphia in 1936, Mr. Goodman opted for realism as a student in the fifties, an unfashionable choice in a period dominated by New York's abstract expressionist school. "What I want to do concerns more than just shapes, forms and colors with no relation to a subject," he told an interviewer. "There wasn't enough life in abstract art for me."

Mr. Goodman's early work has been criticized for its macabre and grotesque images; but, as Mr. Porter notes, much of it was "motivated by the massacre of Jews in Nazi Germany. Goodman the painter had not forgotten the sickening impact that Life photographs of the liberated Auschwitz and Buchenwald had had on Goodman the child."

The overt images of corpses and death gradually disappear in the sixties as the painter — after a trip to Europe — fell under the influence of Goya, Velazquez, Vermeer, and Piero della Francesca.

Such paintings as "The Waiting Room" and "Confrontation II," Mr. Porter points out, "demonstrate the impact of Vermeer

and Piero. The quality remains surreal, mysterious, even macabre, but there is a new reserve and interest in space. The pictures are all the more disturbing for their increased naturalism."

As Mr. Goodman developed this naturalism, he strove to "bring to my pictures a range of mood by combining atmosphere and light with a strict structure, steel and fog." His brightly lit, empty landscapes seem, at first glance to be completely real; a second look reveals their improbability.

A number of key works from the mid-sixties are included in the exhibition, among them the artist's "Self Portrait," "Five Women" and "Girl on a Table." Mr. Goodman has painted a number of powerful portraits, and some hint of his working methods may be gleaned by comparing the preliminary drawing and finished painting of "The Artist's Parents." Disturbing distances separate the family in "Figures in a Landscape," a painting of the artist, his former wife and his daughter. Mr. Goodman's daughter reappears in a remarkable double portrait, "Amanda Twice," showing the change from childhood to adolescence.

His more recent paintings hark back to some old themes — fiery incinerators and dumpsters. The latter image is central to the painting "Street Scene, Autumn," in which, Mr. Porter says, the artist continues to seek "new means of expressing mystery and uneasiness."

Mr. Goodman attempts a new monumentality in his 1979 work, "Crowd

Scene," a 12-foot long painting showing a group of people, presumably standing on their car tops and truck beds to look at an unspecified event. "For Goodman, the specific event is irrelevant," Mr. Porter writes. "He considers the sky to be the protagonist of the scene as it grows ominously darker from left to right. 'The artist has called this movement of light to dark' a 'metaphor of an unknown future.'"

The Goodman show will be on display at the Museum through Oct. 12. From there it will travel to the Queens Museum in New York, the Columbus (Ohio) Museum of Art and the Delaware Art Museum.

A Statement

As the legislature recessed on July 9, President Oswald issued the following statement:

"I regret that the legislature has recessed without passing a funding bill, unrelated to the University, but the income from which is needed to help fund the previously approved appropriation bills by the House and the Senate for Penn State.

"As soon as the implications to The Pennsylvania State University are clear and there is the opportunity to discuss the situation with the Board of Trustees on Saturday, July 12, I will have further comment."

News in Brief

Search Committee named for Wilkes-Barre post

An advisory search committee for the position of Director at the Wilkes-Barre Campus has been appointed by President Oswald to assist him in identifying candidates.

The committee members from the Wilkes-Barre Campus are John Kolesar, professor of engineering, chairman; Priscilla Allison, assistant professor of speech communication; Wayne Felty, assistant professor of chemistry; and Linda Yanko, student government association president.

Other members are George Eitzweiler, associate professor of electrical engineering; James Gallagher, director of the Worthington Scranton Campus; Daniel Hopkins, acting vice president for Continuing Education; and Charles Mann, chief of special collections, Pattee Library.

Applications and letters of nomination should be directed to Dr. Robert Quinn, Room 111 Old Main Building, University Park, PA, by August 1, 1980.

SERS retirement reports mailed to faculty and staff

A copy of the 1979 State Employees' Retirement System annual report was recently mailed to all faculty and staff members who are members of that retirement system. Any employee on leave of absence or lay-off should contact his or her supervisor upon return to employment to secure a copy. Other faculty and staff members who did not receive a copy of the annual report may obtain one by contacting the Employee Benefits Division, Room 133 Willard Building (865-1473).

Affirmative Action office moved

To increase its accessibility, the Affirmation Action Office has moved from Room 123 Willard Building to Room 22 Willard, where it is now located on the ground floor near the Computation Center. The telephone number remains unchanged.

Federal funds sought to reduce energy costs

Penn State has applied for federal funds through the National Energy Conservation Policy Act to help reduce energy costs in University buildings.

A total of \$509,642 has been requested to perform renovations in 13 buildings and to conduct a detailed energy analysis of 27 others at 11 campuses of the University, according to Ralph E. Zilly, vice president for business and chairman of the Executive Energy Conservation Committee.

If all projects were approved, the total project cost would be \$940,835, with the University's share \$431,193.

"It should be emphasized that of the 13 buildings where needed renovations have been identified, we estimate that the money spent by Penn State could be recovered through energy savings in just over two years," Mr. Zilly said.

The application was made through the Governor's Energy Council in Harrisburg, Statewide, a total of \$18.9 million in funds was requested by public schools, colleges and universities, hospitals and local

(Continued on page 5)

Penn Staters

Dr. Gerald G. Eggert has been named head of the Department of History at the University, succeeding Dr. Kent Forster, who has retired.

A member of the Penn State faculty since 1965, Dr. Eggert formerly held teaching positions at the University of Maryland and Bowling Green State University in Ohio.

He has a B.A. in history from Western Michigan University and an M.A. and a Ph.D. in American history from the University of Michigan.

His research has centered on labor and business history, and many of the courses he teaches reflect that interest. A survey-level course in business history that he introduced last year will be offered for the second time this winter.

At the graduate level, he has introduced a seminar in the use of quantitative techniques by historians. He also developed a correspondence course in labor history.

In 1974, his biography of Richard Olney, the controversial attorney general and secretary of state under President Grover Cleveland, was published by the Penn State Press. In the book, *Richard Olney: Evolution of a Statesman*, Dr. Eggert takes exception to the usual portrayal of Olney as a harsh repressor of workers and champion of big business. Olney was the subject of his doctoral dissertation.

Dr. Eggert also is the author of an earlier book, *Railway Labor Disputes: The Beginning of Federal Strike Policy*, published in 1967 by the University of Michigan Press.

In recent years, he has been using computerized data to determine the impact of industrialization in the Harrisburg area during the latter half of the 19th century.

Dr. Eggert was acting head of the Department of History during the Winter and Spring of 1976-77 and served briefly as the Department's graduate officer. He was on the board of directors of the Daily Collegian, Inc., in the late 1960s.

Dr. John J. Romano has been promoted from assistant to associate dean for undergraduate studies in the College of the Liberal Arts, effective July 1. Dr. Romano is also assistant professor of social sciences.

"Profound changes in the nature of Dr. Romano's responsibilities have occurred over the past several years," according to Stanley F. Paulson, dean of the College.

As associate dean, Dr. Romano will administer undergraduate programs and services within the College, and he will be active in curriculum development and in the design of new academic programs.

Dr. Romano's research has been in the areas of student counseling and college and university administration. In 1979, he was one of 37 scholars from six countries invited by the Federal Republic of Germany to the University of Bonn to examine political, economic and cultural developments in the Republic since its inception 30 years ago.

Before joining the Penn State faculty in 1973, Dr. Romano was assistant to the vice

president for student affairs and assistant professor of education at the University of Delaware. He earned his B.S. in secondary education and physics at SUNY-Oswego and his M.S. in guidance and counseling at Springfield College. His Ph.D. in counselor education was conferred by Penn State.

Dr. Eric R. Birdsall has been named acting director of the Shenango Valley Campus.

Dr. Birdsall, associate director for academic affairs and an assistant professor of English at the Campus, will replace Dr. Harold R. Sargent, who retired July 1 as director.

"With his academic and administrative backgrounds and his record of community service, Dr. Birdsall is well qualified to assume leadership of the Campus while the search for a permanent director is conducted," Provost Edward D. Eddy said in announcing the appointment.

A 1970 graduate of California State University at Los Angeles, Dr. Birdsall earned his master's and doctorate in English from Johns Hopkins University. He joined the Shenango Valley faculty in 1975.

Dr. Birdsall's academic honors and awards have included grants from the American Philosophical Society and Penn State's College of the Liberal Arts. He was the recipient of the Johns Hopkins Arts and Sciences Fellowship and was a Woodrow Wilson Fellowship finalist. He is a member of Phi Kappa Psi, national honorary scholastic society.

He has published a number of scholarly articles on the poetry of William Wordsworth and Walt Whitman and is the author of a forthcoming book on Wordsworth.

An active participant in community affairs, Dr. Birdsall is vice president of the Citizens' Advisory Council on Redevelopment. He also is a member of the executive board of the Mayor's Committee on the Arts in Sharon. He heads the Campus Task Force on Community Interaction and has served as a resource consultant on programs for gifted high school students.

Dr. Robert B. Mitchell, associate professor of biology, has been appointed pre-medical adviser for the College of Science. He will be succeeded in his former post as coordinator of continuing education in biology by Dr. Christine F. Pootjes, associate professor of microbiology.

Dr. Mitchell, a specialist on aging, joined the faculty in 1969, the same year he completed his doctorate in physiology at the University. He holds a B.S. from Denison University and an M.S. from Ohio University. He has won both the AMOCO Foundation Teaching Award and his College's C.I. Noll Award for excellence in undergraduate teaching.

Dr. Pootjes joined the faculty in 1963 after earning her doctorate at Rutgers University. Her M.S. was granted by Purdue University and her B.S. by Douglass College.

A specialist in the study of bacterial viruses and plasmids, she is conducting research on crown gall.

Dr. Ossian MacKenzie, dean emeritus of the College of Business Administration, received the 1980 Beta Gamma Sigma National Honorary Award at the recent biennial meeting in Chicago of this national honorary scholarship society. In presenting Dean MacKenzie to the nearly 1000 gathered at the awards luncheon, Dr. Eugene J. Kelley, current CBA dean, highlighted Dean MacKenzie's contributions to education for business over a span of 30 years, pointing out that he has served two terms as national president of Beta Gamma Sigma and also as president of the American Assembly of College Schools of Business.

Dr. Carson W. Veach, Altoona Campus director, has been elected chairperson of the Region VII Postsecondary Education Council. Founded in 1974, the Region VII Council is responsible for coordinating institutional planning and providing for the educational needs of Blad, Bedford,

Cambria, Somerset, Fulton and Huntingdon counties.

Dr. Milton W. Cole, associate professor of physics, presented seminars in May and June at Ohio State University, University of Wisconsin and Bell Laboratories. He also lectured in Europe at the Center for Nuclear Physics in Saclay, France; University of Liege, Belgium; Technical University of Munich and the University of Erlangen-Nuremberg, Germany; and the Universities of Padua and Rome, Italy. His topic was atomic beam scattering from surfaces.

Dr. Greg N. Frederickson, assistant professor of computer science, presented a paper at the 7th International Colloquium on Automata, Language, and Programming held in Noordwijkerhout, Netherlands, this month.

Dr. William Spackman, director of the Coal Research Section in Earth and Mineral Sciences, recently represented the Geological Society of America's Coal Geology Division at meetings of the International Commission on Coal Petrology in Ostrava, Czechoslovakia. The commission is concerned with the standardization of terminology and analytical methods in the field of coal petrography.

Bookshelf

Dr. John T. Neisworth, professor of special education, and Dr. Carol A. Cartwright, professor of early childhood and special education, are two of the five contributing authors to a new book, *Individualized Education for Preschool Exceptional Children*.

The book, which was released by the Aspen Systems Corporation, deals with the early education of both handicapped and non-handicapped children, offering various techniques and programs designed to evaluate teaching effectiveness.

Also discussed is a project directed by Dr. Neisworth and Dr. Cartwright entitled *Handicapped Infant and Child Comprehension Outreach Model Program (HICOMP)*. Specific case studies are presented along with recommended activities to aid in increasing instructional skills.

Two of the other authors, Dr. Stephen J. Bagnato and Dr. Sara J. Willoughby-Herb, received their doctorates at Penn State, and the third, Dr. Karen W. Laub, was formerly an assistant professor of individual and family studies at the University.

Promotions

Staff Exempt

Kathleen Pavello to producer-director in Continuing Education.

Myron F. Rudy to supervisor, Dairy Production Research Center in Agriculture.

Staff Non-Exempt

Stephen E. Artman to cardiovascular technician at Hershey.

Mary R. DeJespe to junior research technician at Hershey.

Clerical

Wendy T. Butts to clerk A — college work study program in Student Administrative Services.

Kelly Henry to senior clerk in Earth and Mineral Sciences.

Cora M. Henschen to records team leader in Registrar.

Delorse G. Homan to secretary B in Human Development.

Donna R. Krach to accounting clerk in Continuing Education.

Lori R. McAulay to clerk A — loans and grants in Student Administrative Services.

Joyce R. Packer to secretary B in Business Administration.

Barbara D. Sommers to senior records clerk in Human Development.

Lucinda J. Stephens to clerk, records A in Registrar.

Tonia C. Tibbens to receptionist-typist in Business Services.

Linda D. Townsend to secretary C at Shenango Valley.

Carol A. Walker to secretary B in Undergraduate Admissions.

Mary L. Ward to secretary C at Behrend.

Technical Service

Shelby E. Boltz to anesthesia technician at Hershey.

Helen F. Bublinc to laboratory attendant A in Agriculture.

Steven B. Byron to elevator mechanic apprentice in Physical Plant.

Joyce A. Flowers to animal caretaker A at Hershey.

Wayne Gearhart to refrigeration technician apprentice in Physical Plant.

David Hirojimus to refrigeration technician apprentice in Physical Plant.

Lawrence Hoover to laborer helper — power plant in Physical Plant.

Patricia A. Millberry to janitorial worker in Physical Plant.

Alexander A. Quinn to maintenance worker A at Wilkes-Barre.

Clair L. Riggelman to maintenance worker area landscaper in Physical Plant.

Joseph J. Wyda to maintenance mechanic A at Wilkes-Barre.

Staff Development

The University offers the EXCEL program as a training and development program for senior, career-oriented office personnel. It is designed to enhance and improve the various relevant skills essential in the proper and effective performance of their jobs. University employees who completed the course work during the past term include:

Grace Condo, secretary A, IRP; Betty Forshey, secretary B, Controller's Office; Sue Sanderson, secretary A, President's Office; Carolyn Harbols, secretary B, President's Office; Elissa Johnson, secretary B, University Safety; Jean Kagarise, secretary B, Human Development; Joan Kastner, senior codr; Admissions; Pamela Maroon, secretary B, Human Development; Judy McCormick, secretary B, Agriculture;

Becky Nilson, secretary A, IRP; Janis Praskovich, technical secretary, President's Office; Lurricia Smeal, room assignment & terminal clerk, Housing & Food Services; Gloria Spicer, accounting clerk, Controller's Office; Kathy Thompson, secretary B, Liberal Arts; Sheila Williams, accounting clerk, Controller's Office; Devra Wolfe, employee benefits clerk, Personnel Administration; Nancy Yoder, secretary B, Continuing Education.

An eight-week Writing Skills for Secretaries/Clericals program was attended by 30 employees. They were:

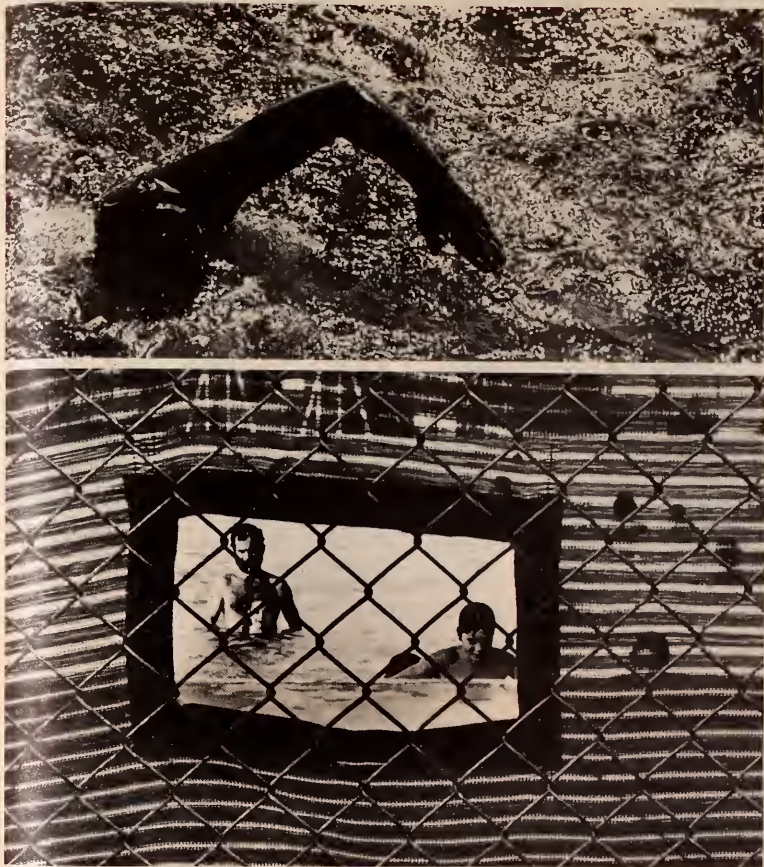

April Altieri, technical secretary, ARK; Lois Annehini, technical secretary, IRP; Ruth Barner, secretary C, Arts & Architecture; Wendy Bathgate, secretary C, IRP; Patricia Bilger, secretary B, Controller's Office; Vicki Blazer, clerk, accounting A, Controller's Office; Carl Brobeck, clerk-stenographer, Aerospace Engineering; Joan Brooks, secretary A, Education; Marilyn Chiang, clerk, accounting, Continuing Education; Christine Conway, clerk typist B, ARK; Susan Croyle, secretary, Engineering; Debbie Curling, secretary A, Agriculture; Debbie Doo, secretary, Engineering; Connie Fisher, secretary, Business Services; Joanne Chaner, clerk, accounting, Science; Patricia Greene, conference secretary, Continuing Education; Patricia Kessinger, room assignment & terminal clerk, Housing & Food Services; Ruth Kilhofer, communications secretary, President's Office; Debra McCaslin, secretary B, Agriculture;

Toni McMullin, secretary C, Continuing Education; Marie Neidig, accounting clerk, Continuing Education; Mary Nellis, accounting clerk, Bursar's Office; Betty Powell, accounting clerk, Bursar's Office.

Arts Roundup

'Pal Joey' continues at Playhouse this weekend

Pal Joey, Nittany Mountain Summer Festival Theatre's second show of the 1980 season, continues through this weekend at the Playhouse.

Cast against the glitter and sordid glamour of the Chicago nightclub circuit during the 1930s, *Pal Joey* features Richard Rodgers' music and book by John O'Hara. Director for the production is Thomas Gruenewald, who returns to Festival Theatre for the first time since 1967.

Mr. Gruenewald characterizes himself as an eclectic director, and his credits verify that opinion. His work in regional, off-Broadway, and off-off Broadway Theatres spans the range of drama from Shaw to Rodgers and Hart to Rossini. This flexibility has enabled him to make an easy transition from *Pal Joey* in June to staging the American premiere of Haydn's opera *La Vera Costanza* in July.

Director Gruenewald acknowledges being drawn to the Penn State production because of a fascination with the title character. "Joey's interesting in that he is a lovable guy who confuses sexuality with personal integrity. He causes a great deal of difficulty for himself and others because he just doesn't know how to say 'no' to his desires. Not your typical musical hero."

Tickets for *Pal Joey* and Festival Theatre's upcoming productions, *Ah, Wilderness!* and *Can't Help Lovin' Dat*

Kern, may be reserved by calling the box office at 865-1884. Hours are noon to 8 p.m. Mondays through Fridays and 2 to 10 p.m. Saturdays and Sundays.

CPFA 'Crafts 14' on display at Museum

Seventy three works from 19 states are on display in the current "Crafts 14," the juried crafts show of the 14th annual Central Pennsylvania Festival of the Arts. Visitors can view the pieces at the Museum of Art through August 22.

Represented are five categories of crafts — ceramics and metal (functional and non-functional), fiber (printed and woven), glass and wood.

Two jurors judged the slide entries for the show. Jon Clark is a glassworker from the Tyler School of Art and Milton Sonday is curator of fabrics at the Cooper-Hewitt Museum.

Atherton Quartet playing at Inn

The newly formed Atherton String Quartet is entertaining patrons in the lobby and dining room of the Nittany Lion Inn from 5 to 7:30 p.m. Tuesdays through Fridays and from 12:30 to 2:30 on Sunday afternoons.

Visitors, whether dining at the Inn or not, are invited to relax in the lobby and enjoy the group as they play classical, romantic and popular fare.

"We wanted to do something that would make the most of the Inn's unique ambience, benefit the community, extend a

welcome to out-of-town guests and, at the same time, showcase some of our Penn State student talent," says William G. Bohm, general manager of the Inn.

The Quartet is booked at the Inn for the remainder of this Summer. In the Fall, Mr. Bohm hopes to provide other suitable entertainment, perhaps by student groups.

Members of the quartet, all candidates for the master of music degree at Penn State, are violinists Laura Hardison and Mary Beth Ions, violist Rebecca McKee and cellist Annette Torregrossa. They are coached by Donald Hopkins, violinist with the Alard String Quartet and associate professor of music.

Tickets are still available to Crystal Gayle performances

Crystal Gayle, the country star who has gracefully crossed the line from country music to soft rock, will perform at 7 and 9:15 p.m. on Friday, July 18, in Eisenhower Auditorium as part of the Nittany Mountain Summer Festival's Spectrum of Music and Dance.

Gayle has become well-known to country, pop and easy listening audiences for her hit singles, "Don't It Make My Brown Eyes Blue," which sold over one and a half million copies, and "Talkin' In Your Sleep." As she has added elements of rock and blues to her music, her appeal has broadened and her style has become more difficult to categorize.

That style, critics say, is clear and smooth, with singular phrasing and good diction.

News in Brief

(Continued from page 1)

governments. The federal government has allocated \$6.1 million as Pennsylvania's share under the energy conservation program.

The results are being evaluated by the Council and recommendations for funding will be sent to the U.S. Department of Energy on August 15, according to Edward B. Bigelow, acting deputy director for administration and grants management.

Penn State's application was in two parts, one for technical assistance to conduct an energy analysis of buildings and the other for specific "energy conservation measures" in certain buildings.

The energy conservation measures account for \$806,700 of the total project cost with \$442,575 requested from the federal government and \$364,125 to come from University funds should all of the applications be approved.

The technical assistance requests account for \$134,135 in project cost, for 12 Commonwealth Campus buildings and 15 University Park buildings, with equal amounts from the federal funds and from University sources.

1979-80 athletic teams post 73.6 winning percentage

Penn State's 31-sport varsity athletic program compiled a record of 316 victories, 112 losses and four ties for a 73.6 winning percentage in the 1979-80 year.

Highlighting the year were the national championships won by the women's fencing, women's gymnastics and women's lacrosse teams.

Dr. John R. Snowdon, who retired June 30 as professor emeritus of engineering research, died July 9. He was 48 years old and had been a member of the faculty since 1961.

Dr. Snowdon received the Acoustical Society of America's Trent-Crede Medal for 1980 last month in recognition of his activities "as an outstanding teacher and lecturer, author and researcher." He was a native of Great Britain and held a Ph.D. from the University of London and the Diploma of Imperial College. He was named president-elect of the Acoustical Society of America in 1976.

"Gayle has one of the finer voices and more compelling and distinctive senses of phrasing in the business," *The New York Times* said.

Born in Paintsville, Ky., Gayle grew up in a family of eight children in Wabash, Ind. All of her four brothers and three sisters were involved in music. One of her older sisters is country music star Loretta Lynn.

Tickets for the 7 and 9:15 p.m. performances are on sale at the Eisenhower Auditorium box office, weekdays from 9 a.m. to 4 p.m. Phone orders may be placed on MasterCard and Visa by calling (814) 863-0255.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

distributed on a request basis to state and national audiences.

Mr. Carroll is the author of numerous publications and articles on land use planning, agricultural policy, and rural legislation. He is co-author of "Urban Planning in Rural America," available from the U.S. Government Printing Office.

Dr. Joseph Zaffaroni, professor of education, retired June 30 with the rank of professor emeritus.

Before coming to Penn State in 1961, he served on the faculties of the University of Nebraska and Eastern Washington College of Education and was also a public school teacher and principal. His primary area of interest is science education.

Widely known as a consultant for elementary school science workshops, Dr. Zaffaroni has worked with virtually every major city school system in the United States and also with schools in Canada, Panama, Costa Rica, Guatemala and the Island of Kwailein.

He has been a visiting professor at Arizona State University, the University of Arizona, Johns Hopkins University, Mankato State Teachers College and the University of Toledo.

Dr. Zaffaroni received his B.A. from Central Washington College of Education. His M.A. is from Colorado State College, and his Ed.D. in science education was earned at Columbia University.

He is co-author of two college texts on science teaching and has written a series of children's science books, as well as many professional articles. He is currently writing a new series of elementary science textbooks for Harper & Row and, following retirement, will live in Allison Park, Pa., where he has reconstructed a century-old barn into a home.

Dr. Ralph G. Asch, associate professor of chemistry and premedical advisor in the College of Science, retired June 30 after 33 years on the faculty.

A native of Montreal, Dr. Asch earned his baccalaureate degree at McGill University and his doctorate at New York University. During his more than 20 years as premedical advisor, Dr. Asch guided nearly 1,500 of today's physicians through their undergraduate careers. He was chiefly responsible for the development of the five-year premedical-medical program offered by the University in cooperation with the Jefferson Medical College.

Dr. Asch served for 14 years as Region 1 director of the International Premedical Society, Alpha Epsilon Delta, and was honored recently with a certificate of appreciation at the Society's national convention. He also served for over 20 years as faculty adviser to the Alpha Beta (Penn State) Chapter of Alpha Phi Omega service fraternity, which honored him in 1971 with its Distinguished Service Award.

Elmer J. Tewksbury, associate professor of chemical engineering, retired June 30. A member of the staff since 1946, he holds a B.S. from Dickinson College and an M.S. '52 from Penn State.

Mr. Tewksbury served first as an instructor and then as a research associate in the Petroleum Refining Laboratory before being promoted to associate professor in 1968. His research centered around lubricants, fuels and related materials.

Mattha W. Stouffer retired June 30 from her position as secretary in the College of Human Development. Mrs. Stouffer began her University employment in 1962 as a secretary for the Department of Family Housing and Home Art. After two years, she transferred to the office of the associate dean for research. In that position, she was responsible for the handling of proposals, contracts, and records.

Mrs. Stouffer and her husband, Homer, who is retired from a position with the Pennsylvania Railroad, have no formal plans for the days ahead. However, they are both avid campers and hope to do some traveling and possibly look for a warmer

climate in the winter months. Mrs. Stouffer also plans to occupy her time with needlework and volunteer work.

Mr. and Mrs. Stouffer reside in Tyrone.

Virginia K. Henning, a secretary in the College of Education since Oct. 1, 1966, retired June 30.

C. Paul Cowher, a mechanic with Housing and Food Services, retired June 28 after serving on the staff since Jan. 23, 1967.

Obituaries

Rev. Rockwell, an assistant professor of music when he retired in 1973, died June 25 at the age of 72. A native of Clearfield, Mr. Rockwell attended the New England Conservatory of Music and earned a B.S. in electrical engineering at Penn State in 1935. He joined the faculty as an instructor in 1952, teaching wind instruments and serving as staff piano technician. He was promoted in 1972.

J. Neil Grey, a supervisor with University Safety, died June 30 at age 55. He served as

a campus patrolman from 1964-66 before being promoted.

Anna R. Daley, a residence hall worker with Housing and Food Services, died June 27. She was 51 and had been on the staff since 1974.

Esther B. Davidson, a Housing and Food Services employee from 1957 to 1972, died June 27. The Madera, Pa., native was 73. She had been a salad woman, a linen room worker and a counter attendant during her years at the University.

The pace seldom slows for Records Office staff members (from left) Pat Peters, Dwight Huster, Jeanne Snyder, and Janice Ludwig.

Keeping alumni records up-to-date is their job

The letter from the Hackettstown, N.J., police chief said his department had recovered a stolen 1970 Penn State class ring with the initials RAP.

It didn't take staff members in the Alumni Records Office very long to solve the problem. Using their new "on-line" system, connected to the University computer where all alumni records are now stored, they retrieved a three-page print-out of graduates with those initials from the classes of 1969-71. One happened to live in South Orange, N.J.; a phone call ascertained the owner's loss and told him how to get his ring back.

"We've been quite successful in locating owners of lost class rings and we're happy to do it," says Dwight A. Huster, assistant executive director for alumni services and administrator of the Alumni Association's records office. "We try to do anything we can to keep the University and its alumni in contact with each other."

"Basically, though, our function is maintaining and updating records of Penn State's 235,000 alumni and creating those records for new graduates, who come out of the University system at the rate of about 11,000 each year. We have active

addresses and data for nearly 190,000 alumni. Another 24,000 are currently 'lost' — we're constantly trying to track them down — and nearly 15,000 are deceased."

The workload attendant to that process requires five other full-time staff members: Earnestine Turner, alumni records specialist; Pat Peters, membership recorder; and Jeanne Snyder, Jacki Pillot and Janice Ludwig, data preparation operators.

With the mid-March advent of its on-line system and six cathode-ray tube terminals, they have been making the transition from the former microfilm/microfiche system for accessing alumni records.

"Actually, it's going pretty smoothly," Jeanne Snyder assesses. "The electronic system is much easier to use. It has eliminated the keypunch work we had to do before, as well as all the hand-filing. We still spend our days entering changes or making new records, but the new system makes the work go much faster."

"All we do to retrieve an alumni record is turn on the terminal, punch in the name or code, and it appears within 10 seconds. We can then update or correct it

immediately, with much less chance for error because we're watching our work on the screen."

Changes in alumni records filter into the office in a variety of ways: from the campuses, from academic departments and colleges, from letters or phone calls from alumni, and especially from fund-raising campaigns conducted by the Office of Gifts and Endowments. For alumni who move without notifying Penn State, the office has an arrangement with the U.S. Postal Service to supply forwarding addresses.

"In the event we lose contact with alumni, we take several steps," Earnestine Turner says. "First, we try to contact them by phone. Then we contact their reference or last place of employment. If that doesn't work we send a postcard as a 'tracer' to the last address, and the Post Office responds with the new one, if that's available. That's how we keep the vast majority of our alumni out of the inactive file."

Alumni records contain information beyond name and address, but nothing that could be considered personal or evaluative. They include year of graduation, major, college, and undergraduate or graduate degrees earned elsewhere. Some files hold a graduate's student activities. Occupational and family information is also included, as is a contact person beyond the immediate family. Membership in the Alumni Association — to which 49,000 Penn State graduates belong — is listed along with any financial contributions to Alma Mater.

"Updating this information is a continuous process all year long — no valleys, just one big peak," Ms. Turner notes. "In terms of letters and calls from alumni, however, our busiest time is immediately before football season. I imagine they want to make sure their data is current so they can be certain of getting tickets or the Football Letter. We also receive many calls from alumni who want to know the whereabouts of former classmates."

"But no matter how the information is gathered, we can now make the changes right away," she stresses. "Formerly, the method was to accumulate the changes for a two-week period before entering it on punched cards and seeing it in microfiche."

Creating records for new graduates is

Alumni records specialist Earnestine Turner.

Maria Russo, technical secretary C, ARL; Lucy Shuey, secretary C, Admissions; Jean Smith, secretary B, IRP; Vickie Spadaccio, accounting clerk, IRP; Cynthia Tyler, secretary C, Library; S. Jane Uhrin, clerk typist, Science; Nancy Williams, secretary A, President's Office.

Nineteen staff employees of the University have graduated from an Oral Communications/Talking With People Course.

Designed to help participants learn the basic principles of effective communication, the course provides opportunities for inter-personal communication, interviewing, and public speaking in both in-class and out-of-class settings.

Those graduating were:

Charles Auker, operations supervisor, IRP; Norm Brown, housekeeping supervisor, Housing & Food Services; Louise Ford, supervisor, office and accounting, Physical Plant; Robert Gawryla, electronics/electrical engineer, Physical Plant; Steve Heister, senior benefits specialist, Personnel Administration; Ardath Johnson, supervisor, office & accounting, Physical Plant.

Dorothy Korman, assistant budget supervisor, Continuing Education; David Martin, management trainee, Physical Plant; Nancy Morgan, supervisor, office & service desk, Physical Plant; Dollie Neff, supervisor, medical records, Ritenour; Tony Rebuck, senior mechanical/electrical engineer, Physical Plant; Bernard Resnick, director of housing & food services for Commonwealth Campuses, Housing & Food Services.

Thomas Rodkey, scheduler/planner, service desk, Physical Plant; William Rose, management trainee, Physical Plant; Margaret Shaw, housekeeping supervisor, Housing & Food Services; Dean Sholl, business manager, Continuing Education; Trudy Smith, administrative assistant to the dean, Business Administration; Richard Trufant, engineering aide, ARL; Harlan Berger, science aide, IRP.

Retirements

Dr. E. Willard Miller, professor of geography and associate dean for resident instruction in the College of Earth and Mineral Sciences, has retired after serving 35 years on the Penn State faculty. He has received emeritus rank as professor and associate dean.

Dean Miller joined the staff in 1945 as an associate professor and chief of the then Division of Geography. In 1949, he was made professor of geography and, in 1953, was named head of the newly created Department of Geography, a position he held until 1963. In 1964, he became assistant dean for resident instruction in the College and, in 1972, associate dean.

He has received a number of honors during his career. In 1945, he was awarded the Certificate of Merit from the Office of State Services. In 1950, he received the Ray Hughes Whitbeck Award for the outstanding article in economic geography in the *Journal of Geography*. In 1975, the Governor of Pennsylvania presented him a Citation for Service to the Commonwealth, and the Secretary of the Pennsylvania Department of Commerce presented him the Secretary's Meritorious Services Award. In 1976, he received the Outstanding Science Award of the Pennsylvania Academy of Science and the Distinguished Service Award of the Pennsylvania Council for Geographic Education.

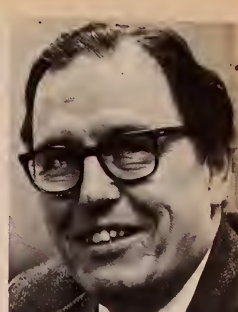

Dr. Miller is a Fellow of the American Association for the Advancement of Science, Explorers Club, American Geographical Society, and the National Council for Geographic Education, and is an honorary member of the Pennsylvania Academy of Science. He has published more than 80 articles and has presented more than 100 papers at professional meetings.

Professor Zaffaroni

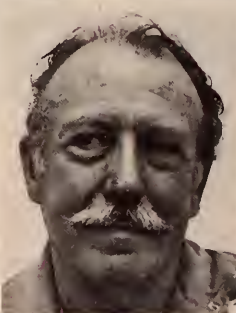

Dean Miller

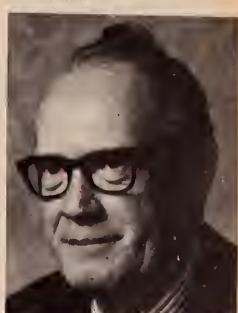

Professor Ascal

Professor Carroll

Professor Holtzman

Dean Brewer

The 13 books which he has authored or co-authored include: *The World's Nations* (with George F. Deasy and Phyllis R. Greiss); *A Geography of Manufacturing*; *A Geography of Industrial Location*; *A Socio-Economic Atlas of Pennsylvania*; *Manufacturing: A Study of Industrial Location*; *Industrial Location*; *A Bibliography* (with Ruby M. Miller); and *Economic, Political, and Regional Aspects of the World's Energy Problems: A Bibliography* (also with Mrs. Miller.)

Dr. Miller will continue his research at the University following his retirement. He and Mrs. Miller plan to spend part of this summer in China and Japan. During that trip, he will present a paper at the International Geographical Congress meetings in Tokyo.

Dr. A. Madison Brewer, professor of education and associate dean for teacher education and undergraduate studies in the College of Education, retired June 29 with the ranks of professor emeritus and associate dean emeritus.

Dean Brewer has been at Penn State since 1960, when he was appointed head of the Department of Elementary Education. He was named associate dean in 1969.

Prior to coming to the University, Dean Brewer had served as an elementary classroom teacher and principal, as director of the Laboratory School at Eastern Washington College, and as chairman of the Department of Elementary Education at the University of Nebraska.

A native of Plaza, Washington, Dean Brewer earned his B.A. at Eastern Washington College and his M.A. and D.Ed. at Northern Colorado University.

He has been active in international education during his tenure at the University, assisting with the Latin American regional training program for elementary principals and Ministry of Education personnel from Central and South American countries. He served on a three-member commission which evaluated teacher education institutions and public elementary education in the Dominican Republic. Working with Dr. Joseph Alessandro and the Office of International Programs, he helped develop specialized foreign studies programs for Penn State's elementary

education majors in the Panama Canal Zone, Mexico, Brazil, Chile, and most recently with the College of St. Hild and Bede in Durham, England.

A consultant to school districts and state education departments, both in Nebraska and Pennsylvania, Dean Brewer was president of the Pennsylvania Association of Colleges for Teacher Education and is currently serving as president, Confederation of Pennsylvania

Associations for Teacher Education. He served as chairman of the Publications and Teacher Education committees, Association of Childhood Education International. He recently concluded a two-year term as a member of the advisory committee of State Representatives for the American Association of Colleges for Teacher Education.

His research and writing activities have focused primarily on the areas of language arts, teacher education, and curriculum.

He and his wife, Roberta, plan to continue their residence in State College.

Paul Holtzman and his wife, Ingrid, have chosen to live in San Francisco following his retirement June 30 as professor emeritus of speech communication. But they could have gone almost anywhere in the world and found friends.

Dr. Holtzman's role as founder and volunteer director for 17 years of the Language Testing Service has given him personal contact, often leading to lasting friendships, with every international graduate student who comes to Penn State. Dr. Holtzman also initiated and for nine years directed the Japanese Teachers Program, which brings Japanese teachers of English to study at the University for four weeks every summer.

When Dr. Holtzman and the late Richard Spencer established the Language Testing Service in 1961, TOEFL, the Educational Testing Service's widely used Test of English as a Foreign Language, did not yet exist. They had to design not only tests, but also an entire examination system, which has since been evaluated and revised on a continuing basis.

All international graduate students are tested, and those whose English is deficient are required to enroll in courses in English as a second language. Dr. Holtzman also

has played a major role in the design and teaching of those courses.

In addition to his work with international students, Dr. Holtzman has served as parliamentarian of the University Faculty Senate for the past seven years. He directed the Department of Speech Communication's teaching internship program from 1959 to 1970 and helped found and served as president of the Penn State Federal Credit Union.

He has been a visiting professor at SUNY Albany, Temple University, Bernard Baruch School of Business (CCNY) and the University of Hawaii. "A former editor of the *Journal of Communication*, he was executive secretary and president of the Eastern Communication Association and president of the Speech Communication Association of Pennsylvania.

Before joining the Penn State faculty in 1957, he was affiliated with San Francisco State University and Queens College of CUNY. He is a graduate of Louisiana State University and holds M.A. and Ph.D. degrees from the University of Southern California.

William M. Carroll, professor of agricultural economics extension, retired June 30 with 26 years of service. He will hold emeritus rank.

As Extension specialist, he was involved in public affairs education, showing citizens how to review the alternatives open to them when approaching issues of local, state, and national concern.

A native of Massachusetts, he earned B.S. and M.S. degrees in agricultural economics at Penn State. Prior to his appointment to the faculty in 1954, Mr. Carroll worked for the Greater Philadelphia Movement and U.S. Department of Agriculture.

He developed and conducted educational programs relating to such issues as nuclear energy, agricultural chemicals and the environment, land use and taxation, and agricultural policy. In 1955, he initiated "Farm Economics" as a monthly publication of the Department of Agricultural Economics and Rural Sociology. During the past 25 years, more than four million copies have been

HUB Gallery: CPFA, Pennsylvania painters, and Art Alliance juried members' show.

Kern Gallery: CPFA, juried prints and drawings and hand made paper.

Museum of Art: selected works from the permanent collection; Sidney Goodman, paintings, drawings and graphics, 1959-1979; CPFA, juried crafts. Special hours during Arts Festival (July 10-13), noon-8 p.m.

Pattee Library: Mary C. Rubinstein, illustrations from the works of Joseph Conrad and Jerry Kosinski, Main Lobby. Corita Kent, serigraphs, East Corridor Gallery. Laura Deyarmin, easel paintings, Lending Services Lobby.

Visual Arts Zoller Gallery: CPFA, juried photography exhibit.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Personnel Office for filling. This announcement is made to that all University employees who are interested in promotion may apply by calling the Employment Office, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until July 11, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance, regardless to race, color, ethnic origin, national origin, handicap (as provided by law), or status as a disabled or Vietnam era veteran.

PRODUCER/DIRECTOR - COLLEGE OF AGRICULTURE, University Park. Serve as producer and coordinator of daily operations in audio and video taping in studio and on location in field and laboratory on assigned projects. Keep abreast of the various forms of audio-visual equipment applicable to extension and college needs to assure correct purchase and replacement of equipment. Produce and host video tape and film or live features of a special nature for "Newsworld," "Extensions" and "PS Radio."

Produce various materials for audio-visual presentations with college faculty and special guests for use with specific groups of extension program participants, students state and federal agencies.

Control with, advise and teach faculty, county workers and related professionals in proper selection, operation and application of various items of television and audio-visual equipment. Write, rewrite and edit materials for radio and television use. Bachelor's degree (or equivalent) in broadcast, journalism, speech, mass communications, or similar disciplines, plus one to two years of effective experience in radio and/or television performing, programming, or teaching that have a relationship to Cooperative Extension Service objectives, philosophy, and public services. Master's degree highly desirable.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS - STUDENT AFFAIRS, New Kensington. Responsible to the Dean of Student Affairs for the administration and coordination of various functions within Student Affairs' operations at the New Kensington Campus, primarily student activities and financial aid. Participates in the delivery of service and conducts aspects of other programs of Student Affairs including: recruitment, orientation and

other general areas of Student Affairs. Master's degree in student personnel administration, counseling or related field, plus one year related experience or a bachelor's degree and two or more years of effective experience.

APPLICATIONS PROGRAMMER/ANALYST, Capital Campus. Consult with academic users concerning programming problems. Conduct analyses of data processing and customer problems, determine detailed requirements to solve problems, formulate logical statements of systems problems, and prepare computer programs to satisfy end results. Bachelor's degree or equivalent in basic computer systems or related field and one to two years of experience in computer programming and analyses required.

COLLEGE HEALTH NURSE - INPATIENT & EMERGENCY - BITENOUR HEALTH CENTER, University Park. Provide general nursing care to inpatient. Gather information and trace patient through Emergency Room. Answer telephone and provide information. Maintain medical supplies and records. On a night month assignment. Graduate of an accredited nursing program and current licensure in Pennsylvania as a registered nurse, plus six to nine months of effective experience.

ADMINISTRATIVE AIDE - OFFICE OF STUDENT AID, University Park. Responsible to the Assistant Director of Student Aid for providing administrative assistance with Student Aid program, including assisting students with financial aid matters and assuming responsibility for many aid administration functions. Prepare routine and specific correspondence for a broad range of financial aid programs and services. A bachelor's degree or equivalent, plus administrative experience in an area applicable to aid administration are required.

PUBLICATION DESIGNER/GRAPHIC ART - COLLEGE OF MEDICINE, Hershey. Responsible to the Medical Illustration for the creation and production of graphic work as related to print media. A bachelor's degree with an art major or equivalency, plus one or two years of effective experience in professional graphics with knowledge of the full range of reproduction and printing techniques.

EDITOR - DEPARTMENT OF PUBLICATIONS, University Park. Responsible for copyediting a variety of University publications and for overseeing proofreading through all production phases. Work with clients, production personnel, and graphic designers to maintain editorial standards and to keep proofs moving within production schedules. Train and supervise proofreaders. Bachelor's degree or equivalent, and a minimum of one to two years of experience in editing, publishing and related fields.

BUDGET PLANNING ANALYST - OFFICE OF PLANNING AND BUDGET, University Park. Responsible to the Associate Director for Budget Development and Operations and the Manager of Budget Planning and Development, position involves conducting assigned research in preparation of data analyses and position papers, assistance in the preparation of the University's annual appropriation and capital program request, assistance in cost analysis activities, participation in preparation of appropriations hearing materials, review and analysis of program budget planning materials, and performing other duties as assigned by the Director or Associate Director of the Office of Planning and Budget and the senior executives of the University. A bachelor's degree or equivalent in business or public administration, accounting, economics, or related field, and from one to two years of effective experience are required.

A master's degree or equivalent in any of the above fields may be substituted for one year of effective experience. THIS IS A FIXED-TERM 1 POSITION

BUDGET OPERATIONS ANALYST, OFFICE OF PLANNING AND BUDGET, University Park. Responsible to the Associate Director for Budget Development and Operations and the Manager of Budget Operations and Control, position involves assisting in continuous monitoring of plans and

budgets of one or more major program areas of the University, assisting in developing comparative data for the evaluation of program budget needs and other elements of budgeting, developing data and analysis for incorporation in reports, reviewing and recommending appropriate action on fiscal year operating budgets, and performing such other staff functions as may be requested by the Director or Associate Director of the Office of Planning and Budget and the senior executives of the University. A bachelor's degree or equivalent in business or public administration, accounting, economics, or related field, and from two to three years of effective experience are required. A master's degree or equivalent in any of the above fields may be substituted for one year of effective experience.

ASSISTANT DIRECTOR FOR STUDENT AFFAIRS, Schuylkill Campus. Serve as Chief Student Personnel Officer and responsible to the Director of the Campus for the organization, administration, and coordination of the Student Affairs program, services, staff, and personnel. Master's degree in area related to student personnel administration, plus three to five years of effective professional experience are required. Doctorate or near doctorate status preferred, but not required.

Alumni records

(Continued from page 4)

another process soon to be transformed. Currently, the records are begun at graduation, with Earnestine Turner personally checking each student's degree information against the corrected commencement program to ensure accuracy. Soon, new records will be started while the prospective alumni is still a student.

"It's increasingly important that we have current information on hand at all times, because other offices - particularly Gifts and Endowments - and colleges rely on us to supply it for mailings," Mr. Huster says. "Under the old system, the two-week time lag could pose a problem in that respect."

"We also provide specialized mailing lists to University and University-related organizations for a nominal fee," he says. "If we hadn't increased our capacity for updating alumni records, we eventually would have been overwhelmed because our alumni body is growing so quickly now," he points out. "Consider that in Penn State's 125 years, the median year of graduation for our 235,000 alumni is 1970, in other words, 117,500 alumni have graduated since 1970."

Despite the rapid increase in alumni, the records office staff has not increased its staff since 1970, nor does it plan to, Mr. Huster adds. "The on-line system is making it possible to keep our staff at a minimum. Although there's a much greater volume of work, it can be handled much faster."

A report from President Oswald on the 1980-81 operating budget

After full discussion of the 1980-81 University budget at the May meeting of the Board of Trustees, the Board approved an operating budget which included, on the income side, a 10.5 percent increase in tuition. It further assumed that the income from the state would be at the level recommended by the Governor — a 5.8 percent increase over last year's appropriation. Actually, the increase was 6 percent of all line items in the budget, with the exception of medical education and student aid. The Trustee-approved budget included salary increments for 1980-81 for faculty and staff members, and other necessary expenditures.

At that time no budget action had been taken by the General Assembly of Pennsylvania. In early June, the state budget supporting the preferred or basic activities of the state was adopted and later signed into law. As to higher education, the state budget included support for the state-owned and community colleges, with an increase of 6 percent.

Following final action on the state budget in mid-June, there yet remained the consideration of the many non-preferred budgets, approval of which, in total, required approximately \$330 million in funding. There was no question in the minds of the people who were dealing with

budgetary matters — and most certainly not in the minds of those of us who had a major interest in them — that sufficient funds would be available to support the \$330 million in non-preferred appropriations. Of this amount, Penn State's share represents \$127 million.

The next phase in the legislature was consideration of the Penn State appropriations bill, along with the other non-preferred institutions and agencies. Our bill, at the \$127 million level recommended by the Governor, was passed by the House of Representatives 187-2 late in June. In early July, it was passed unanimously by the Senate, 48-0. In the 10

years that I have been at the University, this was the highest single vote majority I have witnessed for a Penn State appropriation bill. The overwhelming votes in both houses were clear indicators of positive support expressed by the General Assembly toward Penn State.

After the votes in favor of our appropriation, we felt that the bill would flow through channels and be signed by the Governor without any problems — always assuming that sufficient funds would be available to cover the non-preferred bills. Legislative and executive leadership, as I understand, also both

Penn State Intercom

From the Trustee Docket

Kansas State administrator named Behrend dean

Dr. John M. Lilley, assistant dean of the College of Arts and Sciences at Kansas State University, has been appointed dean of Behrend College, effective Aug. 1.

Dr. Lilley will become the chief executive and academic officer at Behrend with full responsibilities for all programs and administration at the College. He also will hold the faculty rank of professor of music and humanities.

"Dr. Lilley's rich background in the humanities and his extensive administrative experience make him very well qualified to lead Behrend in the 1980s," President Oswald told the Trustees. "I am pleased to recommend him for this crucial position in the Penn State system."

A teacher, conductor and writer, as well as an administrator, Dr. Lilley, who is 40, has been assistant dean and associate professor of music at Kansas State since 1976.

From 1966 until 1976, he was a faculty member of the Claremont Colleges, a cooperative program including the Claremont Graduate School and Claremont Men's, Harvey Mudd, Pitzer and Scripps Colleges. In addition to teaching, he served as assistant dean of faculty at Scripps from 1973 until 1976.

A graduate of Baylor University with a bachelor of music education degree in 1961, Dr. Lilley also holds a bachelor of music and a master of music from Baylor. He was awarded a doctor of music arts degree from the University of Southern California in 1971. In 1978, he earned a certificate from the Harvard Institute of Educational Management.

As a conductor of chorus and orchestra,

Dr. Lilley has performed the works of numerous major composers; and he has also presented the premieres of new works by such American composers as Gail Kubik, whose authorized biography he is currently preparing.

Trustees thank Oswalds for 10 years of service

Meeting July 11-12 at the Mont Alto Campus, Penn State's Board of Trustees passed the following resolution:

WHEREAS, President and Mrs. John W. Oswald have completed ten years of dedicated service at The Pennsylvania State University; and

WHEREAS, During this decade they have contributed greatly, through their shared responsibilities, and by giving unselfishly of their time and talents to the continued development of the service and prestige of this institution,

THEREFORE, BE IT RESOLVED, That we, the members of the Board of Trustees, extend our wholehearted appreciation and thanks to John and Rose Oswald on this, their tenth anniversary at Penn State.

National Public Radio affiliated station approved

The establishment of a National Public Radio affiliated station to serve central Pennsylvania was authorized by the Trustees. Approval was given for Penn State to apply to the Federal Communications Commission for a preliminary permit and station license.

If the application is approved by the FCC, the station at University Park could be on the air within two years, according to Dr. Richard E. Grubb, senior vice president for administration.

"The station would operate within the context of Broadcasting Services, a unit of Continuing Education, which already has responsibilities for the operation of public television station WPSX-TV," he said.

No new University general funds will be allocated for this purpose, Dr. Grubb noted.

National Public Radio (NPR) affiliates already exist in Philadelphia, Scranton, Hershey, Pittsburgh and Erie, operating within organizations established for each community's public television station.

"For more than a decade, there has been strong interest at the national, state and local level for the University to establish

such a station to provide quality programs in central Pennsylvania," Dr. Grubb said.

"Preliminary technical and financial feasibility studies within the University indicate that the circumstances are right to move ahead with the station with the understanding that no new general funds would be committed to it but that the financing would come from private and public sources."

A number of agencies, including NPR, the Corporation for Public Broadcasting and the National Telecommunications Information Agency of the Department of Commerce, offer grants for planning and operating public radio stations. In addition, foundations and several major industries provide funds to NPR affiliates.

The proposed station would be entirely separate from WDFM, the existing student-operated educational radio station.

"WDFM has a rich history, a long tradition, and a strong loyalty among the students," Dr. Grubb said, "and should not be disturbed in attempting to achieve the educational benefits which a public radio station can bring to the University and central Pennsylvania."

Penn State, he commented, has been active in radio broadcasting since the early

Penn Staters

Three Penn State faculty members have received Fulbright awards.

Dr. Alice Schwartz, professor of art education, was granted an award to do research on art appreciation in Korea. She will be based at the Korean Educational Development Institute in Seoul. Dr. Schwartz, a member of the faculty since 1965, earned her M.F.A. and B.F.A. degrees at the University of Kansas and her D.Ed. at Penn State.

Dr. Adam J. Sorkin, assistant professor of English at the Delaware County Campus, has received a Fulbright award to teach American literature at the University of Bucharest, Romania, from September 1980 through June 1981. Dr. Sorkin, a graduate of Cornell University, earned his Ph.D. at the University of North Carolina. He taught at Bluefield (West Virginia) State College, Drexel University, and the University of Illinois prior to joining the Delaware County Campus in 1978.

Stanley R. Hunter, a research assistant in agricultural economics and rural sociology, received a Fulbright to lecture and conduct research at Kyunghee University in Seoul. A doctoral candidate at Penn State, he holds a B.A. from Westmont College and an M.S. from North Carolina State University.

Dr. William Steele, professor of chemistry, has been named one of four associate editors of the *Journal of Physical Chemistry*, a publication of the American Chemical Society.

Dr. David C. Williams, an assistant professor in the Division of Education Policy Studies, presented a paper on adult education and national development in the Commonwealth Caribbean at the 2nd annual meeting of the Association for Caribbean Studies in Nassau, the Bahamas, this week.

Dr. Jack H. Willenbrock and Dr. H. Randolph Thomas, associate and assistant professors of civil engineering, respectively, are editors of a recent book, *Planning, Engineering, and Construction of Electric Power Generation Facilities*.

Published by John Wiley & Sons of New York, the book provides professionals and students with comprehensive, current, and practical knowledge about power plant construction. It is part of the Wiley Series in Construction Management and Engineering.

Dr. Willenbrock is also a contributing author of the volume. Other Penn State contributors include Gordon E. Robinson, associate professor of nuclear engineering; Frederick C. Haaser, a graduate student in nuclear engineering; and Carl H. Wolgemuth, professor of mechanical engineering.

Staff Development

Seventeen clerical employees of the University have completed an eight-week Writing Skills for Secretaries/Clericals program. They are:

Janice Brown, secretary, ARL; Vickie Gerontinos, secretary, ARL; Dorcas Holt, secretary, Human Development; Mary Husband, secretary, Graduate School; Jenny Kitch, secretary, UDIS; Linda Lucas, technical secretary, ARL; Suzanne Maehron, clerk typist, Continuing Education; Janis Marshall, secretary, Agricultural Administration; Kathleen Matson, secretary, Human Development; Kimberly McCartney, receptionist-typist, Human Development; Angie Pavone, secretary, Housing and Food Services; Shirley Rader, secretary, IRP;

Joan Reish, statistical drafting clerk, Planning and Budget; Barbara Robinson, secretary, Liberal Arts; Sandra Rogus, secretary, Undergraduate Admissions; Barbara Thwaites, secretary, Continuing Education; Margaret Wenrick, secretary, Human Development.

Dr. Paul T. Baker, professor of anthropology, has been named head of the Department of Anthropology. He succeeds Dr. Warren T. Morrill, who had asked to return to full-time teaching and research.

Dr. Baker, who was elected to membership in the National Academy of Sciences this Spring, is widely known for his research in the Peruvian Andes on the adaptation of human beings to high altitude.

He has written extensively on that subject and edited the following books: *The Biology of High Altitude Peoples* (Cambridge University Press, 1978); *Man in the Andes: A Multidisciplinary Study of High Altitude Quechua* (Dowden, Hutchinson and Ross, 1976); and *The Biology of Human Adaptability* (with J.S. Weiner, Clarendon Press, 1966).

These publications draw heavily on research undertaken in the International Biological Programme, a 10-year international research effort. Active in planning for that enterprise, Dr. Baker served as international coordinator of high altitude studies and as a member of the executive committee of the U.S. program.

His most recent research examines the effects on native Samoan populations of migration to modernized areas.

Dr. Baker is a past president of the American Association of Physical Anthropologists and the Human Biology Council, and is a co-founder and current president of the International Association of Human Biologists.

He is a fellow of the American Anthropological Association and the American Association for the Advancement of Science.

In 1962, Dr. Baker was a Senior Fulbright Research Scholar in Peru and a Fulbright Lecturer in Brazil. In 1968, he was a NATO Senior Science Fellow at Oxford University; and in 1974, he was awarded a Guggenheim Fellowship. Dr. Baker was the physical anthropology editor for the Addison-Wesley Series in Anthropology from 1970 to 1975, and for *American Anthropologist* from 1973 to 1976. He served as film editor for the *American Journal of Physical Anthropology* from 1970 to 1972. Since 1969, he has been a member of the editorial board of *Human Biology*.

Dr. Baker has played a major role in developing Penn State's doctoral program in anthropology and has designed courses for Continuing Education and for television. He holds a B.A. from the University of New Mexico and a Ph.D. from Harvard University.

Retirements

Dr. Donald H. Petersen, professor of plant pathology Extension, retired June 30 with 12 years of service. His primary responsibilities have been in assisting county Extension agents with educational fruit disease programs in the Commonwealth.

Dr. Petersen received his B.S. and M.S. from Michigan State University and a Ph.D. from Clemson University, all with a major in plant pathology. Prior to being appointed to the faculty in 1968, he was employed for 18 years by the Agricultural Research Service of the U.S. Department of Agriculture.

S. Glenn Ellenberger, Lehigh County senior Extension agent, retired July 15 after 34 years of service.

He joined the Extension Service staff in 1946 as assistant Somerset County agent, was promoted to Lehigh County agent in 1951, and in 1975 was one of four persons in the State promoted to the newly established rank of senior Extension agent.

Mr. Ellenberger earned his B.S. in agronomy from Penn State in 1940. During World War II, he was a B-17 pilot and was awarded the Distinguished Flying Cross.

A national leader in providing assistance to the potato grower, Mr. Ellenberger was active in 4-H affairs, for 20 years chairing the Tri-County 4-H Baby Beef and Lamb Show and Sale. He helped promote farm-city unity through television programs and led the State into a different type of testing program in corn production.

Mr. Ellenberger has received numerous awards, among them the Master Educator Award of the Pennsylvania Association of Farmer Cooperatives and a Distinguished Service Award from the national county agents association. He served as president, vice-president and secretary-treasurer of the Pennsylvania Association of County Agricultural Agents.

Obituaries

Dr. Francis P. Callahan, an associate professor of industrial engineering at the Radnor Center and a faculty member since 1969, died July 2. He was 64. Dr. Callahan worked in the mathematical analysis department at General Electric before coming to Penn State. He held a B.S. from Fordham University, an M.A. from Columbia University, and a Ph.D. from the University of Pennsylvania.

Clarence D. Kline, a food preparer with Housing and Food Services, died July 7. Mr. Kline, a DuBois native, was 65. He worked as an assistant cook from 1964 to 1970, retiring in 1977.

Harold H. Johnson, associate professor of general engineering at Mont Alto, died July 6 at the age of 56. A long-time member of the University Faculty Senate, Professor Johnson joined Penn State in 1963 upon his retirement after 20 years of service with the U.S. Navy, Marines and Air Force. He held a B.S. from the University of South Carolina.

Funding Sources

For further information, call 865-1372.

(339-1) The National Science Foundation program Industry/University Cooperative Research (CIRA, 17.054) has been funded for FY80. Researchers in both industry and academe will be encouraged to communicate and cooperate through this program. Proposals are to be prepared and submitted jointly. Proposed research should focus on fundamental scientific and engineering questions of a basic or applied nature and make a long-term contribution toward product or process innovation or improved technology information. Proposals are expected to range from \$50K to \$100K per year, averaging \$100K NSF R01-31 is available. The agency contact is 202-357-7784. Ref: CFDA added programs.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been identified by the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 472-1387). Applications for these staff vacancies will be accepted until 5 p.m., July 24, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

FINANCIAL AID COORDINATOR - PHEAA - OFFICE OF STUDENT AID, University Park. Responsible to the Assistant Director of Student Aid for providing information and problem resolution services to undergraduate and graduate students and for assisting in internal administration of financial aid programs. Coordinates and maintains liaison with the Pennsylvania Higher Education Assistance Agency with regard to the PHEAA Grant Program, as well as the other non-Pennsylvania State Grant Programs. Master's degree or equivalent in student personnel services, counselor education, or related fields, plus one year of effective experience, required.

ASSISTANT TO THE DEAN OF STUDENT AFFAIRS, Behrend College. Responsible to the Dean of Student Affairs for the administration and coordination of the financial aid and job placement programs. Position requires a master's degree in student personnel or related field with up to one year of directly related experience, or a bachelor's degree plus one to two years of directly related experience.

APPLICATIONS PROGRAMMER/ANALYST - INTERCOLLEGE RESEARCH PROGRAMS, University Park. Will be responsible for the Computer Center's on-line program libraries. This includes the acquisition, modification, and installation of language compilers, and programming packages. Will supervise graduate student and detail employees in order to carry out these duties. Will also work with other members of the Applications Group developing and maintaining utility programs which are used in supporting the group's function of providing user services to research faculty. Master's degree (or equivalent) in computer science, plus six to nine months of effective experience or bachelor's degree (or equivalent) in computer science plus one to two years of effective experience. Requires strong programming ability in two languages (including Fortran), plus good knowledge of operating system facilities.

There are positions in certain work units that, because of the large number of such positions, frequently are still available after employees in the work unit have been considered. They are listed below and will not be listed on an individual vacancy basis. Applications in such positions may be made at any time, and you are welcome to make your interest known now to the Employment Division for future consideration when such vacancies occur. These positions are:

POSITION TITLE	LOCATION
Assistant Coordinators	Student Affairs
Assistant Food Supervisors	Housing and Food Services
Computer Operators	IRP
Shifts are: 8 a.m. to 4:30 p.m.; 4:30 p.m. to 1 a.m.; 12 midnight to 8 a.m.	
Programmers	Management Services
Residence Hall Area Coordinators	Student Affairs
Cardiology Technicians	Hershey
Clinical Laboratory Assistants	Hershey
Clinical Laboratory Technologists (HEW)	Hershey
Critical Care Monitoring Technicians (Dr. & Sr. Levels)	Hershey
Cytotechnologists	Hershey
Licensed Practical Nurses	Hershey
Medical Technologists (CLIA, MLT, CLT-HEW)	Hershey
Nuclear Medical Technicians	Hershey
Perfusionists	Hershey
Pharmacists	Hershey
Physical Therapists	Hershey
Physician's Assistants	Hershey
Psychiatric Assistants	Hershey
Radiologic Technicians	Hershey
Research Technicians (Dr. & Sr. Levels)	Hershey
Respiratory Therapy Technicians	Hershey
Staff Nurses	Hershey

Calendar

July 17-27 Special Events

Thursday, July 17

Drop deadline, pass/fail and course repeat deadline for 8 week Summer Term.
Festival Theatre, Eugene O'Neill, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Friday, July 18

Commonsplace Theatre, *Steelyard Blues*, 7 and 9 p.m., Room 112 Kern.
Spectrum, Crystal Gable, 7 and 9:15 p.m., Eisenhower Auditorium.
Interlandia, folk dancing, 7:30-11 p.m., HUB Ballroom patio (rain, HUB Game Room).
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
HUB Movies, *Bonnie and Clyde*, dusk, HUB Lawn (rain, HUB Ballroom).
Astronomy Club Open House, 9 p.m., sixth floor, Davey. Cloud date, July 19.

Saturday, July 19

Shaver's Creek Nature Center, children's program, 9:30-11:30 a.m., Stone Valley, 865-1851 for further information.
France-Cinema, *Wertmuller, Seven Beauties*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Euploganza film, *Singin' in the Rain*, dusk, Fisher Plaza.

Sunday, July 20

Deadline for registration for second session classes, HUB Craft Center, Room 312 HUB.
Festival Theatre, *Ah, Wilderness!* 7:30 p.m., The Pavilion Theatre.

Monday, July 21

ASA, Backgammon Tournament, 7 p.m., HUB Ballroom patio.
France-Cinema, *Seven Beauties*, 7 and 9 p.m., Room 112 Kern.
Coke Side Club meeting, 7:30 p.m., Room 189 MRL.

Tuesday, July 22

Euploganza concert, Marengo, 7:30 p.m.,

Ohio Ballet dancers

Fisher Plaza.
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Wednesday, July 23

Commons concert, Aileen Bordman, noon, Kern Lobby.
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Thursday, July 24

Math Colloquium, Ross Geoghegan, SUNY-Binghamton, "Shape - Some Good Ideas in a House of Ill Repute," 4 p.m., Room 102 McAllister.
Festival Theatre, theatre music by Jerome Kern, *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse; *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Friday, July 25

Commonsplace Theatre, *Five Easy Pieces*, 7 and 9 p.m., Room 112 Kern.

Interlandia, folk dancing, 7:30-11 p.m., HUB Ballroom patio (rain, HUB Game Room).
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre; *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.
Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.
HUB Movies, *Willard*, dusk, HUB Lawn (rain, HUB Ballroom).

Saturday, July 26

France-Cinema, *Truffaut, 400 Blows*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre; *Can't Help Lovin' Dat Kern*, 8 p.m., The Playhouse.
Spectrum, Ohio Ballet, Heinz Poll, artistic director, 8 p.m., Eisenhower Auditorium.
Euploganza film, *The Graduate*, dusk, Fisher Plaza.

Sunday, July 27

Commonsplace Theatre, *Five Easy Pieces*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *Ah, Wilderness!* 7:30 p.m., The Pavilion Theatre; *Can't Help Lovin' Dat Kern*, 7:30 p.m., The Playhouse.

Exhibits

Chambers Gallery: Central Pennsylvania Festival of the Arts (CPFA), children's art exhibit, through July 23.

HUB Gallery: CPFA, exhibit by famous Pennsylvania painters; Art Alliance, juried members' show.

Kern Gallery: CPFA, juried prints and drawings and hand made paper, through July 23.

Museum of Art: CPFA, juried crafts: selected works from the permanent collection; Sidney Goodman: paintings, drawings and graphics, 1959-1979.

Pattee Library: Mary C. Rubinstein, illustrations from the works of Joseph Conrad and Jerry Kosinski, Main Lobby; Corita Kent, serigraphs; East Corridor Gallery; Laura Deyarmin, easel paintings, Lending Services Lobby.

Visual Arts Zoller Gallery: CPFA, juried photographs, through July 27.

Arts Roundup

Ohio Ballet to appear

The Ohio Ballet, which made its European debut last month at the Festival of Two Worlds in Spoleto, Italy, will appear Saturday, July 26, at 8 p.m. in Eisenhower Auditorium.

Its appearance is part of Nittany Mountain Summer Festival's Spectrum of Music and Dance.

Formed in 1968, the company has been called "bright and snappy" by the San Francisco Chronicle; "finely balanced, sharply disciplined" by the Atlanta Gazette; and "the best news in dance this season" by the New York Times.

Heinz Poll, who serves as artistic director of the Ohio Ballet, was the first dancer with the Berlin State Opera Ballet in East Berlin. He defected to the West and then spent 10 years dancing and choreographing for the National Ballet of Chile.

Mr. Poll also taught in New York at the National Academy of Ballet. He designed three ballets for the National Ballet of Canada and a full-length production of "Sleeping Beauty" for the Pennsylvania Ballet.

Among the 30 works he has created for the Ohio company are "Primavera," a Renaissance frolic; "Schubert Waltzes," a romantic ballet with a Viennese flavor; "Scenes from Childhood," a tale of shifting relationships among playing children; and "Summer Night."

Tickets for the performance are on sale at the Eisenhower Auditorium box office, weekdays from 9 a.m. to 4 p.m. Phone orders are accepted on Master Charge and VISA at (814) 863-0255.

"Ah, Wilderness!" opening

Ah, Wilderness!, a comedy by Eugene O'Neill, America's greatest playwright, opens tonight (Thursday) at The Pavilion Theatre as the third offering of the Nittany Mountain Summer Festival Theatre.

Set on the Fourth of July, 1906, the play is O'Neill's only comedy.

Former Penn State faculty member James Assad directs the play. Four-time winner of the Regional American College Theatre Award, he directed URC's first production, *The Shadow Box*, and most recently directed *Hamlet* at the Missouri Repertory Theatre, where he is currently associate artistic director.

Ah, Wilderness! reunites two members of his *Shadow Box* cast. Equity actor Stephen Keener returns as Sid, the occasionally inebriated uncle. Opposite Mr. Keener is Peg French as Lili, who rejected Sid's marriage proposal years ago. Ms. French comes to *Ah, Wilderness!* directly from her role in this season's opener, *The Good Doctor*.

The show also features Penn State graduate Dan Fox as the moody, dramatic Richard. Mr. Fox appeared in 1978 in "Festival Theatre's *Candida*. While at Penn State, he was in many Thespian productions, including *A Taste of Honey*, *Scapino*, and *Summer and Smoke*.

Ah, Wilderness! runs until Aug. 3. Tickets are available by calling the box office in the Arts II Building at (814) 865-1884.

Report

(Continued from page 1)

assumed that funds to support the non-preferred items would be available.

Two matters relating to funding the non-preferred bills had to take place in order to complete the funding as the legislative session moved toward recess. Neither of these actions had anything to do substantively with the University, its effectiveness or its operations. We had much interest in them, of course, because funding of our appropriations bill was involved.

One item, known as the "fee bill," would revise fees in a variety of State departments (not connected with higher education), including some fees which have not been changed for many years. Based on earlier discussions among both parties of the legislature in both houses, we assumed that this bill would proceed. Instead, for a variety of reasons, again unrelated to Penn State, it became quite controversial. While it was being considered, the unemployment compensation bill, about which there were also great differences of opinion, was under active consideration. Again, this was not a bill relating to Penn State. After a number of votes that attempted to resolve the differences in the fee bill, the legislature in the end adjourned without passing the bill, and thus without providing the necessary funding.

A second action, administrative in character, would have been an increase in revenues by the Liquor Control Board. This also was anticipated but did not take place. As stated above, the legislature, however, recessed until September before either of the two actions, one legislative and one relating to a board of the state, had occurred. Accordingly, there were insufficient funds with which to support non-preferred appropriation bills that had been previously passed - among them Penn State's \$127 million.

I would emphasize again that neither of the funding actions that failed to take place had any relationship to the University other than the fact that they would have been a part of the package of the funds necessary to support all of the non-preferred bills.

When it became apparent that there was a possibility that the legislature might adjourn prior to the final funding of the non-preferred area of the budget, there was much action on the part of this University working in very close consort with the University of Pittsburgh, Temple University, the University of Pennsylvania, and many legislators. Our discussions with the budget office and the Governor were aimed at delaying and modifying the reduction in funding that would become necessary without sufficient monies to support all the non-preferred bills.

These actions proved to be successful. On July 11, I was informed officially that the Governor had signed the non-preferred appropriation bills, but abated them by 10 percent. However, to minimize the impact upon the institutions and in anticipation of a restoration of these funds when the legislature once again assembles, Penn State will receive its payments, for the first three months, at the level of the \$127 million appropriation as passed by the legislature. This permits Penn State time until October to muster the strongest possible effort to assure the restoration of the funding to the legislatively approved level.

While we certainly hope that it will not be necessary to operate even for a single month at the abated level, I do wish to express Penn State's appreciation to all who were helpful in this effort for the manner in which the abatement was made. I also do not ever recall a time when there was a closer and more effective working relationship among the major institutions of this state.

There are many hopeful signs in the

present situation. During this past week, I have not talked to a single legislator in either party who has not assured me of his or her intention to correct this situation when the two houses return. Nevertheless, it is potentially very serious, and much work has to be done in order to assure restoration of our original funding level.

As far as the budget for 1980-81 is concerned, the University is proceeding, along with the other major institutions of higher learning, to implement the operating budget as approved by the Board of Trustees in May, including the new salary levels. This action reflects the policy that economic welfare of the faculty and staff members is of the very highest priority. In all other areas, immediate steps are being taken to reduce the expenditures under stringent budgetary policies that will go into effect until the funding issue is resolved. Prudence dictates further that we prepare contingency plans. The principal officers of this University have been expending long hours working on many types of plans and options geared to a variety of alternate support levels. The three-month, full-funding period gives us more time in which to develop with greater refinement contingency plans in the unlikely event that they are needed. Any such plans, if they ever become necessary, would require Trustee consideration and approval.

Meanwhile, all must be aware that three actions must be completed before this problem is solved. The first is the passage of the fee bill, which will provide a portion of the necessary funds. The second involves action by the Liquor Control Board to increase revenues, the income from which would support the non-preferred budgets. Finally, when the funds are restored, a deficiency appropriation equivalent to the amount abated from the budget will have to be reappropriated by each house of the legislature.

A first-rate job was done during a difficult period by a number of people, including Fred Ciletti and Frank Forni, our

principal representatives in Harrisburg, and by our legal staff. A number of trustees, in particular Roger Madigan, who serves as a member of the General Assembly, and many members of both political parties also were most helpful in supporting our efforts. Representative Gregg Cunningham, of State College, played a significant role in the plan that enabled the University to receive its first-quarter payments at full funding.

To sum up, a crucial task remains to be done to assure the accomplishment of the three actions still needed.

Trustee Docket

(Continued from page 1)

days of the medium. In addition to WDFM, in operation since 1952, a high powered station was located on campus from 1923 to 1933 with a signal that was received in Cuba, California and Canada. New federal regulations in 1933 required the station's closing.

As far back as 1962, University Trustees authorized establishment of a public radio station, and in 1969 an informational report to the Board was made on steps to achieve that goal.

"It is only now, however, that circumstances appear right for the University to move ahead and the President has stimulated this action," Dr. Grubb added.

He noted that the proposed station could use many facilities of WPSX-TV and thus could go on the air without a prohibitive capital expenditure. Moreover, the level of financial and program support available is now considered adequate.

NPR affiliates have the opportunity, but not the obligation, to carry a diverse schedule of programs available to public radio stations nationwide. As is the case with all radio stations, Dr. Grubb noted, the local license holder has the responsibility for presenting programs to meet the needs of communities served by the station.

The exact coverage area of the station cannot be determined in advance of FCC approval on licensing, location of the radio wave frequency on the FM band, and transmission power.

Some PSU funds switched to minority-owned bank

The New World National Bank of Pittsburgh, the only minority-owned bank in Pennsylvania, will be a depository for some of the University's funds, following action taken by the Board of Trustees.

The Trustees authorized bank officials to honor checks, notes and other orders of payment written by appropriate University officials.

"During its short life, the New World National Bank has a good record among developing financial institutions, and we are looking forward to a long and mutually satisfying relationship," Robert A. Patterson, senior vice president for finance and operations, informed the Trustees.

Mr. Patterson said the banking relationship is especially gratifying because of Penn State's commitment to support minority-owned businesses.

"The University has a strong tradition of support for business firms that are owned and operated by minority groups, and we are pleased to be able to continue that tradition in our new relationship with this fine institution," he said.

Pasto's contributions recognized in naming of museum

The University's agricultural implement museum at the Rock Springs Agricultural Research Center has been named the Jerome K. Pasto Agricultural Museum in honor of the person most instrumental in getting it established.

The Board of Trustees approved naming the museum for Dr. Pasto, who retired July 1 as professor emeritus of agricultural economics and associate dean emeritus for resident education.

"It was Dr. Pasto's special interest in the preservation of Penn State's historic landmarks and the collection of antique farm implements that made the museum a reality," President Oswald said.

"His interest led to a special project of the Agricultural Alumni Society, which created a museum to display collected and restored items from rural Pennsylvania. Dr. Pasto spent many weekends, vacation time and evenings, in addition to his normal college duties, in acquiring and restoring antique tools and equipment and setting up displays."

The museum was opened on May 5, 1978.

Dean Paulson on leave

Dr. Stanley F. Paulson, dean of the College of the Liberal Arts, will be on administrative leave for six months, the Trustees were informed.

Dr. Paulson will be on sabbatical leave through Dec. 31 to participate in the Group and Organizational Behaviour Programme at the Center for Applied Social Research of the Tavistock Institute in London.

"Dr. Paulson is the first person to take advantage of the University's policy of providing sabbatical leave for administrators," President Oswald noted. "We are pleased that he has this opportunity to pursue research that will be of value in his own work and also of extreme importance to Penn State."

In particular, Dr. Paulson will study communication within the university organization and changes that may be necessary in light of economic constraints and other challenges the next several years will provide.

Dr. Paulson, who is also professor of speech communication, has been dean of the College of the Liberal Arts since 1969. During his absence, Dr. Arthur O. Lewis Jr., associate dean and professor of English, will be acting dean of the College.

New graduate program offered

A graduate program in Educational Theory and Policy will be instituted in the Fall of 1980.

The program, leading to a master of arts and a doctor of philosophy degree, is designed to prepare persons for careers in educational policy development and analysis. Subfields will include the cultural foundations of education, as well as educational theory and policy issues in the social sciences, management sciences and humanities.

The new program, which was approved by the Graduate Council, will not require the expenditure of any additional University funds. Faculty members in the Division of Education Policy Studies will provide leadership for the program. Faculties in the appropriate subject-matter departments in the Colleges of the Liberal Arts, Business Administration and Agriculture also will be involved in the programs.

University considering property near Behrend

The University is considering the lease or purchase of the physical plant of a former school adjacent to Behrend College, the Trustees were informed.

The 70-acre tract, including five buildings, was occupied by St. John Kanty Preparatory School until the institution closed recently. Robert A. Patterson, senior vice president for finance and operations, told the Board's Committee on Education.

"The property in question is available for either lease, purchase or outright purchase," Mr. Patterson said.

"We propose to negotiate with the proper parties representing St. John Kanty Prep for the purpose of leasing the facilities with the possibility that there will be a lease/purchase arrangement."

"The progress of these negotiations will be reported to the Board of Trustees at its September meeting."

Beautification project slated for Keller patio

A cast bronze sculpture, shrubbery and benches will be added to a patio area outside the J. Orvis Keller Conference Center at University Park.

The bronze figurative sculpture has been donated to the University by Sigrid Christensen, assistant professor of art at Penn State. An ad hoc committee chose the piece from among those entered in competition by sculptors on the Penn State faculty and staff. The overall project subsequently was approved by the University's Environmental Quality Board.

It is hoped that the project can be

completed in late Summer 1980. Funds for the project will come from undesignated alumni gifts, and no State or tuition money is involved.

Six projects identified for alternate funding source

The University has identified six construction projects which may use the Centre County Higher Education Authority as an alternate means of financing.

The projects, all of which have been approved by the Board of Trustees, have other primary sources of funding, according to Robert A. Patterson, senior vice president for finance and operations. "Arrangements with the Centre County Higher Education Authority are being made to insure alternate or supplementary financing should it be needed," Mr. Patterson noted.

"Because of its legal status, the authority can borrow money at comparatively low interest rates. It is in the best interests of the University and indirectly the county to take advantage of this."

"Preliminary meetings have been held between Penn State and county officers. A complete report will be submitted to the Board of Trustees at a later date."

Projects on the tentative financing list: total \$20.6 million in estimated construction costs. The projects are: an addition to the Milton S. Hershey Medical Center clinical sciences wing, Hetzel Union Building renovation, Beaver Stadium expansion, Indoor Sports Complex construction, Applied Research Laboratory addition, and completion of a tertiary wastewater treatment system.

The Centre County Higher Education Authority was formed in 1979 to finance certain Penn State capital construction projects at minimum cost.

Beaver Field to have two electronic scoreboards

Penn State's Beaver Stadium will have two new electronic scoreboards for the 1980 football season, University Trustees were informed.

"A large display board with modern electronic capabilities and a small auxiliary board will replace the existing scoreboards," according to Ralph E. Zilly, vice president for business.

The scoreboards will be installed at no cost to the University. The Quaker State Oil Refining Corp. and Central Counties Bank will sponsor the project under terms of a 10-year commercial leasing agreement with the manufacturer of the sign.

"Each firm will be permitted to advertise on fixed panels and on the main board. Sponsors' messages on the main section will be limited to four minutes during each football game," Mr. Zilly explained. "The commercial displays, subject to University review, will be limited to a maximum of 20 seconds each. At the end of 10 years, outright ownership of the boards will pass to the University."

In addition to basic football information, the message center on the larger scoreboard will be able to deliver a wide range of messages, displays and animated pictures, Mr. Zilly said.

New funds announced

A Richard Leshock Scholarship has been established to help worthy students complete their college education. The initial principal of \$16,969 has been received from the estate of the late Mary K. Leshock of St. Petersburg Beach, Fla., in memory of her father.

A Student Loan Marketing Association Scholarship, providing support to the Penn State Scholars Program, will derive its funds from the annual dividends from the 500 shares of Student Loan Marketing Association common stock owned by the University.

A Ralph H. Wherry Student Service Award has been established to recognize outstanding seniors enrolled in the College of Business Administration. The fund's initial principal, \$3,500, has been

contributed by CBA alumni and by friends and associates of the late Ralph H. Wherry, who retired in 1970 as William Elliott professor of life insurance at Penn State. Professor Wherry died Dec. 5, 1976, in Bradenton, Fla. The award consists of a U.S. Savings Bond and an appropriate gift.

An Irving Segal Memorial Scholarship will help worthy students who need money to complete their college education. The initial principal derives from a bequest from the estate of Irving Segal, a teacher at Birmingham High School in Los Angeles, Calif. Mr. Segal graduated from Penn State in 1956 with a B.S. in education, earning his M.Ed. from the University in 1958. At Penn State, he served as vice president and president of Phi Epsilon Psi social fraternity.

Final plans for Hershey addition okayed

Final plans for an addition to the clinical sciences wing of The Milton S. Hershey Medical Center received Trustee approval.

The project — initially approved last September — will add two bays to the east end of the crescent-shaped front of the medical center. It will contain office and research space for faculty in the College of Medicine's clinical sciences department. The Medical School's extensive growth has caused serious space problems in these departments in recent years.

The cost of an addition, not to exceed \$10 million, will be paid for by a combination of a federal grant and funds generated by the medical center. These funds are available only for use at the medical center. No State or tuition funds are involved.

The Trustee action permits the University to seek bids and award contracts on the project. The timetable calls for bids to be received by late August and for construction to start by early October. Completion is scheduled for late 1982.

New kiosk installed

A new traffic control kiosk has been installed between Curtin Road and the Intramural Building at University Park.

Its purpose is to provide information and directions to the large number of visitors who approach the campus from University Drive. The kiosk also will be helpful to new students and their families when they come to campus to contact Admissions personnel located in Shields Building.

Since the Admissions Office was moved to Shields, traffic on the north end of campus has greatly decreased, and fewer visitors now approach from the south. Therefore, the staff of the kiosk formerly located on Burrows Road has been moved to the new location.

Program title changed

The title of the Speech Pathology and Audiology graduate program has been changed to Communication Disorders.

The new title follows a similar change made recently in the name of the undergraduate offering in recognition of the fact that a major part of the program is concerned with the education of the deaf.

Property sale authorized

The sale of a building and three surrounding parcels of land in Sharon was authorized by the Board.

The building, originally used as a classroom-laboratory facility at Shenango Valley, was vacated in 1969. It was given to Penn State by the Sharon Steel Company in 1968.

In all, the property consists of about 1.5 acres of land, the main building, a carport and a paved parking area.

Prior to the approval by the Trustees, acceptance of the offer was recommended by the Shenango Valley Campus Advisory Board.

Penn State Intercom

Renting a boat at Stone Valley was one way to beat the heat.

United Way Drive to institute new approaches

Penn State's University Park campus, in an effort to double the number of participants, will institute new approaches to increase the support for Centre County United Way this fall.

"Using techniques effective in other sectors, we hope also to double the amount of contributions," President Oswald says.

"As the prime employer in Centre County, the University has a responsibility to the community and to its employees, many of whom are served directly or indirectly by the 27 member agencies of United Way."

According to Dr. Oswald, the 1980 campaign at University Park, under the general chairmanship of Dr. Richard E. Grubb, senior vice president for administration, will center on a stronger and more structured internal organization.

"Emphasis will be on a personal, one-to-one peer solicitation to inform employees about United Way," notes Dr. Oswald.

"Confidentiality of response will be carefully controlled."

The University authorized United Way participation as the only charitable payroll deduction program in 1971. Prior mail campaigns at University Park have not been as effective in raising funds or informing people as have personal solicitation programs at colleges and universities throughout the country.

Planning and implementation for the 1980 United Way program are underway for the September kickoff on campus. Other changes in the campaign include a simplified contribution card, fewer printed materials and orientation for campaign volunteers.

Penn State's other 21 campuses conduct individual campaigns, working with local agencies. Penn State employees can direct contributions to any Pennsylvania United Way agency through the payroll deduction plan.

Associate chairpersons representing major areas at University Park are: Billy R. Baumgardt, Agriculture; William Allison, Arts and Architecture; William Decker, Business Administration; Charles Hosler, Earth and Mineral Sciences; Martha Adams, Health, Physical Education and Recreation; Joseph Britton, David Dimmick, Human Development; Edward Klevans, Engineering; Harold Mittel, Education; John Romano, Liberal Arts; E.S. Lindstrom, Sciences; Benjamin F. Howell Jr., Graduate School; Raymond O. Murphy, Student Affairs; Donald G. Dickason, Admissions; Steve A. Garban, Finance; Rosemary Schraer, Provost; John Leathers, Commonwealth Campuses; Mary Jane Wiles, Pattee Library; John A. Hargleroad, Administration; Harvey W. Wall, Undergraduate Studies; Forrest J. Rennie, Research; Marlowe Froke, Continuing Education; and Wade Barber, Technical Service.

Hollywood no longer has charms for this Political Science secretary

Earl Davis is back at Penn State, making the transition of his life.

His current position — secretary in the Department of Political Science — is light years away from his most recent job as a TV-movie critic for *The Hollywood Reporter*.

"As far as I know, I was the only writer in the country holding a major critic position in the arts on an influential mainstream newspaper who happened to be black," Mr. Davis says.

With *The Hollywood Reporter*, he published more than 500 reviews and interviewed such luminaries as Glenda Jackson, Walter Matthau, Mary Tyler Moore. He also appeared on the Steve Edwards Show on a roundtable discussion with other TV critics and, as an actor, appeared in *Cindy* and was cast in *Roots: The Next Generation*.

"No more," he declares. "Writing criticism no longer interests me. I will not undertake another critical position on a daily newspaper or magazine because it says both your energy and enjoyment of writing. Also, I don't consider criticism in any way creative; it's just the opposite — it's analytical — whereas creativity is emotional."

Earl Davis left Hollywood for a variety of reasons: a disgust with the TV-movie fare to which his job subjected him daily; the paucity of substantial acting roles for blacks; an accumulation of studio rejection slips for his screenplays; and, as he says, the skewed moral compass.

"If there's an epitome of American commercialism, Hollywood is it," he avers. "All people talk about — on all levels — are money and materialism. It's very easy to sit back and make that kind of judgment without being involved, but after 3½ years of direct involvement that's the way I see it."

It took some time for him to realize why his screenplays were invariably returned to him. "I had access to anyone who

mattered, and the powers-that-be said they were good," he explains. "But many of my characters were ethnic, and their personalities were rather complex. Television, however, prefers non-complex stereotypes."

Hollywood-style affirmative action still leaves much to be desired, he points out. "It's a segregated and closed society for minorities, even now, with only limited opportunities. If you're willing to be identified as a black actor or black writer, that's about as far as you can go."

His main work as a TV-movie reviewer grew increasingly intolerable. "Some people may think it's easy to watch, but 95 percent of the material is really embarrassing, essentially infantile. The real crime is that there's such an incredible amount of talent in this country, and in Hollywood it's just not being tapped. I think it's time the industry starts indoctrinating the American public with good material to balance out the bad; they'd find the public is not so stupid as the industry assumes."

"There are many people in the industry who realize that the standards are juvenile, but they become demoralized, cynical and mercenary."

"Despite Mr. Davis's distaste for Hollywood, he is neither demoralized, cynical or mercenary; quite the opposite."

"There's nothing you can do that isn't beneficial in some way. I've spent the past 10 years directing my energies toward going to Hollywood, and now I don't have to spend the rest of my life wondering how I might have fared. Now I have confidence to go anywhere."

His goal, however, is no longer geographic but qualitative. "I want to devote my energy to novels and books, which offer a much greater range of freedom. I'm more concerned with the intrinsic value and quality of my work than I am with fame and fortune."

(Continued on page 4)

News in Brief

Microcomputer users will meet Aug. 5

The Microcomputer Users' Group will meet Tuesday, Aug. 5, at 7:30 p.m. in Room 110 Computer Building. (Entry is through the back door.)

The meeting, one in a series, is for owners and other persons interested in TRS-80s, Apples, Ohio Scientific's, etc. The Computation Center hopes to formulate new ways to support users in the performance of their research and to provide a clearing house for hardware, software and trouble shooting information.

Three specific items will be discussed at the Aug. 5 meeting. First, the committee formulating an outline for a desired software package to facilitate communications between the University's IBM 3033 and microcomputers will present a report. Second, details on the new Apple III will be presented; and third, each person at the meeting will be given an opportunity to describe briefly his/her specific interests in microcomputers.

Future meetings will be held the first Tuesday of each month at 7:30 p.m. in Room 110 Computer Building.

Herzliche Glückwunsche zum Geburtstag!

The library of the University's Department of German has received a collection of 230 books on modern literature from the consulate general of West Germany.

The books were donated by the consulate general's New York office to commemorate the University's 125th anniversary.

Kern revue opens

Bruce Trinkley is the co-creator of Nittany Mountain Summer Festival Theatre's final offering, the musical revue, *Can't Help*

(Continued on page 4)

Penn Staters

Jerrold Maddox, formerly head of the Art Department at Kansas State University, has been named director of the School of Visual Arts and professor of art. He replaces Dr. Harlan E. Hoffa, acting director, who will return to full-time teaching.

Mr. Maddox, whose areas of concentration are painting, drawing and design, received his B.S. and M.F.A. degrees from Indiana University. He has served in both administrative and teaching capacities at Indiana University, as assistant to the chairman of the art department and as an associate professor of painting and drawing.

He has also taught at Montelith College of Wayne State University, Amherst College and Reed College, and has been a visiting lecturer in painting at the Regional College of Art and Crafts in Hull, England. As a visiting assistant professor at the University of Kentucky, he taught arts and humanities courses.

Solo exhibitions of Mr. Maddox's work have been held at the Donald Morris Gallery in Detroit, The Contemporaries in New York, the Jones Library in Amherst, and in galleries at the University of Kentucky and Montelith College. Mr. Maddox's works have been included in numerous group exhibitions throughout the United States and in England, among them shows at the Museum of Modern Art in New York and the Pennsylvania Academy of Fine Art in Philadelphia.

He is the author, with R.M. Capers, of *Images and Imagination: An Introduction to Art*. Since 1966, he has been an art book reviewer for the magazine *Choice*. Currently he serves on the board of directors of the National Council of Art Administrators.

Dr. George E. Andrews, professor of mathematics, has been named interim head of the Department of Mathematics. The department has a rotating headship. Dr. Andrews' predecessor, Dr. Donald Rung, will return to full-time teaching and research.

Dr. Andrews is the world's foremost authority on partition theory. His book, *The Theory of Partitions*, published in 1976, is the definitive work in this area. He is also the author of more than 100 research publications and two other books, *Number Theory*, published in 1971, and *The Collected Papers of P.A. MacMahon*, Vol. 1, published in 1978.

Last year, Dr. Andrews published the first announcement of his discovery of the "lost" notebook of S. Ramanujan, one of the giants of 20th century mathematics. He has presented invited lectures on this discovery at many leading universities, including Yale, Chicago, Wisconsin, Purdue, Australian National University, and the National University of Mexico.

Dr. Andrews was on leave during 1978-79 in New Zealand and Australia where he was a visiting lecturer and researcher at several universities. He has also served as a visiting professor at the Massachusetts Institute of Technology and the University of Wisconsin.

Dr. Andrews earned his Ph.D. at the University of Pennsylvania in 1964, the year he joined Penn State's faculty.

Dr. Herberta M. Lundegren, professor of physical education and recreation, has been named interim associate dean for graduate studies and research in the College of Health, Physical Education and Recreation. She will assume responsibilities for the graduate and research programs held by Dr. Karl Stoeckel, who was named acting dean of the College earlier this summer.

Dr. Lundegren joined the Penn State faculty in 1960. Before that she was an instructor at Wellesley College and at Miss Porter's School in Farmington, Conn.

She holds the B.S.Ed. from Tufts University, the M.Ed. from the University of North Carolina and the Ph.D. from The State University of Iowa. Her post-doctoral work was done at the University of Oregon. Her research interests have been largely in adapted physical education and therapeutic recreation in the areas of fitness, obesity (especially in children), and motor performance and development. She recently co-authored a book on recreation programming.

Dr. Richard P. Chait, assistant provost, has been invited to conduct an eight-day course on Personnel Policy and Administration at the Institute for Educational Management at Harvard University. Dr. Chait recently presented papers on "Academic Tenure in the '80s" at the National Conference of the Association of Governing Boards in Washington, D.C., and on "Faculty Development: Process and Payoffs" at the President's Institute of the American Council of Education in Ft. Myers, Fla. He is the author of chapters in two newly published books—*"What Should Academic Managers Be Managing?"* in *Preparing for the New Decade*, and *"Setting Academic Tenure and Personnel Policies"* in *Handbook of College and University Trusteeship*, both from Jossey-Bass Publishers, San Francisco. In addition, he recently conducted a workshop on program evaluation for officers of philanthropic foundations, sponsored by the Council on Foundations, and was named a consulting editor of *Change Magazine*.

George M. Enteen, associate professor of history, gave an invited lecture to faculty members and students in the history department at the University of Hawaii in June. His subject was "History and the Social Sciences: Emerging Patterns." Dr. Enteen also recently was invited to become a member of the editorial board of the journal, *Russian History*, and was designated editor of its historiography department.

Dr. Eugene N. Borza, associate professor of history, is one of several foreign scholars invited by the Minister of Culture of Greece to attend the formal opening ceremonies of an archaeological and historical exhibition in Greece. Entitled "The Search for Alexander," the exhibition will open this month in the Archaeological Museum of Thessaloniki. Dr. Borza has published numerous items on Alexander the Great and has been active in Macedonian studies. He will act as the historical consultant for the exhibition when it opens at the National Gallery of Art in Washington, D.C., later this year, and will begin his advisory work while in Greece at the Thessaloniki exhibition opening.

Dr. Dorothy V. Harris, professor of physical education, presented one of two keynote addresses at the International Congress on Women and Sport, held in Rome. The title of her paper was "Personality Research: Implications for Women in Sport." Dr. Harris was also reappointed to the Board of Overseers of Harvard College. She will serve on the Visiting Committee concerned with Athletics and Sport. Dr. Harris has served on this committee for the last five years.

Parris Chang, professor of political science, has returned from two months of travel in Japan, Thailand and Europe as a lecturer for the U.S. International Communication Agency. Dr. Chang also spent two weeks in the Soviet Union at the invitation of the Soviet Academy of Sciences, where he lectured.

Dr. Suzanne T. McDaniel, senior research associate, and John H. Beebe, research assistant, both of ARL, presented papers at a NATO-sponsored conference on bottom-interacting ocean acoustics, held in Italy at the Antisubmarine Warfare Research Center. Dr. McDaniel's paper was "Influence of Semiconsolidated Sediments on Sound Propagation in a Coastal Seabed." Dr. Beebe spoke on "Geoaoustic Models of the Seabed to Support Range-Dependent Propagation Studies on the Scotian Shelf."

Murray

Brantner

Hutchison

Dr. Seymour T. Brantner, associate professor of industrial education, was honored recently for 25 years of service to the University. He is a specialist on supervision and administration of vocational-industrial education and is the coordinator of vocational teacher certification in the College of Education.

Before joining the faculty in 1955, he was granted a B.S. and M.Ed. from Lock Haven State College and Penn State, respectively. His doctorate was earned at the University of Pittsburgh in 1962. He served during World War II and retired from the U.S. Naval Reserve, with the rank of Commander.

More recently, Dr. Brantner has been a visiting professor at the University of Missouri. He serves on the Inter-State Consortium Committee which is developing vocational supervisory and administrative standards. His most recent research and published monographs have dealt with administrative and supervisory competencies of the personnel in Pennsylvania's 86 area vocational-technical schools. He has written numerous articles about vocational-industrial education.

Gerald G. Hutchison, assistant supervisor of motion picture services in the University's Division of Instructional Services, retired June 30 after 32 years of service.

Mr. Hutchison first came to Penn State in 1948 as a clerk and driver in the Central Extension Department, the forerunner of Continuing Education. In 1950, he left to accept a position in motion picture services. As assistant supervisor, he was involved as a motion picture and animation photographer and was skilled in almost every phase of motion picture production.

His wife, Jean, retired in 1976 from her position as administrative aide to the director of ARL. One of the couple's two children, Larry, is currently employed by the Office of Physical Plant.

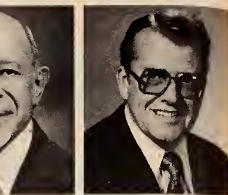

Mr. and Mrs. Hutchison plan to do some traveling and keep busy maintaining the garden acreage at their home in Julian, RD. Mr. Hutchison also plans to do some consulting work in motion picture production.

You could say that Gertrude L. Murray's retirement was Penn State's loss but the community's gain.

Mrs. Murray was already active in volunteer work while she was employed as a data processing clerk by Housing and Food Services. In addition to working for her church and in the Grange, she helped

Dr. Martha T. Halsey, professor of Spanish, has just returned from five weeks in Spain, where she lectured on the Spanish theatre and interviewed several contemporary playwrights. At the University of Salamanca, Dr. Halsey presented a series of three lectures on the dialectics of hope in the tragedies of Antonio Buero Vallejo, Spain's foremost living dramatist. Dr. Halsey is the author of a book and several articles on his drama.

Dr. Peter J. Behrens, assistant professor of psychology at the Allentown Campus, presented a paper, "The Making of Experimental Psychology," at the 22nd International Congress of Psychology in Leipzig, Germany, this month. His paper was part of a symposium honoring the 100th anniversary of the founding of the first psychological laboratory, begun at Leipzig by Wilhelm Wundt.

cook for Meals on Wheels in Tyrone. With her June 1 retirement, she'll spend the summer in her garden and then plans to devote herself to volunteer efforts for Church World Services.

Mrs. Murray was responsible for maintaining an inventory on all food items in her position in the Foods Building. When she started out at Penn State in 1955, she was a cost bookkeeping clerk for Physical Plant, and she later worked as a statistical clerk in the College of Business.

A widow, Mrs. Murray has three sons, a daughter, 16 grandchildren and two great-grandchildren.

Obituaries

Norman B. Buchanan, a faculty member from 1962 to 1979, died July 13. An associate professor of engineering graphics, Mr. Buchanan earned a B.A. in education in 1958 and an M.S. in engineering mechanics in 1964, both at Penn State. He was 47 years old.

George E. Ceiga, who retired in 1964 as associate professor of music emeritus, died June 12. Mr. Ceiga, who joined the faculty in 1947, served as University organist. A native of Indiana, he received his bachelor's of music degree from the American Conservatory of Music. He was the author of a number of musical works.

Ralph G. Lenker, a member of the staff from 1955 to 1973, died July 10 at the age of 71. Mr. Lenker worked as an auto mechanic for Physical Plant, as a driver and facilities operator for the College of Health, Physical Education and Recreation.

Alma R. Huetzler, a counter attendant with Woutz and Food Services from 1951 to 1971, died July 15 at the age of 73.

University Park Calendar

July 24- August 10 Special Events

Thursday, July 24

Math Colloquium, Ross Geoghegan, SUNY/Binghamton, on "Shape—Some Good Ideas in a House of Ill Repute," 4 p.m., Room 102 McAllister.

Festival Theatre, theatre music by Jerome Kern, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse, Ah, Wilderness! 8 p.m., The Pavilion Theatre.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Friday, July 25

Commonsplace Theatre, *Five Easy Pieces*, 7 and 9 p.m., Room 112 Kern.

Interludia, folk dancing, 7:30-11 p.m., HUB Ballroom patio (rain, HUB Game Room).

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

HUB Movies, *Willard*, dusk, HUB Lawn (rain, HUB Ballroom).

Saturday, July 26

France-Cinema, Truffaut, *400 Blows*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Spectrum, Ohio Ballet, Heinz Poll, artistic director, 8 p.m., Eisenhower Auditorium.

Explanzanza film, *Thi Graduat*, dusk, Fisher Plaza.

Sunday, July 27

Commonsplace Theatre, *Five Easy Pieces*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, Ah, Wilderness! 7:30 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 7:30 p.m., The Playhouse.

Monday, July 28

First day to sign Fall Term NDLS and University Long Term Loans, Room 108 Shields.

France-Cinema, *400 Blows*, 7 and 9 p.m., Room 112 Kern.

Tuesday, July 29

Explanzanza Concert, Bob Doyle and Tad Marks, 7:30 p.m., Fisher Plaza.

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Wednesday, July 30

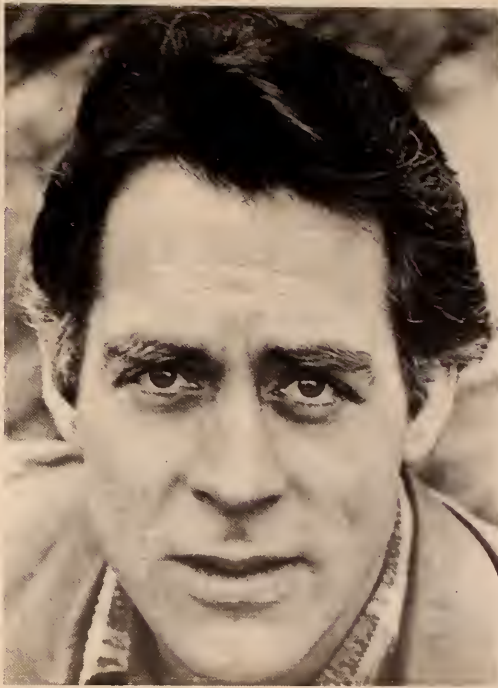

Commons Concert, Rich Lyle, noon, Kern Lobby.

Shaver's Creek Nature Center, reptile and amphibian program, 6 p.m., Spring Creek Park, Houserville.

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Thursday, July 31

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Stephen Keener appears in 'Ah, Wilderness!' at The Pavilion Theatre.

Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Friday, August 1

Phi Delta Kappa/College of Education Summer Lecture Series, 2:20 p.m., Room 112 Kern.

Panel discussion on international education, "Needed: World Citizen Teachers," Paul Bixby, education (emeritus), moderator.

Annual Square Dance Festival, 5 p.m. to midnight, HUB Ballroom and North Lounge.

Commonsplace Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

HUB Movies, *Guess Who's Coming to Dinner?* dusk, HUB Lawn.

Saturday, August 2

Annual Square Dance Festival, 9 a.m.-midnight, HUB Ballroom, North Lounge and Room 301.

France-Cinema, *Weir, Picnic at Hanging Rock*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, Ah, Wilderness! 8 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Explanzanza film, *The Great Dictator*, dusk, Fisher Plaza.

Sunday, August 3

Commonsplace Theatre, *Performance*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, Ah, Wilderness! 7:30 p.m., The Pavilion Theatre, *Can't Help Lovin' dat Kern*, 7:30 p.m., The Playhouse.

Monday, August 4

France-Cinema, *Picnic at Hanging Rock*, 7 and 9 p.m., Room 112 Kern.

Interdisciplinary Symposium on Value Lecture, 8 p.m., Room 101 Kern. Robert Price, philosophy, on "Ethical Issues in the Use of Deadly Force."

Tuesday, August 5

Red Cross Bloodmobile, 10 a.m.-5 p.m., HUB Ballroom.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Explanzanza Concert, Reuben & the Hipsters, 7:30 p.m., Fisher Plaza.

Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Wednesday, August 6

Last day to sign Summer Term NDLS and University Long Term Loans, Room 108 Shields.

Late drop deadline for 10 week Summer Term. Commons Concert, Buffalo Chipkickers, noon, Kern Lobby.

Shaver's Creek Nature Center, Charles Ruschky, entomology, insect program, 7:30 p.m., Civil Engineering Camp, Stone Valley.

Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Shaver's Creek Nature Center, Charles Ruschky, entomology, insect program, 7:30 p.m., Civil Engineering Camp, Stone Valley.

Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Thursday, August 7

Late drop deadline for 6 week Summer Term. Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

Friday, August 8

Commonsplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Spectrum, Fred Waring Youth Workshop Chorus, 8 p.m., Schwab.

HUB Movies, *Deliverance*, dusk, HUB Lawn (rain, HUB Ballroom).

Saturday, August 9

France-Cinema, Bunuel, *That Obscure Object of Desire*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.

Explanzanza film, *Filmore*, dusk, Fisher Plaza.

Sunday, August 10

Commonsplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.

Festival Theatre, *Can't Help Lovin' dat Kern*, 7:30 p.m., The Playhouse.

Exhibits

Chambers Gallery: Randy Cleaver and Kelly O'Connor, BF-A exhibit of sculptures and paintings, opens July 3.

HUB Gallery: CFFA, exhibit by Pennsylvania Painters, Art Alliance, juried members' show, both through July 26.

Kern Gallery: CFFA, juried prints and drawings and hand made paper, through July 26. Diane Bosnik, oil paintings; Zelia Couto, paintings; Jeff Dennis, ceramics, all open August 1.

Museum of Art: CFFA, juried crafts; selected works from the permanent collection; Sidney Goodman; paintings, drawings and graphics, 1959-1979.

Pattee Library: Mary C. Rubinstein, illustrations from the works of Joseph Conrad and Jerzy Kosinski, Main Lobby; Corita Kent, serigraphs, East Corridor Gallery; Laura Dayaramin, easel paintings, Lending Services Lobby, all through July 31.

Visual Arts Zoller Gallery: CFFA, juried photographs, through July 27.

Penn Staters

(Continued from page 2)

Russell N. DeViney, associate professor of English, speech communication and the humanities at the Allentown Campus, was presented with the traditional Penn State chair upon his retirement June 30 after 25 years of service. He joined the faculty in 1955.

Professor DeViney received his B.A. from Muhlenberg College and his M.A. in English from Lehigh University. At Allentown, he served as advisor to the student newspaper and the yearbook, and was chairman of the Faculty Senate. He is the author of a number of articles in professional journals and taught, while on sabbatical, at the Bolton Institute of Technology in England.

Frances E. Decker is retiring with memories that "are only of the best of Penn State," and she hopes her retirement days will also be a source of pleasant memories. She and her husband, George, intend to spend more time fishing and

boating and going on an occasional trip. A former seamstress, she will take up needle and thread again—particularly when the advent of cool weather frees her from the upkeep of her two-acre garden.

Mrs. Decker, a secretary in the Listening-Learning Services of the University Division of Instructional Services, retired June 30 after 23 years of service. She started out as a mimeograph operator in the College of the Liberal Arts, running tests for all the departments in the College. After nine years, she switched to Listening-Learning Services, where she performed general clerical duties.

Mr. and Mrs. Decker are residents of State College and have two children.

Looking ahead, when Robert F. Frazier designed the plans for his house—which he built himself, moving in last year—he included a woodworking shop. That's where he'll be found now that he's retired as chief coordinator-inspector in the Office of Physical Plant.

Mr. Frazier makes clocks to order, and his retirement plans also include hunting,

fishing and tending his large garden. Travelling will have to wait since his wife, Lois, will not retire until next year.

Mr. Frazier started his Penn State career in 1947 with the College of Agriculture, working as a dairy barns helper until 1952. He returned to the University as a carpenter in 1956, worked as a painting foreman and coordinator and in 1978 became chief coordinator.

Both his sons are Penn State alumni. Jeffrey graduated in 1967 in chemistry and Scott in 1972 in accounting.

John L. Ibberson, a laboratory x-ray assistant at Hershey, retired July 3 after serving on the staff since July 1, 1975.

Eugene J. McNelis, a maintenance worker, utility, in the Applied Research Laboratory since Sept. 18, 1967, retired July 19.

Barbara A. Poorman, a senior records clerk in the College of Human Development, retired July 12. She had been an employee since June 13, 1960.

New Faculty Hershey

Barry R. Dworkin as associate professor of behavioral science. B.A., U. of Chicago; M.A., U. of Missouri; Ph.D., Rockefeller U. Formerly research fellow, Cornell Medical College; assistant professor, Rockefeller U.

George D. Rose as associate professor of biological chemistry and director of research. B.S., Bard College; M.S., Ph.D., Oregon State U. Formerly assistant professor, U. of Delaware.

Mark F. Bellinger as assistant professor of surgery and pediatrics. B.S., Lemoine College; M.D., SUNY Upstate Medical Center. Resident, surgery and urology, Medical College of Virginia; fellow, urology, Children's Hospital of Philadelphia.

Eric W. Blom as assistant professor of plastic surgery. A.B., Cornell U.; M.D.,

Hot weather watering strategies offered

Drizzle when it sizzles.

That's the strategy for homeowners to follow when watering their plantings during dry spells, according to J. Robert Nuss Jr., professor of ornamental horticulture Extension.

"The average homeowner does more damage than good when watering," Dr. Nuss says. "Running around for a half hour with a sprinkler in your hand won't help your trees and shrubs. What's needed is a deep, penetrating application."

Because such broad leaf evaporation as azalea, laurel, Japanese holly and rhododendron have shallow root systems, they are frequently the first to suffer in a drought.

"Most plants will tell you when they need watering," Dr. Nuss says. "If they wilt during the day but recover at night, they probably can get by with a good solid watering about every five days. If they're still wilted once the sun has set, you had better try to get some more water back into the soil."

Watering cannot be rushed, Dr. Nuss notes that it may take several hours to water a single tree. The water should trickle out at a rate slow enough to be absorbed by the soil. If you use a sprinkler, place a shallow pan in the area being watered to check the accumulation. You're finished when there is one-half to three-fourths of an inch of water in the pan.

"Sometimes," Dr. Nuss points out, "you can't put on as much water as the soil needs at one time. If you water for an hour and notice that the water is starting to run off the surface, turn off the hose and put it back on later in the day. It takes a considerable quantity of water to penetrate a fairly shallow layer of soil."

"The occasional thunderstorm which accompanies a heat wave generally doesn't put down enough water to do much good because the water runs off faster than it can penetrate the soil. A slow drizzle is preferable to a deluge."

The big trees on your property usually can fend for themselves, Dr. Nuss suggests concentrating your efforts on trees that are close to paved areas such as driveways and sidewalks, where there is a potential for the roots to become constricted. Trees planted within a last several years will be less able to withstand

dry weather conditions than those that are 10- to 20-years old.

Proper mulching is another potent tool for homeowners worried about their plantings.

"Any material that meets an owner's personal requirements will work," Dr. Nuss says. "Most mulches are organic in nature, and shredded paper is just as effective as peat moss."

Dr. Nuss does not recommend using grass clippings, however, since they tend to heat as they decompose and cause, burning if placed against stems. They tend also to mat, thus smothering roots. Mulches should be fluffy, light-weight and porous.

"Apply them at least two inches deep," Dr. Nuss says. "More than four inches is a luxury. Don't let them come in contact with the stems of plants or the tree bark. They can be damaged by constant dampness or by the excess heat which occurs if mulches decompose rapidly."

Plastic mulches are ideal in small gardens, but they smother the ground if used to excess. Dr. Nuss recommends them only in areas no bigger than an absolute maximum of 100 square feet, and he advises punching holes in the plastic every few feet to allow rain and air to penetrate the soil.

"Even if you are using plastic mulch, be sure to give your vegetable garden a good soaking every two or three weeks if the soil is dry underneath," Dr. Nuss adds. "In a dry year, once the plants begin to grow, you have to replenish the moisture."

In addition to proper watering and mulching, anti-desiccants or anti-transpirants can help preserve shrubbery and small trees. These water soluble latex films are sprayed on the leaves, acting as a kind of plastic wrap. By sealing the leaves for a short period of time, they reduce water loss.

Dr. Nuss notes that the same watering advice applies to lawns as to shrubs. "You can do just as much damage with light sprinklings," he says. "Deep, infrequent watering is best."

Dry weather is not completely without its blessings, according to Dr. Nuss. As a plus, he points out that this year's lack of rainfall has reduced the numbers of certain insect pests.

Earl Davis

Hollywood

(Continued from page 1)

And so, in April, he left Hollywood for Penn State — a good place for reflection, he says, and a setting with which he is hardly unfamiliar.

A Philadelphia native, Mr. Davis came to the University in 1969 as a freshman enrolled in the Department of Theatre Arts. Through 1972, he appeared in over 30 productions and was a charter member of the original Children's Theatre Ensemble. He has also directed, produced and toured in his own shows.

Three of his plays have been produced: *After the Resurrection* (1968) in Philadelphia and *Change for a Dollar* (1971) and *Scenes from Black Life* (1972), both at Penn State.

He was movie critic for *The Daily Collegian* from 1972-74 and then social columnist for the same paper from 1975-76, his articles gaining him a nomination for the Hearst Award in Journalism.

A succession of personal problems interrupted his schooling during this time, and he never received his degree. But he's now contemplating a return.

In addition, he's writing several books. The first involves the compilation of his movie reviews into a three-volume work encompassing the past decade of American cinema. He also plans a biography on Lorraine Hansberry and a book on the James Bond films.

But his current preoccupation is his first novel, *A Shift of Light*. It's an adaptation of his screenplay about an actor who falls in love with a woman with two children and finds himself with the dilemma of opting for stability in his personal life or pursuing an unsatisfying, but financially rewarding, career.

He also plans to transform two other screenplays into novels: *Blind Justice*, about an actor who resents the influx of retired professional athletes into show business and plots their demise; and *The Out-Worlder*, a science fiction work centering on the Amish.

Meanwhile, Mr. Davis enjoys his secretarial work at the University. "In fact, it's therapeutic. I'm using skills unrelated to my former work; I occasionally feel the need to get away from the self-absorption the arts require. And you can always learn from any situation if your attitude is receptive; you can learn as much from typing a professor's manuscript as you would from a classroom lecture."

And the job does have its moments.

"It's always fun to hear the pregnant pause when people call and ask to speak to the secretary, and I tell them I am the secretary."

For further information, call 865-1372

(142-1) Greater access to scientific research by minorities is being promoted by the National Science Foundation through its new Minority Research Initiation program. Program inquiries should be directed to the NSF program director in the professor's field of interest. Individual research initiation awards are expected to average \$25,000 per year for a maximum of three years. Proposals may be submitted at any time. General inquiries about the MRI program should be to: Dr. Rosevelt Gilbert at 202-357-7350. *Minorities include Blacks, Native Americans, Mexican-Americans/Chicanos, Puerto Ricans, and Alaskan Natives) Ref. NS860-42.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475, 1387). Applications for these staff vacancies will be accepted until 5 p.m., July 31, 1986. **DO NOT CONTACT THE AREA THAT HAS THE VACANCY.**

Applications for staff vacancies are considered, in accordance with Affirmative Action practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT DIRECTOR FOR DEVELOPMENT AND PLANNING, Fayette Campus. Under the Director will be responsible for planning, development and administration of programs for fund raising, alumni relations and public relations. Responsible for long-range planning and campus development.

Responsible for grant development and presentation of proposals. Bachelor's degree with three to four years of relevant experience in areas of development, fund raising, public relations and/or alumni relations. Higher education administrative experience desirable.

TUTOR COORDINATOR — STUDENT AFFAIRS, University Park. Responsible to the Assistant Vice President for Student Affairs for Special Programs and Services for coordinating the program of tutorial assistance and insuring its constant availability to students. Bachelor's degree (or equivalent), preferably in education, plus one to two years of effective experience. Master's degree is desirable, along with a knowledge of undergraduate curricula, established academic regulations and effective tutoring practices. This is a 10-month position beginning Aug. 18, 1986.

COUNSELOR — STUDENT AFFAIRS, University Park. Responsible for providing various services to individual students to enable them to adjust effectively to the University environment socially, personally, and academically to the extent that no other services are indicated. A master's degree in sociology or counselor education is required. Over one year and up to including two years of effective experience in a directly-related area are necessary. **THIS IS A FIXED TERM AND 10-MONTH POSITION BEGINNING AUG. 18, 1986.**

SPEECH PATHOLOGIST — COLLEGE OF MEDICINE, Hershey. Responsible to the Coordinator, Hearing and Speech Clinic, for performing a wide variety of duties in the diagnosis, treatment and evaluation of persons with various speech difficulties and defects. Master's degree in speech pathology with Certificate of Clinical Competence in Speech Pathology from the American Speech and Hearing Association, plus one to two years of effective experience.

COORDINATOR, CAMPUS RESIDENTIAL LIFE, Altoona Campus. Responsible to the Dean of Student Affairs for carrying out specific responsibilities for the Residence Hall program. The responsibilities include administration of the conduct standards system, selection and supervision of student assistants, developing cultural, social and educational programs and counseling of students. Bachelor's degree or equivalent, plus one to two years of directly related experience required, or a master's degree or equivalent in student personnel or related field, with three to six months of residence hall experience.

News in Brief

(Continued from page 1)

Lovin' Dat Kern, now running at the Playhouse.

Mr. Trinkley, an associate professor of music, and director Neal Kenyon have put together a potpourri of some 70 songs by Jerome Kern, composer of *Showboat*. The show spans Kern's career on Broadway and in Hollywood from the early 1900s to the mid-'40s. Audiences get a double bonus — a chance to observe the changing styles in musical theatre and the birth and burgeoning of the movie musical.

Can't Help Lovin' Dat Kern is patterned on Festival's 1977 review, *Gershwin Revisited*, put together by Mr. Trinkley and director Garland Wright.

"We had so much fun doing the Gershwin show that it seemed time to do something like that again," Professor Trinkley says. "We recorded several subjects; but Cole Porter, Noel Coward, Rodgers and Hart have been done so often, while Kern, with so many standards in his name, seems to be neglected."

The revue is all song and dance, featuring such tunes as "A Fine Romance," "The Last Time I Saw Paris," "They Didn't Believe Me," and a medley from *Showboat*. **Can't Help Lovin' Dat Kern** runs July 24-27, 29-31, Aug. 1-3 and 5-10. Tickets are available from the Festival Box Office (865-1884).

Hershey

(Continued from page 3)

Thomas Jefferson U. General surgery resident, Columbia Presbyterian Med. Ctr., plastic surgery resident, U. of Virginia.

Raymond R. Frapp as assistant professor of pediatrics, MB, B.Ch., U. of Wisconsin and Medical School, S.A. Resident, Red Cross Children's Hospital, S.A. Hershey Fellow, Yale-New Haven Hospital.

Daniel L. Grosso as assistant professor of radiology, B.S., Iona College; M.D., U. of Bologna, Italy. Chief resident, Monmouth Med. Ctr. Assistant radiologist, Associated Radiologists of Boston, Inc.

Kenneth L. Koch as assistant professor of medicine, B.S., U. of Iowa; M.D., U. of Iowa College of Medicine. Intern and resident, Hershey; fellow, gerontology, U. of Florida.

Lowell D. Mann as assistant professor of psychiatry, A.B., Goshen College; M.D., Jefferson Medical College. Formerly self employed in family practice of medicine.

James G. Marks, Jr. as assistant professor of medicine, B.A., Wilkes College; M.D., Temple U. Intern, Geisinger Medical Center; resident, physician, U.S. Air Force Major, Wilford Hall USAF Medical Center.

Wayne K. Marshall as assistant professor of anesthesiology, B.S., VPI, M.D., Medical College of Va. Resident, U. of Cincinnati, U. of Va.; research fellow, U. of Cincinnati.

Donald E. Martin as assistant professor of anesthesiology, B.S., Juniata College; M.D., Jefferson Medical College.

Intern, Lankenau Hospital; resident, fellow, Hospital of U. of Pa.

Richard E. Mattison as assistant professor of psychiatry, B.A., Lafayette College; M.D., Cornell U. Med. Ctr. Intern, Buffalo Children's Hospital; resident, Cornell U. Med. Ctr. Formerly medical director, UCLA-NPI Behavioral Health Services; private practice.

Harry E. Morgan as assistant professor of psychiatry, A.B., Dartmouth College; M.D., Harvard U. Medical School. Resident, Mary Imogene Bassett Hospital, Cooperstown, N.Y.; Dartmouth-Hitchcock Med. Ctr.; U. of Cincinnati Med. Ctr. Formerly instructor, U. of Cincinnati.

Joseph W. Sassani as assistant professor of surgery/pathology, B.S., Villanova U.; M.D., Jefferson Medical College. Intern, resident, fellow in ophthalmology, ophthalmic pathology, U. of Pennsylvania.

Richard S.K. Young as assistant professor of pediatrics, B.A., Stanford U.; M.P.H., Yale U.; M.D., Yale U. Medical School. Intern, U. of Washington Affil. Hospitals; medical officer, U.S. Public Health Service; resident, Mass. General Hospital.

Richard J. Zaino as assistant professor of pathology, A.B., College of the Holy Cross; M.D., Duke U. School of Medicine. Resident, Duke U. Formerly pathologist, Margaret Pardee Hospital, Hendersonville, N.C.

Carl F. Marfurt as instructor in anatomy, B.S., Fairleigh Dickinson U.; Ph.D., Temple U. School of Medicine.

Penn State Intercom

Invention royalties help support research programs

An \$85,000 royalty check for the licensing of Penn State inventions supports nine University research projects directed by faculty members whose ideas may lead to more inventions.

The check was presented by Michael J. Suber, Research Corporation, New York, to the Pennsylvania Research Corporation (PRC), which manages the University's internal inventions and patents program.

The Pennsylvania Research Corporation receives royalty income and recommends to the University how it is to be spent for faculty research. Research Corporation evaluates Penn State inventions, patents those accepted, and licenses them to industry.

Four of the nine projects receiving new PRC awards deal with mushroom improvements or products. They are:

"Nutrient influence on commercial mushroom growth," Dr. Lee C. Schisler, professor of plant pathology; "Mushroom cultivar identification," Dr. D. J. Royse, assistant professor of plant pathology, and M.H. Jodon, research assistant; "Fruiting of wild mushrooms for possible commercial cultivation," Royse, Schisler, and Jodon; and "Mushroom bacteria by-products as controls for green-plant diseases," Dr. P. J. Wuest, professor of plant pathology.

Energy-efficient vacuum pumps,

implantable power systems for heart assist pumps, separations with supercritical fluids and molecular sieves, photo enhanced field emission from semiconductor surfaces, and study of the Ruud-Barrett stress analyzer briefly describe other projects.

Dr. B.R. Kendall, professor of physics; Gerson Rosenberg, research associate; Dr. Paul Barton, assistant professor of chemical engineering; Dr. T.T. Tsong, professor of physics; and C.O. Ruud, senior research associate, respectively, are the principal investigators.

Six other Penn State faculty members in the past year won Cottrell Research awards, a national grants program sponsored by the Research Corporation. The six who conduct fundamental research in the physical sciences are: Drs. Moses H.W. Chan, Edward T. Dressler, Toshio Sakurai, Ayusman Sen, Barbara J. Garrison, and Antonio C. Lasaga. Penn State awards ranged from \$4,000 to \$15,000.

"In the past year, the University returned inventions and patents program returned about \$180,000 to grants programs," says Robert F. Custard, University patent counsel, "and another \$30,000 directly to Penn State faculty members and former graduate student inventors."

Three Penn State inventions generate

the bulk of these funds. These are the cold flow equipment invented by agricultural engineers William Kjeldgaard and Paul Anderson; heart pacemaker telemetry invented by Robert Brownlee, G.F.O. Tyers, and C. Voltz, and the mushroom delayed release nutrient by Dr. Schisler and former graduate student A.D. Carroll.

U.S. Steel sells the Cold-flow equipment, which more efficiently fertilizes soil and boosts corn silage protein. Intermedics, Texas, has incorporated Penn State telemetry improvements in its heart pacemakers; and Spawmte, California, sells the delayed release nutrient. In 1979, a total of 49 patents on University inventions were active.

"It's a long path for most University inventions to the marketplace," says Dr. Richard G. Cunningham, secretary of the Pennsylvania Research Corporation and vice president for research and graduate studies.

"And the path doesn't end when a company licenses and patents the invention, for most firms spend considerable time and money to perfect and market them. But at this time, when we hear national calls for innovation and productivity advances, we think the inventions and patents program is doubly important."

Telephone Directory procedures changed

This year, the Telephone Directory Information form will not be mailed to faculty and staff members for verification of information to be listed in the "Faculty-Staff Telephone Directory."

All "Faculty-Staff Telephone Directory" information is currently maintained in the University's official payroll file. Provisions have been made for updating office address, home address, office telephone, home telephone, and job title in the Payroll File.

Office and home addresses for all members of the faculty and staff are listed on employee payroll checks or deposit stubs. Employees should verify their addresses. If they are incorrect, the following forms should be submitted to change addresses and/or phone numbers:

1. Office Address and Phone Number — O.A.T.I. Form, Page 8.9, in the General Forms Usage Guide.
2. Home Address and Phone Number — W-4 Form, Page 5.6, in the General Forms Usage Guide.

Employees whose job titles have changed since the publishing of the last telephone directory should submit a Payroll Change Form (Page 5.12 in the General Forms Usage Guide) to change their job title on Official University Records.

All of the above forms are available from Personnel Representatives or Business Managers and must be submitted to Payroll no later than Sept. 12.

Personnel having a second title or office address and wanting both listed must contact Telephone Services no later than Sept. 12.

14 named to Engineering Dean search committee

Fourteen persons have been invited by Provost Eddy to serve on a search committee for the position of Dean of the College of Engineering.

The Committee, which will be chaired by Dr. Carl H. Wolgemuth, professor of mechanical engineering, invites nominations and applications for the position. They should be sent to Room 205 Old Main, University Park, Pa. 16802.

Committee members are: Dr. E. Emory Ensore Jr., associate professor of industrial engineering; Dr. Stephen J. Fonash, professor of engineering sciences; Robert L. Frantz, professor and head of mineral engineering; Dr. Robert S. Friedman, professor of political science; Dr. Louis F. Geschwindner Jr., assistant professor of architectural engineering; Nancy E. Kolb; Dr. Herschel W. Leibowitz, Evan Pugh Professor of Psychology; Alfred R. McClung, professor of engineering at New Kensington; Hollister D. McNeal; Dr. Blaine R. Parkin, professor of aerospace engineering and director of the Garfield Thomas Water Tunnel; Dr. Rosemary Schraer, assistant provost; John L. Swasy, lecturer in marketing; and Dr. Thomas Wartik, dean of the College of Science.

Correspondence study attracting 11,451 students

No one has yet devised a way to teach Speech 200, but some 230 other courses currently enroll 11,451 students in Penn State's Independent Study by Correspondence Division (ISC).

Penn State has the largest non-credit correspondence program and the fourth largest credit program of any college or university in the United States, according to ISC Director David F. Mercer.

"Correspondence is simply a methodology that has a unique feature — the elimination of the time and space constraints of a classroom," Dr. Mercer explains. "And it has a long tradition. Paul's Epistles to the Romans might be called the first correspondence course."

The impetus for correspondence study in this country was the Chautauqua movement, which began in 1874 in New York State as a training program for Methodist ministers and Sunday School teachers. Penn State was an early entrant in the field: "Chautauqua courses" in agriculture were available here as early as 1891. Today, some 70 colleges and universities sponsor courses as part of the nation's open learning movement.

"Open learning is a flexible learning system designed specifically to help adult students fit learning into their work schedules and family responsibilities," explains Marlowe D. Froke, director of Continuing Education's Division of Media and Learning Resources.

"Open-learning courses use a mix of correspondence study materials, television programs, audio cassettes, and other media so that students can study at home and at times most convenient to them. These media also allow students to study at their own learning pace."

Correspondence study thus not only functions on its own but also serves as the backbone for college credit television courses and as part of Penn State's unique

From left, Dr. Mercer confers with registration clerk Tammy Werner and clerk-typist Pat Harchak. Technical secretary Jill Crisman is seated behind them.

PENNRAMA educational service, which beams programs to students through the cooperation of cable television companies.

"Correspondence study was the beginning of open learning," Mr. Froke observes. "The newer media enrich, supplement and complement the basic concepts of correspondence study, resulting in more sophisticated open-learning systems."

"With the exception of Agriculture, each of the Colleges offers correspondence study through Continuing Education," Dr. Mercer continues. "Ag's non-credit courses are operated out of Cooperative Extension; and they focus on such practical, how-to-do-it subjects as

vegetable gardening, horse grooming, home canning and the like."

Ideas for new correspondence courses may be initiated by the Correspondence Study staff, by the Colleges, or even by students.

"Obviously some courses lend themselves more readily to teaching by correspondence," Dr. Mercer notes. "It's difficult to teach courses requiring laboratories, although we do offer Physics 202A with a lab. Each student is provided with a \$500 kit, including such items as a power pack, equipment to build an electric motor, a volt meter and magnets. We rent the kit with a \$22 service charge and a \$50 refundable deposit, less breakage."

Penn Staters

An honorary Doctor of Public Service degree was awarded Dr. Arthur H. Hayes Jr., professor of medicine and chief of clinical pharmacology at Hershey, by his alma mater, the University of Santa Clara. Dr. Hayes graduated from the University in 1955 and was its first Rhodes Scholar. Dr. Hayes has also been elected as one of six members of the board of trustees of the U.S. Pharmacopoeial Convention, the organization which sets the enforceable standards for all drugs and drug ingredients in the United States.

Dr. Susan F. Weis, associate professor of home economics education, has been appointed to the Pennsylvania Advisory Council on Vocational Education by Governor Thornburgh. The Council was established by federal legislation to review vocational education programs in the State, identify problems and needs, and make recommendations for improvements to the State Board of Education and the Department of Education. The Council includes representatives of business, industry, organized labor, education, students and the general public.

The research work of Dr. Kenneth K. Kuo, associate professor of mechanical engineering, has been cited by the Engineering Research Division of the U.S. Army Research Office (ARO) as an "Outstanding Accomplishment." Dr. Kuo's research project, "Combustion Processes in Granular Beds of Solid Propellants," was among four research projects out of 88 cited for special recognition in the Army's 1980 evaluation.

This is the second time Dr. Kuo's work has received special mention from the Army Research Office. The first time was during a previous evaluation in June 1977.

Dr. G. Phillip Cartwright, professor of special education, planned and chaired a national academy to train university and state personnel to develop state-wide plans for educating handicapped children. The academy was held at Gallaudet College, Washington, D.C., in June. Dr. Cartwright, who has just completed a term of office as president of the Higher Education Consortium for Special Education, also was an invited lecturer recently in Austin, Texas. Co-sponsored by the University of Texas and the Texas State Department of Education, he lectured on a state-wide plan for the training of regular educators to work with handicapped children in public schools.

Dr. M. Albert Vannice, associate professor of chemical engineering, presented an invited lecture on the application of infrared spectroscopy to catalytic reactions at the Gordon Research Conference on Catalysis in June. He was elected chairman for the 1982 meeting. He then flew to Tokyo and Seoul. In Japan he attended the 7th International Congress on Catalysis, chairing one session and presenting a paper on iron Fischer-Tropsch catalysts. In Korea, he was one of eight invited lecturers at the 1st Korean Catalysis Symposium. His lecture there described the effect of TiO_2 supports on catalytic activity and selectivity in CO hydrogenation reactions.

Dr. Robert A. Schlegel, assistant professor of microbiology and cell biology, was an invited speaker at two Gordon Research Conferences during June. In a conference on Drug Carriers in Biology and Medicine, he spoke on "Red Cell-Mediated Microinjection - Potential Application in Anticancer." At a conference on Introduction of Macromolecules into Eucaryotic Cells, his subject was "Red Cell-Mediated Microinjection to Study the Diffusion of Cytoplasmic Macromolecules."

Sara Lou Whildin, senior assistant librarian at Delaware County, has been elected to the board of directors of the Association of College and Research Libraries.

Leslie C. Hale, A. Robert Noll Distinguished Professor of Electrical Engineering, presented two invited papers last week at the Vth International Symposium on Atmospheric Electricity in Manchester, England. This meeting is held every four to six years to review developments in a very old but quite active branch of science which was largely initiated by Benjamin Franklin. Dr. Hale's first paper concerned the influence of tiny aerosol particles of probable extraterrestrial origin on atmospheric electricity. The second paper, in a relatively new area, dealt with the coupling of lightning and of the aurora borealis to the "global circuit," a system of electrical currents that flows in the atmosphere of the earth. From England, Dr. Hale travelled to Houston, Texas, to participate in a NASA panel reviewing experiments for a proposed mission to Halley's Comet, which is scheduled to return in 1986.

Ray T. Fortunato, assistant vice president for personnel administration, recently conducted a five-day course on personnel administration in higher education at the College Business Management Institute at the University of Kentucky. In June, he conducted a similar course at Carnegie-Mellon University for a college management institute sponsored jointly by Carnegie-Mellon and the National Center for Higher Education Management Systems.

Dr. Gordon F. De Jong, professor of sociology and associate director of the Population Issues Research Center, recently presented an invited briefing on "Pull-Factors and Motivations for Internal Migration in the United States" to the U.S. House of Representatives Subcommittee on Census and Population, Congressman Robert Garcia, chairman. Dr. De Jong's presentation, part of a series on the Implications of Internal Migration in the U.S., stems from his research on population redistribution in the U.S. and his new project on motives for Philippine immigration to this country.

Three members of the Cooperative Extension Service staff are among 110 agents in the United States who will receive Distinguished Service Awards Aug. 14 at the annual meeting of the National Association of County Agricultural Agents in Oklahoma City.

Those being honored are Duane C. Duncan, Cumberland County Extension director; Robert M. Hetrick, Blair County Extension director; and Robert O. Hobbes, Wyoming County Extension agent. They will be cited for "outstanding educational contributions to Pennsylvania's agriculture."

At the same meeting, David T. Rynd, associate Lawrence County Extension agent, will receive the 1980 State Achievement Award presented annually to a member of the Extension staff with less than 10 years of service who has demonstrated outstanding ability to conduct innovative educational programs.

Bookshelf

Patricia A. Ward, associate professor of French and comparative literature, is the author of a recent study, *Joseph Joubert and the Critical Tradition: Platonism and Romanticism*, published by Editions Droz of Geneva, Switzerland.

Joubert (1754-1824) is best known as a distinguished notebook writer and moralist. He was a literary figure in the circle surrounding the writer-statesman Chateaubriand. By examining Joubert's notebooks in the light of the Platonic tradition in the history of aesthetics and art criticism, Professor Ward shows that he is also an important theorist of the imagination as a creative power which invites ideas as forms. Joubert also contributed to the rise of modern language theory with his view of poetry as verbal structure. By using Joubert as a model, Professor Ward also shows the

contribution of Platonism to the rise of Romanticism in France, Germany and England.

Research for this book was sponsored by a Research Initiation Grant from the University and was undertaken in Paris and at Joubert's family home in Burgundy.

Dr. Harry H. West, associate professor of civil engineering, is the author of a book, *Analysis of Structure: An Integration of Classical and Modern Methods*.

Published by John Wiley & Sons of New York, the book presents classical methods of structural analysis in a format illustrating modern matrix techniques. This approach is designed to help professionals and students use both classical methods and modern computer structural analysis techniques to solve small problems, or to check isolated portions of computer results.

25-year chair

Edward Fleig, a 25-year veteran of the Altoona Campus' maintenance team, was honored recently for his long service to the Campus.

Arriving at Altoona in 1955 when it was fondly known as "Bathhouse U," Mr. Fleig has watched the institution grow to its present 13 building complex.

In presenting Mr. Fleig with a 25-year chair and a plaque commemorating his "many years of loyal and dedicated work," Campus Director Carson W. Veach said: "The Campus family owes a debt of gratitude to Ed and all those who carry the burden of the day to day work which is absolutely vital to our smooth operation."

Obituaries

Ossian R. MacKenzie, emeritus dean of the College of Business Administration, died July 25 after a canoeing accident. He was 72. A graduate of the University of Montana, with a J.D. degree from Fordham University Law School, he served as Penn State's first CBA dean from 1953 to 1973.

Dean MacKenzie was active in many professional organizations. He was international president of the American Assembly of Collegiate Schools of Business from 1964 to 1970 and was a consultant to various government agencies. The author of two books and numerous articles, he was awarded an honorary doctor of laws degree by Rider College. After retirement, Dean MacKenzie taught as a professor of management at Rutgers' Camden Campus.

Lillian M. Nighthart, assistant supervisor of Housing and Food Services from 1938 to 1959, died July 26. A native of Bellefonte, she was 83.

David L. Dreiblebis, a heating and ventilating mechanic at Capitol Campus, died July 23 at the age of 49. Mr. Dreiblebis had been employed at the University since 1963.

Martin M. Gliza, a Housing and Food Services residence hall worker, died July 22. The Morran, Pa., native was 67. He was employed at the University from 1961 to 1974.

Anna M. Pachipko, a counterperson in Housing and Food Services from 1957 to 1969, died July 19. She was 76.

Promotions

Staff Exempt

Kris K. Bradshaw to senior staff technologist at Hershey.
Suzanne Doucette to administrative aide in Student Affairs.

David T. Gingham to supervisor, Kern Cafeteria, in Housing and Food Services.
Robert M. Graver to senior research aide in Agriculture.

Robert A. Hogue to systems analyst in Management Services.

Joye D. Keenan to assistant director - operations in Student Administrative Services.

Barbara A. Noerr to neonatal staff development instructor at Hershey.
Susan H. Steinmeyer to assistant director of broadcasting for programming and distribution in Continuing Education.
Horst VonDorpski to assistant to the dean, undergraduate studies and Commonwealth Campuses in Education.
Brenda J. Wagner to administrative aide in Engineering.

Grace T. Younginger to administrative assistant in President's Office.

Staff Non-Exempt

Sharon L. Cramer to research technician at Hershey.

Elaine M. Oddis to research technician at Hershey.

Michael D. Yarnell to assignment office services assistant in Housing and Food Services.

Clerical

Bobbi B. Amacher to clerk, typist A in Agriculture.

Karen A. Bucari to clerk, accounting A at Delaware County.

Debbie J. Deao to secretary A in Engineering.

Denise Jenkins to secretary B in Student Administrative Services.

Virginia M. Jones to clerk, accounting in Science.

Glenda E. Kellogg to secretary C in Libraries.

Darlene D. Lansberry to clerk A in Graduate School.

Linda A. Lyle to research data processor in Engineering.

M. Elaine Martins to secretary C in Business Administration.

Joan L. Miller to secretary C in Business Administration.

Cathi J. Moyer to secretary B in Engineering.

Sharon Rakowski to secretary B in Continuing Education.

Pamela B. Reese to inpatient billing clerk at Hershey.

Tamula L. Settle to clerk, typist A in Engineering.

Linda D. Steyers to secretary B in Science.

Irene Toth to secretary C in Student Affairs.

Technical Service

Margaret M. Cichy to physical therapy aide at Hershey.

Glenn A. Clouser to toolroom attendant - equipment repair in Physical Plant.

Marion Dickson to laboratory attendant A, in Agriculture.

Steven F. Flick to maintenance worker, area landscape, in Physical Plant.

Donald R. Ishler to maintenance worker, area landscape, in Physical Plant.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Special Events

Thursday, August 7
Late drop deadline for 6 week Summer Term.
Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.
Spectrum, *Red Waring Youth Workshop*
Chorus, 8 p.m., Schwab.

Friday, August 8
Commonplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.
Hong Kong Society film, *Alice's Restaurant*, 7:30 and 9:30 p.m., Room 102 Forum.
Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.
Spectrum, *Red Waring Youth Workshop*
Chorus, 8 p.m., Schwab.
HUB Movies, *Deliriousness*, dusk, HUB Lawn (rain, HUB Ballroom).

Saturday, August 8
France-Cinema, *Bunuel, That Obscure Object of Desire*, 7 and 9 p.m., Room 112 Kern.
Hong Kong Society film, *Alice's Restaurant*, 7:30 and 9:30 p.m., Room 102 Forum.
Festival Theatre, *Can't Help Lovin' dat Kern*, 8 p.m., The Playhouse.
Explayzanza film, *Fillmore*, dusk, Fisher Plaza.
Sunday, August 10
Commonplace Theatre, *The Magic Christian*, 7 and 9 p.m., Room 112 Kern.
Festival Theatre, *Can't Help Lovin' dat Kern*, 7:30 p.m., The Playhouse.

Monday, August 11
France-Cinema, *That Obscure Object of Desire*, 7 and 9 p.m., Room 112 Kern.

Tuesday, August 12
Late drop deadline for 8 week Summer Term.
Fuel Science Seminar, 11 a.m., Room 301
Seattle, Maurice Mulcahy, CSIRO, Division of Process Technology, Australia, on "Flash Pyrolysis of Coal."
Explayzanza Concert, *The Dance Band*, 7:30 p.m., Fisher Plaza.

Wednesday, August 13
Commons Concert, *Rustical Quality Band*, noon, Kern Lobby.

Thursday, August 14
Phi Delta Kappa/College of Education Summer Lecture Series, 11:10 a.m., Room 112 Kern.
Richard Chait, assistant provost, on "Faculty Development in the 1980s."

Correspondence

(Continued from page 1)

Once an idea for a credit course has been developed, it is referred to an academic department in a College for a decision as to whether or not it is feasible. The respective departments, Dr. Mercer emphasizes, maintain complete control over course content. They designate the course's author, a faculty member, who then confers with one of the two full-time editors in the correspondence division. Donald Hild is the editor responsible for sciences, math and engineering courses; Judith Kelley, for the humanities, arts and social sciences.

The editors provide practical advice on how to develop a correspondence course study guide, since teaching at a distance poses special problems. Correspondence students, for example, may not have access to a library, so all references must be incorporated in the study guide and permission obtained to reprint them. Authors are encouraged to draw on their classroom experiences to anticipate questions which may arise as students progress through a course and to deal with them in their guides.

After the editorial conference, which can last from one hour to one day, the author prepares a course outline and a sample lesson to make certain he or she is on the right track. Five part-time editors are available to assist Ms. Kelly and Mr. Hild in editing completed course materials. "Most of our courses are written around commercially available textbooks," Dr. Mercer points out. "The object is not to rewrite the entire text but to adjust it so that whether our students are in

Friday, August 15
Commonplace Theatre, *Louis Malle, The Thief of Paris*, 7 and 9 p.m., Room 112 Kern.
Hong Kong Society film, *Harold and Maude*, 7:30 and 9:30 p.m., Room 102 Forum.
HUB Movies, *The Graduate*, dusk, HUB Lawn (rain, HUB Ballroom).

Saturday, August 16
Shaver's Creek Nature Center, children's program, 9:30-11:30 a.m., Stone Valley. 865-1851 for further information.
France-Cinema, *Wertmuller, Love and Anarchy*, 7 and 9 p.m., Room 112 Kern.
Hong Kong Society film, *Harold and Maude*, 7:30 p.m., Room 102 Forum.
Explayzanza film, *Animal Farm*, dusk, Fisher Plaza.

Sunday, August 17
Commonplace Theatre, *The Thief of Paris*, 7 and 9 p.m., Room 112 Kern.
Hong Kong Society film, *Harold and Maude*, 7:30 and 9:30 p.m., Room 102 Forum.

Monday, August 18
France-Cinema, *Love and Anarchy*, 7 and 9 p.m., Room 112 Kern.
Color Slide Club meeting, 7:30 p.m., Room 189 MRL.

Tuesday, August 19
Ag Progress Days, through August 21, 9 a.m.-5 p.m., Rock Springs Agricultural Research Center.
Fuel Science Seminar, 4 p.m., Room 244 Deike. V.H.J. de Beer, Eindhoven Univ., on "Carbon Supported Solid Catalysts."
Explayzanza Concert, *Duet*, 7:30 p.m., Fisher Plaza.

Fred Waring's Young Pennsylvanians have been part of Summer workshop program culminating in this week's concerts.

Bellefonte or in a nuclear submarine under the ocean, they can study in a logical, orderly fashion and receive help and encouragement as they proceed."

Study guides are designed to break down a course into a series of lessons and to give students the opportunity to prepare materials for regular evaluation by an instructor.

"Out of every 10 authors, I'd say that eight choose to be the instructor for the course they've prepared," Dr. Mercer reports. "Our office does not handle instruction. A department may choose to have its course rewritten, revised or even withdrawn. None of our courses goes more than five years without revision; usually, it's done sooner."

Record keeping is a mammoth job in the ISC office. Last year the staff processed 116,000 lessons—twice—as they were sent in and again when they were returned. About 18,000 current student records are kept up-to-date.

"During any given fiscal year, our editorial staff will work with between 100 to 140 courses," Dr. Mercer says. "We put out about 20 new courses a year and revise an equal number."

This fall, students will pay \$41 per credit for correspondence study as compared to \$69 for resident students at University Park. Non-credit correspondence study costs run somewhat less, the charges varying according to what it has to cost to develop and run a course.

"Our average college credit student is in the mid-20s, married, and working; slightly more than half are male," Dr. Mercer notes. "Non-credit students are more likely to be female and somewhat older. We also offer more than 30 high

Wednesday, August 20
Last day to sign Summer Term Emergency Loans, Room 108 Shields.
Early registration for Fall Term 1980, 8:30 a.m.-4:30 p.m., Shields Lobby. Also August 21 and 22.
Summer Term classes end, 9:55 p.m.
Thursday, August 21
Final examinations.

Exhibits

Chambers Gallery: Randy Cleaver and Kelly O'Connor, BF-A exhibit of sculptures and paintings, through August 20.

Kern Gallery: Zelia Couto, paintings, through August 15; Diane Bosnik, oil paintings, and Jeff Dennis, ceramics, both through August 20.

Museum of Art, CPFA: juried crafts, through August 22; highlights from the permanent collection; Sidney Goodman: paintings, drawings and graphics, 1959-1979.

Pattee Library: Patricia Quill and Andres Pleak, ceramics, through August 15, Main Lobby; Chandra Swami, recent laser photography, East Corridor Gallery; Richard Russell, still life paintings, through August 15, Lending Services Lobby; Grimm's Fairy Tales in English, from the Allison-Shelley Collection, Rare Books Room.

Visual Arts Zoller Gallery: Von Minor and Joe Sweeney, MFA exhibit, mixed media, through August 20.

Funding Sources

For further information, call 865-1372

(340-1) The National Endowment for the Humanities has two Youth Programs: Youthgrants in the Humanities support humanities projects developed and conducted by young people—educational projects, humanistic research, media presentations, and community programs. Awards range from \$500 to \$10,000 and about 100 projects will be funded. A preliminary narrative is due by Oct. 15 and formal applications by Nov. 15. Youth Projects support experimental out-of-school humanities projects for large groups of young people under the direction of experienced professionals in the humanities and in youth work. Awards range from \$1,000 to \$200,000, and about 100 to 150 projects will be funded. Preliminary proposals are due by Dec. 1 and formal applications by Jan. 15, 1981 (Ref: NEH Program Announcement).

(341-1) An Experimental Research Program on Appropriate Technology is supported by the National Science Foundation. Appropriate technologies are those which are decentralized, require low capital investment, are amenable to management by users, conserve natural resources, are in harmony with the environment, small or intermediate in scale, relate to site-available resources and are more labor than capital-intensive. The following topics have current interest: Urban innovation, small-scale industrial technology, recycling, rural revitalization and the small farm, food and nutrition, and appropriate technology—its roles and impacts on society, the economy and technological development. Proposals may be submitted at any time. The agency contact is 202-357-7491. Ref: NSF program announcement.

(343-1) The National Science Foundation Undergraduate Research Participation (URP) Program now includes the Student Originated Studies (SOS) program. Ten- to 12-week summer projects are supported for small groups of students in collaboration with a senior research scientist. Projects are for the scientific (includes social sciences) and engineering disciplines and may be interdisciplinary. The student stipend is \$1200 for 10 weeks full time. Collaborative industrial URP projects are also supported. Guidelines are available. The agency contact is 202-282-7150. (Ref: SE81-21).

From the Press

The Robert Frost Handbook. By James L. Potter. 205 pages. \$14.95.

Dr. Potter, who teaches at Trinity College, has divided this book into four sections to provide a basis for a sound general comprehension of the poet and his work.

Part I contains biographical materials, including analyses of the character and structure of the principal works. An overview of the poems, with references to leading scholarly findings, comprises Part II. In Part III, Dr. Potter shows Frost's relationship to Wordsworth, Emerson and Thoreau and illuminates Frost's critical and creative concern with form, voice and metaphor. The final section offers an annotated list of works by and about Frost.

"And we never have to worry about overenrollment in correspondence study."

Another unusual program offered through ISC is training for apprentices in the automatic sprinkler pipe fitter trade. Under the supervision of Earl Mann, coordinator of special programs for ISC, about 1,000 apprentices of Local 669 study math, technical English, economics, safety, drafting, blueprint reading and sprinkler systems.

"The program is supervised jointly by the union and management, and it is constantly updated," Dr. Mercer says. "Because of the nature of their work, members of this union are always on the move, so this is the only feasible way to get study materials into the hands of apprentices."

Dr. Mercer and his staff would still like to come up with a way to teach Speech 200.

"The Speech Department ruled out audio tapes," he says, "because it's so important to see the student's face and gestures, but who knows? Maybe some day we'll be using video discs."

Or as Mr. Froke observes: "Media still not invented will play their role in the decades ahead."

ARL pianist combines interests in science and art

Life for Dr. Harold Frost is irrevocably enveloped by sound — in one form or another.

A project scientist for nondestructive testing at the Applied Research Laboratory, he works on the development and use of electromagnetic-ultrasound transducers — an area in which he holds two patents, with a third pending. He also collaborates with colleagues in the Department of Physics on research involving liquid helium acoustics.

Away from work, the 38-year-old physicist continues his love affair with sound, albeit in a region more attuned to human ears — music.

Dr. Frost is a pianist of classical orientation who, in fact, gave his first public concert during July's Central Pennsylvania Festival of the Arts. Though he's been steeped in the works of Beethoven, Chopin, Debussy, Ravel, Stravinsky, Gershwin and Ives, his debut in Schwab Auditorium was devoted solely to the music of a contemporary composer — himself.

His works, however, are performed in a manner uncommon to most modern classical pianists. The themes and transitions between sections, for example, are often composed in the traditional sense and committed to manuscript; yet to a large extent the pieces are improvisations, spontaneous compositions.

"Some musicians like to sit down and simply play off the top of their heads, while others play from someone else's scores," Dr. Frost notes. "I'm somewhere in between."

"Improvisation, of course, is very common to jazz today, but improvisation in classical music is not — although the latter used to be an important part of a musician's formal training," he explains. "Improvisation is actually the process of composing 'as you go along,' in a free-flowing and often heart-felt manner. The trick is to make the result something of interest in terms of musical content and keyboard technique."

Dr. Frost's preoccupation with composing and improvising is relatively new. Although he had formal piano training during high school and as a physics major at the University of Vermont (where he also earned his Ph.D.), not until November 1977 did he buy a piano for his home in State College.

Since then, several works have resulted: *Fantasia in A Major*, op. 1, no. 2; *Sonata in A Minor*, op. 2; *Romance in D# Minor*, op. 4; *Rondo in A Minor*, op. 5; and *Sonata in B Major*, op. 6, among others.

"It's the start of a personal journey," he says. "I don't know where it will take me, but it is opening up new possibilities in my own life in terms of scoring films, setting music to poetry, and so forth. I'm exploring some of those projects now."

"I'm not a professional musician, but

my goal is to develop and play as well as I can," he adds.

Because of his relatively late start as a pianist — in high school rather than elementary school — he says that he may never be able to play up to professional concert standards.

"For example, sometimes my fingers simply cannot keep up with the rate of sounds in my mind. Early, concerted use of the hands on the keyboard may be as indispensable to the concert pianist as raw talent; in any event, I can become frustrated in my playing."

He also says his musical ear does not permit him to take a work from a record tape and replay it note for note on an instrument. "It would be a nice gift to have," he muses, "but my lacking it may make it easier for me to transfer ideas and feelings and integrate them into works of my own stamp."

"My own creative process seems to be a mixture of conception and perception. Often what I play is spontaneous and emotive, stimulated only by what I feel and hear 'happening' at the keyboard. But in writing down some of my themes and melodies, for instance, conception comes more into play; then thoughts may dominate the emotions, imposing form and other constraints on the impulse to be totally free. But the tension between these elements is needed, you might say, for the music to appeal to both heart and mind."

Improvisation, he adds, while ostensibly unconfined, is nonetheless heavily influenced by harmonic rules and tradition, by the form of the work, by the ideas the musician has absorbed in listening to others and by the technical level the player has attained.

"Most classical musicians today have a very high level of training in their art — on the average perhaps more than their predecessors in centuries past," Dr. Frost says. "But I sometimes wonder if the emphasis on technique and 'correct' interpretation of someone else's music somehow deprives music of much of its force and power. To me, music needs emotion. If music is flawlessly executed but devoid of emotion, it doesn't work."

Still, he strives for improved technique to carry out his ideas more readily. He recently took private lessons in music theory from Barbara Reeves at the State College Music Academy and currently studies piano with Jeannine Hanson of State College.

And while he can find the expressiveness of music especially captivating, he retains his fondness for the world of science.

"There's more art in music than in science, but there is art in science," the research associate maintains. "What I like about science, for instance, is the opportunity for innovation through rational processes, taking difficult

problems and solving them. I also find it pleasurable to see, through study, the vistas and connections attendant to physics."

"Science and art may seem like totally dichotomous processes, but that's not necessarily true," Dr. Frost concludes. "There's room, and sometimes the need, for impulse and intuition in science. And the traits often attributed to scientists — rationality, discipline, the eagerness to search for answers and to test them — are not uncommon to artists."

By Roger Williams

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 478-1387). Applications for these staff vacancies will be accepted until 5 p.m., Aug. 14, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

PRODUCTION ASSISTANT/DESIGN — UNIVERSITY PRESS, University Park Responsible for the design of a variety of University Press publications, including books, book jackets, journals, advertisements, mailers and catalogs. Specify type, prepare art work, crop and scale photographs and prepare camera-ready mechanicals. Bachelor's degree in art or related field and at least two years of effective experience. Knowledge of typographic and printing processes required.

PRODUCTION ASSISTANT — DEPARTMENT OF PUBLICATIONS, University Park Responsible for coordinating all production details for getting material from manuscripts into printed publication. Activities include: writing print specifications; preparing and adhering to production schedules; all communication, including correspondence among internal editorial and design staff, the client, and the printer. Knowledge of printing processes and ability to do camera-ready preparation are required. Bachelor's degree with emphasis in fine arts, graphic design, language arts or related field and minimum of two years of related experience.

MANAGEMENT SYSTEMS ANALYST — MANAGEMENT SYSTEMS, Hershey Responsible to the Manager, Management Systems for systems coordination, planning and implementation of new and/or revised systems and procedures. Bachelor's degree in computer science, business administration or industrial engineering or equivalency, plus two to three years of effective experience.

PROGRAMMER — MEDICAL COMPUTER CENTER, Hershey Responsible to the Manager of Programming for analyzing the requirements of various systems and for the development of computer programs to fulfill these requirements. Bachelor's degree with knowledge of third generation computers and programming, plus one to two years of effective experience, or an associate degree in data processing, plus two to four years of effective experience.

APPLICATIONS PROGRAMMER/ANALYST — MANAGEMENT SERVICES, University Park Responsible to designated project leader for

News in Brief

Travel regulations in effect for People's Republic citizens

University faculty members hosting citizens of the People's Republic of China should be aware of certain travel regulations required by the U.S. Department of State if these scholars or students travel away from Penn State. Chinese from the People's Republic must notify the Department of State one week prior to any proposed trip off campus, or, in an emergency, phone the Department's Exchange Office at 202-632-1322.

Notification forms are available from the Office of Personnel Procedures in Room 118 Willard Building, according to manager Robert W. Dombrowsky.

Aliens travelling on F-1 and J-1 visas and University personnel representatives have been informed of their travel responsibilities.

Fall Calendar material due

The deadline for submission of information for the Fall Term Calendar is Friday, Aug. 15. Please send material to Lee Morrill, Room 312 Old Main, 865-2501. The Calendar will appear in the Sept. 4 issue of INTERCOM.

Network number change

The Network telephone numbers for the Delaware County Campus have been changed. The new number for the main answering station is 361-2011. Individual phones may be reached at 361-2, using the 3-digit extension number after number 2.

conducting analyses of data processing operations, determining requirements for upgrading operational systems and preparing computer programs to satisfy the end result. Make presentations and submit written reports. Assist in providing direction and control within the specifications of project schedules.

SUPERVISOR, MINERAL PROCESSING LABORATORY — COLLEGE OF EARTH AND MINERAL SCIENCES, University Park Supervise the operation of laboratory — develop testing procedures — analyze results of tests, set up instructional demonstrations, train graduate students, schedule use of facilities. Associate degree in engineering or technical field, plus two to three years of effective experience.

SENIOR INSTRUCTIONAL SERVICES SPECIALIST I, Delaware County Campus Responsible to the Associate Director for Academic Affairs to provide and encourage use of a wide variety of instructional resources by faculty, staff and students; to investigate, evaluate and implement innovations in instructional media and long-range development planning. Bachelor's degree in education, instructional media, etc., and work progressing toward a master's degree or equivalent organized study or training, plus one year and up to and including two years of effective experience in audio-visual or multi-media work.

Applications requested for PEAP directorship

Nominations and applications are invited for the position of director of the Pennsylvania Economic Analysis Program (PEAP). PEAP is a well established program — initiated 40 years ago — to conduct an ongoing analysis of the Pennsylvania economy.

Applicants must have a doctorate in a field appropriate to the program. Related experience is highly desirable. The successful applicant would be expected to affiliate with an academic department and to carry a teaching load of about one-third or less of the normal teaching responsibility. Salary will be based on qualifications. Submit resume to Paul H. Rigby, director, Center for Research, College of Business Administration, Room 801 Business Administration Building, The Pennsylvania State University, University Park, Pa. 16802.

Applications will be accepted until Dec. 1, or until the position has been filled.

Penn State Intercom

News in Brief

Heavy traffic flow predicted for Sept. 2 New Students Day

University Park faculty and staff members are reminded that the general traffic calm which has prevailed on campus during the summer months will come to an abrupt end on Tuesday, Sept. 2, which is New Students Day.

To help keep traffic moving, the Department of University Safety urges employees to plan to:

- 1) Walk to work if possible, or
- 2) Carpool or use public transportation, and
- 3) Not use their cars for trips on campus throughout the day.

One-way traffic will be in effect for the following streets on Sept. 2: Garner-Shortlidge north from Beaver to Pollock; Pollock between Shortlidge and Bigler, eastbound; Mifflin between McKean and Pollock, northbound; Curtin between Allen and Recreation Building, eastbound; and Burrows between Pollock and Curtin, northbound.

The following parking changes have been announced by University Safety for Sept. 2: Persons assigned to Blue G and F lots are asked to park in Orange F and Blue D, those in Orange B should go to Orange L, those in Green D and G to Blue A; and those in Green E and C and Red E and F to Conference Lot (Green K) or Red A. Employees should return to their regularly assigned lots on Sept. 3.

More than 1700 to graduate at Summer Term Commencement

More than 1,700 graduates are scheduled to receive degrees at Summer Term Commencement exercises at University Park Saturday, Aug. 30, at 10:30 a.m. in Recreation Building.

President Oswald will award degrees, assisted by Quentin E. Wood, president of the Board of Trustees.

Provost Eddy will preside at the exercises, at which Nunzio J. Palladino, dean of the College of Engineering will speak.

Commencement exercises at Behrend College and Capitol Campus will bring the University-wide total of graduates to more than 1,800.

Music School elected NASM associate member

The University's School of Music has been elected to associate membership in the National Association of Schools of Music (NASM).

More than 500 universities, colleges and conservatories are members of the Association, which determines accreditation for all music degree curricula in applied music, music theory, composition, music therapy, musicology, and for music as a major in liberal arts programs.

Hertz and Avis offer discount program

As a service of the Educational & Institutional Cooperative Service, Inc. (E&I), Penn State now receives a 30 percent discount from Hertz and Avis Rent-A-Car agencies at most domestic locations, according to W.E. Burget, director of purchasing services.

New parking stickers available

New parking bumper stickers, sporting R.M. Pozniak's copyrighted drawing of the Nittany Lion, are now available from departmental parking representatives. Current stickers expire Sept. 30 and their replacements — valid for two years — must be displayed no later than Oct. 1.

According to University parking coordinator Allan A. Derzak, faculty and staff members who want to register a second vehicle for parking privileges may do so by paying a \$10 second vehicle registration fee (\$2.50 for motorcycles). The fee will be accepted either by departmental financial officers or by the Bursar's Office, who will issue receipts to be presented to departmental parking representatives.

"We anticipate that approximately 1,500 faculty and staff members will pay the \$10 fee to register second vehicles this year, an increase of about 200 from 1978 when stickers were last issued," Mr. Derzak said.

Old bumper stickers need not be turned in to receive new ones, but anyone who

damages a new sticker in the process of affixing it will have to present the remains to get a free replacement.

Dr. Derzak said that the new stickers are to be displayed in the center of the vehicle's front and back bumpers so that they are clearly visible. The bumper must be clean and dry for the stickers to adhere.

"Only the new stickers should be visible," he emphasizes. "Old stickers should be removed or covered by the new stickers. If the old stickers are cracked or peeling, however, the new stickers will not adhere to them."

If the vehicle has rubber or painted bumpers which make removal difficult, or if bumper stickers would deface a bumper, University parking representatives may be able to suggest other form of parking identification.

Mr. Derzak reminds faculty and staff members that when a vehicle is sold, changed or traded in, complete remnants of each of the new serialized stickers must be turned in before free replacement stickers can be issued.

President to talk at U.P. United Way Kickoff

President Oswald, who has been active in United Way activities at the national level for many years, will be the featured speaker at the 1980 United Way Kickoff for University Park Campus on Tuesday, Sept. 9.

The event, the first of its kind to be held at University Park, will begin with coffee and donuts (Dutch treat) at 9:30 a.m. outside Kern Building Auditorium. The hour-long program will start at 10 a.m. and include an advance gifts campaign report, campaign dates, and information helpful to volunteers actually contacting their co-workers on the University Park Campus.

Dr. Richard E. Grubb, senior vice president for administration and chairperson for the University Park Campus United Way effort in 1980, will chair the meeting.

All University Park Campus United Way volunteers will receive personal notification of the kickoff event. Other interested persons are encouraged to attend.

The kickoff is just one aspect of the new directions the United Way program is taking at University Park, according to Dr. Grubb. The program centers on a stronger and more structured internal organization. Emphasis will be on a personal, one-to-one solicitation to inform employees about United Way.

Actual solicitation will be held Sept. 29 through Oct. 10.

The goal for the University Park Campus is to double the number of contributors. In 1979, only 15.9 percent of the nearly 8,000 employees at University Park participated in the drive.

Former Peace Corps workers will share skills

Returned Peace Corps volunteers (RPCV) are available to discuss their hard-won expertise — in subjects ranging from starting a well-baby clinic to stopping soil erosion — as guest speakers in University classrooms.

At least eight RPCVs are enrolled at University Park, according to one of their number, V. Star Campbell, who served in Senegal. "We can provide a 'grass roots' perspective on what is happening in developing countries," she says, "and, more importantly, teach students how theory is applied."

"Students usually don't get a chance to hear about the applied aspects of development," Ms. Campbell continues. "They don't realize that digging a 65 meter well can take almost two years because of lack of infrastructure and equipment, not to mention the corrupt government officials wanting a payoff."

"Digging a well, starting a women's cooperative, or putting in an irrigation system often is not accomplished until the last few months of the volunteers' service."

Before Peace Corps volunteers can attempt to apply their knowledge, they first have to learn one or more languages (usually by living in villages), adapt to a new culture, and maintain — and often lose — their health. This adaptation period of 6 to

12 months is crucial, Ms. Campbell points out, and knowledge about it is important to share with students.

"Digging a latrine is simple. Hundreds of manuals are available to show how it's done," Ms. Campbell says. "But being sensitized to the villagers' needs, determining what is the 'priority' project, and learning to communicate is the 'applied' part. I've found that when I talk to students about these experiences, it stimulates discussion on deeper moral and social questions."

Faculty members interested in contacting RPCVs for classroom presentations should call the campus Peace Corps representative, Mary Keith, at 863-0249, Monday, Tuesday or Friday from 2 to 5 p.m., or write her, care of Room 239 Agricultural Administration Building.

Topics and countries on which RPCVs can currently report include: Ghana — math; Senegal — nutrition and health; Nepal — irrigation and water supply; nutrition, health education; Thailand — journalism; Philippines — nutrition education; El Salvador — soil conservation; Guatemala and Ecuador — public health; Paraguay — home economics, forestry, agriculture; and India — nutrition and health.

Eleven to serve on promotion and tenure review committee

The names of the members who will serve on the University Review Committee on Promotion and Tenure for 1980-81 have been announced by President Oswald. They are:

Senior Administrative Officers — Dr. R.G. Cunningham, vice president for research and graduate studies, chairman; Dr. James B. Bartoo, dean of the Graduate School; Dr. Robert E. Dunham, vice president for undergraduate studies;

Elected by the University Faculty Senate — Dr. Ernest L. Bergman, professor of plant nutrition; Dr. Thomas E. Daubert, professor of chemical engineering; Patricia M. Overdeer, professor of mathematics, Ogontz; Dr. Ronald L. Filippelli, librarian and associate professor of labor studies; John Kolesar, professor of engineering, Wilkes-Barre; Dr. Robert F. Schmalz, professor of geology;

Lindback Awarded Appointee — Dr. J. William Holl, professor of aerospace engineering; and

Evan Pugh Professor Appointee — Dr. Herschel W. Leibowitz, psychology.

Turn-off times given for air conditioning

Air conditioning will be turned off in academic and administrative buildings at University Park starting Monday, Sept. 15, and in research laboratories starting Monday, Sept. 22.

Heat will be turned on in residence halls starting Monday, Sept. 15, and in academic and administrative buildings starting Monday, Oct. 16. In Ritenour Health Center, however, heating will be resumed on Monday, Sept. 1.

The schedule was announced by the University's Executive Energy Conservation Committee.

"Although the dates for cessation of air conditioning are firm, the dates for the resumption of heating are approximate, subject to several days' fluctuation either way as weather dictates," Ralph E. Zilly, EECF chairman said.

The dates for the transition from cooling to heating are based on statistical correlations to 30-year hourly temperature data supplied by University meteorologists.

In other action, the EECF learned from J. Carroll Dean, manager of University energy conservation programs, that installation of computer-controlled light switches in second floor classrooms of Willard Building has been completed and equipment is being tested.

"The system is designed to turn off lights at appropriate intervals to conserve energy," Mr. Dean said, "but it allows manual off-on control from the classrooms."

The EECF was informed that the University is evaluating a battery-powered van made by Taylor-Dunn of Anaheim, Calif., as a possible addition to the Maintenance and Operations fleet.

The potential benefits of the vehicles, Mr. Dean said, are quietness, reduced maintenance requirements, independence from petroleum, and purchase price — several hundred dollars cheaper than internal combustion vans. They also are pollution-free.

Penn Staters

Dr. Parris H. Chang, professor of political science, was asked by Republican Vice Presidential candidate George Bush to prepare a briefing paper for him to study prior to a trip to the People's Republic. Dr. Chang's paper focuses on "Issues and Groups in the Chinese Leadership."

Two faculty members have been named as Fellows of the Institute for the Arts and Humanistic Studies, effective Sept. 1. They are Kenneth R. Beittel, professor of art education, and Charles W. Mann, professor of English, Librarian, and chief of special collections. In announcing the appointments, Institute Director Stanley Weintraub noted that Dr. Beittel "is an unusual blend of scholar, art theoretician and artist. His research in phenomenology and aesthetics, his research into the nature of creativity, and his artistic achievement as a potter have won him several distinguished reputations. Next year he will exhibit at the newly completed Saga Museum of Porcelain and Ceramic Arts in Arita, Japan, evidence of his truly international visibility."

Commenting on Professor Mann, Dr. Weintraub noted that his "encyclopedic knowledge of books and bibliography has long made him one of the University's major human resources. His published contributions to bibliography and to the rare books and manuscripts side of librarianship have given him a national reputation... his *Hemingway Manuscripts* (written jointly with Institute Fellow Philip Young) is a major contribution to scholarship."

Dr. J.D. Hammond, professor of insurance and William Elliott Faculty Fellow, has been appointed by Governor Thornburgh as a member of the Committee for Comprehensive Review of State Workmen's Insurance Fund (SWIF). In addition, Dr. Hammond was elected recently to the 1980 Board of Directors of International Insurance Seminars.

An exhibition of works by Diane Pepe, assistant professor of art, was on display at the Brindl Gallery in Camden, Me., from July 1-26.

Dr. Susan M. Bennett, assistant professor of psychology at the Beaver Campus, was granted a fellowship by the National Endowment for the Humanities to participate in the 1980 NEH Summer Seminars for College Teachers at the CUNY Graduate Center, New York City. The seminar was entitled "Themes in Cross-Cultural Analysis of Women and Society."

Dr. Robert Lima, professor of Spanish and comparative literature, presented an invited lecture at the University of Salamanca. His topic was "Ramon del Valle-Inclan: Un ser complejo en tres dimensiones." Dr. Lima was in Spain doing research for a biography of Valle-Inclan, a noted dramatist, poet and novelist. The University of Salamanca Press will publish Dr. Lima's critical study, *Valle-Inclan: Dimensiones de su vida y obra*, this Winter.

Dr. Daniel B. Litvin, assistant professor of physics at the Berks Campus, served as a research consultant last month for the City College of New York Department of Physics and participated in a seminar there on "Color Groups and Phase Transitions." He also chaired a session and presented a paper on his work at the Ninth International Colloquium on Group Theoretical Methods in Physics in Cocoyoc, Mexico.

Five University faculty members presented a program at the first Global Conference on the Future in Toronto recently. Gerald M. Phillips, professor of speech communication, organized the program, which included papers on topics related to communications by Dr. Phillips, Herman Cohen, professor, Gerald A. Hauser, associate professor, and Douglas J. Pedersen, associate professor, all of the

Department of Speech Communication; and David A. Stern, assistant professor of theatre arts.

Dr. Roger Pennock Jr., associate professor of soils, has received the teaching award of the Northeastern Branch of the American Society of Agronomy. A faculty member since 1964, Dr. Pennock has developed an audiovisual review method to assist students in attaining a firm understanding of course materials, as well as an improved laboratory manual for a course on soil resources and land use.

Dr. Edward J. Massaro, director of the Center for Air Environment Studies and professor of veterinary science, has been appointed to the editorial board of the *Journal of Environmental Health Sciences* Section of the *Journal of Environmental Health and Health*.

Sigmund S. Birkenmayer, professor of Slavic languages, was one of 250 ethnic organization leaders invited to Washington, D.C., for the recent commemoration of the fifth anniversary of the signing of the Helsinki Accords. The program included briefings by President Carter, Secretary of State Edmund Muskie and National Security Adviser Zbigniew Brzezinski dealing with U.S. preparations for the November meeting in Madrid of the Conference on Security and Cooperation in Europe. Dr. Birkenmayer is president of the Association for the Advancement of Polish Studies.

Dr. Joan S. Thomson, assistant for cooperative relations for the Extension Service, has been named Extension coordinator of staff development and training, effective Sept. 1. A member of the College of Agriculture faculty since 1972, she received a Provost's Fellowship last year to participate in the Summer Institute for Women in Higher Education Administration at Bryn Mawr College. She holds three degrees from the University of Wisconsin-Madison—a B.S. in home economics journalism, M.S. in agricultural journalism, and Ph.D. in mass communications.

Two new deans for Student Affairs have been appointed at the Campuses. Louis M. Barsi will fill this post at DuBois and Everett F. Binns at Schuylkill. Since 1977, Dean Barsi has been coordinator of financial aid/testing at the University of Wisconsin at Wausau. He holds a B.A. from the University of Oklahoma, an M.A. from Central Michigan University, and an M.A. Ed. from the University of Northern Iowa. From 1969 to 1976, he was dean of students at Mount St. Clare College.

Dean Binns earned his B.A. (history, 1972) and M.Ed. (counselor education, 1973) from Penn State. He has been serving as assistant dean of student affairs at the Hazleton Campus.

Two appointments have been announced by the Institute for Research on Land and Water Resources. Donald J. Epp, associate professor of agricultural economics, has been named assistant director in charge of the Regional Resources Center. Brian J. Turner, associate professor of forest management, will serve as co-director of the Office for Remote Sensing of Earth Resources (ORSER), with Gary W. Peterson.

Dr. Epp holds a doctorate in agricultural economics, granted by Michigan State in 1967, the year in which he joined Penn State's faculty. His research and teaching have focused on natural resource economic issues. A faculty member since 1969, Dr. Turner has a doctorate in forestry from Yale. He is chairman of the University's Forest Science Program.

Bookshelf

James R. Keiser, associate professor of hotel and institution administration in the College of Human Development, is the author of a new textbook, *Principles and Practice of Management in the Hospitality Industry*, issued by CBI Publishing Co., Inc., of Boston.

Mr. Rothrock

Mr. Haldeman

Mr. Settemyer

The theme of the 430-page book, the conceptual and the practical in hospitality management, reflects the industry's growing importance and increasing challenges. Professor Keiser addresses such contemporary managerial concerns as energy conservation, travel expense, labor relations, guest and employee safety, and productivity.

Economically, the industry Professor Keiser analyzes is already very large. In 1979, for instance, the food service industry enjoyed \$110 billion in business and employed six million people. And by 1987, he predicts, the food service industry will employ more people and earn more money than any other sector of the U.S. economy.

A prime factor in the industry's growth is the increasing American predilection for eating out. By the mid-'80s, he says, Americans will be consuming more food away from their homes than in them.

Retirements

Dr. Wilber W. Ward, former director of the School of Forest Resources, will retire Sept. 1 as professor emeritus of silviculture.

Dr. Ward's association with Penn State began as an undergraduate—he received his B.S. in forestry in 1940. His M.F. was also granted by the University, and he holds a D.F. degree from Yale University.

After experience in industry, he joined the staff of the Mont Alto Campus in 1948 as an instructor, later serving as resident director of the Forestry School's Mont Alto Branch. He transferred to University Park in 1962 and served as director of the School of Forest Resources from 1966 to 1977, when he returned to full-time teaching and research.

His contributions to the profession were recognized in 1979 when he received the Outstanding Service to Forestry award of the Allegheny Section of the Society of American Foresters. He was a director of the Pennsylvania Forestry Association from 1967 to 1976.

From 1966-70, Dr. Ward was a member of the Governor's Council on Natural Resources. He was also member and chairman (1970-71) of the Northeast Forest Research Advisory Council.

August 31 marks the retirement date for three county Extension directors—George L. Settemyer, Juniata; James F. Haldeman, Berks; and Paul T. Rothrock, Lycoming.

Mr. Settemyer, who earned a B.S. from the University in agronomy in 1938, was appointed to the Extension staff in 1947. He holds an M.S. in Extension education from the University of Wisconsin. Mr. Haldeman earned his B.S. in agronomy from the University in 1950, the same year he was appointed to the staff. Mr. Rothrock, also a Penn State alumnus (agronomy '47) has 33 years of service with Extension.

During his 16 years with Penn State, Clyde H. Williams helped to keep the University running through an assortment of jobs.

Mr. Williams, a heating and ventilating technician in Physical Plant, retired Aug. 2. He began his service as a janitorial worker in 1964 and was promoted to maintenance mechanic later that same year. He assumed his position in Physical Plant in 1968.

Mr. Williams and his wife, Verna, presently reside in Warriors Mark. They have two sons; the eldest, James, is employed at the University on the daytime janitorial crew.

Leonard Resides, a vending machine mechanic in Housing and Food Services will retire Sept. 10 after an association with the University which began Sept. 1, 1952.

"Variety's the very spice of life..." is an adage that might well apply in describing Franklin T. Brown's career at Penn State. Mr. Brown will retire Sept. 1 from his position as building services attendant in Continuing Education. During the course of his 16 years with Penn State, he has contributed to the upkeep and maintenance of the University through a number of jobs.

"Keller Building was my favorite," he recalls. "Because of the people I associated and worked with. I enjoyed it very much."

Before coming to Penn State, Mr. Brown was employed in maintenance at the James H. Matthews Company in Pittsburgh. He joined the Penn State staff in 1964 as a landscaper working on shrub maintenance in East Campus. Through the years, his other positions have included being employed as a baker's helper in the Baker's maintenance worker assisting in the preparation of East Halls, custodial work in North Halls, and houseparent in McElwain and Waring Halls.

Mr. Brown, a widower, has a son and a daughter and seven grandchildren. He is currently keeping busy with a move to McElwain Residences in State College.

Ms. Meyer

Ms. Conley

Mr. Williams

(Continued from page 2)

25-year chairs

Patricia A. Meyer received her Penn State 25-year chair this month — four years late. "I guess," she says smiling, "I never caused enough of a disturbance so people knew I was here."

The error actually resulted because of the break in her service. She started at Penn State in October 1950 as a secretary in the Psychology Department and then worked as a clerk-typist in the drafting room at Olin from 1952 to 1956. At that time, she moved to Virginia for a year, returning in February '57 as a key punch operator with Management Services. She is currently an assistant supervisor in the key punch area.

Grace Conley may not be able to account for the quick passing of her 25 years with Penn State, but Housing and Food Services has counted on her natural mathematical and organizational abilities to keep track of things other than days.

She joined the Penn State staff in 1955 as an inventory clerk, maintaining the inventory of dining hall food. She was promoted to bookkeeping machine operator A in 1971 and to data processing clerk in 1976, with added responsibility for not only food inventory but also for budgets.

Ms. Conley started her present position as an accounting clerk with Housing and Food Services in 1978. In a job that she finds to be "fun and interesting," her days are actively filled with duties such as doing billings for the department and posting ledgers for the HUB and Housing and Food Services.

Promotions

Staff Exempt

Annie L. Burney to assistant extension agent in Agriculture.

John B. Burton to assistant extension agent in Agriculture.

James F. Campbell to assistant director for Continuing Education at Wilkes-Barre. Jan Marie Escott to assistant extension agent in Agriculture.

Lewis H. Fisher to maintenance foreman at Delaware County.

Diane M. Henry to assistant extension agent in Agriculture.

Ruth E. Hollender to sensory laboratory coordinator in Agriculture.

Mary T. Kiernan to assistant dean of student affairs at Behrend College.

Nellie L. Kirker to assistant extension agent in Agriculture.

Jan M. Knorr to assistant extension agent in Agriculture.

Joanne M. Kollar to catalog editor in Publications.

Lee K. Pupal to assistant extension agent in Agriculture.

Sheranetta Reid to assistant extension agent in Agriculture.

Jeffrey F. Schlader to systems analyst at Hershey.

Christine H. Shrift to assistant extension agent in Agriculture.

Frank X. Simmons to assistant extension agent in Agriculture.

Jane E. Swartz to assistant extension agent in Agriculture.

Christine A. Tomascik to assistant extension agent in Agriculture.

Evelyn Vitello to assistant extension agent in Agriculture.

Arlene K. Weyandt to assistant extension agent in agriculture.

Roger L. Williams to director of campus relations at Capitol.

Martha M.Z. Wojcik to assistant extension agent in Agriculture.

Staff Non-Exempt

Christine Malinaki to senior research technician at Hershey.

Christine A. Whittington to documents services assistant in Libraries.

Clerical

Betty A. Anderson to secretary C at Hershey.

Patricia M. Long to clerk, accounting A in Continuing Education.

Angela R. Lucas to patient care clerk at Hershey.

K. Melinda Meyers to secretary C in Continuing Education.

Christine Wilson to secretary C in Engineering.

Technical Service

Joseph Reed Kocher to maintenance worker, utility, in Applied Research Laboratory.

Irvin H. Meyers to truck driver, laundry at Hershey.

Bonnie L. Osevala to environmental health worker — group leader at Hershey.

Obituaries

Elizabeth B. Bachman, a secretary with Continuing Education after her retirement in 1976, died Aug. 9 at the age of 64. After joining the staff in 1966, she also worked as a clerk typist and campus scheduler with Continuing Education.

Angelo E. Corege, a utility worker at the Nittany Lion Inn, died Aug. 14 at the age of 36. A native of Mill Hill, he had been employed at the Inn since July 1970.

Leroy Mensch, a houseperson with Housing and Food Services from 1951 to 1958, died Aug. 5 at age 87.

Carpoolers

Duane Stinner needs one rider for a carpool leaving Houtdale at 6:30 a.m. and State College at 4:30 p.m. Phone 865-4651 or 814-378-5231.

Lawrence Rotiner needs a daily ride from Bellefonte, to arrive for work at 8 a.m. and leave campus at 1:30 p.m. Phone 865-1841.

Irene Toth would like to ride with someone from Bellefonte, to arrive for work at 8 a.m. and leave campus at 1:30 p.m. Phone 865-1841.

Elsewhere in Academe

Comparative financial statistics for community and junior colleges during 1978-79 show that a majority get at least two-thirds of their money from state and local government, and half get less than a sixth of their income from tuition and fees. The report, published by the National Association of College and University Business Officers, also shows that the average community college allocates little more than 1 percent of its total budget to scholarships and fellowships.

The College Scholarship Service reports that the average tuition at private, four-year colleges and universities in 1980-81 will be \$3,279, up 10.1 percent from last year. At public colleges and universities the average charge for '80-'81 will be \$706, an increase of 4.4 percent.

Students at private institutions will pay an average of 14.3 percent more (\$6,082) in total expenses; that those at public four-year institutions, 12.7 percent more (an average of \$3,409).

Data compiled by the College Placement Council show average salary offers to many of this year's baccalaureate degree holders are higher than those extended to last year's graduates. The highest offers went to engineers, led by petroleum engineering with \$23,844 annually, 10.8 percent above 1979. Second-ranked chemical engineering, at \$21,612, experienced a 9.7 percent gain.

Percentage increases in average salary offers for business graduates ranged from 7.2 percent, for accounting majors, to 10.5 percent for business-general. These gains brought the average offer for these disciplines to \$15,516 and \$14,616 per year, respectively. Computer science majors received offers averaging \$18,696, an 11 percent rise.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1237 (network line 475-1237). Applications for these staff vacancies will be accepted until 5 p.m., Aug. 28, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

JUNIOR ENGINEERING AIDE, APPLIED RESEARCH LABORATORY Responsible to the Project Engineer or designated Senior Engineering Aide for assistance in the fabrication, testing, installation, operation, and maintenance of non-standard electronic parts, components and equipment. Associate degree or equivalent in electrical engineering technology program and more than three months of effective experience are required. Position may require travel on field assignments, including assignments aboard ships at sea.

ENGINEERING AIDE, APPLIED RESEARCH LABORATORY Responsible to the Project Engineer or Senior Engineering Aide for the design and layout of routine electronic circuitry. Assist with the conduct of tests and with the collection, compilation, and analysis of data. Fabricate and construct electronic components and equipment. Requirements include associate degree or its equivalent in electrical engineering technology program, plus two to four years of effective experience in the design and fabrication of experimental equipment. Position may require travel on field assignments, including assignments aboard ships at sea.

HOUSING SUPERVISOR, COLLEGE OF MEDICINE, HERSEY Responsible to the Director of Business Services for coordination and management of housing units. Maintain uniform assignment policies and procedures to assure equitable handling of all eligible applicants. Bachelor's degree in business administration, with three to four years of college/university or private apartment management experience.

SENIOR RESEARCH INSTRUMENTATION AIDE, COLLEGE OF SCIENCE Responsible to the Supervisor, Research Instrument Group, to assist in the design, construction, packing, documentation and maintenance of nonstandard instruments in the Chemistry Department. Associate degree or its equivalent in electronics required, plus three to four years of effective experience with scientific instrumentation or electronic components of instrumentation. Experience with analytical instruments and a basic knowledge of chemistry, physics and mechanics are highly desirable.

AREA REPRESENTATIVE, CONTINUING EDUCATION, YORK CAMPUS This position is responsible for the functions of development, organization, operation, and administration of assigned geographic district. Bachelor's degree or equivalent, plus two to three years of directly related experience.

Aug. 21-Sept. 4 Special Events

Thursday, August 21

Final examinations.

Friday, August 22

Final examinations.

Saturday, August 23

Final examinations.

Shaver's Creek Nature Center, children's program, 9:30-11:30 a.m., Stone Valley. 865-1851 for further information.

Sunday, August 24

Residence halls close for Summer Term, 3 p.m.

Monday, August 25

International Student Arrival Day Orientation, 8:30 a.m.-5 p.m., Room 101 Kern.

Fuel Science Seminar, 2 p.m., Room 301 Seidle.

Aldo D'Illorono, Istituto di Ricicco Sulla Combustione, Naples, Italy, on "Soot and Polycyclic Hydrocarbon Flames."

Tuesday, August 26

International Students Orientation, 9:30 a.m., through August 26, Kern Bldg. and Eisenhower Chapel.

Wednesday, August 27

Special Physical Chemistry Seminar, 4 p.m., Room 333 Whittome, Dr. Richard Zellner.

Univ. of Göttingen, on "Non-Arrhenius Behavior in Bimolecular Gas Reactions of the Hydroxyl Radical"

Thursday, August 28

Summer Term Commencement, 10:30 a.m., Rec. Hall.

ASSISTANT DEAN OF STUDENT AFFAIRS, STUDENT AFFAIRS, HAZLETON CAMPUS Responsible to the Dean of Student Affairs for assistance in the overall operation of student affairs programs and services at the Hazleton Campus including administration and coordination of specific areas such as financial aid, Commons Building management, student and cultural affairs programming, student organization administration, student orientation program, preparing the Campus student handbook and assisting with the on-campus high school visitation programs. Requirements include master's degree in student personnel administration, counseling or related field, or equivalent training, plus two to four years of effective experience.

PATIENT FOOD SERVICE SUPERVISOR, COLLEGE OF MEDICINE, HERSEY Responsible to the Assistant Food Service Manager for operation, scheduling and supervision of personnel in the Food Service Department. High school plus at least two years of formal outside training, and two to three years effective food service experience, are required.

AREA REPRESENTATIVE, CONTINUING EDUCATION, McKeesport Campus This position is responsible for the functions of development, organization, operation, and administration of Continuing Education programs and services within an assigned geographic district. Bachelor's degree or equivalent, plus two to three years of directly related experience, are required.

MAINTENANCE FOREMAN, Worthington Scranton Campus Plan, schedule and directly supervise the maintenance and janitorial staff in all aspects of maintaining the grounds, building and equipment of the Campus. High school graduate with several years of trade training, two to four years of directly related experience in carpentry, electrical work, landscaping, plumbing, painting and maintenance, and supervisory experience are required.

ART ASSISTANT, CONTINUING EDUCATION Responsible to the Art Specialist for the design and execution of art work as assigned for use in television or film production, public display, or as visuals for meetings, conferences, etc. Maintaining professional standards and creativity under deadline and budgetary limitations. Bachelor's degree or equivalent, plus a minimum of one year of directly related experience are required. Employees should have experience as an artist in television and must understand set design and set construction. Experience with designing, laying out and the mechanics for printed pieces (posters, flyers, letterheads, etc.) is also necessary.

RESEARCH AIDE, COLLEGE OF AGRICULTURE Prepare and perform various types of experiments related to poultry behavior, which includes numbering, birds, pedigree hatching, electrode implanting. Collect and record behavioral data, calibrating 1cm and 35mm camera equipment, tape records, electrophysiological instruments and direct observations. Assist with data analysis, organization. Submit data for computer analysis, organize output and prepare preliminary evaluation. Prepare drawings, graphs, figures and charts of data collected. Responsible for laboratory equipment maintenance and orderliness of laboratory. Bachelor's degree or its equivalent in biology, animal science, etc., with three to six months of effective experience, are required.

Monday, Sept. 1

Labor Day. University offices closed

Tuesday, Sept. 2

Faculty study areas distributed for Fall Term,

7-15 a.m., Room 106 Central Palace.

Information, 865-5422.

News in Brief

(Continued from page 1)

Employees who present an E&I Cooperative Service discount sticker will automatically be charged the most advantageous rate by the rental agencies. Hertz and Avis stickers, which may be used for either business or pleasure trips, are available by sending a simple request in writing to Joan Everhart, Room 219 Shields Building. Telephone requests will not be honored.

Stickers should be affixed to the employee's major credit card—American Express, VISA, Mastercard, Air Travel Card, etc.—since all billings will be made directly to the individual.

Continuing Education registration is Sept. 4-5

Nearly 30 college credit courses will be available at University Park during evening hours this fall through Continuing Education. Anyone with a high school diploma or its equivalent may register.

Registration will be conducted Thursday, Sept. 4, from noon to 8 p.m., and Friday, Sept. 5, from 9 a.m. to 5 p.m. in Room 101 Kern Building. Counseling is available to students enrolling in courses through Continuing Education both at registration and throughout the term by appointment.

Students taking Continuing Education courses are not required to seek admission to the University unless they wish to become degree candidates. Credits earned through part-time study may be applied toward a baccalaureate degree. Many noncredit courses have also been scheduled for Fall Term in fields of interest to persons in business and management positions, food service administration, insurance, real estate and nursing. Special courses are offered for persons wishing to develop skills in calligraphy, Chinese cooking, or children's literature.

Further information and a descriptive brochure are available from Penn State Continuing Education, Room 102 Bouckee Building, University Park, PA 16802, or by phone (814) 865-3443.

Libraries' term break schedule

Special hours have been announced for the University Libraries during the break between Summer and Fall Terms.

The Pollock Library will remain closed from midnight, Friday, Aug. 22, until 9 a.m., Monday, Sept. 8.

On Saturday, Aug. 23, the last day of final examinations, Pattee Library and the branch libraries will be open from 7:45 a.m. to 5 p.m. All libraries will be closed Sunday, Aug. 24.

Pattee and the branches will be open from 7:45 a.m. to 5 p.m., Monday through Friday, Aug. 25-29. The libraries will be closed Aug. 30, 31, and Sept. 1.

Tuesday through Friday, Sept. 2-5, the hours will be 7:45 a.m. to 5 p.m. After closing Sept. 6 and 7, the libraries will resume regular Fall Term hours Sept. 8.

Regular Fall Term hours for Pattee will be 7:45 a.m. until midnight Monday through Thursday; 7:45 a.m. to 9 p.m. Friday; 7:45 a.m. to 4 p.m. Saturday; and 1 p.m. to midnight Sunday.

Branch libraries' hours are the same as Pattee except that closing time is 11 p.m. Sunday through Thursday.

Craft Center registration to be held Sept. 3-13

First session registration for the HUB Craft Center will be held Sept. 3-13 from 12 noon to 5 p.m. in Room 312 HUB. An open house is scheduled Sept. 9 from 7:30-9:30 p.m. and classes will begin Sept. 14.

Classes include wheel-pottery, handbuilt pottery, loom weaving, calligraphy, macramé, tapestry, batik, silkscreen and stained glass.

A second session will be offered in October, with registration the week of Oct. 5 and classes opening Oct. 14.

Kellogg to support five-year study

Penn State, with funding from the W.K. Kellogg Foundation of Battle Creek, Mich., has begun a major project to develop practice-oriented programs in continuing education for professional people.

Supported in part by a \$1,175,000 Foundation grant, the five-year project will enable a Penn State team to work with associations and practitioners in six professions to develop educational models that will have applicability to a wide range of professions.

"Because this project is one of the first efforts calling for continuous collaboration between the professions and higher education, it has nationwide implications," said Carl A. Lindsay, head of Planning Studies in Continuing Education and director of the University-wide project.

Widespread concern for continuing education for practicing professionals has grown out of increased public pressure for accountability, periodic relicensure requirements in some fields, and increased complexity in the business world, according to Dr. Lindsay.

Penn State conducted a pilot study which led to the development of what it calls a "Practice Audit Model." This seven-phase process begins with the organization of a project team for each profession and ends with ongoing evaluation after continuing professional education programs have taken place.

"The University is committed to integrating continuing professional education into the academic and administrative structure of the University," said Dr. Arlon E. Elser, a Foundation program director in education. "This program is a major effort to implement an intra-University, inter-professional Continuing Professional Education initiative, and it also represents a new dimension in W.K. Kellogg Foundation support."

An important first step in the newly

funded project will be the appointment of a national advisory group to assist in the selection of six professions, to which the Practice Audit Model will be adapted.

One of the goals of the project is to demonstrate that the Practice Audit Model has the flexibility to be adapted to a wide range of professions and occupations.

"We also hope that one outcome of the project will be the strengthening of ties between professions and the higher education system in the United States," Dr. Lindsay continued. "The rapid expansion of knowledge, especially in the technical and health-related professions, has led professionals and the associations which represent them to recognize the importance of keeping up to date with these developments."

"The Penn State/Kellogg effort attempts to bring together the resources of the professions and the University to help solve the problem of professional obsolescence."

Floyd B. Fischer, vice president emeritus for Continuing Education, who was instrumental in developing the project proposal, stated, "Through this project the University is affirming its long-term commitment to continuing professional education and emphasizing its importance for the 1980s and beyond."

In 1930, breakfast cereal pioneer W.K. Kellogg contributed \$45 million in personal wealth to establish the Kellogg Foundation.

(344-1) Research support for colleges and universities continues to expand significantly through Department of Defense extramural research opportunities. Some of these are in cooperation with NSF, NASA, DOE, and HHS(NIH). Others are through the DOD services: AFOSR, ARO, and ONR. For details about DOD lab and university programs ask us for OFF Report 7/31/80, Item No. 15 and/or call Dr. Bill Fox, DOD, at 202-697-4506.

Four differing orientations distinguished in department head study

Interviews with 39 University department heads were conducted by Ann Kieffer Bragg for her doctoral dissertation in higher education. While a general feeling of role conflict was common to study participants, Dr. Bragg was able to distinguish four ideal types among them. She has categorized their orientations as (1) faculty, (2) external, (3) program, and (4) management.

Department heads falling into the category of faculty orientation, according to Dr. Bragg, "described their primary responsibilities as recruiting, developing and evaluating faculty members; facilitating the work of the faculty; reducing intra-departmental conflict; and improving faculty morale."

The department heads viewed as externally oriented "described their primary responsibilities as representatives/brokers or as grantsmen," Dr. Bragg writes. They sought to increase the number of research grants and contracts in their departments, to obtain more space and equipment, to improve graduate or professional training within the department, and to enhance the department's external image.

To create the best program or programs possible was the goal of department heads categorized as program-oriented. They were trying to boost departmental productivity by generating more student credit hours and attracting more majors. "Most were also keenly aware of changes in direction within the discipline or profession to which the department needed to respond," points out Dr. Bragg, who is director of educational relations and special assistant to the Senior Vice President for Administration.

Prestige and productivity were listed as their principal goals by management-oriented department heads, who were

particularly concerned with the efficiency and effectiveness of departmental operations.

Dr. Bragg found that department heads in each of the above categories "reported a pattern of socialization experiences—prior work experiences, identification of peers and role models, and future career plans—different from the pattern reported by department heads in the other typologies."

Faculty-oriented heads, for example, had little or no work experience outside academe. They identified scholars whose research they admired as positive role models and thought of senior faculty members as their peers. They considered themselves faculty members rather than administrators and expressed their intention to return eventually to full-time faculty status.

"A sensitivity to management practices permeated the socialization of management-oriented department heads," Dr. Bragg points out. "Their expectations of the heads role appeared to be derived not from experience as a teacher-scholar but from their prior experience as administrators and from observation of and interaction with other administrators. . . . They considered themselves administrators rather than faculty members and seemed to enjoy being department heads."

Externally-oriented heads seemed to derive their role expectations from their associations within their field of study and had accumulated previous, helpful experiences as successful grantsmen or as active members of a national professional association. They considered both department faculty members and other heads as their peers, and saw few conflicts between faculty and administrative statuses.

Program-oriented heads reported an average of 12 years of prior experience as practicing professionals or as academic administrators. Unlike department heads in the other typologies, they identified charismatic role models who had been "towering figures" in their fields. They considered themselves faculty members in some situations and administrators in others.

Among Dr. Bragg's other findings are:—At the time of their interviews, the "typical" head in the study sample was a 46-year-old male full professor who had earned a terminal degree 15 years earlier and had served four years or less as a head.

—Only four of the 39 interviewed said they had actually planned to be or worked to become a department head.

—Most heads had had some prior experience they felt was helpful, such as serving as a research center or project director.

—The department heads generally reported a positive overall self-evaluation of their performances.

—Little or no formal orientation was provided when the heads assumed their roles, although informal guidance was supplied by college deans and their staffs.

—Two-thirds of the sample disliked the idea of the three-year rotating chairmanship, voicing the opinion that the time was too short to exert academic leadership. Almost half approved of a five-year fixed term, especially if the term was renewable after a review.

—Sixty-two percent of the heads planned to return to full-time faculty status when they stepped down.

—Sixty-four percent viewed themselves primarily as faculty members; 23

percent saw themselves as administrators; 13 percent felt they had to be both equally.

Dr. Bragg notes that most of the department heads interviewed expressed "some role conflict" evidenced by reported feelings of role ambiguity, role overload or general dissatisfaction with particular aspects of the heads role. The similarity of department head frustrations suggested that role expectations were unclear or inconsistent and/or feedback on role performance has been inadequate.

Dr. Bragg suggests that institutions can take a number of steps to reduce the tensions inherent in juggling the roles of leader, manager and scholar as reported by the department heads in her study.

"Unlike business and industry, academic institutions have tended to interpret role ambiguity as freedom. . . . she writes. "This research, however, suggests that there may be a point where ambiguity becomes counterproductive. . . ."

"A clear and consistent presentation of expectations of department heads during the selection and orientation processes and the provision of support and frequent formal feedback and informal encouragement could reduce the department heads feelings of role ambiguity, overload and general dissatisfaction with the heads role," she concludes. "The operative word here, however, is 'reduce.' The aim of incumbency socialization and of the suggestions given for changes in college and university policies and procedures is not to produce happy, and perhaps self-satisfied, department heads, but rather to remove some of the barriers that seem to be preventing growth and creativity in department heads' role performances."

Penn State Intercom

Admissions Dean discusses plans for student recruitment in '80s

"It's been an intriguing year," Admissions Dean Donald G. Dickason says of his first 12 months at Penn State.

As the first Penn State dean to get around by moped, Dean Dickason and his helmet have become a familiar sight shuttling back and forth between his office in Shields Building and central campus. With the help of more conventional transportation, he has managed also to cram in trips to 20 of Penn State's Campuses.

Although 18- to 22-year-old enrollments are projected to decline by 27 percent between 1978 and 1990, Penn State is still holding its own, Dean Dickason reports. As Fall Term opens, the University has 11,500 paid accepts (entering new students), down by about 800 from the boom year of 1979. "System-wide, a drop of 800 is not that much," Dean Dickason points out, "but some interesting factors are at work. For example, our total number of applications was off about 3 or 4 percent. Applications for University Park stayed up, but the yield—the percentage of offers which students accepted—dropped by about 4 percent from last year.

"At the same time, while applications for the Commonwealth Campuses and Behrend College declined, their yield was sustained at about the same level as last year. We're still puzzling over the causal factors. Still, to put all of this in context, we are above 1978 in virtually all of our statistics.

"We're particularly pleased—in the light of events at Three Mile Island—that enrollments at Capitol Campus have held up very nicely."

Among the Colleges at University Park, Dean Dickason notes that Liberal Arts is a "big winner" this year. Its new student enrollment climbed from 843 in all terms in 1979 to an estimated 913 for 1980. Engineering is the only other College to register an increase in 1980, up 75 from 835 in 1979. Arts and Architecture will have the same number of students, but the College added two departments (music and art education) in 1979.*

Penn State currently attracts applications from about a third of all the high school college-bound graduates in Pennsylvania, year in and year out. The Admissions staff, however, is also looking farther afield—to out-of-state recruiting.

"To say we have 'recruited' out-of-state to date is oversteating the situation," Dean Dickason says. "We only began to pay attention to out-of-state students about three or four years ago. Since then, applications have increased about 50 percent, representing a 6 percent larger proportion of the total applicant pool; the number of paid acceptances has also increased by about 50 percent."

Does Dean Dickason think Penn State can make up any losses it may suffer from declining in-state enrollments by attracting students from other states?

"If we were to lose 5 percent of our pull in Pennsylvania, we could probably get 5 percent more from out-of-state," he answers. "I don't know whether we could get 10 or 15 or 20 percent more. But I am

convinced that Penn State's image is very strong outside the state and that we have some additional capability there.

"The yearly American Council on Education studies of the attitudes of in-bound college students show a dramatic change in the University's image. In 1977, 59 percent of our freshmen said they had chosen to attend Penn State because of its academic image. In 1978, the number jumped to 65 percent, and in 1979 to 69 percent. That's a good deal of shift, and I think it's a very positive signal."

In this issue:

- 1980-81 Revised Administrative Guidelines for P5-23, pages 4-5
- Fall Term Calendar, pages 6-7

The Undergraduate Admissions Office has spent the past year gearing up for an expanded recruiting push at Penn State. "When I came last fall, most of the activities for the 1979-80 operating year were already planned and in motion," Dean Dickason notes.

Secondary School Relations and the old Admissions Office had been merged and placed under the Office of the Provost.

"Having Admissions report to the University's chief academic officer makes it part of the academic process, and that's where I think it should be," Dean Dickason comments.

Following the merger, the newly centralized office was reorganized by regionalizing its staff. Dean Dickason explains that in the past each Admissions staff officer had a particular responsibility such as advanced standing students, provisional students, readmits, and the like. To bolster efforts in the field, Admissions officers are now assigned in groups of five or six to four regions—eastern, central and western Pennsylvania and out-of-state. In this way, staff members come to know the guidance counselors in their areas. They can maintain contacts with students there, handle any complaints and make school visits.

Dean Dickason

Subscriptions still available for the Artists Series

Less than a week remains to purchase an Artists Series 1980/81 season subscription. Subscriptions will be sold from 9:30 a.m. to 12:30 p.m. and 1:30 p.m. to 3:30 p.m. in Pine Cottage until Wednesday, Sept. 10.

The Music Series will open the 1980/81 Artists Series season on Sunday, Sept. 14, with the pianist John Browning. This series will also include performances by the Goldovsky Grand Opera Theatre in *The Barber of Seville* (in English), the Minnesota Orchestra with Neville Marriner conducting, the Empire Brass Quartet, the Wuerttemberg Chamber Orchestra with conductor and trumpet virtuoso Maurice Andre, and the Gewandhaus Orchestra of Leipzig.

The Pittsburgh Chamber Orchestra, with violinist Szymon Goldberg, will open the Fine Arts Series Friday, Oct. 10. Other Fine Arts performances include Metropolitan Opera baritone Hakan Hagegard, the Concord String Quartet, the New York Woodwind Quintet, and oboist Heinz Holliger. As a bonus for subscribers to this series, two additional concerts—the Pittsburgh Chamber Orchestra with pianist Boris Bloch on Saturday, Oct. 11, and the hilarious Intimate P.D.Q. Bach on Friday, Feb. 13—may be added to a Fine Arts subscription for a nominal price.

Dr. Tischler

Changes made in Senate officers

A change in its officers will be the first order of business confronting the University Faculty Senate when it assembles for its first meeting of the new academic year at 2:10 p.m. on Tuesday, Sept. 9, in Room 112 Kern Building.

The Senate's chairman-elect, Edward H. Klevans, professor of nuclear engineering, is relinquishing his post in order to assume another position in the University. (His new responsibilities will be announced later in the month.)

According to the Bylaws of the Senate, the secretary of the Senate becomes interim chairman-elect, so the latter office will be filled by the present secretary, Dr. Nancy Tischler, professor of English and humanities at Capitol Campus. Next May, in its regularly scheduled elections, the Senate will choose both a new chairman and a chairman-elect.

Before the September meeting, the elected representatives of Senate Council will choose a successor to Dr. Tischler.

A member of the faculty since 1966, Dr. Tischler previously taught at Susquehanna and George Washington Universities. A graduate of Wilson Teachers College, she earned her M.A. and Ph.D. in English at the University of Arkansas. She has been a Fulbright Scholar and a Danforth Associate. She is the author of several books, including *Dorothy L. Sayers: A Pilgrim Soul*, *Legacy of Eve: Images of Women in the Bible*, *Black Masks: Negro Characters in Modern Southern Fiction*; and *Tennessee Williams: Rebellious Puritan*.

A light docket will greet senators at the opening session. The Committee on Academic and Physical Planning will present a status report on construction projects as of June 27, 1980. An informational report on administrator/faculty perceptions of the role of Continuing Education activities in promotion and tenure decisions will be presented by the Committee on Continuing Education. The report includes the results of questionnaires submitted to faculty members and administrators in November 1979.

A status report on BDR II will be presented, as well as the annual informational report on the Division of Undergraduate Studies (DUS), and one in a series of continuing reports reviewing the Extended Degree in Administration of Justice.

Sept. 12 deadline for phone directory

Members of the faculty and staff are reminded that Friday, Sept. 12, is the deadline for submitting changes in addresses, phone numbers and titles for the new "Faculty-Staff Telephone Directory."

Procedures for compiling the Directory were changed this year, and the customary information form has not been mailed to faculty and staff members for verification. Provisions for continuous updating of information have been made in the University's official payroll file.

Office and home addresses for all members of the faculty and staff are listed on employee payroll checks or deposit stubs. Employees should verify their addresses. If they are incorrect, the following forms should be submitted to change addresses and/or phone numbers:

1. Office Address and Phone Number—O.A.T.I. Form, Page 8.9, in the General Forms Usage Guide.
2. Home Address and Phone Number—W-4 Form, Page 5.6, in the General Forms Usage Guide.

Employees whose job titles have changed since the publishing of the last telephone directory should submit a Payroll Change Form (Page 5.12 in the General Forms Usage Guide) to change their job title on Official University Records.

All of the above forms are available from Personnel Representatives or Business Managers and must be submitted to Payroll no later than Sept. 12.

Personnel having a second title or office address and wanting both listed must contact Telephone Services no later than Sept. 12.

*All of these projections were made before students had participated in the Freshman Testing, Counseling and Advisory Program, so some variations can be expected.

Penn Staters

Dr. Robert C. Bealer, professor of rural sociology, has been chosen president-elect of the Rural Sociological Society. Founded in 1937, the Society serves a worldwide membership of rural sociologists in research, teaching, and extension. The author of more than 150 publications, Dr. Bealer conducts research in the area of metasociology — the application of sociological theory to research — and the continued significance of rurality in American society. He was appointed to the faculty in 1958 after receiving undergraduate and master's degrees from Penn State and a Ph.D. in sociology and anthropology from Michigan State.

Dr. Robert O. Blanchard, director of the School of Journalism, has been elected vice president and president-elect of the American Association of Schools and Departments of Journalism. AASDJ membership includes the deans and directors of the accredited journalism and mass communication programs at 80 universities in the United States.

Dr. Roland M. Leach, professor of poultry science, has received the American Feed Manufacturers' Association Award of \$1,000 for achievements in research into poultry nutrition. This is a major national award in the field of poultry research.

Dr. Leach's research effort has focused on three areas — mechanisms of egg shell formation, trace elements and the food chain, and leg weakness in turkeys and broiler chickens. A graduate of the University of Maine, he received his M.S. and Ph.D. in nutrition from Purdue and Cornell, respectively. He has been a faculty member at Penn State since 1968.

Dr. Carolyn Wood Sherif, professor of psychology, delivered the presidential address to Division 35 (Psychology of Women) of the American Psychological Association on Sept. 3 at the Association's annual meeting in Montreal. Her topic was "Needed Concepts in the Study of Gender Identity." In addition, Dr. Sherif was one of four speakers in a panel on "Eminent Women in Psychology," and presented a paper, "Involvement of the Self in Cognitive Processes."

Dr. Robert W. Ott, associate professor of art education, has returned from the University of Toronto, where he served as Distinguished Gaiskell Professor in the Visual Arts, responsible for graduate seminars and lectures on museum education. Dr. Ott also conducted a Foreign Studies Course in Museum Education in London and Amsterdam with the cooperation of a number of British and European museums.

Robert Trehy, professor of music and IAHS Fellow, performed as baritone soloist this summer with the St. Louis Symphony in two concerts devoted to the works of Rodgers and Hammerstein.

Dr. Della M. Roy, professor of material science, presented six papers in Paris at the week-long Seventh International Congress on the Chemistry of Cement.

Dr. Joseph Jordan, professor of chemistry, was one of the nine American scientists to participate in the Heyrovsky Memorial Congress on Polarography in Prague, Czechoslovakia, Aug. 25-29. His trip was supported by a grant from the National Science Foundation. He presented an invited lecture, "Electron Transfer Paths within the Prosthetic Groups of Hemoproteins," and moderated a panel.

At a colloquium on Bernini and His Influence held at the American Academy in Rome, Dr. Hellmut Hager, professor and head of art history and IAHS Fellow, presented an invited lecture, "Some Observations on Bernini's Architectural Legacy."

Roy Vollmer, associate professor of architecture, was an honorary research fellow at the City of Birmingham Polytechnic in Birmingham, England, this summer. He was studying prehistoric architecture.

Dr. James B. Stewart has been appointed assistant professor of economics and director of the Black Studies Program at the University, effective Sept. 1. Dr. Stewart, 33, has had similar responsibilities at the University of Notre Dame since 1975.

Dr. Stewart earned his B.S. in mathematics at the Rose Hulman Institute of Technology, his M.A. in economics at Cleveland State University, and his Ph.D. in economics at Notre Dame. His research interests center on economic development, economic problems in predominantly black communities, and the history of economic thought and methodology. He is co-author of *Regulation, Value and the Public Interest* and has published numerous pieces in scholarly journals. A member of the executive board of the National Council for Black Studies, Dr. Stewart held a National Endowment for the Humanities Independent Study Fellowship last year.

Caroline D. Eckhardt, associate professor of English and comparative literature and director of the Comparative Literature Program, is the editor of a book, *Essays in the Numerical Criticism of Medieval Literature*, published by the Bucknell University Press. The book, to which Professor Eckhardt contributed a chapter, a preface, and a bibliographical note, is a collection of studies of such medieval authors as Dante and Chaucer. The premise behind "numerical criticism" is that both the structure and the symbolism of literary works may be mathematical, governed by significant quantitative patterns or proportions.

Dr. Mary Lou Romanek, assistant professor of music education at McKeesport, presented a paper, "Cantometrics and World Music for the Early Childhood Music Curriculum," at the International Society for Music Education, XIV World Congress, in Warsaw, Poland, earlier in the summer.

Dr. James Hammond, associate professor of medicine at Hershey, has received a senior international fellowship from the Fogarty International Center of the National Institutes of Health (NIH). Dr. Hammond will use the fellowship for 12 months of study at the Medical Research Center, Prince Henry's Hospital, Melbourne, Australia. The fellowship was established by Congress and NIH "to provide an opportunity to representatives of the best in the American health sciences for a meaningful exchange of thought and expertise with foreign colleagues to the mutual benefit of all concerned." Three other faculty members have received the fellowship since 1978. They are Dr. John Connor, professor of pharmacology; Dr. Richard Santen, professor of medicine; and Dr. Richard Rose, associate professor of surgery and physiology.

Dr. Paul H. Cutler, professor of physics, presented papers in Japan and India during July. At the 27th International Field Emission Symposium in Tokyo, he spoke on "Recrystallization and I-V Characteristics of Metal-Vacuum-Metal Point-Contact Junctions of Identical Metals. I. Effects of Temperature and Multiple Image Interactions." His co-author was Dr. Nicholas M. Miskovsky, assistant professor of physics at Altona.

In New Delhi, Dr. Cutler presented an invited talk on "Metal-Vacuum-Metal Point-Contact Junctions" at the National Physical Laboratory.

Stuart Frost, professor of art and a Fellow in the Institute for the Arts and Humanistic Studies, has received his 25-year chair from the University.

Professor Frost, who teaches classes in

Professor Frost

Professor Kocher

drawing and painting, received his B.A. from the University in 1949. He continued his studies at the Skowhegan School of Painting and Sculpture and the Brooklyn Museum School, and also studied art history at New York University.

His works have been selected for exhibition in group shows throughout the country, including at the Museum of Modern Art and the Metropolitan Museum of Art in New York City. One-man exhibitions of his work have been held in college and university galleries in Pennsylvania, Maryland and New Jersey; and his artwork is in the permanent collections of the Butler Art Institute, the Pennsylvania Academy of the Fine Arts and the Dulin Gallery of Art.

As a student, Mr. Frost served as an assistant to Henry Varnum Poor when the muralist was executing the Land Grant Frescos in Old Main. He also worked with Allyn Cox on the frescoes in the Capitol Building in Washington, D.C.

Promotions

Faculty

Elizabeth M. Buckmaster to assistant professor of English at Delaware County.

John L. Swasy to assistant professor of marketing in the College of Business Administration.

Staff Exempt

Adele M. Britton to assistant dining hall supervisor in Housing and Food Services.

William R. Klingler to recreational therapist at Hershey.

Staff Non-Exempt

Deborah R. Kreiger to senior staff nurse at Hershey.

Clerical

Virginia A. Van Norden to secretary B in Continuing Education at Delaware County.

Technical Services

Grace L. Boldin to food preparer A in Housing and Food Services.

Holly M. Neff to food preparer A in Housing and Food Services.

Bonnie J. Stahlin to food production helper in Housing and Food Services.

Steven R. Wallace to utility worker at Hershey.

for this examination. He is also an associate editor of MAA's *American Mathematical Monthly*.

During the fall semester, he will teach mathematics at Baylor University.

Gladys F. Traficante is retiring as a food production worker at the Altoona Campus on Sept. 13. She has been a member of the staff since Sept. 14, 1970.

Joseph R. Watson, a Waste Water Treatment Plant operator and a member of the staff since 1962, retired Sept. 2.

Carpoolers

Clinton E. Henson is seeking a ride from Crickelwood Drive in Toftrees, leaving at 7:30 a.m. and returning at 5 p.m. Phone 865-5481 or 238-5697.

Obituaries

John E. Flynn, professor of architectural engineering, died Aug. 25 at the age of 50. A member of the faculty since 1973, Professor Flynn held a B.Arch. from the University of Michigan and had previously served as a professor of architecture at Kent State University, held a research position with General Electric, and had his own architectural firm. His research focused on the psychological effects of light.

Professor Flynn was a Fellow of the Illuminating Engineering Society and served as its national president in 1979-80. He was also a member of the U.S. National Committee of the International Commission on Illumination, serving as international chairman of the committee on environmental lighting.

Constance R. Hoerner, manager of central stores at The Milton S. Hershey Medical Center, died Aug. 17 at the age of 54. A member of the staff since 1970, she had also been employed as a patient unit administrator and coordinator and as coordinator of central services.

Patricia T. Hogan, a research assistant at Hershey, died Aug. 24. She was 51, and had been employed at the Medical Center since 1971.

Harold W. Klingler, a sign and print shop operator with the Office of Student Affairs, died Aug. 24 at the age of 64. He was employed at the University from 1968 until his retirement in January 1979.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1347 (network line 475-1347). Applications for these staff vacancies will be accepted until 5 p.m., Sept. 11, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam war veteran.

SENIOR TECHNICAL SPECIALIST, CONTINUING EDUCATION Assist small business in the transfer and application of high technology for purposes of economic development. Provide person-to-person assistance in interpreting research findings, solving technical problems and similar technology transfer activities. Master's degree or equivalent in engineering field or physical science, plus at least seven years of related experience.

TECHNICAL SPECIALIST, CONTINUING EDUCATION Assistant small business in the transfer and application of high technology for purposes of economic development. Provide person-to-person assistance in interpreting research findings, solving technical problems and similar technology transfer activities. Master's degree or equivalent, plus two to four years of effective experience. Technical skills experience desirable.

TECHNICAL ASSOCIATE, CONTINUING EDUCATION Assistant small business in the transfer and application of high technology for purposes of economic development. Provide person-to-person assistance in interpreting research findings, solving technical problems and similar technology transfer activities. Bachelor's degree or equivalent in an engineering field or physical science, plus two to three years of effective technical experience required.

WRITER-EDITOR, APPLIED RESEARCH LABORATORY Responsible to the Personnel Director for planning and conducting an internal and external information program to communicate the activities of the Applied Research Laboratory to the Navy, research, and university communities, and various national, state, and local agencies. Gather information about Laboratory activities, write and edit news articles and release to appropriate agencies utilizing external and internal sources of communication. Bachelor's degree or equivalent in journalism, with one to two years of effective experience in writing, editing and publications work required.

ASSISTANT TO THE MANAGER, HETZEL UNION BUILDING STUDENT AFFAIRS Responsible to the Manager, Hetzel Union Building, for the supervision and operation of the HUB's physical facilities, equipment and programs during the evening and week-end hours of operation. Bachelor's degree, plus one to two years of effective experience or

equivalent, are required. Must have demonstrated ability to supervise, train, and direct other employees and to serve politely, but firmly, the general public.

RESEARCH AIDE, COLLEGE OF SCIENCE The research aide will work with several groups in the Physics Department in developing new research apparatus. An associate degree or equivalent in electronics, engineering technology, or physics, plus two to three years of effective experience, are the minimum qualifications. Initial appointment will be until June 30, 1981. The position may or may not be continued, depending on whether funds are available.

MANAGER, CENTRAL STORES, COLLEGE OF MEDICINE, HERSHY Responsible to the Manager, Material Handling, for scheduling and coordinating personnel and problem within the Central Stores area. Troubleshoot function areas on a daily basis to insure a smooth operation within Central Stores. Requirements include a bachelor's degree or equivalent education, plus three to four years of effective experience working in a hospital, particularly in the area of material handling, inventory control, etc.

ADMINISTRATIVE ASSISTANT, STUDENT AFFAIRS, CAPITOL CAMPUS Responsible to the Director of Student Affairs for the planning, implementation and execution of all programs and services for international students at Capitol Campus. Providing staff support to the Director in the areas of office management, budget planning, developing and coordinating Student Affairs publications, coordinating a variety of special projects, conducting appropriate studies and teaching English as a second language to international students. Bachelor's degree or equivalent, plus one to two years of effective experience, required. Experience in teaching English as a second language and working with international students is desirable.

WRITER/EDITOR, SENIOR VICE PRESIDENT FOR ADMINISTRATION, PUBLIC INFORMATION AND RELATIONS Responsible for writing and editing articles for INTERCOM and FACES OF PENN STATE and for providing public information support for a particular college/colleges for the News Bureau. Also does layouts and oversees production for both publications and establishes regular channels of communications with deans, administrative officers, department heads and faculty members in the development of publicity and public information programs. Must have ability to write well, fast, accurately and to edit and lay out a solid newspaper. Bachelor's degree in journalism or liberal arts, plus one to two years of effective experience in a writing position on a newspaper or in a public information office. Higher education experience desirable.

EDITORIAL ASSISTANT, CONTINUING EDUCATION Will research and write 30 15-minute weekly television programs for nationally distributed instructional series on current events for grades 4, 5, and 6. Responsible for cooperating with production team. Experience in news reporting, television or radio scriptwriting and/or editing is highly desirable. Candidates must submit a sample script with application. A degree or equivalent in journalism, English, speech communication, or related field required. This position is a full-time, fixed term position from Sept. 2, 1980, through May 31, 1981.

Photo from Penn State Room collection shows Poor and his daughter, Anne, working.

Talk on Land Grant Frescoes is Sept. 9

"Painting the Land Grant Frescoes in Old Main" is the title of an illustrated talk to be presented by Dr. Harold E. Dickson, professor emeritus of art history, Tuesday, Sept. 9, at 7:30 p.m. in the HUB Assembly Room.

Dr. Dickson will also show a 15-minute color film of artist Henry Varnum Poor at work on the murals. The film was made by Penn State's Motion Picture Studio.

Dr. Dickson's lecture, which is sponsored by the Department of Art History, is part of his campaign to call attention to the Land Grant Frescoes during the year in which Penn State is celebrating the 125th anniversary of its founding.

"June 18," he notes, "was the 40th anniversary of the completion of the murals."

The murals, which were contributed by Penn State students and Class of 1932 alumni, are, according to Dr. Dickson, "a pictorial wrap-up of the institution's founding and significance as a link in the chain of American land-grant colleges." Dr. Dickson and two colleagues, the late Francis E. Hyslop and J. Burn Helme, conceived the idea of getting Penn State a major work of art.

"A mural came to mind," Dr. Dickson explains, "because of the exciting work Mexican painters were doing at the time. Obviously, hiring a Mexican revolutionary was out for Penn State, so we went to Washington to examine the work of some

of the muralists the government was using to decorate federal buildings. After we saw Poor's murals in the Justice Department, we knew we had our man."

The three professors then turned their attention to fund raising. "We took to convincing, cajoling, angling and button-holding," Dr. Dixon recalls. "Students heard about murals in classes, on campus and in their most secret Greek dens."

With a promise of \$4,500 from the Class of 1932, Poor was hired — one of the stipulations being that he paint in public. Fresco watching became a principal student pastime, Dr. Dickson remembers.

The actual process of fresco painting will be illuminated in Dr. Dickson's Sept. 9 lecture.

"Henry Varnum Poor, exceptionally versatile and one of the soundest craftsmen in American art, has not been superseded in his mastery of the enduring medium of fresco," Dr. Dickson says.

A member of the faculty from 1923 to 1964, Dr. Dickson is widely known for his research on American art history. Among his recent contributions are two exhibits and catalogs.

At the opening of the University's Museum of Art in 1972, he organized the exhibit, "Masterworks by Pennsylvania Painters in Pennsylvania Collections." On the occasion of the Bicentennial, he arranged the "Portraits-U.S.A." show at the Museum.

Robeson Center to hold film festival, exhibit

A black film festival and an exhibition honoring 19th century black leader Frederick Douglass are among the early Fall Term activities at the Paul Robeson Cultural Center.

The film festival, which is sponsored by the Center and the Black Studies Program, will open with *Watermelon Man* on Wednesday, Sept. 10, at 7:30 p.m. in the Cultural Center. Films will be shown on successive Wednesday evenings at the same time and place, and all shows are free of charge and open to the public. Specific listings will appear in the weekly INTERCOM calendar.

As part of the festival, Oliver Franklin, a producer, director and professor of film at the University of Pennsylvania, will

discuss Afro-American filmmaking and show a collection of short films on Oct. 8.

The exhibition, "The Frederick Douglass Years: 1817-1895," opens Saturday, Sept. 6, and runs through Oct. 5. It is divided into four chronological sections that trace the history and accomplishments of Douglass in his fight against slavery and discrimination.

Born a slave, Douglass escaped in 1838 to become a lecturer, editor, black rights activist, vice presidential candidate and U.S. Minister to Haiti.

Distributed by the Smithsonian Institution Traveling Exhibition Service, the exhibit also contains a section of materials on black history.

Artists Series

(Continued from page 1)

Highlights of the Theatre/Dance Series are The Long Wharf Theatre's production of *The Lion in Winter*, The Elephant Man, The Jose Limon Dance Company, the Pennsylvania Ballet with orchestra in a production of Delibes' *Coppelia*, Vincent Price as Oscar Wilde in *Divisions and Delights*, and the Bella Lewitzky Dance Company.

The Drama Series will replace the previously announced programs of the National Theatre of Great Britain, which has cancelled its national tour, with performances by actress Uta Hagen in a monodrama entitled *Charlotte and Orson Welles' Moby Dick Rehearsed*, with the McCarter Theatre Company.

Peter Hack's play *Charlotte* will be presented on Friday, Dec. 5. This play is about Goethe's mistress, Charlotte von Stein. Uta Hagen, who portrays Charlotte, has won Tony and Drama Critics awards for her performance as Martha in Albee's *Who's Afraid of Virginia Woolf*.

On Saturday, March 26, the well-known professional Princeton performers, The McCarter Theatre Company, will present *Moby Dick Rehearsed* by Orson Welles. A group of Shakespearean actors rehearse a staged version of the hunt of the great white whale and gradually the stage becomes the deck of Ahab's whaling ship.

The distinguished husband-and-wife team, Ossie Davis and Ruby Dee, in *Inside/Out* on Friday, Nov. 7, and actress Irene Worth in *Letters of Love and Affection* on Friday, Jan. 23, round out the Drama Series.

In addition to its regular season, the Artists Series will present as a special event, *A Chorus Line*. Tickets to this musical are available only to subscribers to the Music, Theatre/Dance, Fine Arts, and Drama Series, and can be purchased at the same time as a subscription.

Seminars

Sept. 4-14

Monday, Sept. 8

Man-Environment Relations, Daniel Stokols, environmental psychology, UC-Irvine, on "Situational and Personal Determinants of Commuting Stress," 1 p.m., Room 5131 Human Dev.

Tuesday, Sept. 9

Physics, 3:50 p.m., Room 445 Davey. Donald R. Yennie, Cornell Univ., on "The Hadronic Structure of the Photon in High Energy Interactions."

Thursday, Sept. 11

Art Pollution, Robert J. Heinsohn, mechanical engineering, on "Pennsylvania Art Pollution Regulations," 2:20 p.m., Room 69 Willard Computer Science, John Hopcroft, computer science, Cornell Univ., on "Developments in Randomized Algorithms," 4 p.m., Room 325 Whitmore.

Acoustics, 4 p.m., Room 73 Willard. C. Pilot. Applied Viscoelasticity Lab., Institut National des Sciences Appliquées, Villurbanne, France, on "Viscoelastic Properties of Polymeric Systems."

Friday, Sept. 12

Physical Chemistry, Barbara Garrison, chemistry, on "Classical Trajectory Studies of Ion Bombardment of Solids," 2:30 p.m., Room 333 Whitmore.

Libraries, the Deans of Capitol Campus and Behrend College

the University Promotion and Tenure Review Process

and the Dean of Academic Instruction for Commonwealth Campuses of any changes to be incorporated into the Guidelines for conducting promotion and tenure reviews, and advise them to proceed with promotion and tenure reviews in their respective academic units.

- By October 15 of each year, the Office of Personnel Administration shall provide the college deans, the Director of Intercollege Research Programs and Facilities, the Dean of University Libraries, the Deans of Capitol Campus and Behrend College, and the Dean of Academic Instruction for Commonwealth Campuses with a report of all academic staff accumulating credit toward tenure within their respective units, indicating the number of years of credit earned toward tenure as of the next July 1, and identifying those subject to final tenure review.
- Faculty members beginning service at the University in 1978-79 or after normally will be reviewed during the second, fourth, and sixth years of service. Faculty members in service at the University prior to 1978-79 will continue on the schedule of first, third, fifth, and sixth-year reviews. (See PS-25 September 15, 1978, for further details.)
- Promotion and tenure reviews should begin immediately following notification by the Provost of the University.
- Promotion and tenure recommendations from the Commonwealth Campuses shall be forwarded to the college and University Libraries deans and the Dean of Academic Instruction for Commonwealth Campuses as specified in the policy before December 1. The college and University Libraries deans and the Dean of Academic Instruction for Commonwealth Campuses shall be jointly responsible to coordinate the reviews at the campus, department, and college levels to allow for adequate periods of review at each level.
- Reviews for promotion and for the granting of tenure at the department level shall be completed by or before February 1.
- Following the reviews at the college or University Libraries level, the positive recommendations made by the dean for promotion and for the granting of tenure shall be forwarded by the appropriate dean to the Provost of the University through the Office of Personnel Administration for transmittal to the University Promotion and Tenure Review Committee no later than March 15. This shall include those recommendations for promotion and for the granting of tenure for faculty members holding joint appointments in a college and in an intercollege research program. The appropriate administrative officer shall promptly inform those faculty members who did not receive a positive recommendation.
- The Director of the Intercollege Research Programs and Facilities is responsible for coordinating promotion reviews for personnel in the intercollege research programs. The Director shall forward positive recommendations for promotion for faculty not holding joint appointments in a college to the Provost of the University through the Office of Personnel Administration for transmittal to the University Promotion and Tenure Review Committee no later than March 15. The appropriate administrative officer shall promptly inform those personnel who did not receive a positive recommendation.
- For faculty members holding joint appointments in two or more colleges, the positive recommendation shall be forwarded by the college responsible for the largest share of the salary.
- At the same time that recommendations are forwarded to the Provost of the University, a summary of the general procedures followed in the reviews shall also be forwarded, as specified in the policy along with a summary of the decisions/recommendations made at each review level (campus, department, and college) for promotion and tenure. Appropriate explanation and documentation regarding significant instances of differences in judgment shall also be submitted. (The colleges shall utilize comparable procedures, as appropriate, for evaluating nominees for promotion from instructor to assistant professor. The deans of the college shall be reported to the Provost of the University through the Office of Personnel Administration.)
- By May 1 of each year, deans shall also complete the reviews of all other faculty members who are either not subject to a final tenure decision that year or not recommended for promotion that year. To insure that faculty members are appropriately informed of the results of these evaluations, deans shall remind department chairmen annually of their responsibility to inform candidates of the results of these reviews. A summary of these reviews and actions, to be forwarded to the Provost by May 15, shall include a list, by department, of faculty members continued in provisional tenure after a first, third, or fifth-year or second, fourth, or sixth-year review. The summary shall also list faculty members not reappointed and tenure-track faculty members who have resigned.
- The University Promotion and Tenure Review Committee shall complete its deliberations and forward its recommendations for promotion and tenure through the Provost of the University to the President of the University no later than July 15 of each year. The materials forwarded shall include all correspondence between the University Promotion and Tenure Review Committee and the deans and Director of Intercollege Research Programs and Facilities. The President shall notify, in writing, all recipients of promotion and tenure awards. Copies will be provided to the appropriate deans, the Director of Intercollege Research Programs and Facilities, campus directors, and the Office of Personnel Administration.
- Nomination process and development of the dossier.
- Faculty members will be reviewed for promotion only after having been nominated first in one of the following ways:

- Normally by an appropriate academic administrator.
- A person may be nominated by the initial peer review committee after the committee has consulted with the appropriate administrative officer.
 - With respect to nominations from the Commonwealth Campuses, directors and deans should confer with each other regarding proposed nominations.
 - In the case of University Park candidates for promotion and/or tenure, department heads shall have initial responsibility for the preparation of a complete and accurate dossier. For faculty members on a Commonwealth Campus, that responsibility shall rest with the Associate Director for Academic Affairs or the Assistant Director for Resident Instruction.
 - A standard format for organizing the material in the dossier shall be used by all academic units. Supplemental support materials (books, reprints, syllabi, etc.) shall be retained by the initial administrator and/or review committee and not forwarded with the dossier unless requested by those responsible for the next level of review. Deans and campus directors will receive copies of the format which shall be required for 1980-81. It is the responsibility of the deans and directors to inform faculty members and administrators in their respective areas of the content required in and format of the dossiers. Each faculty member shall be required to supply relevant information for the dossier and each faculty member shall be afforded the opportunity to place pertinent materials in the dossier prior to the commencement of the formal review process in accordance with the stipulations cited here in section C.3., and in section C.5. below as regards external letters of reference. In addition, prior to the commencement of the formal review process, candidates shall be afforded the opportunity to review for accuracy and completeness the factual records and informational material contained in the dossier with the exception of all documents, letters, and communications deemed confidential. As indicated above, the department head, the Associate Director for Academic Affairs/Assistant Director for Resident Instruction, or other appropriate administrative officer is initially responsible for preparing an accurate, complete, and properly organized dossier for each candidate within his/her administrative area. It is ultimately the responsibility of the dean to assure that each dossier sent forward follows the proper form and is authentic and complete. The University Committee will return to the dean any dossiers that have been prepared inadequately.
 - Dossiers should not contain the following items unless they are obviously appropriate and useful in making professional recommendations:
 - Evaluative statements written by the candidate.
 - Statements about a candidate's personal life unless they are germane to the quality of the candidate's work.
 - A vita which restates information presented elsewhere in the dossier.
 - Samples of the candidate's publications.
 - Letters of appreciation or thanks.
 - Courtesy outlines.
 - All committees and administrators who have reviewed previously a candidate's dossier shall be informed if any factual changes are made subsequently in the original materials. Committees and administrators shall not receive the written statements of evaluation and recommendations made at subsequent review levels. Throughout the process the privacy rights of individual candidates shall be respected.
 - All external letters of reference and evaluation shall be obtained by the relevant dean and included in the candidate's dossier from the very outset. That is, external letters of reference should be made available at all levels of review. Every effort should be taken to ensure that external letters arrive before the review process begins. Should letters arrive after the review process has started, members of the review committees which have already made a recommendation shall be notified by the dean of the presence of these letters, permitting them to retract their letter and afford an opportunity to reconsider their recommendation.
 - The dean may delegate to the cognizant department head responsibility for the solicitation of external letters but in no case should the candidate solicit letters directly. All letters should be dated upon receipt. The name of the letter writer and the date of the letter's entry into the dossier shall be noted on a log placed immediately after the divider for the section of the dossier in which the external letters are placed. The log shall not be made available to the candidate at any time.
 - External letters are mandatory for all candidates for promotion to professor and/or tenure. It is expected that dossiers will include a minimum of three external letters. External letters are optional for candidates at the associate professor level, unless promotion is recommended before tenure is granted.
 - The purpose of the external letters is to provide an objective evaluation of the candidate's achievements and reputation according to the criteria on which the individual is being judged. Critical evaluations are sought best from authoritative sources, such as for example, experts with established reputations. In order to achieve the fullest objectivity, it is not desirable to solicit evaluations from former teachers and students or from colleagues who are not current with the individual's work. Letters from these and similar sources should be obtained only when they can provide information about a candidate's performance that is not available otherwise.
 - Evaluative role of committees.
 - All individuals and committees responsible for evaluating a given candidate shall have the same factual record available.
 - Department heads, campus directors, and deans should collaborate with their respective committees to inform all individuals on the committees are well informed about each

- candidate. Although it is not required, such administrators may serve as resource persons to those review committees representing the units for which they have responsibility; however, the administrators shall not be members of the independent judgments of the committees shall render.
- Each review committee and each administrative officer shall summarize in writing their independent evaluation of a given candidate on each of the four general criteria. Administrative (department heads, division heads, directors, deans) evaluations of candidates should not include specific references to sources of confidential evaluations such as outside letters of evaluation or peer committee evaluations. These evaluative statements, along with the recommendations, shall be inserted in the candidate's dossier. Each of the summaries shall be signed. When a candidate has not received a unanimous committee vote, the evaluation should include a discussion of the reasons for the divergent opinions.
 - For candidates being considered for tenure, a summary of the first, third, and fifth-year (or second, fourth and sixth-year) reviews shall be included in the dossier by the campus, department, and college administrators.
 - Each succeeding level (locus) has the responsibility to review the preceding committee and administrator statements concerning each of the candidate's qualifications and the documentation. Special emphasis should be given, however, at each level of review to the particular criteria and perspective of that level, consistent with the broader University criteria.
 - Campus (programmatic): Particular emphasis should be placed on the evaluation of teaching ability and effectiveness and evaluation of service to the University and to the public, in addition to research competence and scholarship and mastery of subject matter.
 - Department (programmatic): Particular emphasis should be placed on research competence and on scholarship and mastery of subject matter, in addition to teaching ability and effectiveness and service to the University and to the public.
 - College: The college committee(s) review(s) department and/or campus recommendations for promotion and tenure in light of:
 - College criteria.
 - Documentation of accomplishments.
 - Equity among departments.
 - Procedural fairness.
 - University: The University Committee reviews all previous recommendations for promotion and tenure in light of:
 - University criteria related to teaching ability and effectiveness, research competence, scholarship and mastery of subject matter, and service to the University and to the public.
 - Documentation of accomplishments.
 - Equity within and among colleges.
 - Procedural fairness.
 - Faculty members at Behrend College, Capitol Campus, and in the College of Medicine shall be reviewed using procedures similar to those for faculty at University Park.
 - Although a candidate's time-in-grade is not a criterion for promotion, it is incumbent on the relevant administrator(s) to provide persuasive documentation to justify the promotion of a faculty member in instances that diverge in any significant way from the normal promotion pattern for a department, campus, or college.
- ## V. REQUESTS FOR REDUCTION OF PRIOR TENURE CREDIT
- A reduction in prior tenure credit may be permitted upon the written request of a faculty member and subject to the concurrence of the appropriate dean. ("Prior tenure credit" is defined as credit awarded to the faculty member at the time of appointment to a tenure-track position.)
- Limit for submitting requests.

A request for reduction in prior tenure credit will be considered only once for each faculty member. The request must be made during the first year of the tenure-eligible service at Penn State or prior to the completion of the fourth year, inclusive of prior credit, of tenure-eligible service, whichever occurs first.
 - Dean's approval.

The appropriate academic dean has the authority to approve a request for a reduction of prior tenure credit as outlined in this policy. The dean may not rescind more years of service than requested by the faculty member. The dean shall be sent directly to the academic dean via the Dean of Academic Instruction for Commonwealth Campuses.
 - The department head discusses the request with the dean of the college. In the case of a faculty member assigned to Commonwealth Campuses, the Associate Dean for Academic Instruction for Commonwealth Campuses discusses the request with the campus director, and sends to the department head the request together with the dean's recommendations.
 - If the dean concurs with the request, the dean prepares and sends to the Office of Personnel Administration instructions for the reduction of prior tenure credit. In the case of a faculty member assigned to a Commonwealth Campus, the dean and the Dean of Academic Instruction for Commonwealth Campuses shall concur with the request before the dean sends instructions to the Office of Personnel Administration for the reduction of prior tenure credit.

University Park Calendar

FALL TERM 1980

Thursday, Sept. 4

Registration for Fall Term, 8 a.m.-5:30 p.m., IM Bldg.

Preregistration for Winter Term, Room 112 Shields, through Sept. 29.

Continuing Education, registration, noon-8 p.m., Room 101 Kern. English and math placement exams, 6:30 p.m., Keller Bldg. HUB Craft Center registration, noon-5 p.m., Room 312 HUB, through Sept. 13.

Friday, Sept. 5

Registration for Fall Term, 8 a.m.-5:30 p.m., IM Bldg.

Continuing Education registration, 9 a.m.-5 p.m., Room 101 Kern.

School of Visual Arts Faculty exhibition, Oct. 2-18.
Jackie Battenfield, fiber exhibition, Oct. 26-Nov. 13.

One-way traffic for football games

University safety officials have announced plans for the handling of traffic for the Nittany Lions' home football opener against Colgate Saturday, Sept. 6.

One-way traffic patterns, to be in effect from 10 a.m. until 1:30 p.m., will affect four major thoroughfares:

- Porter Road will be one-way from Benner Pike to Curtin Road.
- University Drive from South Atherton Street to Curtin Road.
- Park Avenue from North Atherton to University Drive.
- Park Road from Bigler Road to the University maintenance building.

The one-way flow will reverse to handle post-game traffic.

In addition, Curtin Road from Shortridge Road to Porter Road will become a pedestrian corridor from 10 a.m. until game time, and again after the game. During the game, the pedestrian corridor will be maintained from University Drive to Porter Road.

The addition of some 6,000 new seats to Beaver Stadium is not expected to cause serious traffic problems, according to David E. Stornier, University Safety director.

Police will monitor and broadcast emergency traffic information on CB radio Channel 15 before and after the football game.

Pattee's hours

Saturday hours for Pattee Library during Fall Term will be from 7:45 a.m. to 5 p.m., instead of 4 p.m. as reported in the Aug. 21 INTERCOM.

Sunday 'Quarterbacks'

Football fans will be hearing Joe Paterno's commentary on Sundays this season, as "TV Quarterbacks" moves from its former Wednesday evening slot.

WPSX-TV, Channel 3, will air the series, beginning Sept. 7, at 10 p.m.

The series will also have a new look, featuring exclusive game highlights and on-campus interviews with players, as well as the familiar question and answer session responding to viewers' letters. In addition, the program will expand its focus to cover some of the broad concerns of college football and intercollegiate athletics, reflecting Joe Paterno's new role as director of athletics.

Fraser Fisher and Jim Tarmann will continue as hosts of the program.

URTC to offer five plays in series

Contemporary comedy and classic drama will be the theatrical fare when the Penn State University Resident Theatre Company presents its 1980-81 season. Sponsored by the College of Arts and Architecture and the Department of Theatre and Film, URTC is composed of professional theatre artists-in-residence, professional faculty, and theatre students.

The season will open with Eugene O'Neill's warmhearted comedy, *Ah, Wilderness!* Held over from Festival Theatre's acclaimed production, *Ah, Wilderness!* is a delightful recollection of family life in turn-of-the-century America. This production re-unites director James W. Assad with Equity performers Walter Atamanuk, Stephen D. Keener, Julia Curry, and Penn State graduate Dan Fox, all of whom worked on the summer's production. *Ah, Wilderness!*, a play that in the words of URTC producer Douglas N. Cook, "bears repeating," runs in the Pavilion Theatre from Sept. 18-Oct. 4.

Sly Fox, Larry Gelbart's liberal adaptation of Ben Jonson's comedy, *Volpone*, is URTC's second presentation. Set in San Francisco after the gold rush, *Sly Fox* centers around Foxwell J. Sly's plan to con three tight-fisted misers.

The production is scheduled Oct. 30-Nov. 15, in the Playhouse.

William Shakespeare's *Macbeth*, URTC's play for Winter Term production, will run in The Playhouse Feb. 5-21. Another masterpiece, Anton Chekhov's *The Cherry Orchard*, will appear in the Pavilion Theatre March 19-April 4.

Closing the season is Paul Giovanni's hit of the 1979 Broadway season, *The Crucifer of Blood*. The game is afoot when Sherlock Holmes and Dr. Watson seek a solution to the diabolical cause of the Ag. Treasure. Director for the URTC production is William James Kelly, who most recently directed last season's *The Taming of the Shrew* and Festival Theatre's *The Good Doctor*. Show dates are April 30-May 16 in The Playhouse.

Subscription plans that offer five shows for the price of four and allow patrons who have already seen *Ah, Wilderness!* to purchase a four-show series, are currently available through the URTC box office. Single tickets are also available. For reservations and information call 814-865-1884 from 11:30 a.m. to 6 p.m. Mondays through Saturdays. For a URTC brochure, or to order tickets by mail, write to Room 137 Arts Building, University Park, PA.

Dickason

(Continued from page 1)

"The people on the other end feel they have someone whom they know and to whom they can turn," Dean Dickason continues. "Instead of being specialists, our people are now Admissions 'generalists.' Naturally, a change such as this takes time to put into effect because we are asking people who were employed to do certain things to add new responsibilities. But the staff has been great — both in responding to change and in suggesting improvements in current activities."

"We expect the new regionalized organization to improve University Park, Commonwealth Campus and Behrend admissions relations. In the past year we have had at least three meetings in the three Pennsylvania regions, each of which includes six Campuses. The six Campus Admissions Offices and the University Park Admissions people assigned to the region are becoming one solid team."

During the coming academic year, the Admissions Office plans to contact more prospective students and to make more contacts per person. So far mailings have been sent to some 125,000 Pennsylvania and out-of-state about-to-be seniors, inviting them to spend a summer day at Penn State, either at University Park or one of the campuses.

"Students' names are purchased, with their permission, from the College Board," Dean Dickason explains. "Our total direct mail contacts this year will probably end up being about 150,000, compared to 90,000 last year."

"We have programmed the possibility of contacting students on a regular basis up to six times between when they are first identified and enroll. In the past, we've had a lot of gaps. A student would apply early and not hear anything for quite some time. He or she just sat out there with no tender loving care and attention."

"Now I don't think there is any way that we in Admissions can assume the financial burden involved in making all of these contacts. But we are working with the Colleges and Campuses to find the most effective combination of contacts to

employ."

A much broader planning effort was undertaken for this year's Penn State Scholars program, and more faculty participation was encouraged. "The net result was we got outstanding vibrations," Dean Dickason says. "We all came out of the week exhausted but flying. This was the largest group we ever had, something over 800, and they were essentially the best students in about 80 percent of Pennsylvania's high schools, with another 125 to 150 coming from out-of-state."

A major element in future planning will be new types of computer support for recruiting. In progress is what Dean Dickason refers to as a "candidate information management system" — a tracking system sophisticated enough for Admissions staff to be able to avoid duplicating literature sent to students and to know in which Campuses they are interested. The 125,000 names purchased from the College Boards have been put into this information management system and sorted roughly according to academic achievement so mailings can be differentiated.

Another type of planned computer support will allow Admissions to generate faster turnaround of applications — a project which has one of Dean Dickason's highest priorities.

"Admissions offices in all schools are always faced with a crunch when the wave of admissions applications is received," he says. "Last year, we had a five- or six-week backlog at what I call the 'front door.' Once we get students into the system, we have considerable flexibility in handling them; but until we get them in, they're just a stack of paper on the shelf waiting to be entered."

"This year, the Admissions Office intends to adopt a system of 'staged admissions'" — as opposed to "rolling admissions" — when students are admitted all the time or "common dated admissions," when everyone is admitted on a set date.

"What we're saying to the students," Dean Dickason explains, "is that if they apply with completed credentials by Nov. 1, we're going to give them a response by mid-December. If they apply by Dec. 1,

they'll get their response in mid-January; by Jan. 1, mid-February. After Feb. 1, we'll get to them as soon as we can, probably in about six weeks. The advantage of this system is that it gives us the capacity to handle students' alternate choices more quickly. If they apply to University Park and are not selected and their other campus choice is York, we will get their names to York at once instead of waiting until January or February."

"Once we get the students into the application system, we will sort out the high ability candidates and give the deans of the colleges their names so they can begin to communicate with them early on."

Another Admissions Office priority is publications review. "We are talking to a number of outside consultants as well as to the University Publications and Public Information Offices," Dean Dickason explains. "At the present time, the University's admissions publications aren't as integrated as I would like. I think we have something like 205 separate pieces of material that can be sent to students, and they don't look like they come from the same institution. We will also be shifting our message from telling students how wonderful Penn State is — every school can do that — to asking them what their needs are and telling them quite specifically and forcefully what the University can do for them. And we hope to have a stronger new book, possibly in 1981-82."

A strong third priority is the increasing of minority enrollments, and Dean Dickason and his staff are working on several strategies to try to improve the situation in this area.

"In recent years, about 6.5 percent of college-bound high school graduates in Pennsylvania have been black students," Dean Dickason points out. "In 1977, 2.8 percent of our new freshmen enrollment were black students. In 1978, 3.0 percent; and this year it is estimated to be 3.4 percent (about 380 students). There is much that can and should be done to bring those numbers and percentages up."

What does Dean Dickason see ahead in terms of Penn State enrollments?

"A Perspective on the '80s emphasizes

two factors — the number of 18-year-olds and the college participation rate," he observes. "I would add two other factors — the non-traditional student and how well we do our job in Admissions."

"I'm not one of those people who thinks that the non-traditional student is going to save anybody's enrollment. It takes three or four non-traditional students to replace each full-time, regular traditional student. Penn State, however, is probably better positioned to take advantage of whatever non-traditional market there is than any other school I know because of our Commonwealth Campus system."

Attracting non-traditional students may dampen the enrollment decline; but it won't erase it, no matter how well we do.

"As for our role in Admissions, I believe that there are a finite number of prospects out there, and it is our job to identify who they are and to ensure that we have adequate means of communicating with them. It's our responsibility to design a proper process by which every eligible prospect in the state of Pennsylvania has sufficient information on which to base a consideration of Penn State. If there's one student out there that would be eligible for us and hasn't had the opportunity to consider us, then we haven't been good enough."

"We do not intend to tell students they are educationally damned if they don't come to Penn State, but we do intend to tell them they are cheating themselves if they do not consider Penn State. From there on I am convinced Penn State can do a good job of selling itself, with our help of course."

"But I would be the first one to say publicly that there is no way that any faculty or staff member should feel that Penn State is somehow immune to a 30 percent decline in the traditional 18-year-old population in Pennsylvania. We can dampen it, but we can't stop it."

"I do want to emphasize how truly impressed I have been during my first year at Penn State by the effort on the part of all the administrators and faculty members to whom I have spoken to make this a first class institution. My only reservation is that we may sometimes be too diffident in pronouncing our excellence."

Revised Guidelines

(Continued from page 5)

4. The Office of Personnel Administration prepares the revised Memorandum of Personal Service in accordance with the instructions from the dean and specifies on the revised memorandum that it supersedes the previously completed and signed memorandum.
5. The Office of Personnel Administration sends the revised

Memorandum of Personal Service to the appropriate dean for concurrence.

6. The dean distributes the revised Memorandum of Personal Service to the faculty member with a request that the original be signed and returned to the Office of Personnel

Administration via the office of the dean. In the case of a faculty member assigned to a Commonwealth Campus, the dean of the college sends it to the Dean of Academic Instruction for Commonwealth Campuses; who distributes the revised Memorandum of Personal Service to the faculty

member with a request that the original be signed and returned to the Office of Personnel Administration via the office of the dean of the college. A copy of the signed, revised memorandum is sent to the Dean of Academic Instruction for Commonwealth Campuses.

7. The Office of Personnel Administration, upon the receipt of the signed, revised Memorandum of Personal Service, takes steps to revise the faculty member's prior tenure credit as recorded in the master tenure file.

Penn State Intercom

President asks for recommendations on change from term calendar

President Oswald is asking students and faculty and staff members to submit to him by Dec. 1 their recommendations on a possible change from a term to a semester system in the University calendar.

Because of apparent disenchantment with the current four-term calendar, such a change is being considered, Dr. Oswald told the Faculty Senate at a meeting Tuesday.

"At this point, I am inclined to conclude that Penn State should return to a semester calendar, specifically the early semester plan which aims to complete all instructional activities and exams in the fall term prior to the December holidays," he said.

"Based on discussions with the Faculty Advisory Committee, the Council of Academic Deans and other groups, I am further persuaded that broad support exists for conversion to an early semester calendar for academic and pedagogical reasons."

However, Dr. Oswald added, while the calendar change was being seriously considered, the final decision was by no means certain. He said several major issues have been identified — among them, teaching loads, availability of laboratory and large classroom space, faculty research and conversion of courses — that will influence the ultimate decision.

For that reason, Dr. Oswald said, he was urging faculty, administrative and student groups to give the matter serious attention and to submit their input to him. The

Faculty Senate, the Council of Deans and the University Council, in particular, have been asked to study the proposed change.

If sufficient support for the change is found to exist among faculty and student groups, the conversion probably would be made during the summer of 1984. Dr. Oswald said he hoped to make a final decision in February.

"We should recognize at the outset that, because of the great amount of detailed planning which would be necessary, no change could take place in any case for two to three years," he said.

Penn State converted from a traditional semester calendar to the four-term calendar in 1961, primarily as a way to serve increasing numbers of students through expanded year-round use of facilities. When the calendar conversion was announced, students expressed strong objections to the shift.

The new term calendar established the 75-minute class three times a week and the semester credit as the basic unit of academic progress. However, it did not specifically increase summer enrollment to accomplish the hoped-for improved use of resources and facilities, Dr. Oswald said. Most regularly enrolled students did not attend the summer term.

In 1970 two questions emerged about the term calendar. Some faculty members began to question whether it best served the academic purposes of the University, and student groups complained that it placed Penn State students at a

disadvantage in the search for summer employment, since it was at odds with the calendars of most other public institutions in the Commonwealth.

"With valuable assistance from the University Council, the calendar was reviewed and, in 1972, the term calendar was modified to be more consistent with those of other institutions in Pennsylvania," Dr. Oswald said.

"The change enhanced opportunities for Penn State students to obtain summer jobs. Unfortunately, the revised calendar created a split winter term which causes concern among a number of constituents within the University."

The modified calendar was re-examined by a commission appointed in the fall of 1973. After two years of extensive study, the commission presented a divided recommendation, with a bare majority coming out in favor of conversion to a semester calendar, while a significant minority recommended further modifications to the term calendar.

Students, at that time, strongly opposed the change to a semester calendar and in December, 1975, Dr. Oswald told the Senate that the term calendar would remain in effect until at least July, 1983.

"Since then, disenchantment with the current calendar appears to have grown," he said. "Criticism of the term calendar were commonplace during the discussions associated with the development of A Perspective on the '80s."

"In short, there are more and more

advocates of a semester calendar. In fact, a majority of the faculty now may favor a semester system."

As a result, Dr. Oswald said, he was urging appropriate student and faculty groups and committees to discuss the possible change.

"After discussions with various groups such as the Faculty Advisory Committee and the Council of Academic Deans, and with their concurrence, I have decided that the best approach for a full and complete consideration of any calendar change would be to urge all interested individuals at Penn State to consider and discuss widely the prospect of a calendar conversion," Dr. Oswald said.

It is not unusual for American colleges and universities to reexamine their academic calendars periodically, Dr. Oswald noted. During the past 10 years, an average of more than 200 institutions have changed calendars each year.

"While Penn State has not made a major calendar change in the past decade, we have modified the term calendar in significant ways and we have studied other calendars in depth," Dr. Oswald said.

Two years ago, the University conducted a brief study to determine whether escalating fuel costs had made a calendar change necessary. However, while that study projected some cost savings, they were not large enough to warrant changing the calendar for that reason alone.

News in Brief

UDIS to sponsor seminar on "Developing the Lecture"

The University Division of Instructional Services (UDIS) is sponsoring a seminar on Developing the Lecture from 1:30 to 4 p.m. on Thursday, Sept. 18, in Room 128 Mitchell Building.

The seminar will be conducted by Francis Dwyer, head of instructional improvement at UDIS.

The seminar is designed (1) to acquaint faculty members with current literature and research related to the lecture method, (2) to describe and illustrate some of the kinds of activities and experiences that can be developed in support of the lecture, (3) to identify locations throughout the University where these "developed experiences" may be provided to students, and (4) to illustrate the lecture behaviors of individuals from other institutions.

Specific topics to be covered include: Developing the Lecture, Advantages and Disadvantages of the Lecture, Motivating Learners, Content Management, Formal vs. Informal Lecture Method, and Developing Learning Activities.

Participants will have an opportunity to listen to an audiotaped presentation, to watch a slide/audiotaped presentation and to view television vignettes depicting lecture behaviors of faculty members from Harvard, Northwestern and San Jose universities. A bibliography related to lecturing and effective teaching, a list of suggested learning activities and a sample (developed) lecture format will be available.

The seminar is limited to 35 participants on a first-come basis. Reservations or information can be had by calling 863-0668.

Pennsylvania politics subject of special symposium

Pennsylvania Politics in the 20th Century: The Next Two Decades will be the subject of a special symposium at the University at 8 p.m. on Thursday, Sept. 18, in Kern Auditorium. Anyone with an interest in Pennsylvania history and politics is invited to attend the program, and members of the audience will be given a chance to join in the discussion with invited panelists.

The panelists will include former governors, cabinet officers, jurists, legislative leaders and experts from various fields in Pennsylvania studies. Among them will be former Governor Raymond P. Shafer, former Lieutenant Governor Ernest P. Kline, former State House Speaker K. Leroy Irvis and Judge Genevieve Blatt of the Commonwealth Court.

Paul Beers, associate editor of the Harrisburg Patriot-News, will moderate.

The symposium follows the publication earlier this year of Mr. Beers' latest book, *Pennsylvania Politics, Today and Yesterday: The Tolerable Accommodation*, by the Penn State Press.

The panelists will open with brief statements on one of two topics, followed by discussion. The topics are:

— What would be the one structural-organizational change in government you would like to see happen between now and the year 2000 to improve the way Pennsylvania is governed?

— What would be the one change in public policy direction you would like to see occur in the Commonwealth over the next two decades to improve the way Pennsylvanians will live in the year 2000?

The symposium is being sponsored by the School of Journalism, the Department

of Political Science, the Pennsylvania Studies Committee, the Institute for the Arts and Humanistic Studies and the Press.

Poet to offer reading

Donald Justice, winner of this year's Pulitzer Prize for poetry, will present a reading from his poems at the English Colloquium, which will be held at 8 p.m. on Thursday, Sept. 18, in Room 101 Kern Building.

Dr. Justice, a member of the faculty of the Writers Workshop at the University of Iowa, is the author of four books of poetry.

Co-holder of laser patent to give Chemerda lectures

Penn Staters

Dr. Paul J. Wangness, professor of animal nutrition, has been appointed head of the Department of Dairy and Animal Science.

A member of the Penn State faculty since 1972, Dr. Wangness has directed research dealing with nutrition and metabolism in farm and laboratory animals. His experiments have explained body mechanisms, such as hormones, which control appetite and the rate and composition of tissue growth.

Dr. Wangness was selected as a "Helen and Wise Burroughs Lecturer" at Iowa State University in December 1979. Earlier he presented a key paper on maximum forage for dairy cows at the 1979 annual meeting of the American Dairy Science Association. He has served as chairman of the Northeastern States Regional Research Project on Forage Utilization in Ruminant Animals and was a member of the U.S. Department of Agriculture review team that evaluated research at land-grant universities.

A native of Madison, Wis., Dr. Wangness is a graduate of the University of Wisconsin. He has a Ph.D. from Iowa State in animal nutrition and physiology.

Nicholas A. Joukovsky, associate professor of English, is the recipient of a National Endowment for the Humanities fellowship to complete an edition of the correspondence of the nineteenth-century English writer, Thomas Love Peacock.

Two members of the chemistry faculty, Professor Harry R. Allcock and Professor Frederick W. Lampe, are the authors of a new book, *Contemporary Polymer Chemistry*, published by Prentice-Hall.

A complete overview of modern polymer chemistry, the text reviews the synthetic, kinetic, structural and applied aspects of the field, while approaching the subject at a level suitable for research or further study of specialized topics.

The book is divided into four sections: Synthesis and Reactions of Polymers; Thermochemistry and Kinetics of Polymerization; Physical Characterization of Polymers; and Fabrication, Testing, and Special Uses of Polymers.

At the recent national meetings of the Poultry Science Association, Dr. E.C. Buss, professor of poultry science, was appointed to a three-year term as an associate editor of the *Poultry Science Journal*. Dr. Kenneth Goodwin, professor and head of poultry science, was elected to a two-year term as a director of the Association.

While doing research in the United Kingdom, Dr. Emilia E. Martinez-Brawley, assistant professor of social welfare, was invited to conduct a seminar in Edinburgh for the Scottish Social Work Services Group of the Scottish Education Department. Her topic was "Services for Rural Communities."

Dr. W.O. Luciw, head of the University's Slavic Library program, has been named a Fellow of the Byelorussian Institute of Arts and Science.

Dr. Stuart Patton, Evan Pugh professor of agriculture, and Dr. Roger M. Herman, professor of physics, have been selected to receive Senior U.S. Scientist Awards from the Federal Republic of Germany's Alexander von Humboldt Foundation. The award allows U.S. scientists of international repute to live in Germany for an extended period of time and conduct research in fields of their own choosing. The award was created by the German government in 1972, and recipients are nominated by German scientists.

Dr. Patton is well known for his studies of the biochemistry of milk and the role of cholesterol and fatty materials in atherosclerosis. In 1975, he won the American Chemical Society's Award for Distinguished Achievement and Service in Agricultural and Food Chemistry. A 1943 graduate of Penn State, he holds M.S. and Ph.D. degrees in dairy science from Ohio State.

Following his retirement this fall from the Penn State faculty after 31 years of service, Dr. Patton will conduct research with the faculty of the School of Medicine at the University of California at San Diego. At the same time, he will continue research he has conducted for some time at the Scripps Institution of Oceanography.

Dr. Herman, whose research has been primarily in molecular physics, is a fellow of the American Physical Society.

In 1978 he was visiting professor of physics at the University of Guelph and in 1973 he was distinguished visiting professor at Memorial University of Newfoundland, both in Canada.

He has served on the American Physical Society's Committee on Education and was its chairman in 1977. In 1975 he was appointed to a post on the National Science Foundation Pre-College Curriculum Review Panel, which provides advice and evaluation to NSF on its programs at the pre-college level.

Dr. Herman holds a B.S. in engineering physics from Lehigh University and an M.S. and Ph.D. in physics from Yale. He has been a member of the faculty since 1964.

Dr. Z.T. Bieniawski, professor of mineral engineering, was one of 14 participants invited from this country to a symposium on mixed-mode fracture propagation held last month in Athens. At the symposium, which was sponsored jointly by the National Science Foundation and the Athens Technical University, Dr. Bieniawski presented a paper on "Rock Materials Under Mixed-Mode Fracture."

Daryl K. Heasley, associate professor of rural sociology, will be on leave to Aug. 30, 1981, as associate director of the Northeast Center for Rural Development at Cornell University. He will have responsibility for coordinating and carrying out extension educational programming in rural development throughout the 12 northeastern states.

Dr. Robert O. Herrmann, professor of agricultural economics, has been appointed to a three-year term with the Board on Agriculture and Renewable Resources. The Board is under the control of the Commission on Natural Resources, one of eight major units of the National Research Council. Its function is to identify national needs and promote activities in the broad areas of agriculture, land and water use, forestry, fisheries, aquaculture, wildlife, and rural development.

25-year chair

Ken Haney had always wanted to work at Penn State. "I hoped to be here 25 years," he remarked on his tenure. "Penn State's been good to me." And Mr. Haney, manager of General Stores, has been good to Penn State. He recently received his chair for 25-years of indispensable service at the University.

He's been a part of the University family since 1955, at which time he was employed as a lead electrician for the Ordnance

Research Laboratory, predecessor to the Applied Research Laboratory. In 1958 he was promoted to assistant project engineer in Physical Plant. In 1960 he transferred to the Power Plant as a utilities supervisor and in the late '60s worked in the stockroom of Physical Plant, which he organized for eventual computerization.

In his present job, Mr. Haney supervises the maintenance of stock levels, the storing of merchandise and the delivery routes of the merchandise. He also deals with the processing each year of thousands of requisitions for supplies from throughout the University system.

The Haney family affiliation with the University does not end with Mr. Haney's job. For 21 years in his spare time, Mr. Haney operated the scoreboard at Rec. Hall, meeting such "fantastic people" as Frank Gifford and the Harlem Globetrotters. He even played a part in the designing of the two scoreboards now used in the building. Mr. Haney also likes to enroll in courses at the University relating to computer or electrical technology. His wife, Rosaline is employed as a part-time clerical worker in

Admissions. In addition, the couple's two sons, Keith and Kim, both attended Penn State's DuBois Campus and graduated in business administration.

To relax, Mr. Haney plays the organ and has performed at church, alumni, and Physical Plant functions. He is active at his church and with the Pleasant Gap Fire Company and is a member of the American Management Association. Mr. Haney also has a 22' motor home which has enabled him to visit the 48 states, Canada and Mexico.

Staff development

McKeesport Campus was the host for 22 University staff members who participated in a Basic Supervisory Management program during the month of August. Representatives from Beaver, Fayette and McKeesport campuses spend four, all-day sessions covering basic management principles. Instructional leadership was provided by Dennis Keiser, coordinator, employee and management development. Course participants were:

Harry Albert, acting assistant director for planning and development, Fayette; Mary E. Baird, assistant dean of student affairs, Fayette; Becky Cress, manager, housing and food services, Beaver; Mary G. D'Alesio, senior assistant librarian, McKeesport; Kathleen Easler, assistant director for University relations, McKeesport;

James Flanagan, chief, safety and security, Beaver; Luis Gonzalez, administrative assistant for academic services, Beaver; Sarah Haddad, assistant dean of student affairs, McKeesport; Richard Hyde, manager, housing and food services, McKeesport; Judith J. Kalich, assistant to the dean of student affairs/admissions officer, McKeesport; Ellen Laun, administrative assistant for academic affairs, Fayette; Jim Luce, senior instructional services specialist, Beaver; Robert Purdy, counselor, Division of Undergraduate Studies, McKeesport; Margaret Rechter, administrative assistant for academic affairs, McKeesport; Louis

Ridley, counselor, career development and placement, Fayette; Ed Rusbarsky, finance officer, McKeesport;

Bobby G. Salitrik, senior instructional services specialist, Fayette; Albert Skomra, associate professor of English, administrative assistant for academic affairs, Fayette; Connie Turner, bookstore manager, McKeesport; Raymond Tutko, chief of campus police, McKeesport; Edward Whitaker, coordinator, Penn State Community Center at Pittsburgh; and Roseann Williams, administrative assistant for academic affairs, Fayette.

A group of Physical Plant supervisors from the branch campuses recently completed the Basic Supervisory Management program offered at University Park. The three, all-day sessions, Aug. 19-21, were taught by Jerry Boyles, manager, personnel and training, Physical Plant, and Dennis Keiser, coordinator, employee and management development, Personnel Administration. Those completing the program were:

Joseph Beaner, janitor foreman, Beaver; Charles Brookhouse, janitor foreman, McKeesport; George Brown, foreman, buildings and grounds, Capitol; Wayne Greenwall, janitorial foreman, Oquon; Glenn McGurk, maintenance foreman, York; John McNulty, maintenance foreman, Oquon;

Albert Miller, maintenance foreman, Wilkes-Barre; Norbert Oleksa, maintenance foreman, Shenango Valley; Thomas Reeves, night service supervisor, Capitol; Karl Ruediger, maintenance foreman, New Kensington; Paul Shier, maintenance foreman, McKeesport; and Kenneth Witmer, work management coordinator, Capitol.

Obituary

Alfred J. Brodbeck, a utility man with Housing and Food Services from 1948 to 1961, died Aug. 29 at the age of 80.

(345-1) The EDFund for the Improvement of Postsecondary Education program will offer 20 grants under the new *Mina Shaughnessy Scholars Program*. The program is to support individuals to produce a document of engagement in an activity which will significantly advance our knowledge of practical solutions to problems in postsecondary education projects could, for example, synthesize new knowledge, reconceptualize curriculum, or identify new directions. Awards are made to institutions on behalf of scholars. The application deadline is Oct. 17. For guidelines and information call 202-245-8091.

(345-2) Year Two of the Kollage National Fellowship Program has a Nov. 15 deadline. All eligible faculty staff (40 years or younger) will be considered as applicants. Personal interviews will be conducted during January and February. Three-year awards of \$30,000 are made to about 50 individuals to expand their professional horizons while maintaining their present employment (25% release time). The study component they pursue is to help them understand interrelationships of societal concerns, discern and innovate changes in their fields, and prepare to identify needs and obstacles confronting contemporary society's effective use of existing knowledge. Contact Mrs. Karen R. Hillebrand at 610-965-1221.

Dr. Breslin, associate dean for international affairs at Florida International University, has studied the archives of a dozen missionary groups, as well as pertinent U.S. Department of State records.

"The evidence indicated," he writes, "that, rather than being an insidious danger to the Chinese, the missions' introduction of novelty, their generally benevolent parasitism, their blatantly evasive and privileged mode of operation, and their tempting weakness contributed to the resurgence of Chinese nationalism and to the downfall of foreign power in twentieth-century China."

Literary Criticism and Myth: Yearbook of Comparative Criticism. Edited by Joseph P. Streika. 285 pages. \$15.

Volume IX in this series approaches the literary artist's use of myth from three standpoints: general theoretical problems, special practical examples, and comparative theoretical trends.

Contributors include Helen Adolf (professor emerita of German at Penn State), Haskell Bick, Patricia Carden,

Exhibits

Kern Gallery: Alfred Charley, bronze sculpture; Roy Vollmer, architect, opens Sept. 15.

Museum of Art: Sidney Goodman, paintings, drawings and graphics, 1959-1979; highlights from the permanent collection.

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary. East Corridor Gallery: Mary Stockrocki, photographs of the Mid-East. Lending Services Lobby: Denise Arieu, handbuilt pottery, Main Lobby.

Park Robeson Cultural Center: The Frederick Douglass Years.

Visual Arts Bldg. Zoller Gallery: Herbert Katzman, drawings and preparatory sketches for frescoes.

Heinrich Dorrer, Sem Dresden, Georges Dumezil, Lilian Feyer, Eva Kushner, John B. Vickery, Kurt Weinberg, Klaus Weissenberger, and John J. White.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until 5 p.m., Sept. 18, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

ACCOUNTANT BEOG PROGRAM - CONTROLLERS OFFICE, University Park. Responsible to Manager of Student Loans and Scholarships for the accounting and reporting of Basic Educational Opportunity Grant money disbursed to students at University Park and Commonwealth Campuses. Assist Student Aid with accounts to students. Maintain records and reports for the U.S. Department of Education. Request funds from the U.S. Department of Education as needed. Bachelor's degree or equivalent in accounting, plus one to two years of accounting experience, preferably in institutional accounting and procedures.

From the Press

Electric Traction on the Pennsylvania Railroads; 1895-1968. By Michael Bezilla. 233 pages. \$16.95.

Dr. Bezilla, historian of the University, has written the first comprehensive case study of railroad electrification in the United States, highlighting a type of current government and industry studies and a target of billions of dollars of Amtrak rehabilitation funds.

Electrification of key routes, he contends, could serve the nation's energy and environmental needs . . . electric locomotives, unlike their diesel counterparts, have the ability to draw upon (indirectly) several plentiful domestic energy sources - coal, water, and nuclear - rather than a single scarce, foreign-based one - petroleum."

Dr. Bezilla's subject, the Pennsylvania Railroad, was by far the leading innovator and developer of electric traction, by the late '30s owning 2,100 of the nation's 5,000 miles of electrified trackage. The PRR's electrified routes - connecting Washington, Philadelphia, Harrisburg and

New York - proved to be of important strategic value during World War II, when the central seaboard of the East Coast became the staging area for the war effort in Europe.

Electric traction, with tremendous advantages over steam power, was never so large as originally envisioned. Despite the PRR's pioneering efforts in the '30s, many other lines had to abandon plans for electrification because the Depression precluded capital investment.

In addition, widespread use of the diesel after World War II, coupled with post-war inflation and the inroads made by other forms of transportation, turned the attention of railroads away from further development of electric traction.

China, American Catholicism, and the Missionary. By Thomas A. Breslin. \$15.95. 144 pages.

From early in the 19th century until midway through the 20th, the chief link between China and the United States was the missionary. Until World War I, most American missionaries to China were Protestants, but Vaican concern over their challenge to the Catholic Church resulted

Gazing in 1839 at the ruined "idols" of Copan, the American explorer and author John Lloyd Stephens was moved to write of that wild Honduran site:

"Nor shall I at this moment offer any conjecture in regard to the people who built it, or to the time when or the means by which it was depopulated, and became a desolation and ruin: whether it fell by the sword, or famine, or pestilence. The trees which shroud it may have sprung from the blood of its slaughtered inhabitants; they may have perished howling with hunger; or pestilence, like the cholera, may have piled its streets with dead, and driven forever the feeble remnants from their homes. . . . One thing I believe, that its history is graven on its monuments. . . . Who shall read them?"

Since those somewhat melodramatic lines were penned, hundreds of archaeologists have systematically surveyed and excavated the "lost" cities of the Maya; but Stephens' basic questions remain unanswered.

They have challenged William T. Sanders, a professor of archaeology, since he first began directing work at Mayan sites in Mexico during the 1950s; and next year he will get another chance to resolve them. The Honduran government has invited him to lead a four-year project to excavate and reconstruct the Mayan site of Copan — which the Hondurans hope to use to attract tourism.

Serving as co-director with Dr. Sanders will be Dr. David L. Webster, associate professor of archaeology. Their team will include a core of permanent ceramicists to analyze pottery; epigraphers to study the ancient glyphs; and a cadre of post-doctoral students and graduate students, to be drawn from Penn State as well as other universities.

"We will be dealing with two very broad problems," Dr. Sanders explains. "The first is why a complex civilization evolved in this area — the causes and processes. This is a difficult tropical forest environment — what some pessimists call a 'counterfeit paradise.' The environment seems promising initially, but when people try to colonize and farm intensively, they encounter almost insoluble problems with soils, insect pests and diseases."

"The second question," Dr. Sanders continues, "is why this civilization collapsed. Between 100 B.C. and 1000 A.D., the population grew to millions in the Mayan cities. Massive temple and palace complexes were erected. Then, between 900 and 1100 A.D., 90 percent of the population simply vanished."

Despite an abundance of theories, no one yet knows why. It was probably due to a combination of factors, Dr. Sanders believes — depletion of soil reserves through erosion (the Maya practiced dry farming on hillsides), nutritional stresses, disease.

One recent theory postulates that about 800 A.D. Indians from Colombia settled in the West Indies (excavations confirm that date), bringing with them maize. Through the centuries, this Colombian maize had developed natural immunities to many of its host predators. But when the prevailing winds blew these viruses to the nearby Yucatan coast, they decimated the different variety of maize which was grown there and which had not built up immunities to them.

"Some people have also theorized that the Mayan cities were depopulated by revolts or wars," Dr. Sanders notes, "but that would not explain the complete disappearance of the population. Conquerors would have kept the local inhabitants for slave labor."

Located deep in the interior of Central America near the Guatemalan border, the ancient site of Copan is best known for the magnificent "idols" described by Stephens. As tall as 15 feet and covered with elaborate carvings and glyphs, these stelae offer rare opportunities to the epigrapher. Stephens was also correct about their historical significance.

The glyphs, which were long thought to refer to astronomical phenomena, in actuality celebrate events in the lives of

Penn State-led team to excavate Mayan site

kings, their wives and children," Dr. Sanders says. (This discovery, which revolutionized the study of Mayan inscriptions, was made by a Penn State graduate, Tatiana Proskouriakoff '30, whom the University honored as a Distinguished Alumna in 1971.)

Copan has more inscriptions than any known Mayan site. Thousands of pieces of sculptured stone have been found among the rubble used for fill. In addition, a great "hieroglyphic staircase," which was taken apart and reassembled haphazardly by a late 19th century expedition, awaits deciphering.

Dr. Sanders enumerates three goals for the Penn State-led team at Copan: (1) to reconstruct the Maya social and political organization there, (2) to discover the history of colonization at the site, and (3) to determine what caused its collapse.

Did Copan's farmers build terraces to halt soil erosion? Or, unaware of the danger, did they allow the soil to wash away until farming became impossible and the food supply disappeared?

Archaeologists can answer these questions by taking soil profiles at the base of the slopes and determining the amount and rate of erosion.

But even with the range of modern technology available, Dr. Sanders has no illusions about how much his team can learn.

"When you raise fundamental questions about what causes a civilization to evolve and what brings about its collapse, no matter how much work and money you put into your study, you may not find the answers," he says. "An archaeologist always confronts the problem of 'negative data.'"

Dr. Sanders

A team already at Copan has completed a surface survey of a 50-square-mile area and located house remains on the valley floor and at the foot of the mountains surrounding the area. During their first year in Honduras, Penn State's archaeologists will map an area of 200-square-miles. "We will get data quickly," Dr. Sanders explains, "using verbal descriptions and sketchmaps to record plaza groups and mounds. During the second phase of the project, we will resurvey and prepare complete contour maps; and in the third phase, we will do a series of excavations."

Copan has a large central acropolis with two urban barrios, one on each side. Only a few thousand people lived in the barrios, presumably members of the upper classes, their servants — and perhaps some crafts specialists. Dr. Sanders believes that the acropolis contains a palace, rather than a temple compound as it has been supposed.

"I think it was the palace of 'Sunrise,' the most famous ruler at Copan," he says. "We've learned about him from the stelae."

To try to reconstruct the social and political organization of the Mayas and their history of colonization, excavations of house sites will be made.

"The land around Copan has been cleared so it's easy to see house foundations, and four different levels of houses have been classified by size and elaborateness," Dr. Sanders reports.

"Right now we can only guess how many people lived in a house, but the number of houses we find will provide some clues. Unlike the Basin of Mexico, there are no artifacts on the surface at Copan, but we can establish dates by digging test pits. The debris we excavate could also indicate if craftsmen such as potters or masons worked in a house."

"A number of house compounds have been found in the nearby piedmont area, and we will dig there to determine the history of settlement on the slopes."

"Suppose we try to arrive at some conclusions after digging 24 of the 3,000 households in Copan," he continues.

"Imagine a sociologist publishing a report on public opinion in Philadelphia after sampling 24 subjects. But that's what we have to do as archaeologists. Because it's impossible in terms of both time and money to dig an entire Mesoamerican site, all our work boils down to sampling."

"But if I dig half a house and find no evidence of crafts, can I really say that there were no potters in the house? Maybe they worked in the other half."

"All you can do is collect useful data and hope that when enough has been accumulated, certain problems will be resolved. In reporting, you have to adopt a positive attitude toward your data and make some effort to reach conclusions — being careful at the beginning to describe the techniques you've employed and at the end to lay out problems awaiting future researchers."

That is exactly what Dr. Sanders has

done in his pioneering book, *The Basin of Mexico*, written with Jeffrey R. Parsons and Robert S. Santley and published last year by Academic Press. The book attacks a series of theoretical issues on the origins of civilization.

Beginning in 1960 and continuing until 1975, Dr. Sanders and his co-workers developed and refined a surveying technique which allowed them to map a vast geographic area to establish a "sound space-time framework for some aspects of prehistoric occupation in the Basin of Mexico. . . . The framework has served as a data base from which to generate inferences about the organization of polity, economy, and society during several time periods. The observed changes over a 2500-year period in population and settlement configuration have provided a series of plausible generalizations about the complex processes of cultural evolutionary change in prehispanic central Mexico."

To collect their data on population and settlement configurations, Dr. Sanders and his colleagues took a very demanding 15-year walk. In two- or three-person teams, accompanied by a workman, the archaeologists systematically walked over the basin of Mexico, an area of some 3000 square miles. The movement of each team was directed by a "centerman" carrying a 1,500-foot airphotograph of the terrain. As architectural remains and areas of artifact concentration were spotted, the centerman plotted them on the airphotograph. Systematic collections of surface artifacts were made, and the findings described in a notebook and with photographs. Later the notations on the airphotographs were transferred to maps.

"It's hard to pass by some of the tempting sites you find," Dr. Sanders says, "but sometimes you have to sacrifice accuracy of detail for geographic spread."

Dr. Sanders cannot even remember when he first decided to become an anthropologist; his Long Island high school yearbook records his choice of that profession. After earning three degrees at Harvard, he began field excavations in the Yucatan peninsula, first at Tabasco and then at Tulum. In addition to his project in the Basin of Mexico, he served as co-director (with Dr. Joseph Michels) at the excavation of Kaminaljuyu in Guatemala.

"As an anthropologist, my basic interest is in how humans adapt to their natural environment and what that adaptation does to their behavior," he explains.

"Archaeology adds the dimension of time. Throughout my career, I've tried to get field experiences in different environments."

What drew him to Mesoamerican archaeology? "The prime areas are close enough to be reached quickly and cheaply," he notes. "And there's such a fantastic variety in a small area. In eight hours of driving, you can go from Arctic conditions to tropical jungles. Because so many complex developments occurred in Mesoamerica, it's a fascinating laboratory."

News in Brief

(Continued from page 1)

J.G. Jackson-C.J. Wood Professor of Physics at Stanford University, will be the speaker for the Third Annual John M. Chermela Lectures in Science to be held Sept. 17, 18, 19 and 22.

Dr. Schawlow will present his first talk at 8 p.m. in Room 333 Whitmore Laboratory; his following three lectures are scheduled for 2 p.m. in the same room.

He will open the series with a lecture entitled "Lasers, Light and Matter." His subsequent talks, dealing with three areas of laser spectroscopy, are entitled "Laser Spectroscopy I: Avoiding Doppler Broadening," "Laser Spectroscopy II: Simplifying Complex Spectra" and "Laser Spectroscopy III: Detecting Small Numbers of Molecules" and "Measuring Wavelengths."

Dr. Schawlow and Nobel-laureate C.H. Townes wrote the first paper describing

lasers and held the patent for laser development.

For his discoveries, they received the Stuart Ballantine Medal of the Franklin Institute, and the Thomas Young Medal and Prize of the Physical Society and the Institute of Physics. Dr. Schawlow, a member of the National Academy of Sciences, has also been awarded the Morris N. Liebmann Memorial Prize of the Institute of Electrical and Electronics Engineers and the Frederick Ives Medal of the Optical Society of America.

Alard Concert is Sept. 17

The Alard String Quartet will present its first concert of the upcoming season at 8:30 p.m. Wednesday, Sept. 17, in the Music Building Recital Hall.

The three works on the program are Robert Schumann's Quartet in F Major, opus 41, no. 2; Bela Bartok's Fourth String Quartet; and Beethoven's Quartet in C Major, opus 59, No. 3.

Penn State Intercom

President Oswald — Looking back at the seventies

President Oswald

Editor's note: On July 1, 1970, John W. Oswald became the 13th president of Penn State. To mark the occasion of his tenth year in office, INTERCOM asked Dr. Oswald to look back on the '70s and trace the course of higher education in general — and Penn State in particular.

"Transitional" is the adjective President Oswald uses most frequently as he reflects on the nature of higher education in the '70s.

"We were passing through a period of transition in terms of growth, in the concerns and composition of the student body, and in the attitudes of the public toward us," he observes.

It was a decade that required a style of leadership quite different from that of the growing, changing, often turbulent years of the '60s, an era Dr. Oswald witnessed first as president of the University of Kentucky and then as executive vice president of the entire University of California system.

The first requirement for the '70s was planning, Dr. Oswald points out.

In the '60s, in response to skyrocketing student enrollments, it had not been unusual for institutions the size of Penn State to expand at an annual rate of 10 percent, leaving little chance for anything but ad hoc planning. As the '70s dawned, the growth curve began to flatten out.

Penn State followed the national pattern, growing about 2 to 5 percent annually.

"The difference between the decades can be summed up in a single statistic," Dr. Oswald notes. "Between 1964 and 1966, five new Commonwealth Campuses were established (Beaver, Berks, Delaware County, Fayette and Shenango Valley). Not a single Campus was added during the '70s."

A second challenge to planners posed by the '70s was the shift in student concerns.

"Inspired by President Kennedy and the 'Great Society' of President Johnson, students made the '60s the era of the social sciences," Dr. Oswald says. "Many of our 'best and brightest' dedicated themselves to such 'service' curriculums as sociology and psychology.

"But in the past ten years we have watched students transfer their attention from these areas to those they now perceive as dealing with the practical problems of the world — petroleum engineering, high level computer science and business administration. It's no coincidence that the area experiencing the largest drop in enrollments has been education. While this is due in part to the declining birthrate, it also reflects the movement of college students away from the concept of 'service'."

(Continued on page 4)

Mallette elected as secretary of Senate

President Oswald presented his annual report to the University Faculty Senate on Sept. 9 at the first meeting of the 1980-81 academic year.

Senate Chairman George Franz announced that Dr. M. Frank Mallette, professor of biochemistry, had been elected secretary of the Senate. He succeeds Dr. Nancy Tischler, who became interim chairman-elect following the resignation from office of Dr. Edward Klewans.

In his address, Dr. Oswald reported on PS-23, which has now completed its fifth year of operation; discussed a possible change from a term to a semester system; announced the establishment of The Faculty Scholar Medal for Outstanding Achievement (see accompanying story); and brought senators up-to-date on the status of the University appropriation.

Because a document such as PS-23 "needs a degree of continuity and assuredness," relatively few changes have been made in it during the past five years, Dr. Oswald pointed out. However, in November of 1977, a Joint Committee was appointed by the Senate Chairman and President Oswald to consider the functioning of PS-23, and that committee's report is now before the Senate's Faculty Affairs Committee.

Dr. Oswald noted that four of the procedural changes recommended by the Joint Committee and approved by the Senate in June had been adopted and put into place by his office during the summer. He also informed the Senate that, under a new procedure, the chairmanship of the University Promotion and Tenure Committee will be rotated every two years, and that members of the faculty as well as administrators will be asked to serve as chairpersons.

(Continued on page 6)

Faculty Scholar Medal established

The announcement of the establishment of The Faculty Scholar Medal for Outstanding Achievement was made by President Oswald during his annual report to the University Faculty Senate at the Sept. 9 meeting.

Some form of recognition for scholarly achievement had earlier been recommended by the Senate Committee on Research.

Paralleling the Christian R. and Mary F. Lindback Awards, which are presented for excellence in teaching, the new award, after it has been submitted to the Board of Trustees for approval, will honor persons "who have excelled in creative work and will express the University's gratitude and appreciation for their achievements."

Each award will consist of a medal and a check for \$1,000, and will be presented during Winter Term commencement exercises.

According to Dr. Oswald, candidates will be considered annually in each of four areas: (1) arts and humanities, (2) life and health sciences, (3) physical sciences and engineering, and (4) social and behavioral sciences.

"The awards," Dr. Oswald explained, "will be given in recognition of scholarly excellence represented by a single contribution or a series of contributions around a coherent theme. The contribution may be original basic research in any area of science; it may represent application of knowledge in the creation of a process or device useful to society; the contribution may be in any area of the arts or humanities such as poetry, musical composition, design, sculpture, paintings, ceramics, theatre arts and photography.

Peer committees will review nominations during the Fall Term, and each of the four committees may or may not recommend to the President a medalist for recognition in a given year.

"The prime criterion will be scholarly excellence," the President emphasized, and it should not be anticipated that awards will be made in all four categories every year."

Persons eligible for the awards include faculty members holding full-time academic appointments, with professional, research (excluding non-continuing research appointees) or librarian titles, as well as individuals who are full-time instructors or assistant librarians.

"The attainment for which the candidate is to be honored shall have occurred or culminated during the three years preceding the nomination for the award," the President said.

The following nominating procedure has been set up: Each September in all academic units of the University the President will invite nominations from peers in the four areas from which medalists may be chosen. Each nomination must include biographical data, a detailed description of the achievement itself, and documented evidence in the form of letters substantiating the claim of the national or international importance of the achievement.

Nominations received by the Dec. 1 deadline will be assigned to the appropriate area review committee. Committees will either recommend two or three names in priority-ranked order to the President or state that no award be given because, in the judgment of the committee, no suitable candidate is available.

The President will appoint four selection panels in July of each year, one in each of the four main scholarly areas. Panels will consist of five to seven members, with a majority of faculty who are recognized scholars in that area. Insofar as possible, panels will include a Lindback teaching awardee and an Evan Pugh professor, and

(Continued on page 4)

Engineering program selected by NASA as center of excellence

The College of Engineering has been selected by the National Aeronautics and Space Administration (NASA) to be one of seven colleges in the nation to develop a center of excellence in computational fluid dynamics. The other universities are Stanford, Iowa State, New York University, Arizona State, University of Cincinnati, and Massachusetts Institute of Technology.

With NASA sponsorship and funding of \$375,000 for four years, Penn State will begin a graduate level training program to award master's and doctoral degrees in computational fluid dynamics of internal and external flow.

Students in this program will gain expertise in the fundamentals of both steady and non-steady fluid motion. Work will include computer graphics and programming of serial, vectorial and parallel processes, numerical analysis with focus on algorithms for solving equations of fluid dynamics, and the application of computer codes to solving complex problems in fluid dynamics.

According to Dr. Budugur Lakshminarayana, professor of aerospace engineering and director of the new program, "The program is designed to meet the current deficiency and the projected substantial long-range shortage of trained personnel in computational fluid dynamics at NASA centers, aerospace companies, Department of Defense laboratories and universities. It is hoped," Dr. Lakshminarayana continues, "that the initiation of such programs around the country will help the United States maintain its leadership in aerospace technology." NASA headquarters, Ames, Langley, and Lewis Centers will serve in a

(Continued on page 4)

Penn Staters

Dr. Thomas Seebom, professor of philosophy, was a visiting professor last summer at the University of Heidelberg and will spend the 1980-81 academic year as a visiting professor at the New School for Social Research in New York City. He also presented three lectures abroad. At the University of Trier, Germany, he spoke at a Phenomenology of Literature Conference. The title of his lecture was "Hermeneutische Probleme im Zusammenhang mit Quine's Konzept der 'radical translation.'" At the University of Mainz, Germany, as part of a philosophical colloquium, he lectured on "Boethius und Dilthey"; and he gave a lecture entitled "Issues in Hermeneutics" at the Collegium Phaenomenologicum, Monteripido, Perugia, Italy.

Dr. Louis C. Perez, professor of Spanish, presented a paper at the First International Congress on Lope de Vega and the Origins of the Spanish Theatre held in Madrid last summer. His presentation was entitled "La moza del cantaro — obra perfecta" ("The Water Maid — a perfect work"). The drama with which Dr. Perez dealt is one of the mature works of Lope de Vega, the major playwright of Spain's Golden Age of Literature.

Dr. James W. Kelz, professor of education and coordinator, Rehabilitation Programs, was recently elected president-elect of the Pennsylvania Rehabilitation Association. Dr. Kelz was also elected as a senator of the American Personnel and Guidance Association, as well as appointed chair of the Armed Services Committee of the National Vocational Guidance Association at the APGA national convention in Atlanta, Ga.

Members of the Alard Quartet — violinists Joanne Zagst and Donald Hopkins, violist Raymond Page, and cellist Leonard Feldman, all associate professors of music — spent two months touring in Europe last summer. They performed at the Ohrid and Dubrovnik Festivals in Yugoslavia, Musik Sommer Klaus in Austria, and Freiburger Serenaden in Germany. As part of the tour, they appeared on television in Yugoslavia and Austria and taped several compositions for broadcast on Radio Free Berlin.

The Alard's second album, "Music for Flute and Strings by Three Americans," has been released by Leonard Records. It features Diane Gold, of a State College, is a guest artist on the recording.

Dr. Richard Hamwi, instructor in art, is having an exhibition of his drawings and paintings at the Barbara Fiedler Gallery in Washington, D.C., through Oct. 3. The exhibit, entitled "Images on Paper," includes 23 works done in ink and watercolors. Dr. Hamwi says the images are abstractions derived from nature and experience.

Dr. Donald B. Johnson, associate professor of computer science, in July attended the 7th Annual International Colloquium on Automata, Languages, and Programming in Noordwijkerhout, The Netherlands, where his joint paper with Dr. Greg N. Frederickson was presented by Dr. Frederickson, an assistant professor of computer science. Dr. Johnson also gave invited lectures at the University of Kaiserslautern and the University of the Saarlands on recent work in optimal solution of structured selection problems.

Dr. Sam Y. Zamrik, professor of engineering science and mechanics, has been awarded a "Certificate of Recognition" by the American Society of Mechanical Engineers for his technical contribution to the Pressure Vessel and Piping Division of ASME. Now the vice-chairman of the Society's Design and Analysis Committee, he has also served as its technical program chairman for the past several years.

Dr. John J. Coyle, professor and head of the Department of Business Logistics and director of CBA's undergraduate program, is the first recipient of the Golden Key Outstanding Faculty Award, sponsored by the University's chapter of the Golden Key National Honor Society. To be presented on Oct. 12, the award recognizes outstanding faculty members who enhance the education of Penn State students through innovative teaching, advising and student-related research.

CBA students have presented Dr. Coyle with their Outstanding Teaching award and twice selected him as Outstanding Advisor. He received the University's 1980 Raymond R. DiMeo Award for Instructional Improvement for his role in developing innovative undergraduate business courses.

The Pennsylvania Psychological Association has presented a Distinguished Service in Psychology Award to Dr. Leon Corlow, professor of psychology. Dr. Corlow was honored for his academic contributions in clinical training, teaching, writing, administration and research and also for service to the community and profession. PPA noted his service to advocacy organizations for the developmentally disabled, as secretary designate for Right to Education suits in the Department of Education, and as a two-term member of the Pennsylvania Board of Psychologist Examiners.

Dr. Joseph O. Prewitt-Diaz, assistant professor of education and bilingual education program specialist, has been named to the Elementary-Secondary Education Act Title IV State Advisory Council. His appointment was announced by Dr. Robert G. Scanlon, secretary of education for Pennsylvania. Members of the State Advisory Council include a wide range of professional educators, parents, students and members of the general public. The Council provides advice and evaluation on the State's plan to strengthen the quality of education through financial support of local projects designed to improve educational practices.

Dr. Carl Hausman, professor and head of philosophy, presented a paper last month at the Ninth International Aesthetics Congress in Dubrovnik, Yugoslavia. His topic was "Creativity: The Evolution of Value."

Dr. Emily Toth, assistant professor of English, has become an elected member of the Public Committee for the Humanities in Pennsylvania. Her term on PCHP, the State equivalent of the National Endowment for the Humanities, will run from 1980 to 1984.

Promotions

Staff Exempt

Scott T. Heffelfinger to assistant to the Dean of Student Affairs at Altoona. Patricia Ann Long to programmer at Hershey.

Staff Non-Exempt

Joan E. Koons to physical therapy technician at Hershey.

Clerical

Linda Cartright to secretary C in Education.

Laura E. Frye to secretary to B in Business Administration.

Peggy Kresovich to budget clerk in Education.

Delores M. McGee to clerk, typist A at Beaver.

Patricia A. Shawley to secretary B in Health, Phys. Ed. and Recreation.

Technical Service

Beverly J. Bechdel to food preparer B in Housing and Food Services.

Sally A. Bierly to food preparer B in Housing and Food Services.

Harold F. Blount to vehicle maintenance mechanic at Behrend.

Sylinda A. Cole to baker — utility in Housing and Food Services.
D. Edward Dashem Jr. to food preparer B in Housing and Food Services.
Jack E. Miller to central processing aide at Hershey.
Stanley P. Miller to food preparer A in Housing and Food Services.
Charles Siegler to utility worker at Nittany Lion Inn.

25-year chair

"You almost have to have been here to believe the changes," says Gerald L. Garbrick, manager of trades, of his quarter century at the University. "It wasn't much of a campus — very small and compact, but now there's quite a difference."

Mr. Garbrick joined the University staff in 1955 as a landscape laborer and caught his first glimpse of the change and growth to come to Penn State as he assisted in the landscaping of the newly completed Hetzel Union Building. In 1959, when he was a carpenter's apprentice, only one truck was necessary "for the whole carpenter crew of about 18 people. Now it would take a fleet of trucks."

As Penn State has grown, so have Mr. Garbrick's responsibilities. He has been promoted through a number of supervisory positions, beginning with janitorial foreman (night shift) in 1964. He transferred to inspector/estimator in Old Main in 1966 and returned to the night shift as a night operations supervisor in 1967. He has also held the positions of building maintenance supervisor, janitorial operations supervisor and job scheduler.

In 1975, he graduated from Penn State with a B.S. in industrial arts education after years of taking Continuing Education courses and part-time day classes while on the night shift. Later that same year, he accepted his present position as manager of trades and is responsible for the supervision of daylight, night and weekend trades supervisors and foremen.

Mr. Garbrick has apparently been responsible for starting a Penn State family tradition in the areas of education and employment. His wife, Helen, is employed as a secretary in Grange Building. One of the couple's two children, Linda, is employed as a clerk in Liberal Arts. Another daughter, Kathryn, graduated from the University with a degree in social rehabilitation.

In his spare time, Mr. Garbrick can often be found traveling to New York and Delaware where he participates in cross-country motorcycle racing.

Retirements

Edwin T. Irwin has been one of Penn State's all-important "men behind the scenes." Through the years, he was a member of the hard-working carpentry division that assisted in last-minute preparations for football games and dances and was instrumental in setting up Beaver Stadium for graduation, an event that triggers memories of "more times rain than shine."

After 26 years' experience as a carpenter in the Office of Physical Plant, Mr. Irwin is retiring. Today (Sept. 18) marks the last day of his job, a job he describes as "the best I've ever had. You couldn't find a

better place to work no matter where you go."

In 1954, Mr. Irwin joined the University staff as a Grade A carpenter in Physical Plant and was involved in maintenance, repair and alteration work all over the campus. During these early days, he recalls that the carpenters used to have to carry their tools across campus, and only one truck was available to haul materials for them. In 1975, Mr. Irwin was promoted to maintenance lead carpenter and supervised crews out in the field.

A resident of Houzdale, Mr. Irwin and his wife, Ruth, have four daughters and five grandchildren. After Mr. Irwin's retirement, they plan to take a trip to the Holy Land.

Rosella J. Hammond, a janitorial worker in the Office of Physical Plant, is marking her retirement time in a number of ways. To keep track of her leisure hours, her co-workers presented her with a clock-radio and graduate students and faculty members in Deike Building, where she was employed, gave her a watch as a farewell present. Mrs. Hammond plans to fill those passing hours visiting relatives, taking care of her dogs, and "puttering" about her place. She is even considering buying a car and learning to drive.

Mrs. Hammond retired Sept. 6 after 16 years of service with the University. She began her Penn State employment in 1964 as a janitorial worker in Maintenance and Operations. Through the years, she worked in a variety of locations such as Chambers Building, Boucke Building, and Frear Lab. She spent the last 11 years of her University career in Deike.

Obituaries

Ernest B. McCoy, 76, dean emeritus of the College of Health, Physical Education and Recreation died Tuesday morning, Sept. 16.

Dean McCoy came to Penn State in 1952 as director of athletics and dean of the then College of Physical Education and Athletics. His administration oversaw a period of expansion in athletic facilities as well as programs. Under his leadership, Penn State's Sports Research Institute came into existence. He led campaigns for the establishment and expansion of numerous facilities, including an enlarged football stadium, new tennis courts and an expanded gymnasium and recreation building.

A graduate of the University of Michigan, Dean McCoy received his M.A. at Columbia University. Prior to coming to Penn State, he was a coach and athletic director at Montclair State Teachers College and a coach and assistant athletic director at Michigan.

In 1970, the year he retired, Dean McCoy received the University's McKay Donkin Award for his contributions to the general welfare of the faculty. In 1977, he was inducted into the Pennsylvania Sports Hall of Fame.

Nellie McClenahan, a janitorial worker with the Office of Physical Plant, died Sept. 6 at the age of 60. She had retired from the University on disability Nov. 17, 1976, after 13 years of service.

Sept. 18-28 Special Events

Thursday, Sept. 18
Sports: golf (women). Penn State Invitational, through Sept. 20.
Campus: Colleagues meeting, 4:30-6:30 p.m., Alumni Lounge, Old Main. Kay Moore, education, on "The Status of Women in Higher Education."
Cinema: *Once Upon a Time in the West*, 6 and 9 p.m., HUB Assembly Hall.
USA film, *Bird Man of Alcatraz*, 6:30 and 9 p.m., Room 10 Sparks.
English Colloquium, Donald Justice, Univ. of Iowa, 1980 Pulitzer Prize winner in poetry, speaker, 8 p.m., Room 101 Kern.
School of Journalism Symposium, "Pennsylvania Politics in the 20th Century: The Next Two Decades," Paul Beers, Harrisburg Patriot News, moderator, 8 p.m., Room 112 Kern.
URTC, Eugene O'Neill, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

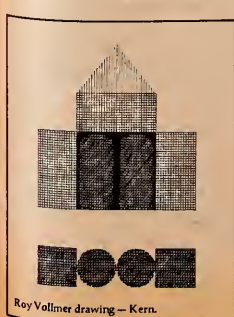

Friday, Sept. 19
Deadline for applying for Graduate School Tuition Grant-in-Aid for Winter Term 1981.
Religious Affairs/STS Lecture, 4 p.m., Room 112 Kern. Bishop John A.T. Robinson, Dean of the Chapel, Trinity College, Cambridge, on "The Eastern Challenge to Christianity." USA film, *Bird Man of Alcatraz*, 6:30 and 9 p.m., Room 10 Sparks.
Commonsplace Theatre, *Casablanca*, 7 p.m.: *Play It Again, Sam*, 9 p.m., Room 112 Kern.
Sports: soccer vs. Alderson-Broddus, 7:15 p.m. URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Saturday, Sept. 20
Sports: cross country (women), Lady Lion Invitational, 10 a.m., and (men), Alumni Invitational, 11 a.m.
Cinema: *Comencini, Till Marriage Do Us Part*, 7 and 9 p.m., Room 112 Kern.
USA film, *Casablanca*, 7 and 9 p.m., Room 10 Sparks.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Sunday, Sept. 21
University Chapel Service, 11 a.m., Eisenhower Chapel. Bishop John A.T. Robinson, Dean of the Chapel, Trinity College, Cambridge, on "Reviewing Jesus from a New Perspective."
Sports: baseball vs. Mansfield (DH), 1 p.m. Commonsplace Theatre, *Casablanca*, 7 p.m.: *Play It Again, Sam*, 9:30 p.m., Room 112 Kern.
Cinema Series, Wayne Jennings, 7:30 p.m., Rec. Hall.

Monday, Sept. 22
Last date for Nov. graduates to pay these fees at Bursar's Office and to activate diploma cards in Records Office.
Classical Chinese Music Trio, 12:45 p.m., Room 112 Kern.
Deadline for Winter and Spring Term 1981 IAHS research grant applications, 5 p.m., Ithling Cottage.
France-Cinema, *Till Marriage Do Us Part*, 7 and 9 p.m., Room 112 Kern.
Art History Lecture, 7:30 p.m., Room 101 Kern. Gerald Eager, Bucknell Univ., on "Form and Symbol in Renaissance and Modern Art — Dani Darvasan's Environment at Prato."

Tuesday, Sept. 23
Demonstration of Kurzweil Reading Machine, 10 a.m., 2 and 3:30 p.m., lecture room.

Ray Vollmer drawing — Kern.

General Reference Section, Patter.
Comp. Lit. Luncheon, 12:15 talk, 1 p.m., Room 204 HUB. Michael Begal, English, on "Vladimir Nabokov: *Ada*, Time and Memory."
School of Music Common Hour, Classical Chinese Music Trio, 1 p.m., Music Bldg. Recital Hall.
Sports: field hockey vs. LaSalle, 3 p.m.
Comp. Lit. Film Series, *Women*, 7 and 9 p.m., Room 112 Kern.
Schools of Music/Visual Arts Concert and Lecture, Classical Chinese Music Trio, 7:30 p.m., Music Bldg. Lobby; Liang Dan-Fong, lecture and demonstration on Chinese painting, 8 p.m., Music Bldg. Recital Hall.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Wednesday, Sept. 24
Alard String Quartet recital, 12:45 p.m., Room 112 Kern.
Focal Film Series, Lucia (Cuba-Spanish with English subtitles), 6 and 9 p.m., Room 101 Chambers.
Black Film Series, *Learning Tree*, 7:30 p.m., Robeson Center.
MBA Interaction Program Lecture, 7:30 p.m., Room 112 Kern. John A. Cerkler, exec. asst. to pres., Westinghouse Electric Corp., on "The International Competitive Situation and the Role of U.S. Industry."

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Robert Tobby, baritone, and John Wustman, Univ. of Illinois, piano, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Sept. 25
Board of Trustees meeting, Keller Bldg. Pass-Fail.
IAHS, John Wustman gives a master class for singers and pianists on the art of accompanying, 1 p.m., Music Bldg. Recital Hall.
Cinema: *The Charge of the Light Brigade* (1968), 6:30 and 9 p.m., HUB Assembly Hall.

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Friday, Sept. 26
Board of Trustees meeting, Keller Bldg. Pass-Fail.
Sports: jv. football vs. Milford Academy, 2 p.m.; soccer vs. Cleveland State, 4 p.m.; tennis (women) vs. Princeton, 8 p.m.
Commonsplace Theatre, *The Hustler*, 6:30 and 9 p.m., Room 112 Kern.

USA film, *Three Days of the Condor*, 7 and 9 p.m., Room 10 Sparks.

Fred Waring and the Young Pennsylvanians, 8 p.m., Eisenhower Auditorium.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Saturday, Sept. 27
Sports: tennis (women) vs. Ohio State, 8 a.m.; cross country (women) vs. Michigan State and Maryland, 10 a.m.; football vs. Nebraska, 1:30 p.m.

Hort Show, "Horticulture: Yesterday's Seeds Growing Today," 10 a.m.-9 p.m., Flower Gardens.

France-Cinema, *Sereau, Pourqui Pas*, 7 and 9 p.m., Room 112 Kern.

USA film, *Three Days of the Condor*, 7 and 9 p.m., Room 10 Sparks.

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Sunday, Sept. 28
Sports: tennis (women) vs. Virginia and Harvard, 9 a.m.; baseball vs. Indiana (Pa.) (DH), 1 p.m.

Liang Dan-Fong painting — Patter.

Hort Show, 10 a.m.-4 p.m., Flower Gardens.
Sale of exhibition material, 4 p.m.
University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Donald Nolder, St. Paul's United Methodist Church, State College, speaker.
Artists Series, A Chorus Line, 3 and 8:30 p.m., Eisenhower Auditorium.
Commonsplace Theatre, *The Hustler*, 6:30 and 9 p.m., Room 112 Kern.
USA film, *Three Days of the Condor*, 7 and 9 p.m., Room 10 Sparks.

Seminars

Thursday, Sept. 18
Ceramic Science, J.T.A. Roberts, EPRI, on "The Search for a More Forgiving Material," 11 a.m., Room 301 Siddle (new listing).
Chemistry, David Ostby, Univ. of Chicago, on "Solvent Effects on Relaxation in Liquids," 12:45 p.m., Room 333 Whitmore (new listing).

College of Science, Chermersa Lecture Series, Arthur Schawlow, Stanford Univ., on "Laser Spectroscopy I: Avoiding Doppler Broadening," 2 p.m., Room 333 Whitmore.
Physics, D.S. Boudreau, Allied Chemical Corp., on "Atomic Structure of Metallic Glasses," 3:50 p.m., Room 445 Davey.
Agricultural Experiment Station, Stuart Patton, Evan Pugh Professor of Agriculture, on "Professing and Researching in Agriculture," 4 p.m., Room 301 Ag. Admin. Bldg.

Computer Science, Mark Wegman, IBM T.J. Watson Research Center, on "Design of a Structural Editor," 4 p.m., Room 325 Whitmore (new listing).

Fuel Science, J.M. Lambert, Jr., grad. student, on "Pyrite to Pyrrhotites — Equilibrium and Kinetic Considerations in H₂," 4 p.m., Room 301 Siddle (new listing).
Mathematics, Leonard D. Berkovitz, Purdue Univ., on "Penalty Methods to Derive Necessary Conditions in Optimal Control in Relaxed Control Problems," 4 p.m., Room 102 McAllister (new listing).

Friday, Sept. 19
Chermersa Lecture Series, Arthur Schawlow, on "Laser Spectroscopy II: Simplifying Complex Spectra," 2 p.m., Room 333 Whitmore.

Geography, Peirce Lewis, geography, on "Images in the American Landscape," 3:45 p.m., Room 319 Walker.
Mathematics, A. Ranicki, Princeton Univ., on "Quadratic Forms and Manifolds," 4 p.m., Room 112 Osmond.

Monday, Sept. 22
Chermersa Lecture Series, Arthur Schawlow, on "Laser Spectroscopy III: Detecting Small Numbers of Molecules — Measuring Wave Lengths," 2 p.m., Room 333 Whitmore.

Thursday, Sept. 25
Chemistry, John J. Eisch, SUNY/Binghamton, on "Novel Oligomerization, Cleavage and Rearrangement Reactions of Nickel (O) Complexes," 12:45 p.m., Room 333 Whitmore.

Physics, Romeo Segnan, American Univ., on "Optics. Light and Color in Art: Was El

Greco Asigmatic?" 3:50 p.m., Room 445 Davey.
Fuel Science, George Roberts, Air Products and Chemicals, on "Two Stage Coal Liquefaction Technology," 4 p.m., Room 301 Siddle.

Friday, Sept. 26
Physical Chemistry, Paul Dagdigian, Johns Hopkins Univ., on "State Resolved Inelastic Scattering of LiH," 2:30 p.m., Room 333 Whitmore.

Exhibits

Kern Gallery: Alfred Charley, bronze sculpture, through Sept. 26; Roy Vollmer, architectural drawings.

Maps of Arts: Sidney Goodman, paintings, drawings and graphics, 1959-1979; highlights from the permanent collection.

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary, East Corridor Gallery, Mary Stockrocki, photographs of the Mid-East, through Sept. 22; Liang Dan-Fong, Chinese paintings, Sept. 22-24, Lending Services Lobby; Denise Ariew, handbuilt pottery, Main Lobby.

Paul Robeson Cultural Center: The Frederick Douglass Years.

Visual Arts Bldg. Zoller Gallery: Herbert Katzman, drawings and preparatory sketches for frescoes.

Arts Roundup

Chinese musicians, artist will be in residence

Three classical Chinese musicians and an artist from the Republic of China, Taiwan, will be in residence at University Park Sept. 21-24.

During their stay, they will present lectures, demonstrations and recitals for students and the general public. An exhibit of East Asian art will be shown in Pattee Library in conjunction with their residence.

The Classical Chinese Trio will perform as guests of the Alard String Quartet in the Music 297 A class from 12:30 p.m. to 2 p.m. Monday, Sept. 22, in the Kern Commons. On Tuesday, Sept. 23, the trio will perform from 1 p.m. to 2 p.m. in the Music Building Recital Hall for the School of Music's Common Hour.

That evening, they will play from 7:30 p.m. to 8 p.m. in the Recital Hall, prior to a lecture/demonstration by artist Liang Dan-Fong. At 9 p.m., a reception for the four visitors will be held in the lobby of the Music Building. All these events are open to the public. In addition, the four artists will be guests in regularly scheduled classes in the School of Music and the School of Visual Arts.

The three musicians, Wong Chung-Ping, Chen Chung-Sheng and Tsai Pei-Hwang, play the pi-pa (four-stringed instrument), bamboo fluke and Nan Hu (Chinese fiddle) respectively. Their repertoire consists of ancient and modern Chinese folk melodies as well as some original compositions and arrangements of traditional songs. Many of their pieces feature solos for the various instruments.

Wong Chung-Ping, a graduate of National Taiwan University, is the composer and conductor for the Taipei Municipal Chinese Music Orchestra and conductor of the B.C.C. Chinese Classic Music Demonstration Orchestra. The recipient of the Medal of Chinese Literature and Art and the Medal from the Minister of Education, Wong Chung-Ping participated in a 30-concert tour of the United States in 1978.

A music major at Tai Chung Normal College, Chen Chung-Sheng is first chair in wind instruments in the Taipei Municipal Chinese Music Orchestra and a music instructor at the Wa Kung Art Academy. In 1979, he was awarded first

(Continued on page 5)

Dr. Oswald

(Continued from page 1)

The changes in student numbers and concerns were accompanied by a change in the composition of the student body, as increasing numbers of women entered college classrooms.

Dr. Oswald points out that women represented 39 percent of the total student population at Penn State in Fall '79—an increase of 28 percent for the decade. This pattern prevailed at all degree levels. For example, last Fall, 40 percent of the University's baccalaureate degree candidates were women, an increase of 21 percent over the decade. Associate degree programs reported a 289 percent increase in the number of women enrolled (to 31 percent). Thirty-six percent of Penn State's graduate students were women, as were 28 percent of the students in the College of Medicine, a jump of 64 percent and 211 percent respectively.

But the most difficult transition for higher education in the '70s and the one that has posed the greatest challenge to planners was brought about by changing public attitudes. Dr. Oswald explains:

"We have gone from a period in 1964-65 when the nation gave a very high funding priority to education to an era where it now questions whether higher education should receive any priority at all.

"This questioning of the value of higher education has led directly to spiraling tuition costs. At Penn State, we have seen tuition rise much faster than the rate of inflation and well beyond the percentage of the cost born by the Commonwealth.

"The public's former attitude that the state should help students bear the cost of their education reflected the belief that institutions of higher education helped the state as well as the student. Now the idea seems to be that students should pay the greater share because educational benefits accrue largely to them and only incidentally to the state.

When President Oswald took office in 1970, the outlines of many of the changes that would shape the '70s were already apparent, and he moved swiftly to position the University to deal with them.

"When I arrived on the scene," he recalls, "Behrend had just become a four-year institution, and several other campuses were also vying to become colleges. It was apparent to me that someone had to put on the brakes and begin to plan for a more modest future."

The result was Penn State's first real master plan, a chart that set the University's course for much of the decade. Then, in 1977, realizing that new premises would be needed for the declining student populations and shrinking revenues of the '80s, Dr. Oswald set in motion the massive planning effort that resulted in *A Perspective on the '80s*.

"More than 200 persons—trustees, faculty members, students and administrators—were involved in shaping the *Perspective*," Dr. Oswald says. "Their efforts have helped define the issues and delimit the boundaries of what will and will not be possible during this decade."

As the *Perspective* was developed, two other studies—less publicized but still crucial—were completed. The first, led by the former senior vice president for administration, Stanley O. Ikenberry, was a two-year determination of the state of Penn State's physical plant at all campuses. The second, conducted by administrators and staff reporting to the senior vice president for finance, Robert Patterson, attempted to predict the extent of the financial gap which would occur during the ensuing five years, the difference in what Penn State would take in from tuition revenues and State appropriations and its expenditures as affected by inflation.

"Because we knew there would be a gap," Dr. Oswald explains, "we undertook still another planning effort—what I like to call 'fine tune planning'—under the

direction of Provost Edward D. Eddy. All of our colleges and departments analyzed their needs during each of the next five years and projected what they could contribute toward closing the gap in our revenues. The result is that each unit—and I emphasize that this includes both academic and non-academic units—has established a savings goal for each one of the next five years."

But because academic planning is meaningless unless it enhances academic quality, Dr. Oswald has coupled Penn

"What I am most determined about, however, is that whatever we do we try to do well."

State's planning efforts with a program review examining every undergraduate and almost all of the graduate curriculums in the University.

"These reviews function as a qualitative academic inventory," the President says. "They were not conducted with the object of being used like hatchets for future budget cutting but to determine what we are doing both as to value and need to the institution. Indeed, some reviews, as in the case of computer science, have resulted in our putting more money into programs."

Another major achievement under Dr. Oswald's stewardship has been the institution of systematic personnel review procedures. Faculty members on the tenure track are now reviewed regularly at the end of their second, fourth and sixth years at the University.

"These reviews have naturally engendered a good deal of discussion," Dr. Oswald notes, "because the more complex and diverse an institution is, the more difficult it is to make equitable judgments. We can't apply the same standards to a person whose total assignment is to conduct research and one who works in agricultural extension. But all of our faculty members should demonstrate that they are scholars, in the sense that they are staying active in their fields of knowledge."

Personnel reviews, Dr. Oswald points out, have not been limited to faculty members. The offices of deans, associate deans and department heads are reviewed every five years. "I feel very strongly," he adds, "that if we are going to maintain quality during a period of falling resources, we will have to make choices among what is offered and among those offering it."

In looking back at other significant activities of the past decade, Dr. Oswald points to the growth of The Milton S. Hershey Medical Center, the establishing of a firm base of private support, the push to increase minority enrollments, and the defining and clarification of governance responsibilities within the institution.

"To me, one of the most rewarding parts of my ten years at Penn State has been the growth of the Medical Center," Dr. Oswald says. "When our Hospital was opened in 1970, one of the Philadelphia newspapers reported that Hershey wouldn't last six months. Today, the Hospital is completely in the black and self-sustaining. In my opinion, one of the principal reasons for Hershey's success is the caliber of the physicians and researchers we've been able to attract to the facility."

Hershey's success, Dr. Oswald notes, has been achieved in the face of the State's refusal during the past ten years to increase the amount per capita it allots for each student.

"This has resulted in the exceedingly high annual tuition charge of \$5,500 for Pennsylvania students," Dr. Oswald continues. "How, then, can we expect

these students, after assuming heavy indebtedness to complete their educations, to choose the low paying area of rural medicine which our programs emphasize—at the request, I would add, of the State?"

In the face of inadequate State support, not only for Hershey but also for many of its other programs, Penn State has moved to seek other funding sources.

"During the past ten years, we have worked very hard to build a strong base of private financial support," President Oswald reports. "With the help of our trustees, a Penn State Fund Council was established, and in the first five years of the decade, private giving rose from about \$3 million to \$5 million annually. By the end of the '70s, this amount had doubled.

The increasing of minority enrollments is an area to which Dr. Oswald has a deep personal commitment. "Every student we bring to Penn State is brought here with the idea that he or she will graduate," he says. "It is up to us to provide the academic and financial support to help disadvantaged students reach this goal. To put Penn State into closer touch with urban-based minority students, we established information centers in Pittsburgh and Philadelphia. Once at Penn State, students needing academic assistance can enroll in the Developmental Year program established for this purpose.

"These efforts resulted in an increase in the number of minority students until 1974 when their numbers dropped. The record is improving, although not as fast as we would like, and we intend to continue our efforts."

Early in his career at Penn State, Dr. Oswald turned his attention to defining the roles of the various groups involved in the governance of the University. The relationships and duties of the Board of Trustees, the President and the senior administrative officers were defined and mechanisms developed to bring the trustees into closer contact with faculty members and students. The trustees also set up the University Council, composed of students, faculty members and administrators, to consider broad, University-wide problems. A student advisory board and a faculty advisory committee were established, and both groups now meet regularly with the President to exchange views.

Among other important developments of the '70s were:

- The strengthening of the Office of Admissions with the appointment of Penn State's first Dean of Admissions. Dr. Oswald points out that applications for admission to Penn State have held up solidly throughout the decade, an indication of "the very strong feeling for Penn State among our high school graduates."

- The establishment of the Penn State Scholars program, which brings the top academic juniors in Pennsylvania high schools (and a number from out-of-state) to visit the University Park campus. As many as a third subsequently enroll.

- The maintenance of academic quality in the student body. While SAT scores have dropped nationally to a total of 894 in 1979, at University Park, the average for entering Fall Term '79 baccalaureate degree freshmen was 1064.

- The establishment of a Bachelor of Philosophy degree baccalaureate program to accommodate students wishing to design their own programs of study.

- The addition of nine foreign study programs to allow students to broaden their educational backgrounds by spending a term in nations ranging from Germany and England to Kenya, Taiwan, Peru and Israel.

- The instituting of planning for a totally integrated library system, based on computer facilities and expected to be operational within five years.

- The completion of a large number of buildings, both at University Park and the Campuses. While much of the planning for new buildings was begun in the '60s,

the past decade saw the doors open to the Liberal Arts Tower, a new addition to Pattee, Eisenhower Auditorium, the Business Administration Building, Fisher Plaza and Walker Building. In addition, Schwab Auditorium and the Nittany Lion Inn were completely refurbished.

—The strengthening of alumni ties through such new programs as the Alumni Fellows, which brings distinguished alumni back to campus to share their expertise with students and faculty members; and the Alumni Vacation College, which is held each summer. More than half of Penn State's 200,000 living alumni received their degrees during Dr. Oswald's presidency, and he has helped cement the University's relationship with them by addressing alumni clubs throughout the country.

Turning to the future, Dr. Oswald is "cautiously optimistic" as he looks ahead. "I think it's important that we at Penn State retain our flexibility to act," he says, pointing to the newly instituted reorganization of Continuing Education and the Commonwealth Campus system as one example of institutional creativity confronting the '80s.

"I think our prospects are good if we are smart enough to recognize opportunities when they present themselves and are willing to make tough decisions about programs if we feel they don't belong in Penn State's future.

"What I am most determined about, however, is that whatever we do we try to do well."

Engineering

(Continued from page 1)

advisory capacity to the program director and participants.

The executive committee of the program includes Dr. Blaine R. Parkin, professor of aerospace engineering and director of the Garfield Thomas Water Tunnel; Dr. Winfred M. Phillips, associate dean for research in Engineering; and Dr. Frank W. Schmidt, professor of mechanical engineering.

Other faculty members who will participate include Dr. Robert E. Henderson, professor of mechanical engineering; Dr. Gilbert H. Hoffman and Dr. Philip J. Morris, both associate professors of aerospace engineering; Dr. Kenneth K. Kuo and Dr. Charles R. Merkle, associate and assistant professors of mechanical engineering, respectively; and Dr. Mark Lang, research associate at ARL.

"The program," Dr. Lakshminarayana says, "will provide students not only with a cohesive set of courses but also with related research and engineering activities. In addition, they will be able to choose summer work experiences."

He adds that Penn State was chosen for the CFD program because of its previous extensive involvement in fluid mechanics research and the faculty expertise in this area and because of its excellent computing facilities.

Scholar Medal

(Continued from page 1)

members may also be drawn from outside the University.

The Graduate Council and the Senate Committee on Research will be asked to recommend faculty members and academic administrators for the four panels. Terms of appointment will be for three years, and initial terms will be staggered to ensure a rotation of the members.

Arts Roundup

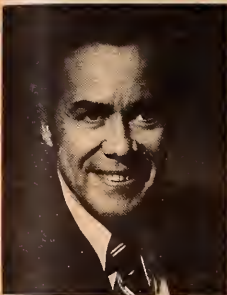

(Continued from page 3)

prize in wind instruments at the National Music Contest.

Tsai Pei-Hwang is a graduate of the College of Chinese Culture in Chinese music, and occupies first chair in string instruments in the Taipei Municipal Chinese Music Orchestra. He is also a music instructor at the Wa Kung Art Academy.

Liang Dan-Fong, an associate professor in the fine arts department of the National Taiwan Academy, has also taught at the Ming-Chuan College of Commerce for Girls and the College of Chinese Culture. Her subjects — bamboo, lotus, orchids, rocks and animal life — reflect the classical Chinese tradition; and she has had many of her works purchased for the permanent collection of museums throughout Taiwan, the Middle East, Europe and the United States. Solo exhibitions of her work have been held around the world.

The residency of the Classical Chinese Trio and Mrs. Liang is being sponsored by the Commission on the Arts of the National Association of State Universities and Land-Grant Colleges (NASULGC). Dean Walter H. Walters of the College of Arts and Architecture is chairman of NASULGC's Commission on the Arts.

Professor Trehy

Trehy recital with Wustman to be presented Sept. 24

Baritone Robert Trehy, professor of music and a Fellow of the Institute for the Arts and Humanistic Studies (IAHS), will present his first recital of the 1980-81 season at 8:30 p.m. Wednesday, Sept. 24, in the Music Building Recital Hall.

Appearing as accompanist with Mr. Trehy will be John Wustman, a pianist who has regularly provided accompaniment for opera singers Luciano Pavarotti, Birgit Nilsson and Elisabeth Schwarzkopf.

Professor Trehy will open his program with "Dichterliebe," a song cycle by Robert Schumann. He will perform five

selected songs by Johannes Brahms, and will conclude his recital with Francis Poulenc's song cycle, "Chansons Gaillardes."

Professor Trehy, who studied in New York and Vienna, has appeared as the leading baritone in international opera festivals in Berlin, Belgrade, Amsterdam and Wiesbaden. In the United States, he has performed as the leading baritone with the New York City Opera, Sarah Caldwell's Opera Company of Boston, the Washington Opera Society, the Santa Fe Opera and opera companies in Honolulu, Hawaii, and Central City, Colorado. He has appeared as soloist with the Cleveland, Detroit, Pittsburgh, St. Louis, Boston, Baltimore and Hartford Symphonies, and is a recording artist on the Philips label.

During the past year, Mr. Trehy took part in several operatic productions and symphonic performances. In January, he appeared with Beverly Sills in the Boston Opera's production of Strauss's *Die Fledermaus* and also performed in the same company's production of Prokofiev's *War and Peace*. He was the baritone soloist with the Pittsburgh Symphony in April and with the St. Louis Symphony in July, and is scheduled to perform again with the Pittsburgh Symphony in November.

Mr. Wustman, whose visit to the University is being sponsored by an IAHS grant, is a professor of music at the University of Illinois. He has accompanied Mr. Trehy in the past in several of his performances at the University. In connection with his upcoming visit, he will present a talk entitled "The Art of Accompanying" at 1 p.m. Thursday, Sept. 25, in the Music Building Recital Hall.

Saturday Morning Art Classes' registration continuing

Registration for Saturday Morning Art Classes, sponsored by the School of Visual Arts, will continue through Friday, Sept. 19, from 3 to 5 p.m. Interested persons may come to Room 270 Chambers Building or phone Ruth Barner at 865-6579.

Dr. Robert W. Ott, associate professor of art education, directs the program, which will begin Sept. 20. Mary Stokrocki of Boston, Mass., and Frank Chetelat of Baltimore County, Md., are course supervisors. The courses are taught by art education majors.

A variety of courses are available for children and young adults, as well as a special course for parents. Tuition is \$10 per child and \$12 per adult.

Vollmer exhibit is on display at Kern

An exhibit of drawings and architectural models by Roy Vollmer, an associate professor of architecture, is on display at the Kern Commons Gallery through Oct. 3.

Professor Vollmer received his B. Arch. at the University and his M. Arch. at the

Fred Waring will lead the Young Pennsylvanians at Eisenhower Auditorium at 8 p.m. on Friday, Sept. 26. The concert, part of Mr. Waring's final tour, is a highlight of the "Thank You, Fred Waring" weekend, during which Penn State will honor its famous alumnus. Tickets may be ordered by calling 863-0255.

University of Pennsylvania Graduate School of Fine Arts, where he studied with the late Louis I. Kahn. He has worked in the architectural offices of Vincent Kling, Philadelphia; Louis I. Kahn, Philadelphia and Dacca; and Mitchell/Giurgola Associates, Philadelphia and New York. He currently maintains an architectural

practice in State College.

Professor Vollmer has also taught at the East Pakistan University of Engineering and Technology and at Drexel University. His research is concerned with the origins and evolution of early architecture and derivative forms, primarily of domestic vernacular and religious significance.

Limitations on use of interactive computing services announced by University Committee

Editor's note: The following material was provided by the University Advisory Committee on Instructional Uses of the Computer.

Even though the capabilities for providing interactive computing services for academic users have been significantly extended and enhanced by the Computation Center, the growing demand for research as well as instructional uses of interactive systems will place heavy burdens on computing facilities during the 1980-81 academic year. If faculty and students in each of the colleges and at each of the campuses within the University are to have reasonable access to interactive services provided by the Computation Center, it will be necessary to impose certain limitations on the use of interactive systems.

Regular I account authorizations for a course include access to the cardbatch services of the Computation Center and are available upon request to faculty teaching courses at all levels throughout the University. Authorizations to use interactive systems under I accounts will be limited to courses at the 400 and 500 level. Additionally, faculty will be asked to limit their course assignments requiring interactive connections so that the average connection time per student will be no more than approximately 1½ hours per week for each week of the term, including traditional peak usage weeks. To lessen the extreme congestion in usage of Computation Center facilities during the final weeks of the term, faculty will be asked to spread out their course assignments requiring interactive connections more evenly during the 10 weeks of the term.

Public terminals at University Park,

located in Room 225 of the Computer Building, will be available for student I account interactive system use at those hours when the Computation Center is normally operating. Additionally, public terminals in Rooms 222 and 224 of the Computer Building and 2 and 4 of Willard Building will be available to students with authorized I account interactive system connections during regular operating hours after 5 p.m. each day, Monday through Friday, and full days on weekends. Some students may have access to terminals provided by the colleges. Use of these terminals by students is subject to the policies and regulations of the sponsoring academic unit.

I account authorizations for use of Computation Center facilities will continue to be processed through the offices of the Computation Center, Room 225L, University Park. Faculty persons at University Park desiring to have interactive system connections authorized for students in their courses should file the usual application for computer use to establish an I account and should forward a special request for interactive connections to E. R. Melander, Chairman, University Advisory Committee for Instructional Uses of the Computer, Room 117 Old Main. The special request for interactive connections for a course should be forwarded by no later than the second week of the term and should include the number of students, as well as the best estimate that can be provided of average weekly connection time per student and total term connection time per student and is anticipated if students are to complete course assignments requiring interactive connections.

"Ah, Wilderness!" opens a 2½ week run tonight (Sept. 18) at the Pavilion Theater. URTC's first production of the season, the play is Eugene O'Neill's only comedy. Pictured above, lobster in hand, is Walter Atamanuk, who appears as Nat Miller. URTC's box office can be reached by calling 865-1884.

Advance gift drive gets United Way off to good start

Penn State is opening its 1980 fund drive for the Centre County United Way by inaugurating a program of campus advance gift solicitation.

And it seems to have paid off. More than \$4,800 has already been pledged, and campus drive chairman Dr. Richard E. Grubb feels that this and other special campus efforts can make a big difference in meeting the county goal of \$361,000.

"We've instituted several changes that should take us beyond past performances," Dr. Grubb said. "Our major change is in personal contact — people will no longer find a big packet of United Way material in their mailbox to sort through."

Instead, volunteers will talk personally to prospective donors about what the United Way is and does, Dr. Grubb explained. Great care will be taken, however, to avoid "pressure tactics."

Solicitors are urged to be themselves, he said, and explain why they became involved. The emphasis will be on allowing the agency to "sell itself."

Only 15.9 percent of University Park's faculty and staff members participated in last year's drive, Dr. Grubb noted.

"Our assignment will be easier because of our president's commitment," he continued. "Dr. Oswald has long been active in the United Way, and recently chaired a national committee on volunteerism for the agency."

"I've always participated personally in the United Way," Dr. Oswald said. "It's reinforced my optimism in and devotion to our country because it's so uniquely American."

Solicitation will begin Sept. 29, with volunteers working until Oct. 3 in all University departments. Follow-up visits to those not contacted during that week are scheduled for Oct. 6-10.

Advance gift solicitation, done for the first time on campus, was limited to members of the President's staff and the Council of Academic Deans. Dennis Kulchyski, Centre County United Way executive director, says that the new procedure increased the level of giving by 58 percent.

"We're very pleased with the outcome of the advanced gifts," he said. "We hope to use the gifts as a pace-setter for the rest of the campaign."

Campus organizers have set no monetary goals, seeking instead to double the number of faculty and staff contributors. The county goal of \$361,000 represents only a 6 percent increase over last year's goal.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 478-1387). Applications for these staff vacancies will be accepted until 5 p.m., Sept. 25, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

DIRECTOR OF NUTRITION AND FOOD SERVICES, COLLEGE OF MEDICINE, HERSHEY. Responsible to Hospital Administration for the planning and developing of nutrition and food service program for patients and personnel. Also responsible for therapeutic, educational and research program in nutrition and food service. Requirements include a master's degree in nutrition or food management, plus three to four years of effective experience, preferably in an institution dealing with nutritional and food service.

Senate

(Continued from page 1)

The President also said that he had discussed with the Faculty Advisory Committee the possibility of appointing to the committee persons who do not currently hold senior academic administrative positions.

Reporting on the five-year period during which the University has been operating under PS-23, Dr. Oswald said that 607 individuals had been recommended by the deans to the University Committee for the granting of tenure. The University Committee, in turn, approved 573 of these recommendations, or 94 percent. Of these, 567, or 99 percent, were then approved by the Provost and the President.

During the same five-year period, 239 persons were recommended by their deans for promotion to full professor; 211, or 88 percent, were recommended on by the University Committee; and 195, or 93 percent, were approved by the Provost and the President.

The deans recommended 437 individuals for promotion at the associate professor level. The University Committee recommended 327 of that number, or 75 percent; and of the 327, 318, or 97 percent, were approved by the Provost and the President.

Dr. Oswald noted "what a hard working group" the University Committee is, pointing out that its members had considered 1,283 actions during the past five years. Of those 1,283 cases, including recommendations on tenure and promotion to both full and associate professor status, the University Committee recommended 1,111 or 86 percent; 97 percent of the Committee's recommendations, or 1,080 cases, were approved by the Provost and the President.

Turning to the calendar, Dr. Oswald read the text of a letter which was to be mailed that day to all members of the University community.

Dr. Oswald added that he was following up this letter with one to the Council of Academic Deans, asking them to consult with their individual departments concerning the impact of a conversion to a semester system on a number of specific questions of an academic nature. The deans are to prepare guidelines by next summer for use in a calendar conversion.

Dr. Oswald has also asked the University Council to review activities of a non-academic nature and develop a similar set of guidelines or policies.

A group that includes Provost Eddy, as chairman of University Council, Dr. James Bartoo, as chairman of the Council of Academic Deans, and Senate Chairman Franz will work with Dr. James Dungan of the Office of Planning and Budget to coordinate the various studies.

Reviewing the status of the University's appropriation bill, Dr. Oswald noted that the legislature would return on Sept. 15, and that both parties and the Governor have indicated they will introduce the bills necessary to secure Penn State's full appropriation.

Dr. Oswald pointed out that a great deal of legislative work must be done in a very short time since the legislature will go into recess around Oct. 10-12.

Reading machine to be demonstrated in Pattee

Three demonstrations of the Kurzweil Reading Machine will be conducted on Tuesday, Sept. 23, at Pattee in the lecture room of the General Reference Section on the first floor. Demonstration times are 10 a.m., 2 p.m. and 3:30 p.m.

The Kurzweil Reading Machine has been called the most valuable reading aid for blind people since the invention of Braille, according to Charles H. Ness, assistant dean for Libraries. The machine reads several hundred print styles aloud in easily comprehended synthetic speech at a rate of up to 250 words per minute.

Summer workshop participants convening

At a luncheon meeting last Tuesday (Sept. 9), participants from a summer workshop on instructional strategies shared their progress in incorporating and utilizing workshop materials.

Participants were 44 University Park faculty members and administrators who teach freshmen or are in some way involved in freshman instruction. They represented 25 departments in the Colleges of Arts and Architecture; the Liberal Arts; Human Development; Science; Agriculture; and Health, Physical Education and Recreation.

The two-day workshop, held June 24-25 at the Altoona Campus, was hosted by four Danforth Associates at the University and members of the Office of the Vice President for Undergraduate Studies. The Danforth Associates were Felix L. Lukecz, professor of plant pathology; Arthur K. Anderson Jr., associate professor of architecture; Gordon F. Dejong, professor of sociology; and Vice President Robert E. Dunham.

Dr. Douglas Heath, a professor of psychology at Haverford College, was the featured speaker at the workshop. He is the author of a number of books, among them, *Humanizing Schools and Growing Up in College*, and is best known for his work on the process of maturation in college.

Among the topics discussed by Dr. Heath was changing levels of student preparedness. Variability will increase, he

predicted, and suggested that the needs of students be coordinated with and related to advances occurring in instructional methodology. Professor Heath stressed the expanding role of computers in the instructional process.

Sharing with workshop participants the findings from research he is conducting to try and discover what students learn in college that increases their effectiveness as adults, Dr. Heath reported that the most significant learning experiences in college seemingly are not related to acquisition of specific course content. Rather they are concerned with the psychological dynamics of the whole learning process. Factors such as relationships with faculty members and approaches to problem solving, he commented, are as significant as academic information.

Faculty members at the workshop also exchanged ideas in small group settings. Discussions centered around such topics as ways to help students with academic deficiencies and how to involve students in the learning process when classes are large.

Evaluation forms circulated after the workshop elicited uniformly favorable responses, and participants suggested that opportunities be provided for further exchanges of ideas. A newsletter has been developed, and selected readings are also being circulated to the group on a regular basis. Additional meetings will be held throughout the academic year, including several seminar discussions.

Anglican Bishop to speak at University Park Sept. 19-21

Bishop John A. T. Robinson, a well known theologian and Dean of the Chapel at Trinity College in Cambridge, England, will lecture at the University Sept. 19-21.

An Anglican minister, Bishop Robinson drew the attention of secular and religious publics with a 1963 bestseller, *Honest to God*. He has continued to pioneer in linking religious and secular concerns in his writing and thinking.

His current research considers similarities and differences in Eastern and Western philosophy and religion.

Elsewhere in Academe

The recession is taking its toll on state funds for higher education nationwide, according to a recent survey made by the *Chronicle of Higher Education*. In Oregon, the Governor has ordered the state's public colleges and universities to prepare for a 30 percent cut in state support. In Michigan, hard hit by auto plant layoffs, the legislature has not passed a budget, and the public colleges and universities are starting their fiscal years without any firm fiscal assumptions. The University of Michigan has adopted a budget based on the premise that state appropriations will be increased by 3 percent, but its board of regents has prepared a number of contingency plans, including a hiring freeze.

In Arkansas, appropriations for higher education were cut by 8.4 percent for 1980-81, while falling revenues in Ohio have necessitated a cut of 3 percent for all state agencies, including the public colleges and universities. The University of Wisconsin-Madison hopes to save \$500,000 this year by halting the purchase of library books, part of its effort to absorb a 4.4 percent cut in appropriations. And in Iowa, the three state universities have been ordered to absorb a 3.6 percent funding reduction.

In the world of academe, the most stress and least job satisfaction — as exemplified in feelings of anxiety, depression and insomnia — are experienced by married female and unmarried male faculty members, according to a study conducted by researchers at the University of North Carolina-Greensboro and Western Illinois University.

"The Eastern Challenge to Christianity" will be the title of his lecture on Friday, Sept. 19, at 4 p.m. in Room 112 Kern Building.

On Sunday, Sept. 21, Bishop Robinson will speak on "Viewing Jesus from a New Perspective" in the morning message of the University Chapel Service in Eisenhower Chapel at 11 a.m.

Bishop Robinson's talks are being sponsored by the Graduate School, the Office of Religious Affairs, and the Science, Technology and Society Program.

Among the 681 faculty members surveyed, 40.3 percent of the sample said they experienced feelings of anxiety; 56.4 percent of the single men and 49.9 percent of the married women noted these feelings, as compared to 46.3 percent of the unmarried women and 35.9 percent of the married men.

More than a third of the faculty members in the study said they suffered from depression. The figure among single men was 48.9 percent, compared to 37 percent of both married and unmarried women and 32 percent of the married men.

Insomnia was the lot of 41 percent of the single men, and 36.7 percent of the married women, as opposed to 29.6 percent of the single women and 23.6 percent of the married men.

However, academics in the sample said they experienced fewer stress-related symptoms than reported by the general population.

One of the researchers, Lynne S. Koestel, noted that both married women and single men "are pursuing a career without the assistance of a faculty wife to provide support at home and in terms of career development."

The Census Bureau reports that last Fall more than a third of all college students — 33.6 percent of the men and 37.8 percent of the women — were age 25 or older. Most of the older students were enrolled part time. About a sixth of all full-time students were at least 25.

Penn State Intercom

Stacked stools and easels in Visual Arts studio provided a built-in abstraction for photographer Scott Johnson.

News in Brief

Ultrasound lab for eye diseases established at Hershey

Hershey has established the first full-service diagnostic ultrasound laboratory for eye diseases in central Pennsylvania, under the directorship of Dr. Barton L. Hodess, professor of surgery and chief of ophthalmology.

Nancy Weyer has been named coordinator and chief technician of the laboratory. Dr. Hodess points out that she is one of only two technicians in the nation trained to do this work.

A-scan ultrasonography, according to Dr. Hodess, is the most sensitive and accurate ultrasonic diagnostic technique for examining the eye and orbit for the diagnosis of tumors, retinal detachments, and other eye diseases. Until now, the only two centers in the United States recognized as authoritative referral bases for such diagnosis have been the University of Iowa and Northwestern University. Dr. Hodess established the service at Northwestern.

Dr. Hodess explains that the high-frequency sound waves produced by ultrasound cause echoes on an oscilloscope screen in much the way an x-ray is used to review the inside of the body. Ultrasound has the advantage of generating no radiation and is capable of demonstrating structures which cannot be visualized by any other conventional type of study.

All vehicles must show new parking stickers by Oct. 1

Faculty and staff members are reminded that new parking bumper stickers must be displayed on their vehicles by Oct. 1. Vehicles parked on campus without the new stickers will be in violation of parking rules and regulations and will be subject to regulatory tickets.

Anyone who has not received a new sticker should contact the college or

department parking representative or the University Parking Coordinator at 865-1412.

Energy costs at U.P. were \$6 million during 1979-80

The University Park Campus spent nearly \$6 million on energy during the 1979-80 academic year, according to Ralph E. Zilly, vice president for business and chairman of the Executive Energy Conservation Committee.

"We spent \$112,000 more for energy, an increase of 1.9 percent over last year," Mr. Zilly noted, "despite the fact that we actually used 5 percent less energy than in 1978-79."

Since concerted energy conservation measures began at Penn State in 1974, more than \$21 million in energy costs have been avoided through physical improvements to campus building systems and increased public awareness of the problem.

"That's not money you can point to and touch," explains J. Carroll Dean, manager of energy conservation programs for the University. "It's an estimate of what we would have spent had nothing been done about energy conservation from 1974 until today."

Despite the fact that building space at University Park has increased by approximately 8 percent since 1973 and that facilities are used by 12 percent more students, only 2.5 percent more kilowatt hours of electricity were used by the University last year than in 1973.

"Still, our conservation performance index for 1979-80 was not quite as good as the year before," Mr. Dean notes. "So there is definitely room for improvement through individual conservation efforts."

The yearly perfer use which takes into account the severity of the weather and the amount of building space.

Mr. Dean notes that coal prices have more than doubled since 1973. Oil prices are more than five times higher than seven

years ago, and natural gas prices are more than four times higher.

Assistant marshalls needed

Two additional assistant marshalls are needed to serve at University commencement exercises and at the annual Honors Convocation. Any faculty members interested should call the University's Marshall, Dr. Barnes McCormick, at 865-2569.

Faculty Women's Club to hold annual Fall reception

The Faculty Women's Club annual Fall reception will be held from 7:30 to 9:30 p.m. at the Kern Graduate Center. All faculty women and wives of Penn State faculty members are invited.

Persons attending the informal cheese and cider party will be able to sign up for the various service and interest groups sponsored by Faculty Women's Club. The latter include a housing referral service, the Penn State Greeters, and reading for the blind.

Among the interest groups are aerobics, antiques, book and play review, book discussion, bowling, bridge, cross-country skiing, dinners for eight, finance for women, French, German, golf, hiking, international cuisine, knitting and crocheting, luncheons for six, needlecraft, and platform tennis.

Hort Show theme honors Penn State's 125th year

"Horticulture. Yesterday's Seeds Growing Today" is the theme of the 67th annual Horticulture Show, in honor of Penn State's 125th anniversary.

Planned and put together by horticulture students, the show will be held in two huge circus tents located in the University flower gardens on Saturday, Sept. 27, from 10 a.m. to 9 p.m. and on Sunday, Sept. 28, from 10 a.m. to 4 p.m.

Solicitation for United Way to begin Sept. 29

The United Way campaign for University Park's nearly 7,000 faculty and staff members will begin Monday, Sept. 29, with the goal of doubling the number of contributors this year.

"The emphasis will be on personal solicitation," said Dr. Richard E. Grubb, senior vice president for administration and chairperson of the University Park campaign. "Several hundred volunteers will approach individuals, giving them an opportunity to participate in United Way — the only charitable payroll deduction plan authorized by the University."

Last year, only 15.9 percent of University Park's faculty and staff members gave to the United Way. "Most other large universities similar to Penn State," Dr. Grubb said, "have a much higher participation rate."

Dr. Grubb points out that individuals will no longer have to sift through a bulky mailing to determine how to give an appropriate response. Solicitors will contact their peers in person to deliver envelopes containing a United Way brochure, contribution card, and return envelope. The solicitors are prepared to answer questions about United Way.

An individual wishing to use the payroll deduction plan should fill out the left-hand side of the card and return it to the solicitor in the sealed return envelopes, thus insuring confidentiality.

An individual making a direct payment should fill out the right-hand side of the card. Direct payments can also be made in installments.

Persons not wishing to participate should mark "no" on the bottom of the card and include their names and social security numbers. This action will eliminate further reminders.

Return envelopes are pre-marked with the number 502, the code for Centre County United Way. If an individual wishes to give to another United Way, he or she should ask the solicitor for the code number for the area wanted and mark it in the space on the left-hand side of the card.

During the week of Sept. 29, the sealed envelopes will be channeled to the Office of Campus Relations, which will deliver them unopened to the Centre County United Way.

During the week of Oct. 6, solicitors will distribute cards to persons who were not available the first week. These will be picked up on Oct. 10 and sent through to the County office.

Dr. Grubb notes that an advance solicitation of the President's Staff and the Council of Academic Deans has generated \$4,480 toward this year's campaign, an increase of 58 percent over last year.

Money raised during this year's campaign will be used to support the 27 health, social welfare, and educational agencies supported by the Centre County United Way.

The evolution of horticulture from the 1800s to the present will be depicted, with both old-fashioned and modern garden areas, a patio garden, a vegetable garden and a hydroponics exhibit with plants growing in nutrient solutions.

A sales area will dispense fresh apple

(Continued on page 4)

Penn Staters

The Women's Sports Foundation honored Dr. Dorothy V. Harris as the individual making the outstanding contribution to women's sports at Sept. 16 ceremonies in New York, which also marked the inauguration of the Women's Sports Hall of Fame. Dr. Harris is professor of physical education and director of the Center for Women and Sports at the University.

The Foundation chose Dr. Harris "because of major research projects which have dispelled myths relating to women in sports; for organizing the first National Research Congress on Women's Sports in 1972; for hundreds of lectures, articles and papers... which have provided the rationale for the development of women's sports programs; for developing the first research center for women in sports; for being the first to generate sports medicine research using women as subjects; and for internationally promoting the importance of sports for women."

A short story, "The Man Who Threw His Life Away," by Thomas Rogers, professor of English, appears in the September issue of *Esquire*. Dr. Rogers' novel, *At the Shore*, will be published this Fall by Simon and Schuster.

Photographs by Wendell MacRae are on exhibit in the Witkin Gallery in New York City through Oct. 18. The photographs were taken between 1927 and 1949, many of them during the period when Mr. MacRae worked as a commercial photographer. He joined the Department of Public Information in 1952 as publications production manager and retired in 1966 from Pattee, where he was assistant to the curator.

Dr. Inyong Ham, professor of industrial engineering, spent much of August in Australia. There he presented a paper, "Current Trends and Future Prospects of Group Technology Applications for Integrated Computer-Aided Manufacturing," at the International Conference on Manufacturing Engineering held in Melbourne. While in Melbourne, Dr. Ham gave an invited special seminar on "Group Technology" at the Mechanical Engineering Department of Monash University. He also conducted four workshop-seminars on "Computer-Aided Manufacturing," "Coding," "Classification," and "Scheduling" at the University of Sydney and at the Swinburn College of Technology in Melbourne.

Dr. Joan Mandl, assistant professor of sociology at Delaware County, delivered a paper, "The Impact of Increasing Numbers of Women Workers on the Nature of Work and Family Life," at the Joint Sociological Research Seminar on Women and Work in Bulgaria and the United States. The seminar was held in Sofia.

During the course of an eight-week stay in Portugal last Summer, Dr. Joan C. Searies, assistant professor of English at Altoona, presented lectures and seminars on American poetry at the Universities of Lisbon, Aveiro and Minho.

Dr. Louis Hass, associate professor of biological chemistry at Hershey, has been appointed an Honorary Research Fellow of the University of Aberdeen, Scotland, beginning Oct. 1. While working in Scotland, he will receive research support from the Medical and Science Research Councils of the United Kingdom. He is seeking to elucidate the characteristics of those enzymes that regulate phosphoglycerate metabolism in human red cells.

Dr. Edward J. Massaro, director of the Center for Air Environment Studies and professor of veterinary science, has been invited to serve as a member of the editorial board of the *Journal of Toxicology and Environmental Health*.

Symposium to honor Patton on his retirement

Dr. Stuart Patton, who retires Oct. 1 as Evan Pugh professor emeritus of agriculture at the University, will be honored Oct. 2 by a symposium memorializing one of his former students, the late Edgar Alan Day.

About 70 of Dr. Patton's friends and colleagues from out of town, as well as many from State College, are expected to attend the symposium, commemorating Dr. Patton's 32 years at Penn State.

Five of Dr. Patton's scientist colleagues will discuss the past, present and future implications of his research, much of it pioneering work on milk—particularly the biochemistry of its synthesis and secretion. Because of the importance of the mammary gland as a model of how other glands work, Dr. Patton's studies have been of vital interest to medical researchers investigating the causes of such diseases as cancer and diabetes.

The symposium honors the memory of the late Dr. Day, who received his M.S. and Ph.D. degrees in dairy science from Penn State in 1955 and 1957. After teaching at the University of Maryland and at Oregon State University, he was executive vice president of International Flavors and Fragrances in Union Beach, N.J. This company has made practical use of some of Dr. Patton's pioneering milk flavor studies.

Speaking at the E.A. Day Memorial

Symposium in Kern Auditorium from 1:30 to 4 p.m. Oct. 2 will be: Dr. Ira Katz, a vice president of International Flavors and Fragrances, on flavor chemistry; Dr. M.P. Thompson, a research scientist at the U.S. Department of Agriculture, on food chemistry; Dr. J.E. Kinsella, a Cornell University professor, on lipids; Dr. T.W. Keenan, a Purdue University professor, on cell biology; and Dr. E.G. Trams, a National Institutes of Health scientist, on marine biology.

A reception will follow at Gatsby's.

Dr. Patton, an internationally renowned scientist, is a 1943 Penn State graduate with a B.S. in dairy science. After working as a chemist for the Borden Company and serving as a U.S. Navy officer during World War II, he received his M.S. and Ph.D. degrees from Ohio State University in 1947 and 1948.

In January 1949, he joined the Penn State faculty as an assistant professor of dairy manufacturing. He was promoted to associate professor of dairy science in 1953, to professor of dairy science in 1959, and was honored with the Evan Pugh title in 1966.

In 1957, he received the American Chemical Society's coveted Borden Award in the Chemistry of Milk; and in 1975 he won the ACS's Award for Distinguished Achievement and Service in Agricultural and Food Chemistry.

This Fall, he was honored with the Senior U.S. Scientist Award of the Federal Republic of Germany's Alexander von Humboldt Foundation. Dr. Patton, his wife, the former Colleen Lavelle, and three of their seven children will spend six months in Germany, beginning next June.

In La Jolla, Calif., where Dr. Patton will conduct research at the University of California's School of Medicine. He will continue also his long-standing research with the Scripps Institution of Oceanography, operated by the University of California at San Diego.

Since 1965, Dr. Patton has participated in three voyages on the Scripps Institution's research vessel, *Alpha Helix*, studying lipid metabolism in spawning salmon.

Obituary

Sybil D. Emerson, professor emerita of art education, died Sept. 15 in her home in McMinnville, Ore. She was 88.

Born in Worcester, Mass., Professor Emerson earned B.A. and B.S. degrees at Ohio State University and studied in art schools in New York, San Francisco and Paris. Prior to her appointment to the University's faculty in 1942 as an instructor in the then College of Home Economics, she taught at New York City and San Francisco high schools and at Dickinson Junior College in Williamsport. She was the first staff member hired by Viktor Lowenfeld for the Department of Art Education when he came to Penn State in 1946. Professor Emerson retired in 1957.

Her career included free-lance designing, decorating, painting, textile design and the illustrating of children's books. One of her major works is the 12 x 28 foot dossier which hangs behind the altar in the All-Faith Chapel of the Helen Eakin Eisenhower Chapel.

October is month to make changes in VADD coverage

Since 1964, the University has offered a voluntary plan for accidental health and dismemberment insurance to all regular faculty and staff members. The plan provides optional amounts of insurance ranging from \$10,000 to \$150,000 and also provides accidental death and dismemberment coverage for dependents.

The month of October is the period when membership or coverage in this plan may be changed. One or more of the following actions may be taken during the month: (1) change the dollar amount of insurance coverage; (2) change from individual coverage to family coverage or vice versa; (3) enroll in the plan as a new member; (4) withdraw from the plan.

To accomplish any of the above changes, obtain a VADD enrollment card from your personnel representative or business manager, complete it and send it to the Employee Benefits Division, Room 133 Willard Building, by Oct. 31. All changes received by that date will become effective Nov. 1.

If you wish to check your present coverage, examine the section of your paycheck stub marked "VADD." The deduction will indicate the amount of coverage you have.

Coverage	Monthly Deduction	Biweekly Deduction
\$ 10,000	\$.41 single \$.63 family	\$ 19 single \$ 29 family
\$ 25,000	\$1.03 single \$1.58 family	\$ 48 single \$ 73 family

Cohen to deliver Nelson W. Taylor lectures

Dr. Morris Cohen, internationally recognized metallurgist and recipient in 1977 of the National Medal of Science, will serve as the 1980 Nelson W. Taylor Lecturer in Materials Science.

He will present two lectures, "Materials in World Affairs," at 7:30 p.m., Monday, Sept. 29, and "On the Nature of Martensitic Transformations," at 4 p.m., Tuesday, Sept. 30. Both talks will be given in Room 26 Mineral Sciences Building.

An informal reception honoring Dr. Cohen will be held at 3 p.m. on Sept. 30 in the Earth and Mineral Sciences Museum and Art Gallery in Steidle Building.

The Taylor Lectures, sponsored by the Department of Materials Science and Engineering, honor the memory of the man who served as head of the then Department of Ceramics from 1933 to 1943. The lectures are supported by the Nelson W. Taylor Fund established by his widow after Dr. Taylor's death in 1965.

A member of the National Academy of Sciences and the National Academy of Engineering, Dr. Cohen has been a leader in studies of phase transformations in materials. He is particularly known for his pioneering work on the martensitic transformations in steel, and he has stimulated research along these lines to the extent that he is credited with making basic advancements in metallurgical knowledge.

During World War II, he was associate director of the Manhattan project at the Massachusetts Institute of Technology, where he is now institute professor emeritus.

He has received awards from numerous professional organizations, including the Japan Institute of Metals, the American

Society for Metals (ASM), the American Institute for Testing and Materials, and Sigma Xi. He is a fellow of the ASM, the Metallurgical Society of AIME, and the American Association for the Advancement of Science, and is an honorary member of the British Metals Society and institutes for metals in Japan, India, and Korea. He served as ASM president in 1969-70, and as chairman of the Survey of Materials Science and Engineering of the National Academy of Sciences in 1970-75.

After receiving his B.S. and D.Sc. from MIT, he joined the faculty there in 1936, becoming Ford Professor of Materials Science and Engineering in 1962, and institute professor in 1975. He has honorary doctorates from the Royal Institute of Technology, Stockholm, Sweden, and the Israel Institute of Technology, Haifa, Israel.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Special Events

Thursday, Sept. 25
Board of Trustees meeting, Keller Bldg.
Pass-Fall
IAHS: John Wustman gives a master class for singers and pianists on the art of accompanying. 1 p.m., Music Bldg. Recital Hall.
Cinemaque, *The Charge of the Light Brigade*, 6:30 and 9 p.m., HUB Assembly Hall.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Friday, Sept. 26
Board of Trustees meeting, Keller Bldg.
Pass-Fall
Meal sales, 1:30 p.m., Univ. Meat Labs. Every Friday during Fall Term.
Sports: j.v. football vs. Milford Academy, 2 p.m.; soccer vs. Cleveland State, 4 p.m.; tennis (women) vs. Princeton, 6 p.m.
Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Andreas Grotewold, geography, Slippery Rock State College, on "Regional Theory of World Trade."
Commonsplace Theatre, *The Hustler*, 6:30 and 9 p.m., Room 112 Kern.
CSA film, *Three Days of the Condor*, 7 and 9 p.m., Room 105 Sparks.
Fred Waring and the Young Pennsylvanians, 8 p.m., Eisenhower Auditorium.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
"Beat Nebraska" pep rally, 8:30 p.m., Rec. Hall.

Saturday, Sept. 27
Sports: tennis (women) vs. Ohio State, 8 a.m.; cross country (women) vs. Michigan State and Maryland, 10 a.m.; football vs. Nebraska, 1:30 p.m.
Hort Show, "Horticulture: Yesterday's Seeds Growing Today," 10 a.m.-9 p.m., Flower Gardens.
France Cinema, *Serrou, Pourquoi Pas?*, 7 and 9 p.m., Room 112 Kern.
CSA film, *Three Days of the Condor*, 7 and 9 p.m., Room 105 Sparks.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Sunday, Sept. 28
Sports: tennis (women) vs. Virginia and Harvard, 9 a.m.; baseball vs. Indiana (Pa.) (DH), 1 p.m.
Hort Show, 10 a.m.-4 p.m., Flower Gardens.
Sale of exhibition material, 4 p.m.
University Chapel Service, 11 a.m., Eisenhower Chapel.
Rev. Donald Nolder, St. Paul's United Methodist Church, State College, speaker.
Artist Series, *A Chorus Line*, 3 and 8:30 p.m., Eisenhower Auditorium.
Commonsplace Theatre, *The Hustler*, 6:30 and 9 p.m., Room 112 Kern.
CSA film, *Three Days of the Condor*, 7 and 9 p.m., Room 105 Sparks.
UCC, Poco, 8 p.m., Rec. Hall.

Monday, Sept. 29
Dead deadline.
Preregistration deadline for Winter Term.
Pass-Fall.
Course repeat deadline.
Adult Ed. Brown Bag Luncheon, 12:30 p.m., Room 101 Kern. Discussion of "Certification and Accreditation."
Alas! String Quartet recital, 12:45 p.m., Room 112 Kern.
France Cinema, *Pourquoi Pas?*, 7 and 9 p.m., Room 112 Kern.
Sports: soccer vs. St. Louis, 7:15 p.m.
College of Earth and Mineral Sciences, Nelson W. Taylor Lecture in Materials Science, 7:30 p.m., Room 26 Mineral Sciences. Morris Cohen, MIT (emeritus), on "Materials in World Affairs."

Tuesday, Sept. 30
Comp. Lit. Luncheon, 12:15 p.m., talk, 1 p.m., Room 204 HUB. Patricia Ward, Kathryn Grossman and Wendy Greenberg, French and comp. lit., on "Contemporary Criticism and the Literary Canon: Victor Hugo's *Notre Dame de Paris*."
Lecture in honor of Dr. Morris Cohen, 3 p.m., E & MS Art Gallery, Steidle.
Sports: field hockey vs. Slippery Rock, 3 p.m.; volleyball (women) vs. East Stroudsburg, 7 p.m.

Comp. Lit. Film Series, Antonioni, *Blow Up*, 7 and 9 p.m., Room 112 Kern.
Faculty Women's Club Fall Reception, 7:30-9:30 p.m., Kern Bldg.
Artist Series film, *Bolshoi Ballet, Swan Lake*, 8 p.m., Eisenhower Auditorium.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Wednesday, Sept. 30
Black Film Series, *Story of a 3-Day Pass*, 7:30 p.m., Robeson Center.
Focal Film Series, *Blood of the Condor* (Bolivia), 7:30 and 9:30 p.m., Room 104 Chambers.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Musica da Camera, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Oct. 2
Kern/WPSX-TV, *Cosmos*, noon, Kern Lobby.
Sigma Xi tour to Hershey. Vans depart Kern at 12:30 p.m.
E.A. Day Memorial Symposium in Food Science, in honor of Dr. Stuart Patton, Evan Pugh professor of agriculture, on his retirement, 1:30 p.m., Room 112 Kern.
Cinemaque, *Mean Streets*, 7 and 9 p.m., HUB Assembly Hall.
Robeson Cultural Center, "Focus on Southern Africa," 8 p.m., Walnut Bldg.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Friday, Oct. 3
Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Kenneth Thigpen, English, on "The Image of America in European Folklore."
CSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.
SFO film, *Lester, Robin and Marian*, 7 and 9 p.m., HUB Assembly Hall.
Sports: volleyball (women) vs. Georgetown, 7 p.m.; soccer vs. Fordham, 7:15 p.m.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.
Artist Series, The Long Wharf Theatre, *Private Lives*, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 4
Last date for Nov. graduates to deliver doctoral theses.
Sports: volleyball (women), Penn State Classic; field hockey vs. Rutgers, 1 p.m.
CSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.
URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Artist Series, The Long Wharf Theatre, *The Lion in Winter*, 8:30 p.m., Eisenhower Auditorium.

Sunday, Oct. 5
HUB Café Center registration for second session classes, noon-5 p.m., Room 312 HUB, through Oct. 13.
CSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.

Seminars

Thursday, Sept. 25
Ceramic Science, P. Bartholomew, Corning Glass, on "Water in Glass," 11 a.m., Room 301 Steidle (new listing).

Air Pollution Control, Julian P. Hecklen, chemistry, on "The Removal of Atmospheric Gases by Particulate Matter," 2:20 p.m., Room 69 Willard (new listing).

Computer Science, Ed Scire, SUNY Stony Brook, on "A Consolidation of Database Design Models," 4 p.m., Room 325 Whitmore (new listing).

Friday, Sept. 26
Physical Chemistry, Paul Dagdigan, Johns Hopkins Univ., on "State Resolved Inelastic Scattering of LH₂," 2:30 p.m., Room 333 Whitmore.

Monday, Sept. 29
McSB, Peter F. Davies, Harvard Medical School, on "Endocytosis, Growth Control and Macromolecular Targeting in Cultured Cells," 4 p.m., 101 Althouse.

Tuesday Sept. 30
Solid State Physics, P. Platzman, Bell Labs., on "Electronic on the Surface of Liquid Helium: Realization of a Two-Dimensional World," 11 a.m., Room 339 Davey.

McSB, Peter F. Davies, Harvard Medical School, on "Endocytosis, Growth Control and Macromolecular Targeting in Cultured Cells," 11 a.m., 101 Althouse.

Rev Robbins and Barbara Schmers appear in Long Wharf Theatre's Oct. 3 production of "Private Lives."

Biology, Charles E. Holt, MIT, on "A Gene Controlling Differentiation in *Physarum polycephalum*," 11:10 a.m., Room 117 Borland.

Nelson W. Taylor Lecture in Materials Science, Morris Cohen, MIT, on "On the Nature of Martensitic Transformations," 4 p.m., Room 26 Mineral Sciences.

Thursday, Oct. 2
Chemistry, Richard van Duyn, Northwestern Univ., on "Recent Developments in Surface Raman Spectroscopy," 12:45 p.m., Room 333 Whitmore.

Air Pollution Control, James K. Hambright, Bureau of Air Quality Control, DER, Harrisburg, on "Interstate Impact of Air Pollution," 2:20 p.m., Room 69 Willard.

Mathematics, Rodney Baxter, Australian National Univ. and SUNY/Stony Brook, on "The Hard Hexagon Model and the Rogers-Ramanujan Identities," 3 p.m., Room 112 Osmond.

Physics, John Sico, Cornell Univ., on "Microscience," 3:50 p.m., Room 445 Davey.

Fuel Science, E.L. Fuller, Oak Ridge National Laboratory, on "Thoughts on the Structure of and Porosity in Coal," 4 p.m., Room 301 Steidle.

Friday, Oct. 3
Physical Chemistry, Jerzy Blaziejowski, PSU, on "Photochemistry of Phosphines," 2:30 p.m., Room 333 Whitmore.

Mathematics, Richard Askey, Univ. of Wisconsin, on "Some Useful Sums and Integrals Connected with Orthogonal Polynomials," 4 p.m., Room 112 Osmond.

Exhibits

Chambers Gallery: Bonnie Deutsch, jewelry, and Maria Da Gracas Moreira Ramon, oil paintings.

Kern Gallery: Alfred Charley, bronze sculpture, through Sept. 26; Roy Vollmer, architect, through Oct. 3. *Collegian* photography, opens Sept. 30; Jean Giddings, weavings, and Jeff Mathison, drawings, both open Oct. 4.

Museum of Art: Sidney Goodman, paintings, drawings and graphics, 1959-1979; highlights from the permanent collection, through Oct. 5.

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary, East Corridor Gallery. Mary Stockrocki, photographs of the Mid-East, through Sept. 29; Liang Dan-Fong, Chinese paintings, Sept. 22-24. Lending Services Lobby. Denise Arner, handbuilt pottery, through Sept. 29. Main Lobby.

Paul Robeson Cultural Center: The Frederick Douglass Years, through Oct. 5.

Visual Arts Bldg. Zoller Gallery: Herbert Katzman, drawings and preparatory sketches for frescoes, through Sept. 28; School of Visual Arts Faculty Exhibit, opens Oct. 2.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Ticket sale opens for Long Wharf's "Private Lives"

The Long Wharf Theatre's production of Noel Coward's romantic comedy, *Private Lives*, will be presented at 8:30 p.m. on Friday, Oct. 3, at Eisenhower Auditorium under the sponsorship of the Artists Series.

The performance will mark the first appearance in this area by the New Haven, Conn., theatre whose plays and productions over the past 15 years have won Pulitzer Prizes, Tony Awards, New York Drama Critics' Circle Awards, Drama Desk Awards and many other honors. Long Wharf's current tour, the most extensive ever mounted by an American resident theatre, will take the company to 31 states.

Written in four days while Coward was bedded in a Shanghai hotel room recovering from a bout with influenza, *Private Lives* is generally regarded as the most enduring — and the funniest — of the celebrated British playwright's works.

The 1930 comedy unfolds at a resort hotel in the south of France where Elyot Chase and Amanda Fyenne, formerly husband and wife, meet unexpectedly for the first time since their divorce. Complicating the reunion is the fact that both have remarried and are currently honeymooning with their new spouses, Sybil and Victor. Elyot and Amanda are at first infuriated by this chance meeting.

Anger gradually turns to nostalgia, as their old love is rekindled. The inopportune chance meeting turns the dual honeymoons into a comic nightmare as Elyot and Amanda realize with mounting horror that not only do they still love each other but also that their second marriages are a terrible mistake.

Tickets for the Long Wharf Theatre on Tour production are available on Mastercard and VISA by calling 863-0255 beginning today (Sept. 25). The HUB Booth and Eisenhower Auditorium box office will be open at 9 a.m. on Tuesday, Sept. 30.

Kern to rescreen "Cosmos" series

Viewers who miss WPSX-TV's showing of Carl Sagan's *Cosmos* series will get a second chance to watch any or all of the 13 programs when they are screened in the Kern Graduate Commons.

Showings will be held each Thursday at noon, beginning Oct. 2 and continuing through Jan. 15.

Using lavish special effects, *Cosmos* will cover such topics as spacecraft missions of discovery to the planets, black holes, the origin of matter, alternate universes, time travel, the death of the sun and life on other worlds.

One sequence will recreate the library of ancient Alexandria, whose destruction, according to Dr. Sagan, may have postponed the Renaissance by a thousand years.

Dr. Sagan, who received the Pulitzer Prize for his book, *The Dragons of Eden*, is director of the Laboratory for Planetary Studies and David Duncan Professor of Astronomy and Space Sciences at Cornell University. In 1978, he delivered the first A. Dixon Johnson Memorial Lecture in Science Communication at the University.

The School of Music — trying to hit the right notes for the '80s

Three years after Maureen Carr took over as director of the Music Department at Montclair State College, she had made enough of an impact on the competitive East Coast music scene to elicit an interview and photograph of herself in the Sunday New York Times.

The article focused on her ability to recruit outstanding faculty on a tight budget — a preoccupation she has not shed since assuming the directorship last fall of Penn State's newly created School of Music.

"Speaking frankly," she says, "when I was first approached about interviewing at Penn State, I wondered if I could adjust to living so far from New York. But I'm finding that the combination of a research university located in a stable environment offers the best of all worlds."

Dr. Carr lists four priorities in her efforts to help build a comprehensive music school in the College of Arts and Architecture. They are faculty recruitment and development, student recruitment, curriculum revision and community outreach.

Confronted by academe's twin problems of the '80s — decreased faculty mobility and declining enrollments — Dr. Carr has turned to part-time instructors to broaden the School's offerings. Over the past year, she has recruited three members of the Pittsburgh Symphony Orchestra to offer master classes and private instruction. They are Leonard Sharov, principal bassoonist; Robert Hamrick, co-principal trombonist; and Eldon Gatwood, principal oboist. Another part-timer is saxophonist Kenneth Radnosky of the New England Conservatory of Music, who also freelances with the Boston Symphony and the Santa Fe Opera Company.

The music theory program has been bolstered by the addition of a full-time faculty member, Anthony Walls, currently acting editor of the *Journal of Music Theory*. Jeanne Swack, who has been hired to teach flute and music history, has two degrees in flute performance from the University of Southern California and is working on a third degree there in music history. And a new program in guitar is being offered by Lawrence Rich, a recent graduate of the Peabody Conservatory of Music.

Dr. Carr sees a definite linkage between the quality of the School's faculty members and success in student recruitment, a project that has occupied much of her attention since she arrived at Penn State. The results of the first year's effort are encouraging — undergraduate enrollments have risen approximately 20 percent.

An aggressive recruiting campaign has included the development of a lively fold-out poster ("At the new Penn State School

Dr. Carr with two of the School's 15 new pianos.

of Music, we're playing your song"), which was sent to high schools across the Commonwealth and to 600 seniors whose names were obtained by buying SAT lists. Faculty members pitched in by calling personally more than 200 students who had written Penn State's Admissions Office for information about music programs. And players in both faculty and student ensembles helped increase the School's visibility by giving performances at high schools across the State.

Dr. Carr believes that the Summer workshops offered through Continuing Education in the College are particularly valuable in recruiting because "talented high school students, along with a number of teachers, get to see what we can offer."

The School of Music came into being with the merger of the Departments of Music and Music Education in Spring 1979. About one third of its approximately 150 undergraduate students are majoring in music history, theory and composition; one third are in music education, and the remainder are in performance. Dr. Carr would like to see undergraduate enrollments grow to about 200 or 250 students.

"Of course we're always on the lookout for outstanding performers and composers who are enrolled in other colleges of the University," she says. "About 80 percent of the students in our various choral and instrumental ensembles are majoring in fields other than music. We're also happy to accommodate dual majors — one of our current students is combining engineering and violin."

About 40 full-time students pursue graduate work in music, a figure Dr. Carr considers "fairly healthy for our program." During the Summer, the number doubles with the return of music education professionals from public school jobs.

A top priority for music faculty

members at this time is curriculum revision, in keeping with the new standards set by the National Association of Schools of Music. NASM is an accrediting body, in which the School of Music was elected recently to associate membership.

With the advent of BDR III, the School of Music has joined its sister arts departments in broadening offerings for non-majors. A course, "Music in Interesting Times," launched during Spring Term, brought in guest lecturers weekly to discuss topics ranging from "The Black Music Scene" to the uses of music in therapy.

This Fall, an experimental course, "Live Performance of the String Quartet," has been instituted, with co-sponsorship by the Kern Graduate Commons. Featuring the Alard Quartet, the course is open not just to students but to all interested listeners who care to sit in on the Monday-Wednesday fourth period sessions. Dr. Carr is looking ahead to next Spring when she hopes the School can offer a live performance in jazz course.

Such courses are part of the School's outreach to the community, which Dr. Carr believes essential. Faculty performances, the crucial component in this outreach, also assist in faculty development.

"Faculty members in performance need to get recognition in the form of reviews," Dr. Carr says. "That's their equivalent of scholarly work. All of our ensembles, choral and instrumental, showcase the School."

Accordingly, the Alard Quartet will face the New York critics this Winter with a performance at Carnegie Hall. In addition, the members of the Quartet will premiere a new work by Ezra Laderman — specially commissioned for them by the Institute for the Arts and Humanistic Studies — in a February performance with the Pittsburgh

Symphony at Heinz Hall. Faculty members in non-performing areas are also in the process of developing research proposals.

"We've had marvelous support during the past year," Dr. Carr says, "both within the College from the Dean and his staff and from the Provost's Office. They've helped us get funding to start up our graduate student Atherton String Quartet, to purchase badly needed ensemble parts and study scores for our library; and to buy new instruments, among them 15 pianos."

During the 10-hour days which she routinely puts in, Dr. Carr has succeeded in getting a number of other projects underway, among them:

- Two weekly Music Common Hours (Tuesday-Thursday from 1-2 p.m.) to give students the chance to perform before live audiences;
- A greatly expanded Pittsburgh Symphony Orchestra residence;
- Exchange programs with other schools, in which, for example, the Alard performed at Montclair State College and the Montclair Piano Trio gave a concert at University Park;
- A joint project with Department of Theatre and Film to put on an opera workshop during Winter Term, and
- The formation of a chamber reading choir to present both new and old music.

Dr. Carr hopes also to be able to increase the School's scholarship endowment funds, and she would like to be able to take fuller advantage of visits to campus by musicians who could offer master classes.

A music theorist with a doctorate from the University of Wisconsin-Madison, Dr. Carr has been doing research employing contemporary analytic techniques; she used an IAHF fellowship grant in August to study Beethoven manuscripts in Vienna and Bonn. She also maintains an involvement in professional associations, serving as chairman of the Ethics Committee of the National Association of Schools of Music, as a member of the Music Committee for the national Graduate Record Examinations and as a member of the National Council of the College Music Society.

The pace she has set for herself leaves her little free time; most of her traveling is on "busman's holidays," trips to New York to hear performances or to serve on evaluation panels. The weekend of Sept. 12, for example, she was in Long Island to deliver a talk on her Summer's research at a three-day Beethoven Festival.

"I think we have established the momentum we need to help the School of Music fulfill its potential," she says. "I feel very positive about the future of musical Penn State."

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until 5 p.m., Oct. 2, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

COORDINATOR, PATIENT EDUCATION, COLLEGE OF MEDICINE, HERSHY Responsible to the Assistant Hospital Director of Nursing Services for the coordination of a patient and family education program with all hospital departments, physician and other health care professionals. Bachelor's degree in education media or equivalent, plus two to three years of related experience. Master's degree preferred.

SENIOR APPLICATIONS PROGRAMMER/ANALYST, CONTINUING EDUCATION Develop major data processing programs involving data base management and telecommunications applications. Prepare documentation to support program operation. Prepare operator manuals and train operations personnel and operate tests in programs, analyze results for compliance with user specifications. Consult with management level personnel within all areas of Continuing Education, represent Continuing Education as required on University-wide committees.

Bachelor's degree or equivalent, preferably in computer science or mathematics, with a working knowledge of COBOL, BASIC OR RPGII are required. Two to three years of effective experience in computer programming, management information systems and/or automated control systems is also required. Experience in accounting, financial management, budgeting or other administrative areas is desirable, as is one year's experience programming a Wang Laboratories "VS" Computer. Fixed Term position's funded through 6-31-81.

LIBRARY ASSISTANT, LIBRARY, BEHREND COLLEGE Responsible to the College Librarian for assistance in all phases of library operations, including supervising part-time personnel, overseeing all aspects of the circulation process, instructing students in the use of library facilities, maintaining periodical collection and controlling the operation of the library in the absence of the Librarian. Two years of college desirable and one year of effective experience, preferably in library work.

The Office of Personnel Administration would like to remind faculty and staff members of the University policy regarding the placement of help wanted advertising.

The Manager of the Employment Division is responsible for reviewing the wording of all help wanted advertisements, so that such advertisements are in

compliance with State and Federal legislation and a standard of public relations is maintained (See PS-33, Help Wanted Advertising, in the University Policy Manual).

Anyone wishing to place classified advertisements for faculty or staff vacancies should contact Robert L. Kidder, manager, Employment Division, 865-1387 (Network number 475-1387) before taking any formal action.

News in Brief

(Continued from page 1)

cider, along with a variety of plants and bulbs. When the show ends on Sunday, all plant materials from its displays will be sold to the public.

Inn to host fans

The Nittany Lion Inn will host a "Gathering of the Fans" after each of Penn State's home football games this Fall.

Festivities begin at 4:30 p.m. and last until 8 p.m., with music by The Tarnished

6, dancing, a cash bar and dinner.

Reservations are suggested for dinner, which will be served from 5 to 8 p.m. Free parking is available.

Sigma Xi trip to Hershey

Sigma Xi is sponsoring a guided tour of The Milton S. Hershey Medical Center on Thursday, Oct. 2.

University vans will depart from Kern Building at 12:30 p.m. The tour of the Medical Center will start at 2:30 p.m. and at 4 p.m. Dr. Richard Hyman, associate professor of microbiology at Hershey, will speak on "Recombinant DNA Today." A wine and cheese party will be held before the vans depart at 6 p.m.

Further information can be had by calling Roberta Beebe at 865-1831.

Penn State Intercom

From the Trustee Docket

Board approves submission of 1981-82 appropriation request

Trustees have approved submission of a 1981-82 State appropriation request which seeks funds to cope with "rapidly escalating inflationary costs."

The preliminary request asks for a \$17.7 million increase over the 1980-81 appropriation. It is based on an 8.5 percent increase in the University's general funds budget, which supports basic educational programs, including teaching, research and public services.

"The emphasis of the proposed budget is placed entirely on provisions to cope with the rapidly escalating rate of inflation which affects the goods and services the University must purchase," President Oswald said.

"While the general rate of inflation currently exceeds 13 percent, many goods and services are increasing at a higher rate—for example, fuel and utilities, books and certain types of critically needed

Prof. Freidel

Prof. Murray

Mr. McCarthy

Panelists will discuss Presidency

Eugene J. McCarthy, former U.S. senator and presidential candidate in 1968 and 1976, will be one of three participants in a panel discussion on "The Modern Presidency: Past Experiences, Future Prospects" on Oct. 14 at 8 p.m. in Room 102 Forum Building.

The panel is part of a program entitled "The State of the Presidency: A Modern Perspective," sponsored by the Department of History and the Institute for the Arts and Humanistic Studies.

The program was created "to interest students in the state of the presidency at this moment and examine what direction it will take in the future," according to Dr. Richard Garner, program coordinator.

Dr. Frank Freidel, Charles Warren professor of American history at Harvard University, and Dr. Robert K. Murray, professor of American history at Penn State, will join Mr. McCarthy on the panel, which will be moderated by Eugene Goodwin, professor of journalism.

Dr. Freidel will make a second public appearance on Oct. 15 when he will present a lecture on "The Modern Presidency: The Legacy of FDR" at 8 p.m. in Room 112 Kern Building. The lecture is sponsored in part by the Graduate School Lecture Series.

Dr. Murray will speak on Oct. 22 at 8 p.m. in Room 112 Kern Building. His topic will be "Presidential Greatness: The Ratings Game."

Mr. McCarthy, as a former presidential candidate, will provide insights into understanding the upcoming election. Dr. Garner said. His drive for ballot access in 1976 involved successful challenges to election laws in 18 states. He was plaintiff in the Buckley versus Valeo case, in which

the Supreme Court struck down major portions of the Federal Election Campaign Act.

Mr. McCarthy represented Minnesota's 4th District in the U.S. House for 10 years beginning in 1949. He was elected U.S. Senator in 1958 and again in 1964. His opposition to the Vietnam War led him to challenge Lyndon B. Johnson for the Democratic presidential nomination in 1968. He retired from the Senate in 1970, and has taught university courses in politics, literature and history for several years.

His thoughts on political campaigns and the '60s will be voiced on Oct. 15 at two sessions of Dr. Emily Toth's course on American Culture of the 1960s. The public may attend either class, the first of which will be held third period (11:10 a.m.) in Room 105 Ferguson and the second during fifth period (2:20 p.m.) in the HUB Assembly Hall.

The author of 10 books, including a volume of poetry, Mr. McCarthy will present a public reading from his poetry Oct. 15 at 8:30 p.m. in Room 111 Forum.

A member of the Harvard faculty since 1955, Dr. Freidel is currently at work on the fifth volume of his biography of Franklin D. Roosevelt. He is a Fellow of the American Academy of Arts and Sciences.

Dr. Murray has been teaching at Penn State since 1949. He was named as a Distinguished Alumnus by Ohio State University and is a senior fellow in the Institute for the Arts and Humanistic Studies. Dr. Murray has written a number of books on the presidency, including *The Harding Era*, *Warren G. Harding and His Administration*.

Senate to hear CWC-Cont. Ed. status report

The University Faculty Senate will hear two oral informational reports and receive reports from several of its committees at its Oct. 7 meeting at 2:10 p.m. in Room 112 Kern Building.

Dr. Robert Scannell will offer an informational status report on his progress in developing an integration plan for the Commonwealth Campuses and Continuing Education. Dr. Scannell, who is vice president and dean of the recently created system, spent the summer months gathering data and suggestions from his various constituencies before preparing his report.

Assistant Provost Richard Chait will present a second oral report on recent legal developments affecting academic personnel policies and procedures.

A legislative report offering proposed changes in Academic Policies 54-58 and 56-30 will be presented by the Committee on Admissions, Records and Scheduling. Current policies instruct the University registrar to notify a student's parents or guardian in the event of any drop action or academic warning action. Because this violates the Family Rights and Privacy Act of 1974, the Committee is recommending changes in these policies.

The Committee on Undergraduate Instruction has prepared an informational report on the University Division of Instructional Services (UDIS).

Undergraduate Instruction also is offering an informational report from its Subcommittee on the Impact on Undergraduate Instruction of Teaching Performed by Graduate Student Teaching Assistants.

Consultation urged in computer additions

Editor's note: The following article was prepared under the direction of the University Computer and Information Systems Planning Committee.

The University Computer and Information Systems Planning Committee (UCISP) asks you to check with committee members, with colleagues, or with Computation Center or Management Services staff members if you're considering rental or purchase of a computer. Look for flexibility, maintenance requirements, and ease of updating. Keep in mind that rapid computing advances lead to doubling of computing power every three or four years, while costs halve.

"We realize that some researchers must have personal computers," says Dr. James B. Bartoo, dean of the Graduate School and chairman of UCISP. "But perhaps in time even personal and office computers can be linked to the Computation Center. A terminal linked to the Computation Center puts 'number crunching' abilities a thousand times that of micro-computers at the researcher's fingertips," continues Dr. Bartoo. "And interactive ability, where the scientist needs to take, reduce, and analyze data in real time, will grow. Those who need administrative computing and data processing should realize that

(Continued on page 4)

Additional news of Board actions appears on pages 3-4

instructional and research equipment."

Dr. Oswald noted that a major concern of the University is the effect decreasing purchasing power will have on the quality of educational programs.

"Penn State faculty members have absorbed increased teaching loads during this period of financial stringency," he said. "There were 217 fewer academic and non-academic personnel on Penn State's payroll in October, 1979, than there were in October, 1976. Yet the enrollment has increased."

Since 1971-72, more than \$23.4 million has been cut from operating budgets and reallocated to areas of greater need, the President added. More than \$16 million of this amount was obtained by eliminating salaried positions and reducing operating funds available to departments.

While spending power has been deteriorating, Dr. Oswald continued, University enrollment climbed to an all-time high of approximately 55,000 students in the fall of 1980 and is expected to remain stable through the 1981-82 year.

"Penn State continues to serve larger numbers of students than at any time in its history, and they have had to pay an increasingly greater share of the cost of education," Dr. Oswald pointed out. "Currently the tuition rate for University Park undergraduate students is \$1,641—the second highest of all the major public land grant institutions."

The 1981-82 budget, Dr. Oswald said, includes an average 5 percent increase in tuition for all students, except for those in the doctor of medicine program. Tuition for medical students is at \$5,550 per year—one of the highest for public universities in the United States.

The budget plan, under a practice begun last year, recognizes the probable need for a modest tuition increase while, at

Penn Staters

Dr. Edward H. Klevans, professor of nuclear engineering, has been named associate dean for research in the College of Engineering, effective Oct. 1. He succeeds Winfred M. Phillips, who left to become head of the School of Mechanical Engineering at Purdue University.

Dr. Klevans, an electrical engineering graduate of Penn State, received his M.S. and Ph.D. in nuclear engineering from The University of Michigan in 1958 and 1962, respectively. He was appointed to the University's faculty in 1966. Prior to that he was a senior scientist at the Jet Propulsion Laboratory in Pasadena, Calif.

While at the University, he has helped develop controlled fusion studies, as well as several undergraduate courses on the theory of nuclear reactors. He also has taught courses on nuclear power and society for non-engineering students.

His research activities on various aspects of controlled fusion and ionized gases have resulted in more than 24 published articles. Part of this research has been conducted as a member of the University's Ionosphere Research Laboratory.

Active in University affairs, Dr. Klevans earlier this fall relinquished his post as chairman-elect of the Senate because of his new responsibilities in Engineering. He has served on the Faculty Advisory Committee and on the Provost's Advisory Committee on Planning and Budgeting.

In 1977, he received the Glen Murphy Award, presented by the Nuclear Engineering Division of the American Society of Engineering Education, for his contributions to nuclear engineering education.

Dr. Nils A. Parr has been named acting director of the Wilkes-Barre Campus, effective Oct. 1.

Dr. Parr will fill the vacancy created by the retirement of George W. Bierly, who served as Campus director for 25 years.

Dr. Parr holds two doctorates, both in economics. One is from the College of Environmental Science and Forestry at SUNY-Syracuse and the other from Syracuse University. He has an M.F. from the Yale University School of Forestry and a B.A. in English from New York University.

He joined the Wilkes-Barre staff in 1978 as associate director for academic affairs. Previously he served as director of placement and assistant professor of economics at Heidelberg College and as director of environmental studies and associate professor of economics at the University of Maine-Machias.

He has also been a timber management forester in Virginia's George Washington National Forest and a research forester in economics for the Northeast Experiment Station of the Forest Service.

Several changes in the administration of the instructional programs in the College of Earth and Mineral Sciences have been made.

Dr. Charles P. Thornton, professor of petrology and undergraduate program coordinator for the Department of Geosciences, is now serving also as chairman of the earth sciences major.

Dr. Peter A. Thrower, associate professor of materials science, has been named graduate program coordinator for the Department of Materials Science and Engineering. Graduate programs leading to the M.S. and Ph.D. are offered by the department in ceramic science, fuel science, metallurgy, and polymer science. Also in the Department of Materials Science and Engineering, Dr. R. E. Tressler, associate professor of ceramic science and engineering, has been named program chairman for the ceramic science and engineering major, and Dr. J. H. Hoke, associate professor of metallurgy, program chairman for the metallurgy major.

Wayne A. Schutjer, professor of agricultural economics, has been appointed to the U.S. Economics and Statistics Delegation that will visit the Peoples Republic of China this month. The delegation is part of a broad government-sponsored scientific, technological, and educational exchange designed to make substantial contributions to U.S. agricultural trade, economic information, and scientific knowledge.

Professor Schutjer has broad administrative and research experience in Asia, having served as Southeast Asia Agricultural Advisor for the Ford Foundation from 1972 to 1974. Earlier he served for 18 months as director of the Research and Training Network of the Agricultural Development Council, a group which promotes cooperation between university faculty members and personnel of public and private aid agencies.

Dr. Juan Fernandez-Jimenez, assistant professor of Spanish at Behrend College, is the author of an edition and study of Pedro de Madina's *Suma de cosmographia* published by Albatros-Ediciones de Hispanofila. The *Suma*—completed in 1551 but not published until now—is a summation of all that was known at the time on cosmography. Its author, the teacher of one of the great nobles of Spain in the 16th century, the Duke of Medina-Sidonia, was the author of another work on the same subject completed in 1545 and translated into many languages.

Dr. James F. Smith, associate professor of English and American studies at Ogonitz, presented a paper entitled "Las Vegas: An American Icon" at the International Popular Culture Association conference in Winchester, England, late in July.

James E. Stephenson, a ceramist and professor in the School of Visual Arts, has been awarded a \$5,000 grant by the National Endowment for the Arts. Mr. Stephenson, who has created many ceramic pieces for wall display, will use the 11-month grant to build wall systems and free-standing shapes and to utilize architectural elements related to brick and tile.

John Wilkerson, instructor in music at Behrend College, was a member of the opera company and chorus this past summer at Artpark in Lewisport, N.Y. Mr. Wilkerson sang the role of Elder Ott in Carlisle Floyd's *Sweeney*, in a production for which the composer was stage director. He also sang in the chorus of *Die Fledermaus* and the Handel Marathon. Artpark is a publicly funded state park devoted to a complete range of artistic expression, including operas, musicals, and dance.

Bookshelf

William E. Biles, professor and head of the Department of Industrial and Management Systems Engineering, is the co-author with James J. Swain of Purdue University of a book, *Optimization and Industrial Experimentation*, recently published by John Wiley and Sons of New York.

The book discusses both single and multiple objective optimization, with and without constraints. It introduces the fundamentals of statistics and experimentation, and follows with a thorough development of regression estimation, experimental design, optimization techniques, and a synthesis of these methods in a single methodology. Examples illustrating these procedures are drawn from both process and simulation studies.

The book is intended for use in senior or graduate level courses in experimental optimization. It also is intended to assist research and development scientists and engineers optimize processes so that they are more efficient, less wasteful of energy or raw materials, and less likely to produce undesired by-products.

Penn State students surprised President and Mrs. Oswald by dedicating the 67th annual Horticulture Show to them last Saturday, in honor of their outstanding contributions to the profession of horticulture. The President, the author of more than 70 scientific papers, holds an A.B. degree in botany and a Ph.D. in plant pathology. He is the discoverer of a new disease of cereals, barley yellow dwarf virus. Mrs. Oswald, a graduate of Alabama College for Women (now the University of Montevallo), has long been concerned with the campus environment and its beautification.

Retirements

William H. Gregory, Sullivan County Extension director, retired Sept. 30 with 32 years of service.

A 1940 Penn State graduate with a B.S. in agricultural education, Mr. Gregory has won numerous awards for his work. Among them are the Pennsylvania Dairymen's Association Extension Award, the Master Educator Award of the Pennsylvania Association of Farmer Cooperatives, the Sullivan County Chamber of Commerce "Man of the Year" Award, and the Distinguished Service Award of the National Association of County Agricultural Agents.

Ethel L. Johnstonbaugh is looking forward to spending some of her retirement in warm and sunny climes. Her travel plans include a trip to visit her brother in Arizona and some vacationing in Florida at a later date. Locally, in her new home in Bellefonte, she will fill her spare time crocheting afghans and doing liquid embroidery.

After 27 years of service with the University, Mrs. Johnstonbaugh, a milk testing machine operator in the College of Agriculture, retired Oct. 1. She joined the Penn State staff in 1953 as a counter attendant with Housing and Food Services, working in various locations such as Atherton, Redifer and Johnston Halls. Mrs. Johnstonbaugh joined Ag's staff in 1977 and has been responsible for testing samples of milk for butterfat.

Hester A. Kennedy, a secretary in the Department of Psychology and a member of the University's staff since 1962, retired Oct. 1.

Obituary

Chauncey P. Lang, professor emeritus of agricultural extension and the mayor of State College from 1966-74, died Sept. 18. Mr. Lang was 86. A native of Woodsfield, Ohio, he was graduated from Ohio State University in 1918 and served for 18 months as a second lieutenant with the American Expeditionary Forces during World War I.

Mr. Lang joined Penn State in 1928 as an assistant 4-H Club leader, retiring in 1959.

Promotions

Faculty

Philip L. Cochran as assistant professor of business administration.

Staff Exempt

Everitt Birns to dean of student affairs at Schuylkill.

Michele E. Florey to patient food service supervisor at Hershey.

Carol B. Harries to assistant manager, medical records at Hershey.

Charlotte Hitchcock to supervisor, student records in Registrar's Office.

Kay F. Kustanbauer to coordinator, Nittany Lion Club in Health, Physical Education and Recreation.
Inez L. Lauck to supervisor, student transcript records in Registrar's Office.
Margaret L. Nastase to budget operations analyst in Planning and Budget.
Samuel C. Smith to supervisor of planning and scheduling (jobs and projects) in Physical Plant.

Staff Non-Exempt

Karen T. Beard to respiratory therapy equipment technician at Hershey.
Debra A. Fudrow to data entry assistant/programmer in Continuing Education.

Marlene L. Glass to research technician at Hershey.

Wanda J. Hoover to senior research technician at Hershey.

Denise A. Hornberger to senior staff nurse at Hershey.

Glenda K. Hostetter to respiratory therapist at Hershey.

Clerical

Paula R. Ammerman to secretary B in President's Office.

Doris L. Billet to secretary B at Capitol.

Doris L. Carter to conference secretary in Continuing Education.

Teresa J. Crissman to conference secretary in Continuing Education.

Marilyn T. Downing to secretary B in President's Office.

Rebecca J. Gorsuch to secretary C in Human Development.

Catherine T. Hansen to senior manuscript typist at Hershey.

Linda Ickes to secretary B in Human Development.

Audrey K. Korman to accounting clerk in Intercollege Research Programs.

Gail A. Lundberg to secretary B in Undergraduate Studies.

Nancy Markle to clerk A in Physical Plant.

Kathleen D. Matason to secretary B in Earth and Mineral Sciences.

Mariesa McMillan to secretary B in Human Development.

Wanda J. Nymon to secretary A in Agriculture.

Bonnie Randolph to secretary B in Science.

Joseph C. Carroll to group leader—housing at Hershey.

Shirley J. Grabbil to senior milk testing machine operator in Agriculture.

William L. Hilgert to vending maintenance mechanic in Housing and Food Services.

Joseph V. Hoffman to biomedical electronics technician at Hershey.

Karl Hoinikes to maintenance mechanic A at McKeesport.

Joseph Kepp to painter/locks and hardware mechanic at Capitol.

Richard C. Mann to safety technician at Hershey.

Mary E. Myers to dining hall worker A in Housing and Food Services.

Evelyn M. Rutherford to physical therapy aide at Hershey.

Robert J. Swigart to laboratory worker in Agriculture.

Herbert L. Swope to maintenance worker (general) B at Capitol.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Oct. 2 — 12

Special Events

Thursday, Oct. 2

Kern/WSX-TV, *Cosmos series*, "The Shores of the Cosmic Ocean," noon, Kern Lobby.
E.A. Day Memorial Symposium in Food Science, in honor of Dr. Stuart Patton, Evan Pugh professor of agriculture, on his retirement, 1:30 p.m., Room 112 Kern.

Sports: baseball vs. Lock Haven.

FSHA, Pennsylvania Dutch meal, 6 p.m., Maple Room, Henderson. Reservations, 865-1736, 8 a.m.—5 p.m.

Cinematheque, *Mean Streets*, 7 and 9 p.m., HUB Assembly Hall.

Robeson Cultural Center, "Focus on Southern Africa," 8 p.m., Walnut Bldg.

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Friday, Oct. 3

Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Kenneth Thigpen, English, on "The Image of America in European Folklore."

GSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.

SFO film, *Lester, Robin and Marian*, 7 and 9 p.m., HUB Assembly Hall.

Sports: volleyball (women) vs. Georgetown, 7 p.m.; soccer vs. Fordham, 7:15 p.m.

Commonplace Coffeehouse, 8 p.m., Room 102 Kern.

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Artists Series, The Long Wharf Theatre, *Private Lives*, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 4

Last date for Nov. graduates to deliver doctoral theses to Committee.

Sports: cross country (men), Penn State Open; volleyball (women), Penn State Classic; field hockey vs. Rutgers, 1 p.m.

GSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.

URTC, *Ah, Wilderness!* 8 p.m., The Pavilion Theatre.

Artists Series, The Long Wharf Theatre, *The Lion in Winter*, 8:30 p.m., Eisenhower Auditorium.

Sunday, Oct. 5

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Carl H. Dek, Coalition for Christian Outreach, FSU, speaker.

HUB Craft Center, registration for second session classes, noon-5 p.m., Room 312 HUB, through Oct. 13.

Opening reception for School of Visual Arts Faculty Exhibit, 3-5 p.m., Zoller Gallery.

GSA film, *Bridge on the River Kwai*, 6 and 9 p.m., Room 105 Sparks.

Monday, Oct. 6

Alard String Quartet recital, 12:45 p.m., Room 112 Kern.

American Assn. of Housing Educators, keynote address, 1 p.m., Keller Auditorium. Helen D. Wine, on "Influencing Legislation and Public Policy," through Oct. 13.

Interdisciplinary Symposium on Value, 8 p.m., Room 101 Kern. Donald P. Verene, philosophy, on "Vico and Marx on Poetic Wisdom and Barbarism."

June Miller, organ, 8:30 p.m., Music Bldg. Recital Hall.

Tuesday, Oct. 7

Faculty Women's Club, Newcomer Get Acquainted Picnic, 11 a.m.—2 p.m., Sunset Park.

Comp. Lit. Luncheon, 12-15 talk, 1 p.m., Room 204 HUB. Denise Levortov, poet, speaker.

University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.

Pittsburgh Chamber Orchestra residency.

Michael Lankester, conductor, with the Chamber Orchestra and the Penn State Symphony Orchestra, 7 p.m., Eisenhower Auditorium.

Sports: soccer vs. Bucknell, 7:15 p.m. Microcomputer Users meeting, 7:30 p.m., Room 169 MRL.

Anthropology, art history, HUB Assembly Hall, Wilda J. Lord, art historian, on "Penn State Buildings: 125 Years of Campus Architecture."

English Colloquium, 8 p.m., Room 111 Forum. Denise Levortov reads her poetry.

Wednesday, Oct. 8

STS/TCD, luncheon, noon; presentation, 12:20 p.m., Room 101 Kern. Marlowe Froke, con-

Levertov to present poetry reading, talk

Poet Denise Levortov, known for her sparse but vividly dramatic style, will be a guest at the University next week and will give a public poetry reading Tuesday, Oct. 7, at 8 p.m. in Room 111 Forum Building. Earlier that day, she will address the Comparative Literature Luncheon group, which meets at 12:15 p.m. in the Donovan Room of the HUB.

Ms. Levortov's visit is in conjunction with the University's 125th anniversary celebration and is sponsored by the Women's Studies Option, the Institute for the Arts and Humanistic Studies and the Department of English.

Awarded the Lenore Marshall Poetry Prize in 1976 for her book, *The Freeing of the Dust*, Ms. Levortov has been a visiting lecturer and visiting professor at a number of colleges and universities, among them the City College of New York, Vassar College, Drew University, the University of California at Berkeley and Massachusetts Institute of Technology. In recent years, she has been a member of the faculty at Tufts University.

tinuing education, on "Higher Education as a Technologically Handicapped Institution," Alard String Quartet recital, 12:45 p.m., Room 112 Kern.

Pittsburgh Chamber Orchestra residency. Szymon Goldberg, conductor, with the Chamber Orchestra and Musica da Camera, 1:30-3:30 p.m.; Michael Lankester, conductor, with the Chamber Orchestra and the Penn State Symphony, 7 p.m., Eisenhower Auditorium.

FSHA, 19th Century Russian meal, 6 p.m., Maple Room, Henderson. Reservations, 865-1736.

Black Film Series, selected shorts and Oliver Franklin, Afro-American Historical and Cultural Museum, on "Black American Film," 7:30 p.m., Robeson Center.

Focal Film Series, *The Traitors* (Argentina), 7:30 and 9:30 p.m., Room 104 Chambers.

Kern Theatre, student preview, "Story Theatre," 8 p.m., Room 112 Kern.

Thursday, Oct. 9

Kern/WSX-TV, *Cosmos series*, "One Voice in the Cosmic Jigsaw," noon, Kern Lobby.

FSHA, German Oktoberfest, 6 p.m., Maple Room, Henderson. Reservations, 865-1736.

GSA film, *Mutiny on the Bounty*, 6 and 9 p.m., Room 105 Sparks.

Cinematheque, *Mahler*, 7 and 9 p.m., HUB Assembly Hall.

Sports: volleyball (women) vs. Laurentian, 7 p.m.

Kern Theatre, Paul Silks, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception for audience and cast following performance, Room 102 Kern.

Friday, Oct. 10

Fixed date for meetings involving Commonwealth Campus faculty.

Sports: volleyball (women), Lady Lion Invitational, through Sept. 11.

Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Thomas Falk, Stockholm School of Economics, on "Retailing in Norrköping."

GSA film, *Mutiny on the Bounty*, 6 and 9 p.m., Room 105 Sparks.

SFO film, Frankelheimer, *The Fier*, 6:30 and 9 p.m., HUB Assembly Hall.

American Studies/IAHS Film, 1968, 8 p.m., Room 115 EE West.

Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.

Artists Series, Pittsburgh Chamber Orchestra, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 11

Fixed date for meetings involving Commonwealth Campus faculty.

Last day for Nov. graduates to take final oral doctoral examinations and to deliver master's theses to adviser.

Sports: rifle, Penn State/Army/Navy ROTC, 8 a.m.; cross country (women) vs. Virginia, 10 a.m.; bowling vs. Maryland, 1 p.m.

Artists Series, Pittsburgh Chamber Orchestra, 10:30 a.m. (youth concert); 8:30 p.m., Eisenhower Auditorium.

Although she is British by birth, all but one of her 11 books of verse have been published in the United States, and she is a naturalized U.S. citizen. Her most recent book, *Collected Earlier Poems, 1940-1960*, came out in 1979, and her only prose book, *The Poet in the World*, was published by New Directions in 1973. In 1969, New Directions also published her translations of the French poet, Guillevic.

GSA film, *The Caine Mutiny*, 7 and 9 p.m., Room 105 Sparks.

Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.

Sunday, Oct. 12

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. William H. Rader, The United Church of Christ, Boalsburg, speaker.

Sports: lacrosse (men), Penn State Invitational; bowling vs. Gettysburg, 1 p.m.

Peggy Shipley, flute recital, 2:30 p.m., Music Bldg. Recital Hall.

GSA film, *The Caine Mutiny*, 7 and 9 p.m., Room 20 Sparks.

Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.

Seminars

Thursday, Oct. 2

Ceramic Science, M.S. Crowley, Standard Oil Co., on "Refractory Concrete," 11 a.m., Room 301 Steidle (new listing).

Meteorology, T. Theodore Fujita, geophysical sciences, Univ. of Chicago, on "Tornadoes and Downbursts," 3:35 p.m., Room 112 Walker (new listing).

Computer Science, Justus Hartmanis, Cornell Univ., on "Recent Developments in Complexity Theory," 4 p.m., Room 325 Whitmore (new listing).

Engineering Science and Mechanics, Peter Couchman, Rutgers Univ., on "Composition-Dependent Glass Transition," 4 p.m., Room 152 Hammond (new listing).

Friday, Oct. 3

Analytical Chemistry, Richard Van Dyne, Northwestern Univ., on "Stimulated Raman—Laser Excited Resonance Raman Spectroscopy," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Jerzy Blazewski, FSU, on "Photochemistry of Phosphines," 2:30 p.m., Room 333 Whitmore.

Mathematics, Richard Askey, Univ. of Wisconsin, on "Some Useful Sums and Integrals Connected with Orthogonal Polynomials," 4 p.m., Room 112 Osmond.

Monday, Oct. 6

Plant Pathology, Rustum Roy, Materials Research Lab., on "Strategy and Opportunities in Federal Funding," 3:35 p.m., Room 213 Buckhorn.

Mc3B, David Trenham, Univ. of Pa., on "Recent Advances in the Myosin ATPase and Other Energy Transducing Triphosphates," 4 p.m., Room 101 Althouse.

Tuesday, Oct. 7

Mc3B, David Trenham, Univ. of Pa., on "Cages ATP-A Photolabile Compound for Novel Kinetic Studies of Enzyme Systems," 11 a.m., Room 101 Althouse.

Chemistry, Donald Sawyer, Univ. of Ca/Riverside, on "Chemistry of Superoxide."

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Biological Applications," 12:45 p.m., Room 333 Whitmore.

Geosciences, M. Nafi Toksoz, earth and planetary science, MIT, on "Crustal Structure in Continental Collision Zones: Alpine-Himalayan Belt," 3:45 p.m., Room 112 Walker.

Biology, Paul Phillips, Wistar Institute, Philadelphia, on "Hormonal Regulation of W1-38 Cell Proliferation in Serum-Free Medium," 4 p.m., Room 111 Mueller.

Thursday, Oct. 9

Chemistry, Milan Uskokovic, Hoffman-La Roche, on "Chiral Synthesis of Natural Products," 12:45 p.m., Room 333 Whitmore.

Air Pollution Control, Mitchell Dukovich, grad. student, biophysics, on "Mutagenic and Carcinogenic Potential of Diesel Exhaust Particulates," 2:20 p.m., Room 69 Willard.

Economics/Institute for Policy Research and Evaluation, Frederic Sherer, Northwestern Univ., on "The Microstructure of Technology Flows," 2:30 p.m., Room 101 Kern.

Physics, W.E. Spicer, Stanford Univ., on "Photoelectron Spectroscopy," 3:50 p.m., Room 445 Davey.

Fuel Science/Mechanical Engineering, Joseph Sangiovanni, United Technologies Research Center, on "An Approach to Droplet Burning in Real Combustion Systems," 4 p.m., Room 301 Steidle.

Mathematics, R.F. Dickman, Jr., Virginia Polytechnic Institute and State Univ., on "A Proof of a Conjecture of A.H. Stone on Unkohered Spaces," 4 p.m., Room 102 McAllister.

Philosophy, John Anderson, Evan Pugh professor of philosophy emeritus, on "Socrates and Three Who Went Beyond Him," 4 p.m., Room 203 Willard.

Friday, Oct. 10

Analytical Chemistry, Erik Whalen-Pederson, grad. student, on "Structure Analysis Studies of Polycyclic Aromatic Hydrocarbons," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Eduardo Lissi, Univ. Tecnica del Estado, Santiago, on "Photopolymerization by Carbonyl Compounds," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Bonnie Deutsch, jewelry, and Maria Das Gracas Moreira's Ramon, oil paintings.

Kern Gallery: Roy Vollmer, architecture, through Oct. 3; Colleen, photography; Jean Giddings, weavings, and Jeff Mathison, drawings, both open Oct. 4.

Museum of Art: Sidney Goodman, paintings, drawings and graphics, 1959-1979, through Oct. 12; highlights from the permanent collection, through Oct. 6; European paintings from the permanent collection, opens Oct. 12.

Pattie Library: Founding a University: The Pennsylvania State University's 125th Anniversary, East Corridor Gallery. Lindsay Laps, recent paintings, lending Services, Lobby. Tom Faela, ceramics, Main Lobby.

Paul Robeson Cultural Center: The Frederick Douglass years, through Oct. 5.

Visual Arts Bldg. Zoller Gallery: School of Visual Arts Faculty Exhibit.

Organ recital is Oct. 6

A recital devoted to the works of German composers will be presented by June Miller, organist and an associate professor in the School of Music, at 8:30 p.m. on Monday, Oct. 6, in the Music Building Recital Hall.

According to Professor Miller, the program of mostly Baroque pieces represents her work with recently discovered articulation practices of the Baroque period.

She will open the recital with the Chaconne in E Minor and Three Chorale Preludes by Dietrich Buxtehude, followed by the Sonata No. 1 in F Minor by Felix Mendelssohn, and three compositions by J.S. Bach—the Trio Sonata No. 3 in D Minor, "Deck Thyself, O My Soul," and the Fantasy and Fugue in G Minor.

(Continued from page 3)

The drop action will be effective Winter Term 1981 to accommodate remaining students in the option.

The other four options, Air, Noise, Radiological, and Water and Solid Waste, will continue as part of the program.

Consent decree execution approved

The execution of a consent decree between the University and the State Department of Environmental Resources for completion of a sewage treatment project at University Park has been authorized by the Trustees.

The decree, to be submitted to Commonwealth Court, will provide for construction of a piping system to dispose of effluent by spraying it on State game lands in Centre County.

"University officers have met several times with members of the Governor's Cabinet and their staffs, and a satisfactory arrangement was worked out under which the State will fund the basic project," Robert A. Patterson, senior vice president for finance and operations, reported.

Mr. Patterson said the University will be reimbursed from the Governor's capital budget for the \$3,587,863 cost of the project. The piping system will be the final phase of a sewage treatment project begun in 1968.

The first phase was completed in 1976. It consists of a surge tank, a pumping system and a main distribution line from the Penn State campus to the game lands.

The second phase, which will bring the University Park system into compliance with federal and State environmental regulations, will consist of a finger system of about 50 miles of various sized piping, 3 to 8 inches in diameter. The piping will allow spraying of effluent over two areas totaling 600 acres.

Penn State researchers developed the spraying technique, which has been approved by federal and State environmental agencies. Tested extensively by Penn State's College of Agriculture, it was found to be odorless and harmless to vegetation and animals in the area. It adds nutrients to the soil and safely recharges the water table.

Mr. Patterson said he anticipates completion of the project by April 1982.

Scholarships announced

The establishment of a number of new scholarships was reported to the Trustees. They include:

A Paul M. Wentworth Scholarship will recognize outstanding students in civil engineering. The initial principal of the fund, more than \$24,000, has been obtained from donations and gifts from Paul M. Wentworth, a 1925 Penn State graduate in forestry now living in Rutherford, N.J. Full-time undergraduate civil engineering students of at least junior standing are eligible for the scholarship if they have a B average and have a demonstrated financial need.

An Edgar Wayne Leighty Scholarship will assist students at the Altoona Campus. The initial principal of more than \$16,500 comes from the estate of Alma L. Leighty, an Altoona piano instructor. A supporter of education, she named the scholarship to commemorate her father. Financially needy students enrolled or planning to enroll full-time at Altoona are eligible for the scholarship.

A General Motors Fund will provide financial assistance to qualified minority students. The initial principal of the fund will be \$5,000, contributed annually for five years by the General Motors Foundation. Fund income will be shared equally by the Colleges of Engineering and Earth and Mineral Sciences. All full-time minority students enrolled in either college are eligible for the grants.

A Luther H. Harshbarger Fund for Religious Studies will support scholarships and an annual lecture in religious studies. The initial principal of \$2,000 was contributed in honor of Dr. Harshbarger's 31 years of service to the

University as founding head of the Department of Religious Studies. He retired in June. University alumni, friends of Dr. Harshbarger and three church-related agencies contributed to the fund. Students who are full-time undergraduates enrolled in the religious studies major will be considered for the scholarship, provided they are at least sophomores, have better than average grades and/or need financial help with their college expenses.

A Robert P. Meahl Award will recognize students majoring in ornamental horticulture. The initial principal of more than \$2,000 has been received as gifts from alumni and the friends, colleagues and associates of the late Dr. Meahl, a former faculty member of the Department of Horticulture. Full-time horticulture students of at least sophomore standing who have demonstrated interest in ornamental horticulture are eligible for the award. Recipients will be selected on the basis of academic excellence, professional performance and promise.

The Allentown-Lehigh County Board of Realtors Scholarship has been established for Allentown Campus students. An annual contribution from the Board will be forwarded to the University to provide the awards. Students enrolled or planning to enroll as full-time undergraduates at the Allentown Campus will be considered if they have shown promise of academic excellence. Preference will be given to current Allentown Campus students, but former Allentown students continuing their studies at University Park also will be considered.

Addition to Milk Testing Lab to be completed

Construction of a 4,000-square-foot addition to the University's Central Milk Testing Laboratory was authorized by the Trustees.

The addition will contain testing facilities, office space and improved receiving, handling and storage areas for trucks at the laboratory, which provides milk and dairy testing services for the Pennsylvania Dairy Herd Improvement Association.

"The original building was constructed under a 1969 agreement with the dairy association," Ralph E. Zilly, vice president for business, said. "Fees paid to the University for testing services funded the cost of construction. The program has been very successful, and the number of animals tested has increased to the point that additional facilities are needed."

"An addition can be funded under an agreement similar to the 1969 arrangements. No State or tuition funds will be used for this project. Funds advanced by the University will be repaid from fees collected for testing."

The \$293,320 addition is scheduled for completion in the summer of 1981. Mr. Zilly said.

Cereals, grain research facilities to be augmented

A small building to house cereals and grain research facilities at the Rock Springs Agricultural Research Center will be constructed. The 40-by-100-foot timber column building will provide space for the increased involvement of Penn State in small grain research. It will be used by the Departments of Plant Pathology and Agronomy, as well as by the U.S. Department of Agriculture. Costing approximately \$25,000, the building is scheduled for completion by the end of this year.

Telex, facsimile facilities listed

Telex or facsimile equipment is available for use by members of the faculty and staff. Agreement negotiations and research data are examples of information for which mail services may be too slow. Campus locations are listed below. Services are available at cost, and subject to availability of the equipment.

Area	Location	Telephone	Device
Applied Research Lab.	211 Applied Science	865-1721	Xerox 410
Continuing Education	122 Kellier	865-1781	Western Union TWX "Teletype"
Institute for Research on Land & Water Resources	100 Land & Water	863-0291	QWIP 1200
Materials Research Lab.	104 MRL	865-1656	Xerox 410

Consultation

(Continued from page 1)

Management Services is also expanding its capabilities. In short, the Committee stresses the need for mature growth that furnishes opportunities for both the individual and the unit to advance as the overall base of the computational ability expands."

Organized February 1980, UCISP is responsible for recommending to the President's Administrative Policy Council University plans, policies, and priorities for institutional computing and information systems. Included are data communications, networking, academic computing, software packages, library computing, administrative data processing, word processing, data administration, and distributed data processing. The Committee is to provide for compatibility of University computer facilities and shall call for and review annually the computing and information system plans of each major systems organization. Another responsibility is the publication of papers on state-of-the-art information systems for University planning.

UCISP is also charged with reviewing all proposals and purchase orders for rental or purchase of computers, where cost exceeds \$10,000. Dr. Bartoo notes that all such purchase orders and proposals, including an information sheet to expedite routing, should be sent to the subcommittee on Academic Computing, chaired by Dr. G. G. Johnson Jr., associate professor of computer science. Requests for administration computing are also reviewed by the subcommittee on Information and Data Administration. Leonard M. Brush, associate director of data systems support, chairs this group.

"Two to three weeks should be allowed for proposal and purchase order reviews," notes Dr. Bartoo, "although these documents have been reviewed faster. But we don't think that reviewing \$2 million worth of purchases in a few weeks as we've done in the past is beneficial."

Appointed by President Oswald, UCISP replaces the Computer Advisory and University Systems Advisory Committees. "We're at the point of recommending new policies and procedures," says Dr. Bartoo, "and we'll probably operate along the following broad policy lines."

Administrative computing and data processing will most likely be more closely integrated. Fewer data bases, for example, might be built and made accessible to many users. "The theory is that fewer bases, with selective accessibility and guaranteed confidentiality, would serve many at less cost than separate systems," explains Dr. Bartoo. "Terminals linked to these bases would show this kind of transactional processing."

Academic computing is a different situation, where flexibility and experimentation must be encouraged. Personal computers are clearly better in certain situations, and versatile mid-sized equipment better in others. Charles Blunt, coordinator for Information and Administrative Services, provides staff support for the Committee and cites the DEC-built VAX "super mini" as an example. Three have been bought, one by mathematical sciences, another by the hybrid computer lab in electrical engineering, and a third by the Hershey Medical Center. Virtually the same machine, each is groomed for different

purposes. Two similar machines will be acquired in 1980/81.

Committee members caution that equipment cost is only part of the computational budget. Software, maintenance and staff costs must all be included. A rule of thumb states that each purchase dollar must be matched with a dollar of staff time. In that light, the \$3 million worth of computer-related equipment bought this past year and added to the \$10 million worth already on campus becomes a sobering statistic.

"Nevertheless, we want to encourage this technology," says Dr. Bartoo. "We realize increasingly available high power computers will revolutionize the University posture on research and administrative transaction processing at the same time that inevitable economies force a hard look at possible duplication and waste of resources. We want to strike a delicate balance between centralization and decentralization," concludes Dr. Bartoo, "and policy and procedural suggestions in that vein are welcome."

UCISP committee members, in addition to Dr. Bartoo, Mr. Brush, and Dr. Johnson, include R.E. Dunham, L.M. Furtado, S.A. Garban, F.J. Remick, D. Rung, R.J. Scannell, and R. Schraer. Membership of the subcommittees will be released later.

Berks

(Continued from page 1)

Band and baton twirler Lori Bowers will perform, and spectators will see a Penn State varsity volleyball game.

Penn State alumni, students and faculty members and contributors to the Partners in Progress fund raising campaign which financed the building have been invited to the ceremonies.

With the addition of the new building, Berks Campus students and faculty members can now assemble for academic convocations under one roof. The facility also will enable students to enroll in additional indoor basic physical education courses, and varsity basketball games will be added to campus life, along with wrestling, fencing, golf, racquetball instruction and physical conditioning programs.

Both the Campus and the community will benefit from the new Community Center, Dr. Harold W. Perkins, Berks director, points out.

Penn State alumni in Berks County, who number about 4,500, plan to raise \$30,000 to provide 1,000 convocation chairs, bleachers and special physical education equipment to enhance the use of the building, according to John D. Beatty, chairman of the Berks Campus Fund.

Plans call for joint use of the facility by the county park system and the University during summer months. The building can seat about 1,000 people and can be equipped with a portable stage.

The Community Center is adjacent to the Campus's main athletic field, an 800 space parking lot and a student center which provides classroom space, a food service area, a bookstore and an auditorium. Tennis courts are nearby.

Chairman of the Partners in Progress capital campaign which raised \$1.2 million for construction of the new facility was Howard O. Beaver Jr., who is a trustee of the University and a member of the Penn State Alumni Council.

Trustee docket

(Continued from page 1)

the same time, it attempts to bring in to better balance the financial contributions of students and the State," said Dr. Oswald. "Our aim is to reflect the concept that Penn State's educational programs benefit the entire State, as well as the students. Incorporating a modest tuition increase into our budget proposal appeared to be helpful to the University in its efforts to obtain its State appropriation for the 1980-81 fiscal year, and is being proposed again as part of our long-range planning — not inconsistent with the *Perspective on the '80s*."

The total appropriation request of \$144,740,000 represents an increase of 13.9 percent over the 1980-81 appropriation and includes \$4,572,000 for the Milton S. HERSHEY Medical Center. An increase in the per capita allotment for doctors of medicine to \$11,783 from \$7,465 is requested. The per capita appropriation for medical students has not changed since 1971-72. Dr. Oswald said. Tuition, meanwhile, has risen 455 percent.

Other considerations in the appropriation request:

- Significant increases in retirement and group insurance costs are mandated by external agencies and are not under the University's control. The amount paid for retirement costs has increased six-fold since 1970-71.

- Social Security costs have risen from \$5.5 million to more than \$14 million in the past decade.

- While the Penn State appropriation has increased almost every year, the per-student appropriation in terms of "real dollars" has declined by more than 22.6 percent since 1972-73.

- Essential salary adjustments for employees will be provided.

- No funds are requested for new programs.

Also approved by the Trustees was a Capital Program Request that outlines proposed spending for the first year of a five-year capital improvement program.

Included in the program are requests for funds to make necessary changes in utility systems to meet the long-range goal of minimizing energy expenditures, for remodeling or renovating existing facilities, for buildings needed for basic services at the various Campuses, and for a deferred maintenance program necessary to expand the life of existing University facilities.

Fall Term enrollment tops 55,000 — a record

Fall Term enrollment at the University totaled 55,281 — a record for the second straight year, according to preliminary figures announced to the Trustees. The University Park campus, with an enrollment of 32,459, and the Commonwealth Campus System, with 17,709 students, also set records.

Individual Commonwealth Campuses that set enrollment records were Altoona (1,969 students, up 9.6 percent); Berks (934, up 10.7 percent); DuBois (633, up 6.9 percent); Hazleton (1,128, up 9.5 percent); and York (1,016, up 6.4 percent).

University Park's 1980 enrollment showed an increase of 667 over 1979's total of 31,792. Commonwealth Campus enrollment showed an increase of 937. Hershey Medical Center and the Radnor Center for Graduate Study also recorded enrollment increases this year.

All figures are preliminary and are expected to be slightly higher when final tabulations are completed.

Fund council reorganized

The Board of Trustees has authorized several changes in the organization of the Penn State Fund Council, an advisory council concerned with private fund raising for the University.

"The council is being reorganized this fall in order that it can best assist the University in meeting the challenges and

opportunities for fund raising during the next five years," explained Dr. Richard E. Grubb, senior vice president for administration.

Among the changes are plans to enlarge the fund council. Under the resolution creating the council in 1974, the Trustees provided for a membership of 26. The Board's action permits additional members to be nominated by the President of the University.

In addition, the council will now meet twice each year instead of once as it did previously.

Also approved was formation of a steering committee to meet between the semi-annual regular sessions to establish general directions for the council, coordinate committee work and provide communication with the University administration, the Office of Gifts and Endowments, and the Board of Trustees.

The Penn State Fund Council advises the Board of Trustees and the President on all matters pertaining to private fund raising. It supports special projects most needed by the University and most appropriate for support through private sources.

A meeting of the new and enlarged fund council will be held early in 1981, at which time the council will consider how best to carry out its responsibilities for the next five years to assure continuing success in private fund raising," Dr. Grubb said.

C. W. Shaeffer of Baltimore, who had served as chairman of the Penn State Fund Council since its inception, resigned that post July 1 after the organization achieved its first five-year goal of doubling private support to the University.

Lawrence G. Foster, an alumnus from Westfield, N.J., corporate vice president and assistant to the chairman of the board of Johnson & Johnson, was named by President Oswald to head the council. Under the reorganization, Mr. Foster's title becomes president of the Penn State Fund Council.

In a related report, it was noted that gifts received by the University during the year ending June 30, 1980, totaled \$9,562,685.

The figure, due in part to a bad year for the economy, was down by about 7 percent from \$10,302,772 the previous year. However, Dr. Grubb said he was encouraged by the overall private giving picture.

He noted that in 1975-76, Penn State undertook a five-year campaign to double the dollar amount of private gifts to the University. This goal was achieved in the fourth year, as private gifts and grants reached \$10.3 million. Emphasis during the first five-year campaign was on broadening the base of support.

"The total number of gifts to the University for the last financial year increased from 42,458 to 44,081 — an indication that more alumni and friends are recognizing the needs of Penn State," he said. "Also, certain important areas have shown improvement."

"Corporate giving has gone up 5 percent to \$3,502,341, and gifts to scholarships totaled \$1,390,743 — more than 38 percent above last year's total. On the other hand, deferred gifts actually received decreased approximately \$650,000 this year. Large annual fluctuations in deferred gifts received are normal."

More than 97 percent of gifts to the University are restricted to special uses by the donors. Student aid and enrichment of educational programs are two of the major areas that receive support. Undesignated contributions are allocated by the University.

Undesignated funds for the 1979-80 fiscal year totaled \$332,769. The majority of these funds was allocated to the support of academic programs and support of scholarships and fellowships. Dr. Grubb told the Trustees. Undesignated funds also were used for enrichment of campus life, cultural offerings and improvements to the campus environment.

Faculty Scholar Medals established

The proposal to establish Faculty Scholar Medals for Outstanding Achievement, outlined by President Oswald to the University Faculty Senate at its Sept. 9 meeting, was approved by the Board. Details of the proposal were published in the Sept. 18 issue of INTERCOM.

Naturatorium to be named in honor of Dean McCoy

The Trustees approved a proposal to name The Naturatorium in honor of the late Ernest B. McCoy, dean of the College of Health, Physical Education and Recreation for 18 years. Dean McCoy died Sept. 16.

"The Naturatorium was built under Dean McCoy's leadership of the College," President Oswald said. "This and numerous other achievements made his career at Penn State a most distinguished one."

"It is especially appropriate that the Naturatorium should be named for an administrator whose leadership was instrumental in establishing Penn State's excellent recreational programs and facilities."

Completed in 1967, the Naturatorium has facilities for competitive and instructional swimming and diving. It is used for varsity and intramural competition, physical education classes and recreational swimming. In addition to three pools, the building contains locker room facilities for 800, classrooms and office space.

Dean McCoy came to Penn State in 1952. In addition to serving as dean until his retirement in 1970, he was the University's athletic director from 1954 until 1969.

Ag Arena to be located near Beaver Stadium

The Trustees approved a site near Beaver Stadium for a proposed Ag Arena, to be used for such events as the annual Horticulture Show, animal judging events, 4-H Club activities and College of Agriculture classes.

The location, along Fox Hollow Road, adjacent to the Pennsylvania Department of Agriculture's Meat Animal Evaluation Center, will not affect parking during Penn State football games.

The Penn State Fund Council, in cooperation with the Ag Alumni Society, currently is seeking private gifts for construction of the Ag Arena.

General studies program to be launched in Kiel

Penn State will join in a general studies program with Christian-Albrechts University in Kiel, West Germany, beginning Spring Term 1981.

"This will be the first program in which Penn State students will be fully integrated into regular classes of a foreign university where fluency in a foreign language is required," Dr. Robert E. Dunham, vice president for undergraduates studies, said.

The program will provide students an opportunity to prepare linguistically for participation in German academic and social life. It also will promote an awareness of the social, political and economic problems of a major Western European country with which the United States has close ties.

"Although other, similar German universities might achieve these objectives," Dr. Dunham said, "Kiel was chosen based on existing ties between Penn State and Kiel, and a personal invitation and pledged support from the vice president of Kiel."

Students will begin the program in March with a four- to six-week intensive language instruction course. This will be followed by the Kiel summer semester from mid-April to the end of July. The minimum total credits earned during this time will be 16, including language study.

Prerequisites for the program include a 2.5 minimum grade-point average, six to nine credits in German, and any other

course prerequisites imposed by the student's academic department. Selected courses at Kiel will be approved in advance by Penn State academic departments granting credit for the courses. The Office of Foreign Studies will be responsible for all aspects of the program operation.

Dr. Dunham anticipates that a minimum of 10 undergraduate students per year will participate in this program. Students who participate will pay regular University tuition and will be considered full-time students eligible for standard University benefits, including financial aid.

New format being used for associate degree titles

The new format for designation of associate degree titles, approved last May by the University Faculty Senate, is now in use.

Effective with the Summer Term 1980 commencement, Penn State began conferring only three associate degree titles — Associate in Arts, Associate in Engineering and Associate in Science. Previously, the University conferred 21 different degrees for 31 majors.

The new format was designed to align the University with accepted practice at other universities and to eliminate the redundancy of degree title and major. The changes do not affect the program in any other way.

The individual majors are now grouped under the three designations. Diplomas and transcripts identify both the degree conferred and the student's major.

Associate in Arts will include majors in: Labor Studies, Letters, Arts, and Sciences; Mass Communications — Broadcasting; Mass Communications — Journalism; and Sociology.

Associate in Engineering will include majors in: Air Pollution Control Engineering Technology, Architectural Engineering Technology, Biomedical Equipment Technology, Chemical Engineering Technology, Electrical Engineering Technology, Highway Engineering Technology, Mechanical Engineering Technology, Metallurgical Engineering Technology, Mining Technology, Nuclear Engineering Technology, Railway Engineering Technology, Solar Heating and Cooling Technology, and Surveying Technology.

Associate in Science will include majors in: Agricultural Business, Business Administration, Clinical Health Services, Community Services, Computer Science, Forest Technology, Hotel and Food Service, Medical Laboratory Technology, Nursing, Recreation and Parks, Retailing, Science, and Wildlife Technology.

Engineering drops programs

The associate degree program in Aerospace Engineering Technology and the General Option of the major in Environmental Engineering have been dropped.

The Aerospace Engineering Technology program was useful when there was a demand for support personnel in the aerospace field," Dr. Robert E. Dunham, vice president for undergraduates studies, said. "With a decreased demand in the industry and considerable competition in this area with junior colleges, the program has not been active in recent years."

No students are enrolled in the program and drop action will be effective immediately.

"The dropping of the General Option in Environmental Engineering comes as an effort to streamline and strengthen the curriculum by giving students more time to concentrate on professional courses in their particular fields of interest," Dr. Dunham said.

"Even without this option, the curriculum gives a student a background in all areas of the environment, and a specialized option then provides a tool that will make a more productive graduate," he added.

(Continued on page 4)

News in Brief

United Way drive continues

Penn State's 14,000 employees statewide will be asked to help their neighbors in need during United Way fund-raising drives.

"Each donation counts," says Dr. Richard E. Grubb, senior vice president for administration and University Park Campaign chairperson. "For example, if you give \$1 per agency, or \$17, your contribution would buy two one-hour visits by a registered nurse to an elderly person who needs medical care at home."

United Way is unique in that it is locally conducted and supported by each community. Penn State employees at all locations can contribute to agencies in their areas.

Campus campaign coordinators and dates are: Allentown, John Cooney, Sept. 17 - Oct. 29; Altoona, Kjell Melting, Sept. 26 - Nov. 2; Beaver, Donald Hicks, Oct. 1 - Oct. 31; Behrend College, Ernest Fryer, Sept. 24 - Nov. 8; Berks, Michael Moyer, Sept. 25 - Oct. 15; Capital, Sherry Janis, Oct. 1 - Nov. 15; Delaware County, Eugene Cloud, Sept. 22 - Nov. 3; DuBois, Janet Yates, Sept. 25 - Nov. 10; Fayette, Melvin Henderson, Sept. 17 - Oct. 31; Hazleton, Harold Aurand, Sept. 23 - Oct. 31; Hershey, Benjamin Bronstein, Oct. 1 - Nov. 19; McKeesport, Ruth Baxter, Sept. 22 - Nov. 2; Mont Alto, Martha Fisher, Oct. 1 - Oct. 31; New Kensington, Robert Bernoff, Sept. 1 - Nov. 1; Ogonitz, Robert Bernoff, Sept. 15 - Oct. 15; Schuylkill, Steve Littell, Sept. 10 - Oct. 10; Worthington, Scranton, Frank Yatsko, Sept. 1 - Dec. 31; Shenango Valley, Steven Kessler, Sept. 22 - Oct. 17; University Park, Campus Relations, Sept. 29 - Oct. 10; Wilkes-Barre, Nils Parr, Sept. 29 - Oct. 3; York, David Stewart, Sept. 1 - Nov. 31.

Dr. Wise to address housing educators conference

Dr. Helen D. Wise, executive director of the Delaware State Education Association and a trustee of the University, will deliver the keynote address at the annual conference of the American Association of Housing Educators, to be held Monday through Wednesday, Oct. 6, 7 and 8, at the University.

"Influencing Legislation and Public Policy" will be Dr. Wise's topic, and the public is invited to attend her presentation at 1 p.m. on Oct. 6 in Keller Auditorium.

The theme of this year's conference is "Housing and Public Policy in the 1980s," according to Dr. Joseph L. Wysocki, associate professor of home economics extension and local arrangements chairman for the conference.

The public is also invited to hear a paper by Richard L. Bullock, vice president of the Consultative Council, National Institute of Building Sciences. He will speak on "NIBS - A New Approach to Solving Housing Problems in the '80s" at 3 p.m. on Oct. 7. His talk will be in Keller Auditorium, as will the paper at which the public is welcome. Wednesday Oct. 8, at 3:15 p.m., Arthur Norton, of the U.S. Census Bureau, will discuss "Population Trends in the '80s," followed by Dale Rioridan, of the Federal Home Loan Bank Board, speaking on "Implications for Housing and Public Policy."

Talk to trace history of design of campus buildings

As part of Penn State's 125th anniversary celebration, Walton J. Lord, associate professor of art history, will speak on "Penn State Buildings: 125 Years of Campus Architecture" at 8 p.m., Tuesday, Oct. 7, in the HUB Assembly Hall.

Some of the earliest buildings at Penn State are currently featured in a display in the East Wing Gallery of Patten Library. The lecture will examine factors that influenced the design of early campus buildings.

Pittsburgh chamber group to offer several concerts

The Pittsburgh Symphony Chamber Orchestra, under the direction of Zsuzsanna Goldberg, will be in residency at Penn State Oct. 7-11. It will present two evening concerts, each with a different program, in Eisenhower Auditorium, as well as a Youth Concert on Saturday morning.

These concerts are sponsored by the Artists Series, and tickets for them are on sale at the Artists Series booth in the HUB and at Eisenhower Auditorium box office. Phone orders for the evening performances only may be placed on Mastercard or VISA by calling 863-0255 weekdays from 9 a.m. to 4 p.m.

The Chamber Orchestra residency is being sponsored by the School of Music and will afford its students the opportunity to rehearse and perform with the Pittsburgh musicians.

The first evening concert will be at 8:30 p.m. on Friday, Oct. 10, with Mr. Goldberg performing the dual role of conductor and violin soloist. The program will include two Romances for violin and orchestra by Beethoven, Schubert's Rondo in A Major for violin and orchestra, Stravinsky's Concerto in D for String Orchestra, and Haydn's Symphony No. 104.

Mr. Goldberg, a Polish-born violinist, was selected at the age of 16 to lead the Dresden Philharmonic Orchestra and four years later became the conductor of the Berlin Philharmonic. As soloist and member of a string trio with Hindemith and Feuerman and as a sonata partner of Lili Kraus, he toured extensively. In 1955, he was asked by the Dutch Minister of Culture to form the Netherlands

Boris Bloch

Chamber Orchestra. He also has been guest conductor of the BBC, Boston, Chicago, and Cleveland Orchestras.

The Chamber Orchestra will perform again at 8:30 p.m. on Saturday, Oct. 11, with the Russian pianist Boris Bloch as soloist. Mozart's Symphony No. 40 in G Minor; Beethoven's Concerto for Piano and Orchestra, No. 2 in B-flat Major; and Schubert's Symphony No. 3 in D Major comprise the program.

Winner of numerous international awards, the 29-year old Bloch has performed around the world, including appearances at nine of the most prestigious international festivals in Europe and the United States. His performance of the

Rachmaninoff Concerto No. 3 at the Spoleto Festival USA in South Carolina made such an impact that a repeat concert was given one week later - a first in the festival's history.

In addition to the two evening concerts, the Pittsburgh Symphony Chamber Orchestra will give a Youth Concert at 10:30 a.m. Saturday in Eisenhower. This is the first event in the Live Arts for Young Audiences series. The concert, entitled "What Strikes Your Fancy?," features Conductor Michael Lankester.

From 1969 to 1973, Mr. Lankester was music director of the National Theatre of Great Britain, and for several years was head of the Music Department at the Royal College of Music, where he continues as a member of the conducting staff.

As part of the Chamber Orchestra's residency, he will conduct its members and those of the Penn State Symphony in Dvorak's Symphony No. 8 in G Major, opus 88, at 7 p.m. on Tuesday, Oct. 7, in Eisenhower.

Two student rehearsals are scheduled for Wednesday, Oct. 8. At the first of these, Mr. Goldberg will conduct the Pittsburgh players and Musica da Camera in a performance of the Symphony No. 104 in D Major by Haydn beginning at 1:30 p.m. At 7 p.m., the Pittsburgh musicians and members of the Penn State Symphony will perform Beethoven's "Egmont Overture" and the "Fantasia on a Theme by Thomas Tallis" by Vaughan Williams under the direction of Mr. Lankester. Both rehearsals are in Eisenhower and are open to the public.

According to Professor Lord, the oldest classroom building, Botany Hall, shows an awareness of work by America's leading architect of the 1880s, Henry Hobson Richardson. Ten years after the triumph of the Beaux Arts style at the Chicago World's Fair in 1893, Schwab Auditorium was constructed as an architectural reflection of the Renaissance classicism of the White City on Lake Michigan.

Charles Klauder so admired the Adamesque Federal beauty of New York's City Hall, Professor Lord notes, that his 1920 Old Main owes much to the design of one of the finest American public buildings of the early republic. Likewise, Waring Hall on Burrows Road seems transplanted from Samuel McIntire's Salem.

Professor Lord has taken numerous photographs of campus buildings. His presentation will include structures that have gone, such as the Old Amory, and buildings that have arrived as replacements, such as the new Willard Building.

The lecture, sponsored by the Department of Art History, is open to the public.

Children's classes offered

A program of basic movement skills, educational gymnastics, and games will be sponsored by the College of Health, Physical Education and Recreation for children in kindergarten through third grade.

The program will be held on Tuesdays from 4 to 5 p.m. from Oct. 7 through Nov. 11 in Room 133 White Building. Registration will be Oct. 7 at 3:45 p.m. in the lobby of White.

Kern Cafeteria hours

Effective Monday, Oct. 6, Kern Cafeteria will be open from 7 a.m. to 6 p.m., Mondays through Fridays. The Cafeteria is closed Saturdays and Sundays.

The Kern Commons information desk, lobby and exhibit area open at 7:30 a.m.

New "Pivot" on sale

Pivot, a poetry magazine founded by Joseph L. Grucci as an outgrowth of the poetry workshop which he taught while a member of the English faculty at Penn State, is celebrating its 30th anniversary with a newly published issue - available at local bookstores or in 5139 Burrows.

The magazine, Mr. Grucci notes in an introduction, has existed to publish "besides the seasoned talent, the new, the untied and the not-so-young but undervisually neglected poet."

Among the contributors to the current issue, which has been edited by Mr. Grucci, with the assistance of Jack McManis, associate professor of English, are former Senator Eugene J. McCarthy and Lamont Poetry Prize winner John Balaban, an associate professor of English.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff non-exempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 863-1387 (network line 473-1387). Applications for these staff vacancies will be accepted until 5 p.m., Oct. 9, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

MANAGER OF PERSONNEL, COLLEGE OF MEDICINE, HERSHEY - Responsible to the Associate Provost of Management for administering various aspects of the personnel program at the Medical Center, including creating and establishing programs in accordance with the principles as established for initiating and establishing broad programs under very general direction, taking responsibility for initiating adjustments in new or revised areas of responsibilities. Scope of responsibility includes, but is not limited to: training, personnel records, employee relations, salary administration and job classification and recruitment. A bachelor of science degree, preferably in personnel or business administration, plus five to seven years of effective hospital personnel experience.

PROJECT COORDINATOR, INTERCOLLEGE RESEARCH PROGRAMS - Supervision of aerosol laboratory. Responsible for generation and

measurement of aerosols for research activities; maintenance and performance of electronic instrumentation and design of circuitry for specific research needs. Writes and documents computer programs for the IBM computer and an in-house microcomputer. Assists in preparation of research proposals and reports. Bachelor's degree in engineering, physics or related field, plus two to three years of effective experience involving aerosol technology and computer programming required. A working knowledge of electronics and aerosol instrumentation also required.

PRE-SCHOOL EDUCATION SPECIALIST, COLLEGE OF MEDICINE, HERSHEY - Responsible to the Pediatric Clinical Psychologist for the diagnostic evaluation and therapeutic management, planning and coordination of clinical programs related to behavior and development problems in young children. A master's degree in early childhood special education, early childhood development, pre-school education, or comparable subjects, and one to two years of effective experience working with developmentally delayed children in a clinical medical setting.

NUTRITIONAL CARE TECHNICIAN, COLLEGE OF MEDICINE, HERSHEY - Responsible to Senior Nutritional Care Technician for the operation of the Diet Office and to a clinical dietitian in providing nutritional care to patients. Associate degree in foods and nutrition or equivalency and 6 to 12 months of effective experience.

COMPUTER OPERATOR, COLLEGE OF MEDICINE, HERSHEY - 2 VACANCIES - Responsible to the Manager of Medical Computer Center, College of Medicine, for monitoring and controlling electronic computers on established routines and for assisting department staff members as required. Two years of college or equivalent, with one to two years of experience in data processing, required.

For further information, call 865-1377. (346-1) The latest *Deadlines* report (for December 1980) from the Office of Federal Programs includes many interesting programs for faculty and graduate students. Among them are: (1) *Postdoctoral Grants for Research on Foreign Areas* (Dec. 1) - Social Science Research Council (212-557-9500); (2) *American Fellowships - Dissertation and Postdoctoral Research* (Dec. 15) - for women, AAUW (202-785-7734); and (3) *Gulf Oil Aid to Education* - Graduate Fellowship Foundation Grants (Dec. 31) - in science, engineering, and business (412-263-5191). Ask us for more information and a copy of OFP deadlines - this and future issues - to keep informed about funding opportunities.

Penn State Intercom

News in Brief

British critic to address Comp Lit Luncheon Oct. 14

"Drama and Its Public Image" will be the subject of a talk by Philip Radcliffe, British music and theatre critic and director of communications at the University of Manchester.

He will address the Comparative Literature Luncheon at 1 p.m. Tuesday, Oct. 14, in the Donovan Room, 204 HUB. A salad bar lunch is available (for \$2.25) at 12:15 p.m. Both the lunch and talk are open to the public.

During Mr. Radcliffe's visit — his fourth to Penn State — he will participate in several classes. A regular contributor to a wide range of British national and educational media, he is a critic for the *Sunday Times* and *Daily Mail* and editor of *Communication* magazine. His professional experience includes six years at the BBC, where he worked in news, current affairs and documentaries.

At Manchester he serves as course director for Mass Media Studies, short courses for students from foreign universities — among them, Penn State.

Economist, 1960s' activist sponsored by Colloquy

Frank Vogl, U.S. economics correspondent for *The Times* of London and sixties' activist Jerry Rubin are being brought to University Park this month by Colloquy. Mr. Vogl will speak at 8 p.m. Monday, Oct. 13, in Schwab Auditorium; Mr. Rubin at 8 p.m. on Thursday, Oct. 16, in Eisenhower Auditorium.

Mr. Vogl has been based in this country since 1974. He will discuss the international monetary situation, the future of the world economy and take a look at the American economy from his perspective as a European. Author of a book, *German Business After the Economic Miracle*, he is a frequent contributor to financial journals.

Mr. Rubin, a co-founder of the Yippies, anti-war leader and member of the Chicago Seven during the sixties, is currently working for an "off-Wall Street" firm, John Muir & Co. His books include *Do It and Grow Up* (Up), and he is co-author of *The War Between the Sheets*. His subject at Penn State is "Twenty Years of Change," and the talk is co-sponsored by the Homecoming Committee.

Women sought for overseas development projects

An effort is being made to identify registrants for inclusion on a roster of faculty members, foreign students, and spouses who are interested in international development issues and projects. The roster is being sponsored by the Center for Women in Development (CWID), which is a part of the Southeast Consortium for International Development (SECID). SECID is a consortium composed of 31 academic and research institutions in the southeast, including Penn State. The purpose of the organization is to provide research, training, and extension services to developing countries. CWID was established in May 1980 with the aim of increasing the participation of women from SECID member institutions in overseas activities and to engage in the planning and implementation of projects which directly address the needs of women

Boyer to speak at Scholars Convocation

Dr. Ernest L. Boyer, president of The Carnegie Foundation for the Advancement of Teaching and former U.S. commissioner of education, will be the featured speaker at a University Scholars Convocation to be held at 4:15 p.m. Monday, Oct. 13, in Schwab Auditorium.

Dr. Boyer will be introduced by President Oswald.

The convocation marks officially the inauguration this fall of the University Scholars Program. About 325 students have enrolled, according to Dr. Paul Axt, program director.

Established last year by the University Faculty Senate, the program is designed for students of exceptional academic promise. Special honors sections of courses have been developed for them, and they also may design individualized programs of independent study.

The entire University community is invited to attend the convocation.

Dr. Robert E. Dunham, vice president for undergraduate studies, will open the convocation. He will be followed by Provost Eddy, who will address his remarks to the University Scholars. One of the University Scholars will offer a student perspective on the program, and Dr. Axt will make the concluding remarks.

Several musical selections will be presented by the graduate student members of The Atherton String Quartet, which was formed last summer by the School of Music.

Dr. Boyer, one of the nation's leading educators, assumed his post with The Carnegie Foundation on Jan. 1 of this year. In addition to serving as the 23rd commissioner of education, he was chancellor of the State University of New York from 1970 to 1977. As head of SUNY, the largest university in the country, he directed a system with 64 institutions and more than 350,000 students.

Born in Dayton, Ohio, in 1928, Dr. Boyer graduated *cum laude* from Greenville (Illinois) College. His M.A. and Ph.D. degrees were granted by the University of Southern California, and he held a post-doctoral fellowship in otolaryngology at the University of Iowa from 1959.

Dr. Ernest L. Boyer

Dr. Boyer has received honorary degrees from 36 U.S. colleges and universities and in 1971 was awarded the President's Medal by Tel-Aviv University.

Beginning his academic career at Loyola University (Los Angeles), Dr. Boyer served as academic dean at Upland College (California), as director of the Western College Association's Commission to Improve the Education of Teachers, and as director of the Center for Coordinated Education of the University of California at Santa Barbara. He joined SUNY in 1965 as executive dean for university-wide activities.

An innovative educator, at SUNY he developed an experimental three-year A.B. degree program, launched a new non-campus institution called Empire State College, established the new rank of Distinguished Teaching Professor and

negotiated the first undergraduate exchange program with the Soviet Union.

As commissioner of education, Dr. Boyer emphasized excellence in education and the centrality of language, and during his tenure the federal budget for education increased 40 percent.

His service on national commissions has included the National Commission on the Financing of Postsecondary Education, the Commission on Critical Choices for Americans, the Carnegie Council on Policy Studies in Higher Education, the President's Advisory Council on Women's Educational Programs, and the President's Commission on Foreign Language and International Education.

During 1974-75, Dr. Boyer was president of the National Association of State Universities and Land-Grant Colleges.

South Africa's new role is subject of symposium

The rapid, and in some cases radical, changes in the political and economic postures of the nations in Southern Africa are the focus of an Oct. 13-14 University symposium, "South Africa in Southern Africa."

The symposium is sponsored by the African Studies Committee of the University's Black Studies Program.

Members of the Penn State community may attend any or all sessions without charge. A \$10 fee will be charged persons not affiliated with Penn State.

The symposium will bring together the best available academic expertise to analyze South Africa's emerging new roles in Southern Africa. Participants will hear a keynote address by Richard M. Moose, assistant secretary of state for African affairs. He will speak on "The Carter Administration in South Africa" at 8 p.m. on Oct. 13 in Room 105 Forum Building.

Mr. Moose has been in his present post since July 1977. He began his career with the Foreign Service, served on the staff of the National Security Council and was a

Richard M. Moose

member of the staff of the Senate Foreign Relations Committee. He participated in a major study of the national security decision-making process, organized by the Institute for Defense Analysis and published by Praeger under the title, *The President and the Management of National*

Security. He is the co-author of 10 published Committee on Foreign Relations staff reports.

Dr. Thomas Callaghy, assistant professor of political science who is serving as conference chairman, points out that South Africa appears to be redefining its position in Southern Africa as the result of events following on the Portuguese coup of April 1974. Since that time, Mozambique and Angola have become independent socialist states and Zimbabwe has acquired independence.

International negotiations over the status of Namibia continue haltingly, and economic changes in the international arena have greatly affected the area, Dr. Callaghy notes.

Support for the symposium has been provided by the Institute for the Arts and Humanistic Studies, the College of the Liberal Arts, the Institute for Policy Research and Evaluation, the Political Science Department, the Provost, and the Graduate School.

(Continued on page 5)

Penn Staters

Dr. Harry R. Allcock, professor of chemistry, recently presented an invited lecture at the International Union of Pure and Applied Chemistry Symposium on Structural Order in Polymers held in Florence, Italy. He spoke on "Controlled Synthesis of Organic-Inorganic Polymers that Possess a Backbone of Phosphorus and Nitrogen Atoms." Earlier in the summer Dr. Allcock gave invited lectures in New Hampshire at the Gordon Research Conference on Elastomers (New London) and at the Gordon Research Conference on Immobilized Species (Plymouth).

Richard L. Frautschi, professor of French and department head, recently presented an invited paper ("Selected Function Word Frequency in the *Encyclopedie* and in an Essay attributed to Montesquieu") at a Colloquium on Political Lexicology, a meeting sponsored by the Centre National de la Recherche Scientifique in Paris.

Dr. Gordon C. Godbey, professor of education, has been appointed to serve on the Pennsylvania Task Force for Adult Education. This group is concerned with the implementation and refinement of the State plan for Adult Education, which has recently been revised. The Task Force meets quarterly in Harrisburg, in the Department of Education, with additional meetings on call at the request of the Secretary of Education.

Dr. Luis F. Gonzalez-Cruz, professor of Spanish at the New Kensington Campus, recently presented a paper at the First International Congress on Lope de Vega and the Origins of the Spanish Theatre held in Madrid. Professor Gonzalez-Cruz's presentation was entitled "Especificidad tematica de los sonetos de 'El perro del hortelano'." ("Thematic Essence of the Sonnets in 'The Gardener's Dog'"). This congress, in which prominent scholars from the United States and Spain participated, took place the first week in July and was sponsored by a cultural foundation supported by the Spanish Government.

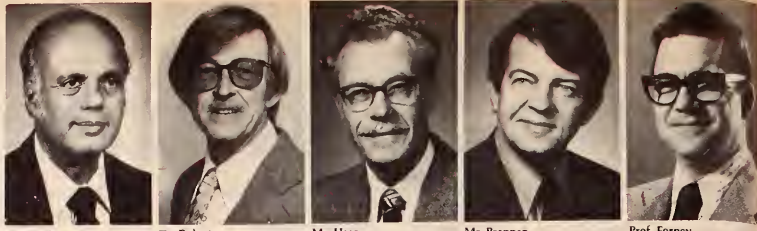

Dr. Edwin L. Herr, professor and head, Division of Counseling and Educational Psychology, was the keynote speaker on Sept. 19 at the World Congress on Employment Counseling held in Ottawa, Canada. The 700 delegates represented more than 30 nations. Dr. Herr's presentation was entitled "International Perspectives on Policy in Guidance and Counseling." On Sept. 16, he addressed the Invitational Symposium on Reform in Secondary Education conducted by the Ontario Ministry of Education. He discussed international approaches to career development programs and services.

Robert L. Kabel, professor of chemical engineering, has been appointed to the editorial board of the *AIChE Journal*, the primary research publication of the American Institute of Chemical Engineers.

Dr. Richard M. Lerner, associate professor of child development, and Dr. Graham B. Spanier, associate professor of human development and sociology, are donating all royalties from a recent book they co-edited to the Individual and Family Studies (IFS) program of the College of Human Development. The book, *Child Influences in Marital and Family Interaction: A Life-Span Perspective* (Academic Press, 1978), grew out of a scholarly conference held at Penn State, and its royalties will be used by IFS to support future conferences on topics relating to life-span development.

Wolfgang E. Meyer, professor emeritus of mechanical engineering, has been awarded Honorary Membership in the American Society for Testing and Materials for his role "as a leader in research, development of equipment and standards, and dissemination of technical knowledge."

Dr. Grayson Noley, assistant professor of education and director of the Native American Program, has been invited to serve as guest editor of an issue of the

Dr. Jacobs

Dr. Roberts

Mr. Haas

Mr. Brannan

Prof. Forney

Harvard Education Review to be published next year. The focus of the issue will be American Indian education. Dr. Noley is presently chairman of American Indian and Alaskan Native Education, a special interest group within the American Education Research Association. He will be the keynote speaker at the National Indian Education Association meeting to be held in Dallas Oct. 19-22. The theme of the meeting is "Indian Education in the 80s: From Survival to Quality."

Dr. John E. Searles, professor of education, returned recently from Portugal where he lectured on computer-based education and on instruction in social studies at several universities for audiences of faculty members and government officials. Dr. Searles went to Portugal as a Fulbright Fellow.

Dr. Ernst Schurer, professor and head of German, presented a paper on "The Industrial Play during the Period of New Objectivity" in Basel, Switzerland, at the Sixth Congress of the International Association for Germanic Languages and Literatures. He also was invited to participate in and chair a section in an International Symposium in Ludwigsburg, West Germany, on "The Epic and Epic-Research in the 20th Century," sponsored by the Alexander von Humboldt Foundation.

Dr. Gerhard F. Strasser, assistant professor of German, presented a paper at the Sixth International Congress of Teachers of German held last August in Nuremberg. His presentation was entitled "Various Approaches to the Training of Teaching Assistants at American Universities." The paper was illustrated with representative videotapes made in German courses at Penn State.

Dr. T. T. Tsong, professor of physics, was awarded a fellowship by the Japan Society for the Promotion of Science to visit various laboratories and to give lectures and seminars at several universities and technological institutes in Japan last summer. He presented seminars at Tokyo University, Nagoya Institute of Technology and Osaka University on recent developments in atom-probe and field ion microscopy and studies of surface segregations in dilute alloys. While at Osaka, he also gave a public lecture entitled "Recent Progress in Atom-probe and Field Ion Microscopy," co-sponsored by Kansai (Osaka and Kyoto area) sections of The Japan Society of Applied Physics and The Japan Society of Electron Microscopy. Dr. Tsong was among a group of scientists from the University who attended and presented papers at the 27th International Field Emission Symposium held July 7-12 in Tokyo.

Bookshelf

Paul West, professor of English and IAHES Fellow, recently published his ninth novel, *The Very Rich Hours of Count von Stauffenberg*, about the July 20, 1944, bomb-plot against Hitler.

The *New Yorker* described the book as "an astonishing union of research and imagination" and *Publishers Weekly* as "an important novel... extremely well written and moving..." while *The Washington Post* found it "a serious and deep meditation on the life of a unique and altruistic man..." and "an impressive

feat of ventriloquism." *Kirkus Reviews* called the book "a tapestry of astounding horror" and historian H. Stuart Hughes "consistently engrossing... a richly informed account, historically scrupulous... an intense and rewarding reading experience."

Professor West received a Creative Writing fellowship from the National Endowment for the Humanities in 1979. On Sept. 18 of this year, he was a guest at the premiere of the PBS "Cosmos" TV series at the National Academy of Sciences, and on Sept. 20 he took part in a symposium on modern fiction at Indiana University at Bloomington, together with Carlos Fuentes, Juan Goytisolo, Mario Vargas Llosa, and William Cass. The title of Professor West's presentation was "The Tiger in the Music Room. The Mollusk in the Zoo."

Dr. Jane M. Madsen, associate professor of education, is co-author of a book entitled *Please Don't Tease Me...*, with Diane Bockoras, a former Penn State student.

Published by Judson Press of Valley Forge, the book is a true story about Diane Bockoras and what it was like for her as a child to be handicapped by Leukocytoclastic Angiitis, a disease which resulted in deforming arthritis, and teased about something she couldn't help.

The book's aim, Dr. Madsen says, is to help teach children the importance of being kind and considerate to everyone in need of encouragement. It is recommended for older elementary students and for parents to read to younger children.

Appointment

Dr. David J. Brown has been named director of the Mental Health Center, effective Nov. 1. An affiliate associate professor of psychology, Dr. Brown has been serving as acting director of the Center since October 1979. He first came to Penn State in 1969 as a psychology intern with the former Division of Counseling. A year later he left to teach psychology for the University of Maryland in the Far East. He has been a staff clinical psychologist and lecturer at Loyola University in Chicago and was clinical director for the New York City Employees Counseling Service while also teaching at Hunter College in New York.

Dr. Brown came to the Center in 1974 as a staff clinical psychologist. He received his B.A. in philosophy at Maryknoll College, and his M.A. and Ph.D. in psychology from Ohio State University.

25-year chairs

For James R. Brannan, banquet manager of the Nittany Lion Inn, the "personal touch" might well be the key to his successful 25-year career at Penn State. Customers of the Inn, returning over the years for events such as football games, find themselves being greeted by Mr. Brannan and called by name. "It's very important to know the people patronizing your business," he says.

Mr. Brannan came to the University out of Lewistown High School with his senior year still to be completed. He started as a part-time worker in the apple orchards and then moved to the HUB in the banquet division. After finishing his high school education at State College High School in

1955, he took a full-time job as busboy/waiter in the main dining room of the Inn. Within two years, he had been promoted to banquet captain and in the early 1960s became banquet manager.

In this role, Mr. Brannan makes certain that proper service is provided at each banquet by his 35-40 part-time employees, most of whom are high school juniors and seniors. He supervises five private dining rooms and the main dining room and is responsible for planning menus for banquets. The Inn may host as many as six banquets a day or 25-30 a week, anything from wedding receptions and bar mitzvahs to a summer clam and lobster party with live Maine lobsters.

"When I began," he notes "our business was mostly generated during football season. Now we're busy year-round. I'm also starting to employ some of the children of the students who worked for me in earlier years."

Off duty, Mr. Brannan is a semi-professional photographer, a hobby that he acquired in high school. His work ranges from sorority composites and senior pictures to wedding portraits. He is also an avid newspaper clipper, collecting clippings about Penn State, State College, friends, and "everything from soup to nuts."

Charles Forney Jr., assistant director of the Computation Center and an assistant professor of computer science, has received his 25-year chair from the University.

Mr. Forney came to Penn State as a student in 1950, receiving his B.S. in sanitary engineering in 1954 and his M.S. in 1958. He was appointed an instructor in the Department of Civil Engineering in 1955, and became interested in working with computers as part of a teaching assignment in that department. Three years later, he was coordinating a computer course through the Office of the Dean of Engineering, and by 1960 Mr. Forney had joined the staff of the newly formed Computation Center. In 1962, he served as acting director of the Computation Center, and he has been assistant director of the Center since 1963.

Mr. Forney is a systems programmer at the Computation Center, coordinating the interface between the users and the equipment. As an assistant professor in the Department of Computer Science, he teaches an introductory course each year. A member of the Patton-Ferguson Joint Sewer Authority for 18 years, Mr. Forney has served as the Authority's chairman for 10 years.

An avid outdoorsman, he is a photographer whose favorite subjects are wildflowers.

Two of his four children are Penn State graduates, and a daughter is enrolled as a freshman.

Dr. William I. Roberts III, associate professor of history at Ogonitz, received his 25-year chair from Campus Director Robert A. Bernoff at the annual faculty meeting which initiated Fall Term. Ogonitz was a "Center" with just a few hundred students when Dr. Roberts began teaching there in 1955. He was one of two men who comprised the history department, though he came from a job in industry with a background that included chemistry, engineering, and some medical school credits, courtesy of the War Department.

Dr. Roberts completed his dissertation

(Continued on page 1)

Arts Roundup

Professor Brown, Mrs. Triolo

Brown, Triolo to perform Schubert's 'Winterreise'

Franz Schubert's song cycle *Winterreise* will be performed by bass-baritone Raymond Brown, professor of music, and pianist Phyllis Triolo at 8:30 p.m. Monday, Oct. 13, in the Music Building Recital Hall.

Winterreise was written in 1827 and correction of the proof was completed by Schubert just before he died. This performance will mark the second time in three years that Professor Brown and Mrs. Triolo have presented a concert of German songs. For a concert in 1977, they performed two Schumann song cycles.

Professor Brown is director of choral music and a Fellow in the Institute for the Arts and Humanistic Studies. He has presented numerous recitals throughout the area, as has Mrs. Triolo, who studied at the Juilliard School of Music and the Paris Conservatory.

Smith to preview new work by Beall at Oct. 15 recital

A preview of a new work in fantasy form by John Beall will be performed by pianist Steven Smith, associate professor of music, in a recital at 8:30 p.m. Wednesday, Oct. 15, in the Music Building Recital Hall.

Other works by Mr. Beall, composer in residence at West Virginia University, have been featured in performances at the University, and two of his works have been premiered at Penn State.

Professor Smith will also play five piano pieces from Brahms' *Opus 116* — three Capriccios and two Intermezzi — and the Sonata in B flat, *opus 106* ("Hammerklavier" by Beethoven. This work is often considered to be Beethoven's greatest in the form.

Professor Smith received his doctorate in performance from the Eastman School of Music and the Diploma from the Mozarteum in Salzburg, Austria, where he was a Fulbright Scholar.

Among his recent appearances was a recital at the Philadelphia Museum of Art.

Goodman exhibit will visit three other museums

The exhibit of paintings, drawings and graphics by Sidney Goodman, organized by Penn State's Museum of Art, will travel to three other museums.

The show will be exhibited at the Queens Museum in Flushing, N.Y., from Nov. 8-Jan. 4; at the Columbus (Ohio) Museum of Art from Jan. 17-Feb. 18; and at the Delaware Art Museum in Wilmington from May 1-June 14.

AVS has 13 Japanese films

Thirteen films designed to enhance Americans' awareness and understanding of Japanese culture now are available from Audio Visual Services following an agreement between Penn State AVS and the Japan Foundation of Tokyo.

The programs, which can be used without charge in University classrooms, will be of interest to faculty members who deal with such materials as printmaking and woodcut masters, picture scrolls, historical narratives, architecture, archaeology, theater, judo, and the role of women. Most of the films range from 20 to 30 minutes in length, but there is also a four-part, 81-minute program exploring the sources and expressions of Japanese character.

A detailed pamphlet describing all the programs is available on request by calling Audio Visual Services' Reference and Advisory Unit at 865-6316.

Funding Sources

(347-1) The NRC Research Associateship Programs (in Federal laboratories) for 1981 provide research opportunities in atmospheric and earth sciences, chemistry, engineering, environmental sciences, life sciences, mathematics, physics, and space sciences. About 250 awards will be made to recent recipients of the doctorate and to senior investigators. Stipends begin at \$20,000 per year. Call the National Research Council at 202-389-6554. Deadline Jan. 15, 1981.

(347-2) The 1981 Harry S. Truman Scholarship Competition is an excellent opportunity for a student interested in government service. Sophomores who will be juniors in the Fall of 1981 are eligible to apply for the \$5,000 provision. One or two nominees are permitted from each institution. Interested students should submit (1) a letter of application, (2) an up-to-date official transcript, (3) three letters of recommendation from University instructors, and (4) a paragraph outlining career plans. A GPA of 3.00 or better and ranking in top-quarter of class is required, in addition to being a U.S. citizen. Send applications to: John D. Marx, Chairman, Scholarship Committee, Department of Political Science, 112 Burrows Building, Deadline 5 p.m. Friday, Oct. 31, 1980.

South Africa

(Continued from page 1)

All sessions of the conference will be held in the Hetzel Union Building North Lounge. Speakers and their topics are:

Oct. 13

9:30 a.m., "South Africa's Role in Southern Africa," Jeffrey E. Butler, Wesleyan University.

10:30 a.m., "After the 1974 Portuguese Coup: New South African Foreign Policy Orientations," J.E. Spence, Leicester University, England.

1:30 p.m., "South Africa, Southern Africa and the World System," Timothy M. Shaw, Dalhousie University, Canada.

2:30 p.m., "Apartheid and Socialism: South Africa's Relations with Angola and Mozambique," John Sassi, Gulf Oil Corporation.

3:30 p.m., "South Africa and Namibia," John Seiler, formerly of Center for Strategic and International Studies, Georgetown University.

Oct. 14

9:00 a.m., "South Africa and the Political Economy of Southern Africa," Kenneth W. Grundy, Case Western Reserve University.

10 a.m., "South Africa's Strategic/Military Situation in Southern Africa," Chester A. Crocker, Center for Strategic and International Studies, Georgetown University.

11 a.m., "Zimbabwe and Southern Africa," Boniface Obichere, University of California at Los Angeles.

1:30 p.m., "South Africa's Relations

with Lesotho, Swaziland and Botswana," Bernard Magubane, University of Connecticut.

2:30 p.m., "South Africa and Resistance Groups in Southern Africa," Thomas Karis, City University of New York.

3:30 p.m., "Apartheid and Absolutism: South Africa's Relations with Zaire," Dr. Callaghy.

From the Press

Fiction as Wisdom: From Goethe to Bellow. By Irvin Stock. 240 pages. \$16.95.

A professor of English at the University of Massachusetts at Boston, Dr. Stock is the author of *William Hale White (Mark Rutherford): A Critical Study* and *Mary McCarthy*. In this book of essays, he seeks to arouse the reader's interest in novels he feels have been neglected or misjudged. More than that, he writes: "These essays are attempts to convey the experience of delight and joy and the understanding arrived at through sympathy. And the other aim of this book is to serve as a reminder of an old idea, that the chief object of literature is to give pleasure and wisdom. . . ."

The essays deal with an "unknown" writer (William Hale White); two now "unfashionable" (Goethe and Cade); the "celebrated" (Eliot, Hawthorne, Mann), represented by works Dr. Stock considers undervalued; current writers "with still fluctuating reputations" (McCarthy and Bellow); and the "universally admired" (Dostoevsky.)

Five Hubert H. Humphrey Fellows studying at University

Officials from five foreign nations are studying at the University as 1980-81 Hubert H. Humphrey Fellows. They are being hosted by the Institute of Public Administration.

Nationwide, 91 foreign officials are enrolled as Humphrey Fellows at 18 different institutions. The program, in its second year, is designed to enhance the professional capabilities of young leaders from the developing world who are dedicated to a career in public service.

According to the Institute's director, Dr. Robert J. Mowitz, the five Fellows at Penn State are in a public administration "cluster." They include:

Malik Shahid Hamid, assistant commissioner and subdivision magistrate, Larkana Sind, Islamic Republic of Pakistan;

Abdel Rahman Kamblawi, assistant undersecretary, Ministry of Finance,

Government of the Sudan, Republic of the Sudan;

Nicos Nicolaou, senior administrative officer, Cyprus Port Authority, Republic of Cyprus;

Harishchandra Rai, section officer,

Department of Administrative

Management, Royal Government of

Nepal, Kingdom of Nepal; and

Kalonji Tshoya, head, Office for Land Amenities, Ministry of Land Management, Shaba Province, Republic of Zaire.

"We are pleased to be among the 18 universities selected to host rising leaders of these nations," Dr. Mowitz noted. "It's a recognition of what Penn State has to offer in the field of public administration."

The Hubert H. Humphrey Fellowship Program is funded by the U.S. government through the International Communication Agency which directs the program.

Actor Stephen Keener (fourth from left), who played Sid in URTC's production of "Ah, Wilderness!", shared his expertise at walking on stilts during a month-long workshop for Children's Theatre students. Here he poses with his "graduates."

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

 Sports: volleyball (women) vs. Laurentian, 7 p.m.
 Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception for cast and audience following performance, Room 102 Kern.

Friday, Oct. 10

Fixed date for meetings involving Commonwealth Campus faculty.
 Sports: volleyball (women), Lady Lion Invitational, through Sept. 11.
 Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Thomas Falk, Stockholm School of Economics, on "Retailing in Norrkoping."
 CSA film, *Murphy on the Bounty*, 6 and 9 p.m., Room 10 Sparks.
 SFO film, *Frankenheimer, The Fixer*, 6:30 and 9 p.m., HUB Assembly Hall.
 American Series/IAHS film, 1968, 8 p.m., Room 115 EE West.
 Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.
 Artists Series, Pittsburgh Chamber Orchestra, Szymon Goldberg, conductor, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 11

Fixed date for meetings involving Commonwealth Campus faculty.
 Last date for final oral doctoral examinations for Nov. graduates and for Nov. graduates to deliver masters' theses or papers to adviser.
 Sports: rifle, Penn State/Army/Navy ROTC, 8 a.m.; cross country (women) vs. Virginia, 10 a.m.; bowling vs. Maryland, 1 p.m.
 Artists Series, Pittsburgh Chamber Orchestra, Youth Concert, Michael Lankester, conductor, 10:30 a.m. Concert, Szymon Goldberg, conductor, 8:30 p.m., both, Eisenhower Auditorium.
 CSA film, *The Caine Mutiny*, 7 and 9 p.m., Room 10 Sparks.
 Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.

Sunday, Oct. 12

Sports: lacrosse (men), Penn State Invitational, bowling vs. Gettysburg, 1 p.m.
 University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. William H. Rader, the United Church of Christ, Boalsburg, speaker.
 Shaver's Creek Nature Center, Action Socialization Experience, 1 p.m., Stone Valley. Pre-registration, 865-1851, 8 a.m.-5 p.m.
 Peggy Shipley, flute recital, 2:30 p.m., Music Bldg. Recital Hall.
 CSA film, *The Caine Mutiny*, 7 and 9 p.m., Room 10 Sparks.
 Kern Theatre, "Story Theatre," 8 p.m., Room 112 Kern; dessert reception following performance, Room 102 Kern.

Monday, Oct. 13

Last date for Nov. graduates to submit camera-ready thesis manuscripts to Thesis Office.
 African Studies Symposium, "South Africa in Southern Africa," 9 a.m.-4 p.m., HUB North Lounge.
 Alard String Quartet, recital, 12:45 p.m., Room 112 Kern.
 University Scholars Convocation, 4:15 p.m., Schwab Auditorium. Ernest Boyer, president, Carnegie Foundation for Advancement of Teaching, speaker.
 France-Cinema, Robert, *The Tall Blond Man*, 7 and 9 p.m., Room 112 Kern.
 HUB Craft Center, Open House, 7:30-9:30 p.m., Room 312 HUB.
 African Studies Symposium, 8 p.m., Room 105 Forum. Richard M. Moose, Asst. Sec. of State for African Affairs, on "The Carrier Administration in Southern Africa."
 Colloquy Lecture, 8 p.m., Schwab Auditorium. Frank Vogel, economist for *The Times of London*, speaker.

Raymond Brown, bass baritone, 8:30 p.m., Music Bldg. Recital Hall.

Tuesday, Oct. 14

Shaver's Creek Nature Center, guided trip to Hawk Mountain Sanctuary, 6 a.m.-8 p.m., front of Rec. Hall. Pre-registration, 865-1851, 8 a.m.-5 p.m., weekdays.
 African Studies Symposium, "South Africa in Southern Africa," 9 a.m.-4 p.m., HUB North Lounge.
 Gallery Talk, 10:30 a.m., Museum of Art. Carl Dauterman, curator emeritus, The Metropolitan Museum of Art, on "The Rebellious Rococo."
 Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 204 HUB. Philip Radcliffe, Univ. of Manchester, drama critic, on "Drama and Its Public Image."
 Comp. Lit. Film Series, *Death of a Bureaucrat*, 7 and 9 p.m., Room 112 Kern.
 Sports: soccer vs. East Stroudsburg, 7:15 p.m.
 Artists Series film, Bolshoi Ballet, *The Little Humpbacked Horse*, 8 p.m., Eisenhower Auditorium.
 IAHS/Dept. of History panel discussion, 8 p.m., Room 102 Forum. Eugene J. McCarthy, former U.S. Senator and presidential candidate, Frank Freidel, Charles Warren professor of American history, Harvard Univ.; Robert K. Murray, American history; and Eugene Goodwin, journalism, moderator, on "The Modern Presidency: Past Experiences, Future Prospects."

Wednesday, Oct. 15

Eugene McCarthy discusses political campaigns and the '60s for classes, 11-10 a.m., Room 105 Ferguson, and 2:30 p.m., HUB Assembly Hall. Public welcome.
 Alard String Quartet recital, 12:45 p.m., Room 112 Kern.
 FSHA 410, Scandinavian meal, 6 p.m., Maple Room. Henderson. Reservations 865-1736, 8 a.m.-5 p.m., weekdays.
 Black Film Series, *Superfly*, 7:30 p.m., Robeson Center.
 IAHS/Graduate School/History Dept. Lecture, 8 p.m., Room 112 Kern. Frank Freidel, Harvard Univ., on "The Modern Presidency: The Legacy of FDR."
 Eugene McCarthy reads his poetry, 8:30 p.m., Room 111 Forum.
 Steven Smith, piano, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Oct. 16

Kern/WPSX-TV, *Cosmos series*, "Harmony of the Worlds," noon, Kern Lobby.
 FSHA 410, 20th Century Japanese meal, 6 p.m., Maple Room. Henderson. Reservations, 865-1736, 8 a.m.-5 p.m., weekdays.
 Cinematheque, *The Last Picture Show*, 7 and 9 p.m., HUB Assembly Hall.
 Colloquy/Homcoming Committee Lecture, 8 p.m., Eisenhower Auditorium. Jerry Rubin 1960s activist, speaker.

Friday, Oct. 17

Sports: j.v. football vs. Nassau Community College, 2 p.m.; soccer vs. William and Mary, 7:15 p.m.
 Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. John Pickles, geography, on "Race and Society in South Africa."
 Homcoming Activities, 5:45 p.m., College Ave. to Rec. Hall; Candlelight Ceremony, 7 p.m., Old Main Steps. Jay Feldstein, Alumni Assn. president, speaker, and the Penn State Glee Club; bonfire and Pop Rally, 9-11 p.m., south end of stadium; vigil at Nittany Lion statue, midnight-7 a.m.
 Commonsplace Theatre, *Once Upon a Time in the West*, 6 and 9 p.m., Room 112 Kern.
 SFO film, *MacKenna's Gold*, 6:30 and 9 p.m., HUB Assembly Hall.
 CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.

Saturday, Oct. 18

Sports: tennis (women) vs. Pennsylvania, 1 p.m.; football vs. Syracuse (Homcoming), 1:30 p.m., preceded by balloon launch, 1:15 p.m.
 France-Cinema, *Wenturmaler, All Screwed Up*, 7 and 9 p.m., Room 112 Kern.
 CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.
 Penn State Glee Club and Women's Chorus, Homcoming Concert, 7:30 p.m., Schwab Auditorium.

Sunday, Oct. 19

Homcoming Alumni Branch, 11 a.m., Nittany Lion Inn.
 Homcoming Mass, 11 a.m., Eisenhower Auditorium.
 Sports: lacrosse (men), Alumni Game, 11 a.m.; soccer vs. Notre Dame, 7:15 p.m.

Photo by Scott Johnson

University Chapel Service, 11 a.m., Music Bldg. Recital Hall. Vladimir De Lissoyov, child development and family relations, speaker.
 Shaver's Creek Nature Center, Fifth Annual Pioneer Crafts Festival, noon-6 p.m., Stone Valley.
 Commonsplace Theatre, *Once Upon a Time in the West*, 6 and 9 p.m., Room 112 Kern.
 CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.
 Homcoming Awards Ceremony, 7:30 p.m., HUB Assembly Hall.
 Artists Series, *The Elephant Man*, 8:30 p.m., Eisenhower Auditorium.

Seminars

Thursday, Oct. 9

Ceramic Science, E. Case, National Bureau of Standards, on "Grain Size of Microcrack Initiation in Ceramics," 11 a.m., Room 301 Steidle (new listing).
 Engineering Science and Mechanics, David L. Questad, mechanics and materials science, Rutgers Univ., on "High Pressure Studies of an Elastomer," 2:30 p.m., Room 242 Hammond (new listing).
 Aesthetics, Criticism and Interpretation Theory, Carl Hausman, philosophy, on "Relations of Aesthetics to Criticism and Interpretation Theory," 4 p.m., Gilpin Room, Nittany Lion Inn (new listing).

Friday, Oct. 10

Analytical Chemistry, Erik Whalen-Pederson, grad student, on "Structure Activity Studies of Polycyclic Aromatic Hydrocarbons," 11:10 a.m., Room 333 Whitmore.
 Physical Chemistry, Eduardo Lissi, Univ. Tecnica del Estado, Santiago, on "Photopolymerization by Carbonyl Compounds," 2:30 p.m., Room 333 Whitmore.
 Computational Fluid Dynamics, T. Booth, Air Research Manufacturing Co., Ariz., on "Computation of Three Dimensional Flows in Turbomachinery," 4 p.m., Room 214 Hammond.

Monday, Oct. 13

Plant Pathology, Ellen Lawrence, grad. student, on "Budgeting: What to Do with Money After You Get It," 3:55 p.m., Room 213 Buckhout.
 McSB, Robert Kretsinger, Univ. of Va., Charlottesville, on "Roles of Calcium in Biology," 4 p.m., Room 101 Althouse.

Tuesday, Oct. 14

McSB, Robert Kretsinger, Univ. of Va., Charlottesville, on "Structure and Evolution of Calcium Modulated Proteins," 11 a.m., Room 101 Althouse.
 Wittgenstein's Vienna, Juris Dragnus, psychology, on "Freud and Vienna—The Mutual Influences," 3:30 p.m., Room 319 Walker.

Physics, S. K. Sinha, Argonne National Lab., on "Studies on Melting in Two Dimensions," 3:50 p.m., Room 117 Davey.
 Organic/Inorganic Chemistry, R. Rudolph, Univ. of Michigan, on "Cluster Chemistry," 8 p.m., Room 333 Whitmore.

Wednesday, Oct. 15

Keller Conference Center, "Electron Microscopy and X-Ray Application to Environmental and Occupational Health Analysis," 9 a.m., Room 112 Kern, through Oct. 17. Information, 865-9173.

Thursday, Oct. 16

Ceramic Science, J. Fenstermacher, Brockway Glass Co., on "Color of Commercial Container Glasses and Cathedral Ferric Iron," 11 a.m., Room 301 Steidle.
 Air Pollution Control, Richard A. Anthes, meteorology, on "The Role of Meteorological Models in Air Pollution Problems," 2:20 p.m., Room 69 Willard.
 CSPD graduate program, Robert and Margaret Kennon, on "The National Health Service in England: An Assessment by English General Practitioners," 3:30 p.m., Room 5-127 Henderson.
 Anthropology, Dennis Werner, anthropology, on "Leadership Inheritance in a Native South American Society," 3:30 p.m., Room 107 Carpenter.
 Acoustics, Fan Hwang, Naval Ship Research and Development Center, Carderock, Md., on "Finite Element Analysis of Structure Response to Random Pressure Fields," 4 p.m., Room 73 Willard.
 Fuel Science, R.L. Taylor, grad. student, on "The Carbon-Oxygen Reaction—Attempts to Measure Active Sites," 4 p.m., Room 301 Steidle.

Friday, Oct. 17

Analytical Chemistry, Richard Gibbs on "Determination of Surface Structure by Angle-Resolved SIMS," 11:10 a.m., Room 333 Whitmore.
 UDIS, "Developing the Lecture," 1 p.m., Room 128 Mitchell Bldg.
 Geosciences, Robert A. Berner, geology and geophysics, Yale Univ., on "A Kinetic Model for Bacterial Sulfate Reduction in Marine Sediments," 2:20 p.m., Room 112 Walker.
 Physical Chemistry, Joe Michael, NASA, Greenbelt, Md., on "Radical Reactions of Importance in Atmospheric Chemistry," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Bonnie Deutsch, jewelry, and Maria Das Gracas Moreira Ramon, oil paintings.
 HUB Gallery: Homcoming Exhibit, Oct. 13-19.

Kern Gallery: Colloquy photography; Jean Giddings, weavings, through Oct. 15; Jeff Mathison, drawings; Ann Hettmansperger and Cora E. Lucas, ceramics and poetry, opens Oct. 17.

Museum of Art: Sidney Goodman, paintings, drawings and graphics, 1959-1979, through Oct. 12; European paintings from the permanent collection, opens Oct. 12; contemporary prints from the permanent collection, opens Oct. 18.

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary, East Corridor Gallery, Lindsay Lape, recent paintings, through Oct. 15. Lending Series Lobby, Tom Faella, ceramics, Main Lobby, Denise Levortov exhibit, through Oct. 11. Rare Books Room.

Paul Robeson Cultural Center: "The Frederick Douglass Years."

Visual Arts Bldg. Zoller Gallery: School of Visual Arts Faculty Exhibit, through Oct. 18.

(Continued from page 2)

on "Pre-Colonial Fur Trade in the Northeastern U.S.," to receive his doctorate from the University of Pennsylvania in 1958. He believes he is the only faculty member in the Penn State system to offer a course on the history of Canada.

During his tenure at Penn State he has had two sabbaticals. The first took him to England, where he visited every county office to study records of pre-revolutionary economic ties to the colonies, and to Germany where he taught American Air Force dependents for the University of Maryland. His second sabbatical, three years ago, entailed a visiting professorship at the University of Adelaide in Australia.

Retirements

Dr. Alan M. Jacobs, professor of nuclear engineering, retired Aug. 31 with emeritus rank after 24 years of service. He is now chairman of the Department of Nuclear Engineering Sciences at the University of Florida in Gainesville.

A graduate of Cornell University in engineering physics, he received his M.S. and Ph.D. in physics at Penn State and joined the staff as a research associate at the Breazeale Nuclear Reactor in 1956. In 1959 he became a research associate in the Department of Nuclear Engineering. Promotion to associate professor and professor followed in 1963 and 1968, respectively.

Among his many research interests are the analytical and experimental study of neutron diffraction by vibrating crystals and the development of thermal neutron beam enhancement, modulation, containment, and focusing concepts using vibrating crystal diffractors. For this work he holds a U.S. patent with co-inventor, E.S. Kenney. He holds another patent with Dr. Kenney for the development and analysis of a dynamic radiography technique employing the interaction of penetrating photons with a vibration field to obtain three-dimensional images with contrast dictated by mechanical vibration response. The author and co-author of more than 40 technical and scientific articles, he directed 14 doctoral dissertations and 25 master's theses at Penn State.

William H. Haas, a technician at the Institute for Research on Land and Water Resources, retired Oct. 2 after having served the University 33 years.

He started in 1947, working for Housing and Food Services in the Nittany Dorms. After 13 years, he transferred to Purchasing, and two years later began his service at the Institute, having also an affiliation with the Department of Agronomy. For the past 10 years as a lab technician he has been responsible for the sample collection of the irrigation project. The samples he collects include water, soil, and vegetation.

In retirement, Mr. Haas hopes to pursue his three life-long loves—hunting (bow and arrow in particular), wood working in his well-equipped workshop (he enjoys making cabinets, picture frames, and wood vases), and touring the U.S. in his travel trailer.

Mr. Haas's wife, Verda, is a lab technician at Patterson Building. The Haases are parents of five grown children.

For almost 20 years, **Marian Law** was in a good position to keep tabs on Penn State's health—as secretary to the director of the Ritenour Health Center. When she retired Oct. 1, she had spent a total of 33 years at the University.

Her first job was in Liberal Arts where she worked as a clerk-typist for nine months in 1947 before transferring to Old Main. She spent 14 years there in the Controller's Office and moved to the Health Center in 1961.

Now that she's retired, Miss Law will be on Lock Haven a good deal to care for her mother who is ailing; but she hopes to be able to catch up on her crocheting and also

New Black Studies director sees 'potential'

Unlike many newcomers to University Park's academic community, James B. Stewart enjoys the isolation from urban distractions.

"I was involved in too many community activities in South Bend," the new director of the Black Studies Program says. "It tends to be draining. In an environment like this, it's easier to structure your intellectual and service activities."

As proof, he points to the 68-page document he has been able to compile since his arrival last July in State College. The document, now being studied by the University's Black Studies Committee, summarizes his ideas for breathing new life into the program and ranges from course proposals to such detailed recruiting devices as the development of a new brochure describing employment opportunities for Black Studies graduates, along with information about the current activities of alumni from each of the program's options.

Penn State provides three such options: African Studies, Afro-American Studies, and Black Studies, which consists of courses from the first two options. The program is housed in the Office of the Vice President for Undergraduate Studies, and students combine an option with an approved major field of study.

Dr. Stewart, who also holds an appointment as an assistant professor of economics, was recruited from Notre Dame, whose Black Studies program he directed after earning a Ph.D. from that university. He is happy to tick off his reasons for choosing to come to Penn State.

"I was impressed by the organization of the program and its potential for continued growth," he says. "At Notre Dame, Black Studies is housed in Liberal Arts instead of drawing on the resources of the entire university as at Penn State. I was also impressed because African and Afro-American Studies are formally linked here. When they are separated, as they are at many institutions, it can create unnecessary frictions and splinter the energies needed to develop the programs."

Dr. Stewart notes that while most academicians accept without argument the need for African studies, a certain hostility to Afro-American studies still exists.

"Some scholars," he explains, "feel that Afro-American studies were forced on universities as the result of black student protests during the late '60s and that the area has not been treated in the traditional scholarly manner. But tremendous strides have been made during the past decade in establishing the scholarly credentials of the field. One of the things Afro-American studies must do to increase its legitimacy is to focus more of its energies in developing research, and this is one of the directions I'd like to emphasize at Penn State."

In his own research, Dr. Stewart is examining the economic problems of blacks in the United States, as well as in certain African societies. During the past year, he has also begun a study of the historical underpinnings of black studies, looking at the legacy of W.E.B. Du Bois with the assistance of a National Endowment for the Humanities grant.

"The fact that I was able to obtain funding," he says, "indicates to me a growing appreciation in many circles of the potential contribution of black studies to the study of blacks from a holistic view rather than from that of a single discipline. I hope to support this approach at Penn

State by organizing research seminars for graduate students drawn from different departments. But I do feel that it is important first to concentrate on consolidating our undergraduate curriculum—and then to use that as a springboard in developing more extensive graduate offerings."

In furtherance of this belief, Dr. Stewart has assigned a high priority to student recruitment, both among University undergraduates and high school students.

"We will work with Penn State's community centers in Pittsburgh and Philadelphia," he says, "to create the perception that many interesting new things are happening in Black Studies at Penn State."

"The Black Studies Program and the Robeson Cultural Center, for example, are co-sponsoring a weekly Black Film Festival this fall. One of its functions is to stimulate students to explore more thoroughly the themes presented in the films by taking Black Studies courses."

"Next year I plan to develop and teach a new course dealing with the economic problems of blacks in this country. How can we improve the economic environment of the inner city? We'll discuss black capitalism; methods of increasing the access of blacks to goods and services through cooperatives and other non-traditional organizational models, and approaches to housing problems through renovation of deteriorating neighborhoods."

At present, there are about 25 majors in the Black Studies Program, and some 1,500 students enroll annually in the 35-odd courses associated with the three options. All of these courses are based in academic departments. For example, Anthropology offers the Archaeology of Africa and the

Ethnology of Sub-Saharan Africa; Comparative Literature sponsors courses in African Drama and the African Novel; Physical Education, in Contemporary Problems of Teaching Physical Education in the Inner City Schools; and Sociology, in The Urban Community.

One of the biggest obstacles to increasing enrollments, however, is student preoccupation with what Dr. Stewart terms "occupational security," a problem not uncommon to many of today's liberal arts curricula.

"Looking back," Dr. Stewart notes, "I think my generation tended to be more idealistic; we were willing to devote our time and energy to the then-unproved area of black studies. But because so many students now are worried about economic security, black studies programs will have to follow the lead of such disciplines as English and philosophy. Their proponents have devoted much thought to finding ways to convince employers that these majors sharpen students' intellectual abilities and thus make them valuable as employees."

"Our African Studies students can participate in an exchange program which sends them to Africa for a year of study. Afro-American Studies needs corresponding opportunities. One of my proposals is to develop a seminar combining course work with internships in the private and public sectors. This would provide students with practical experiences to offer future employers. Eventually, I'd like to see our African Studies undergraduates have a chance to intern in government agencies, too."

Among the greatest stimuli to Penn State's Black Studies Program, in Dr. Stewart's view, have been a series of conferences hosted by Penn State during the past few years. Topics have included Contemporary Black Women, Migration in Africa, and Minority Journalism. On Oct. 13-14, an international symposium on South Africa in Southern Africa will bring government officials and academicians to University Park to analyze the changing configurations in Southern Africa. (See Page 1.)

Dr. Stewart recalls his own college days at the Rose Hulman Institute of Technology as somewhat sheltered. "There were never more than five black students among the 1,100 undergraduates," he notes, "but I did get involved in events at neighboring Indiana State University in Terra Haute, tutoring students in the local community center and helping edit a black student paper."

A math major, he took a job after graduation with the Cleveland Electrical Illuminating Company and earned a master's degree in economics at night at Cleveland State.

"I began teaching part-time in the evenings," he says, "and found I enjoyed working with students so much that I decided to go back to school for my doctorate and pursue a career in academe."

I know that trying to combine teaching and research with the directorship of the Black Studies Program is going to be demanding, but I won't be doing it alone. Many people are behind me. Penn State is one of the most supportive academic environments that I have encountered; and my previous experience with similar dual responsibilities at Notre Dame will, I hope, help me to avoid situations that will hinder my long-term professional development."

to make time for bowling, music and dancing, which she also enjoys.

Blanche Bruss, a residence hall worker in Housing and Food Services since Sept. 15, 1969, retired Oct. 4.

Leroy Fallinger, a maintenance worker at Capitol since Feb. 5, 1973, retired Sept. 27.

Edward S. Kines, book-store manager at Altoona since May 1, 1967, retired Oct. 1.

Parke J. Nornhold, a group leader-housing at Hershey since Sept. 9, 1974, retired Oct. 1.

Kenneth E. Quick, a residence hall preventive maintenance worker with Housing and Food Services, retired Oct. 1. He had been a member of the staff since Feb. 14, 1967.

Obituaries

William A. Glenn, who retired June 1, 1979, as an assistant professor of

engineering at DuBois, died Sept. 23. Professor Glenn joined the University faculty in 1955 at the McKeesport Campus.

At DuBois, he served as a group leader for the two-year associate degree program in mechanical engineering, and at the Campus's 1979 Honors and Awards Convocation received a community service plaque and a Penn State Chair.

Wallace W. China, a janitorial worker at Capitol since Nov. 22, 1979, died Sept. 30. He was 54.

News in Brief

(Continued from page 1)

and families in developing countries.

The roster is not limited to those individuals who have had experience overseas, but also is open to those who have had experience in domestic areas which are relevant and adaptive to the field of international development. CWID is particularly interested in locating individuals who are interested in extension and rural and community development and those who are concerned about the impact of the development process upon women and families. Such persons may themselves be of either sex. Forms for the roster are available from University Committee for International Programs representatives or Eloise Murray, Room 212 Rackley Building, University Park, PA 16802 (814) 865-5441.

Teamsters Local 8 announces new dues schedule

Officers of Teamsters Local Union No. 8 have informed the University that a new monthly dues schedule became effective on Oct. 1 of this year, as follows:

Technical-Service	Monthly Dues
Grade 1	\$16.00
2	15.00
3	15.00
4	14.00
5	13.00
6	12.00
7 through 12	11.00

These dues amounts will be deducted beginning with the Oct. 31 paycheck for those bargaining unit employees who have dues check-off.

UDIS to repeat seminar on 'Developing the Lecture'

In response to faculty requests, the University Division of Instructional Services (UDIS) will repeat the seminar, "Developing the Lecture," which was presented last month.

The seminar will again be conducted by Francis Dwyer, head of instructional improvement at UDIS, and will be held from 1 to 3:30 p.m. on Friday, Oct. 17, in Room 128 Mitchell Building.

The seminar is designed (1) to acquaint faculty members with current literature and research related to the lecture method, (2) to describe and illustrate some of the kinds of activities and experiences that can be developed in support of the lecture, (3) to identify locations throughout the University where these "developed experiences" may be provided to students, and (4) to illustrate the lecture behaviors of individuals from other institutions.

Specific topics to be covered include: Developing the Lecture, Advantages and Disadvantages of the Lecture, Motivating Learners, Content Management, Formal vs. Informal Lecture Method, and Developing Learning Activities.

The seminar is limited to 35 participants on a first-come basis. Reservations or additional information can be had by calling 863-0668.

Shaver's Creek to sponsor Pioneer Crafts Festival

The Shaver's Creek Nature Center will be holding its Fifth Annual Pioneer Crafts Festival on Sunday, Oct. 19, from noon to 6 p.m. at the Stone Valley Recreation Area's public use area (ML Lodge).

Highlights of this year's festival will include demonstrations of quilting, weaving, spinning, natural dyeing, blacksmithing, soap making and wood working. Antique clothing and machinery will be displayed, as well as many other pioneer-related crafts. A concert of folk music with environmental themes will be offered.

A special activity will be a walk back into time with a live historical presentation on the almost lost art of charcoal making. Bill Metzger, who will conduct this

presentation, is the co-producer of an upcoming documentary film on charcoal production in Pennsylvania.

This festival is different from other crafts festivals," Mr. Metzger says, "because visitors get involved with hands-on experiences in traditional crafts, some of which are no longer practiced."

Cheryl Potter, administrator of the Shaver's Creek Environmental Center, points out that the festival will have a total of 25 exhibitors, 10 more than last year.

Entrance fees will be \$2 for adults and \$1 for children ages 6-12, with children under 6 admitted free. All proceeds benefit the Shaver's Creek Nature Center and its environmental programs.

New microwave link improves WP5X-TV reception

Thanks to a new microwave link with Centre Video, the pictures received by

Centre County cable viewers of Channel 3, WP5X-TV, are now both clearer and less liable to interruption from storms or equipment failure.

The new link was installed by Centre Video last spring to overcome an electrical interference problem with the Channel 3 signal dating back many years.

A dish, located on the roof of Wagner Building, beams Channel 3's broadcast signal directly to Centre Video on Decibel Road across from the Nittany Mall. Cable viewers see a television picture which has actually by-passed the WP5X-TV transmitter located in Clearfield.

Meat sold on Fridays

Meat sales are being held every Friday at 1:30 p.m. during the Fall Term at the University Meat Labs. across the road from the east stands at Beaver Stadium. Beef, pork and lamb cuts are sold.

United Way keeps fund raising costs low

How is your United Way dollar spent?

"Eighty-nine percent of the funds collected are channeled to United Way member agencies," according to Dr. Richard E. Grubb, senior vice president for administration and University Park campaign chairperson. "The 11 percent used by United Way goes to such things as the annual fund-raising drive (9 percent), which costs less and is more cost-efficient than if each agency had to solicit on its own, and year-round operating costs (2 percent)."

In addition, 1 percent of the funds raised are given to United Way of America for the production of support materials and advertising. Another 6/10 percent is sent to United Way of Pennsylvania for similar support to the state level."

Most of the money going to the agencies is used to help Centre County citizens. The Childbirth Education Association, Centre Crest Auxiliary, the Volunteer Action Center, the Community International Hospitality Council, the Transient Fund, Society for Crippled Children and Associated Charities are completely volunteer agencies having no administrative costs.

Operating with less than 10 percent administrative costs are Skills Inc., The Youth Employment Center, Community Nurse, Red Cross in State College and Bellefonte, Association for Retarded Citizens, Centre County Library,

Strawberry Fields Day Camp, and the Counseling Service.

The most any agency spends on administration is 18.8 percent.

Allocations for each agency are made by a United Way Board, composed of citizen-volunteers. They review the agencies' budgets and the community's needs to determine the year's allocation.

For more information on agency United Way allocations, contact your campus United Way solicitor, or call the Campus Relations Office (University Park) at 865-2501. At all other campuses contact your campus chairperson or local United Way agency.

Thanks to you...

University faculty, staff conduct Harrisburg workshops

With a federal Title I grant, University faculty and staff members conducted a series of seminars and workshops last summer for members of Governor Richard Thornburgh's staff and other Pennsylvania state government employees.

Most of the one-day workshops were held at Penn State's Capitol Campus in Middletown.

Dr. Bonnie Johnson, coordinator for program development in Continuing Education in the College of the Liberal Arts, obtained the grant and was coordinator for the program.

A number of Penn State faculty members, in addition to specialists from other universities and institutions, taught in the programs, which continued through September.

According to Dr. Johnson, some of the

workshops were designed for cabinet-level officials. Some were aimed at senior aides and legislative staff members, and others at department managers at various levels.

Two types of programs were included in the series — policy seminars aimed at providing insights into policy issues and workshops to provide instruction in specific skills. The former category included such topics as "Policy Issues in Union Management Relations"; the latter, such topics as "Performance Appraisal in Interviewing" and "Managing Conflicts Productively."

This is the second year that Dr. Johnson obtained funding for such a program. This year's topics were based in part on feedback from a similar series of programs she coordinated for state government employees last year.

Guide to assist teaching of physically handicapped ready

"Physically Handicapped Students at Penn State," a guide to assist faculty members in teaching handicapped students in the regular classroom, is being distributed throughout the University.

Its purpose is to provide basic information on classroom accommodations for some physical disabilities and suggestions for instructors to help in making teaching adjustments, when necessary, to give handicapped students a full educational opportunity.

Faculty members who may have been missed in the distribution of the guide can obtain a copy from the Office of Services for Handicapped Students, Student Assistance Center, Room 138 Boucke Building, or from the deans of student affairs at the Commonwealth Campuses.

Further information may be obtained by calling Brenda Hamelster, coordinator of services for handicapped students. Her telephone number is 863-2020.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 878-1387). Applications for these staff vacancies will be accepted until 5 p.m., Oct. 16, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

SUPERVISOR OF STOREROOM OPERATIONS, OFFICE OF PHYSICAL PLANT — Responsible for establishing, implementing, maintaining, and evaluating procedures and methods for the procurement, inventory, and distribution of building and maintenance materials and tools used by Office of Physical Plant. Supervises the operation of the storeroom. Bachelor's degree in business administration, logistics, industrial engineering or related field or equivalent, plus three to four years of effective experience in materials and inventory management.

ACCOUNTANT GENERAL FOR HOUSING AND FOOD SERVICES, OFFICE OF HOUSING AND FOOD SERVICE OPERATIONS — Under general direction of the Manager of Business Services, administers and coordinates accounting functions involved in inventory and expense controls, reconciles computer runs, prepares and supervises preparation of reports, reviews general accounting practices and procedures and recommends changes. Bachelor's degree or equivalent in accounting, with one to two years of effective experience required. Knowledge of computer operations desirable.

COORDINATOR — INSPECTOR OF OFFICE OF PHYSICAL PLANT — Responsible for coordination and inspection of funded jobs and projects. Provides information flow and coordinates work activities between the Office of Physical Plant and customers within the University. Checks work sequence of trades, availability of special equipment or personnel, schedule compliance, job costs, and quality of workmanship. Requires a high school education plus two to four years of effective experience in building construction, building maintenance or administration. Some specialized training beyond high school is preferred.

BUSINESS MANAGER, DELAWARE COUNTY CAMPUS — Responsible to the Campus Director for the control and supervision of business operations of the Campus. Includes maintenance and operation of buildings and grounds; coordination of personnel matters and programs, and physical plant activities; operation of auxiliary enterprises, parking program, security, Campus office and postal services. Bachelor's degree in business administration, organized study or training, plus four to five years of effective experience in buildings and grounds maintenance, Purchasing, personnel, etc., with a supervisory background.

There are positions in certain work units that, because of the large number of such positions, frequently are still available after employees in the work unit have been considered. They are listed below and will not be listed on an individual vacancy basis. Application for such positions may be made at any time, and you're welcome to make your interests known to the Employment Division for future consideration when such vacancies occur. These positions are:

POSITION TITLE	LOCATION
Assistant Coordinators	Student Affairs
Assistant Food Supervisors	Housing and Food Service
Computer Operators	Intercollege
Shifts are: 8 a.m. to 4:30 p.m. 4:30 p.m. to 1 a.m. 12 midnight to 8 a.m.	Research Programs
Programmers	Management Services
Residence Hall Area Coordinators	Student Affairs
Cataloging Technicians	Hershey
Clinical Laboratory Assistants	Hershey
Clinical Laboratory Technologists (HEW)	Hershey
Critical Care Monitoring Technicians (Jr. & Sr. Levels)	Hershey
Cyto-Technologists	Hershey
Licensed Practical Nurses	Hershey
Medical Technologists	Hershey
(Jr. & Sr. Levels)	Hershey
Nuclear Medical Technicians	Hershey
Perfusionists	Hershey
Pharmacists	Hershey
Physical Therapists	Hershey
Physician's Assistants	Hershey
Psychiatric Assistants	Hershey
Radiology Technicians	Hershey
Research Technicians (Jr. & Sr. Levels)	Hershey
Respiratory Therapy Technicians	Hershey
Staff Nurses	Hershey

Penn State Intercom

Dean Beattie sets June retirement

Dr. James M. Beattie, dean of the College of Agriculture since 1973, will retire June 30, 1981.

Dean Beattie announced that he has decided to accept early retirement in order to pursue personal interests.

President Oswald said that Dean Beattie "has played a very important role in the administration of the University and has brought real leadership to the College of Agriculture. He will be missed tremendously."

"I wish I could convince him to delay his retirement. We will begin, in due time, the necessary steps leading to a search for his successor."

Among the College of Agriculture's achievements since Dr. Beattie became dean, said Dr. Oswald, are:

- Recruitment of highly qualified members of the faculty and staff;
- Modification of research activities in the Experiment Station to reflect the changing needs of agriculture in Pennsylvania and throughout the nation;
- Creation of the Food Science Department in 1975;
- Utilization of new technology in the Extension Service to provide relevant information to the agricultural industry throughout the country; and
- Improvement and expansion of Agricultural Progress Days, now held at a single location in Rock Springs.

A nationally known agricultural educator and research administrator, Dean Beattie holds the academic rank of professor of horticulture. He also is director of both the Agriculture Experiment Station and the Cooperative Extension Service.

A native of McClean, Va., Dean Beattie received his B.S. in horticulture from the University of Maryland and a Ph.D. in pomology from Cornell University in 1946.

He joined the Ohio State University faculty in 1948 and was associate director of Ohio State's College of Agriculture and Home Economics and of its Agricultural Research and Development Center when he accepted his present post at Penn State.

Throughout his career, Dean Beattie has stressed the need for a strong scientific underpinning in agricultural research and education. The author of more than 50 research papers and monographs, he is a former president and chairman of the Board of directors of the American Society for Horticultural Science.

He has also evidenced a strong interest in the development of successful agricultural practice in underdeveloped countries.

CWC, Continuing Ed report made

President Oswald led off the October meeting of the University Faculty Senate with the welcome news that the 1980-81 budget crisis in Harrisburg has "apparently" been resolved.

Dr. Oswald noted that after official notification, the University will "move very quickly" to assign departmental allotments and to deal with the problems resulting from that to be a number of appointments have had to be delayed. He also pointed out that University officers were already busy at the task of building the 1981-82 budget.

In an oral informational report to the Senate, Dr. Robert Scannell, vice president and dean, reported on his progress in planning for the integration of the Commonwealth Campuses and Continuing Education.

Noting that he was in the third step of a four-step design process, Dean Scannell explained that he had spent last July and August visiting the 17 Commonwealth Campuses and Behrend College and holding meetings with academic administrators, University vice presidents and Continuing Education personnel. His aim, he explained, was to view the integration from as many different perspectives as possible.

On completion of this first step, which involved more than 75 meetings, Dr. Scannell said, he proceeded to draft a document embodying his thinking on some 22 key concerns and questions. This document has been distributed and is available for perusal by interested individuals in the offices of the academic deans and Campus directors.

Dr. Scannell is currently discussing the document with the individuals with whom he met earlier.

By early November, Dr. Scannell will send a completed draft of "Policies, Procedures and Guidelines" for integration of the systems to the Provost and the President. Dr. Oswald is expected to issue

a final administrative directive in December.

The planned administrative integration which will finally evolve, Dr. Scannell emphasized, is not designed to cause change "but to position the University for change. The policies deliberately limit change to what is necessary to achieve an administrative integration."

In the only legislative action taken at the meeting, the Senate passed a proposal by its Committee on Admissions, Records and Scheduling to delete phrases in the *Academic Policies and Procedures for Undergraduate Students* stating that parents or guardians are to be notified of drop actions, academic warning actions and student withdrawals.

Committee Chairman E. Emory Encore Jr. explained that these modifications were necessary to bring the University into compliance with the Family Rights and Privacy Act of 1974.

Senator Vickie Ziegler, chairman of a Subcommittee on Graduate Teaching Assistants, presented a report to the Senate on the group's findings. This was an informational report; but Dr. Richard McCarl, chairman of the Committee on Undergraduate Instruction, noted that the Committee did expect to present a legislative proposal in this area at the end of Winter Term.

Dr. Ziegler told the Senate that her Subcommittee had identified two major concerns about the use of graduate students as teaching assistants: the quality of their English and a lack of systematic training in pedagogical skills.

One proposal before the Subcommittee would have individual departments, in consultation with their college dean for resident instruction, develop plans for training teaching assistants. This would leave training in the hands of the departments but also provide for a degree of oversight.

(Continued on page 6)

Evan Pugh group named

Seven faculty members have been appointed by President Oswald to serve as members of a selection committee to recommend candidates for Evan Pugh Professorships. As many as six new Evan Pugh Professors will be named.

Current holders of the title on the selection committee are: Dr. Vernon V. Aspatarian, political science; Dr. Eugenio Battisti, art history; Dr. Stephen J. Benkovic, chemistry; Dr. Howard E. Morgan, physiology; and Dr. Philip L. Walker, materials science. Dr. Walker will chair the committee.

Also on the committee are Dr. Herberta Lundegren, professor of physical education, and Dr. Thomas York, professor of aerospace engineering. They were recommended by the Graduate Council.

Evan Pugh Professors are appointed by the President on the recommendation of the selection committee. The present roster, in addition to those named above, includes Dr. Herschel W. Leibowitz, psychology; Dr. Richard R. Nelson, plant pathology; Dr. Hans A. Panofsky, atmospheric sciences; Dr. Fred Rapp, microbiology; and Dr. Philip S. Skell, chemistry.

The criteria established for the appointment of these professors state the selection will be made without regard to college or program affiliation.

The title is granted "only to candidates whose research publications or creative work or both have been of the highest quality over a period of time, and further, to candidates who show evidence of having contributed significantly to the education of students who later achieve recognition for excellence in the candidate's discipline or interdisciplinary area." Candidates must also hold the rank of full professor.

President asks CADs, Council to consider calendar

Editor's note: To keep members of the University community fully informed as discussions progress on a proposed change from a term to a semester calendar, President Oswald has requested publication of the following memorandums, which he sent to the Council of Academic Deans and to the University Council last month.

To Members, Council of Academic Deans

As an immediate follow-up to my letter to members of the Penn State community proposing a conversion to the early semester calendar in the fall of 1984, this memorandum is to specify the academic advice I need from the Council of Academic Deans in conjunction with the calendar conversion.

Several significant academic policy considerations must be addressed by the academic leadership of the University coming from the faculty through the Department Chairmen and the Academic Deans. It will be necessary, I believe, to have department-level consideration of many of the major policy questions. This is especially important because the impact of a particular calendar differs from department to department. I am asking each dean to accept the responsibility for

The University Faculty Senate will hold a forensic session on the proposed calendar conversion at its regularly scheduled meeting on Tuesday, Nov. 11, at 2:10 p.m. in Room 112 Kern Building.

Any member of the University community is welcome to attend and to address the meeting. However, individuals who are not senators and wish to participate in the debate are asked to notify the Executive Secretary of the Senate, Dr. Oscar Barkman, in Birch Cottage, University Park, in writing at least seven days prior to the meeting.

They should include their names, their college or campus affiliations and the topic which they wish to address.

assuring that every department is heard in the process.

While no one person's list of major calendar issues can be all inclusive, several policy questions can be identified at this time. I have already received questions about the faculty instructional load change, if any, in a conversion to a semester calendar. In addition, some faculty members have expressed concern that a calendar conversion may have a negative impact on the research effort of the University. The simple fact that a large

(Continued on page 3)

To Members, University Council

As an immediate follow-up to my letter to members of the Penn State community proposing a conversion to the early semester calendar in the fall of 1984, this memorandum is to state the specific assistance I need from the University Council in conjunction with the calendar conversion. You are aware that the policy of the Board of Trustees makes the University Council a consultative body to me in calendar matters.

The University Council is the single, major group which has representation from the faculty, students, and administration. The broad representation of the Council makes it the best source for recommendations on the impact of a calendar conversion on the broad policy issues which affect the entire University community.

The University Council should be aware that I have directed the Council of Academic Deans to concentrate its attention on the academic questions in the calendar conversion. It is not my intent to attempt to identify all the major issues which occur in a calendar conversion. There are, however, a wide range of questions and directions requiring careful

Penn Staters

Dr. Elmer Erwin Klaus, professor of chemical engineering, is the first Merrell R. Fenske Faculty Fellow—a position established to honor the late Dr. Fenske, formerly head of the Department of Chemical Engineering. Dr. Fenske, who retired in 1970 as professor emeritus of chemical engineering and died in 1971, was responsible for the establishment and direction of the Petroleum Refining Laboratory. In 1973, the chemical engineering building was renamed in his honor.

Professor Klaus, a 1943 graduate in chemistry of Franklin and Marshall College, received his M.S. and Ph.D. in chemistry from Penn State in 1946 and 1952, respectively.

In 1943 he joined the University as a research assistant in petroleum chemistry. He was promoted to instructor in 1947, to assistant professor in 1952, to associate professor in 1956, and to professor in 1966.

Professor Klaus's research interests include temperature, pressure, and shear effects on the viscosity of liquids; the mechanism of boundary lubrication; radio tracers, activation analysis and thin-layer chromatography in the study of surface chemical effects; super-refining processes for mineral oils (hydrogenation, dewaxing, chromatographic separations); properties of liquids (functional fluids and lubricants) under severe environmental conditions; and metal corrosion studies.

He has published more than 90 papers in professional journals and is co-editor of a book, *Appraisal of World Literature on Boundary Lubrication*.

A Fellow of the American Institute of Chemists and of the American Society of Lubrication Engineers (ASLE), Dr. Klaus has served on ASLE's board of directors and on its editorial review committee. In 1976, he received the ASLE National Award in recognition of his research accomplishments. He is currently a member of the ASLE editorial board for a proposed *Lubrication Handbook* to be published by CRC.

Dr. Klaus also serves on the American Society of Mechanical Engineers (ASME) Research Committee on Lubrication, an advisory body to the Department of Energy, chairing a Sub-committee on Diagnostics.

From 1977 to August of this year, Dr. Klaus was a member of the National Academy of Sciences National Research Council Committee on Recommendations for U.S. Army Basic Scientific Research.

Dorothy V. Harris, professor of physical education, recently returned from Dublin, Ireland, where she presented the opening address at the Council of Europe Conference, "The Greater Involvement of Women in Sport." Her paper was entitled "Women in Sport and Their Participation in Sport."

During the second week in September, William R. Schmalstieg, professor and head of the Department of Slavonic Languages, gave an invited lecture on aspects of hagiography and canonism. Hittite at a conference organized by the Centre International de la Recherche Scientifique in Paris. Following the Paris

conference, he gave an invited lecture on problems of Baltic and Slavic consonantal development at the IVth All-Union Congress on Baltic Linguistics organized by the Latvian Academy of Sciences in Riga, USSR.

"China and Vietnam: End of a Friendship" was the title of a paper presented by William J. Duiker, professor of East Asian history, at an invitational conference on "Vietnam, Indochina and Southeast Asia. Into the 1980s" sponsored by the Institute of Social Studies in the Hague, the Netherlands. Another paper, "The Role of Women in the Vietnamese Revolution," will be presented by Dr. Duiker at the Inter-University Seminar on Women in Combat at the University of Chicago, on Oct. 24.

Frederick M. Williams, associate professor of biology, presented invited lectures in England and Italy during the month of September. He delivered the keynote address, "On Understanding Predator-Prey Interactions," at the 2nd International Microbial Ecology Symposium held Sept. 10 at the University of Warwick in Coventry. "Do We Understand Predation?" his second talk, was given for a seminar at the University of Parma (Italy) Institute of Ecology on Sept. 22.

Dr. Francis McKenna, associate professor of cultural foundations, presented a paper last summer on "Interdisciplinarity and Comparative Education" at the Simon Bolivar University in Venezuela on the occasion of the tenth anniversary of the university's founding. From Sept. 29 to Oct. 3 he was in Garmisch, Germany, where he presented a paper, "Language Policy and Development of Elites in Soviet Central Asia," at the Second World Congress for Soviet and East European Studies.

Joining some 300 writers from around the world, John Balaban, an associate professor of English, participated in the Third International Writers Conference held last month in Sofia. Among the other American poets participating were William Meredith, poetry consultant to the Library of Congress and Denise Levertov, a recent speaker at University Park. In his talk, Professor Balaban addressed the theme of the conference, "The Role of the Writer in Establishing World Peace."

"Twins," a work by Professor Kujundzic in Kyoto show.

Two works by Zeljko Kujundzic, professor of art at the Fayette Campus, have been included in the International Academy of Ceramics Invitational Exhibition of Ceramics in Kyoto, Japan. He is one of only 50 ceramists from the western world chosen to exhibit in the biennial which is opening this month.

Professor Kujundzic will present a paper on his solar firing techniques at the International Conference of the Academy, which is being held concurrently with the opening of the show.

During his stay in Japan, he plans also to visit ceramic studios in Kyoto, Mashiko, and Bizen in order to gain creative experience and learn more about the art and techniques of oriental ceramics.

The following faculty members have been awarded research fellowships for Winter/Spring Terms by the Institute for the Arts and Humanities Studies:

Emily Groszoltz, assistant professor of philosophy, to complete a book on the German philosopher and mathematician, Gottfried Wilhelm von Leibniz;

R. Dorn Hetzel, assistant professor of theatre arts, to make a color film for National Public Television on the mask in art and culture (supporting funds supplemental to an external grant);

Carol Kessler, assistant professor of English at Mont Alto, to do research for a book on utopian writing by American women, 1980-1980.

Melvin C. Seesholtz, assistant professor of English at DuBois, to complete a book manuscript analyzing James Joyce's *Finnegans Wake* from the standpoint of its linguistic structure.

Jill Stoner, instructor of architecture, for creation and preparation of an exhibition in the form of models and drawings, titled "Igittur's House"; and

James Ross Sweeney, associate professor of history, to study the correspondence of Pope Innocent III relative to the Kingdom of Hungary.

Beverly Renford, senior assistant librarian, and Linnea Hendrickson, assistant librarian, are co-authors of *Bibliographic Instruction: A Handbook*.

Published by Neal-Schuman, the book is a practical guide for librarians interested in starting or improving library instruction.

The authors provide step-by-step outlines for developing, conducting and evaluating orientation tours, credit and course-related instruction, skills workbooks, printed and audio-visual materials, computer-assisted instruction and other activities.

Promotions

Faculty

Dr. M. Albert Vannice to professor of chemical engineering.

Staff Non-Exempt

Kathleen J. Ebersole to senior staff nurse at Hershey.

Mark G. Hoskinson to programmer B at Hershey.

Edith J. Imboden to ambulatory desk supervisor at Hershey.

Florence Richardson to bookstore manager at Schuylkill.

Clerical

Beth E. Foust to clerk, accounting A in Controller's Office.

Christine A. Gephardt to technical secretary C in ARL.

Susanne S. Hart to secretary B in Agriculture.

Ellen F. Houser to research data processor B in Engineering.

Cynthia A. Krish to secretary B in Agriculture.

Phyllis G. Payne to secretary B at Delaware County.

Mary A. Perriello to secretary B at New Kensington.

Diane L. Roan to secretary C in Agriculture.

Diane K. Rusnak to accounting clerk in Controller's Office.

Judith A. Toney to secretary A at Delaware County.

Debra K. Weaver to secretary B at Hershey.

Celeste A. Wheeler to secretary B, Continuing Education at Radnor Center.

Technical Service

Anthony Bertoni to maintenance mechanic A at Hershey.

Dawn H. Kauffman to senior photographic technician at Capitol.

Ronald W. Knight to maintenance worker, utility at Delaware County.

Thomas Lattimer to building maintenance worker in Student Affairs.

Darlene J. Lucas to campus bus driver in Business Services.

Sharon A. Vonada to baker-utility in Housing and Food Services.

25-year chairs

When John H. Frank speaks about his "baby," he's not referring to a small pink bundle. Upon joining the Penn State staff in 1955 as a laundry operator in Health, Physical Education and Recreation, he was responsible for the operation and maintenance of new laundry equipment, and he proudly refers to that as his "baby." Today, 25 years later, that same equipment, with the exception of a few new parts, is still humming.

Mr. Frank's dedication to his work is seen not only in his care of the equipment but also in the time he spends on the job; did not take a single day of vacation during his first five years of employment. Until last year, when an illness interrupted his work, he had only taken some three sick days in 25 years. At one time, he had accumulated more than 300 sick days.

In his position, Mr. Frank does all the laundry for Rec Hall, White Building, and the Natatorium. Other responsibilities include driving team buses to practices and assisting the clock operator in Beaver Stadium for home football games.

Mr. Frank resides in Dale Summit with his wife, Jane. The Franks have one son, Gary, who is presently in the Marines and hopes to enter Penn State next year.

Lois E. Summers, office manager in Communication Disorders in Education, created a bit of history when she received her award for 25 years of service. She is the first clerical person in the College of Education to receive a 25-year award. Dean Henry J. Hermanowicz, Dr. Frederick F. Weiner, her present department head, and former employers and fellow workers were on hand to celebrate the occasion.

Mrs. Summers came to the University in 1955 as a clerk-typist in the School of Journalism. As an office manager since 1978, she oversees the work of clerical and work-study employees who assist with scheduling clients for the program.

"I like people," she comments, "and this job affords me the opportunity to deal with all kinds of people—professors, students, administrators, the public—because of our clinical services."

Many of Mrs. Summers' spare hours are occupied with taking care of her husband, William, and their two sons, David and Chris. Mr. Summers is also a Penn State employee and has worked as a teller in the Bursar's Office since 1966. Mrs. Summers enjoys also attending auctions or estate sales, doing volunteer work, hiking and camping.

Retirements

There is an empty space over her sofa that has been waiting for some time for Dr. Ruth Patterson to complete and frame a large crowd canvas (with a floral design on a black background) she started years ago. Now that she has retired from the University as of Oct. 1, Miss Patterson hopes finally to finish this major project. An accomplished needlewoman, she enjoys crowd work more than other forms and has a weak spot for owl designs.

Miss Patterson came to the University in September 1959, working as secretary to the Dean of Engineering. In 1961 she moved to the Alumni Association Office, secretary to the Executive Director. There she remained. She was the "anchorwoman" for the office force because of her store of knowledge about "old alums" and the stories they had to tell.

In addition to completing her deferred needlework, Miss Patterson hopes to start some new projects, visit family members, travel a bit, and generally do all the things she had no time for while working.

A native of Chambersburg, Miss Patterson worked for the Department of Highways before coming to State College.

University Park Calendar

Oct. 16 — 26

Special Events

Thursday, Oct. 16

Kern/WPSX-TV, *Cosmos* series, "Harmony of the Worlds," noon, Kern Lobby.
FSHA 110, 20th Century Japanese meal, 6 p.m., Maple Room, Henderson. Reservations, 8 a.m.-5 p.m., 865-1736.
Cinemathèque, *The Last Picture Show*, 7 and 9 p.m., HUB Assembly Hall.
Colloquy/Homcoming Committee Lecture, 8 p.m., Eisenhower Auditorium; Jerry Rubin, 1960's activist, speaker.
Alumni Area lecture, 7:30 p.m., Room 273 Willard, Charles Bierbauer, ABC News correspondent, on "The Importance of Foreign Language Study."

Friday, Oct. 17

Sports: j.v. football vs. Nassau Community College, 2 p.m.; soccer vs. William and Mary, 7:15 p.m.
Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker, John Pickles, geography, on "Race and Society in South Africa."
Homcoming Activities: parade, 5:45 p.m., College Ave. to Rec. Hall, Candlelight Ceremony, 7 p.m., Old Main Steps, Jay Feldstein, Alumni Assn. president, speaker, and the Penn State Glee Club: bonfire and pep rally, 9-11 p.m., south end of stadium; vigil at Nittany Lion shrine, midnight-7 a.m., Commonsplace Theatre, *Once Upon a Time in the West*, 6 and 9 p.m., Room 112 Kern.
SFO film, *VacKenne's Gold*, 6:30 and 9 p.m., HUB Assembly Hall.
CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.

Saturday, Oct. 18

Sports: tennis (women) vs. Pennsylvania, 1 p.m.; football vs. Syracuse (Homcoming), 1:30 p.m., preceded by balloon launch, 1:15 p.m.
France-Cinema, *Wertmuller, All Screwed Up*, 7 and 9 p.m., Room 112 Kern.
CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.
UGS film, *The Seduction of Joe Tynen*, 7, 9:15 and 11:30 p.m., Room 121 Sparks.
Penn State Glee Club and Women's Chorus, Homcoming Concert, 7:30 p.m., Schwab. Student Foundation for the Performing Arts, "Threater: Weird Tales," 8:30 p.m., HUB Ballroom, Free.

Sunday, Oct. 19

Homcoming Alumni Brunch, 11 a.m., Nittany Lion Inn.
Homcoming Mass, 11 a.m., Eisenhower Auditorium.
Sports: lacrosse (men), Alumni Game, 11 a.m.; soccer vs. Notre Dame, 7:15 p.m.
University Chapel Service, 11 a.m., Music Bldg. Recital Hall. Vladimir De Lissow, child development and family relations, speaker.
Shaver's Creek Nature Center, Fifth Annual Pioneer Crafts Festival, noon-6 p.m., Stone Valley; deadline to sign up for 10,000 Meter Open and Two-Mile Fun Run on Oct. 26.
Information, 865-1851.
Commonsplace Theatre, *Once Upon a Time in the West*, 6 and 9 p.m., Room 112 Kern.
CSA films, *The Time Machine*, 7 p.m.; *War of the Worlds*, 9 p.m., Room 10 Sparks.
Homcoming Awards Ceremony, 7:30 p.m.,

HUB Assembly Hall.
Artists Series, *The Elephant Man*, 8:30 p.m., Eisenhower Auditorium.

Monday, Oct. 20

Deadline to submit Reserve Reading Lists for Winter Term, Reserve Reading Room, W11 Pattee.
Alard String Quartet recital, 12:45 p.m., Room 112 Kern.
France-Cinema, *All Screwed Up*, 7 and 9 p.m., Room 112 Kern.
Color Slide Club meeting, 7:30 p.m., Room 189 MRL.

Tuesday, Oct. 21

Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 204 HUB Richard Chait, asst. provost, on "The Humanities at Penn State."
Comp. Lit. Film Series, *Bergman, Shame*, 7 and 9 p.m., Room 112 Kern. Central Pa. Alumni Chapter of Omicron Nu meeting, 7:30 p.m., Room 301 Ag. Admin. Bldg.

Wednesday, Oct. 22

Alard String Quartet recital, 12:45 p.m., Room 112 Kern.
Black Film Series, *Shaft*, 7:30 p.m., Robeson Center.
College of Education, reception for John Hostler, Univ. of Manchester, 7:30 p.m., Fireside Room, Nittany Lion Inn.
History Dept./IAHS Lecture, 8 p.m., Room 112 Kern. Robert K. Murray, history, on "Presidential Greatness: The Ratings Game."

Thursday, Oct. 23

Fixed date for meetings involving Commonsplace Campus faculty.
Kern/WPSX-TV, *Cosmos*, series, "Heaven and Hell," noon, Kern Lobby.
Adult Ed. Brown Bag Luncheon, 12:30 p.m., Room 101 Kern, John Hostler, Univ. of Manchester, on "Adult Education in England."

Institute for Policy Research and Evaluation/Dept. of Economics Lecture, 1:30 p.m., Room 112 Kern. William D. Carey, exec. officer, AAAS, on "National R&D Policy and American Economic Growth."

Human Development East building dedication, 3:20 p.m., main entrance. Reception and building tours follow ceremony.

Cinemathèque, *The Parallax View*, 7 and 9 p.m., HUB Assembly Hall.

French Dept., Compagnie Bernard Uzan, Boston, in Voltaire's *Le 730*, 7:30 p.m., Schwab.

English Colloquium, 8 p.m., Room 101 Kern.
Stanley Fish, Johns Hopkins Univ., on "Short People Got No Reason to Live, or, How to Recognize Irony When You See One."

Friday, Oct. 24

Fixed date for meetings involving Commonsplace Campus faculty.
Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker, Jerry Gamble, agricultural economist, on "The Effect of Nuclear Power Plants on Nearby Property Values."
Commonsplace Theatre, *Lord Jim*, 6:30 and 9 p.m., Room 112 Kern.
CSA film, *All About Eve*, 6:30 and 9 p.m., Room 10 Sparks.
SFO film, *The Producers*, 7 and 9 p.m., HUB Assembly Hall.
Sports: soccer vs. Navy, 7:15 p.m.

University Symphony Orchestra, Douglas Miller, conductor, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 25

Fixed date for meetings involving Commonsplace Campus faculty.
CSA film, *All About Eve*, 6:30 and 9 p.m., Room 10 Sparks.
France-Cinema, *The Seventh Seal*, 7 and 9 p.m., Room 112 Kern.
Artists Series, Goldovsky Opera Theatre, *The Barber of Seville*, 8:30 p.m., Eisenhower Auditorium.

Sunday, Oct. 26

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Robert Boyer, United Ministry, PSU, speaker.
Shaver's Creek Nature Center, 10,000-Meter Open and Two-Mile Run, 2 p.m., Stone Valley.
School of Visual Arts, opening reception for Jackie Battened field exhibit, 3-5 p.m., Zollner Gallery.
Commonplace Theatre, *Lord Jim*, 6:30 and 9 p.m., Room 112 Kern.
CSA film, *The Seventh Seal*, 7 and 9 p.m., Room 10 Sparks.

Seminars

Thursday, Oct. 16

MC3B, James Gernida, grad. student, on "Morphogenesis of *Arthrobaracter globiformis*," 3:55 p.m., Room 25. Free (new listing).
Philosophy of Mathematics, John Myhill, SUNY/Buffalo, on "The Solution of the Logical and Semantical Paradoxes," 4 p.m., Room 203 Willard (new listing).
Computer Science, Dave Wehrly, IBM Glendale Lab., on "The 1341 System Architecture," 4 p.m., Room 325 Whitmore (new listing).
Ecology, Glen Judy, Institute of Northern Forestry, Fairbanks, on "Ecological Reserve Program in Alaska," 4 p.m., Room 8 Mueller (new listing).

Friday, Oct. 17

Analytical Chemistry, Richard Gibbs on "Determination of Surface Structure by Angle-Resolved SIMS," 11:10 a.m., Room 333 Whitmore.
Geosciences, Robert A. Berner, Yale Univ., on "A Kinetic Model for Bacterial Sulfate Reduction in Marine Sediments," 2:20 p.m., Room 112 Walker.
Physical Chemistry, Eduardo Lissi, Univ. Tecnica del Estado, Santiago, on "Photopolymerization by Carbonyl Compounds," 2:30 p.m., Room 333 Whitmore.
Statistics, Howard Rockette, Univ. of Pittsburgh, on "Identification of Carcinogens in the Work Place," 4 p.m., Room 60 Willard.

Monday, Oct. 20

MC3B, Ken Jacobson, Univ. of North Carolina, on "Lateral Mobility of Cell Surface Components," 4 p.m., Room 101 Altohouse.

Tuesday, Oct. 21

MC3B, Ken Jacobson, Univ. of North Carolina, on "The Amplification of Fluorescence Recovery After Photobleaching (FRAP) to Lipid Vesicle-Cell Interactions and to the Cytoplasmic Diffusion of Macromolecules," 11 a.m., Room 101 Altohouse.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Geosciences, E.K. Graham, geosciences, on "Earth's Mantle: Composition, Temperature and Evolution," 3:45 p.m., Room 112 Walker.

Philosophy of Science, Gordon Fleming, physics, on "Pitoe, Popper and Probability," 3:45 p.m., Room 124 Sparks.

Thursday, Oct. 23

Biology, Louise Anderson, Univ. of Illinois/Chicago Circle, on "Light/Dark Modulation of Enzyme Activity in Chloroplasts," 11:10 a.m., Room 117 Borland.

Chemistry, Karl Kadish, Univ. of Houston, on "Redox Tuning of Metalloporphyrin Reactivity," 12:45 p.m., Room 333 Whitmore.

Air Pollution Control, Alfred K. Blackadar, meteorology, on "Modeling the Atmospheric Boundary Layer," 2:20 p.m., Room 69 Willard.

Physics, John Nagle, Carnegie-Mellon Univ., on "Liquid Blayer Phase Transitions," 3:50 p.m., Room 445 DeVry.

MC3B, Lee Ann Campbell, grad. student, on "Mutagenesis and DNA Repair Capacities of *Neisseria gonorrhoeae*," 3:55 p.m., Room 25. Free.

Acoustics, Gary W. Elko, grad. asst., on "The Acoustic Modulation Process in a Reverberant Sound Field," 4 p.m., Room 73 Willard.

Fuel Science, James Ekmann, Pittsburgh Energy Technical Center, on "Combustion of Alternative Liquid Fuels," 4 p.m., Room 301 Steidle.

Friday, Oct. 24

Analytical Chemistry, Paul Longeway, grad student, on "The UV Photolysis of Methylselenic," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Victor Bundybey, Bell Telephone, on "Spectroscopy of Molecular Ions in Gas and Condensed Phases," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Bonnie Deutsch, jewelry, and Maria Del Grace Moreira Ramon, oil paintings, both through Oct. 24.

HUB Gallery: Homcoming Exhibit, through Oct. 19.

Kern Gallery: Collegian photography, and Jeff Mathison, drawings, both through Oct. 22. Ann Hettmansperger and Cora E. Lucas, ceramics and poetry, opens Oct. 27; "First of Ten," group exhibit, opens Oct. 26.

Museum of Art: European paintings from the permanent collection; contemporary prints from the permanent collection, opens Oct. 18. The Art of the Needle, opens Oct. 23: 18th to 20th Century American works from the permanent collection, opens Oct. 26.

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary, East Corridor Gallery, Tom Teella, ceramics, through Oct. 20, Main Lobby.

Paul Robeson Cultural Center: The Frederick Douglass Years.

Visual Arts Zoller Gallery: School of Visual Arts Faculty Exhibit, through Oct. 18. Jackie Battened, field exhibit, opens Oct. 26.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made to all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 473-1387). Applications for these staff vacancies will be accepted until 5 p.m. Oct. 23, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (P5-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

STAFF PILOT, OFFICE OF BUSINESS SERVICES

Staff pilot on University-owned medium airplanes. Minimum qualifications are an Airline Transport Pilot Certificate with experience in Multi-Engine aircraft.

RESEARCH AIDE, COLLEGE OF AGRICULTURE

Perform semi-structured and complex analyses on a variety of samples. Oversee the flow of samples through the laboratory to include proper storage and recording of characterization information and distribution of laboratory analysis. Oversee use and maintenance of analytical glassware and equipment. Assist in various analyses programs. Inventory and report requirements for chemicals, etc., utilized in the laboratory. Perform literature searches. Set up and close down field work projects. Bachelor of science degree, or its equivalent, plus up to one year of effective laboratory experience. Good background in chemistry is desirable.

COORDINATOR, SAFETY, HEALTH AND LABOR EDUCATION PROGRAM, COLLEGE OF THE LIBERAL ARTS

Responsible for program promotion, design, and delivery. Conduct research on occupational health and safety problems in Pennsylvania. Develop instructional materials and evaluate instruments as needed. Work with a staff range of labor organizations at the local, district, state

and national levels in tailoring program objectives to meet specific safety and health needs. Conduct demonstration classes. Master's degree in industrial relations, industrial hygiene or occupational and health, plus one to two years' experience required. Teaching experience in related field and a background of labor education and experience with labor organizations required. This is a Fixed Term I appointment funded from Jan. 1, 1981, to Sept. 30, 1984.

PROGRAMMER, MANAGEMENT ENGINEERING

Apply modern, structured design and programming techniques to design and develop new programs and modify and maintain existing programs. Prepare system documentation and user operation manuals. Bachelor's degree or equivalent in a computer-related field and six to nine months of effective experience in programming.

The University annually receives grants for projects designed to fulfill specific research responsibilities.

Often the research grant or project is of relatively short or temporary duration. In most instances, University project

administrators must react quickly in making selections of support staff personnel for their projects. Therefore, it is desirable to have an available pool of faculty and staff members who are interested in positions.

This announcement is made so that qualified individuals may make their interests known. The types of temporary research support staff positions typically available are: Senior Project Associate, Project Associate, Project Assistant, Senior Research Technologist, Research Technologist and Research Technician.

The types of discipline backgrounds required vary depending on the projects involved. They may include physics, engineering, agriculture, mathematics and chemistry, but are not limited to these.

If you apply, your name will be placed in the pool of candidates who will be considered as such opportunities arise. Call 865-1387 (network 475-1387).

News in Brief

Human Development East building dedication Oct. 23

The Human Development East Building will be dedicated Thursday afternoon, Oct. 23.

A 10-minute ribbon-cutting ceremony will be held at the main entrance at 3:20 p.m., followed by a 30-minute dedication ceremony in the building's Nursing Consultation Center.

The building consolidates facilities of the College of Human Development's Nursing Departments, previously housed in several different areas, and provides space for the Office of Continuing Education/Commonwealth Campuses, the Computation Center, a learning center and laboratories.

President Oswald will speak during the dedication ceremonies, as will Dr. Evan G. Pattishall, Jr., interim dean of the College of Human Development, and Mrs. Anastasia P. Buchanan, director of the Nurse Consultation Traineeship Program in the U.S. Division of Nursing.

Brief comments will be given by Mrs. Sylvia Schraff, executive director of the Home Nursing Agency in Altoona, who is representing Penn State nursing alumnae; and by a representative of the University's Board of Trustees.

A reception in the study center lounge adjacent to the dedication area will be held following the ceremonies, and tours of the building will be conducted at that time.

Martin to chair UCIP

Noelene P. Martin, chief of the Interlibrary Loan Department in the University Libraries, has been elected chairperson of the University Committee on International Programs (UCIP) for the 1980-81 academic year. The Committee includes a representative from each College, and liaison with other campuses is provided by International Coordinators.

The Committee is responsible for coordinating international activities at University Park and the Commonwealth Campuses. The Provost has charged it with seeking ways to implement recommendations included in *A Perspective on the '80s*, with respect to international education. In May 1981, the Committee will be responsible for hosting at University Park the annual Eastern Regional Conference of Fulbright-Hays Scholars.

Persons wishing to learn more about the Committee's activities, or needing advice or other assistance with international programs, should contact either their College's UCIP representative or Mrs. Martin.

Irony to be discussed by Johns Hopkins' scholar

Stanley Fish, professor of English at Johns Hopkins University and a specialist in 17th century studies, will give a public talk at the English Colloquium on Thursday, Oct. 22, at 8 p.m. in Room 101 Kern Building.

His address is part of a two-day residency sponsored by the Department of English and the Institute for the Arts and Humanistic Studies.

In a discussion of irony, Dr. Fish will base his talk — which is titled "Short People Got No Reason to Live. Or, How to Recognize Irony When You See One" — on three texts. They are the first chapter of Wayne Booth's *Rhetoric of Irony*; Jonathan Swift's "Verses on the Death of Dr. Swift"; and the Randy Newman song, "Short People."

Dr. Fish is the author of several books, among them *work on the 16th century poet, John Skelton. Self-Consuming Artifacts*; *Surprised by Sin*; and a forthcoming book from Harvard Press, *Is There a Text in This Class?*

Clinical Sciences addition is shown in outline on sketch.

The Hershey Medical Center celebrated its Hospital's tenth birthday Oct. 14 with a cake cutting — followed by the groundbreaking for the clinical sciences addition for the College of Medicine.

Sharing in the cake were the Hospital's first patient, Mrs. Nancy Nightwine of Hershey, and two ten-year-olds, the first girl and boy born in the Hospital.

The Hospital's Tenth Anniversary

Lecture was presented by James R. Neely, president of the Hospital Association of Pennsylvania, who spoke on "The Issues of Hospitals in the '80s."

President Oswald spoke at the groundbreaking for the nine-story, 58,000 square foot facility. He was joined by Quentin H. Wood, president of the Board of Trustees, and Dr. Harry Prystowsky, Hershey's provost. Also participating were

Edward R. Book, chairman of the Trustees' Medical Center Advisory Committee; Samuel F. Hinkle, former University trustee and chairman of Hershey Foods Co., the man who made the famous \$50 million phone call to Penn State officials leading to the founding of the Medical Center; and Robert Patterson, senior vice president for finance and operations.

Presidential "ratings" are Murray's topic

Dr. Robert K. Murray, professor of American history, will speak on "Presidential Greatness: The Ratings Game" at a lecture sponsored by the Department of History and the Institute for the Arts and Humanistic Studies Wednesday, Oct. 22, at 8 p.m. in Room 112 Kern.

Dr. Murray is the author of several books on American politics, among them, *The Harding Era*; *Warren G. Harding and His Administration*; *The Politics of Normalcy*; and *The 103rd Ballot*.

The lecture is free and open to the public.

Comp. Lit. group to hear talk on humanities

Assistant Provost Richard Chait will present a talk on "The Humanities at Penn State" to the Comparative Literature Luncheon group Tuesday, Oct. 21, at 1 p.m. in Room 204 HUB. Lunch will be available at 12:15 p.m.

Prior to coming to Penn State last January, Dr. Chait was educational chairman of Harvard University's Institute for Educational Management; A Phi Beta Kappa graduate of Rutgers University with a major in history; Dr. Chait earned his M.A. in American history and his Ph.D. in higher education administration at the University of Wisconsin.

The author of numerous articles, Dr. Chait has co-authored a book, *Alternatives to Traditional Tenure Practices*.

Basketball tickets on sale

The Athletic Department has announced that applications for 1980-81 men's basketball season and single-game tickets have been placed in the mail. Season ticket holders from last season have been forwarded invoices for their tickets.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-170

Louise D. Wartik, Editor
Lee A. Morrill, Calendar Editor
Department of Public Information and Relations
Room 312 Old Main
University Park, Pa. 16802
Telephone: (814) 865-7517
Second-class postage paid at State College, Pa. 16801

Faculty/staff members not receiving a ticket application or invoice for previously held tickets by Wednesday, Oct. 22, should contact the Ticket Office (865-7567).

All tickets will be priced at \$4 this season.

The Nittany Lions are hoping to match last year's success, which saw the team win its most games (18) in 14 years and reach its first post-season tournament (NIT) since 1966.

Team players returning from last year's squad will be joined by an outstanding freshman class, including two first-team all-Pennsylvania selections.

The squad opened practice Oct. 15. The season begins Nov. 22 at Rec Hall against Athletics in Action.

AVS seeks faculty input

Audio Visual Services has obtained the rights to tape off-air for faculty evaluation the *Cosmos* series, 13 weekly, hour-long episodes devoted to science in its broadest human perspective. The series, which began its run on WPSU-TV Sept. 28, was co-authored by Dr. Carl Sagan, distinguished Cornell University astronomer and Pulitzer Prize-winning author, who also serves as host.

Each program will be available following broadcast for a three-week period of evaluation, which may be conducted either at AVS or in the classroom. Faculty will be asked to fill out Audio Visual Services evaluation forms to use to determine whether the series will be acquired by AVS for long-term use. To obtain additional information or to schedule screenings, contact the Reference and Distribution unit of AVS at 865-6316.

New Delaware County number

The Delaware County Campus reminds the members of the University community that it has a new network number — 361-2213.

Dr. Joseph Jay Rubin, a member of the faculty from 1935 until his retirement in 1978 as professor emeritus of American literature, died Friday, Oct. 10. He was 68.
Dr. Rubin earned his B.A. and M.A. degrees from Penn State and his Ph.D. from Yale University. A Whitman scholar, he authored two books, *Walt Whitman of the New York Aurora and The Historic Whitman: A Biography, 1819-1855*.

United Way giving is up

As of Oct. 10, University Park's employees have contributed \$51,860 to the United Way in Centre County, reports Dr. Richard E. Grubb, chairperson for the campus campaign.

"According to the United Way Office's figures, contributions show an increase of \$19,361 over last year from the same group of givers," he notes, adding:

Nearly 48 percent of the employees who turned in pledge cards thus far have made a contribution; previous givers increased their gifts by 19.4 percent: 508 new givers donated \$13,068.

The area reporting the largest donation, and the second largest response — 87 percent of employees — is the College of Earth and Mineral Sciences, chaired by Dean Charles L. Hosler.

Other areas reporting substantial donations include: College of Agriculture, Dr. B.R. Baumgard, chairman; and Research, Dr. Forrest J. Remick, chairman.

The greatest response from employees is the Senior Vice President for Administration's area with 93 percent. Dr. John E. Hargleroad is serving as associate chairperson for this area.

Areas reporting response over 50 percent include: Admissions, Dean Donald G. Dickason, chairman; Continuing Education, Marlowe Froke, chairman; College of Health, Physical Education and Recreation, Dr. Martha Adams, chairperson; Division of Undergraduate Studies, Dr. Harvey E. Wall, chairman; College of Human Development, Dr. Joseph Britton/David Dimmick, chairmen; and Research.

"While we are pleased with this initial report," says Dr. Grubb, "we do want to remind members of the faculty and staff that a significant number of University Park's employees have yet to respond. If we are to meet our goal and responsibility to United Way in Centre County as its largest employer, it's important that contribution cards be returned as soon as possible."

Contribution cards can be returned to area solicitors or chairpersons or sent directly to the Campus Relations Office, Room 301 Old Main.

Kenneth J. Heidrich, a member of the faculty from 1937 to 1950 when he resigned as professor of architecture to open his own firm, died Oct. 10. Mr. Heidrich held a B. Arch. from the Carnegie Institute of Technology and an M.F.A. from Princeton University. He was 73.

(Continued from page 2)

Anne Utermohlen, since 1970 secretary to John D. Vairo, director of the Delaware County Campus, retired Sept. 30 after nearly 17 years of service to the University.

Mrs. Utermohlen first joined Penn State in January 1964 as secretary to Dr. Witt Hutchison, the first director of the former King of Prussia Graduate Center. When Dr. Hutchison retired several years later, Dr. Hal Weber was named director of the Center, and Mrs. Utermohlen became his administrative assistant.

She held that position until Oct. 1, 1970, when she joined the Delaware County Campus.

A native of Freeburg, she has two sons and eight grandchildren.

She and her husband, Al, a production supervisor at Elwyn Industries in Philadelphia, plan to continue their periodic visits to Europe and other parts of the United States.

James G. Wallace Jr., a food preparer in Housing and Food Services since Feb. 16, 1965, retired Sept. 20.

Harry W. Rishel, a janitorial worker in the Office of Physical Plant, retired Oct. 1. He joined the staff on March 4, 1974.

Louis Stanislawski, a painter at Capitol since March 26, 1969, retired Oct. 4.

Charles W. Woods, a housing supervisor at Hershey since April 13, 1970, retired today, Oct. 16.

Walter A. Shustack, a storeroom clerk at Hershey since Oct. 12, 1970, will retire Oct. 18.

Virginia E. Eckert, a tray assembler at Hershey since Oct. 19, 1970, will retire Nov. 1.

Norman E. Manguson, a janitorial worker in the Office of Physical Plant since Nov. 1, 1970, will retire Nov. 1.

Obituaries

Dr. James L. Gobble, an associate professor of animal science when he retired in 1977 after 31 years of service, died Oct. 7. He was 63.

A graduate of Purdue University, Dr. Gobble earned his M.S. at the University of Illinois. He came to Penn State in 1946 and earned his Ph.D. at the University, with a major in animal production, in 1955.

He was in charge of the University's swine facilities from 1946 to 1965 and was largely responsible for planning the Swine Research Center. His own research centered on the effects of various feeding behaviors on swine production.

John J. Jaquish, a country agricultural agent with the College of Agriculture from 1917 to 1956, died Aug. 18. He was 89 years of age.

Deans

(Continued from page 1)

majority of major universities are currently using early semester calendars makes it clear that these issues can be resolved. Careful study of them in the Penn State context, however, is critical.

In addition to the basic issues of instructional load and research, attention needs to be directed to the type of examination period appropriate to a semester calendar. A study of the summer session is in process; the results of that study will become a part of the consideration of the Council of Academic Deans regarding the academic aspects of a new calendar. I am asking the Council to develop appropriate guidelines for calendar conversion modifications to major program and curriculum changes. The class schedule which has been used under the term calendar for many years would not appear appropriate to a semester calendar. This list of illustrative

issues is not to be taken as the complete agenda for discussion by the deans.

When the Council has had time to study the issues and to make recommendations to the Provost and to me, those recommendations will be distributed to the Council of Commonwealth Campus Directors and to the Faculty Advisory Committee for comment and reaction from those groups. Hopefully, the policy question studies will result in a set of guidelines for the detailed planning for actual calendar implementation in the fall of 1984. The guidelines responsive to the major issues should be completed no later than September, 1981.

It will be the further responsibility of the Council of Academic Deans to explore the long, long list of detail questions attendant to a calendar change. A moment of reflection will convince any of us that there are literally hundreds of changes in the academic area which must occur smoothly and in an integrated fashion if the calendar conversion is not to be disruptive. In this area of multiple detail, as in deliberation of major issues, it is vital that each department and each college be fully involved. In essence, the calendar conversion implementation will need a detailed plan for each college.

The Council of Academic Deans should be aware that I am directing the University Council, whose chairman is the University Provost, to consider the major issues of a non-academic nature with regard to the calendar conversion. That assignment to the University Council is consistent with the policy of our Board of Trustees on the consultative role of the University Council in calendar matters.

I have assigned Dr. James R. Dungan of the Office of Planning and Budget as Staff Officer to the Council of Academic Deans and to the University Council as those two bodies carry out the responsibilities I have given them in the calendar conversion. Both Councils are to call on Dr. Dungan for any assistance necessary in the study and implementation of a calendar change.

I am looking to the Chairman of the Council of Academic Deans, the Chairman of the University Council, and the Chairman of the University Faculty Senate to assure jointly that the groups involved in the calendar conversion are closely coordinated. The studies of the Council of Academic Deans on academic matters, those of the University Council on non-academic matters, and the deliberations of the Faculty Senate and its committees must be closely interlinked. Dr. Dungan will also serve as Staff to this coordinating effort.

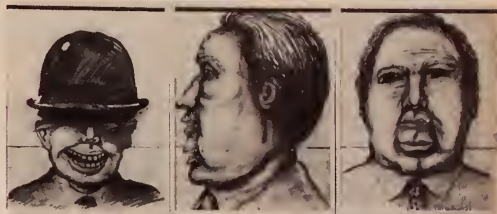

Let me close by emphasizing the importance of these studies in an orderly calendar transition. The proposed target date of 1984 for changing to an early semester calendar provides ample time for careful study and thoughtful decision making. I know that the Council of Academic Deans will be a significant leader in this effort.

University Council

(Continued from page 1)

study. The structure of the residence halls regarding room assignments and similar matters will be quite different in an early semester calendar. The deadlines and procedures governing student financial aid which have worked in a term calendar need careful reconsideration for a semester. The schedule of cultural activities for the University community will be impacted by a new calendar. The athletic program, intercollegiate and intramural, is tailored to a three-term academic year and must be completely reexamined. The procedures of admissions and of class registration will now be on a twice-yearly sequence with volume changes and other differences. Presently, Capitol Campus has a calendar different from the remainder of the University but the reasons for an early calendar may not apply in a different semester system.

It will be necessary for the University

Visitors have until Saturday to see the annual exhibit of works by faculty members in the School of Visual Arts, three of which are shown here. At top, detail from a figure study by John Cook. Center, an untitled print by Lanny Sommes. Bottom, detail of pen and ink drawing, "Hairline," by Stuart Frost.

Council to consult in depth with the principal University officers who have responsibility for the multitude of services outside the direct jurisdiction of the colleges. After the University Council has consulted with the principal officers, studied the issues, and made recommendations to the Provost and to me, those recommendations will be distributed to the Council of Commonwealth Campus Directors and to the Faculty Advisory Committee for comment and reaction from those groups. Hopefully, the policy question studies will result in a set of guidelines for the detailed planning for actual calendar implementation in the fall of 1984. The guidelines responsive to the major issues should be completed no later than September, 1981.

It will be the further responsibility of the University Council to explore the long, long list of detail questions attendant to a calendar change. In the non-academic areas of University services, it is clear that literally hundreds of changes must be considered and planned in a coordinated fashion if the calendar conversion is not to be disruptive. In essence, the calendar conversion implementation will require a detailed plan from each of the non-academic and service units of the University.

(The last three paragraphs of this memorandum repeat information similar to that sent to CADS.)

Employees should see that their files are up-to-date

During the years they spend at the University, some employees acquire new skills or knowledge as the result of taking courses, participating in training programs or through individual study. They may also gain experience in another field through outside activities.

When employees apply for promotion to another job, it is important that this new information be in their files. The Employment Division points out. However, unless employees provide such information about themselves, their files cannot be brought up to date.

The Employment Division urges that all employees periodically consider whether they can add to the information currently in their files. Persons who wish to add to their files should request a supplemental employment data sheet from the Employment Division, Room 117 Willard Building, 865-1387 (Network 475-1387).

Arts Whitman

Homecoming concert Oct. 18

The Penn State Glee Club will be joined by a newly formed group, the Penn State Women's Chorus, for the annual Homecoming Concert at 7:30 p.m. Saturday, Oct. 18, in Schwab Auditorium.

The Glee Club will open the program with selections by J.S. Bach, Claudio Monteverdi, Vincent Persichetti and Randall Thompson. Several folk songs and spirituals from the Glee Club's repertoire have been chosen also for the concert.

Members of the Penn State Women's Chorus have selected two numbers for their debut — "A Jubilant Song," written by Norman Dello Joio to a text adapted from Walt Whitman, and Gabriel Faure's "Tantum Ergo."

The Hi-Los, a specially selected group from the Glee Club, will make an appearance, performing songs from American presidential campaigns. Then, the Glee Club and the Women's Chorus will join forces to sing Randall Thompson's "Frostiana," a collection of seven poems by Robert Frost set to music.

In keeping with tradition, the Glee Club will close the concert with a selection of Penn State songs.

Bruce Trinkle, associate professor of music, directs both choral groups. Michael Kammerer is assistant director of the Glee Club, and Brenda Harsch assists Mr. Trinkle with the Women's Chorus.

French Department to sponsor production of "Candide"

The annual dramatic production sponsored by the French Department will take place on Thursday, Oct. 23, at 7:30 p.m. in Schwab Auditorium.

This year, the Compagnie Bernard Uzan will present an adaptation of Voltaire's *Candide*. Candide's adventures in a world of hypocrisy, conflict and greed lead him from innocence to maturity. The world of *Candide* is parallel to that of the 20th century.

Tickets will go on sale at the HUB Desk, at Eisenhower Auditorium Box Office and at the French Department Office in Room 316 Burrows today (Oct. 16). The price is \$3.

Senate

(Continued from page 1)

The meeting concluded with a report by Assistant Provost Richard P. Chait on "Recent Legal Developments Affecting Personnel Policies and Procedures."

Noting that judicial activity in higher education is not a new phenomenon, Dr. Chait suggested that the recent increase in court actions was due to several factors, among them increasing regulation of all professions and industries and the vulnerability of higher education because most of it occurs in the public sector. Dr. Chait added:

"... with respect to charges of employment discrimination, the rate and volume of litigation can be expected to increase as more women and minorities appointed since 1972, when Title VII was extended to educational institutions, reach promotion and tenure decisions."

Litigation, Dr. Chait noted, may also increase as the academic labor market weakens.

"Finally," he continued, "I think we must acknowledge that increased judicial activism — especially on matters of employment discrimination — reflects, in part, the presence of inequities."

Tracing several recent cases, Dr. Chait pointed out that "no college or university has yet to suffer cancellation of contracts and debarment as a federal contractor."

"... we should not succumb to the alarmist's view," he said. "The courts and the government are, I think, in search of a middle ground. In that light, no useful purpose can be served by behaviors that suggest we are on the edge of a precipice."

Planning and budgeting process described

Editor's note: The following report by Provost Edward D. Eddy to the Committee on Educational Policy of the Board of Trustees is reprinted to give faculty and staff members a view of the planning and budgeting process.

I am taking a piece of your time and agenda today to give an annual report on the University's Five Year Planning and Budgeting Process. I'll be drawing my material from academic areas not only because this is the Committee on Educational Policy but also because academic expenses represent two-thirds of the general funds budget. This is what we'll be discussing. The same process and results are taking place in the areas of finance and physical operations, and in offices related to external contacts. I shall be talking about the academic colleges, including Behrend, the Capitol Campus, and the Commonwealth Campuses, the Graduate School and Radnor Center, Continuing Education operations, Admissions, the Libraries, Research, Undergraduate Studies, Student Affairs, the University Arts Services, and a sizeable hunk of central administration, including all of the academic administrators.

All of this is an excellent illustration of your three instructions emerging from *A Perspective on the '80s*. In essence, you told us: Maintain high quality; make some intelligent choices; and build in some flexibility in order to be able to respond to changing interests and needs.

The approach of a large majority of universities is to attack retrenchment by cutting across-the-board: Let everyone share, and let everyone slip down at the same pace to the same level. But that is too simplistic. At Penn State we chose, instead, to undertake a planning and budgeting process which requires some difficult, intricate, and sometimes unpopular decisions. We have moved, therefore, from the simple level of recycling reductions to an increasingly sophisticated review and allocation process. We have moved from general questions — What are your aims? — to specific queries: Why not phase out? Why not integrate? Why not regionalize? The burden of proof shifts from the absence of increased funding to the justification for any support.

We have moved also from concern over the budget alone to a far wider and deeper concern over long-term academic planning. It is not easy to look five years ahead but it is essential, especially for the next five years. The result of this united effort is that Penn State is emerging as an apparent national leader in intelligent long-term planning and budgeting. One report after another from other universities describes arbitrary cuts based on an absence of knowledge and foresight and the presence of caprice and uncertainty. It is great to be at the top in a variety of ways, but none is more important than academic planning and budgeting in order to realize academic ambitions.

Three key groups are involved:

1. The informal body called, awkwardly, the Provost's Advisory Committee on Planning and Budget. This is chaired by the Provost and staffed largely by the Office of Planning and Budget with the Provost's Financial Officer. The members include the two Assistant Provosts, the Director of Planning and Budget, the Vice-Presidents for Research and for Undergraduate Studies, three faculty members elected to the Faculty Advisory Committee and one student selected by the Provost after careful review. The group meets regularly throughout the year but concentrates especially during the three winter months on 23 two-hour hearings with deans and vice-presidents. All information except individual salaries is made available to all committee members.

2. The second key group is the President's Budget Task Force which is chaired by the President, with four senior officers, the Director of Planning and Budget, and the Controller. It receives recommendations from the Provost and other senior officers and makes final decisions within the widest possible University context with regard to income as well as expense.

3. The third group, so to speak, is the Office of Planning and Budget itself which prepares all of the background and contextual material. It also conducts studies requested by the first two groups.

The process begins in the spring, extends through the fall months in the departments and divisions, with budget requests and planning statements submitted in early winter, followed by hearings in the winter term, and decisions in the spring term.

We have now concluded the third year of refining. We began with simplistic questions and a uniform approach. In the second year we started to make some genuine differentiations among colleges and other academic units — according to need, enrollment, pressures in terms of research, equipment, employment markets, space, etc., and necessity to maintain the integrity of the University. In the third year we moved toward further modifications and the introduction of new allocation techniques.

A few illustrations of these new allocation techniques include:

1. The Provost's Revolving Fund which permits some flexibility of resources to swing in response to changing need. A commitment of temporary funding can be made for one to three years. This has been done recently for Engineering, Business Administration, Computer Science, and Food Service and Housing because of enrollment shifts. The Provost's Revolving Fund has available \$800,000 on a permanent budget base.
2. The Matching Equipment Fund to encourage fund raising by departments, colleges and institutes. One million dollars has been set aside with hunting licenses issued. Matching sums are guaranteed if the game is caught within an agreed upon period of time, e.g., 24 months.
3. Three areas of special need hit by inflation: Library acquisitions — (over \$1 million this year); major teaching and research equipment — (over \$1 million this year); undergraduate laboratory and specialized equipment — (several hundred thousand dollars this year).
4. Planned expansion of M.B.A. enrollment — (doubled in size over the next 5 years).
5. Doubled allocation to student activities to catch up with no increase over the years of rapid inflation.
6. Matching sums to reduce target reductions in three colleges to encourage difficult decision making. One dean wrote in response to this experimental matching approach: "This method of handling fiscal recycling is one of the most imaginative ways of asking administrators to reduce their budgets that I have encountered. It forces academic focusing when that effort is so clearly necessary. No one likes to cut back, but at least this retrenchment makes academic sense."

Additional problems and possible steps are illustrated by the following:

1. Deans and Vice-Presidents will be asked to prepare a summary of issues, goals and objectives for 1980-81 — a trial step toward performance-based reviews.

2. Salaries have been given highest priority. In addition, special consideration has been given to the impact of competitive markets and to parity over a period of time for location in comparison to salaries in comparable institutions nationally.
3. Problems of student access into heavily enrolled areas have been explored.
4. Dramatically increased lab costs have been of special concern.
5. Exploration has started in areas of duplication and possible consolidation, e.g., nutrition.
6. Several major administrative problems were identified, e.g., excessive requests for "directives" as solutions, thus over-estimating central "power" in order to avoid decisions at the grass roots level.
7. Closer attention was paid to affirmative action needs.
8. The need to link college activities more closely with the Office of Gifts and Endowments was explored. We shall be taking steps to move ahead much more aggressively in private fund raising.
9. The 5-year approach has stimulated interest in planning at the college — and hopefully, the departmental — level. Engineering, Business Administration, The Liberal Arts, and Agriculture, for example, have college level planning groups. The Long Range Planning Study Committee of the College of Engineering has been functioning since the fall of 1979. It was charged with developing recommendations for priorities and directions for the College of Engineering for the period 1980 through 1985. Separate planning documents have been developed by each department in order to increase the level of concern within the college and to improve the quality of the information available to the Planning Committee. The primary recommendation emerging from the effort appears to be that the College of Engineering needs to make a much stronger commitment to increasing its efforts in the area of graduate education and research.
10. All these efforts have been a stimulus to wider planning projects. Among them are the prospective integration of Continuing Education and Commonwealth Campuses, calendar change, summer term operations, early retirement options, the freshman experience, and innovation in curricular approaches to fields in heavy demand.

In conclusion then, I think we end up, after three years, with greater administrative satisfaction that we really are on top of planning for the first time and that we are coming closer to the most intelligent use of funds in view of needs. We are pulling planning together with the allocation of funds and not making them two different approaches which have no relationship to each other. We are using a low key, nonpolitical approach which avoids the tendency toward rewards for favoritism, and is based more on solid information and solid study. Perhaps most importantly, we have a high degree of faculty and student participation. We have gained many new insights and perspectives from the participation of faculty members and students in this process and from the genuine sense of community which evolved out of this.

Eric Cronin has written that "the test of what you produce is the care it inspires." The 1980-81 budget results from this year's husbanding of funds. It should be superior in quality as a budget because truly it has inspired care of a high order. And that is just good planning and good budgeting.

Penn State Intercom

Behrend gets \$250,000 NSF grant

The Behrend College has been awarded a \$250,000 grant by the National Science Foundation to develop pioneering baccalaureate degree programs in energy, the environment and their interface.

The innovative four-year programs, to be completed at Behrend, will lead to the degrees of Bachelor of Science in Energy Science and Engineering, Bachelor of Science in Environmental Science and Engineering, or Bachelor of Energy and Environmental Design.

Dr. John Lilley, dean of Behrend, sees the program as an opportunity for Penn State to serve energy conscious northwest Pennsylvania in a most critical area of need. Calling upon the Erie community and industry to support Behrend faculty members in developing curricula.

Dr. Lilley said he expects the programs to attract students from many areas of the Commonwealth.

The proposal was developed by faculty members in Behrend's Division of Natural Sciences and Engineering, headed by Dr. H. Eugene Shull, associate professor.

According to Dr. Shull, the programs to be developed are probably the first of their kind in the country. He points out that the funding by NSF through its program of Comprehensive Assistance to Undergraduate Science Education (CAUSE) is recognition of a unique and timely response to a national need.

Alumnus shares Nobel chemistry prize

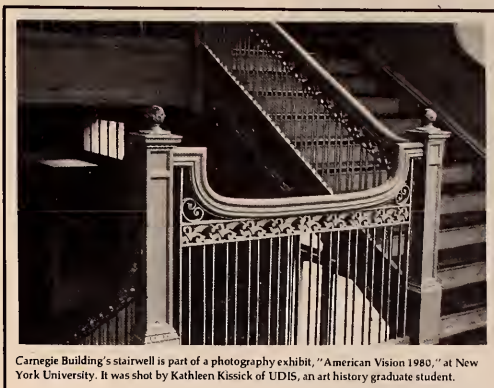

Editor's note: Dr. Paul Berg '48 is the first University alumnus ever to win a Nobel Prize — he was selected to share half of the 1980 prize in chemistry. Last year, Dr. Stephen J. Benkovic, Evan Pugh professor of chemistry, spent his sabbatical in the Department of Biochemistry at the Stanford University Medical School, where Dr. Berg is a professor.

INTERCOM asked Dr. Benkovic to explain the significance of Dr. Berg's research and to describe his laboratory. The following is an edited version of Dr. Benkovic's remarks.

Paul Berg's research has been primarily responsible for the development of genetic engineering or gene manipulation. He was able to take a segment of DNA and insert it into a specific virus which then was used to infect bacteria. He then showed that the protein product of that DNA now occurred in the bacteria, indicating that the transplanted gene was being replicated.

What he is really interested in understanding now is the mechanism for DNA transcription; in other words, what controls how a gene is transcribed in the mammalian cell?

As a starting point, he has to determine the initiation signals for the transcription process; his earlier experiments revealed that one can just put a segment of DNA at random into a virus gene. You have to insert it into a certain position, since there are specific viral DNA sequences that must remain intact and be in the proper location relative to the DNA insert in order for the host to replicate it. By altering

Carnegie Building's stairwell is part of a photography exhibit, "American Vision 1980," at New York University. It was shot by Kathleen Kissick of UDIS, an art history graduate student.

"There is little doubt that our way of life will be altered by energy shortages in the near future," Dr. Shull says. "The issues, are clouded by emotions, expectations of the power of technology, and polarization between advocates of the environment and competing energy options."

Objectives of the program will be to produce graduates in command of the fundamentals of natural science and mathematics, with balanced perspectives on the competing energy-environmental options. Graduates would be prepared for careers in science, technology and engineering; manufacturing, development,

research and management serving many industries; and public service.

One of the first objectives of the project, a workshop on the Energy-Environment Interface, has already been completed. The three-day program, held at Behrend late last spring, attracted participants from across the country representing energy industries, public utilities, professional societies, government, manufacturing industries, communications media and educational institutions.

Emphasis was placed on the great importance of communication among all

(Continued on page 6)

Some budget restrictions are relaxed

The University has relaxed some of the budget restrictions put into effect during the period of uncertainty caused by a shortfall in the Commonwealth's 1980-81 projected revenue.

President Oswald said in a memo to administrators that a delay in filling open positions — in effect since July 17 — has been lifted.

Dr. Oswald also released one-half of a budgetary savings reserve that had been assigned to each administrative unit within the University and lifted a freeze on departmental allotments for fuel, utilities and new facilities. These allotments had been included in the operating budget approved by Penn State Trustees in May, but were withheld during the appropriations impasse.

"As you are aware, Governor Thornburgh has signed the bills necessary to provide full funding for Penn State," Dr. Oswald said. "While there is still a legal matter to be resolved, the appropriation picture has brightened. As a result, we are proceeding to return to a more normal mode of operations."

Dr. Oswald said the remaining half of the budgetary savings reserve for administrative areas would remain in effect pending possible resolution of certain legal questions related to the appropriation. "I hope to be in a position

(Continued on page 6)

Dr. Berg, on his 1976 visit as an Alumni Fellow in the College of Science, received medalion from President Oswald. Dr. Berg's B.S. is in agricultural and biological chemistry.

where he is ligating this DNA segment into the virus, followed by assay for the gene product, he will be able to define the DNA sequences in the virus necessary for replication.

In the long term, that information may reveal to us how cells become cancerous, how they replicate without control. The discovery of how cells replicate may be the most important finding to come out of this research.

Paul Berg himself is characterized by

enthusiasm — about almost any topic in science. He's willing to listen to what a colleague is doing and ask questions about it; he's not narrowly focused. He's also a very good lecturer, and has excellent rapport with his students.

His research group meets once a week to have breakfast together and talk about their experiments or reports in the literature. As a research preceptor, he respects his students, and encourages their

Libraries accept RLG membership

The University Libraries have accepted an invitation to become a member of the Research Libraries Group, Inc. (RLG).

"RLG is a consortium owned by the major research universities and institutions comprising its membership," Penn State Libraries Dean Stuart Forth explains. "It was established in 1974 in recognition of the fact that no single library today can afford to purchase all the materials it would need to form a completely independent, comprehensive collection."

Although Penn State's 2.1 million volume collection is relatively small compared to the holdings of many RLG members, RLG, according to Dean Forth, was eager to tap the libraries' acknowledged expertise in the computerization of internal library operations, a field Penn State has pioneered. The University also has important special collections in such diverse areas as Surrealism, Australiana, Pennsylvania history, coal research, mycology and Utopian literature.

The automated system adopted by RLG was developed at Stanford University and is called BALLOTS (Bibliographic Automation of Large Library Operations using a Time-sharing System). Stanford, in addition to being a member of RLG, serves as host institution for the group's central staff and computer facility.

Other member institutions are Columbia University, The New York Public Library, Yale University, University of Michigan, University of Pennsylvania, Princeton University, Dartmouth College.

(Continued on page 6)

Penn Staters

Dr. John C. Johnson, director of the Applied Research Laboratory, has received the special academic title of University Research Professor of Acoustics.

President Oswald granted the new title in recognition of Dr. Johnson's "significant contributions to the science and engineering of acoustics; to the stimulation, development and guidance of acoustic systems and noise reduction at Penn State and your contribution to interdisciplinary research as director of the Applied Research Laboratory."

Further, it is in recognition of your efforts toward development of acoustic offerings in other educational institutions through national committees and as president of the Acoustical Society of America and the Institute of Noise Control Engineering."

Dr. Johnson, who retains his title as ARL director, came to Penn State in 1959. Under his directorship, the ARL has maintained leadership in technological developments for the U.S. Navy through acoustic systems and noise reduction techniques. The laboratory, the largest single interdisciplinary research unit in the University, has successfully integrated its faculty members and research programs with many other University programs.

A 1942 graduate of Culver-Stockton College, Dr. Johnson received his M.A. and Ph.D. degrees in physics from the University of Michigan.

Dr. Johnson has published numerous articles and reports in his research fields, which include ultrasonics, underwater acoustics, emission spectroscopy, noise control, seismology, high-temperature measurement, atmospheric acoustics, architectural acoustics and mass spectroscopy.

Dr. H. L. Barnes, professor of geochemistry and director of the ore deposits research section in Earth and Mineral Sciences, has been selected by the Society of Economic Geologists to serve as one of its two Thayer Lindsley Distinguished Lecturers for the 1980-81 academic year. He will present lectures at Purdue University and the Universities of Indiana and Florida this fall, and speak at several other universities next spring. His topics are "Clues to the Genesis from Modern Geothermal Systems," "Mineral Solubilities and Ore Formation," and "Mississippi Valley-Type Deposits—A Genetic Model."

An article on the future of Consumerism by **Dr. Robert O. Herrmann**, professor of agricultural economics, and **Dr. Rex H. Warland**, professor of rural sociology, has been chosen for inclusion in a packet of consumer education and information materials which will be sent to over 300 U.S. embassies and information offices abroad. The packet is designed to inform foreign consumer leaders and government officials about U.S. consumer programs. The packet was prepared at the request of Esther Peterson, the Special Assistant to the President for Consumer Affairs. The article is based on a paper presented by the authors at the 1980 annual conference of the American Council on Consumer Interests.

Dr. Ernst Schurer, professor and head of German, was an invited speaker at a symposium on "Political Tendencies in the Literature of the Weimar Republic" at the University of Minnesota. His talk explored German drama and theater as they were affected by social and economic conditions in Germany at this time. The symposium is part of a series of events under the title of "Germany in the Twenties: The Artist as Social Critic," sponsored by the National Endowment for the Humanities during the academic year 1980/81.

Dr. Loren D. Tukey, professor of pomology, recently visited the apple industry in Hungary at the invitation of the State Farms. Later, he attended a High Density Planting Symposium of the International Society for Horticultural Science at Lana, Italy, where he presented a paper on growth regulators in intensive orchard plantings, chaired a session, and led a discussion on Modeling Fruit Planting Systems. Dr. Tukey also visited several fruit research stations and the fruit industry in northern Italy, and presented a talk on developments in the U.S. fruit industry to a group from the Italian Advisory Service.

Dr. Philip L. Walker Jr., Evan Pugh professor of materials science, has been selected to serve as the George D. Grafflin Lecturer of the American Carbon Society for 1980. The lectureship, which is sponsored by the Asbury Graphite Mills, Inc., honors one of the pioneers in the natural graphite industry. Dr. Walker will deliver lectures this fall at the University of California at Berkeley, Stanford University, California Institute of Technology, University of Utah, and Massachusetts Institute of Technology. His topics will include "Carbon—A Versatile Catalyst Support" and "The Importance of Active Sites in the Processing and Properties of Carbon and Graphite."

Dr. Theodore L. Gross, provost/dean of the Capitol Campus, delivered an address in the Presidential Lecture Series at the University of South Dakota on Oct. 9. His subject was "Education in the '80s: Preserving the Past, Creating the Future." On Oct. 10, he was the featured speaker at the Founders Day Convocation of York College, discussing the relationship of basic writing to the liberal arts curriculum.

Dr. Carolyn Wood Sherif, professor of psychology, has received the Distinguished Publication Award from the Association for Women in Psychology for 1979-80. The award is given annually to scholarly publications during the past academic year that contribute significantly to psychological theory and research on women. Dr. Sherif was cited for her chapter, "Bias in Psychology," which appeared in *The Prism of Sex: Essays in the Sociology of Knowledge* (J. A. Sherman and E. T. Beck, editors) from the University of Wisconsin Press. Reviewing evidence of bias stemming from cultural and sex-centered assumptions in theory and research, Dr. Sherif's chapter proposes the coordination of social, cultural, and psychological data for a broadened perspective on human experience and action.

Dr. Brent Wilson, professor of art education, has been given the Distinguished Achievement Award for Excellence in Educational Writing by the Educational Press Association of America. The award for "Learned Article" of 1980 was presented for "Children's Story Drawings: Reenvisioning Worlds," published in *School Arts* (Vol. 78, No. 8, April 1979). Dr. Wilson's co-author was Dr. Marjorie Wilson, who holds a doctorate in art education from the University.

Dr. Donald J. Willower, professor of education, has won the first William Davis Memorial Award for the best paper published in the 15th volume of *Educational Administration Quarterly*. His paper was entitled "Ideology and Science in Organization Theory."

Dr. Richard Anthes, professor of meteorology, has been appointed chairman of an ad hoc committee of the National Academy of Sciences set up to review mesoscale meteorological research in the United States.

Dr. I. S. T. Song, associate professor of materials research, presented an invited paper, "Quantitative Aspects of Outer-Shell Excitation in Ion-Surface Collisions," at the Third International Workshop on Inelastic Ion-Surface Collisions held in Feldkirchen-Westerham, Germany. While in Europe, he gave an invited seminar at the University of Essex, England.

Dr. Wendell V. Harris, head of the Department of English, sent the following announcement:

"In memory of our long-time colleague Joe Rubin, who died Oct. 10, the English Department is collecting donations with which to buy appropriate books for the Library. Anyone interested in contributing should send a check to the Joe Rubin Memorial Fund, c/o English Department, Room 117 Burrows Building."

William I. Lindley, assistant professor of agricultural education, recently returned from the University of Cape Coast, Ghana, where he completed the second phase of a UNESCO mission. Dr. Lindley's assignment included work on the revision of the agricultural education curriculum for the preparation of graduate teachers for secondary agriculture programs.

Dr. Christopher Gibbins, research associate in electrical engineering, recently presented a paper, "New Measurements of Upper Atmospheric Water Vapor Using Ground-Based Remote Sensing at 22.235 GHz," at the 5th International Conference on Infrared and Millimeter Waves, held Oct. 6-10 in Wurzberg, Germany.

Dr. Z. T. Bieniawski, professor of mineral engineering, has been appointed director of the Pennsylvania Mining and Mineral Resources Research Institute at the University. The Institute is one of 31 established in as many states and located at universities with outstanding research and graduate programs in the area of mining and mineral resources. All the institutes are supported by the Office of Surface Mining of the U.S. Department of Interior.

Dr. Helen B. Volz, assistant professor of speech pathology, has been named winner of the College of Education's Outstanding Teaching Award for 1980. She was chosen by the College awards committee for her performance as a teacher and adviser, for her work in developing quality instructional processes, and for fostering professional aspirations in her students.

Burt L. Fenner, professor of music, has received an ASCAP Award for music for the fourth consecutive year. These annual awards from the American Society of Composers, Authors and Publishers are intended to "encourage writers of serious music." Professor Fenner, whose main field of interest is electronic music, has composed a number of works for instrumental ensembles.

Dr. John Tilton, professor of mineral economics, was appointed vice chairman of the Board on Mineral and Energy Resources of the Commission on Natural Resources of the National Research Council. In this capacity, he also serves as chairman of the Commission. He is currently serving as chairman of the Committee on Technical Aspects of Critical and Strategic Materials.

Bookshelf

Dr. Vernon Y. Aspaturian, Evan Pugh professor of political science, is an editor of a book entitled *Eurocommunism Between East and West*, to be published Oct. 31 by Indiana University Press.

Dr. Aspaturian is also a contributor to the volume, which deals with the international significance of

Eurocommunism both for the world-wide communist movement and for pluralistic western-style political systems.

Jiri Valenta and David P. Burke are the two other editors.

In addition to Dr. Aspaturian, two other Penn State professors of political science are among the 14 contributors to the book. They are Dr. Pariss H. Chang and Dr. Trond Gilberg.

The *Library Journal* recommends the book, commenting in a review: "Although the essays vary widely in style, approach, and conclusions, they will be of use to policymakers as well as academicians."

Dr. James Carbarino, associate professor of human development, is the author of *Understanding Abusive Families*, written in association with Gwen Gilliam, a science writer for the Boys Town Center for the Study of Youth Development.

The 263-page volume, published by Lexington Books, D.C. Heath & Co., Lexington, Mass., explores the way the dynamics of abuse shift from infancy to childhood to adolescence.

The book attempts to tell the story of abusive families in a way that will humanize and normalize them. It seeks to make abusive families and the things that go on inside them more comprehensible.

Among the many issues examined is one of the few looks at the problem of abuse involving adolescents.

Promotions

Faculty

Dr. Marcia C. Beppler to assistant professor of agricultural extension.

Staff Exempt

Sally J. Conrad to neonatal nurse instructor at Hershey.

Melinda B. DeVries to systems analyst in Management Services.

Monna R. Hoover to manager, data processing services laboratory in Agriculture.

Andrew Mozenter to area coordinator in Student Affairs.

Patricia T. Parson to manager, utilization review at Hershey.

Barry G. Phelps to programmer in Management Services.

Rita J. Schleser to programmer in Management Services.

Staff Non-Exempt

Nancy A. Cunningham to cardiology technician at Hershey.

Cynthia Filingeri to cardiology technician at Hershey.

Eda M. LeVan to cardiology technician at Hershey.

LaDora H. Papich to cardiology technician at Hershey.

Charlene K. Pontoriero to research technician at Hershey.

Clerical

Beverly A. Keen to secretary C in Agriculture.

Melody D. Lane to secretary C in Human Development.

Jeannie B. Leonard to lead clerk, evening shift at Hershey.

Sarah D. Mattis to secretary C in Science.

Paula K. May to secretary C in Agriculture.

Gloria McNeal to secretary A in Arts and Architecture.

Darlene M. Schaffer to clerk, senior radiology records and billing at Hershey.

Technical Service

William A. Burns to audio technician in UDIS.

Clarence Hardaway to maintenance worker utility at Capitol.

George E. Miller to maintenance worker utility at Capitol.

Clyde T. Perkins to plumber A at Capitol.

Kenneth D. Watson to group leader, janitorial worker at Capitol.

Donald L. Wolf to laboratory technician A at Behrend.

News in Brief

Cultural historian will offer two lectures

Alan Gowans, professor of history in art at the University of Victoria, British Columbia, will deliver an illustrated public lecture, "Learning to Look: the Three Traditions of Art History," at 8 p.m., Thursday, Oct. 30, in Room 105 Forum Building.

Dr. Gowans' lecture is sponsored by the Departments of Geography, Architecture, Art History, and Landscape Architecture and the Institute for the Arts and Humanistic Studies.

The combined sponsorship, according to Dr. Peirce F. Lewis, professor of geography, reflects the wide range of Dr. Gowans' research and writings. He has published books on art history (*Church Architecture in New France and Building Canada*), modern painting (*The Restless Art*), popular arts (*The Unchanging Arts*) and the outline of a theory of history in art (*On Parallels in Universal History*).

His *Images of American Living: Four Centuries of Architecture and Furniture as Cultural Expression* won the Alice Hitchcock Prize for the best book of the year on American art history, and is widely recognized as a standard work in the field of American art and cultural history.

Dr. Gowans taught for 10 years in the Winterthur Program of Studies in Early American Culture and at the University of Delaware, before he left to found the Department of History in Art at the University of Victoria in 1966. He was president of the Society of Architectural Historians (1972-74) and has been visiting professor at the Universities of Edinburgh and Stockholm, and Harvard.

Professor Gowans has increasingly been focusing his attention on vernacular art as a form of cultural expression, and he is now at work on a major revision of his book on North American art history. In connection with that work, he will be a guest at the Geography Department's regular weekly coffee hour, Friday, Oct. 31, at 4 p.m. in Room 101 Walker Building, where he will talk about "Banks as Metaphors of American Cultural Values."

Persons wishing further information about Dr. Gowans' visit should contact Professor Lewis at 665-3433 or 236-1428.

Sociologist to speak at Robeson Center

Black sociologist Dr. Jacqueline J. Jackson will discuss "Still, Where are the Black Men?" on Thursday, Oct. 30, at 8 p.m. in the Paul Robeson Cultural Center.

Dr. Jackson, associate professor of medical sociology at Duke University Medical Center, will be here as part of a gerontology colloquium series on "Adult Development and Aging."

She has published several books and a number of papers and articles on black men and women and the black aged, dealing with such issues as their mental health.

In her talk at the Cultural Center, she will consider current demographic trends pertaining to the socioeconomic status of the black woman.

Dr. Jackson is a graduate of the University of Wisconsin and Ohio State University and has done post-doctoral work at the University of Colorado, Duke University and the University of North Carolina at Chapel Hill.

She has taught at Jackson State University, St. Augustine's College, Howard University and Southern University.

Mozambique chief-of-staff to be honored at coffee hour

Luis Bernardo Honwana, chief-of-staff for Mozambique's President Samora-Machel, will be honored today (Thursday) at a coffee hour from 4 to 5 p.m. in Room 348 Burrows Building.

The hour is sponsored by the

Ann Beattie will present a reading from her works

Ann Beattie, author of the novels *Chilly Scenes of Winter* and *Falling in Place*, will be a guest of the Institute for the Arts and Humanistic Studies Thursday and Friday, Oct. 30 and 31.

She will read from her work at the English Colloquium on Thursday evening at 8 p.m. in Room 101 Kern Building, and during her stay will meet with classes in Advanced Fiction Writing, American Culture of the 1960s and Women Writers.

Her second novel, *Falling in Place*, was hailed in the *New York Times Book Review* as "the most impressive American novel of the season." Richard Locke, in his front-page review, said the book "establishes Ann Beattie not merely as the object of a cult or an 'interesting' young novelist, but as a prodigiously gifted and developing writer who has started to come of age." He noted that she has become "for many readers the representative young American novelist and short-story writer."

A number of Ms. Beattie's short stories have appeared in *The New Yorker*, and they have also been collected in two volumes, *Distortions* and *Secrets and Surprises*.

Orchestra concert Oct. 24

Penn State Symphony Orchestra members have selected three pieces that they performed in rehearsal with the Pittsburgh Chamber Orchestra during its recent residency for their first concert of the season at 8:30 p.m. Friday, Oct. 24, in Eisenhower Auditorium.

Beethoven's "Egmont Overture" will open the program, followed by Dvorak's Symphony No. 8 in G Major, opus 88. A string quartet, double quartet and a full string ensemble will play Vaughan Williams' "Fantasia on a Theme of Thomas Tallis." The program will close with the "Outdoor Overture" by Aaron Copland.

The Penn State Symphony Orchestra, which presents five to six concerts annually, is composed of 70 musicians from all areas of the University. Dr. D. Douglas Miller, now in his 12th year as a director of orchestras at the University, conducts the group.

Guitar instructor to play

The first campus performance by the School of Music's new guitar instructor, Lawrence Rich, will be presented at 8:30 p.m. Monday, Oct. 27, in the Music Building Recital Hall.

His program includes a Fantasy by John Dowland, one of the great lute composers of the 16th century; J.S. Bach's Third Lute Suite, which the composer transcribed from his own Fifth Cello Suite; Sonata in A Major by Anton Diabelli, a contemporary of Beethoven's; and Sonata by Federico Moreno Torroba, a contemporary Spanish composer.

Mr. Rich, who joined the School of Music faculty this fall, received his B. Mus. and M. Mus. in guitar from the Peabody Institute in Baltimore, where he was a student of Ray Chester and Aaron Shearer. He also spent a year in India studying classical Indian music on the sitar and tabla and studied for a time in Madrid.

Alard offers premiere

The American premiere of "Four Messages for String Quartet" by Marjan Lipovsek, a Yugoslavian composer, will highlight the Alard String Quartet's concert at 8:30 p.m. on Wednesday, Oct. 29, in the Music Building Recital Hall.

The Alard performed the work last summer during their European tour.

The program will include also Haydn's Quartet in C Major, opus 54, No. 2, and a late Schubert work, the Quartet in G Major, opus 161.

(Continued on page 6)

Still another varied week of offerings lies ahead. At top, novelist Ann Beattie who will appear at the English Colloquium Oct. 30. Center, Equity guest artists John Sterling Arnold (left) and Patrick Egan appear in URT's "Sly Fox," opening tonight in the Playhouse. (Ticket information, 863-0381.) Bottom, Charles Freeman will take part in Oct. 30 Major Powers in Asia Symposium.

University's Department of Spanish, Italian and Portuguese and the Bate-Papo Club, a Portuguese group. The public will be welcomed.

Symposium on major Asian powers is Oct. 30

An American and a Soviet diplomat will take part in a symposium on "Major Powers in Asia," to be held at 7:30 p.m. on Thursday, Oct. 30, in Room 112 Kern Graduate Building.

The symposium will feature three panelists — Charles W. Freeman, director of the State Department's Office of The People's Republic of China and Mongolian Affairs; Trifonov, counselor of the USSR Embassy in Washington; and Dr. Stanley Kochanek, professor of political science at the University.

Dr. Parris Chang, professor of political science, will chair the symposium, which is being sponsored by the University's East Asian Studies Committee and Asian Area Studies Committee. The public is invited.

In addition to participating in the symposium, Mr. Freeman will also speak on American policy toward China earlier in the day at 11:15 a.m. in Room 69 Willard Building. Interested students and faculty members are welcome to attend.

Mr. Freeman was educated at the National Autonomous University of Mexico, Yale University (A.B., magna cum laude), the Harvard Law School (J.D.), and the Foreign Service Institute. After joining the Foreign Service in 1965, he was assigned to India and to Taiwan.

Since 1971, he has worked in Washington in a variety of capacities, including as principal American interpreter during President Nixon's historic visit to China in 1972.

He was also deputy director of the Taiwan Desk, director of the Office of Public Programs, director of plans and management in the Bureau of Public Affairs in the State Department, director of program coordination and development for the International Communication Agency, and deputy United States coordinator for refugee affairs. He became director of the State Department's China Desk in July 1979.

Mr. Trifonov, born in Kiev, USSR, is a 1961 graduate of Moscow State Institute for International Relations. He was assigned to the Soviet Embassy in Peking twice, from 1961 to 1964, and from 1965 to 1971. He has been the counselor of the Soviet Embassy in Washington since 1974 and is currently in charge of political reporting on Asian affairs at the Soviet Embassy.

Minister's talk on TV preachers

The validity of television evangelists and the "electronic church" will be discussed by The Rev. Dr. William F. Fore, assistant general secretary for communication of the National Council of Churches, tonight (Oct. 23) at the University.

Dr. Fore, a Methodist minister and an outspoken critic of the religious network programs which seem to be replacing local churches, will talk about "The Electronic Church" at 8 p.m. in the HUB Main Lounge.

University Park Calendar

Oct. 23
Nov. 2

Special Events

Thursday, Oct. 23

Fixed date for meetings involving
Commonwealth campus faculty
Kern/WPSX-TV. *Cosmos* series. "Heaven and Hell," noon. Kern Lobby.

Adult Education Brown Bag Luncheon, 12:30 p.m., Room 101 Kern. John Hostler, Univ. of Manchester, on "Adult Education in England."

Policy Research & Evaluation/Economics
Lecture, 1:30 p.m., Room 112 Kern. William D. Carey, AAAS, on "National R&D Policy and American Economic Growth."

Dedication ceremonies for Human
Development East Bldg., 3:20 p.m., main entrance and Nursing Consultation Center.

Spanish, Italian and Portuguese coffee hour, 4-5 p.m., Room 348 Burrows. To honor Luis Bernardo Honwana, chief-of-staff for Mozambique's President.

FSHA 410, modern Greek meal, 5:45 and 6:30 p.m., Maple Room, Henderson. Reservations, 865-1736.

Cinema/theatre, *The Parallax View*, 7 and 9 p.m., HUB Assembly Hall.

French Dept., Compagnie Bernard Uzan, Boston, in *Voltaire's Candide*, 7:30 p.m., Schwab English Colloquium, 8 p.m., Room 101 Kern. Stanley Fish, Johns Hopkins Univ., on "Short People Got No Reason to Live: Or, How to Recognize Irony When You See Or."

Religious Affairs lecture, 8 p.m., HUB Main Lounge. The Rev. Dr. William F. Fore, National Council of Churches, on "The Electronic Church."

Friday, Oct. 24

Fixed date for meetings involving
Commonwealth campus faculty.

Geography Dept. Coffee Hour, 3:45 p.m., Room 319 Walker. Hays Kamigaki, agricultural economics, on "The Effect of Nuclear Power Plants on Nearby Property Values."

Commonplace Theatre, *Lord Jim*, 6:30 and 9 p.m., Room 112 Kern.

GSA film, *All About Eve*, 6:30 and 9 p.m., Room 105 Sparks.

SFO film, *The Producers*, 7 and 9 p.m., HUB Assembly Hall.

Sports: soccer vs. Navy, 7:15 p.m.
University Symphony Orchestra, Douglas Miller, conductor, 8:30 p.m., Eisenhower Auditorium.

Saturday, Oct. 25

Fixed date for meetings involving
Commonwealth campus faculty.

GSA film, *All About Eve*, 6:30 and 9 p.m., Room 105 Sparks.

France-Cinema, *The Seventh Seal*, 7 and 9 p.m., Room 112 Kern.

Artists Series, Goldovsky Grand Opera Theater, *The Barber of Seville*, 8:30 p.m., Eisenhower Auditorium.

Sunday, Oct. 26

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Robert Boyer, United Methodist, PSU, speaker.

Shaver's Creek Nature Center, 10,000-meter open and two-mile fun run, 2 p.m., Stone Valley.

Open reception for Jackie Battenfield fiber exhibit, 3-5 p.m., School of Visual Arts Zoller Gallery.

Commonplace Theatre, *Lord Jim*, 6:30 and 9 p.m., Room 112 Kern.

GSA film, *The Seventh Seal*, 7 and 9 p.m., Room 105 Sparks.

Monday, Oct. 27

First day to sign Winter Term NDSL and University Long Term Loans, Room 108 Shields.

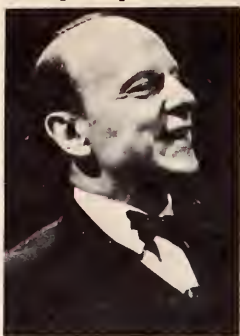

Last date for Nov. graduates to deliver thesis to Graduate School, for Departments to certify to Graduate School completion of required papers for Nov. graduates.

STS/TCD, lunch, noon, presentation, 12:20 p.m., Room 101 Kern. George W. Brindley, mineral sciences emeritus, on "Some Observations on Contrasting Systems of Education."

Alard String Quartet recital, 12:45 p.m., Room 112 Kern.

France-Cinema, *The Seventh Seal*, 7 and 9 p.m., Room 112 Kern.

Troupe to present "The Barber of Seville"

Boris Goldovsky

When Gioacchino Rossini's *opera buffa*, *The Barber of Seville*, is presented at the Eisenhower Auditorium on Saturday, Oct. 25, at 8:30 p.m. by the Goldovsky Grand Opera Theater, the audience will have no difficulty in following its merry, madcap characters through their intrigues and adventures. It will also be able to savor the subtleties of the famous Beaumarchais comedy on which Rossini and his librettist, Cesare Sterbini, founded their masterpiece.

For, like all of the 32 operas in the Goldovsky Company's active repertoire, *The Barber of Seville* has been translated into contemporary idiomatic English—Boris Goldovsky and Sarah Caldwell having collaborated in this case on a new English version of the 156-year old Italian libretto.

Lawrence Rich, guitar recital, 8:30 p.m., Music Building Recital Hall.

Tuesday, Oct. 28

Red Cross Bloodmobile, 10 a.m.-4 p.m., Walnut Bldg.

Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 204 HUB. Diane Hume George, English, Behrend, on "Feminine Form in William Blake's Poetry and Art."

Sports: field hockey vs. Ursinus, 2:15 p.m.; soccer vs. Shippensburg, 7:15 p.m.

Comp. Lit. Film Series, Pontecorvo, *Battle of Algiers*, 6:30 and 8:45 p.m., Room 112 Kern.

Wednesday, Oct. 29

Red Cross Bloodmobile, 10 a.m.-4 p.m., Walnut Bldg.

Alard String Quartet recital, 12:45 p.m., Room 112 Kern. Concert, 8:30 p.m., Music Building Recital Hall.

Black Film Series, *For Love of Ivy*, 7:30 p.m., Robeson Center.

Colloquy lecture, 8 p.m., Eisenhower Auditorium. Aldo Florescu, expert on Dracula, speaker.

Thursday, Oct. 30

Kern/WPSX-TV *Cosmos* series, "Blues for a Red Planet," noon. Kern Lobby.

Charles Freeman, U.S. Dept. of State, 11:15 a.m., Room 409 Willard, on "U.S. Policy Toward China."

Cinema/theatre, *The Abominable Dr. Phibes*, 7 and 9 p.m., HUB Assembly Hall.

Interdepartment lecture, 8 p.m., Room 105 Forum. Alan Gowans, Univ. of Victoria, British Columbia, on "Learning to Look The Three Traditions of Art History."

Sponsored by Geography, Architecture, Art History, Landscape Architecture and IAHS.

English Colloquium, 8 p.m., Room 101 Kern. Ann Beattie, novelist, reads from her works.

Major Powers in Asia Symposium, 7:30 p.m., Room 112 Kern. Charles W. Freeman, U.S. Dept. of State, Trifon Trifonov, USSR Embassy, Washington; Stanley Kochanek, political science, and Parrish Chang, political science, moderator.

Linguistics/Slavic Languages lecture, 8 p.m., Room 251 Willard. Henry Homigswalk, Univ. of Pa., on "American and European Linguistics."

Penn State Thespians, Comden and Green, *Bells Are Ringing*, 8 p.m., Schwab.

Robeson Center lecture, 8 p.m., Walnut Bldg. Jacqueline J. Jackson, medical sociology,

It is the conviction of Boris Goldovsky, under whose direction this production of "The Barber" has been readied for its national tour, that when an audience understands everything an operatic cast is singing, it becomes far more critical of the action, stage business and character portrayals, and performers may no longer relax their dramatic standards behind the protective screen of language incomprehensibility. Mr. Goldovsky is known to millions as "Mr. Opera" for his intermission commentaries on the weekly Saturday matinee broadcasts from the Metropolitan Opera House.

Rossini's classic *opera buffa* was a catastrophic failure at its world premiere, due to a variety of hilarious occurrences having nothing to do with the libretto itself—strings of a guitar snapping, a cat walking nonchalantly across the boards, Don Basilio becoming entangled in his robes. The 24-year-old Rossini, who was conducting, fled the house fearing that he was in danger of assassination from the hooting, whistling crowd. The staging problems were soon ironed out, however, and "The Barber" began the popular course from which it has never wavered.

The Goldovsky Opera Theater's presentation, conducted by Boris Goldovsky, employs a company of 50, including 11 principal singers and orchestra, and will be fully staged with the atmosphere of 18th century Seville colorfully created in newly designed sets. Tickets are now on sale at the HUB booth and Eisenhower Auditorium box office, weekdays, from 9 a.m. to 4 p.m. Any tickets remaining will go on sale at the door, beginning at 7 p.m. the evening of the performance.

Duke Univ., on "Black Women—Still, Where Are the Men?"
URTC, Gelbart, adapted from *Volpone*, Sly Fox, 8 p.m., The Playhouse.

Friday, Oct. 31

Last day to sign Fall Term NDSL and University Long Term Loans, Room 108 Shields.

Sports: j.v. football vs. Wesley Junior College, 2 p.m.; soccer vs. SUNY/Binghamton, 7:15 p.m.

Geography Dept. Coffee Hour, 3:45 p.m., Room 101 Walker. Alan Gowans, Univ. of Victoria, B.C., on "Banks as Metaphors of American Cultural Values."

Ag. Student Council, Ag. Hill Festival: dinner, 5:30-7 p.m., Terrace Room; social, 7:30 p.m., HUB Ballroom.

GSA, Halloween Party, 6 p.m., Kern Lobby.

SFO film, *Neame. The Odessa File*, 6:30 and 9 p.m., Room 112 Kern.

Penn State Thespians, *Bells Are Ringing*, 8 p.m., Schwab.

URTC, Sly Fox, 8 p.m., The Playhouse.

Saturday, Nov. 1

Sports: cross-country (men), Coaches Championships, 10:30 a.m.; football vs. Miami, Fla., 1:30 p.m.

France-Cinema, *Sautet. A Simple Story*, 7 and 9 p.m., Room 112 Kern.

GSA film, *The Parallax View*, 7 and 9 p.m., Room 105 Sparks.

Penn State Blue Band, Ned Deihl, conductor, 8 p.m., Eisenhower Auditorium.

Penn State Thespians, *Bells Are Ringing*, 8 p.m., Schwab.

URTC, Sly Fox, 8 p.m., The Playhouse.

Sunday, Nov. 2

Sports: field hockey vs. West Chester, 2 p.m.

Commonplace Theatre, *Wait Until Dark*, 7 and 9 p.m., Room 112 Kern.

GSA film, *The Parallax View*, 7 and 9 p.m., Room 105 Sparks.

Seminars

Thursday, Oct. 23

Ceramic Science, E.R. Fuller, National Bureau of Standards, on "Microchemicals of Crack Growth in Glass and Ceramics," 11 a.m., Room 301 Siegel (new listing).

Mathematics, James Baumgardner, Dartmouth College, on "Games Set Theorists Play," 4

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

p.m., Room 102 McAllister (new listing).
Engineering Science and Mechanics, G. Widera, Univ. of Illinois/Chicago Circle, on "Asymptotic Theories for Anisotropic Cylindrical Sheets," 4 p.m., Room 152 Hammond (new listing).

Friday, Oct. 24

Analytical Chemistry, Paul Longeway, grad. student, on "The UV Photolysis of Methylsilane," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Victor Bondyby, Bell Telephone, on "Spectroscopy of Molecular Ions in Gas and Condensed Phases," 2:30 p.m., Room 333 Whitmore.

Mathematics, A. Ranicki, Princeton Univ., on "Quadratic Forms and Manifolds," 4 p.m., Room 112 Osmond.

Monday, Oct. 27

MC3B, George Todaro, National Cancer Institute, speaker, 4 p.m., Room 101 Althouse.

Tuesday, Oct. 28

MC3B, George Todaro, National Cancer Institute, speaker, 11 a.m., Room 101 Althouse.

Biology, Sam J. McNaughton, Syracuse Univ., on "Grazing Ecology in a Savanna Ecosystem: The Serengeti," 11:10 a.m., Room 117 Borland.

Organic/Inorganic Chemistry, A. Kozikowski, Univ. of Pittsburgh, on "New Methods of the Carboxylate Field and Synthesis of Pseudomoc Acid," 12:45 p.m., Room 333 Whitmore.

Thursday, Oct. 30

Chemistry, John Yates, National Bureau of Standards, on "Spectroscopic Studies of Chemisorption—Forging a Relationship Between Catalysis, Single Crystal Surfaces and Organometallic Chemistry," 12:45 p.m., Room 333 Whitmore.

Air Pollution Control, James J. Reuther, fuel science, on "Synthetic Fuel Combustion-Generated Air Pollution," 2:20 p.m., Room 69 Willard.

Microbiology, James Zechman, grad. student, on "The Ecology of *Pseudomonas aeruginosa* in Natural Soil," 3:35 p.m., Room 5-2 Frear.

Engineering Science and Mechanics, T. Trybala, Aberdeen Proving Grounds, on "New Mathematical Techniques in the Government Test and Evaluation Community," 4 p.m., Room 152 Hammond.

Mathematics/Physics, Huziuro Araki, Kyoto Univ., on "The C*-Algebraic Approach to Quantum Field Theory and Statistical Mechanics," 4 p.m., Room 102 McAllister.

Statistics, William DuMouchel, MIT, on "An Empirical Bayes Model for the Computation of Relativities in Automobile Insurance," 4 p.m., Room 60 Willard.

Psychology, Donald G. Burney, Univ. of Pittsburgh, on "The Challenge of Pyschology," 7:30 p.m., Room 351 Moore Bldg.

Friday, Oct. 31

Analytical Chemistry, A.F. Findes, National Science Foundation, on "Chemistry—A Piece of the Pie," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Norman Li, Duquesne Univ., on "Molecular Interactions in Colloid-Derived Liquids," 2:30 p.m., Room 333 Whitmore.

Exhibits

HUB Gallery: Penn State Room "Celebrate Me Home," photographs of Penn State 1861 to present, through Nov. 1.

Kern Gallery: Ann Hettmansperger and Cora E. Lucas, ceramics and poetry, through Oct. 31; "First of Ten" group exhibit, opens Oct. 26.

Museum of Art: European paintings and contemporary prints from the permanent collection. The Art of the Needle: 18th to 20th century American works from the permanent collection, opens Oct. 26.

Patter Library: Founding a University. The Pennsylvania State University's 125th Anniversary, through Oct. 31; photography by Marc Levey and his students, opens Nov. 1.

East Corridor Gallery: Photographs by Cheryl Levey, Lending Services Lobby. Graphic works by Richard Rutkowski, Main Lobby.

Visual Arts Zoller Gallery: Jackie Battenfield, fiber exhibit, opens Oct. 26.

Penn Staters

(Continued)

25-year chairs

Dr. J. William Holl, professor of aerospace engineering and project engineer in charge of cavitation research at the Applied Research Laboratory, recently received a 25-year service award from the University.

Dr. Holl earned three degrees in mechanical engineering, a B.S. and M.S. from the University of Illinois and a Ph.D. at Penn State in 1958. Starting at the University as a research assistant and then working as a research associate during 1951-1954 and 1956-1958, he conducted hydrodynamics research at ARL. He served in the U.S. Army during 1955 and 1956.

After completing his Ph.D., he became an assistant professor of engineering research and continued his work in hydrodynamics, with primary emphasis in cavitation. In 1959 he left Penn State to become associate professor of mechanical engineering at the University of Nebraska, returning in 1963 as an associate professor of aerospace engineering. He was promoted to professor in 1967.

At Penn State, Dr. Holl has been a member of the University Faculty Senate and the Graduate Council and has been acting head of the Department of Aerospace Engineering and the Fluids Engineering Department of ARL.

Dr. Holl has been active in several professional societies. He was named a Fellow of the American Society of Mechanical Engineers and is currently vice-president of ASME's basic engineering department. He is also an Associate Fellow of the American Institute of Aeronautics and Astronautics.

In 1970, Dr. Holl was a co-winner of both the ASME T. Knapp Award and the ASME Melville Medal. In 1973 he was named the Outstanding Mechanical Engineer of the Central Pennsylvania ASME Section, and in the same year he was honored by the University with the Lindback Award for outstanding teaching. In 1977, ARL presented him with a Distinguished Performance Award for his work exploring all aspects of the mechanism and prevention of cavitation. Last May, the University of Illinois honored him as a distinguished graduate of

Dr. Holl

Professor Kolesar

Professor Gilmore

its Department of Mechanical and Industrial Engineering, and in June he was awarded a Centennial Medallion for service to ASME.

John Kolesar, professor of engineering at Wilkes-Barre, is celebrating his 25th year at Penn State. The first Wilkes-Barre faculty member to be named a full professor, he serves as program chairman for the Associate Degree Programs in Railway Engineering Technology (of which he was co-developer) and Highway Engineering Technology and Surveying Technology (both of which he developed).

Chairman of the Campus's Planning and Development Committee, Professor Kolesar is currently serving his third two-year term as a member of the University-wide Promotion and Tenure Committee. He is a long-time University Faculty Senate member and was a recipient of the annual Hayfield Award of the Wilkes-Barre Student Government as the Campus's outstanding faculty member.

A 1952 graduate of Penn State with a degree in landscape architecture and a minor in civil engineering, Professor Kolesar is a registered land surveyor in Pennsylvania. He did additional academic work in concrete and asphalt design with the U.S. Corps of Engineers. He has authored a number of papers and served as an instructor at Kings College and Cornell University.

Retirements

Herbert C. Gilmore, professor of dairy science extension, will retire Nov. 1 with 35 years of service.

Mr. Gilmore earned his B.S. from Penn State in 1941 and his M.S. from the University of Massachusetts in 1962. He was appointed to the Extension staff in 1945 as assistant county agent in Clarion and Venango counties, transferring to the Extension dairy science faculty in 1946.

Since 1955, he has been in charge of the Pennsylvania Dairy Herd Improvement Association program. Under his leadership, the number of dairy herds enrolled in all Penn State testing programs has increased from 2,319 to more than 5,000 and the cows on test from 52,000 to 271,000. Average yearly milk production for cows on test increased by 5,000 pounds.

Mr. Gilmore instituted the electronic processing of DHIA records statewide. Since 1970, all samples have been tested at a Central Milk Testing Laboratory located at University Park.

In 1976, Mr. Gilmore helped add a new service to the DHIA program — somatic cell testing, which identifies cows with potential mastitis problems. Currently, 30 percent of all herds on test receive this service.

Joseph C. Jones, an electrical and plumbing maintenance mechanic at the

Ogontz Campus, retired Oct. 1. He had been a member of the staff since May 1, 1971.

Elsewhere in Academe

In a follow-up to the 1970 Roosevelt Anderson report, the quality of more than 2,000 doctoral programs in 35 disciplines will be assessed by the National Academy of Sciences under the direction of the Conference Board of Associated Research Councils. Ratings, to be conducted by university faculty members and researchers in industry, will be ready by May 1982.

Public colleges and universities in at least nine states are bracing for next month's balloting as they confront tax cutting proposals which will affect their revenues. Reductions in local property taxes have been proposed in Michigan, Arizona, Iowa, Massachusetts, Nevada, Oregon, South Dakota, Utah, and West Virginia.

Continuing a trend that began in 1968, average Scholastic Aptitude Test scores declined again this year, according to the College Board's annual report. Average verbal scores fell from 427 in 1979 to 424 this year. The average mathematics score declined one point, to 466.

Positive contacts between faculty and students can enhance retention

Editor's note: The following memorandum was prepared by Dr. Norman Freed, associate dean for resident instruction in the College of Science, to accompany a collection of information on advising compiled annually for faculty advisors in the College. INTERCOM is reprinting the memorandum at the suggestion of the Office of the Provost.

The projected decline in the number of 18-22 year olds has forced college officials across the country to pay increasing attention to both the attraction of the most highly qualified undergraduate students and — no less important — their retention. It was to address this latter issue that the Office of the Vice-President for Undergraduate Studies sponsored two recent conferences: "Retention in a Climate of Excellence" (1979) and "The Freshman Year: Creating a Slaying Environment" (1980). In view of the timeliness of this topic and its relevance to the attached materials, I felt that it might be appropriate to summarize briefly some of the issues treated at those meetings.

First, some statistics on retention. Nationally, approximately 50% of those students who enter college in a given year will graduate within five years. At Penn State, the comparable figure is 60%, a rate similar to that at other land-grant institutions. Of those who enter a typical class at Penn State, 82% reenroll as sophomores, 72% as juniors, 65% as seniors, and 60% graduate by the end of

the fifth year. It is clear that 45% of the attrition occurs during the freshman year, a finding which motivated the second conference.

Who drops out? There seem to be five factors affecting persistence, not all of which are independent.

- 1) **Attitudinal factors** — dropouts are found to be more impulsive, have less emotional commitment to education, come from families of lower socio-economic status, are less likely to profit from past experiences, and are more lacking in flexibility to deal with changing circumstances than are persisters.
- 2) **Unreal expectations** — the dropout, perhaps abetted by the recruitment office, brings to the campus expectations that are unrealistic and that no college could live up to.

3) **Lack of direction** — the dropout is often academically rootless, with little idea of where he is or where he is heading.

4) **Academic ability** — while it is true that as a rule dropouts do have lower academic ability than persisters, it does not follow that dropouts lack the intellectual capabilities for success. A study of dropouts from several West Coast institutions yielded the result that 75% had entered college with high school GPA's of 3.0 or better and 93% had college GPA's of at least 2.0. At Penn State, it is found that while the frequency of dropping out increases with decreasing academic

potential (as determined by SAT scores and high school GPA), a disproportionately large number of dropouts come from the ranks of the most capable. One is forced to conclude that the convenient rationalization that dropouts are students who never should have entered college in the first place is not consistent with the facts.

- 5) **Student involvement** — this appears to be one of the most critical factors.

According to an expert in the field, "... the more involved a student is in the academic experience, the better that student's chances of persisting." He continues: "... virtually every policy or practice that seems to enhance persistence also increases student involvement. This pattern of effects suggests that as a general operating concept ... universities should strive to encourage students to become involved, to invest more of their time and their physical and psychic energy in the educational process."

Given that there are numerous reasons for students to drop out, most of which we have little or no control over, is there anything that faculty can do to enhance the retention rate? From a Penn State report: "Research data clearly establishes a link between faculty/student relationships and retention ... If there was a common theme running throughout, it was a need for more personalized, individualized attention. Dropouts from the University Park campus emphasized the desire for

more contact with faculty ... " From a Nebraska Wesleyan report: "For a student to remain in college, there must be at least one professor who cares ... " From a Syracuse University study: "There is a progressively more positive association between the amount of informal contact (freshmen) students have with faculty members and their attitudes toward both their academic programs and nonacademic lives ... "

The conclusion derived from these and countless other studies is inescapable: positive contact between faculty and students enhances retention. I doubt that many faculty are aware of the enormous impact — positive or negative — they can and do make on students. Visitors to this office have quite often recalled with obvious pleasure the precise words of an instructor or an advisor with whom they had had a particularly stimulating or helpful discussion years before. On the other hand, the failure of an advisor or instructor to honor office hours or his unwillingness to assist a student with a question or problem are highly upsetting; caustic or denigrating remarks can only be described as devastating.

There is little doubt that most students in the college are receiving the quality of instruction and advice they have every right to expect. We ask the assistance of all faculty in making a good record even better.

News in Brief

(Continued from page 5)

Ag to hold annual festival for faculty, students, staff

Members of the faculty, staff and student body in the College of Agriculture will have an opportunity to become better acquainted at the annual Ag Hill Festival on Friday, Oct. 31.

The evening will start with a dinner in the Terrace Room of the HUB, served from 5:30 to 7 p.m. Ag Student Council members will be on hand as hosts.

Activities in the HUB Ballroom will open at 7:30 p.m. with a series of color slides showing the "lighter" side of faculty, student, and general College activities.

The slide show will be followed by a revised version of the annual M.S. College of Agriculture contest. This year's event will name both a Mr. and Ms. College of Agriculture. Candidates, who have been nominated in advance by clubs and organizations, will compete through an interview process. Winners will represent the College of Agriculture at events held throughout the year.

The evening will be topped off with bingo, and square dancing, run by members of the Campus 4-H Club. Free cider and doughnuts will be served.

Tickets are \$5 for faculty and staff members. They will be available until Oct. 30 through all department offices in the College of Agriculture and in Room 217 of the Agricultural Administration Building. Student tickets are \$3.

Fiber exhibit at Zoller

An exhibition of fiber work by Jackie Battenfield, a 1971 art education graduate of the University, will be on display at the Zoller Gallery from Oct. 26 to Nov. 13. An opening reception for the artist will be held from 3 to 5 p.m. Oct. 26 in the Gallery.

Ms. Battenfield, who is currently teaching at the Rhode Island School of Design, received her M.F.A. at Syracuse, where she held a Ford Foundation grant. She has had several solo exhibitions of her work, and her pieces have also been included in a number of group exhibitions.

Sorry, wrong number

The Delaware County Campus reports that the new network number which they supplied for last week's INTERCOM was incorrect. Please call 361-2111.

Penn State students studying in Tel Aviv

A new agreement between the University and Tel Aviv University is providing an opportunity for Penn State students to study in Israel.

The agreement was signed by President Oswald and Professor Haim Ben-Shahar, president of Tel Aviv University, at a recent ceremony in Israel.

Details of the agreement were worked out over the past 18 months by Penn State's Office of Foreign Studies and officers of Tel Aviv University.

Six Penn State students are already studying in Tel Aviv. Students may choose either one semester or one-year programs in subjects including liberal arts and sciences, Judaic studies, Middle Eastern studies, humanities, Hebrew, psychology and archaeology.

They also participate in tours of the country, field-trip seminars on subjects such as the kibbutz and the development towns, and discussion seminars with Israeli youth. They live in dormitories and room with Israeli and foreign students.

Students may also opt to participate in a community involvement program in which they can establish a "big brother" relationship with children from disadvantaged neighborhoods.

Nobel Prize

(Continued from page 1)

innovation within a framework erected from his suggestions. While he is certainly

demanding in that he monitors very carefully his students' progress, he's also a very warm person, and it's apparent at once that his students feel very close to him.

Because of his prominence as a researcher and his genuine concern for the societal impact of his area of research, Paul Berg has been called on to help formulate guidelines for DNA research. Characteristically, he has tried to balance carefully his concern that scientists be able to work freely and his worries over federal and industrial restriction on the flow of information.

The members of the Department of Biochemistry at Stanford (which includes another Nobel laureate, Arthur Kornberg) are very close; it's truly a scientific community characterized by enthusiasm for science, an unusual spirit of cooperation and, despite their prominence, a lack of pretentiousness that infuses all members. The natural tension between faculty and students is quite successfully channeled into their pursuit of solutions for the challenging problems they face in this area of molecular biology.

Restrictions lifted

(Continued from page 1)

to release the other half on or before January 5, 1981," he said.

"The actions that were taken during the prolonged period of financial uncertainty," he added, "were necessary to preserve the University's fiscal integrity. I appreciate the full cooperation and patience of all involved."

Behrend College

(Continued from page 1)

Some of the work shop participants will serve on an Advisory Committee to assure that the programs which are developed meet the needs of students and potential employers.

Additional workshops will be held annually. Dr. Shull said, "to enable the industrial, commercial and public service communities to contribute and participate in the development of our programs."

The next step in the project will be a commissioned survey of national energy-environment work force needs and the potential employment market.

Another year will be spent in preparing curricula, and, following University approval and the development of resource material, the program will begin operations. The target date is September 1982.

Dr. Shull will serve as project director; associate project director will be Dr. Edwin C. Masteller, associate professor of biology at Behrend.

Libraries

(Continued from page 1)

University of Iowa, Rutgers University, Brigham Young University, Colorado State University, Brown University, Cornell University, Johns Hopkins University, New York University, Northwestern University, Tulane and the American Antiquarian Society.

To maintain the flexibility of its operations, RLC plans to limit its membership to a maximum of about 50 institutions, Dean Forth says.

Access to the collections of RLC members will be through the Research Libraries Information Network (RLIN). RLC will furnish Penn State with computer terminals to enable the University to plug into the RLIN data base. Participation in the various programs will be phased in as staffing and equipment become available.

"RLIN is a mechanism for shared cataloging, ultimately reducing participating libraries' operating costs," Associate Dean Murray S. Martin comments. "Librarians and scholars will be able to search a machine-readable data base including not only their own library's card

catalog but also the catalogs of the other member institutions and that produced by the Library of Congress.

"While our users will not necessarily be aware of major changes, membership in RLC gives us access to collections numbering more than 55 million volumes, and many of these collections are unique. RLC members are pledged to give priority to one another's interlibrary loan requests, to lend certain materials which normally would not circulate and to expedite delivery and return of loaned materials. No charge will be made for interlibrary loans. Also, on-site access to member library collections is available."

Researchers can search the catalog by personal name, corporate name, title and subject heading, just as with a conventional catalog. In addition, RLIN users can search by Library of Congress card number, local call number, International Standard Book Number (ISBN), International Standard Serial Number (ISSN) and several special indices for films, maps, sound recordings, music scores and serials.

"For the last few years, Penn State has been affiliated with the Ohio College Library Center (OCLC)," Dean Forth notes. "OCLC is, in effect, a private utility with whom we contracted for cataloging services, paying for the use of their data base and for catalog cards. The data base met about 60 percent of our cataloging data needs, and we contributed original cataloging data ourselves."

"Beginning in 1981, however, we will use computerized instead of catalog cards for recording the materials in our collections, and OCLC will no longer be responsive to our needs, although we do plan to maintain some link with it to facilitate interlibrary loan."

"While many of the member institutions served by OCLC are small public libraries, RLC was established solely to serve the needs of research libraries. In addition to providing shared access to research materials, it will promote the development of cooperative programs in collection development so that members do not go out and duplicate expensive, highly specialized materials. Member libraries will also cooperate in developing special collection emphases."

"Preservation of existing materials is another RLC concern," Dean Forth continues. "The New York Public Library, for example, estimates that as many as a million of the books in its collection are being reduced to sawdust because of the high acid content of the paper on which they were printed."

Dean Forth and Dean Martin point out that in the future research libraries will probably participate in a number of networks such as RLC and OCLC, "using them in slightly different ways to try to hold internal costs steady."

"When telephone service began," Dean Forth points out, "there were a host of private companies competing savagely for a share of the profits from this new invention. The resulting splintering of service was so inefficient that a national network evolved."

"Compatibility among computerized library systems is certain to develop also as the state of the art progresses."

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Term of the class schedule and bi-weekly during the summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-170

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1287 (network line 475, 1387). Applications for these staff vacancies will be accepted until 5 p.m., Oct. 30, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (a) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT MANAGER, HOUSING AND FOOD SERVICES, HAZLETON CAMPUS Responsible to Manager, Housing and Food Services—Commonwealth Campuses for assisting in supervising the overall operation of the Housing and Food Service units. Associate degree in institutional management or equivalent, plus two years' related experience in food supervision.

APPLICATIONS PROGRAMMER/ANALYST, OFFICE OF PLANNING AND BUDGET Together with the Lead Applications Programmer/Analyst, conduct analyses of data processing and customer data, problems and needs. Develop and implement solutions for solving problems and prepare computer programs and systems to achieve desired end results. Baccalaureate degree or equivalent experience in computer systems. Two to three years of effective experience in computer programming and analysis required. Knowledge of PL/I and/or Cobol programming languages and structured programming techniques is helpful.

LEAD SYSTEM DEVELOPER, INTERCOLLEGE RESEARCH PROGRAMS Responsible to the Manager of the Systems Development Group in the Computer Center for providing technical leadership and coordination of the development of major enhancements of computer operating systems, major modifications of externally available system software and development of complete systems. Generates and researches proposals for new operating system programming and system development on large IBM system. Demonstrable technical leadership ability.

SENIOR SYSTEM DEVELOPER, INTERCOLLEGE RESEARCH PROGRAMS Responsible to the Manager of the Systems Development Group in the Computer Center for the development of major enhancements of computer operating systems, modification of externally available system software, and the development of computer subsystems. Generates and researches proposals for new operating system enhancement projects. Master's degree in computer science or equivalent, plus minimum of two years effective experience in system programming and system development on large IBM system or bachelor's degree (or equivalent) plus four years of effective experience.

SYSTEMS DEVELOPER, INTERCOLLEGE RESEARCH PROGRAMS Responsible to the Manager of the Systems Development Group in the Computer Center for the development of significant enhancements of computer operating systems, modification of externally available system software and the development of components of major subsystems. Bachelor's degree in computer science or equivalent, plus one year's directly related experience in system programming and system development on large IBM system.

ADMINISTRATIVE ASSISTANT, INTERCOLLEGE RESEARCH PROGRAMS Manage office of the Director, assist with all budgetary matters including planning and implementation, responsible for University general budget; assist in preparation and processing of research proposals, including budget preparation, administer expenditures of miscellaneous funds in compliance with restrictions as outlined in proposals as well as specific agency guidelines; determine appropriate budgetary distribution of salaries, supervisory and student staff; B.S. degree (or equivalent) with accounting and bookkeeping background. Must have experience with University forms and accounting system, as well as experience with grants, contracts, and processing research proposals. One to two years' effective experience required.

ASSISTANT FOOD SUPERVISOR, HOUSING AND FOOD SERVICES, CAPITOL CAMPUS Responsible for assisting in the supervision of Dining Hall operations. Bachelor's degree or equivalent, with 12-24 months' effective experience in food service, required.

SENIOR RESEARCH TECHNOLOGIST, INTERCOLLEGE RESEARCH PROGRAMS Conduct research in biochemical toxicology; should have experience in any of the following areas: drug metabolism, antioxidant defense mechanisms, enzymology, membrane biochemistry. B.S. with several years of research experience or M.S. with lab experience in biochemistry. First Term 1 position available 1U/1U. Position to be funded to Oct. 31, 1982. Possible renewal of funding.

Penn State Intercom

To: The Penn State Community
From: John W. Oswald, President of the University

In September I advised the University community that I was inclined to the view that Penn State should adopt an early semester calendar, probably to be effective in the Summer of 1984. As discussions about a calendar change ensued, a few common questions emerged. In this letter I would like to address those questions. Why are we considering a calendar change now?

First, the current term calendar was instituted in September, 1975, to continue to July, 1983. If we are to make any changes in the calendar, we need sufficient lead time for the change over. Second, there appears to be substantial dissatisfaction with the current Penn State calendar. That sentiment was expressed on a number of occasions as faculty and staff members prepared *A Perspective on the '80s*. I have received many expressions of support for a semester calendar. Third, the Penn State calendar, so different from other institutions in Pennsylvania and adjacent states, creates problems of transfer and interchange. Finally, a calendar change provides a welcome opportunity, perhaps a mandate, to reexamine, restructure, and revitalize the courses, programs, and services of The Pennsylvania State University.

Has the decision on the calendar change already been made?

No. As I stated in September, I'm inclined toward an early semester system. The early semester plan aims to complete all instructional activities and examinations for the Fall semester prior to the December holidays. During the last decade, that type of calendar has grown in importance so that it is now used by the majority of reporting institutions. While predisposed to the early semester calendar, I am open to persuasive evidence and data against that system and for an alternative or for the status quo.

Why do you favor the early semester system?

Like many faculty members, I believe that the early semester calendar will improve the quality of the educational experience at Penn State for students and professors alike. A semester system should permit a more comprehensive coverage of course material in a more deliberate and less hurried manner. There should be added opportunities and more time for written assignments and research projects, crucial elements of the instructional process. There should be more time for students to develop, for ideas to ferment, and for concepts to take hold.

In concert with these educational advantages, the University will realize some economic efficiencies as we reduce the number of registrations, graduations, and various cost items associated with start-up and wind-down.

Finally, I believe that the reexamination and revitalization of the total

University are desirable and necessary. Such a process could, of course, be done in the absence of a calendar change but the necessity to do so as a function of calendar change may help account for the fact that periodic calendar change is the pattern, not the exception, in American institutions of higher education.

Won't the calendar change lead to increased workloads for faculty?

In my September letter, I suggested that teaching loads would be a major issue and I am not, therefore, at all surprised to find that this question looms large with faculty members and academic administrators. Because we have some 3,200 faculty members and about 120 degree programs, generalizations are hazardous and absolutes almost impossible. Nonetheless, I do not believe there is any evidence that a calendar change, *per se*, will inevitably increase current faculty workloads.

We are not committed to a conversion formula universally applied — that would be a simplistic and probably ill-advised approach. Rather I would like Penn State to commit to a different goal: to meet in the most effective and efficient way under a semester plan the program obligations of each academic unit. We need to rethink and, perhaps, redesign programs and courses as well as the requirements for each major and each degree. Given the creative talent of our faculty, I'm confident that high quality semester-based programs can be developed which will not require an increased teaching load or an increase in the number of faculty. The issue of workload and manpower utilization is critical; but when the workload question is examined in the context of program reexamination and redesign, there appears to be, as yet, no evidence that an automatic workload increase is inescapable.

Won't the new calendar impede the research programs of the University?

While we must, of course, examine this question carefully, as I recommended in September, I do not think that a calendar conversion, *per se*, will harm the University's research thrust. There are many great research universities on a semester system: Illinois, Indiana, Harvard, Yale, Johns Hopkins, Pennsylvania, University of Wisconsin at Madison, and University of North Carolina at Chapel Hill, to name only a few. From that list I think we can derive a measure of confidence that scholarly research and a semester system are not inherently incompatible. The semester system does work at research universities; we need to make the system work at Penn State.

I hope this letter answers some of the questions that have been posed and clarifies some of the confusions that may have arisen. On a matter as complex as a calendar change, there will always be some questions and some disagreement. I shall attempt to do all that I can to help answer those questions and resolve those disagreements as we work toward the common goal of academic excellence.

Historian serving as consultant to National Gallery

As far as the National Gallery of Art is concerned, Penn State historian Eugene N. Borza is a scholar with the right subject at the right time.

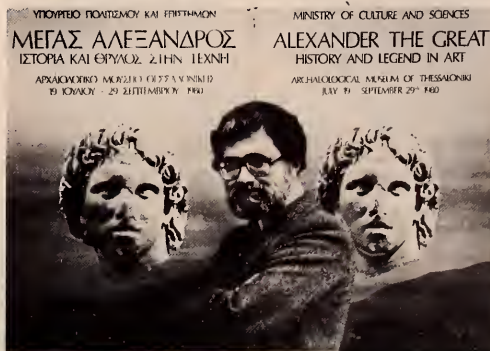

That's why they've asked him to serve as historical consultant for their blockbuster exhibition — "The Search for Alexander" — scheduled to open in Washington, D.C., on Nov. 16.

But Dr. Borza actually came to his interest in the world conqueror and ancient Macedonian history by arriving at the wrong place for the wrong subject.

"I'd taken a criminology course in college from a sociology professor who was a very good lecturer, and I signed up for a second course from him," Dr. Borza recalls. "But when I went to the first class, there had been a room switch, and I wound up listening to a lecture on Roman history. The professor was interesting so I stayed, and by the end of the course I knew I wanted to study ancient history. I did my doctoral dissertation on Alexander."

Although he died at the age of 32 in 323 B.C., Alexander has continued to fascinate both scholars and the public down through history. According to Dr. Borza, a street-survey conducted by the National Gallery found that roughly 90 percent of the people queried had heard of Alexander — even though many were unable to say where or when he had lived.

The National Gallery expects the exhibition, which has been lent by the Greek Government, to be second in drawing power only to Tutankhamen's. (The show will travel to Chicago, Boston,

Dr. Borza with posters from "Alexander shows" held earlier in Greece and London.

San Francisco, Toronto, New York and New Orleans over the next two years.)

Why does the fascination with Alexander continue?

"Pure romance," Dr. Borza says. "He combines the instincts of a Macedonian warrior with those of a man thoroughly imbued with Greek culture. After all he was a pupil of Aristotle. Add to this the most amazing series of conquests in ancient history — he led his armies as far as India and back — and the fact that he died before he reached the age of 33, and you

have the stuff of legends. He's probably the most famous secular figure in the history of the world."

Dr. Borza is one of two consultants for the exhibition, which is also drawing on the expertise of an art historian who is an authority on ancient sculpture and minor arts. The Penn State professor's role is to provide wall texts describing the history, topography and archaeology of the Macedonian world, to develop maps and other visual displays, and to act as a

Renaissance benefit honors Eric Walker

Dr. Eric A. Walker, president emeritus of the University, will be honored at a banquet at Gatsby's in State College on Tuesday, Nov. 18.

The event will benefit Penn State's Renaissance Fund, which provides scholarship aid for "the brightest among the neediest students."

Renaissance Scholars receive \$750 per year as a supplement to earnings, savings, family aid, grants and loans. The fund aids some 100 students each year. In the last 10 years, the fund has provided more than \$450,000 to needy students.

Created during Dr. Walker's term as president, the fund seeks a rebirth of the Land-Grant ideal of providing educational opportunities for all who are qualified.

Previous Renaissance Fund dinners have honored former Mayors Jo Hays of State College, Dr. John H. Light of State College, and W.K. Ulerich of Clearfield.

The Nov. 18 banquet will begin with cocktails at Mr. C's at 6 p.m., followed by dinner at Gatsby's at 7 p.m.

Tickets cost \$15 for each person. Donations for the Renaissance Fund (which are not required to attend the event) may be made in the following categories:

Contributor, \$50, associate, \$100; patron, \$200; sponsor, \$500; angel, \$1,000.

Tickets may be obtained by calling Irv Kachel, 865-7661.

Penn Staters

Dr. Constantine K. Klorios, assistant professor of mathematics at the Shenango Valley Campus, is one of 18 participants in a research exchange program involving post-doctoral scientists from the United States and the Union of Soviet Socialist Republics. Dr. Klorios is conducting seminars for graduate students and faculty and doing research in algebraic number theory at the University of Vilnius in Lithuania this fall. The exchange program is sponsored by the National Academy of Sciences and its Soviet counterpart.

Dr. George Andrews, professor and interim chairman of mathematics, presented invited talks at Ohio State and John Carroll universities. At the former, he spoke on "Further Aspects of Ramanujan's Lost Notebook" and at the latter, on "Recent Implications of the Work of L.J. Rogers."

James K. Rathmell Jr., professor of floriculture extension, recently presented two invited lectures in England and Scotland. He spoke on "The Changing Scene in United States Floriculture" at The West of Scotland College of Agriculture in Ayr and at the Glasshouse Crops Research Institute in Littlehampton, England. His lectures described greenhouse energy conservation research projects at Penn State.

Abram P. Snyder, professor of community development, has been named winner of the Evelyn R. Saubel Faculty Award sponsored by the College of Human Development Alumni Society. The award is named for Mrs. Saubel of State College, a retired faculty member who has been deeply concerned for the welfare of her students. It includes a \$500 check.

Professor Snyder was chosen because of his commitment to the entire human service field and particularly to serving students. The selection was made by a committee of faculty members, alumni and students.

A Michigan native, who earned bachelor's and master's degrees at Michigan State University, Professor Snyder came to Penn State in 1970 after working in cooperative extension and as a community development specialist at his alma mater. He also served four years as an advisor to the government of West Pakistan.

Dr. Andrew Pytel, associate professor of engineering mechanics, is co-author with Ferdinand L. Singer, professor emeritus at New York University, of the third edition of the textbook, *Strength of Materials*, published by Harper & Row of New York.

The text, written entirely in SI units, is intended for the first course in strength of materials, which is required by many undergraduate engineering curricula. Because the book contains many practical engineering applications, it will also serve as a reference text for engineers in industry.

Appointments

William L. Boyd as professor of educational administration, B.S., U. of Tennessee; M.M., Northwestern U.; Ph.D., U. of Chicago. Formerly associate professor, U. of Rochester.

Robert C.S. Downs as professor of English, A.B., Harvard U.; M.F.A., U. of Iowa. Formerly associate professor, U. of Arizona.

Gordon P. Garmire as professor of astronomy, A.B., Harvard U.; Ph.D., Massachusetts Institute of Technology. Formerly professor, California Institute of Technology.

Harvey B. Manbeck as professor of agricultural engineering, B.S., M.S., PSU; Ph.D., Oklahoma State U. Formerly associate professor, U. of Georgia.

James S. Vrentas as professor of chemical engineering, B.S., U. of Illinois; M.S.,

Ph.D., U. of Delaware. Formerly professor, Illinois Institute of Technology.

Promotions

Staff Exempt

Leanne M. Czekaj to senior physical therapist at Hershey.
Florence S. Fulginiti to manager, Volunteer Services, at Hershey.
Janet L. Hunter to senior staff nurse at Hershey.

Staff Non-Exempt

Patricia L. Gingrich to instructional service specialist at Ogonz.

Clerical

Merrilee L. Barner to accounting clerk in Controller's Office.
Rhonda Frontz to clerk typist A in Arts and Architecture.

Patricia L. Harchak to secretary C in Liberal Arts.

Marie S. Hughes to senior office secretary in Student Administrative Services.

Carol L. Jones to secretary Bin Science.

Patricia McMullen to secretary Bin Health, Physical Education and Recreation.

Carol A. Watson to senior clerk in Libraries.

Tamara W. Werner to secretary Bin Continuing Education.

Linda S. Zeleznick to clerk typist A in Science.

Technical Service

Jack H. Phillips to janitorial worker at Delaware County.

Staff development

Twenty-five clerical employees have completed the University's six-week Clerical Enrichment program. They are:

Lois Annechinn-Moore, technical secretary C, IRP; Tracey Adams, clerk typist B, Personnel Administration; Kathy Bailey, accounting clerk, Science; Romayne Bernitt, secretary C, Science; Phyllis Bloom, clerk typist B, Mathematics; Phyllis Boone, clerk typist A, Liberal Arts; Vera Carson, clerk typist A, Earth and Mineral Sciences.

Linda Cartwright, publications clerk B, Education; Jo Ann Dreibeis, secretary C, Education; Bonnie Hand, records clerk A, Human Development; Glenda Kellogg, secretary C, Pattee; Marion Kent, clerk A, Pattee; Peggy Kresovich, secretary C, Education; Diane Lisko, clerk A, Public Information; Shirley Meek, clerk typist B, Agriculture.

Michelle Robison, clerk typist B, Education; Daisy Romig, file clerk B, Graduate School; Barbara Ruff, technical secretary C, ARL; Janelle Siegel, clerk A, Pattee; Tamela Thal, receptionist A, Education; Viola Walters, clerk typist B, Agriculture; Dana-Dell Whitbread, clerk A, Business Services; Cathy Whitten, data processing clerk A, Housing and Food Services; Marion Wilks, secretary C, IRP; Lisa Zettle, records clerk A, Registrar.

25-year chairs

Donald H. Ford, professor of human development, and Janice C. George, assistant professor of home management, have been awarded chairs for 25 years of service to Penn State.

Dr. Ford, who served as dean of the College of Human Development from 1967 to 1976, came to Pennsylvania from Kansas State University, where he had earned degrees in mathematics and psychology. His Ph.D. in psychology was granted by Penn State in 1956.

Dr. Ford served as supervisor of the Psychological Clinic, as assistant director and later director of the former Division of Counseling, and as director of both University Placement and the Office of International Students. He was also President Eric Walker's special assistant for federal affairs. Dr. Ford is presently professor of human development in the College's Individual and Family Studies program.

Top row, from left: Donald Ford, Ralph Seeley, Richard Zimmers, David Patterson. Bottom row, from left: James Rishell, Janice George, George Gurney, Harold Sargent.

Mrs. George came to Penn State from Malvern, Ark., as a graduate student in the former College of Home Economics and received her master's degree in home management studies. She was appointed to the faculty in 1955 and taught in the Department of Family Economics and Home Management. From 1960 to 1972 she also supervised the College's Home Management Houses, where students carried out practicum responsibilities.

Following the reorganization of the College into the College of Human Development, Mrs. George assumed responsibilities as coordinator of academic activities for the Individual and Family Studies program. In addition, she supervises the staff support system for this program.

The Applied Research Laboratory has presented 25-year awards to Ralph Seeley and George Gurney, both assistant professors of engineering research; David Patterson, senior designer of electromechanics; James H. Rishell, engineering aide; and Richard Zimmers, group leader mechanic.

When Mr. Seeley came to Penn State in November 1955, he expected to get his master's degree and move on. But his wife found the area so beautiful that they decided to set down their roots and 25 years later, Mr. Seeley doesn't regret the decision. He likes the "mix of rural living and center city sophistication."

At ARL, Mr. Seeley designs and evaluates electronic design systems for military programs. He holds a B.S. in electrical engineering from Duquesne University and received his M.S. in the same field in 1960 from Penn State. Electrical engineering, he says, is one of today's "most competitive fields" where everything changes so quickly that one is forced to continue learning. "The degree of sophistication rises daily."

A strong environmentalist, Mr. Seeley was one of the founding members in 1964 of the Land-Use Commission in Halfmoon Township, his home. He has also held positions on the Centre County Regional Planning Commission, including three years as its chairman.

Mr. Seeley loves to sail off the coast of Maine and is thinking of building his own 20' sailboat in a few years. He is also advisor to the Cross-Country Ski Division of the Penn State Outing Club.

After 25 years, George Gurney believes that working at Penn State is better than any job he could have had in industry. There is so much "more initiative here," he says. For example, he was able to design a bike pedal that measures the pressure put on it for the Biomechanics Lab., in addition to his regular job of designing force measuring balances for undersea ordnance systems in ARL.

Mr. Gurney started working at Penn State in August 1955 after earning his B.S. in mechanical engineering at the University of Illinois. When he decided to get his master's degree from Penn State, he assumed he would move into industry

upon graduation, but he, too, found State College so attractive that he decided to stay.

He and his wife, Virginia, have two children—Susan graduated from Penn State in theatre arts and David is a Penn State sophomore in engineering science.

In his spare time, Mr. Gurney likes to build and fly radio-controlled airplanes in the fields around Beaver Stadium.

David Patterson grew up and still lives in Milroy. Although he left Pennsylvania to serve as a draftsman in the U.S. Navy's Pacific Fleet during WWII, he returned to Penn State to get a B.S. in commerce and finance in 1951. He had two years of engineering classes before switching to his final major, and now he designs and develops undersea ordnance systems for the Navy.

Mr. Patterson and his wife, Grace, have four children, all of whom graduated from Penn State. "Being able to work for my children," he says, "has made my many years here enjoyable." He is a Notary Public and was a part-time Justice of the Peace in Arma Township for 18 years. To relax, Mr. Patterson enjoys coin and stamp collecting. He's a real Penn State football fan, too—he wears in the senior/grad section of Beaver Stadium—a job he has held for 20 years.

James H. Rishell graduated in the first class of the Altoona Campus. He came to University Park in 1955 after receiving an associate degree in electrical technology.

During his years at Penn State, Mr. Rishell has done quite a bit of traveling. He spent some months in Washington State and went off for a year's sabbatical to Key West, Florida. He has also gone to sea for the Lab.

Mr. Rishell lives in Julian RD with his wife, Fay, and their three children. He enjoys hunting and fishing and has been supervisor of the Centre County Regional Planning Commission.

Richard Zimmers started working for Penn State even before he had graduated from State College High School. He took part-time job in agricultural research until he earned his diploma, after which he became a full-time machinist.

Mr. Zimmer's wife, Linda, is a library assistant in the Architectural Reading Room. They have a daughter, Stacy, who swims for the Bellefonte YMCA swim team. The Zimmers enjoy going to Stacy's away-meets and camping in Central Pennsylvania and New Jersey.

"Painstaking accuracy" is essential in Wayne Kern's job, according to supervisor Irene Wernstedt. As a senior clerk, Serials Invoice in Pattee, he works with large columns of figures and operates a computer terminal updating accounts daily. "Mr. Kern does the invoicing for the 13,500 titles of periodicals and serials to which the Libraries subscribe," Ms. Wernstedt says, "and he corresponds with publishers and vendors all over the world."

Mr. Kern began his 25 years of

(Continued on page 3)

Arts Roundup

Soprano Suzanne Roy to present recital Nov. 3

Soprano Suzanne Roy, an assistant professor of music, will present her first recital of the season Monday, Nov. 3, at 8:30 p.m. in the Music Building Recital Hall.

Compositions by Franz Schubert, Hugo Wolf and Edvard Grieg, Claude Debussy and Bela Bartok comprise Professor Roy's program. She will be accompanied by pianist Steven Smith, an associate professor of music.

Professor Roy received her B.Mus. and M. Mus. from the University of Michigan and her Ph.D. in musical arts from the University of Wisconsin at Madison.

Ossie Davis, Ruby Dee to perform in Schwab

Actors Ossie Davis and Ruby Dee will bring their theatrical production

"Inside/Out" to Schwab Auditorium on Friday, Nov. 7, at 8:30 p.m., as part of the Artists Series Drama Series.

Miss Dee, most recently seen on television in "Roots: The Next Generation" and in Maya Angelou's "I Know Why the Caged Bird Sings," also has among her many credits the films *A Raisin in the Sun* and *Buck and the Preacher*, the television film *To Be Young, Gifted, and Black*, and the plays *Anna Lucasta* and *Purlie Victorious*, in which she starred. She won an Obie for her role in the play *Boesman and Lena* and a Drama Desk Award for *Wedding Band*.

Ossie Davis's most recent credits include "Roots: The Next Generation" and the motion picture *Hot Stuff* with Dom DeLuise. His numerous stage appearances include *A Raisin in the Sun* and *Anna Lucasta*. He has been seen in many television shows and motion pictures and has directed films, including *Cotton Comes to Harlem* and *Black Girl*. Mr. Davis won an Emmy nomination for his role in *A Piece of the Cake* King.

He is a native of Georgia and attended Howard University.

Married for 32 years, Ossie Davis and Ruby Dee have three children. "Inside/Out" grew out of reading and research they did to share the black experience with their children. The program includes their presentations of African folk tales, slave stories and modern works by writers such as Frederick Douglass, Gwendolyn Brooks, Nikki Giovanni, Ralph Ellison, Robert Frost and Edna St. Vincent Millay.

Tickets to "Inside/Out," as well as to the concert by the Minnesota Orchestra with Neville Marriner conducting, Uta Hagen in "Charlotte," a monodrama based on a play by Peter Hacks, and the Broadway hit musical *Ain't Misbehavin'* will be available at the Eisenhower Auditorium box office from 9 a.m. to 4 p.m. during the Artists Series Election Day sale, beginning Nov. 4. Phone orders will be accepted at 863-0255 on MasterCard and Visa Nov. 5, 6 and 7 only.

Detail from a 16th century Italian hanging.

Medieval embroidery exhibit at Museum

The basic form of the needle has not changed since antiquity, but the uses to which it has been put over the centuries sometimes reach the status of fine art — a thesis the current exhibit at the University's Museum of Art seeks to demonstrate.

Many medieval embroideries, as well as a large number of Renaissance and Baroque pieces, fit current definitions of fine art, according to Dr. Olga Preisner, curator of both the Museum and the current exhibition. "The products of individual masters, these embroideries express cultural and religious ideas," she explains. "They also contain indigenous elements of design and demonstrate highly skilled craftsmanship."

Dr. Preisner points to a Tuscan work from the latter part of the 14th century, lent by the Metropolitan Museum of Art for the show. The monumental piece shows St. Francis receiving the stigmata.

"The architecture of the panel seems to have been influenced by Giotto," Dr. Preisner notes, "and the stitches almost resemble brush strokes. From a distance, it looks like a painting."

Medieval artists often remained

anonymous, and the names of individual embroiderers are unknown. In some cases, the design for an embroidery may have been prepared by a painter while the actual stitching was executed by an embroiderer, who was a member of the same craftsmen's guild.

The earliest — and perhaps the finest — piece in the Museum's cases is an Italian pouch (or forel) of the 14th century, also lent by the Metropolitan. Embroidered in silk and metal thread, the pouch shows scenes from the story of Griselda. Another early work, this one from the first half of the 15th century, is a chasuble from Bohemia, lent by the Cloisters.

The embroiderers of 17th century England are the group best represented in the exhibit; a number of their pieces are from the Museum of Art's permanent collection. "Although most of these works are utilitarian objects," Dr. Preisner says, "they were done with skill and imagination. During this period, the English remained aloof from European influences, but their ladies were poets in space."

Among the examples at the Museum is a striking 18th century Parliament Bag, which was carried by the Lord Chancellor at the opening of Parliament. The bag is decorated with the royal seal and edged with the heads of eight cherubim. It was sent by the Cleveland Museum of Art.

One of the most engaging pieces in the exhibit goes by the unappealing name of "stumpwork." This embroidery, also from Cleveland, frames a mirror, and the figures — a happy couple shown in several scenes and a series of mythical animals — are raised from the surface with padding, rather like a high relief.

Still another piece, again from Cleveland, is an all-over design embroidered in early 17th century England. Garden flowers, snails and butterflies emerge in gleaming pastel silks, arranged neatly in rows.

From the period of Charles I, there is a petit point hanging with six panels, some depicting Biblical scenes — although the characters are portrayed in the dress of the court (Cleveland).

Other exhibits include several

embroidered French skirts of the 18th century, lent by Elinor Merrell, and two charming 18th century American landscapes and a pastoral scene from the landscaper and a pastoral scene from the landscaper du Pont Winterthur Museum and the Boston Museum of Fine Arts. Similar treatment of the foreground, conceived as a series of waves in these scenes, suggests that the embroiderers may have been influenced by some sort of pattern book, according to Dr. Preisner.

The show also contains two samplers, and domestic items such as chair seats, tablecloths, and bedspreads, several lent by local collectors.

While lists of stitches can be found in Roman manuscripts and many Coptic fabrics of the 5th to 8th centuries survive, the earliest European examples date from the Carolingian period. At this time and during the Ottonian and Romanesque eras, the typical embroiderer was a monk or a nun. Dr. Preisner says, Guild centers developed during the Gothic period. Monastic workshops produced items for ecclesiastical wear and for use in religious ceremonies. At the same time, court ladies were stitching splendid ceremonial items for the use of secular lords. Gradually, during the Renaissance, embroidery came into domestic use.

As for materials, wool was employed in the earliest embroidery; later linen and then cotton came into use. Silk was known in Europe in the 6th century, but it was another 600 years before it was widely available.

"The Art of the Needle" can be viewed at the Museum now and until Dec. 21.

Symphonic Wind Ensemble to perform 20th century works

A variety of 20th century works have been selected for the Penn State Symphonic Wind Ensemble's first concert of the season at 8:30 p.m. Wednesday, Nov. 5, in the Music Building Recital Hall.

Selections range from Dmitri Shostakovich's "The Festive Overture" to "Summer in Valley City," a recent composition by Ross Lee Finney of the University of Michigan. The four-movement piece was written about the composer's experiences and musical life in his home town in North Dakota.

Compositions by William Schuman and Gustav Holst and Vittorio Giannini's Third Symphony will be performed also by the group, which is conducted by Smith Toulson, an associate professor of music.

Third annual Blue Bandorama set for Eisenhower Auditorium

The third annual "Blue Bandorama" will be held Saturday, Nov. 1, at 8 p.m. in Eisenhower Auditorium. The concert is one of the events selected to commemorate the University's 125th anniversary.

Performing on the program will be the Marching Blue Band, the Jazz Blue Band and the Symphonic Blue Band. Auxiliary units of the marching band — including the majorettes, the flag line and Blue Sapphire Horn Bowers, the feature twirler — will appear, along with band trumpeters and the H-Los.

The bands will play show music, school songs, marches, light concert selections and some Jazz. Admission is \$1, to be collected at the door.

Dr. Ned C. Diehl, professor of music education, conducts the bands.

Organ recital Oct. 31

The first in a series of three organ recitals by music alumni will be presented by David Billings at 8:30 p.m. Friday, Oct. 31, in the Music Building Recital Hall.

A graduate of the University with a B.Mus. degree, Mr. Billings earned his master's degree at the Eastman School of Music. He is now working on his doctorate at Eastman while serving as organist and choirmaster of St. Mark's and St. John's Episcopal Church in Rochester.

Special Events

Thursday, Oct. 30

Kern/WPSA-TV. Cosmos series. "Blues for a Red Planet." noon. Kern Lobby.
Charles Freeman, U.S. Dept. of State, 11:15 a.m., Room 69 Willard, on "U.S. Policy Toward China."

Cinematheque. *The Abominable Dr. Phibes*, 7 and 9 p.m., HUB Assembly Hall.

Major Powers in Asia Symposium, 7:30 p.m., Room 112 Kern. Charles W. Freeman, U.S. Dept. of State, Victor Trifonov, USSR Embassy, Washington; Stanley Kochanek, political science, and Paris Chang, political science, moderator.

English Colloquium, 8 p.m., Room 101 Kern. Ann Beattie, novelist, reads from her works.

Interdepartment lecture, 8 p.m., Room 105 Forum. Alan Gowans, Univ. of Victoria, British Columbia, on "Learning to Look: The Three Traditions of Art History."

Sponsored by Geography, Architecture, Art History, Landscape Architecture and IAHS. Linguistics/Slavic Languages Lecture, 8 p.m., Room 251 Willard. Henry Hoeningwald, Univ. of Pa., on "American and European Linguistics."

Penn State Theatians, Comden and Green, *Bells Are Ringing*, 8 p.m., Schwab.

Robeson Center lecture, 8 p.m., Walnut Bldg. Jacquelyn J. Jackson, medical sociology, Duke Univ., on "Black Women — Still, Where Are the Men?"

URTC, *Gebari*, adapted from *Volpone*, Sly Fox, 8 p.m., The Playhouse.

Friday, Oct. 31

Last day to sign Fall Term NDSU and University Long Term Leases, Room 108 Shields.

Sports: j.v. football vs. SUNY/Binghamton College, 2 p.m., soccer vs. Wesley/Binghamton, 7:15 p.m.

Geography Dept. Coffee Hour, 3:45 p.m., Room 101 Walker. Alan Gowans, Univ. of Victoria, B.C., on "Banks as Metaphors of American Cultural Values."

Ag. Student Council, Ag. Hill Festival, dinner, 5:30-7 p.m., Terrace Room; social, 7:30 p.m., HUB Ballroom.

CSA, Halloween Party, 6 p.m., Kern Lobby. SFO film, *Neame, The Odessa File*, 6:30 and 9 p.m., HUB Assembly Hall.

Commonsplace Theatre, *Wait Until Dark*, 7 and 9 p.m., Room 112 Kern.

Penn State Theatians, *Bells Are Ringing*, 8 p.m., Schwab.

URTC, *Sly Fox*, 8 p.m., The Playhouse. David Billings, music alumnus, organ recital, 8:30 p.m., Music Bldg. Recital Hall.

Saturday, Nov. 1

Sports: cross country (men), Coaches Championships, 10:30 a.m., football vs. Miami, Fla. 1:30 p.m.

France Cinema, *Suette, A Simple Story*, 7 and 9 p.m., Room 112 Kern.

CSA film, *The Parallax View*, 7 and 9 p.m., Room 10 Sparks.

Penn State Blue Bands in concert, "Blue Bandorama. Ned Deith, conductor, 8 p.m., Eisenhower Auditorium.

Penn State Theatians, *Bells Are Ringing*, 8 p.m., Schwab.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Sunday, Nov. 2

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Stina Anderson, grad. student, religious studies, speaker.

Sports: field hockey vs. West Chester, 2 p.m., Commonsplace Theatre, *Wait Until Dark*, 7 and 9 p.m., Room 112 Kern.

CSA film, *The Parallax View*, 7 and 9 p.m., Room 10 Sparks.

Monday, Nov. 3

Last drop deadline. Last date for prospective graduate students to submit completed application materials for admission to Winter Term 1981 or to apply for permission to resume study in Winter Term 1981.

Alard String Quartet recital, 12:45 p.m., Room 112 Kern.

FSHA Cafeteria, 5:15-6:15 p.m., Maple Room. *Halloween. Also Nov. 4.* No reservations needed.

France Cinema, *A Simple Story*, 7 and 9 p.m., Room 112 Kern.

Black Studies Film, *Xala*, 7:30 p.m., Walnut Bldg.

Interdisciplinary Symposium on Value, 8 p.m., Room 101 Kern. Ralph Condee, English, speaker.

Archaeological Institute of America slide lecture, 8 p.m., Room 111 Forum. David Price Williams, Univ. of Botswana and Swaziland, on "Early Man in Africa." Suzanne Roy, soprano, 8:30 p.m., Music Bldg. Recital Hall.

Tuesday, Nov. 4

Comp. Lit. Luncheon, 12:15-1:15 p.m., Room 204 HUB. John D.C. Buck, English, on "Newberry's Children's Literature and Patent Medicines."

Comp. Lit. Film Series, *Zetterling, The Girls*, 7 and 9 p.m., Room 112 Kern.

Sports: volleyball (women) vs. Pittsburgh, 7 p.m., soccer vs. Lehigh, 7:15 p.m.

Artists Series film, *Babushka Belli, Anna Karenina*, 8 p.m., Eisenhower Auditorium.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Wednesday, Nov. 5

Faculty Women's Club, brown bag lunch/panel discussion, 11:45 a.m., Faculty Bldg. Ann Shu and Munja Banarjee, international students, on "Role and Status of Women in Taiwan and India."

Interlinda, folkdance performance, noon, Kern Lobby.

Alard String Quartet recital, 12:45 p.m., Room 112 Kern.

Black Film Series, *Gone Are the Days*, 7:30 p.m., Robeson Center.

French Dept. lecture, 7:30 p.m., Room 305 HUB. Jean-Pierre Desclaux, Univ. of Paris VII, on "L'Organisation du langage humain: apprehender à travers les langues naturelles."

* 7:30 p.m., Room 112 Kern.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Yachad lecture, 8 p.m., Room 111 Bouckie Y. Rainati, foreign affairs committee. I Am, on "Middle East Update."

Thursday, Nov. 6

Board of Trustees meeting, Keller Bldg. Kern/WPSA-TV. Cosmos series. "Traveller's Tales," noon. Kern Lobby.

ASEE lecture, 12:30 p.m., Room 101 Kern. William S. Adams, electrical engineering, on "An Overview of Interactive Computing at Penn State."

FSHA 410. Polysemin dinner, Maple Room. Henderson Reservations, 865-1736, 8 a.m.-5 p.m.

Cinematheque, *Last Tango in Paris*, 6:30 and 9 p.m., HUB Assembly Hall.

University Readers, *Socrates Wounded*, 7:30 p.m., Room 112 Kern.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Friday, Nov. 7
Board of Trustees meeting, Keller Bldg. Sports: j.v. football vs. Fork Union Military Academy, 2 p.m.

Geography Dept. Coffee Hour, 3:45 p.m., Room 310 Walker. Peter Fletcher, forestry emeritus, on "The Forests of Pennsylvania."

CSA film, *Ryans Daughter*, 6 and 9 p.m., Room 10 Sparks.

Commonsplace Theatre, *Moby Dick*, 7 and 9 p.m., Room 112 Kern.

SFO film, *Mare Bos*, in Monkey Business, 7 and 9 p.m., HUB Assembly Hall.

URTC, *Sly Fox*, 8 p.m., The Playhouse. Artists Series, Ossie Davis and Ruby Dee in *Inside/Out*, 8:30 p.m., Schwab.

Saturday, Nov. 8

Sports: football vs. North Carolina State, 1:30 p.m.

CSA film, *Ryans Daughter*, 6 and 9 p.m., Room 10 Sparks.

France Cinema, *Varde, Le Bonheur*, 7 and 9 p.m., Room 112 Kern.

Interlinda, folkdance performance and teaching, 8 p.m., Room 102 Kern.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Sunday, Nov. 9
University Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Gerald Stump, Episcopal Ministry, PSU, speaker.

Commonsplace Theatre, *Moby Dick*, 7 and 9 p.m., Room 112 Kern.

Seminars

Thursday, Oct. 30

Aesthetics, Criticism and Interpretation Theory Group, Robert Ackerman on "Deconstruction and Criticism," 4 p.m.

Glipin Room, Nittany Lion Inn (new listing).

Ecology, Barry Shetz, MRL, on "Nuclear Waste Management: An Overview," 4 p.m., Room 8 Mueller Lab (new listing).

Philosophy, Dale Evans, philosophy, DuBois, on "Plato: Neither Early nor Middle nor Late," 4 p.m., Room 101 Kern (new listing).

Friday, Oct. 31

Analytical Chemistry, A.F. Fideis, National Science Foundation, on "Chemistry — A Piece of the Pie," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Norman L. Duquesne, Univ., on "Molecular Interactions in Coal-Derived Liquids," 2:30 p.m., Room 333 Whitmore.

Monday, Nov. 3

Plant Pathology, Rosemary Schraer, biochemistry and assl. provost, on "The Biochemistry and Physiology of Administration: An Interpretation of a Metaphor," 3:35 p.m., Room 213 Buckhout.

MCB, Stephen Roth, Univ. of Pa., on "The Cell Surface in Disease," 4 p.m., Room 101 Althouse.

Tuesday, Nov. 4

MCB, Stephen Roth, Univ. of Pa., on "The Role of Cell Surface Glycosyl Transferases in Morphogenesis and Malignancy," 11 a.m., Room 101 Althouse.

Wittgenstein's Vienna, Sabel Knight, history, on "Freud in the City of Dreams," 3:30 p.m., Room 319 Walker.

Man-Environment Relations, Alastair Fraser, meteorology, on "The Mirage, the Green Flash and Theological Optics," 3:45 p.m., Room S-131 Henderson.

Microcomputer Users meeting, 7:30 p.m., Room 189 MRL.

Thursday, Nov. 6

Chemistry, Rold Hoffman, Cornell Univ., on "The Bonding Capabilities of Transition

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Metal Carbonyl Fragments," 12:45 p.m., Room 333 Whitmore.

Art Pollution Control, Archie J. McDonnell, civil engineering and Water Resources Research Center, on "Fate of Pollutants in Aquatic Systems," 2:20 p.m., Room 69 Willard.

Geosciences, Barry Voight, geosciences, on "Mt. St. Helens: Volcanism and Related Geologic Activity," 3:45 p.m., Room 112 Walker.

Microbiology, Patricia Fields, grad. student, on "Inducible DNA Repair and Mutagenesis in *Bacillus subtilis*," 3:55 p.m., Room S-2 Frear.

Fuel Science, A.G. Comelli, Hydrocarbon Research, on "Recent Developments and Status of the H-CO Process," 4 p.m., Room 301 Steidle.

Acoustics, Samuel F. Lyberger, formerly president and chief engineer, Radioear Corp., 4 p.m., Room 73 Willard.

Friday, Nov. 7

Analytical Chemistry, David Suits, grad. student, on "Analytical Chemistry of Sulfur: Predictive and Experimental Aspects," 11:10 a.m., Room 333 Whitmore.

Biology, Richard Mark, Australian National Univ., Canberra, on "Growth and Reorganization of Retino-tectal Connections in Fish," 11:10 a.m., Room 211 East Human Development.

Physical Chemistry, Douglas Ridge, Univ. of Delaware, on "Organometallic Chemistry in the Gas Phase: Ion Cyclotron Resonance Investigations," 2:30 p.m., Room 333 Whitmore.

Exhibits

HUB: Richard L. Crowley, Sr., color photographs and clocks, "30 Years of Political Campaigns," campaign buttons and memorabilia from the private collection of Ernie Weidhaas; LaVie and Penn State Room homecoming exhibits, through Oct. 31.

Art Alley, Mary Cady Rubinstein, recent prints. The Browsing Gallery, Lanny Sommes, color photographs; Ron Gallas, ceramic sculpture. The Gallery.

Kern Gallery: Ann Hettmansperger and Cora E. Lucas, ceramics and poetry, through Oct. 31. "First of Ten," group exhibit; Ann Dering, ceramics, opens Nov. 4, David Welland, wooden boxes, opens Nov. 6.

Museum of Art: European paintings, contemporary prints and 18th to 20th century American works from the permanent collection; The Art of the Needle

Pattee Library: Founding a University: The Pennsylvania State University's 125th Anniversary, through Oct. 31; photography by Marc Levey and his students, opens Nov. 1.

East Corridor Gallery: Photographs by Cheryl Veach, through Nov. 5. Lending Services lobby: Graphic works by Richard Rutkowski, through Nov. 7. Main Lobby: Joseph Rubin, The Bald Eagle Press and memorabilia, through Nov. 1. Rare Books Room.

Kern Gallery: Ann Hettmansperger and Cora E. Lucas, ceramics and poetry, through Oct. 31. "First of Ten," group exhibit; Ann Dering, ceramics, opens Nov. 4, David Welland, wooden boxes, opens Nov. 6.

(Continued from page 2)

employment with the University in Housing and Food Services in 1955. Then he served several years in the U.S. Air Force and returned to Housing and Food Services in 1961. He joined the staff of Pattee in 1968 as a receiving room clerk, his duties involving receiving and distributing books for the Commonwealth Campuses. He later became a clerk A in Periodicals and was promoted to his present position in 1970.

During his off-duty hours, Mr. Kern enjoys sports, particularly keeping up with Penn State football, the Steelers and the Pirates. He also likes to read and does crafts.

Mr. Kern and his wife, Molly, have two children — one son, one daughter. The Kern family presently reside in Centre Hall.

Retirements

Dr. Harold R. Sargent, director of the Shenango Valley Campus since 1967, is retiring Nov. 1.

A native of Union City, Pa., Dr. Sargent is a 1950 graduate of Edinboro State College. He received an M.S. degree from the University of Pittsburgh in 1958 and a doctorate in education from Penn State in 1965.

Prior to his appointment as director, Dr. Sargent served for two years as assistant director at the Campus. Earlier, he was an administrative assistant in the College of Engineering and a graduate assistant with the Educational Services office.

A veteran of World War II, he served in the American Division in the Philippines and received the Purple Heart.

Under his directorship, the Shenango Valley Campus has grown from 85 to more than 900 students. It has made a number of additions to its physical plant, including a new science building and laboratory.

Dr. Sargent has been active in numerous civic organizations, including the Rotary Club, Century Club, United Way and Newcomen Society.

He has served on the Executive Board of the Southwest Pennsylvania Higher Educational Council, as president of the Pennsylvania Association of Two-Year Colleges, and as chairman of the Council of Commonwealth Campus Directors.

Robert E. Tomm will retire from his position as assistant director for Continuing Education at the Shenango Valley Campus on Oct. 31. Mr. Tomm joined the University's staff on Sept. 1, 1963, and has been at the Campus since that time in 1965.

Mr. Tomm holds a bachelor's degree *sum laude* from the University of Pittsburgh and received a master's degree in sociology of education from the same institution in 1971.

He is a member of Alpha Kappa Delta, national honorary sociology fraternity. He also active in a wide range of community activities and is currently chairman of the Sharon General Hospital Home Health Agency Advisory Committee.

Obituary

Dr. Robert A. Conover, an associate professor of engineering at Capitol Campus, died Oct. 22 at the age of 54.

Dr. Conover earned his B.E.E. at Tennessee Polytechnic Institute, his M.S. at Princeton University, and his Ph.D. at Princeton University. Prior to coming to Capitol in 1968, he had worked in industry and as an assistant professor of mechanical engineering at Lafayette College. His major research interests were in the areas of thermodynamics and fluid mechanics, and he served terms as acting chairman and chairman of Capitol's graduate programs in engineering.

Affirmative Action for Vietnam/Disabled Veterans

The University is a government contractor subject to Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974, as amended, which requires government contractors to take affirmative action to employ and advance in employment qualified disabled veterans and veterans of the Vietnam era.

A "disabled veteran" is a person entitled to disability compensation under laws administered by the Veterans Administration for disability rated at 30 per centum or more, or a person whose discharge or release from active duty was for a disability incurred or aggravated in the line of duty.

If you are a disabled veteran covered by this definition and would like to be considered under the affirmative action program, please contact the Affirmative Action Office (863-0471/433-0471). The information requested is voluntary and will not be used to adversely affect the terms and conditions of your employment. It will be kept confidential, except that (1) supervisors and managers may be informed regarding restrictions on work duties and necessary accommodations, and (2) first aid personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment.

Affirmative Action for the Handicapped

The Pennsylvania State University is a government contractor subject to Section 503 of the Rehabilitation Act of 1973, which requires government contractors to take affirmative action to employ and advance in employment qualified handicapped individuals.

If you have a physical or mental impairment, a record of having had such an impairment, or are regarded as having an impairment that substantially limits your ability to secure, retain or advance in employment, we would like to include you under the Affirmative Action Compliance Program.

It will assist us in proper placement and appropriate accommodations if you tell us about (a) any special methods, skills, or procedures which qualify you for jobs that you might not otherwise be able to do because of your handicap, so that you may be considered for any positions of that kind, and (b) possible accommodations which could be made which would enable you to perform the job properly and safely.

Submission of this information is voluntary and refusal to provide it will not subject you to discharge or disciplinary treatment. Information obtained concerning individuals shall be kept confidential, except that (1) supervisors and managers may be informed regarding restrictions on the work duties of handicapped individuals, and regarding necessary accommodations, (2) first aid and safety personnel may be informed, when and to the extent appropriate, if the condition might require emergency treatment, and (3) government officials investigating compliance with the Act shall be informed.

The Affirmative Action Office is responsible for the coordination of compliance with the requirements of Section 503. If you are a handicapped individual and would like to be considered under the affirmative action program, please contact the Affirmative Action Office (863-0471/433-0471).

Alexander

(Continued from page 1)

general consultant on matters relating to Alexander and the Macedonians.

"Carter Brown, the director of the National Gallery, and his staff are determined to make this show an intellectual as well as an aesthetic event," Dr. Borza points out. "The opening will be preceded by a two-day international symposium on Macedonia and Greece in the Late Fourth Century B.C." Scholars from around the world have agreed to conduct sessions on architecture, painting and sculpture, the decorative arts and the history of the period.

Dr. Borza has been asked to organize and chair the symposium on history, and he will also present a paper, "The History and Archaeology of Macedonia: Retrospect and Prospect."

Because the National Gallery expects the wall texts for the show to be more comprehensive than those in any previous exhibit it has sponsored, their preparation presents Dr. Borza with certain challenges. He explains,

"The public will see a vast array of objects, many of them seemingly unrelated, so my job is to tell viewers what they really mean."

"The show, for example, contains a great deal of gold. The gold has implications, as a raw material, in terms of the wars, politics and trade of the time."

"But the gold was also fashioned into extraordinarily beautiful objects, and the high level of craftsmanship says something about the artistic standards of Macedonian culture. Again, some of the golden objects had ritual uses, providing us with insights into the people's religion."

"The National Gallery's curators tell me that the modern philosophy in exhibitions is not to weight people down with reams of printed materials. An exhibition is supposed to be self-explanatory, and consequently they rely heavily on wall texts."

Still another challenge to Dr. Borza's skills arises from the fact that this is the first time the Greek government has ever permitted any items from its national heritage to leave Greece for any reason.

"The Greeks are eager to emphasize the Hellenism of the Macedonians, to make Alexander as Greek as possible," Dr. Borza comments. "But in antiquity, the Greeks and the Macedonians fought against each other tooth and nail. The Greeks regarded the Macedonians as barbarians. The problem I have to resolve in preparing the wall texts is how to maintain the historical integrity of the exhibition without offending the Greek government."

One of the highlights of the exhibition is a series of objects from a tomb found in the village of Vergina. Its discoverer, Professor Andronikos, believes the tomb is that of Philip, father of Alexander and himself a mighty conqueror.

"The arrangement of the materials suggests that the burial may indeed have been Philip's," Dr. Borza says, "but there is architectural evidence to the contrary. Clearly, it is a late fourth century Macedonian royal tomb, and we know of only a few Macedonian royal personages who could have been buried there, so the finds are extremely important. Let's say I'm about 40 percent convinced that the tomb belongs to Philip, but a great deal more work remains to be done before anyone can be certain."

One of the items in the tomb was an ivory miniature, which Dr. Andronikos thinks is a representation of Alexander, made from life.

What did Alexander look like? "Rather like a young Paul Newman," Dr. Borza says smiling. "But all the portraits that we have are from a slightly later period and are highly idealized. They all look alike, leading historians to conclude that a contemporary fixed portrait existed from which these were copied. We also have literary references with descriptions of his countenance."

In addition to his study of ancient sources, Dr. Borza has been concerned with the historiography of modern Alexander

scholarship and its reflection of the predilections of the scholars themselves.

Nineteenth century German historians saw Philip and Alexander as a Bismarck," Dr. Borza reports. "They took a fractured country, welded it together and went forth to spread a higher culture throughout the world."

"On the other hand, some British historians of the period wrote about Alexander as if he had sprung from the works of Rudyard Kipling. He was transformed into a Victorian gentleman, sporting, honest and decent, who tried to bring a higher culture to his less fortunate Asian brothers."

But after a number of years spent in intensive study of historical sources, Dr. Borza found that personally he had come to a dead end.

"There is only so much to be wrung out of the few existing literary sources," he explains. "I decided to shift my focus to the Macedonian background which produced Alexander, and this has meant adopting a more interdisciplinary approach. I've had to learn something about topography, archaeology, physical anthropology and even paleoepidemiology."

Research into the latter field has resulted in an about-to-be published treatise by Dr. Borza on malaria in ancient Macedonia.

"The country was swampy, and malaria was a crippling disease in antiquity," he notes. "Even at the beginning of this century, it was the third leading cause of death in Greece, and we have an ecological parallel between the fourth century B.C. and 20th century A.D."

Archaeologically, according to Dr. Borza, Macedonia is still a treasure house. Most of the digging into the past has been done in southern Greece, in the more accessible, more tourist-oriented areas. The tumultus containing "Philip's tomb" for example, had been standing in plain view for centuries.

"The Aegean has always been considered the 'cradle of civilization,'" Dr. Borza points out, "but now we are beginning to look to the Balkans, rich in land and resources, for evidence of an earlier high culture. It was only later, with the development of a maritime technology, that the poorer Greek cities began to develop as the result of their contacts with each other and with the Near East. Macedonia was the transition between the Balkans and Greece proper."

"I hypothesize that Macedon may well have been Europe's first national state. Through a period of about four centuries and many kings, its people regarded themselves as a nation. The Romans treated it as such. Macedonian history has been obscured, largely because the exploits of Philip and Alexander were so dazzling."

"This exhibit is giving me the chance as an historian to speak to a much larger audience than I could ever reach through my writing and teaching about the Macedonian world, so I feel very fortunate."

"As for Alexander, I don't believe the 'search' for him will ever end. Each age will interpret him according to its own needs — because that's what we do with our legends."

News in Brief

Development program sponsored by three Campuses

"The Emerging Woman Manager," an innovative two-week professional development program for women in business and industry, has been created at Penn State.

The program, which is geared to fill the specific career needs often expressed by women, is a joint venture of Continuing Education at Penn State's Beaver, McKeesport and New Kensington Campuses.

"Because of different male/female socialization patterns, women come to the managerial role with perceptions and attitudes on how to function that are different from those of their male colleagues," says Edward Donovan, area representative at the Beaver Campus.

"In the male-dominated business world, these can be roadblocks to effectiveness," Mr. Donovan continues. "At the request of women, as well as of business and industry, we've devised this program, which is one of the first of its kind."

The program's focus is on women in entry-level positions in business or industry, who have less than five years of supervision/management experience. While emphasizing the functional and interpersonal skills needed in management, it also addresses obstacles to advancement that may exist in the minds of women, or of those with whom they deal.

In-depth training in the fundamentals of managerial finance, accounting, interpersonal skills and administrative knowledge essential to upwardly-mobile managers is provided.

A residential program, the EWM training occupies two one-week sessions. The first was held Oct. 19-24, and a second is scheduled for Feb. 1-6, both at the Seven Springs Conference Center in Champion, Pa. The break allows participants to try out their newly learned skills and report on successes or problems they may have encountered.

Joan Wiener, a doctoral candidate at the University, is academic coordinator of the seminars, along with Shirley Hendrick, academic coordinator for Continuing Education in the College of Business Administration.

Continuing Education administration was handled by Mr. Donovan and Frances Jordan, area representative at the McKeesport Campus. Beaver Campus Assistant Director for University Relations Sandra M. Veitch coordinated the nationwide promotion.

Hershey Department cited by Humanities Commission

The Department of Humanities in the College of Medicine at Hershey has been singled out for praise in the recently published "The Humanities in American Life."

The publication, resulting from deliberations by the Commission on Humanities, is sponsored by the Rockefeller Foundation.

Citing programs which enable students to combine their professional training with serious study of the humanities, social sciences and other disciplines, the Commission points out the National Endowment for the Humanities provided substantial support for the development of the Department of Humanities.

"Since the College opened its doors in 1967," the publication notes, "the department has offered seminars combining literature, philosophy, religion, and political science with medical students' clinical studies. A course called 'Dying, Death, and Grief' includes fiction, biography, religious literature, clinical material, and interviews with dying patients."

According to the Commission, the continued development of a role for the humanities in graduate education for the

professions will require the involvement of individual humanists and their departments.

"Humanists should give more consideration to how their disciplines overlap with the professions; faculty and the administrators who determine incentives should regard professional education as a legitimate extension of the capabilities of departments in the humanities."

Richard W. Lyman, new president of the Rockefeller Foundation, served as chairman of the 32-member prestigious commission which included the presidents of Yale, Chicago and Tulane Universities and of Smith College.

E & MS publication celebrates 50th year

While the University continues to observe its 125th anniversary, the College of Earth and Mineral Sciences is recognizing a milestone of its own.

"Earth and Mineral Sciences," a bi-monthly bulletin issued by the College, is beginning its 50th year. Initially titled "Mineral Industries," the publication was inaugurated in October 1931 by Edward Steidle, dean of what was then the School of Mineral Industries.

In observance of both the bulletin's 50th year and the University's 125th anniversary, the September/October issue — number 1 of volume 50 — features a brief history of the College compiled by editor Mary Neilly, and an article on Dean Steidle's philosophy of mineral industries education written by Dr. E. W. Miller, professor emeritus of geography and associate dean for resident instruction emeritus in the College. Dr. Miller served under Dean Steidle from the time he joined the faculty in 1945 until the Dean's retirement in 1953.

More than 8,000 copies of each issue of the bulletin are currently being sent to alumni of the college and other interested individuals, companies, libraries, universities, and government agencies all over the world who have asked to be on its mailing list.

Usually, each issue carries three articles written by College faculty members, as well as general news about the College and the faculty. It is estimated that the faculty have contributed about 600 articles to the bulletin over the past half century.

Dr. Robert Stefanko, associate dean for continuing education in the College, is the bulletin's editorial director, overseeing the budget and editorial policy.

Archaeologist to discuss early man in Africa

"Early Man in Africa" will be the topic of Dr. David Price Williams, a research fellow of the University of Botswana and Swaziland, in a public talk Monday, Nov. 3, at 8 p.m. in Room 111 Forum Building. His lecture is sponsored by the Central Pennsylvania Society of the Archaeological Institute of America.

Dr. Williams has been investigating the entire range of human prehistory in Africa, where new data are changing previously held theories on human evolution. He will bring with him a number of artifacts from his excavations, and the audience will have an opportunity to study them.

Ice Hockey Team needs away-game help

The Penn State Ice Hockey Team needs interested faculty or staff members who would be willing to assist on away-trips during the next two months. In November, for example, the team will play Army at West Point and make two trips to New York State. All expenses will be met by the Ice Hockey Team, and some remuneration would be involved.

Volunteers please contact Bob Arturo, 238-8884, or Jim Pollock, 234-1575.

Visiting professor to speak

Jean-Pierre Descles, visiting professor of French, will present a lecture entitled "L'Organisation du langage humain appréhendée à travers les langues naturelles" in Room 305 HUB on Wednesday, Nov. 5, at 7:30 p.m.

The lecture is sponsored by the Department of French.

Faculty Women's Club holding lecture-luncheons

The Faculty Women's Club is sponsoring a series of lecture-luncheons to give working members a chance to participate in club activities.

A representative from Taiwan and another from India will discuss the status and roles of women in their countries at a "Brown Bag Lecture" Wednesday, Nov. 5, at 11:45 a.m. in the Faculty Building.

Computation Center enhances interactive computing service

Editor's note: The Computation Center will be installing an IBM 4341 Computer System next month, and has furnished the following announcement.

A one-year program to make significant enhancements in the interactive computing service provided by the Center in support of the University's academic programs was presented on Nov. 1, 1979. This plan was developed in response to the study of the Committee on Interactive Computing Requirements (the Hallberg Committee).

Three of the four steps identified in this one-year program have progressed on schedule. These are: (1) Installation of additional interactive terminals and communication equipment to support more concurrent terminal users, (2) enhancements in our APL time-sharing service, and (3) implementation of an enhanced editor (INTERACT) for use in accessing the batch computing services provided with the IBM 3033 Processor.

The conversion from the MVT to the MVS operating system was completed during the same period, two months ahead of schedule.

The fourth step in the plan was to install an additional computer system which will be dedicated to full-function time-sharing service, permitting many concurrent users to interactively execute programs written in a variety of programming languages. This step will be achieved when the 4341 becomes operational. The target is to be able to serve at least 100 concurrent users, with access to the system to begin in January 1981.

Networking the 4341 with the 3033 is an important aspect of the plan. The IBM 3705 communications controller which now interfaces interactive terminals to the 3033 is being expanded so that it can be connected to channels on both the 3033 and the 4341. Then any interactive terminal which can now access the 3033 (whether by switched telephone network, or private line, multiplexer, etc.) will be invited to sign on to CMS or to INTERACT, RJE, or APLSV. A high-speed channel-to-channel adapter will permit the two processors to communicate directly with each other.

The services currently supporting interactive terminals on the 3033 will be continued. The number of concurrent users of INTERACT, RJE, and APLSV has already exceeded 150 at times. The additional capacity for 100 concurrent users with full-function foreground execution will add significantly to the interactive computing capacity of the University.

From the Press

A History of Pennsylvania. Second and enlarged edition. By Philip S. Klein and Ari Hoogenboom. 581 pages. 150 illustrations plus maps. \$17.50.

The second edition of Philip Klein's and Ari Hoogenboom's widely acclaimed history of the Keystone State has been updated and enlarged to include events culminating in the 1978 gubernatorial election and the political, economic and social developments which occurred in the six years since the original edition.

"Pennsylvania's history is a report and an evaluation of an experiment in utopian statecraft," the authors write in an introduction. "This volume tells the story of a wealthy and dedicated Quaker adventuring into statecraft and traces the course of his 'Holy Experiment' over three centuries."

The authors point out that while writers of state histories are often accused of "jingoism," human experience is ultimately measured by its local effect. They continue: "The happenings at a Massachusetts mill, a Texas ranch, and a Pennsylvania mine, factory and farm are the essential threads that make up the fabric of United States history."

Spanning three centuries, the text of the current edition incorporates information from hundreds of recent specialized, scholarly studies. Stress is placed on the relationship of the state and the developing nation.

Dr. Klein is professor emeritus of American history at Penn State, and Dr. Hoogenboom, a former member of the University's Department of History, now teaches at Brooklyn College. Each has authored or co-authored seven previous books.

Folklorist of the Coal Fields: George Korson's Life and Work. By Angus K. Gillespie. 175 pages. Illustrated. \$16.95.

George Korson (1899-1967), known for his pioneering work in collecting the stories and songs of coal miners, grew up in Wilkes-Barre. He was a newspaper reporter before he earned a national reputation as a folklorist.

Mr. Korson wrote five definitive books and many articles on coal mining folklore. He founded and directed the Pennsylvania Folk Festival and helped launch the National Folk Festival.

Dr. Angus Gillespie has written the first complete assessment of Mr. Korson's contribution to American intellectual life — and one of the first biographies of an American folklorist. He recounts how Mr. Korson took on the "folklore establishment," which had been concentrating its efforts on rural and Anglo-American folklore, to focus on the anthracite coal miners of eastern Pennsylvania and on the workers in the bituminous fields of the South and Midwest.

The author, who teaches American studies at Rutgers University, prepared this book after conducting extensive field research in anthracite mining towns, he also had access to Mr. Korson's unpublished works.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-170

Senate to discuss calendar change

The Nov. 11 meeting of the University Faculty Senate (2:10 p.m., Room 112 Kern Building) will be highlighted by a forensic session on the proposed change from a term to a semester calendar.

Members of the faculty, staff or student body who wish to speak on or ask questions about this topic must notify Senate Chairman George Franz of their intent at least four days before the meeting. They may also call the Executive Secretary of the Senate, Oscar Barkman, at 333-1000 before Nov. 7.

In anticipation of the forensic session, a number of Senate committees have been studying and discussing the effects of calendar change in their areas of responsibility. The chairmen of these committees will make brief (three-minute) presentations summing up the results of their studies. After these presentations, the topic will be opened to discussion from the floor.

Participating committees include Academic and Physical Planning; Admissions, Records and Scheduling; Commonwealth Campuses/Continuing Education; Curricular Affairs; Faculty Affairs; Intra-University Relations; Libraries; Research; Student Affairs, Awards and Scheduling; and Undergraduate Instruction.

The Senate agenda also includes a report of the Committee on Admissions, Records and Scheduling informing the Senate of the admission of high school students below the senior level to the University Park campus during the 1980 Summer Term. Each admission was reviewed individually by the Committee. The Committee also expressed support for a proposal by the DuBois Campus to admit exceptional high school juniors through a special program.

A second informational report will be presented on the progress of the planning for the administrative integration of the Commonwealth Campuses and Continuing Education.

A legislative proposal will be offered by the Committee on Committees and Rules prohibiting members of that Committee and of Senate Council from serving as

(Continued on page 4)

To The Members Of The University Community:

As individuals, most of us have taken steps to deal with the effects that steadily rising energy costs are having on our pocketbooks. We may have installed extra insulation in the attic, purchased a wood burning stove, or started being more careful about turning off lights.

At the University Park Campus, we have installed a central control system to monitor temperatures and ventilation in our newer buildings. We have weatherized many of our older structures, and we have tried to keep thermostats set at a maximum temperature of 65° in winter.

Because of these efforts, last year at University Park we used 5 percent less energy than in 1978-79. But we spent \$112,000 more for it.

In a work setting — be it classroom or office — it's sometimes difficult to see how individual

actions count. But our engineers tell us that the measures they have adopted can only account for about 50 percent of the potential that exists for saving energy. The rest is up to us as individuals.

With the advent of cooler weather, here are several things each of us can do:

- (1) Report any problems and malfunctions to building coordinators, including overheating and underheating, faulty door and window closers, poorly fitting doors and windows, and any leaks or drips.
- (2) Turn off unneeded lights, heat and water.
- (3) Keep furniture and other items clear of radiators, grilles and registers.

John W. Oswald
President

News in Brief

Special pay arrangements

The Pitt vs. Penn State game will be played at University Park on Friday, Nov. 28, the day after Thanksgiving, which is both a biweekly and monthly pay date.

Normally, many employees schedule time off the Friday after Thanksgiving, and in order to accommodate them and to avoid campus traffic problems, the bi-weekly and salary payrolls scheduled to be paid Friday, Nov. 28, will be paid as follows:

1. These payrolls will be paid Wednesday, Nov. 26, and distribution of checks and deposit slips will be the same as that on regular paydays.
2. The checks, although distributed Wednesday, Nov. 26, will be dated Nov. 28 and should not be cashed prior to the Nov. 28 date. Banks will be reminded not to cash the checks prematurely.
3. Employees who have their checks deposited directly into their bank accounts will not be affected.

Occupational Privilege Tax to be withheld this month

The University will again this year withhold the Occupational Privilege Tax of \$10 from all University Park employees who are liable for the tax.

Accordingly, for faculty and staff members who are paid on a monthly basis, the tax of \$10 will be withheld from paychecks dated Nov. 28, 1980. For all other employees (technical service, graduate assistants and wage), the deduction will be made from paychecks dated Nov. 14, 1980.

If any employees wish to appeal their liability for this tax, they should apply directly to Michael S. Croff, Tax Administrator, 118 South Fraser Street, State College, PA 16801.

Department Heads are asked to make certain that part-time wage employees are aware of this tax.

Term calendar deadline

Information for the INTERCOM Winter Term Calendar should be turned in by Wednesday, Nov. 12. Material can be sent to Lee Morrill, Room 312 Old Main, 865-2501.

Search committees named for Beaver, Shenango Valley

Advisory Search Committees for the positions of Director of the Beaver and Shenango Valley Campuses have been appointed by President Oswald to assist him in identifying candidates.

Four persons from the Beaver Campus will serve on that Campus's search committee. They are Ronald Harshbarger, associate professor of mathematics, chairman; Harvey Kelly, assistant professor of speech; Leonard Kogut, assistant professor of chemistry; and William Herrle, Beaver Campus student government president. Other committee members are Wendell Harris, head, Department of English; Herbert McGibbeny, director, McKeesport Campus; Raymond Murphy, vice president for student affairs; and Helen Wright, associate professor of nutrition. Shenango Valley representatives on that search committee are John Houlihan, associate professor of physics, chairman;

(Continued on page 4)

President announces holiday schedule

President Oswald has announced that the period that University offices and buildings, except for essential services, are closed this Christmas and New Year's season will be extended three days, Monday and Tuesday, Dec. 22 and 23, 1980, and Friday, Jan. 2, 1981, in addition to the seven official University holidays involved.

This decision was based on recommendations by the University's Executive Energy Conservation Committee that significant energy use reduction could be realized by extending the period.

These three additional days are not to be considered official holidays (no holiday premium pay applicable). However, regular employees who are entitled to the normal extra holidays at Christmas shall not lose pay for these additional days off.

Employees at the Milton S. Hershey Medical Center who receive service days in lieu of the extra Christmas holidays and the personal holiday will receive four and one-half service days (36 hours) for the last quarter of 1980, instead of the normal one and one-half service days (12 hours) for the quarter.

This decision applies to this Christmas season and should not be assumed to be a precedent.

Mr. Foster

Corporate Executive to head Fund Council

Lawrence G. Foster, corporate vice president of public relations for Johnson & Johnson, is the new president of the Penn State Fund Council, an advisory board concerned with private fund raising for the University.

Mr. Foster was named to a two-year term as Fund Council president by President Oswald under a reorganization of the Council approved recently by the Board of Trustees.

"Since its formation in 1974, the Fund Council has done an excellent job of increasing private support at Penn State," Mr. Foster said. "We are now committed to an enlarged Council and a renewed effort to increase private fund raising from alumni, corporations, foundations and friends of the University. Private funds enable Penn State to undertake projects for which no other financial support is available," he said.

Mr. Foster, a 1948 graduate of Penn State, began his professional career as a journalist, and in 1957 joined Johnson &

Penn Staters

Dr. Andrea M. Mastro, assistant professor of microbiology, has returned from Klais, Bavaria, where her report on her research on "The Effects of Phorbol Esters on Lymphocyte Proliferation" was presented at a symposium held Oct. 13-16. The conference, entitled "Carcinogenesis and Biological Effects of Tumor Promoters," was organized by the German Cancer Research Center and the International Agency for Research in Cancer. Dr. Mastro's report, co-authored by her research technologist Karen G. Pepin, was selected for inclusion in a book which will be published as a result of the meeting.

Dr. Mastro also presented a seminar, "Protein Kinases and Membrane Phosphorylation in 3T3 Cells," at the Biology Department of New York University on Oct. 10.

Dr. Forrest J. Remick, assistant vice-president for research and graduate studies and professor of nuclear engineering, has been reappointed to the Atomic Safety and Licensing Board Panel (ASLBP) as a technical member. Established in 1954 as part of the Atomic Energy Act, the ASLBP approves the construction of all new production and utilization facilities, including nuclear power plants.

Dr. S.V. Martorana, professor of education, served as a resource person to the Utah Educational Seminar sponsored jointly by the Utah State Board of Regents and the College of Education of the University of Utah. He also presented a paper on "Statewide Planning for Higher Education and the Role of the Community College." Utah is now studying the feasibility of converting two-year associate degree level technical colleges in the Salt Lake Valley Region to comprehensive community colleges.

Barry L. Myers, associate professor of business law, has been admitted to practice before the United States Supreme Court. Mr. Myers' application to the Supreme Court was sponsored by attorneys William Donovan of State College and Thomas Beckley of Harrisburg. Mr. Myers has been a lawyer for 10 years and has been admitted to practice in both Pennsylvania and Massachusetts.

Four researchers in comparative medicine at Hershey have been honored for their research on pregnancy toxemia, which in humans in the U.S. is the single most common cause of maternal and perinatal or at-birth mortality.

Dr. Daniel C. Seidl, a 1980 M.D. degree recipient from the College of Medicine; and, in the Department of Comparative Medicine, Dr. Howard C. Hughes, associate professor; Roy Bertoletto, senior research technician; and Dr. C. Max Lang, professor and chairman of the department, received the annual research award of the American Association for Laboratory Animal Science for their study "True Pregnancy Toxemia in the Guinea Pig." The study was reported in *Laboratory Animal Science* magazine in August 1979.

"Spatial Organization of Manufacturing in Metropolitan Pennsylvania, 1957-1977" was the title of a paper presented by E. Willard Miller, professor of geography and associate dean for resident instruction, emeritus, at the 24th International Geographical Congress held in Tokyo, Japan. He also chaired a session on Economic Geography at the Congress.

E. Arthur Hungerford, retired associate professor of speech, has been selected for the "Outstanding Teacher Award" by the National Association of Educational Broadcasters. Mr. Hungerford, who chaired Penn State's Broadcast Options Committee, was a pioneer in the development of television. He was active in planning the University's educational television station, WPSX-TV.

Dr. William F. DeWolf, administrative assistant for academic affairs at Shenandoah Valley, was invited by the West Virginia Art Education Association to present the keynote address at the Art Education Conference held Oct. 18 at West Virginia University. He spoke on "Competency-Based Art Programs."

Dr. Peter A. Ferretti, associate professor of horticulture extension, and Herbert C. Jordan, associate professor of poultry science extension, were among 25 members of a Council for Agricultural Science and Technology task force to evaluate organic and conventional farming methods in the United States.

Appointments

Hamid A.B. Al-Mondhry as associate professor of medicine at Hershey, M.D., U. of Baghdad, Iraq. Formerly assistant professor and chief, hematology, Baghdad U. College of Medicine.

Lawrence H. Auer as associate professor of astronomy, B.A., Haverford College; Ph.D., Princeton U. Formerly held, High Altitude Observatory/National Center for Atmospheric Research, Boulder, Col.

E. Earl Graham as associate professor of chemical engineering, B.S., PSU; M.S., Ph.D., Northwestern U. Formerly senior lecturer, U. of Canterbury, New Zealand.

William W. Hager as associate professor of mathematics, B.S., Harvey Mudd College; M.S., Ph.D., Massachusetts Institute of Technology. Formerly assistant professor, Carnegie-Mellon U.

John T. Harwood as associate professor of English, B.A., Wartburg College, Ph.D., U. of Nebraska. Formerly associate professor and chairman of Basic Studies Department, Christopher Newport College.

Dale M. Heien as associate professor of agricultural economics, B.A., M.A., U. of Illinois; Ph.D., George Washington U. Formerly economic consultant; lecturer, San Jose State U.

Dennis R. Howard as associate professor of recreation and parks, B.S., U. of Oregon; M.S., U. of Illinois; Ph.D., Oregon State U. Formerly assistant professor, U. of Oregon.

David Khalifa as associate professor of management science, B.S., North Carolina State U.; M.B.A., Ph.D., PSU. Formerly assistant professor, Bloomsburg State College.

Steven G. Krantz as associate professor of mathematics, B.A., UC-Santa Cruz; Ph.D., Princeton U. Formerly assistant professor, UCLA.

Steven B. Mizel as associate professor of immunology, B.A., UC-Berkeley; Ph.D., Stanford U. Formerly senior staff fellow, National Institutes of Health.

Forest V. Muir as associate professor of poultry science extension, B.S., M.S., Southern Illinois U.; Ph.D., Ohio State U. Formerly professor, extension poultry specialist, U. of Maine.

Leonid Roytman as associate professor of electrical engineering, M.E., Ph.D., Polytechnical Institute, USSR. Formerly post doctoral fellow, Concordia University, Montreal, Canada.

Arthur J.L. Schneider as associate professor of anaesthesiology at Hershey, A.B., Washington U.; M.D., Washington U. School of Medicine, St. Louis. Formerly associate professor of anaesthesiology, University Hospitals, Cleveland, O.

Philip L. Senger as associate professor of dairy physiology, B.S., North Carolina State U.; M.S., Ph.D., Virginia Polytechnic Institute and State U. Formerly associate professor, Washington State U.

Bruce Stuart as associate professor of health planning and administration, B.A., Whitman College; M.A., Ph.D., Washington State U. Formerly associate professor, U. of Massachusetts.

Anybody There?

In a large and geographically dispersed University such as ours, members of the community are sometimes unaware of colleagues who may be toiling in fields either similar or adjacent to their own.

We hope this new column will encourage faculty and staff members to write in:

- (1) to discover if anyone is working in a similar area,
- (2) to invite people to work on a common problem,
- (3) to seek specific knowledge, expertise, or information.

Queries directed at kindred researchers should be sent to INTERCOM, Room 312 Old Main. We will publish them upon receipt. Please be specific and include your phone number or the address where you wish to be contacted.

Richard A. Wilson as associate professor of veterinary science, B.S., M.S., Ph.D., Montana State U. Formerly associate professor, College of Osteopathic Medicine and Surgery, Des Moines, Ia.

Terrance M. Wilson as associate professor of veterinary science, B.S., M.S., D.V.M., Cornell U.; Ph.D., Ontario Veterinary College, Canada. Formerly project director, World Health Organization, Barbados, Virgin Islands.

Dr. Kathryn Towns, associate professor of educational psychology at Capitol, has been named associate dean for research, graduate studies and continuing education at the Middletown campus. She succeeds Dr. Melvin H. Wolf, professor of humanities and English, who resigned to return to full-time teaching and research.

Dr. Towns earned her bachelor's degree at Miami (Ohio) University and her master's and Ph.D. at Penn State. She joined Capitol's faculty 12 years ago and has received national recognition for her work with returning women students. She is founder and director of PROBE (Potential Re-entry Opportunities in Business and Education), an off-campus counseling, information and referral service for women.

Robert L. Sabatino has been named acting associate director for academic affairs at Wilkes-Barre. He replaces Dr. Nils A. Parr, who was named acting director of the Campus several weeks ago. Dr. Sabatino will continue to fulfill the responsibilities of his previous position as advisor/consultant in the Division of Undergraduate Studies.

Before joining Penn State in 1969, Mr. Sabatino was a history teacher and guidance counselor with Wilkes-Barre City Schools. He earned his B.S. in education from Wilkes College and his M.S. in counseling from the University of Scranton.

25-year chair

The name of Shirley Stanton evokes immediate recognition from Business Administration students, alumni and faculty members. Of her 25 years of service, 22 have been spent as a student records or seminar in the College.

Mrs. Stanton puts in an average of 50

hours a week on her job and often can be found working on her lunch hours and well into the evening. "I like what I do so I don't mind the extra hours," she says. When Mrs. Stanton was honored for her University service last month, the College of Business Administration Student Council presented her with a bouquet of roses to express the students' appreciation for those "extra hours" and dedication. In past years, she also has been recognized with feature articles in the *Daily Collegian* and in *Entrepreneur*, the newsletter of CBA's Student Council.

Mrs. Stanton started her first Penn State job in 1948 as a receptionist in College Placement, predecessor to Career Development and Placement. She left the State College area while her husband attended graduate school, returning in 1957 when she took a job doing statistical work for the Center for Research in the College of Business. In 1958, she assumed her present position.

She notes that after so many years in Business Administration, she is now seeing the children of a number of students she helped in the '50s.

"When I start seeing the third generation, I'll know it's time to leave," she comments.

In her spare time during the summer months, she plays golf and tennis and tends to her garden. At "the first sign of a cool breeze," Mrs. Stanton can be found heading to New York State or Colorado to ski. She also follows enthusiastically the Penn State athletic programs, particularly her favorites—wrestling, gymnastics, and of course, Penn State football.

Carpoolers

Linnea Noll is seeking a ride from Millheim, leaving at 7 a.m. and returning from Weaver Building at 5 p.m. Phone: 865-5461 or 349-8152.

Retirements

Annie D. Fitzsimmons, a patient care assistant at Hershey since Oct. 5, 1970, will retire Nov. 1.

John R. Jellison, a building inspector in the Office of Physical Plant, will retire Dec. 1. He has been on the staff since June 6, 1967.

Obituaries

Elizabeth R. Lake, a secretary in the College of Agriculture at her retirement July 1, 1979, died Oct. 25. She was 65. A Washington, D.C., native, she joined the staff of the University in 1963 as a stenographer in Agriculture. She also worked in the College of Science.

E. Stanley Miller, janitorial worker in the Office of Physical Plant, retired July 1, 1979, died Oct. 30. He was 76. He joined the University staff in October 1958.

Paul A. King, 71, died Oct. 30. He joined the University staff in 1950 as a janitorial worker in the Office of Physical Plant and retired April 15, 1972.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

URTC. *Sly Fox*, 8 p.m., The Playhouse.

Sunday, Nov. 9

Shaver's Creek Nature Center, workshop on "Sharing Nature with Children," 9 a.m.—4 p.m., Stone Valley. Preregistration required, 865-1851.
University Chapel Service, 11 a.m., Eisenhower Chapel, Dr. Derald Stump, Episcopal Ministry, PSU, speaker.
Commonsplace Theatre, *Moby Dick*, 7 and 9 p.m., Room 112 Kern.

Monday, Nov. 10

ASHA Cafeteria, 5:15-6:15 p.m., Maple Room, Henderson. Tuesday also. No reservations needed.

France-Cinema, *Le Bonheur*, 7 and 9 p.m., Room 112 Kern.

Tuesday, Nov. 11

School of Music Common Hour, The Temple Trio, 1 p.m., Music Bldg. Recital Hall.
University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.
Comp. Lit. Film Series, Bertolucci, *The Spider's Stratagem*, 7 and 9 p.m., Room 112 Kern.
URTC. *Sly Fox*, 8 p.m., The Playhouse.

Wednesday, Nov. 12

STS/TCO luncheon, noon; presentation, 12:20 p.m., Room 101 Kern.
Paul Welliver, education, on "Technology and Education: Products and Processes."
Alard String Quartet recital, 12:45 p.m., Room 112 Kern.
URTC. *Sly Fox*, 8 p.m., The Playhouse.
Artists Series, Minnesota Orchestra, 8:30 p.m., Eisenhower Auditorium.

Thursday, Nov. 13

Kern/WFSX-TV *Cosmos* series, "The Backbone of the Night," 11:30 p.m., Kern Lobby.
School of Music Common Hour, student performances, 1 p.m., Music Bldg. Recital Hall.
English/IAHS, poetry reading by five Bulgarian poets, 3 p.m., Rare Books Room, Pattee.
URTC. *Sly Fox*, 8 p.m., The Playhouse.

Friday, Nov. 14

Last date to submit petitions to Records Office to graduate in absentia in Nov.
Last day to sign Fall Term Emergency Loans.
Room 108 Shields.
Early registration for Winter Term, 8:30 a.m.—4:30 p.m., Room 112 Shields. Also Nov. 17-20.

Shaver's Creek Nature Center, overnight "Adventure Program" for children 8 and older. Preregistration required, 865-1851.
Commonsplace Theatre, *Man of La Mancha*, 7 and 9 p.m., Room 112 Kern.

GSA film, *The Magus*, 7 and 9 p.m., Room 10 Sparks.

SFO film, *Summer of '42*, 7 and 9 p.m., HUB Assembly Hall.

Sports: soccer vs. Towson State, 7:15 p.m.
URTC. *Sly Fox*, 8 p.m., The Playhouse.

Saturday, Nov. 15

Full Term classes end, 12:25 p.m.
Commonsplace Theatre, *King of Hearts*, 7 and 9 p.m., Room 112 Kern.
GSA film, *The Magus*, 7 and 9 p.m., Room 10 Sparks.
URTC. *Sly Fox*, 8 p.m., The Playhouse.

Sunday, Nov. 16

Commonsplace Theatre, *King of Hearts*, 7 and 9 p.m., Room 112 Kern.
GSA film, *Man of La Mancha*, 7 and 9 p.m., Room 10 Sparks.

Seminars

Thursday, Nov. 6

Ceramic Science, J. Varner, Alfred Univ., on "Impact Damage of Bulk and Thin Glass," 11 a.m., Room 301 Steidle (new listing).
Philosophy of Mathematics, Philip Kitcher, Univ. of Vermont, on "Change in Mathematics," 1 p.m., Room 67 Willard (new listing).
Mathematics, Michael Morley, Cornell Univ., on "Category and Finite Axiomatizability: An Expository Talk with Pictures," 4 p.m., Room 102 McAllister (new listing).

Statistics, Stanford Weisberg, Univ. of Minnesota, on "Characterization of Influence in Regression," 4 p.m., Room 60 Willard (new listing).
Fuel Science, A.C. Comelli, on "Recent Developments and Status of the H-Coal Process," 4 p.m., Room 301 Steidle (new listing).

Friday, Nov. 7

Analytical Chemistry, David Stuts, grad. student, on "Analytical Chemistry of Sulfur: Predictive and Experimental Aspects," 11:10 a.m., Room 333 Whitmore.
Physics, Richard Mark, Australian National Univ., Canberra, on "Growth and Reorganization of Retino-lectin Connections in Fish," 11:10 a.m., Room 211 East Human Development.
Physical Chemistry, Douglas Ridge, Univ. of Delaware, on "Organometallic Chemistry in the Gas Phase: Ion Cyclotron Resonance Investigations," 2:30 p.m., Room 333 Whitmore.

Monday, Nov. 10
MC3B, Lella Diamond, Wistar Institute, on "Cell Culture Models for Studying Carcinogens and Tumor Promoters," 11 a.m., Room 101 Althouse.

Organic-Inorganic Chemistry, Giuseppe Sacchini, Univ. of Pisa, on "Metal Clusters as Intermediates for CO Reduction," 8 p.m., Room 333 Whitmore.

Tuesday, Nov. 11

MC3B, Lella Diamond, Wistar Institute, on "Cell Culture Models for Studying Carcinogens and Tumor Promoters," 11 a.m., Room 101 Althouse.
Agricultural Engineering, Gerald E. Rehkugler, Cornell Univ., on "Graduate Study and Research in Agricultural Engineering at Cornell University," 2:20 p.m., Room 124 Ag. Eng. Bldg.

Philosophy of Science, Emily Grosholz, philosophy, on "Physics and Metaphysics: The Conception of Force in Newton and Leibniz," 3:45 p.m., Room 124 Sparks.

A daily calendar of events is available around the clock at 863-1320. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Thursday, Nov. 13

Ceramic Science, W. Landford, SUNY, on "Depth Profiling by Nuclear Reaction Analysis (NRA)," 11 a.m., Room 301 Steidle.
Chemistry, Robert Fraser, Univ. of Ottawa, on "The Stereochemistry of Lithiated Imines," 12:45 p.m., Room 333 Whitmore.
Air Pollution Control, Joseph I. Polasek, M.D., State College, on "Health Effects of Air Pollution," 2:20 p.m., Room 69 Willard.
Microbiology, Keith Haye, grad. student, on "Microinjection of Histones," 3:55 p.m., Room 5-2 Frear.
Physics, Robert M. Wald, Univ. of Chicago, on "Black Holes and Quantum Gravity," 3:55 p.m., Room 455 Davey.
Fuel Science, A. Muan, & E.M.S., on "Interaction of Coal Ash Slags with Refractories in Gasifiers," 4 p.m., Room 301 Steidle.
Mathematics, Roger Carter, MIT, on "Representations of Algebraic Groups and Related Finite Groups," 4 p.m., Room 102 McAllister.

Friday, Nov. 14

Analytical Chemistry, Joanne Recchia, grad. student, on "Ru-Histadine Complexes as Structure Probes in Proteins," 11:10 a.m., Room 333 Whitmore.
Mathematics, Stephen Milne, Texas A & M, on "A Rogers-Ramanujan Bijection," 4 p.m., Room 104 McAllister.

Exhibits

Chamber Gallery: Ralph Raunft, paintings and photographs, Ray Wilkins, drawings, Paolo Soleri, weldings, all through Nov. 15.

HUB: Richard L. Crowley, Sr., color photographs and clocks, "80 Years of Political Campaigns," campaign buttons and memorabilia from the private collection of Ernie Weidhaus, Art Alley, Mary Cady Rubinstein, recent prints, The Browning Gallery, Larry Sussman, color photographs, Ron Galas, ceramic sculpture. The Gallery. All exhibits through Nov. 15.

Kern Gallery: "Art of This Decade — 1980," Ann Deering, ceramics; David Weiland, wooden boxes.

Museum of Art: European paintings, contemporary prints and 18th to 20th century works from the permanent collection: The Art of the Needle.

Pattee Library: Marc Levy and his students, photographs, East Corridor Gallery, Kevin Barr, paintings, lending Services Lobby, Nathan Goodson, glassware, opens Nov. 7, Main Lobby.

Visual Arts Zoller Gallery: Jackie Battenfield, fiber exhibit, through Nov. 13.

shows, which will be held in different parts of the country in non-commercial space, will spotlight works created during that calendar year.

Artists whose works are being shown at Kern include Merrill Cleghorne, Thomas J. Edinger, Fu Shu, Ray Lewis, and Judith Vogt. Four of the artists featured studied at the University. They are Mark Dame, James Murray-Thompson, Jim Sale and Walter Zimmerman.

Chambers features exhibits

Work by two doctoral candidates in art education at the University, Ralph Raunft and Ray Wilkins, is on display in Chambers Gallery through Nov. 15. An exhibit of windbells by the noted architect Paolo Soleri is also being shown.
Mr. Raunft, who earned B.F.A. and M.F.A. degrees from the Tyler School of Art at Temple University, is exhibiting paintings and photographs.
Ray Wilkins obtained his undergraduate degree from the George Washington University and Corcoran School of Art. One of his series drawings was purchased by the National Collection of Fine Arts. His current series developed through experimentation with charcoal, conte crayon and spray lacquer into suggestions of architectural forms.

Arts Roundup

Minnesota Orchestra to present concert

The Minnesota Orchestra, one of America's leading symphonic ensembles, will perform in Eisenhower Auditorium on Wednesday, Nov. 12, at 8:30 p.m. The orchestra, under the famed English conductor, Neville Marriner, will present this concert as part of the Artists Series Music Series.

The program will include Berlioz's Overture to *Benvenuto Cellini*, Bartok's Concerto for Orchestra, and Sibelius's Symphony No. 2 in D Major.

Mr. Marriner is the seventh music director of the Minnesota Orchestra, which was founded in 1903. Called "the Marathon Man" by *Time* Magazine, he recorded 29 albums in 1979, bringing his discography to some 250 titles. In addition to his Minnesota post, Mr. Marriner is now artistic director of the Meadow Brook Festival, permanent guest conductor of the Orchestre National in Paris and principal guest conductor of the Stuttgart Radio Symphony.

Critics have praised his ability to strike a balance between technical brilliance and spontaneity, and he is known for his

delicacy of phrasing, attention to detail and his musicality.

Tickets are now on sale at the Eisenhower Auditorium, weekdays, from 9 a.m. to 4 p.m. The Artists Series HUB booth will be open beginning Monday, Nov. 10, from 9 a.m. to 12:30 p.m. Phone orders on MasterCard and Visa will be accepted at 863-0255, from 9 a.m. to 4 p.m. on weekdays.

Neville Marriner

Temple Trio scheduled for Recital Hall concert

The Temple Trio, trio-in-residence at Temple University, will be on campus Tuesday, Nov. 11, to present a concert for the School of Music's Common Hour at 1 p.m. in the Music Building Recital Hall. The concert is the result of an exchange arrangement with the Alard String Quartet, which will be performing on the Temple campus Nov. 14.

Haydn's Trio XIII in A Major will open the hour-long program. The group will also perform "20th Pieces breves" by Bohuslav Martinu, a 20th century Bohemian composer, and will close with Mendelssohn's Trio opus 49 in D minor.
The Temple Trio is composed of pianist Alexander Fiorillo, violinist Helen Kwabwaa, and cellist Hirofumi Kanno, all faculty members in Temple University's College of Music.

Art exhibit at Kern

An exhibition, "Art of This Decade 1980," is being shown in the Kern Galleries through Nov. 21.

According to James Scaltz, assistant to the Graduate Commons Director, the show is the first in a 10-part series of annual exhibitions, organized as vehicles for the free expression of aesthetic ideas. The

News in brief

(Continued from page 1)

Leonard Riforgiato, assistant professor of history; Timothy Vesonder, assistant professor of English and acting associate director for academic affairs; and Michael Polack, Shenango Valley Campus student government president. Other committee members are Marlowe Froke, director of Media and Learning Resources; Andrew Pytel, associate professor of engineering mechanics; Jacqueline Schoch, director, DuBois Campus; and Marylee Taylor, assistant professor of sociology.

The committees invite nominations and applications for the positions.

Applications and letters of nomination should be directed to Dr. Robert Quinn, Room 111 Old Main, University Park, Pa., by Jan. 1, 1981. Candidates must have an earned doctorate or equivalent, several years' experience in college and/or university teaching, and responsible and substantial experience in academic administration.

Bulgarian poets to present public reading

Five Bulgarian poets will present a poetry reading on Thursday, Nov. 13, at 3 p.m. in the Rare Books Room of Pattee Library.

This public presentation, which is being arranged by John Balaban, associate professor of English, is sponsored by the Department of English and the Institute for the Arts and Humanistic Studies.

The poets include Georgi Djagarov, who is also vice president of Bulgaria's State Council; Lyubomir Levchev, president of the Writers' Union; Borzhidar Bozhilov, editor-in-chief of *Pulse*; Luchezar Elenkov, general secretary of the Writers' Union; and Vladimir Golev, editor of *September* magazine.

The poets will be accompanied by the Bulgarian ambassador, Stoiyan Zhulev, and the Bulgarian cultural attaché, Krassim Himmirsky.

Travel expense booklet can be updated

The University booklet entitled "Travel and Business Expense Regulations," which was distributed throughout the University in 1978, has the various maximum daily rates allowed for travel listed inside the front cover.

In order to update these rates to reflect the revisions announced by the Controller in early October, paste-over labels with current rates have been supplied to Financial Officers or Commonwealth Campus Business Managers throughout the University. These labels are available from them to update individual booklets.

Museum of Art receives special projects grant

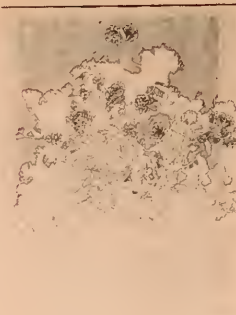

The University's Museum of Art has been awarded a special projects grant of \$25,763 from the Institute of Museum Services of the Department of Education in Washington, D.C.

Some 1,500 museums submitted proposals to the Institute, and 408 were selected.

The grant money will be used to design outreach programs aimed at involving schoolchildren from surrounding communities in Museum activities. Grant funds will support the docent training programs, a full-time research assistant who will be responsible for compiling easy-to-read texts on the Museum's permanent collection, transportation costs for the children and honorariums for teachers.

According to research assistant Judith Hansen, the grant will allow the Museum the opportunity to focus on its own collection—as opposed to "blockbuster" shows and traveling exhibitions.

Participating in the outreach program will be the Glendale Area, Harmony Area, Keystone Central, Philipsburg-Oscola

Friends of Museum to award artworks at January gala

A drawing by Stuart Frost, professor of art, and a stoneware plate by Dr. Kenneth Beitell, professor of art education, are among the prizes to be awarded by the Friends of the Museum of Art at their Jan. 17 annual Gala.

Other prizes include a recent colored lithograph by Harold Altman, formerly of

Area and State College Area School Districts. The Clearfield Area School District has tentatively agreed to participate.

Guidelines for use of hazardous materials available

Guidelines for the use of chemical carcinogens and biohazardous materials have been prepared jointly by the Department of University Safety, the University Biohazards Committee and the Office of the Vice President for Research and Graduate Studies.

The guidelines were developed to assist Penn State personnel in complying with State and federal regulations pertaining to these materials. Copies are available through department safety officers or at the Office of the Vice President for Research and Graduate Studies in Room 201 Old Main.

The Machine Age

The increasing importance of the computer in resident instruction is apparent from a report issued by the Computation Center.

During the present Fall Term, 12,837 students are using the Center's facilities at University Park and the Commonwealth Campuses. Of this number, more than one-fourth are taking more than one course requiring the use of the computer.

Fund Council head

(Continued from page 1)

Johnson, the international health care products company. He was elected to the Penn State Board of Trustees Last May, and from 1973 to 1978 served as president of the Penn State Alumni Association. In 1979 Mr. Foster received the Distinguished Alumnus Award, the highest honor the University can bestow.

Senate

(Continued from page 1)

members of standing committees of the Senate under most circumstances. The changes are proposed, according to the Committee's report, "as a means of spreading the workload and the power base of the Senate among more members."

The drawing by Stuart Frost and plate by Kenneth Beitell which will be awarded by Friends.

the Department of Art, an oil painting and vase by Robert Kulicke; the 1878 print of Old Main by Thomas Hunter, and a \$100 gift certificate good at the Museum of Art Store.

Ticket information is available at the Museum Store.

Review of health care coverage advisable

Regular University faculty and staff members are urged to review periodically the deductions being taken for their health care coverage (hospital/surgical/major medical, dental and vision) to be certain that they are paying for the correct coverage.

A change in family status may affect your cost and your coverage. For example, when you get married, when you have a first child, or when your spouse stops working for the University, you run the risk of having inadequate dependent coverage, if you haven't taken steps to indicate the change in coverage desired. Consideration should be given to changing coverage if any of the following circumstances arises:

1. You get married.
 2. You get divorced (or separated and no longer wish to provide spouse dependent coverage).
 3. You become the parent of a first child (note: a baby is covered automatically for 31 days following birth; however, to provide for coverage beyond that time for a child, a coverage form must be completed).
 4. Your only dependent child reaches age 19 (or 23 in the case of a full-time student).
 5. Your only dependent child gets married.
 6. Your spouse begins or ceases working for the University as a regular employee.
 7. Your only dependent child begins or ceases working for the University as a regular employee.
 8. Your spouse enters military service.
 9. Your only dependent child enters military service.
 10. Your spouse dies.
 11. Your only dependent child dies.
- If you feel a change should be made, call, write, or visit the Employee Benefits Division, Room 133 Willard Building, 805-1473.

Faculty or staff members located away from University Park may receive assistance by contacting the appropriate Business Manager or Regional Personnel Officer.

The University has no way of knowing whether a change should be made, so it is the responsibility of the individual faculty or staff member to keep his or her records up to date. No refunds for overpayment will be made, unless it can be shown that the University was in error.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in or promoted may apply by calling the Employment Division, 805-1387 (network line 873-1387). Applications for these staff vacancies will be accepted until 5 p.m., Nov. 13, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

STATE LEADER - EXTENSION DATA SYSTEMS, College of Agriculture Responsible for the planning, developing, and administration of a computerized information support system and data bases for statewide Extension services; establish guidelines for the acquisition of equipment and development of software; assure compatibility of communications technology, languages, processes, and procedure for the statewide Extension computer network. Identify technical requirements for information processing support. Provide leadership and coordinate the integration of these requirements into a statewide computer educational network. Plan staffing needs and administer the program across the Commonwealth of Pennsylvania within projected resources. Develop and implement a feasible set of equipment alternatives for information handling. Develop seminars, training sessions, and information exchange programs to keep personnel informed of the feasibility of computer support approaches. Work with resident faculty and staff in College of Agriculture and other Colleges in developing and maintaining the Pennsylvania Extension Data System. Represent Cooperative Extension, College of Agriculture at State, Regional and National Meetings and Conferences relating to data system management, act as a State Leader working with the academic community in the Extension Service and with Regional and National Committees to ascertain and identify the systems needs. Visit and assist Extension Districts in the development and operation throughout the United States. Screen and adapt software from other states for the Pennsylvania program. Direct state and county offices in use of computers in office management. Serve on academic committees, act as a member of the College Computer Services Committee. Doctorate (or equivalent) in agriculture, family living, home economics, rural development or related field, plus four to five years of effective experience in computer systems planning, design, development and implementation, as well as program management.

SUPERVISOR, COMMUNITY CENTER BUILDING OPERATIONS, BERKS CAMPUS Responsible as the Associate Director for Academic Affairs for providing and supervising instructional, intramural and recreational programs, coordinate publicity and sports information, prepare and set up athletic, recreational, cultural and special events, coordinate travel, supervise laundry services, deal with organizations associated with the athletic and recreation programs. Associate degree in recreation and parks or equivalent to two years of college level training, plus two to four years of effective experience.

Mueller's contributions to physics hailed

The late Dr. Erwin Mueller, Evan Pugh professor of physics at the University who was internationally renowned for several discoveries and inventions related to atomic physics, should have been awarded a Nobel Prize.

So says Dr. Robert L. Weber, a now-retired associate professor of physics at Penn State and the author of a new book, *Pioneers of Science: Nobel Prize Winners in Physics*.

Noting that each year more scientists are eligible for Nobel Prizes than receive them, Dr. Weber asked a number of Nobel laureates to name physicists who are or were peers of those who won the coveted prize.

Among the seven physicists named was Dr. Mueller, who died in 1977, for his invention of the field emission and ion microscopes.

The other "uncrowned laureates" suggested were: Dmitri Mendeleev (1834-1907) for his periodic law; Arnold Sommerfeld (1868-1951) for his work on atomic spectra; Paul Langevin (1872-1946) for developing a theory of paramagnetism; Henry Moseley (1887-1915) for the law named after him; Samuel Goudsmit (1902-1978) for work on atomic particles; and John Wheeler (1911-) for contributions to relativity and nuclear physics.

Dr. Weber's book, published in October by the Institute of Physics, presents a unique biographical record of the 114 physics laureates.

Thirteen named to HPER Dean search committee

Thirteen persons have been named to a search committee to consider nominations and applications for the position of Dean of the College of Health, Physical Education and Recreation.

The committee is under the chairmanship of Dr. Geoffrey C. Godbey, professor of recreation and parks. Other members are:

Dr. Carol A. Cartwright, professor of education; Dr. Robert E. Dunham, vice president for undergraduate studies; Elizabeth G. Ellis, librarian; Dr. David B. Geselowitz, professor of bioengineering; Dr. Truman V. Hershberger, associate professor of animal nutrition; Dr. Thomas J. Knight, associate dean for Commonwealth Campuses and Continuing Education, Liberal Arts; Dr. Herbert M. Lundegren, professor of physical education; Wesley A. Olsen, associate professor of physical education. Ognitz: Dr. Torrence D. Parsons, associate professor of mathematics; Dr. Ronald A. Smith, associate professor of physical education; Dr. Richard W. St. Pierre, assistant professor of health education; and Michael Wilkinson, graduate student.

The former Dean of the College of Health, Physical Education and Recreation, Dr. Robert Scannell, has been named vice president and dean for the new University-wide system of Commonwealth Campuses and Continuing Education.

Five criteria have been established for the appointment. They are:

1. Prior experience as an academic

(Continued on page 4)

Progress report given on implementing 'Perspective'

Calling the *Perspective* on the '80s a "statement of Penn State ambition", Provost Edward D. Eddy reported on progress toward implementing its goals of Quality, Flexibility and Selectivity before the Educational Policy Committee of the Board of Trustees.

While ambition is essential to progress, Dr. Eddy pointed out, it must begin with "self-knowledge of the most searching nature" and the realization "that it depends heavily on plain, hard work."

Dr. Eddy described implementation efforts in the following areas:

— Out-of-state student recruitment. As the result of programs undertaken by Dean of Admissions Donald G. Dickason and his staff, applications from non-Pennsylvanians have increased 35 percent since 1979. This year, 502 more out-of-state students are enrolled — mostly at University Park. Systemwide, out-of-staters now comprise 7.7 percent of the undergraduate student body.

— Educational innovation. To illustrate movement in this area, the Provost cited a new program at the University of Nice that brings together students in French and business administration to combine studies in divisions formerly considered far apart.

— International education. An agreement has been signed between WPSX/TV and Fundacao Padre Ancheta, the educational network of Brazil, to develop public television programs for exchange. Brazil will initiate the project next month with a nationwide showing of "Christmas at Penn State", featuring the University's chorus.

— Academic leadership. Eight study groups drawn from the 30 major officers who report to the Provost are examining specific areas covered by the

Perspective.

Dr. Eddy said that one such group is attempting to define areas of academic authority within the University to see how authority might eventually be delegated to

Other news of Trustee actions appears on pages 3-4

"where true responsibility lies." The goal is to free academic administrators — "beginning with the Provost" — to think more creatively.

The creation of leadership development programs is the focus of a second study group, whose members are concentrating especially on workshop training programs for department heads because of their major roles in the academic community.

Because the University now faces the reality, not the possibility, of a stable faculty, slowly growing older, and with the option opening in 1982 of remaining in active service to age 70, staff development programs must also be devised to help older faculty members remain "young, fresh, and vigorous." This problem is being studied by a third group.

A fourth is concerned with the improvement of decision-making skills. Its mission is to survey available information sources, information exchange and areas where gaps occur to determine just what administrators need to know in order to reach wise decisions.

Academic fund-raising is a fifth emphasis. "We are, without apology, adding fund-raising to the list of expectations of anyone in a leadership post

in the academic enterprise," Dr. Eddy said, adding: "Reality must be faced. It will be necessary if we are to close the gap which now exists and which threatens to continue between State support and student cost." Dr. Eddy pointed out that the Senior Vice President for Administration, Dr. Richard E. Grubb, and the Office of Gifts and Endowments are closely involved in this effort.

Because the proper balance between undergraduate and graduate education is crucial to the quality of the institution, this topic is being examined by a sixth study group. "We know that new knowledge almost always enters a field of study first through research productivity and then through the medium of graduate education," Dr. Eddy told the Trustees. "Finally it reaches and enriches the undergraduate curriculum. Our study group will wrestle with the problems of what we can afford and what we must afford if we are to maintain our standing as a research and graduate university, as well as undergraduate."

A seventh topic under consideration is the attracting and retaining of superior students. The Trustees, Dr. Eddy pointed out, had asked that the University recruit superior students but with the important proviso that Penn State not reduce its commitment to all qualified Pennsylvanians. Dr. Eddy noted that Penn State must stand "with honor" as both "a strong research university pursuing the outer limits of knowledge and as an egalitarian institution devoted to a large measure of direct vocational education in the form of associate degrees" and to the opening of opportunities for provisional students, where possible.

(Continued on page 3)

Penn Staters

Dr. Eugene J. Kelley, dean of the College of Business Administration, is president-elect designate of the American Marketing Association. He is to be president in 1982-83 of this Association of 27,500 members.

The first prize of \$16,500 in the Hartford Loss Prevention Competition has been presented to Dr. James P. Ignizio, associate professor of industrial engineering. Administered by the National Safety Council, the competition is aimed at stimulating new ideas and programs to improve safety in business and industry.

Dr. Ignizio's concept, called AMISS — Accident Mode Identification and Surveillance System — was selected from 1,300 ideas submitted. His plan employs a joint worker-management approach to identify and statistically analyze workplace hazards and to award an employee a percentage of the savings expected to accrue from eliminating the hazard he or she reports.

A member of the faculty since 1974, Dr. Ignizio is the author of three textbooks, two monographs and more than 120 papers in the area of operations research.

Dean Walter Walters of the College of Arts and Architecture was invited by the Ministry of Education and the Cultural Affairs Office of the Republic of China, Taiwan, to head a delegation of eight deans to participate in a Sino-American conference on the arts in Taipei Nov. 4-12. The government is preparing plans for an independent college of the arts and Dean Walters will serve as a consultant.

Three members of the Hershey faculty have been elected to office in their professional associations. Dr. Howard Morgan, Evan Pugh professor of physiology and chairman of the program, is president-elect of the International Society for Health Research and will assume his post in 1983. He is currently president of the American Section of the Society.

Dr. H. Arnold Muller, chief of the emergency medicine division, is vice president of the board of the American College of Emergency Physicians. Dr. William DeMuth Jr., professor of surgery, was selected as vice president of the American Association for the Surgery of Trauma.

Dean Donald Dickason of the Admissions Office is chairman of a joint task force of the National Association of College Admissions Counselors and the Association of College and University Housing Officers.

Dr. G. W. Brindley, professor emeritus of mineral sciences, was invited by the Illinois Department of the University of Illinois to deliver the Ralph E. Grim Lectures Oct. 28-30. Dr. Brindley spoke on "Aspects of Order-Disorder in Clay Minerals" and "Clay Mineralogy — A Multi-disciplinary Area of Science and Technology."

Bookshelf

Dr. E. Willard Miller, professor of geography emeritus and associate dean for resident instruction emeritus in the College of Earth and Mineral Sciences, and Ruby E. Miller, former map librarian at Pattee, are the authors of a bibliography entitled *The American Coal Industry: Economic, Political and Environmental Aspects*, published recently by Vance Bibliographies. With more than 900 references, the book offers a wide perspective on the human problems of the coal industry. The authors hope that their survey of American coal literature will provide a basis for better decisions in the evolution of a coal policy in the United States.

A new book by James P. McGettigan, assistant professor of physical education and soccer coach at Ogonitz, has been selected as "book-of-the-month" by the Physical Education Book Society.

The Complete Book of Drills for Winning Soccer, released by Parker Publishing Company, was cited by the Society as "the book that soccer coaches have been waiting for." It offers more than 250 illustrated drills, uniquely divided into skill drills, basic patterns, special situations, and training.

Mr. McGettigan has been soccer coach at Ogonitz since 1969. During that time his teams have won six Commonwealth Campus championships and 70 percent of their games. He is a former president of the Commonwealth Soccer Coaches Association.

A new textbook, *A Student Guide to Contemporary Physical Geology*, by Dr. John A. Ciciarelli, assistant professor of environmental sciences at the Beaver Campus, has been published by W.B. Saunders Company.

A member of the faculty since 1971, Dr. Ciciarelli is a graduate of the University of Notre Dame, with M.S. and Ph.D. degrees from Penn State.

25-year chairs

"I grew up in State College, and I've seen the town change from a tiny place where you knew everyone to almost a big city," says Warnock Dining Hall Supervisor Helen Haugh, who recently received a 25-year chair. "I have to get away and find some peace and quiet every year."

So for the past 25 years, Miss Haugh has taken a leave of absence from her job and driven to Alaska for the summer.

Four years ago, she began building her retirement home in that state on the five acres she owns on the Kaslof Peninsula. "I did most of the work myself," she says, "except for the really heavy stuff. I had to have someone come in and drill the well for me."

Miss Haugh discovered Alaska while employed by Stouffer's Corp., the company she worked for after graduating from Penn State in 1952 in hotel administration. A friend who was living in Alaska invited her to visit, and Miss Haugh was so tempted she quit her job and headed North. She spent a year working in a salmon cannery before deciding to return to State College to locate a better paying job.

In 1955, Miss Haugh became an assistant food supervisor in Waring Dining Hall. She moved to Pollock Dining Hall in 1961 and in 1964 was made dining hall supervisor of Warnock. Her duties include making certain that 21 meals are served each week of the term, requisitioning food and supervising the staff.

Miss Haugh has been a skier for 40 years and is the leader of the Penn State Ski Patrol covering Bald Knob and Black Moshannon Areas. She is an avid whitewater canoeist and enjoys running the Red Moshannon River. She says she is able also to paddle the Kaslof River which runs through her land in Alaska.

Miss Haugh has her pilot's license, and although she hasn't flown for many years, she is still a member of the Civil Air Patrol.

When lead electrician William B. Gill received his 25-year chair, the Office of Physical Plant didn't have to look beyond the University's Faculty-Staff Directory to issue invitations to his family for the ceremony.

Mr. Gill's wife, Lela, is a clerk in Warnock Hall. Their two daughters, Mary Elizabeth Hosband, and Dorcas Ruth Holt, also work for the University. Mrs. Hosband, who earned an associate degree at the University, is a secretary in Kern; Mrs. Holt is a secretary in Human Development.

Mr. Gill started out as a stockroom man with Food Services, held the same position with the Air Force ROTC, and finally came to Maintenance and Operations in 1967.

Carpoolers

Adair Shildt is seeking a ride from Tyrone, leaving at 9 a.m. or 9:30 a.m. and returning at 7 p.m. Phone 865-1991 or 684-0643.

Patricia Hajzak needs a daily ride from Osceola Mills or Philipsburg, to arrive for work at 6:30 a.m. and leave campus at 3 p.m. Phone 865-1991 or 339-6075.

Retirement

Jeanne M. King, a secretary who joined the staff of the College of Arts and Architecture April 25, 1972, retired Oct. 18.

Obituaries

Dwight E. Younkun, professor of animal science extension, died Nov. 4 at the age of 54.

Professor Younkun, a member of the faculty of the College of Agriculture since 1953, held two Penn State degrees in animal husbandry, a B.S. earned in 1951 and an M.S., in 1953.

Simpson studies one of logic's major theorems

A mathematical logician at the University is working on improving one of logic's major theorems by making it more relevant to the traditional concerns of mathematicians. Stephen G. Simpson, an associate professor of mathematics and a recent recipient of a \$20,000 Sloan Fellowship, is dealing with fundamental mathematical and philosophical concerns in his research.

Dr. Simpson is studying Godel's Theorem, a discovery made in 1931 by the late Kurt Godel, a German logician who eventually emigrated to the United States and worked at the Institute for Advanced Study in Princeton. The theorem states that in any mechanical system of axioms and rules for mathematical reasoning, there will be undecidable propositions of a finite combinatorial nature. In other words, if one is given a system S with a specific set of rules, a great many concrete propositions P can be produced that will make sense within S, but their truth or falsity cannot be determined within S. Godel produced one specific example of such a proposition P. Roughly speaking, Godel's proposition P says that the mechanical system S is free of internal contradiction.

As far as Dr. Simpson is concerned, S has provided a reasonably good model of mathematical reasoning, but P presents problems. "Godel's proposition is artificial because it is a purely logical statement without clear mathematical content," he says. "The statement that S is noncontradictory fails to have any direct relevance to the traditional concerns of mathematics — such as calculus or the theory of numbers."

In his work, Dr. Simpson hopes to be able to discover undecidable statements P whose content will be closer to practical

Anybody There?

In a large and geographically dispersed University such as ours, members of the community are sometimes unaware of colleagues who may be telling in fields either similar or adjacent to their own.

We hope this new column will encourage faculty and staff members to write in:

- (1) to discover if anyone is working in a similar area,
- (2) to invite people to work on a common problem,
- (3) to seek specific knowledge, expertise or information.

Queries directed at kindred researchers should be sent to INTERCOM, Room 312 Old Main. We will publish them upon receipt. Please be specific and include your phone number or the address where you wish to be contacted.

A livestock specialist, he was honored last month by the Pennsylvania Livestock Association as Livestock Man of the Year. Earlier, he had received the award of the Pennsylvania Cooperative Swine Breeders Association.

Claude A. Dutrow, an agronomy technician in the College of Agriculture from 1959 to 1969, died Nov. 3. He was 76.

Promotion

(349-1) The White House Fellowship deadline has been extended from Nov. 17 to Dec. 1, 1980, since few applications had been received. Up to 20 fellowships will be awarded for service as special assistants to the President, Vice President, and Cabinet Officers for one year starting Sept. 1, 1981. Salaries are commensurate with present position. The program is aimed at persons in the early stages of their careers. Call 202-653-6260 for applications. (Ref. ACE/HEN)

mathematics. According to Dr. Simpson, recent work in this area has resulted in the discovery of P statements that are closely related to graph theoretical and sequential convergence problems.

Mathematical logic deals with the foundations underlying all mathematics, but it has important implications for deductive philosophy as well. Mathematical logic asks the questions: Are there limits on mathematical reasoning? Can it predict everything? These are questions that also concern philosophers.

"Math is a paradigm of exact reasoning," Dr. Simpson says, "and philosophers are interested in this. They want to know if precise answers are possible. Math can be used as an example for philosophers to study these questions."

In particular, Godel's Theorem has attracted attention — as a paradigm — from philosophers. So far, mainly analytical philosophers have expressed interest in the theorem, but Dr. Simpson feels that the theorem should attract attention from epistemologists. Epistemology is the branch of philosophy which seeks to answer the questions: What do we know and how do we know it? "Godel's work tentatively suggests that, although the human intellect is limited at any given time within any given level of abstraction, at least some of the practical limitations can be overcome by passing to higher levels of abstraction," Dr. Simpson points out.

Dr. Simpson is not the only mathematician who is working on Godel's Theorem. One of the leaders in this field is Harvey Friedman, a professor of mathematics at Ohio State University. Dr. Friedman will be a visiting professor in the University's Department of Mathematics during Spring Term 1981.

From the Trustee Docket

(Continued from page 1)

New approaches to identifying and attracting women and minority group members, not only for faculty positions but also for leadership roles in the academic administration, are the concern of the eighth study group appointed by the Provost.

In his address, Dr. Eddy pointed out that one over-arching problem for Penn State will be the handling of change.

"Penn State, like most institutions and communities, has a culture of its own," he said. "Its location, its size, its professional orientation, for instance, all contribute to its willingness, or sometimes reluctance, to adapt to changing circumstances and to inescapable forces from the world beyond Penn State."

"In today's rapidly changing educational environment," Dr. Eddy cautioned, "the alternative to institutional ambition — to aggressive adaptability and flexibility — is stagnation."

"If we stand still at Penn State, by standing still we fall backward."

University will not acquire school property located on periphery of Behrend

After several careful studies, the University has decided not to acquire or lease the property of the St. John Kanty Preparatory School in Erie.

"Because of urgent space and related programmatic needs of Behrend College, the University has been attempting during the last decade to obtain State funding for major buildings on the campus," President Oswald told the Trustees. "To date, however, we have been unsuccessful."

"Thus, when the Kanty property became available on the periphery of Behrend, several careful studies were made, including reviews of classroom requirements, demographic factors affecting future Behrend enrollments, curriculum and the need for faculty research space. The purpose was to determine whether the potential space would meet the short- and long-term needs of the campus."

Dr. Oswald further noted that the University, in addition to Behrend's needs, studied the status of the buildings and the needs involved.

"After much discussion and consideration," he added, "it was the general consensus of key administrative staff members that the Kanty property, while meeting some of the short-range needs of Behrend, would not meet the longer-range needs."

In a written statement submitted to the Trustees, there was further noted another distinct disadvantage involving distance. The Kanty and Behrend property lines share a contiguous corner, but the centers of the two sites are approximately one mile apart by path or three miles by county roads.

"Duplication of certain student services would be costly and scheduling of the academic curriculum utilizing the two locations not only would be awkward, but would involve also costly movement of faculty and students back and forth between the two locations," the report stated. "Development of the educational program on the campus would be difficult to accomplish effectively in separated sites rather than all buildings being on one site."

In a discussion of the matter before the Board, Dr. Oswald emphasized that, although the University will not be acquiring the Kanty property, "the needs of Behrend for both program development to meet student interests and for classroom and research space are pervasive and represent an urgent and justified demand upon University resources."

"In Penn State planning for Behrend College, there must be the recognition that Behrend is unique among all Penn State campuses."

The statement to the Board underscored the uniqueness of Behrend as a small, four-year liberal arts college within the Penn State system. Because of this uniqueness, it added, a study on housing is needed, even though the University has resisted recent construction of residence halls on its campuses.

The report noted that the University will continue to look for solutions to Behrend's space problems. In this regard, it emphasized that:

"Capital funds for construction of academic and student service buildings in mid-campus are badly needed to meet current enrollments and programs. These would include funds for classrooms, research space, and possibly student housing."

"While we must continue to seek State funds, it is our intention to proceed as we have done with other campuses with regard to matching gift funds, and to explore other possibilities...."

"It is the University's commitment to do its best to resolve through other means Behrend College's fiscal needs, operating and capital, for generations of students to come."

Changes reported in undergraduate programs

The Trustees were informed of several changes in undergraduate programs to take effect beginning with Fall Term 1981.

An electronics option in the physics major of the College of Science will be offered instead of what has been called the option in electrical engineering.

"The new name will reflect more accurately the program's content and will add prospective students in seeking the appropriate program," said Dr. Robert E. Dunham, vice president for undergraduate studies.

The name change was made, he added, to avoid confusion with the major in electrical engineering offered through the College of Engineering.

Dr. Dunham also announced that the major in biophysics in the College of Science will now be called a major in molecular and cell biology to reflect more accurately the academic emphasis of the program.

The major deals with the study of living systems and their components at the molecular, genetic and cellular levels. Dr. Dunham said the interest in living systems, DNA studies, gene cloning, developmental regulation and hormonal control is being reflected in student interest in the major.

Three options have been created within the geography major in the College of Earth and Mineral Sciences. They are cartography and remote sensing, physical geography and the general option.

"Previously," Dr. Dunham reported, "this major did not specify options and the changes have been made to add coherence to the existing offerings."

The cartography and remote sensing option will prepare students for positions in mapping agencies or for advanced degree study in that specialization.

The physical geography option provides a broad understanding of the earth and environmental sciences in preparation for careers in industry, commerce and government.

The general option is for students who wish to explore an array of topics in the geographic field and who wish to pursue postgraduate study or who want to emphasize a topic for which no option exists.

"This action affects only the geography major in the College of Earth and Mineral Sciences," Dr. Dunham added. "The major in geography leading to a bachelor of arts degree within the College of the Liberal Arts is not altered in any way."

Fall term enrollment climbs to 55,661

The University's Fall Term enrollment totals 55,661 students — a record for the second consecutive year.

"This year's enrollment exceeds the 1979 record by 1,694 students," Provost Eddy said in reporting the final student count to the Trustees.

"New records were set also for the University Park Campus, the Commonwealth Campus system and the Hershey Medical Center," Dr. Eddy added.

The University Park total of 32,704 represents an increase of 743 over last fall, while the Commonwealth Campus enrollment of 17,755 is 941 more students than last year.

Other enrollment totals are: Hershey, 567; Behrend College, 1,796; Capitol Campus, 2,370; and the Radnor Center for Graduate Study, 469.

Individual Commonwealth Campuses which set new enrollment records were: Altoona (1,980 students, up 173); Berks (939, up 91); DuBois (634, up 38); Hazleton (1,124, up 92); Ogontz (2,305, up 151); Worthington Scranton (974, up 29); Shenango Valley (913, up 42); and York (1,015, up 63).

"The University's enrollment picture continues to be bright," Dr. Eddy said. "This fall's performance is the result of a combination of more aggressive recruiting and an emphasis on quality in programs, leading to a higher student retention rate."

Foreign studies program established at Nice

A new foreign studies program with the University of Nice in France will be available to Penn State students who have business or combination French/business majors, starting in Fall Term 1981.

"This imaginative, new opportunity for Penn State students is another dramatic illustration of the results of cooperative planning between and among colleges and departments," Provost Eddy observed.

The program has three goals: to enhance the French language proficiency of its participants, to expose students to the perspectives and philosophies of contemporary European business relationships, and to promote an awareness and appreciation for the historical background and humanistic heritage of western Europe, specifically French and Mediterranean culture."

There will be two programs: Nice I, offered for 12 weeks, for students from the College of Business Administration with little or no proficiency in the French language, and Nice II, a 20-week Fall and Winter Term program offered entirely in French for students with the combination French/business major offered through Liberal Arts.

About 15 to 20 students are expected to enroll in each program.

Sketch plans receive approval of Board

Sketch plans for a particulate emission control system to be installed at the West Campus Power Plant at University Park received approval from the Trustees.

"The plans call for a fabric filter collection system — or 'baghouse' — to remove particulate matter from the power plant emissions," Ralph E. Zilly, vice president for business, told the Trustees.

"These improvements will bring the University's boiler plant into full compliance with State and federal clean air standards."

Mr. Zilly said the fabric filter system will be housed in 59-foot-by-100-foot metal frame building behind the Burrows Road power plant.

"The new building will be erected behind a brick wall, which will be designed to fit in with existing architecture," he added.

A brick smokestack, approximately 200 feet high also will fit in with existing

structures, Mr. Zilly stated. He noted that all dimensions of the building and smokestack are pre-determined by State and federal environmental regulations.

The sketch plans approved were designed by United Engineers and Constructors Inc. Final phase of construction on the filter system is expected to begin next summer and proceed through several phases before completion in March 1984.

Estimated cost of the project is \$6,695,000.

Continuing Education enrollments at record level

Enrollment in all courses conducted by Continuing Education set a record during the 1979-80 academic year, according to Daniel T. Hopkins, CE's acting vice president.

"Total individual enrollment was 135,791," Mr. Hopkins said. "That exceeds by several hundred the number of persons served by Continuing Education in 1972-73, which was the next highest total."

For the 10th consecutive year, enrollment in non-credit courses increased with a record 92,669 students participating. Enrollment in credit courses was 24, 291, and students taking independent study by correspondence numbered 15,834.

Mr. Hopkins also noted an increase of more than 600 in the number of organizations served by Continuing Education. The total for the year was 14,812, including 8,015 business firms and 2,686 schools and school districts.

Other increases were recorded in the community services offered by Continuing Education such as radio and television productions.

The Pennsylvania Technical Assistance Program (PENNTAP), in its 15th year of operation at Penn State, helped business, industry and local governments achieve economic benefits amounting to \$5.5 million in 1979-80. PENNTAP responded to 2,325 technical questions and problems during the year.

Mr. Hopkins also reported growth in the activities of audio-visual services. More than 63,000 films and other media were distributed, a 7.3 percent increase over last year.

Among the innovative programs conducted through Continuing Education during the year were:

— A 60-minute news, feature, and comment television program entitled "Pennsylvania," produced by the Division of Broadcasting and aired statewide on the Pennsylvania Public Television Network.

— A comprehensive instruction program for Pennsylvania State Police responsible for school bus inspections.

— A seminar at Capitol Campus called "Three Mile Island One Year Later: What Have We Learned?" for persons interested in the reactions of the news media, institutions, industries and community members affected by the nuclear incident at the Three Mile Island reactor.

— A program on radiation and health conducted through the College of Medicine and the College of Engineering for 276 representatives of local, state and federal government; educators; health professionals; environmentalists and interested individuals living near the Three Mile Island reactor.

Award funds announced

The Trustees were notified of the establishment of a number of scholarship and award funds. They include:

— A Boyd C. Gartley Memorial Scholarship to recognize agricultural education students interested in agricultural journalism, with an initial principal of \$10,000. A gift contribution from the Inter-State Milk Producers Cooperative, Inc., the fund honors the memory of the late Boyd C. Gartley, a 1941 graduate of the University in agricultural education, who was director of public

(Continued on page 4)

(Continued from page 3)

relations for the cooperative.

A Hum Fishburn Memorial Scholarship to recognize student service to the University's Blue Band program. The initial principal of \$5,000 was received from the Blue Band Record Fund and as gifts from Blue Band alumni. The fund honors the late Dr. Hummel Fishburn, a Penn State alumnus who was joint head of the Departments of Music and Music Education. He was also a director, show designer and announcer for the Blue Band.

— The Robert C. and Dorothy P. Dixon Scholarship to assist students in the Penn State Scholars program. The \$5,000 initial principal has been received from the estate of the late Robert C. Dixon of Pittsburgh, an Arts and Letters major in the Class of 1926.

— An M. M. Garver Fund to defray expenses for speakers in the annual Priestley Lecture Series. The initial principal of the fund, more than \$1,645, is derived from donations made by students and faculty in 1928. Named after a late associate professor of physics, the original gift was invested — with earnings returned to the principal — but never utilized.

A Middle East Foreign Studies Grant to give financial help to students taking part in a foreign studies program in the Middle East. The initial principal of \$1,500 will be donated by Dr. Arthur Goldschmidt, associate professor of history at the University, from royalties from his book, *A Concise History of the Middle East*.

— The Doris Hughes Memorial Award to recognize outstanding international students at the Capitol Campus. More than \$1,500 was contributed by friends and family of the late Doris Hughes, an administrative aide at Capitol.

— A DuPont Polymer Science Award to recognize annually a junior polymer science major for academic excellence, created with an initial principal of \$1,500 contributed as part of the DuPont Polymer Science and Engineering Grant.

— A Tencoco Oil Exploration and Production Scholarship to assist students in the petroleum and natural gas field. The Tencoco Oil Exploration and Production Co. of Houston, Tex., will contribute \$1,000 annually to finance the scholarship.

Construction financing approved by Board

Interim financing of six construction projects through bonds to be issued by the Centre County Higher Education Authority was authorized by the Board of Trustees.

"All of these projects have been fully approved by the Board of Trustees at a previous meeting," Robert A. Patterson, senior vice president for finance and operations, said. "They are in various stages of construction. In one case, the work is completed."

The projects involved are:

- Seating expansion at Beaver Stadium, completed last summer.
- Construction of the indoor sports complex, scheduled for completion in April 1981.
- Hetzel Union Building food service and bookstore renovation, now under way.
- Applied Research Laboratory addition, now under way.
- Construction of waste water treatment system testing equipment, now under way.
- Construction of new clinical sciences wing at the Milton S. Hershey Medical Center, now under way.

Mr. Patterson said the financing of the construction projects will be handled through the Centre County Higher Education Authority, because the unit offers the opportunity for the lowest obtainable interest rates. By effecting a series of leasing arrangements between the University and the Authority, the Authority will be entitled to issue self-liquidating bonds.

Rents paid by the University will be equal to the amounts needed to pay off the bonds over a period of years, he said.

"This method of financing offers the most economical vehicle available for projects of this type," Mr. Patterson told the Trustees.

The Centre County Higher Education Authority was formed in 1979 to finance certain Penn State capital construction projects at minimum cost.

Hershey agreements approved

Affiliation agreements between Hershey's College of Medicine and Centre Community Hospital and Hanover General Hospital were approved by the Board.

Under the pacts, medical students will be able to choose these hospitals for elective clinical clerkships, and a variety of hospital staff members will be able to attend co-sponsored continuing education programs.

Centre Community and Hanover General become the 17th and 18th hospitals with which the Medical Center has affiliations.

Wilkes-Barre auditorium named for George Bierly

The auditorium in the Laboratory Building at the Wilkes-Barre Campus has been named the George W. Bierly Auditorium, in honor of the Campus's director emeritus, who retired Oct. 1.

"During George Bierly's 25 years as director, the Wilkes-Barre Campus became a leader and innovator in many areas of higher education," President Oswald told the Board of Trustees, who approved the action.

As director, Mr. Bierly was instrumental in obtaining the gift of the 50-acre site in Lehman Township which enabled the Campus to move from a crowded urban facility to its present location with attractive grounds and room for expansion.

Under his directorship, the Wilkes-Barre Campus's academic offerings have expanded to include more than 120 bachelor's degree programs and more than a dozen associate degrees.

Search committee

(Continued from page 1)

- officer responsible for personnel, programs, and resources at either departmental or college level.
2. A terminal degree in an appropriate discipline or professional field is preferred.
3. A demonstrated commitment to educational programs which cross the boundaries of disciplines, departments, and college.
4. A demonstrated ability to provide academic leadership, organize tasks, supervise people, and manage funds.
5. Evidence of scholarship, research and professional activity.

Candidates should be available by the summer of 1981. Nominations and letters of application (with resume) should be postmarked by Jan. 31, 1981, to: Dr. Godbey as chairman, HPER Dean Search Committee, The Pennsylvania State University, 205 Old Main, University Park, PA 16802.

Calendar

Nov. 13-22

Special Events

Thursday, Nov. 13

Kern/WPSX-TV, *Cosmos* series, "The Backbone of Night," noon, Kern Lobby. School of Music Common Hour, student performances, 1 p.m., Music Bldg. Recital Hall. English/AHS, poetry reading by five Bulgarian poets, 3 p.m., Rare Books Room. Pattee URTC, *Sly Fox*, 8 p.m., The Playhouse.

Friday, Nov. 14

Last day to sign Fall Term Emergency Loans. Room 106 Shields. Last date to submit petitions to Records Office to graduate in absentia in November. Early registration for Winter Term, 8:30 a.m.-4:30 p.m., Room 112 Shields. Also Nov. 17-20.

Shaver's Creek Nature Center, overnight "Adventure Program" for children 8 and older. Preregistration required, 865-1851 Commonsplace Theatre, *Man of La Mancha*, 7 and 9 p.m., Room 112 Kern. CSA Film, *The Magus*, 7 and 9 p.m., Room 10 Sparks.

SFO film, *Summer of '42*, 7 and 9 p.m., HUB.

Assembly Hall. Sports: soccer vs. Towson State, 7:15 p.m. URTC, *Sly Fox*, 8 p.m., The Playhouse.

Saturday, Nov. 15

Fall Term classes end, 12:25 p.m. Commonsplace Theatre, *King of Hearts*, 7 and 9 p.m., Room 112 Kern. CSA Film, *The Magus*, 7 and 9 p.m., Room 10 Sparks.

URTC, *Sly Fox*, 8 p.m., The Playhouse.

Sunday, Nov. 16

Commonsplace Theatre, *King of Hearts*, 7 and 9 p.m., Room 112 Kern. CSA Film, *Man of La Mancha*, 7 and 9 p.m., Room 10 Sparks.

Monday, Nov. 17

Final examinations, through Nov. 21. Commonsplace Theatre, *King of Hearts*, 7 and 9 p.m., Room 112 Kern. Color Slide Club meeting, 7:30 p.m., Room 189 MRL.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 473-1387). Applications for these staff vacancies will be accepted until 5 p.m., Nov. 20, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran. PURCHASING ASSISTANT, APPLIED RESEARCH LABORATORY. Responsible to the Manager, Purchasing and Subcontracts, for expediting open purchase orders, routine purchasing and informal file maintenance. Expedite quotations and information requests for the acquisition of surplus equipment from Government inventories. Assist in Shipping/Receiving area at associate. Required degree or equivalent, plus one to two years of effective experience in purchasing, expediting, accounting, or related field.

STUDENT UNION MANAGER/ACTIVITIES COORDINATOR, Behrend College. Responsible to the Dean of Student Affairs, Behrend College, for the supervision and program direction of The Behrend College Student Union and the coordination of student organization activities and programs. Master's degree or equivalent in student personnel or related field, plus one to two years of effective experience in student union management and/or student activities coordination.

ADMISSIONS AND STUDENT RECORDS COUNSELOR, Behrend College. Responsible to the Admissions Office for tasks related to admissions and for proper development and maintenance of associated records, systems and procedures. Interviewing, screening and making preliminary admissions decisions for non-degree, advanced standing and undergraduate residents; instructing students; and providing substantive responses to parents and prospective students requesting information about academic programs and degree requirements. Travel and the presentation of recruiting programs are also required. Bachelor's degree, plus one to two years of effective experience in an academic environment, or a master's degree or equivalent in student services and up to one year's experience.

Tuesday, Nov. 18

Adult Education-Brown Bag Luncheon, 12:30 p.m., Room 101 Kern. Discussion of "Literacy, Poverty and Social Control."

Thursday, Nov. 20

Kern/WPSX-TV, *Cosmos* series, "Journeys in Space and Time," noon, Kern Lobby.

Saturday, Nov. 22

Sports: basketball (exhibition), "Athletes in Action," 8:10 p.m.

Seminars

Friday, Nov. 14

Analytical Chemistry, Digna Cipris, Allied Chemical Corp., on "Carbon Monoxide in Electroorganic Synthesis," 11:10 a.m., Room 333 Whitmore. Mathematics, Stephen Milne, Texas A&M, on "A Rogers-Ramanujan Bijection," 4 p.m., Room 104 McAllister.

Friday, Nov. 21

Analytical/Physical Chemistry, Dale Holecck, Shell Oil Co., on "Solid State N.M.R.," 11:10 a.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Ralph Rautf, painting and photographs; Ray Wilkins, drawings; Paolo Soleri, windbells, all through Nov. 15.

HUB: Richard L. Crowley, st.

photographs and clocks; "80 years of Political campaigns," campaign buttons and memorabilia from the private collection of Ernie Weidhass, Art Alley. Mary Cady Rubinstein, recent prints, The Browning Gallery. Lanny Sommes, color photographs; Ron Gallat, ceramic sculpture, The Gallery. All exhibits through Nov. 15.

Kern Gallery: "Art of This Decade - 1980," and David Weland, wooden boxes, both through Nov. 21. Ann Deering, ceramics, through Nov. 20.

Museum of Arts: European paintings, contemporary prints and 18th-20th century works from the permanent collection; The Art of the Needle.

Pattee Library: Mac Levey and his students, photographs. East Corridor Gallery, Kevin Barr, paintings, Lending Services Lobby. Nathan Goodson, glassware, Main Lobby.

From the Press

Other Summers: The Photographs of Horace Engle. By Edward Leos. 170 pages. 100 illustrations. \$19.75.

While he was a professor of journalism at the University (he retired in 1978), Mr. Leos was told by a student of the discovery of some old family photographs. Investigation revealed a body of work by a previously unknown photographer, Horace Engle, a not particularly successful mineral consultant, explorer and promoter who had worked for a year with Thomas Edison. Engle's striking circular images, some of which were uncovered in a corn crib, were made by using a Buttonhole, Vest, or Gray-Stirn Concealed Vest Camera, known in its day as a "detective camera."

Mr. Leos devoted nine years to reclaiming Engle's images — the majority defaced by exposure to weather, vermin and mould. In addition to the Gray-Stirn photographs, he found a number made with No. 2 and 3A Kodaks. He has also prepared a biography of the photographer. "With any camera Engle seeks the significant moment," Professor Leos says. "His concern for nuances of tone, gradations and texture is grounded partly in the desire for the most efficient expression of that moment, but it is also revealing as the record of his subject itself. Engle documents how he sees."

The book contains a number of telling portraits, as well as scenes of life in Pennsylvania and Virginia towns taken during the late 19th and early 20th centuries. In his efforts to catch his subjects in candid postures, Engle was many years ahead of his time, Mr. Leos comments.

Penn State Intercom

News in Brief

University's holiday recess will save energy costs

The decision to add three days to the University's holiday recess, announced earlier this month by President Oswald, will increase the amount of energy costs avoided at University Park alone to approximately \$124,500.

"Adding Dec. 22 and 23 and Jan. 2 means we actually gain seven extra days of reduced temperatures and ventilation in campus buildings," Ralph E. Zilly, vice president for business and chairman of the Executive Energy Conservation Committee, reports.

"University Park buildings may be used by members of the faculty and staff during the break," he said, "but temperatures will be kept between 50 and 60 degrees Fahrenheit and ventilation will be off." Provisions will be made to protect animal quarters and other critical areas from dangerous fumes and lowered temperatures, he added.

The Executive Energy Conservation Committee (EECC) will review all requests for exceptions to the reduced temperature and ventilation plans. Requests should list specific days and times of day when the exception is desired, and they should be endorsed by the appropriate dean or administrative officer.

The committee will review all requests received by Dec. 9, Mr. Zilly said.

"We expect that adequate planning by individuals will reduce the number of requests for exceptions significantly as compared to last year," he commented.

At campuses other than University Park, requests for exceptions will be reviewed by the appropriate provost, director or administrative officer.

At a recent meeting, EECC reaffirmed its long-standing policy of prohibiting the use of electrical holiday decorations in University buildings.

Parking regulations changed for November 28

Parking rules and regulations at University Park will be modified to allow any area parking for faculty and staff on Friday, Nov. 28. However, vehicles still must be parked in bona fide parking spaces, and regulations concerning individual reserved parking spaces will remain in effect.

Incoming football traffic patterns for the Penn State-Pitt football game will be put into effect at approximately 9:30 a.m. and could create inconveniences for those attempting to depart the north and east sections of campus before 3 p.m. when the traffic patterns are reversed.

Parking lots at Shields Building and Wagner Building will be closed. Curtin Road in front of Shields and Wagner Buildings from University Drive to Shortlidge Road is a pedestrian walkway during home football games. Parking lots at East Halls, which can be entered from University Drive only, should not be used unless the vehicle is to remain until traffic patterns change at 3 p.m.

The football game will begin at 1:10 p.m. and is expected to end at about 4:30 p.m. Heavy traffic to and from the game is anticipated.

Overnight parking banned on most University lots

Overnight parking will be prohibited in most University lots from Dec. 1 through March 15, according to Allan A. Derzak, University parking coordinator.

"The winter parking regulations are designed to ensure that lots are clear of

vehicles so that snow removal crews can work efficiently in the event of snow," he said.

Signs stating, "no parking 2:30 a.m. to 6 a.m.," will be posted at the entrance of lots affected. The regulation will be in effect whether or not any snow is on the ground.

Lots where overnight parking will be banned include: Red A, B, E, F, G, H, K and M; Green B, C, D, E, F, G and L; Yellow A, B, C, E, F, H, K, and L; Brown A, D, F, G and J; Blue A, D, F, G and K; Orange A, B, D, E, F, H, L and M.

The Keller Conference Center parking area, visitor parking areas and the nursing education patient unloading area are also off limits to overnight parking.

Overnight parking will be permitted in areas not posted for snow removal, but vehicles must be moved by 7 a.m. if the area is not an open lot, Mr. Derzak says.

Open lots not posted for snow removal include Blue E, near the Computation Center; Red C, the gravel lot near the Foods Building; and Orange F, near the football practice field.

Genetics fall symposium

"The Genetics of Development" is the topic of the annual fall symposium of the Intercollege Graduate Program in Genetics, to be held Wednesday, Dec. 3, from 1 to 5 p.m. in Room 112 of the Kern Graduate Building.

Presenting talks will be Richard M. Losick, professor of biology at Harvard University; John G. Scandalios, professor and head of the Department of Genetics at North Carolina State University; and John Gearhart, associate professor of anatomy at the University of Maryland's School of Medicine.

Sponsorship of the symposium is being shared by the Department of Biology, the Department of Microbiology, Cell

Biology, Biochemistry and Biophysics and the Intercollege Graduate Program in Genetics.

Christmas trees available

The Penn State Forestry Society will once again provide Christmas trees for departments or for faculty and staff members wishing them for home use.

Trees may be reserved by calling Karen Kniesly at 865-4237 Monday through Friday, 8 a.m. to 5 p.m. The trees are Douglas firs, and will range in size from 5 to 9 feet. There is a set price of \$14 per tree, and callers are asked to specify the size desired when they order.

Payments for trees ordered by departments should be made through Interdepartmental Transfer on delivery. Trees for personal use can be paid for by check, made out to the Penn State Forestry Society.

Deliveries will be made Dec. 7 through Dec. 13.

Third annual ethnic fair held at New Kensington

Approximately 8,000 persons visited New Kensington Nov. 8 and 9 to attend the third annual Ethnic Fair held at the Campus.

They sampled homemade delicacies ranging from lasagna and barbecued ribs to halupka and strudel. Intricately patterned Ukrainian Easter Eggs were on display for viewers in the Campus's art gallery, along with exhibits of Czechoslovakian glass and Irish Belleek china.

Several performing groups — among them kilted Scottish dancers and a Slovene band — performed, and there was a full evening's entertainment put on by I. Campagnoli, the national touring company of the Italian Sons and Daughters of

University Faculty Senate discusses conversion to semester calendar

Conversion from the term to an early semester calendar will not cause an increase in tuition or a reduction in faculty salaries, according to a statement prepared by President Oswald and issued as a door handout at the University Faculty Senate meeting on Nov. 11.

Responding to questions raised by Senate Council, the President made available his views on these and several other issues before the Senate began its special forensic session on calendar conversion. Dr.

Oswald noted that:

- (1) The total tuition for an academic year will not increase as a function of a calendar change.
- (2) There will be no reduction in any individual faculty salaries as a result of a calendar change.
- (3) Authority to approve or alter academic curricula or courses will remain with the academic departments and colleges and the Senate. "There is and will be no administrative requirement that the faculty teaching load under a semester calendar have a particular arithmetical relationship to current load," Dr. Oswald pointed out, adding, "It is erroneous to assume that a current load of two (2) three credit courses per term must automatically result in three (3) three credit courses per semester. Instead, the academic departments of the University will have every

opportunity to reexamine and restructure the degree programs and the service functions so that the educational needs of our students are met."

- (4) There is no reason to assume that calendar conversion would have a direct effect on current policy encouraging Commonwealth Campus students to complete two baccalaureate years at their campus of entry whenever possible.

The President also offered examples of an early semester calendar for the years 2000-2001. Students would arrive for Fall Semester on Aug. 22, and classes would begin Aug. 28, breaking on Labor Day and for a Nov. 23-25 Thanksgiving holiday. Classes would end Dec. 13, and would be followed by an exam period lasting through Dec. 20 and a midwinter recess from Dec. 21-Jan. 9.

Spring Semester classes would begin Jan. 15. A holiday break would occur March 17-25, and classes would end May 4, with exams May 7-11.

Two 50-minute class meeting schedules were also included in the handout. (See box on page 4.)

In a brief statement to the Senate, the President noted the extent to which faculty input has helped direct the calendar review process. "I want you to know," he continued, "that today I am a listener and not a speaker. Forums are the heart of the University process; today I am privileged

to listen to the many voices that represent our academic community."

Reports were presented by representatives of ten Senate committees which had considered the effects of calendar conversion in their areas of responsibility. Their comments ranged from Frank Mallette (Academic and Physical Planning), who noted "no insurmountable obstacles; practical solutions can be visualized for all problems known to us" to John D. Martz (Research), who said, "...we are obliged to state our concern over the potential damage to the climate for research."

President Oswald has announced that he will be glad to receive recommendations on calendar conversion from faculty and staff members, as well as students, throughout November and December.

Dr. Mallette and his fellow committee members urged the appointment of a full-time, high level administrator to handle a conversion and noted that the process could "only be justified if all University systems are thoroughly examined and modified as appropriate."

Robert W. Carrubba (Curricular Affairs) added his belief that a conversion would provide departments with a unique opportunity to reconsider all of their offerings.

Carter Ackerman, representing Commonwealth Campuses and Continuing Education, presented a list of "Benefits" and "Liabilities," the latter echoing the concerns of several faculty members from the York Campus (Leonard Berkowitz, John Dawson, and Robert Himmer) who addressed the session.

Among the issues which they raised were lack of flexibility and monotony in faculty workload scheduling, the possibility of faculty teaching responsibilities reducing time available for research; less flexibility for students needing to earn money while in school; and increased demands for early transfers from the Campuses to University Park.

Problems of reduced flexibility were raised also by a number of Senate committees such as Admissions, Records, and Scheduling and Intra-University Relations. Speaking for the Libraries Committee, Philip Klein said that the effect of calendar conversion would put a severe burden on the Libraries' already strained facilities.

Faculty workload was a leading concern of many speakers. Richard McCarl, chairman of Undergraduate Instruction, noted this in his Committee's report, although he said that the Committee "could live with either calendar."

Reporting on a poll taken in the College of the Liberal Arts, Marylee Taylor called the question of teaching load "crucial." A

Penn Staters

Dr. Paul T. Baker, head of the Department of Anthropology, recently acted as the U.S. convenor and chairman of a joint French-United States seminar entitled "Man and His Environment at High Altitude." The seminar was hosted by the College de France and its results will be published by the French Centre National de la Recherche Scientifique. In addition to the French and American invitees, participants included UNESCO-sponsored scientists from the Peoples Republic of China, Nepal, Chile, and Great Britain. While in Europe, Dr. Baker presented invited lectures at the Universites of Pau, Aberdeen, and Newcastle-upon-Tyne. He also presented a paper entitled "Food and Nutrition in the Andes" as part of a conference on The Anthropology of Food and Nutrition held at the Werner-Reimers Stiftung Conference Center in Bad Homburg, West Germany.

Dr. Joseph K. Puthenpurayil, associate professor of chemistry at McKeesport, has been invited to serve on a review panel for the National Science Foundation's Pre-College Teacher Development in Science program.

Three members of the Cooperative Extension Service staff have been named recipients of Distinguished Service Awards presented by the National Association of Extension 4-H Agents. Honored "for outstanding achievements in youth programming" were Mae D. Bleiler, Berks County Extension home economist; Carroll L. Howes, associate State 4-H program director at Penn State; and Jered K. Tyson, Adams County Extension agent.

Dr. Edwin L. Herr, professor and head, Division of Counseling and Educational Psychology, received the Eminent Counseling Practitioner Award for 1980 at the annual Convention of the Pennsylvania Personnel and Guidance Association in Valley Forge on Oct. 31.

On Nov. 18, Theodore L. Gross, provost and dean of The Capital Campus, participated in a special forum, "Public Higher Education and Humanities: Changing Demands and New Expectations," at the annual meeting of the American Association of State Colleges and Universities in Williamsburg, Va.

Professor Rustum Roy, director of the Materials Research Laboratory, presented the seminar at the Physics Division of the Westinghouse Research Laboratories in Pittsburgh, where he spoke on the "Science and Technology of Radioactive Waste Management." He was also the featured speaker at the Conference on "Impact of Government Regulation" sponsored by the Institute for Theological Encounter between Science and Technology of Washington University in St. Louis. Professor Roy, who is chairman of the Science, Technology and Society program, discussed the novel concept of the R&D budget as the principal regulatory mechanism in society.

Dr. Richard A. Cohen, assistant professor philosophy at the Worthington Scranton Campus, gave an invited paper at a Sartre colloquium held at Towson State University in Baltimore on Nov. 19.

Appointments

John C. Alessie as assistant professor of sociology at Behrend, B.A., Loyola U. of Chicago; M.A., Eastern Illinois U.; Ph.D., Southern Illinois U. Formerly assistant professor, Gannon College.

Isabel D. Alvarez-Borland as assistant professor of Spanish at DuBois, B.A., Lyncoming College; M.A., Middlebury College; Ph.D., PSU. Formerly instructor, DuBois.

Unal B. Bakker as assistant professor of agricultural extension, B.S., M.S., Ankara

U., Turkey; M.S., Ph.D., Cornell U. Formerly program director, extension associate, Cornell.

Abdelali M. Benharbit as assistant professor of mathematics at York, B.S., M.S., Ph.D., Oklahoma State U. Formerly assistant professor, Saudi Arabia, visiting assistant professor, Oklahoma State U. Robert P. Brooks as assistant professor of wildlife technology at DuBois, B.S., Muhlenberg College; M.S., Ph.D., U. of Massachusetts.

Robert E. Burkholder as assistant professor of English at Wilkes-Barre, B.A., Washington College; M.A., Ph.D., U. of South Carolina.

Suellen G. Butler as assistant professor of sociology at McKeesport, B.A., Wagner College; M.S., Ph.D., Virginia Polytech. & State U.

John L. Bryant as assistant professor of English at Shenango Valley, B.A., M.A., Ph.D., U. of Chicago. Formerly assistant professor, Widener College.

Stephen N. Calculator as assistant professor of communication disorders, B.A., Oswego State College; M.S., Genesee State College; Ph.D., U. of Wisconsin-Madison.

Donald D. Cameron as assistant professor of radiology at Hershey, A.B., Brown U.; M.D., Baylor College of Medicine. Formerly, director of radiology, Memorial Hospital, Colorado Springs.

M. Jeya Chandra as assistant professor of industrial engineering, B.E., Madras U., India; M.S., PSU; Ph.D., Syracuse U. Formerly instructor, Syracuse.

Patrick G. Cheney as assistant professor of English, B.A., U. of Montana; M.A., Ph.D., U. of Toronto. Formerly writer-editor, U.S. Geological Survey.

Peter G. Christensen as assistant professor of speech communication, B.A., Dartmouth College; M.A., U. of Oregon; Ph.D., Stanford U.

Lee D. Corao as assistant professor of electrical engineering, B.S., PSU; Ph.D., U. of Iowa. Formerly assistant professor, Southern Illinois U.

Jon P. Davis as assistant professor of chemistry at Ogontz, B.S., Marquette U.; Ph.D., Columbia U. Formerly visiting assistant professor, U. of Missouri-Columbia.

Joseph E. Dreiss as assistant professor of behavioral sciences at Capital, B.A., Manhattan College; M.A., Columbia U. Teachers College; Ph.D., Duquesne U. Formerly assistant professor, Seton Hill College; director of consultation and education services, Latrobe Area Community Mental Health Center.

Kathleen B. Evensen as assistant professor of post-harvest physiology, B.A., SUNY-Potsdam; M.S., U. of New Hampshire; Ph.D., U. of Florida. Formerly post-doctoral research associate, U. of Missouri.

Heidi E. Faletti as assistant professor of German at Behrend, M.A., San Francisco State U.; M.A., Ph.D., UC-Berkeley. Formerly assistant professor, U. of Pittsburgh; visiting assistant professor, Eastern Washington U. and Vassar College.

Robert S. Fowler as assistant professor of mathematics at Delaware County, B.A., Swarthmore College; M.A., Ph.D., Cornell U. Formerly acting assistant professor, U. of Washington, Seattle.

Robert A. Francesconi as assistant professor of speech communication at Behrend, B.S., Southern Connecticut State College; M.A., Ph.D., Bowling Green State U. Formerly assistant professor, North Carolina State U.

Andris Freivalds as assistant professor of industrial engineering, B.S.E., M.S., Ph.D., bioengineering, M.S., computer, informational & control—all U. of Michigan. Formerly lecturer and assistant research scientist, U. of Michigan.

Roger P. Gaumond as assistant professor of bioengineering, B.S., MIT; M.Eng., California Polytechnic State U.; D.Sc., Washington U., St. Louis.

Mylar R. Giri as assistant professor of physics at Hazleton, B.S., Bangalore U., India; M.S., Indian Institute of Technology, Ph.D., Rutgers U. Formerly visiting scientist, DuPont.

Lee F. Goldsberry as assistant professor of

education, B.A., Purdue U.; M.A., Governor's State U.; Ed.D., U. of Illinois. Gary C. Grabner as assistant professor of mathematics at Shenango Valley, B.S., M.S., Ph.D., Ohio U. Formerly instructor, Ohio U.

Christine Gregg as assistant professor of biology, B.S.N., Case-Western Reserve U.; M.S., Ph.D., U. of Michigan. Formerly assistant professor, U. of Rochester.

Jose M. Guevara as assistant professor of civil engineering, B.S.C.E., U. of Puerto Rico; M.S., Ph.D., U. of Illinois. Formerly assistant professor, Texas A&M.

James W. Halle Jr. as assistant professor of special education, B.A., U. of Wisconsin-Madison; M.S.W., U. of Michigan; M.A., Ph.D., U. of Kansas.

Randy Y. Hirokawa as assistant professor of speech communication, B.A., U. of Hawaii; M.A., Ph.D., U. of Washington, Seattle.

Bang H. Hwang as assistant professor of anatomy at Hershey, B.S., M.S., National Taiwan Normal U.; Ph.D., U. of Iowa. Formerly research associate, U. of Iowa.

Philip Jenkins as assistant professor of administration of justice, B.A., M.A., Ph.D., Clare College, Cambridge U., England.

William A. Kelly Jr. as assistant professor of finance, B.A., Rice U.; Ph.D., U. of North Carolina-Chapel Hill. Formerly visiting assistant professor, U. of North Carolina.

Walter P. Kilareski as assistant professor of civil engineering, B.S., M.Eng., Ph.D., PSU. Formerly coordinator, special studies research, PennDOT.

Debra M. Kosteski as assistant professor of psychology at Behrend, B.S., St. Joseph's College; M.A., Ph.D., Temple U. Formerly instructor, PSU.

Frank J. Kristine as assistant professor of chemistry at Mont Alto, B.S. Ed., Indiana U. of Pa.; M.S., Seton Hall U.; Ph.D., U. of Pittsburgh.

Teresa G. Lee as assistant professor of Spanish, B.A., U. of Chile; M.A., U. of Kansas; Ph.D., UC-San Diego. Formerly lecturer, UC-Santa Cruz.

Daniel M. Leivant as assistant professor of computer science, B.Sc., Hebrew U., Jerusalem; M.A., Ph.D., U. of Amsterdam. Formerly, visiting assistant professor, Cornell U.

Thomas R. Lindolf as assistant professor of speech communication, B.A., U. of Florida-Gainesville; M.A., Ph.D., U. of Texas-Austin.

Robert T. McGrath as assistant professor of nuclear engineering, B.S., M.S., M.A., Ph.D., U. of Michigan.

Susan M. McHale as assistant professor of human development, B.A., Bucknell U.; M.A., Ph.D., U. of North Carolina-Chapel Hill. Formerly project director, North Carolina Memorial Hospital.

Nancy E. McKenzie as assistant professor of philosophy, B.A., Georgia State U.; M.A., Duquesne U.; Ph.D., SUNY-Stony Brook. Formerly instructor, Vassar College.

Stephen R. Mahaney as assistant professor of computer science, B.A., Reed College; A.M., Dartmouth College; M.S., Ph.D., Cornell U.

Mary S. Mander as assistant professor of speech communication, B.A., Fontbonne College; Ph.D., U. of Illinois. Formerly visiting lecturer, U. of Illinois.

Francis R. Menotti as research associate, ARL, B.S., Boston College; M.S., Ph.D., U. of Connecticut. Formerly senior analyst, Analysis & Technology, Inc.

Daniel J. Meyer as assistant professor of agricultural engineering extension, B.S., U. of Wisconsin-Platteville; M.S., Colorado State U.; Ph.D., U. of Wisconsin-Madison.

John F. Miller as assistant professor of mathematics at Berks, B.S., Muhlenberg College; M.S., Miami U., Ohio; Ph.D., Catsaqua Area School District.

Linda R. Miller as assistant professor of English at Berks, B.A., Hope College; M.A., Ohio State U.; Ph.D., U. of Delaware. Formerly visiting assistant professor, Temple U.

Mary D. Oskaben as assistant professor

of radiology at Hershey, B.A., M.S., U. of Illinois; Ph.D., Jefferson U.; M.D., Temple U. Medical School. Formerly cardiology fellow, Massachusetts General Hospital.

Robert M. Owens as assistant professor of computer science, B.S., PSU; M.S., Virginia Polytech. & State U.; Ph.D., PSU. Formerly programmer, IBM.

Susan Pozo as assistant professor of economics, B.A., Barnard College; Ph.D., Michigan State U.

Carl R. Pratt Jr. as assistant professor of biology at Wilkes-Barre, B.S., Muhlenberg College; Ph.D., Syracuse U. Formerly assistant professor, SUNY-Plattsburgh.

Frank P. Preisse as assistant professor of journalism, B.A., Duke U. Formerly instructor, Michigan State U.

Sandra Prince-Embury as assistant professor of psychology at Capital, B.A., Goucher College; M.A., Temple U.; Ph.D., U. of Pennsylvania. Formerly assistant professor, U. of Baltimore.

Philip M. Prinz as assistant professor of communication disorders, B.A., UCLA; M.S., Northwestern U.; M.S., Ed.D., Boston U. Formerly assistant professor, U. of Colorado-Denver.

Anna V. Resurreccion as assistant professor of human nutrition extension, B.S., U. of the Philippines; M.S., Ph.D., U. of Georgia. Formerly assistant professor of nutrition, PSU.

Mark J. Roberts as assistant professor of economics, A.B., Syracuse U.; M.A., Ph.D., U. of Wisconsin-Madison.

William J. Sakoda as assistant professor of psychology, A.B., Harvard College; Ph.D., UC-Berkeley. Formerly assistant professor, Columbia U.

Sudhir K. Sastry as assistant professor of agricultural engineering, B.Tech., Indian Institute of Technology; M.Sc., Ph.D., U. of Florida.

Sibyl M. Severance as assistant professor of English at Delaware County, B.A., U. of Michigan; M.A., Ph.D., U. of Delaware. Formerly assistant professor, Brynawyn College.

David Shapiro as assistant professor of economics, B.A., U. of Michigan; M.A., Ph.D., Princeton U. Formerly assistant professor, Ohio State U.; senior research associate, Center for Human Resources Research.

Gary W. Shulberg as assistant professor of mathematics at Delaware County, A.B., M.A., Ph.D., Temple U. Formerly lecturer, Rutgers U.

Gordon L. Shulman as assistant professor of psychology, B.A., Yale U.; M.S., Ph.D., U. of Oregon.

Henry J. Sommer III as assistant professor of mechanical engineering, B.S., M.S., Ph.D., U. of Illinois.

James B. Stewart as assistant professor of economics, director of Black Studies, B.S., Rose Hulman Institute of Technology; M.A., Cleveland State U.; Ph.D., U. of Notre Dame. Formerly assistant professor, director of Black Studies, U. of Notre Dame.

Richard G. Stoker as assistant professor of communication disorders, B.S., M. Ed., U. of Utah; M.Sc., Salford U., England; Ph.D., McGill U., Canada.

Mangalam M. Subramaniam as assistant professor of mathematics at Delaware County, B.A., Nizam College, India; M.A., Osmania U., India; Ph.D., U. of Wisconsin-Milwaukee. Formerly assistant professor, U. of Wisconsin-West Bend.

Thomas F. Sweeney as assistant professor of dairy science, B.S., M.S., U. of Maryland; Ph.D., U. of Kentucky.

David W. Wall as assistant professor of computer science, B.S., U. of New Mexico; M.S., Ph.D., Stanford U.

Harold J. Webster as assistant professor of biology at DuBois, B.S., Muhlenberg College; M.S., Rutgers U.; Ph.D., U. of Tennessee. Formerly assistant professor, College of New Rochelle.

Joel M. Weinstein as assistant professor of surgery and medicine at Hershey, B.A., U. of Chicago; M.D., Albert Einstein College of Medicine. Formerly fellow, U. of Iowa.

assistant professor, Vanderbilt U.

Promotions Staff Exempt

Joseph Bonner Jr. to senior nuclear education specialist in Engineering.
Harlan L. Bowersox to conference assistant in Continuing Education.
David J. Brown to director of Mental Health Center in Student Administrative Services.

James P. Bucher to assistant director for placement services in Student Administrative Services.
Gloria D. Decker to administrative assistant in the Office of Vice President for Undergraduate Studies.
Diane L. Denson to financial aid coordinator in Student Administrative Services.

Thomas E. Glumack to senior physical therapist at Hershey.

Kevin G. Hayes to assistant director in Agricultural Communications.

H. Richard Hesso to associate director in Student Administrative Services.

Kathryn K. Lynott to systems planning specialist in Planning and Budget.

Tao L. Nakpil to senior applications programmer/analyst in Planning and Budget.

Marcia R. Parker to senior staff technologist at Hershey.

Joyce S. Rigby to administrative assistant, resident instruction at Delaware County.

Louise E. Sandmeyer to assistant director for career counseling and planning in Student Administrative Services.

Elizabeth S. Shultz to business manager in Intercollegiate Research Programs.

Jacquelyn Stirn to senior applications programmer/analyst in Planning and Budget.

Betty J. Turiano to production coordinator in Management Services.

Staff Non-Exempt

Kathleen E. Bock to supervisor, filing and retrieval section at Hershey.

Gerry L. Castellano to junior programmer in Management Services.

Margaret A. Dietz to research technician at Hershey.

Susan M. Ensminger to research technician at Hershey.

Akemi Furukawa to senior research technician at Hershey.

Glenda K. Hostetter to respiratory therapy clinical specialist at Hershey.

Gloria R. Penman to assistant to head, operations in I.D.I.S.

Barbara A. Serniak to senior staff nurse at Hershey.

Clerical

Diane Lyn Booth to secretary in Business Administration.

Vickie R. Cunningham to survey data clerk in Student Administrative Services.

JoAnne Dreilbliss to secretary Bin Intercollegiate Research Programs.

Katherine J. Fegley to senior radiology records clerk at Hershey.

Donita L. Gibboney to clerk, typist A in Agriculture.

Rela Gilliland to clerk, records A in Registrar.

Mona L. Graybill to clerk, records A in Student Administrative Services.

Jeanne E. Harvey to secretary B in Intercollegiate Research Programs.

Jeanne C. Kelley to clerk, receptionist A in Student Administrative Services.

Mary Kay Montovino to secretary Bin Undergraduate Admissions.

Marlene A. Neubert to secretary C in Education.

Susan Nicora to secretary B at Mont Alto.

Lisa E. Ott to clerk, typist A in Agriculture.

Annet M. True to secretary B at Hershey.

Technical Service

Robert L. Bumbaugh to patrol officer at Mont Alto.

Cathie H. Burns to animal caretaker A in Intercollegiate Research Programs.

Linda L. Garner to patient service aide at Hershey.

Patricia A. Hankinson to dining hall worker A in Housing and Food Services.

Harry G. Heffner to airframe and

powerplant technician in Business Services.

Anthony Wasilewski to maintenance worker (general) C at Berks.

Ronald R. Wyre to animal caretaker A in Intercollegiate Research Programs.

Bookshelf

Dr. Robert A. Pitts, associate professor of business administration, is co-author of *Strategic Management: A Casebook in Business Policy and Planning*, published recently by West Publishing Company.

Thirty-four cases covering a range of business topics such as environmental analysis and forecasting, political and negotiated strategies and design and operation of strategic planning systems are featured.

Dr. Pitts' co-authors for the college-level text include Dr. Charles W. Hofer of New York University, Dr. Edwin A. Murray of Boston University and Dr. Ram Charan of the Wharton Applied Research Center.

Retirements

Dr. Chang

Mr. Snyder

Dr. Chen-Chi Chang, professor of religious studies, will retire from the University with emeritus status on Dec. 1 after 14 years on the faculty.

Born in Canton, China, in 1920, Dr. Chang was educated in a Tibetan monastery and later taught at the University of Nanking. He also taught in India and worked with the Voice of America, Radio Free Asia and the U.S. Army Language School.

Dr. Chang, a nationally recognized authority on Buddhism, came to Penn State from the University of Nebraska, where he was professor of Oriental philosophy.

He has written several books on Buddhism, including *Four Essays on Buddhist Philosophy*, *The Practice of Zen*, *The Essential Teachings of Tibetan Tantra*, and *The Buddhist Teaching of Totality*.

In recent years he has completed an edited translation of *The Treasury of Mohayana* in English, and translated Tibetan Buddhist scripture into Chinese.

Roy F. Snyder, Perry County Extension agent, retired Nov. 15 with 32 years of service.

A native of Berks County, he served as assistant county agent in Snyder, Cumberland, and Perry counties prior to his promotion to county agent in 1953.

His B.S. degree was granted by Penn State in 1948, with a major in dairy husbandry. He received his M.A. in extension education from Michigan State University in 1959.

During his tenure in Perry county, the Dairy Herd Improvement Association testing program has more than doubled in enrollment and production per cow has increased by about 75 percent. Also through his leadership in instituting educational programs, brucellosis was eliminated as a major disease in the County.

Margaret R. Roscoe, a secretary at the Fayette Campus, retired Nov. 3 after serving on the staff since Sept. 1, 1969.

Obituary

Velda A. Price, a janitorial worker in the Office of Physical Plant, died Nov. 10. She was 60 years of age and had been a member of the staff since 1960.

Elsewhere in Academe

Michigan voters defeated a tax cutting proposal which academic leaders had predicted would cause the closing of 12 of the state's 15 state colleges and universities and force the three largest campuses to reduce their operations by half. Higher education interests worked vigorously to defeat the measure, after an October opinion poll indicated that up to 60 percent of the electorate might vote in its favor. Close to a million voters were contacted in the final days of the campaign.

A scarcity of jobs resulting from the economic recession is being credited by officials in higher education for an upsurge in undergraduate enrollments. According to a survey made by *The Chronicle of Higher Education*, enrollments are up 3.8 percent over last fall. This is the largest one-year jump since 1975 (another recession period). Public institutions, *The Chronicle* reported, registered a 4.1 percent gain, compared with 2.5 percent for private

colleges and universities. Public institutions in the Great Lakes and Plains states showed the strongest growth — 6.3 percent. Although the Census Bureau projects a sharp drop in the number of 18-year-olds during the decade, the decline will not begin until 1982.

Faced with the biggest retrenchment in the University of Minnesota's history, a \$14.1 million cutback in state funds, its officials have drawn up a plan which includes a 10 percent surcharge on tuition for winter and spring quarters; a proposal to raise \$5 million by borrowing against University-owned land, \$2.5 in internal cuts in the operations and maintenance budget, and drastic cuts in special programs supported by the state (among them general agricultural research, the Agricultural Extension Service, and intercollegiate athletics).

"There is no way a reduction of this magnitude can be accommodated painlessly," President C. Peter Magrath told the institution's Board of Regents. "Further, if this level of cut is made permanent... significant elements of the University mission will be fundamentally impaired and in some cases crippled."

News in Brief

(Continued from page 1)

Artisans

Crafts booths were set up, and artisans demonstrated such skills as basket weaving, quilting, the painting of German hex signs and paper cutting.

"The Ethnic Fair is sponsored by the Campus's Advisory Board to help us stay in close touch with the community," explains Campus Director Robert D. Arbuttle. "A high percentage of our students are the first members of their families to attend college, and their parents still identify strongly with their ethnic backgrounds. Because it attracts so many people to the New Kensington Campus for the first time, the Fair also helps our student recruitment program."

This year, the Campus was able to bring in troupes of professional performers for the Fair because of a grant awarded to it by the Pennsylvania Council on the Arts. The Ukrainian Easter Egg exhibit received support from the Folk Art Division of the National Endowment for the Humanities.

Thanksgiving birds on sale

Poultry sales has turkeys, pheasants, chickens and eggs for your Thanksgiving feast at the poultry farms (next to the outdoor swimming pool). Poultry Sales is open every Thursday from 10 a.m. to 12 noon and 12:30 p.m. to 3 p.m. During Thanksgiving week, they will be open on Tuesday, Nov. 25.

Kern term break hours

Kern Cafeteria announces the following hours during term break:

— Friday, Nov. 21: Monday, Nov. 24; Tuesday, Nov. 25; Wednesday, Nov. 26 — 7 a.m. to 2 p.m.

— Saturday, Nov. 22; Sunday, Nov. 23; Thursday, Nov. 27; Friday, Nov. 28; Saturday, Nov. 29; Sunday, Nov. 30 — Closed.

— Monday, Dec. 1 — 7 a.m. to 5 p.m.

— Normal business hours of 7 a.m. to 6 p.m. will be resumed on Tuesday, Dec. 2.

Hershey opens MS Diagnostic, Evaluation Center

A Multiple Sclerosis (MS) Diagnostic and Evaluation Center sponsored by the Central Pennsylvania Chapter of the National Multiple Sclerosis Society has been opened at Hershey Medical Center.

Such centers are sponsored by the society to coordinate a number of diagnostic, evaluation and rehabilitative services for patients referred by their own family physicians or neurologists.

Hershey's is the second one in Pennsylvania and is one of some 80 sponsored by the national society throughout the country.

The director of the MS Center at Hershey, Dr. Richard B. Tenser, assistant professor of medicine (neurology) and microbiology, emphasized the importance of coordinated medical and social services for MS patients.

"MS is a chronic, crippling disease of the central nervous system that has been called the foremost neurological problem of our time," he said. "It sometimes is very difficult to diagnose and, with the cause and cure unknown, it carries with it sociological as well as medical difficulties."

Library to reduce hours during term break

During term break, Pattee Library will close on weekends and will operate on a 7:45 a.m. to 5 p.m. schedule during the week. The library will close Thanksgiving Day.

Interest rate increased for U.S. Savings Bonds

The Department of the Treasury has just announced that the interest rate on Series EE U.S. Savings Bonds purchased on and after Nov. 1, 1980, will increase to 8 percent when held to maturity.

In addition, all outstanding Series E, EE, H, and HH Savings Bonds will benefit from a 1 percent increase to their next maturities. Also, the maturity on Series EE Bonds is being shortened from 11 to 9 years.

The University provides the opportunity to purchase U.S. Savings Bonds through payroll deductions.

AAUW requests books

The State College Branch of the American Association of University Women among requests donations of all types of used books for its annual sale, which will be held the last week in April.

Donations may be deposited inside the yellow collection bin on Aaron Drive at N. Atherton Street (opposite Miller-McVeigh), at the box just inside the door at Thrift Drug (Westerly Parkway), and at Schlus Memorial Library. Pickup of large donations can be arranged by calling 237-8068.

In addition to books, AAUW also accepts sheet music, maps, LP records, art prints, dress patterns, children's magazines, literary and historical journals, and a selected group of other magazines: *Antiques*, *Entire*, *Needlework*, *Arizona Highways*, *Popular Mechanics* and *Genealogy*.

Calendar

Nov. 20 -
Dec. 4

Special Events

Thursday, Nov. 20
Last day of final examinations for Fall Term.
Kern/WPSX-TV, Cosmos series, "Journeys in Space and Time," noon, Kern Lobby.

Friday, Nov. 21
Residence Halls close for Fall Term, 3 p.m.

Saturday, Nov. 22
Sports: basketball (exhibition), "Athletes in Action," 8:10 p.m.

Monday, Nov. 24
Fixed date for meetings involving Commonwealth Campus faculty.

Tuesday, Nov. 25
Fixed date for meetings involving Commonwealth Campus faculty.

Galley Talk, 10:30 a.m., Museum of Art, Larry Salmon, curator of textiles, Museum of Fine Arts, Boston, on "The Art of the Needle."

Thursday, Nov. 27
Thanksgiving Day, University offices closed

Friday, Nov. 28
Sports, football vs. Pittsburgh, 1:10 p.m., basketball vs. Ursinus, 8:10 p.m.

Saturday, Nov. 29
Fall Term Commencement, 10:30 a.m., Rec. Hall.

Sunday, Nov. 30
Student arrival day, Residence Halls open 10 a.m.

Monday, Dec. 1
Distribution of faculty studies in Pattee, 7:15 a.m., Room 106 Central Pattee. Information, 865-5429.

Orientation and advising.

Tuesday, Dec. 2
Registration for Winter Term, 8 a.m.-5 p.m., IM Bldg.

Continuing Education registration, noon-8 p.m., Room 101 Kern.

Alard String Quartet, 8:30 p.m., Music Bldg, Recital Hall.

Thursday, Dec. 4
Winter Term classes begin, 8 a.m.

Continuing Education registration, 9 a.m.-3 p.m., Room 101 Kern.

HUB Craft Center, Open House, 7:30-9:30 p.m., Room 312 HUB.

Seminars

Thursday, Nov. 20
MCB, Jack Anastasia, Proctor & Gamble, on "The Biological Function of Sucrose Polyesters (a nonacademic talk) - Some Thoughts on Industrial Research," 1:30 p.m., Room 101 Althouse (new listing).

Friday, Nov. 21
Analytical/Physical Chemistry, Dale Hokelec, Shell Oil Co., on "Solid State N.M.R.," 11:10 a.m., Room 333 Whitmore.

Tuesday, Nov. 25
Biology, Theodore Hollis, Biology, on "Biology of Atherogenesis," 10 a.m., Room B Mueller.

Wednesday, Dec. 3
Intercollege Graduate Program in Genetics:

Richard M. Losick, Harvard Univ., on "Proteins that Regulate Prokaryote Development," 1 p.m.; John G. Scandalios, North Carolina State Univ., on "Regulation of Gene Expression and Developmental Programming," 2 p.m.; John Gearhart, Univ. of Maryland School of Medicine, on "Cell Lineage Analysis of Mammalian Development," 3:30 p.m., Room 112 Kern.

Thursday, Dec. 4
Physics, B.P. Stoecheff, Univ. of Toronto, on "New Views in Spectroscopy," 3:50 p.m., Room 445 Davey.

Acoustics, Medhat Sadek, Univ. of Birmingham, England, on "The Rational Design of Forging Machines from the Dynamic and Acoustic Point of View," 4 p.m., Room 73 Willard.

Exhibits

Kern Gallery: Art of This Decade - 1980 and David Weiland, wooden boxes, through Nov. 21. Alison Taggart, photographs, opens Nov. 24. International Artifacts exhibition and sale, opens Dec. 1.

Museum of Art: European paintings, contemporary prints and 18 to 20th century works from the permanent collection: The Art of the Needle.

Pattee Library: Marc Levey and his students, photographs, through Nov. 24. Robert Sadin, lithographs, opens Nov. 24. East Corridor gallery, Kevin Bar, paintings, through Nov. 26. Dave Hopkins, paintings and drawings, opens Nov. 26. Lending Services Lobby, Nathan Gooden, glassware, through Dec. 1; Jack Enold, sculpture, opens Dec. 1, Main Lobby.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by filing the Employment Division, 1865-1387 (network line #73, 1387). Applications for these staff vacancies will be accepted 5 p.m. to 4 p.m., 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT DIRECTOR, SPECIAL PROGRAMS, GIFTS AND ENDOWMENTS Responsible within the Penn State annual giving program for providing guidance, counsel and coordination of Commonwealth Campus and University Park college annual fundraising programs. Responsible for developing special constituency appeals and campaigns; programs to maximize corporate gift matching opportunities and reunion case and other special fund raising programs. Bachelor's degree required. Two to three years of effective experience in public relations, promotional activity or related external relations work in higher education. Strong oral and written communication skills, creativity and initiative are essential. Knowledge of printing production helpful.

PROGRAM ASSISTANT, CONTINUING EDUCATION, YORK CAMPUS Provides assistance to the Area Director in planning, implementing and conducting a Continuing Education program for the campus service area; responsible for supervising office procedures, exercising fiscal controls and maintaining related records. Bachelor's degree, plus one to two years of related experience.

ASSISTANT MANAGER, COLLEGE OF MEDICINE, HERSHY Responsible to Manager, Respiratory Therapy, for various administrative functions and supervision of technical personnel in addition to performing clinical duties within the teaching hospital. High school graduate and graduation from an AART approved two-year program with registration, plus one to two years of effective experience.

ASSISTANT ACCOUNTANT, CONTROLLERS OFFICE Responsible to the Director of Accounting Operations for assistance in a wide variety of duties, working toward the overall goal of obtaining well rounded accounting experience in all areas assigned within the Office of the Controller. Bachelor's degree equivalent, preferably in accounting or related field, and nine to twelve months of effective experience.

GRAPHIC ARTIST, COLLEGE OF MEDICINE, HERSHY Responsible to the Department Head of Educational Resources for the design and production of graphics as requested by clients. Equivalent to an associate degree from an art or drafting trade school and two years of related experience.

RESEARCH ENGINEERING ASSISTANT, COLLEGE OF SCIENCE Be knowledgeable about computer and microcomputer systems, hardware and software. Design and repair capital equipment in RF, Analog and digital circuits. Bachelor's degree in electrical engineering or equivalent, or a closely related discipline. FCC First Class License and amateur radio experience desirable.

MANAGER, PHYSICIAN REIMBURSEMENT, COLLEGE OF MEDICINE, HERSHY Responsible to the Associate Hospital Director for managing the professional admissions, outpatient registration, collections and professional revenue of the clinical departments within the Medical Center. Master of health administration/concentration in finance, accounting or equivalency, plus at least three to four years of effective experience in medical group management, health care accounting, third party professional relations or other similar financially oriented position dealing with hospital or physician professional revenue systems.

SUPERVISOR, THIRD PARTY REIMBURSEMENT AND COST ACCOUNTING, COLLEGE OF MEDICINE, HERSHY Responsible to the Director of Financial Affairs for the management of all cost accounting and third party reimbursement functions, monitoring and interpretation of all pertinent regulations and legislation and maintenance of controls on third party accounts receivable. A bachelor of science degree in accounting, business administration or equivalency, plus three to four years of hospital accounting experience with emphasis on cost and budgetary reports and control.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-370

ALTERNATE A - 50 Minute Class Schedule

ALTERNATE B - 50 Minute Class Schedule

Faculty Senate

(Continued from page 1)

majority of Liberal Arts faculty members, she said, believed that their teaching and research would suffer if the number of courses taught in three terms were to be distributed over two.

"If instead faculty were to teach the number of courses per semester which they presently teach each term," Dr. Taylor continued, "a majority favor the calendar change and predict it would benefit both teaching and research."

Two senators who spoke as representatives of larger University constituencies supported calendar change. Citing the pedagogical advantages, William Park announced that at the Department of Mechanical Engineering had voted unanimously in favor of returning to a semester calendar. He noted that the Department ranked first in terms of research funding and second in student enrollment in the College of Engineering.

Pedagogical advantages were also cited by Carol Cartwright, speaking for colleagues in the College of Education. She foresaw an improved climate for instruction and advising and "no negative impact on research in our College, which is among the top 10 in the United States in research productivity." A dissenting vote - on the grounds that pedagogical advantages were unproved - was filed by College of Education Senator Paul Weener.

As the debate veered back and forth, some senators expressed alarm about a decrease in time available for sabbatical

leaves. Chris Hopwood, vice president of the Academic Assembly, was worried about the expenses of conversion. Questions were raised about accommodating transfer students in colleges such as Earth and Mineral Sciences, which are "net transfer in" colleges (John Cahir). The adverse effect of conversion on the recruitment of highly qualified teaching assistants was also raised (Martha Halsey).

When one faculty member pointed to the difficulties of finding 15-week long practicum experiences for students (Michael Smyer), another (Martha Adams) replied that instead of thinking about scheduling as it currently exists under the term system, faculty members might consider arranging half-semester practicum to be combined with coursework.

Arthur O. Lewis suggested consideration of a semester system that "fits more usefully into patterns to which we are already accustomed," one that would fall between Labor Day and Christmas. Cyril Griffiths told his colleagues that "the hidden agenda is the validity of the term system itself," developed at a time when universities were adopting an "assembly line approach" to get students through to their degrees. If this is what we really want, let's go to a quarter system and push as many through as possible, he added.

And finally several faculty members, characterizing themselves as "mossbacks," remarked that they had heard these songs before - 20 years ago when the conversion from the semester to the term system was made.

From the Press

Russia on Canvas: Ilya Repin. By Fan Parker and Stephen Jan Parker. 178 pages. 60 illustrations, 4 color plates. \$29.75.

Repin stood in the center of the Russian cultural life of his day. Painting during the last quarter of the 19th century and the first quarter of the 20th, he was able to capture the images of the famous - Tolstoy, Musorgsky and Turgenev - as well as those of his less fortunate countrymen - "The Volga Boatmen," "The Beggar Girl" and "The Cossacks."

This is the first book in English to focus on Repin, whose works are still popular in his native land. Several of the paintings included in this volume have never previously been reproduced. The authors have written of Repin within the context of the political, social and artistic activities of his time. Fan Parker headed the Russian Department at Brooklyn College before her retirement. Stephen Parker is associate professor of Slavic languages and literatures at the University of Kansas.

Theravada Meditation. By Winston L. King. 172 pages. \$15.

The first book in English to relate modern forms of Theravada meditational practice to its Indian roots, this volume rectifies the publishing imbalance toward Mahayana and Zen. The author has written six previous books on comparative religion and Buddhism and has been a visiting professor in the Far East as well as at Vanderbilt, Grinnell, Colorado State and Oberlin.

Penn State Intercom

News in Brief

Employees to receive checks prior to Christmas break

The University will distribute payroll checks to all employees on Friday, Dec. 19, prior to the holiday season break. Both bi-weekly and end-of-month checks will be issued. However, they will be dated according to normal distribution dates — Dec. 23 for bi-weekly (covers work performed Nov. 30-Dec. 13) and Dec. 31 for monthly.

"The early distribution of checks is being done as a convenience for employees," said Robert A. Patterson, senior vice president for finance and operations. "They will be able to avoid returning to campus during the break, just to pick up paychecks."

"At the same time, it will enable the University to assure the checks will be available when due, without disrupting the holiday shutdown. Employees are alerted not to attempt to cash the checks before the proper dates."

Mr. Patterson said area banks have been cautioned not to accept the checks in advance. Payroll deposits to bank accounts will be made on Dec. 23 and 31, he said.

Faculty/student exchange

An agreement providing for exchanges of faculty and students has been signed by the University and the Swedish Fulbright Commission.

Goals are to allow faculty members from Sweden and Penn State to compare research work and to provide graduate students with the opportunity to do research in areas not represented at their own institution.

During the 1981-82 academic year, a

Liberal Arts faculty member will spend at least three months at a Swedish university on a Fulbright grant. Five graduate students from Swedish universities will study at the College of the Liberal Arts.

Terrace Room to hold candlelight dinners

The HUB Terrace Room will hold two candlelight dinners Thursday and Friday, Dec. 11 and 12, as part of the University's International Week celebration. The dining room will be open from 4:45 p.m. to 6:45 p.m.

On the menu are coq au vin, rib of beef with Yorkshire pudding, fritto misto de pesce, lamb and pineapple kabob, and currant glazed pork birds.

Assorted vegetables, salads, and desserts will be available, and singing and dancing will be provided by members of the Ukrainian Club.

University receives grant

J. Carroll Dean, manager of energy conservation programs, announced that Penn State has been awarded \$66,772 by the federal Department of Energy for technical assistance to perform engineering analyses at 27 University buildings.

"The analyses will result in recommendations for energy conservation projects in those buildings," he said.

"Fifteen of the buildings are at University Park; and the other 12 are at our Beaver, Hazleton, Worthington Scranton, Wilkes-Barre, Altoona, Capital, Delaware, Ogontz, Schuylkill and York campuses."

The grant was made on a matching basis with Penn State also contributing \$66,772 to the project. Work is already underway, with the engineering firms of Smith, Miller and Associates and Berger/Spieris performing the analyses.

Directory additions

Three University Division of Instructional Services Production Sections were omitted from the Departmental Listings on Page 24 in the 1980-81 Faculty/Staff Directory.

They are:

Graphics Services, 15 Mitchell 865-0421

Photographic Services, 13 Mitchell 865-6507

Television & Film Production, 120 Mitchell 865-7548

Reading/writing center opens

A new Reading/Writing Center begins operating this term.

Located in Room 216 Cedar Building, the Center's goal is to provide assistance in reading, writing and studying to students who need help in those skills even though their test scores may exempt them from current developmental programs.

Dr. John Harwood, director of composition in the Department of English, and Dr. Mary Dupuis, associate professor of education in the Division of Curriculum and Instruction, are co-directors of the Center.

"At present, students who are weak in these skills are divided among programs and courses offered in the College of Education and the College of the Liberal Arts," Dr. Harwood explains. "Not all undergraduates who need help are getting it."

The Reading/Writing Center will be open to any undergraduate who is having difficulty completing reading or writing assignments in undergraduate courses at University Park, provided the student is not already served by Developmental Year, English 4 or Reading, Communication and Language Education (RECELD) 5 courses.

Two doctoral students, one each from

the Department of English and the Division of Curriculum and Instruction, will staff the Center, which is expected to be open approximately 40 hours a week.

"In Winter Term, the population served will be approximately 50 students," Dr. Dupuis says. "The number will be limited in order to assure the high-quality tutoring necessary to test the program."

Faculty members, counselors and advisers may alert students to the availability of the Center, the directors note. Information may be obtained by calling 863-2937 or 865-6568.

Penn State courses adopted

The College of Engineering at The University of Wisconsin has adopted three Penn State correspondence courses for its Independent Study by Correspondence Program. The three courses — Engineering Mechanics 12 (Statics), Engineering Mechanics 12 (Dynamics), and Engineering Mechanics (13) (Strength of Materials) — are basic courses in many baccalaureate engineering programs. The courses were written and recently revised by Dr. Andrew Pytel, associate professor in the Department of Engineering Science and Mechanics. Dr. Pytel's co-author on the revisions was Nicholas Sepe of the Virginia Power and Light Company.

Natorium to be named

The formal naming of Penn State's McCoy Natatorium will take place at a 7 p.m. ceremony Friday, Dec. 5, as part of the 12th Annual Penn State Swimming and Diving Relay Championships.

The building is being named in honor of the late Ernest B. McCoy, director of athletics and dean of the College of Health, (Continued on page 8)

Radnor Center offers varied programs

"How do you spell Radnor?"

The enthusiastic and hard working staff of the Radnor Center can hardly be blamed for bristling slightly at the question when it comes from a fellow Penn State. But as the University's newest unit (the move to Radnor from King of Prussia was undertaken in 1978) and because of its special mission, the name of the Center is still not a household word among members of the University community.

What is Radnor?

Director Helmut Weber describes its unique qualities:

- Located in southeastern Pennsylvania, Radnor is the first Penn State unit to integrate fully its resident instruction and continuing education missions. It reports to both Graduate School Dean James B. Bartoo and CE Acting Vice President Daniel T. Hopkins.
- Radnor offers no undergraduate resident instruction, concentrating entirely on master's degree-level graduate programs.
- While all Commonwealth Campuses have continuing education programs, Radnor's, in the area of conferences and seminars, attempts to focus on professional/post-graduate level programs, often aligned with areas in which graduate degrees are offered by the Center.
- Master's degree programs are geared

to the working professional. Classes begin at 4:30 p.m. on week days, continue on into the evening and spill over into Saturdays.

- The Center does not own its physical plant. It leases a former elementary school from the Radnor Township School District.
- The Center's staff has developed the flexibility necessary to offer graduate training programs directly on site in corporations and businesses.

Currently, for example, 125 engineers are working toward master's degrees in engineering science offered by Radnor at the Naval Air Development Center in Warminster. (This program is also open to all persons admitted by Penn State.) Other courses or workshops have been presented at Ford Aerospace and Communications in Lansdale; at the Burroughs Corporation in Paoli and Downingtown; at Lankenau Hospital and Franklin Institute in Philadelphia; and at a variety of other companies and organizations.

— Radnor has five full-time faculty members, three in engineering, one in mathematics, and one in special education. It supplements this staff with qualified part-time faculty members from the area and with faculty from the University Park, Delaware County and Ogontz Campuses, who commute to the Center to teach courses in the Master of Public Administration, Master of Education, and Master of Regional Planning degree programs.

The origins of Radnor help explain its present direction. Dr. Weber, who began teaching part-time at the Center in 1962, becoming director in 1968, was an engineer with General Electric when in 1961 the company moved part of its

(Continued on page 8)

Quinn named to new post

Dr. Robert G. Quinn, dean of academic instruction for Commonwealth Campuses, has been appointed special assistant to President Oswald effective Jan. 1.

"During the next year, Dr. Quinn will work closely with me and the senior officers of the University in an advisory capacity in the development of University-wide computing and informational systems," Dr. Oswald said in announcing the appointment.

"This will include developing a long-range plan in such areas as word processing, communication and computing systems to support University instructional, research and public service activities. Like all major universities, Penn State is faced with rapidly evolving micro-electronic technology, and Dr. Quinn — with his background as system-wide administrator, scientist and electrical engineer — is uniquely qualified to serve as an advisor."

Dr. Oswald said Dr. Quinn will work closely as an ex-officio member of the University Computer and Information Systems Planning Committee and its two sub-committees and with the heads of the University's principal computation and communication units.

Dr. Quinn was graduated from Drexel University with a bachelor's degree in

(Continued on page 8)

Penn Staters

Dr. Herman Cohen, professor of speech communication, has been elected president of the Speech Communication Association of Pennsylvania. The Association includes members of the speech profession in colleges and universities, secondary and elementary schools, community and junior colleges, in business, and the Pennsylvania Department of Education. Jeanne M. Lutz, instructor of speech communication, has been re-elected to a three-year term as executive secretary of the Association.

Dr. Charles C. Kolb, assistant professor of anthropology at Behrend, has been named to a one-year term as secretary-treasurer of the Public Committee for the Humanities in Pennsylvania. The committee, a statewide funding agency affiliated with the National Endowment for the Humanities, awards funds to applicants to conduct programs intended to enhance public appreciation and awareness of the humanities in contemporary life.

In the second week of November, Thomas J. Knight, professor of American studies and history, presented a series of invited lectures on "Technology and Development" at the *Comité de Operación y Fomento de Actividades Académicas* of the *Instituto Politécnico Nacional* in Mexico City. The lectures were entitled "Technology and Policy," "Technology and Democracy," and "Technology and Utopia." The Instituto Politécnico Nacional, the second largest institution in Mexico, also invited Dr. Knight to tour its laboratories and to discuss Mexican scientific and technology policy with its faculty members and administrators. At Penn State, Dr. Knight's work on technology and development has been done mainly in connection with the Science, Technology, and Society Program and the Institute for Policy Research and Evaluation.

Dr. Heinz K. Henisch, professor of physics and the history of photography, presented lectures in Mexico, California and Michigan. At the University of Mexico, he discussed the relationship between electronic transport theory and solar cells and appeared for scheduled talks with the *Consejo Mexicano de Fotografía*. He also presented colloquia on relaxation semiconductors in the physics department at UCLA's Riverside campus and at Wayne State University in Detroit.

In November, Dr. Robert A. Schlegel, assistant professor of molecular and cell biology, presented a talk entitled "Control of Mammalian Cell Proliferation" at the SUNY at Stony Brook. He also lectured at the Albert Einstein School of Medicine on "Mercopyrine 540: A Fluorescent Membrane Probe Which Detects Leukemia Cells and Immature Hematopoietic Cells."

Dr. Dorothy V. Harris, professor of physical education, has been elected as the first educator-researcher member of the Women's Sports Foundation Advisory Board.

Dr. Gerhard F. Strasser, assistant professor of German, was an invited speaker at a symposium on "Athanasius Kircher and His Relationship with the Learned Europe of his Day," held at the Herzog August Bibliothek at Wolfenbüttel, Germany. The paper illustrated in a paradigmatic way the more than 15 years of correspondence between Kircher, the 17th century Jesuit polyhistor and forerunner of Leibniz, and the scholar Duke August II of Brunswick-Wolfenbüttel, as well as several other North German Protestant princes, who supported Kircher's research work in Rome.

Thomas B. Jurchak, Lackawanna County Extension director, has received the 1980 Cooperative Extension Service Award for

outstanding educational programming. Dr. Thomas B. King, associate dean for extension, said Jurchak was cited for outstanding programs in the areas of milk marketing and vegetable production.

Jurchak is author of a milk marketing newsletter distributed to 26,000 dairymen and in 1979 received the Pennsylvania Association of Farmer Cooperatives Master Educator Award for his work with farmer cooperatives.

Dr. J. Cordell Hatch, professor of agricultural communications, spent October in Swaziland, Africa, designing communication technology components for projects in environmental conservation education, cropping systems research and extension, and teacher training and support for primary and secondary schools. His work was sponsored by the United States Agency for International Development and the Academy for Educational Development.

George W. Crowther, chief of Safety and Security at Hershey, has been elected secretary-treasurer of the Society for Hospital Safety and Security of the Hospital Association of Pennsylvania.

Dr. John King Gamble, head of the Division of Social and Behavioral Sciences at Behrend College, addressed the 14th annual conference of the Law of the Sea Institute, held in Kiel, West Germany, last month. Dr. Gamble, a member of the executive board of the Institute, discussed a draft of a treaty prepared at the Third United Nations Conference on the Law of the Sea.

Eunice N. Askov, professor of education, attended an invited conference on "Reading Expository Prose" sponsored by the Wisconsin Research and Development Center for Individualized Schooling at the University of Wisconsin—Madison. Her essay, written in reaction to the formal presentations given at the conference, will be included in a book to be published by Academic Press.

Dr. John S. Nisbet, professor of electrical engineering and director of the Ionosphere Research Laboratory, has been elected chairman of the Board of Trustees of the Upper Atmosphere Research Corporation. UARC is a consortium of Universities in the United States and Canada formed to develop the large facilities needed for cooperative research on the upper atmosphere.

Dr. John E. Baylor, professor of agronomy extension, has been named recipient of the 1980 Agronomy Extension Education Award presented by the American Society of Agronomy (ASA). This is the highest Cooperative Extension Service Award presented by ASA. Dr. Baylor has been primarily responsible for the developing Extension educational programs related to forage crop improvement. He currently serves as coordinator of Extension agronomy programs.

James J. Kelly, coordinator of the Division of Undergraduate Studies' Academic Information Support Program, has been elected to a second term of office as president of the northeast region of Academic Affairs Administrators (AcAAd).

Staff development

Nineteen employees at the Hershey Medical Center completed an eight-week Supervisory Management II course. They are:

Carol Behl, manager, Bookstore; Barry Bowers, supervisor, shipping & receiving; Receiving; Barry Brosey, senior health monitoring technician, Health Physics; Dorothy Ecklund, administrative aide, Pediatrics; Earl Eshenauer, supervisor, Bio-Medical Electronics Lab; Esther Gunning, laboratory supervisor, Comparative Medicine; Barbara Haas,

administrative assistant, Behavioral Science; Mary Horst, administrative assistant, Biological Chemistry; Dolores Hudock, secretary, Psychiatry; Michael Kuntz, manager, animal resource facility, Comparative Medicine;

Anne Kustas, secretary, Comparative Medicine; Arlene Liddy, employment specialist, Personnel; Jeannine Maillet, administrative aide, Pathology; Virginia Mullen, administrative assistant, Obstetrics & Gynecology; Lawrence Reynolds, Jr., senior medical photographer, Educational Resources; Stephen Shireman, scheduler, Maintenance & Operations; Maxwell Stevenson, operations foreman, Maintenance & Operations; Meredith Swauger, employment specialist, Personnel; Charles Williams, Jr., communications coordinator, General Services.

Promotions

Staff Exempt

Dennis P. Craig to programmer/analyst A in Management Engineering. Deborah Devin to administrative assistant in Intercollege Research Programs. Kate G. Felix to staffing coordinator at Hershey.

Robert H. Kellar to programmer/analyst A in Management Engineering. JoAnn T. Nesgoda to dining hall supervisor at Capital. Frank Pope to data administration coordinator in Management Services. Diane M. Sublisky to assistant dining hall supervisor in Housing and Food Services. Frank W. Williams to housing supervisor at Capital.

Henry L. Wilusz to engineering systems analyst in Management Engineering. Pamela G. Wissinger to supervisor, information processing in Libraries.

Clerical

Patti A. Bennett to clerk, receptionist A in Student Administrative Services. Nancy M. Derk to clerk typist A in Continuing Education.

Paula K. Dunlap to data processing library clerk in Management Services.

Doris Guanowsky to secretary B in Student Administrative Services.

Carol J. Hendershot to clerk typist A in Continuing Education.

Margaret A. Johnstonbaugh to secretary C in Intercollege Research Programs.

Mae A. Judy to secretary A in Human Development.

Susan E. McMurtrie to secretary B in Engineering.

Donna L. Mowers to data preparation operator B in Alumni Association.

Polly Jo Mothersbaugh to secretary B in Education.

Deborah A. Norwicke to secretary B in Engineering.

Cheryl J. Rhen to secretary A in Gifts and Endowments.

Michelle D. Robison to secretary C in Education.

Jeanne C. Snyder to data preparation operator A in Alumni Association.

Donna L. Spicer to data preparation operator B in Management Services.

Technical Service

Robert G. Brodzina to barn worker, milker in Agriculture.

25-year chair

Harry L. Gunter, a Waste Water Treatment Plant operator in Physical Plant, recently received his 25-year chair from the University.

Mr. Gunter came to the University in 1955 as a utility man at the HUB. He left to enter military service, returned to the HUB in 1959, became an operator in the Waste Water Treatment Plant in 1967 and later transferred to the Power Plant as a coal and ash equipment operator. He returned to the Waste Water Treatment Plant as an operator this year.

"He's a good dependable worker," says his supervisor, Gardner Wagner. In his duties as an operator, Mr. Gunter is responsible for the proper functioning of all plant equipment in the afternoon and night operations, including changing tanks, drawing samples, and making necessary adjustments.

Mr. Gunter's future plans include continuing to work at his present position, but indulging in as much hunting, fishing and camping as his spare time allows.

He and his wife, Janice, live in Phillipsburg. They have two sons, Lee and William.

Retirement

Old Main's "answer lady," Mildred Knudsen, is retiring from the University Jan. 1 after 20 years of service.

Visitors to Old Main in search of maps, facts about the campus and Penn State history, or information about the Land Grant Murals have all been helped by Mrs. Knudsen at her post behind the lobby Information Desk.

"If Mildred isn't able to come up with the answer to a question she's been asked, I can assume the information isn't available," says Karen Rugh, manager of Campus Relations, the office in which Mrs. Knudsen works as an administrative aide.

Mrs. Knudsen came to Penn State in 1960 after she had finished raising her three sons (all of whom graduated from Penn State). She worked as secretary to McKay Donkin, vice president for finance and treasurer of the University, and then from 1967-69 as an administrative assistant to the Dean of Women, Dorothy Lipp Harris.

Her next job, and the one of which she's proudest, was helping to start the Volunteer Service Center. Ann Cook, with whom Mrs. Knudsen worked, recalls: "Mildred was the big push behind the Center. She really put her heart into it, spending hours with students."

Mrs. Knudsen also worked as secretary to Dr. Stanley O. Kenberny, senior vice president for identification, for three years before embarking on her job at the Information Desk, which also includes scheduling for the Speakers Bureau and assisting with special programs and commencements.

When she retires, Mrs. Knudsen hopes to find a part-time job that will enable her to continue helping others—but allow her more time to spend with her five grandchildren and to travel.

Obituaries

Wendell MacRae, who retired July 1, 1960, died Nov. 28. He joined the University staff on Dec. 6, 1952, as publications production manager in the Department of Public Information.

Andrew W. Case, professor emeritus of art, died Nov. 28. A member of the University faculty from 1926 until his retirement in 1962, he was primarily known for his watercolor painting. He was acting head of the Department of Art in 1956 and founded Phi Gamma Alpha, fine arts honorary.

In the interest of making Christmas shopping easier, INTERCOM presents its second annual listing of great gift ideas

The Museum of Art

The Museum of Art's gift store, located in the Visual Arts Building, is filled with a collection of items from all over the world, selected by Aviva Gorlow, the gift store manager. The store is open from noon to 5 p.m., Tuesdays through Sundays. Closed Mondays. Choose from:

- embroidered antique material shoulder bags from India (\$6)
- puppets in native dress from Nepal (\$12.50)
- brass animal key rings (\$7, \$9)
- Sansano-Bori animal carvings made from one piece of wood (\$3.25 to \$5.90)
- antique prints of Pennsylvania (\$20 and up)
- Noah bells from India (all sizes - 80¢ to \$10)
- ceramic candlesticks from Mexico (\$8.75 to \$10.50)
- applied wall hangings from Egypt (\$13.50)
- etchings by David Bigelow (\$15 to \$35)
- For children, stocking stuffers or presents that are sure to delight include:
- Peruvian dolls in native dress (\$2 to \$4)
- plastic squares building sets (\$4.25)
- abacus with instructions (\$3.25, \$5)
- Origami paper (\$1.75)
- kaleidoscopes (\$2.20 to \$4.50)
- jumping jack hand toy (\$1)
- flutes from Yugoslavia and Bolivia (\$2, \$2.75)
- Balancing Act (magnetized sculpture toy) (\$6)
- Rainbow Disk (\$1.50)
- miniature paint set (80¢)
- bird whistles (45¢) and Mexican ceramic whistles (\$1)

The Museum has a small but distinctly different line of rings, pins, earrings and necklaces.

The rings are mostly sterling silver; however, some contain stones such as

that can be found at University Park. The following campus locations will be open until Dec. 19, unless otherwise specified.

- garnets and jade (\$4 and up). Agate rings are available for \$1.
- The earring selection consists of sterling silver, Delftware, and delicately enameled flower earrings (\$4 and up).
- There are also unique necklaces and pins:

- Kohl bottle necklaces from India (\$6-50)
- pewter pendants from Sweden (\$4 to \$7)
- enamel on sterling pendants from China (\$13 to \$29)
- necklaces from Afghanistan (\$12)
- enameled pins (\$3.50) and pendants (\$7) from a Connecticut artisan

The book selection at the gift store encompasses volumes on art,

photography, quilting, design, and numerous other subjects. Some examples:

- *Antique Paper Dolls* (\$3)
- *Quick and Easy Patchwork on the Sewing Machine* (\$3)
- *The Great Sights of New York: A Photographic Guide* (\$5)
- *Build Your Own Inexpensive Dollhouse* (\$1.50)
- *Film Star Portraits of the Fifties* (\$6.95)
- *Victorian Houses* (\$3) (houses you can construct yourself for children or for people with train sets).

Special holiday items to fill your every need are also available:

- wrapping paper (85¢ to \$1.50)
- Christmas cards (\$3.50/box and up) and Christmas postcards (\$2.50/set and up)
- gift enclosures (40¢/set of 10, and up)
- notecards from various American museums and Penn State's own Museum of Art (\$1.50/box and up)
- wooden nutcrackers (\$14.50 to \$40)
- art calendars from the Metropolitan Museum of Art, the J. Paul Getty Museum, the National Trust for

Gifts you can purchase without leaving University Park

CHRISTMAS shopping made easy

Compiled by Diane M. Lisko

Hand-made ceramic ornaments and wall hangings at the Museum Shop.

Historic Preservation and others (\$5.95)

- *The First Christmas*, a book of Christmas cards (complete with envelopes) that you can decorate yourself (\$2)
- ornaments:

- handmade ceramic animals from Mexico (\$1.25)

- hand embroidered silk animals (\$4 to \$6) and satin angels (\$4) from China
- straw wreath ornaments from Ecuador (\$2.40)
- German ware ornaments (\$2.40)
- tin tree top star from Mexico (\$3.75)

The Penn State Press

The Penn State Press's wide selection of books is available to any faculty or staff member at a 20 percent discount year round. The following books will be sold at special Christmas discount prices through Dec. 19:

- Of particular interest to Centre County residents is *Historic Buildings of Centre County, Pennsylvania*, prepared by the Historic Registration Project of the Centre County Library, George Ramsey, Coordinator. The volume includes 236 photos, maps and drawings. (Regularly: \$15. Sale price: \$11.25)
- *Rivers of Pennsylvania* by Tim Palmer serves as an introduction to Pennsylvania's 45,000 miles of usable streams. It provides information for the active or prospective canoeist, kayaker, boater, or rafter; the hiker or camper; the nature or history buff; the angler or conservationist. (Regularly: \$18.95/cloth; sale price: \$14.25. Regularly: \$12.95/paper; sale price: \$9.75)
- *A History of Pennsylvania* (second and enlarged edition), the acclaimed standard history of Pennsylvania, has been updated to cover political, economic, social, and cultural developments that have taken place during the six years since publication of the original edition. Philip S. Klein and Ari Hoogenboom are coauthors of this publication. (Regularly: \$17.50. Sale price: \$13.15)
- The 270 photographs reproduced in *A Pennsylvania Album: Picture Postcards, 1900-1930* recapture a way of life in each of Pennsylvania's counties during the period from 1900 until 1930. Each of the postcards reproduced is accompanied by a short,

explanatory caption. George Miller is the author. (Regularly: \$18.75/cloth; sale price: \$14.10. Regularly: \$10.95/paper; sale price: \$8.25)

- *Pennsylvania 1776*, Robert A. Secor, general editor. The book is a vivid portrayal of life in Pennsylvania at the time of the Declaration of Independence. (Regularly: \$18.75. Sale price: \$10)

- Four publications that are part of an ongoing series of regional studies on rural and small-town handicraft industries that flourished in Pennsylvania during the 18th and 19th centuries are: *Central Pennsylvania Redware Pottery, 1780-1904*; *Made of Mud: Stoneware Potteries in Central Pennsylvania, 1831-1929*; *Willow, Oak, and Rye: Basket Traditions in Pennsylvania and To Draw, Upset, and Weld: The Work of the Pennsylvania Rural Blacksmith, 1742-1935*.

- Jeannette Lasansky is the author and researcher. (Regularly: \$7.95 each. Sale price: \$6.35 each)
- *Pennsylvania Politics, Today and Yesterday: The Tolerable Accommodation* by Paul B. Beers presents the reader with a characterization of the Pennsylvania political scene during the period from 1900 to 1979. A type of rough justice prevailed, the author argues, if defined in Learned Hand's words as "the tolerable accommodation of the conflicting interest of society."

- (Regularly: \$16.75. Sale price: \$12.60)
- Holiday shoppers are welcome to browse through the assortment of books at the Penn State Press office in Room 215 Wagner Building (865-1327). Press hours are Mondays through Fridays, 8 a.m. to 12 p.m. and from 1 p.m. to 5 p.m. Special arrangements may be made for book

Books from the Penn State Press.

orders to be picked up from 12 p.m. to 1 p.m. The Press will mail books anywhere in the United States (\$1 mailing charge extra). Prepaid orders

should be sent to Penn State Press, 215 Wagner Bldg., University Park, PA 16802.

Penn State Bookstore

To give the University community an opportunity to take advantage of some pre-Christmas savings, the Penn State Bookstore will hold its third annual Faculty/Staff/Student Appreciation Sale from Dec. 15 through Dec. 19 at each of its campus locations. All merchandise will be 20 percent off (excluding textbooks, calculators, and other limited items), and there will be a 40 percent off table on selected items. Christmas wrapping paper and cards will also be reduced 40 percent.

Craft Center

If you're searching for a present with that handcrafted touch, look no further than the Instructor's Sale at the Craft Center in Room 312 HUB. This sale will feature wheel-thrown and handbuilt pottery; silk screen prints; stained glass; woven stoles, pillows, and scarves; watercolors; macrame plant hangers and wall hangings; and various other crafts. The sale will be held Dec. 12 from noon to 4 p.m. and 7 p.m. to 9 p.m. and Dec. 13 from 11 a.m. to 5 p.m.

(Continued on page 6)

University Park Calendar

WINTER TERM 1980-81

Thursday, Dec. 4

Preregistration for Spring Term, through Jan. 8.
Room 112 Shields.

Winter Term classes begin, 8 a.m.

Continuing Education registration, 9 a.m.-3 p.m., Room 101 Kern.

Kern/WFSX-TV, *Cosmos* series, "The Lives of the Stars," noon and 2:15 p.m., Kern Lobby.

HUB Station open for Drop/Add, 1-4 p.m.

Sports: swimming and diving (women) vs. North Carolina and Syracuse, 1 p.m. and (men) vs. West Virginia, 7:30 p.m., wrestling vs. Cal Poly, 8 p.m.

HUB Craft Center, Open House, 7:30-9:30 p.m., Room 312 HUB.

Friday, Dec. 5

HUB Station open for Drop/Add, 9 a.m.-4 p.m. Also Dec. 8-10.

Sports: swimming and diving (men and women), Penn State Relays - trials, 1 p.m., finals, 7:30 p.m., wrestling, Penn State Invitational, through Dec. 6.

Commonplace Theatre, *What's New Pussycat?* 7 p.m., *Murder by Death*, 9 p.m., Room 112 Kern. Also Dec. 7.

Artists Series, Uta Hagen in *Charlotte*, 8:30 p.m., Music Bldg. Recital Hall.

Laura Davidson, violin recital, 8:30 p.m., Music Bldg. Recital Hall.

Saturday, Dec. 6

Sports: rifle vs. William and Mary, 9 a.m., swimming and diving (men and women), Penn State Relays - trials, 9 a.m., finals, 3:30 p.m., bowling vs. Lincoln, 1 p.m.; basketball (men) vs. SMU, 2:10 p.m.

France-Cinema, *Hector, Nostradamus*, 7 and 9 p.m., Room 112 Kern. Also Dec. 8.

Sunday, Dec. 7

HUB Craft Center, regular and special session classes begin, Room 312 HUB.

Sports: fencing (women), Alumnae Open, 11 a.m., bowling (men) vs. Villanova, 1 p.m.

University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. Ned Weller, United Ministry, PSU, speaker.

Holiday Festival VII, An Inter-Cultural Celebration, International Fair, noon-6 p.m., HUB Ballroom; 6th Annual Messiah Sing-In, 3 p.m., Schwab.

Artists Series, *Ain't Misbehavin'* 8:30 p.m., Eisenhower Auditorium.

Monday, Dec. 8

Holiday Festival VII: International Crafts demonstration, 11 a.m.-1 p.m., Kern Gallery; International Music, noon, Kern Lobby.

Interdisciplinary Symposium on Value, 7:30 p.m., Room 101 Kern. Philip Jenkins, administration of justice on "Ethical Issues in the Criminal Justice System."

Sports: wrestling vs. Michigan, 8 p.m.

Tuesday, Dec. 9

Holiday Festival VII: International Crafts demonstration, 11 a.m.-1 p.m., Kern Gallery; Phi Mu Alpha German Band, noon, Kern Lobby.

Adult/Continuing Education luncheon/lecture, 12:30 p.m., Room 115 Keller Bldg. Seichiro Miura, *Fukoku* National Union of Education, Japan, on "Adult Education in Today's Japan."

West Lobby:
Gordon Studer, drawings and paintings,
through Dec. 16.

(Continued from page 3)

Greenhouses

The University Greenhouses have the plants you'll need to add a festive touch of green to your home during the holiday season. Traditional poinsettias are on sale in an array of colors from white plants with marbled centers to the usual red variety (\$1.50 and up). Other Christmas plants on sale include Christmas cacti, cyclamen, ornamental pepper plants, kalanchoe, and Norfolk Island pines. The Greenhouses will also offer their usual selection of assorted plants (\$1.50 and up). Sales take place in Headhouse 2, behind Tyson Building, Mondays through Fridays. Extended holiday hours, 10 a.m. to 4 p.m., are in effect through Dec. 19. There will also be a special Christmas sale day to be held on Dec. 6, from noon to 4 p.m.

If selecting a present for someone with musical inclinations has you stymied, why not try one of the following record albums?

Glee Club

If your musical preference leans toward the vocal rather than the instrumental, then the Glee Club has the album for you — "The Penn State Glee Club in a Program of Pennsylvania Music: 90th Anniversary Concert." It is on sale in Room 232 Music Building for \$6.

Blue Band

"The Penn State Blue Band" album enables the listener to enjoy the marching, jazz and concert repertoires. The album is available in Room 217 Chambers Building for \$7.

Alard Quartet

This year, the Alard Quartet has two albums available: "The Alard Quartet Playing Quartets by Hindemith and Janacek" (\$7) and their latest album, "Music for Flute and Strings by Three

Americans — Amy Beach, Katherine Hoover, Arthur Foote" (Diane Gold, flautist) (\$6). Both albums are on sale at the Museum of Art.

Alumni Association

The Alumni Association carries gifts for the avid Penn State fan, alum, or graduating senior.

- An Alvanston Nittany Lion replica (from a mold made and signed by Lion Shrine sculptor, Heine Warneke) may be purchased for \$20. It also comes on a walnut base for \$35.
- Penn State chairs are available in two styles: a Boston rocker for \$99 and an armchair for \$112. Both chairs are satin-finish black with gold trim and the University seal.
- Alumni Association memberships are on sale for \$15/yr. Regular members receive *The Penn State Magazine*, the *Football Letter* and *College/Campus* newsletters. Associate memberships may also be purchased for non-alums for \$15/yr. The associate membership entitles recipients to the same privileges except that they are excluded from voting for alumni trustees and running for office. Lifetime memberships (regular or associate) are on sale for \$135.

All purchases may be made at the Alumni Association office in Room 105 Old Main, 8 a.m. to 12 p.m. and from 1 p.m. to 5 p.m.

Poultry Sales

For your holiday feasting, Poultry Sales will have Christmas turkeys, ranging in weight from 8 to 15 pounds. Pheasants, chickens and eggs are also available. The sales room is located at the poultry farms (next to the outdoor swimming pool) and is open every Thursday from 10 a.m. to 12 p.m. and from 12:30 p.m. to 3 p.m. Dec. 18 will be the last day of sales before the University holiday break.

International Artifacts Exhibition and Sale

Kern Graduate Commons will sponsor an International Artifacts Exhibition and Sale through Dec. 18. You can make your holiday selections of international artifacts

from the showcase exhibit in Kern and place an order at the Kern information desk. Orders placed for the week of Dec. 8 may be picked up Dec. 12; and for the week of Dec. 15, pick-up date is Dec. 19.

This cheese gift box from The Creamery does not include the cleaver.

Creamery

Penn State's Creamery is offering an array of gifts and tasty Christmas delights. Sure to please the cheese lover on your list is a gift box assortment of Creamery specialties (cheddar cheese, smoked cheddar cheese, honey cream cheese, two cheese spreads) for \$12. Another gift selection consists of a University Creamery cutting board and a variety of cheeses for \$15. The cutting board may be purchased separately for \$6, or an alternate cutting board gift selection may be assembled with

your own choice of items from the Creamery. Special shipping boxes for the cheese are furnished upon request. Also available is a wooden-handled cheese cleaver with the Nittany Lion etched on its stainless steel blade for \$3. Two special flavors of ice cream, rum raisin and eggnog, will be offered during the holiday season. Ice cream will be packed in dry ice for a small charge. Creamery hours are 7:30 a.m. - 5:30 p.m., Mondays through Saturdays, and 9:30 a.m. - 5:30 p.m., Sundays.

VADD Premiums decrease, new benefit offered

Effective Jan. 1, the more than 9,000 faculty and staff members who participate in the University's Voluntary Accidental Death and Dismemberment insurance program will have their premium payments reduced. In addition to this, a new maximum benefit of \$200,000 will be available. The new rates are as follows:

Type of Coverage	Monthly Rate		Biweekly Rate	
	From	To	From	To
Employee Only				
\$ 10,000	.41	.38	.19	.18
25,000	1.03	.95	.48	.44
50,000	2.05	1.90	.95	.88
100,000	4.10	3.80	1.90	1.75
150,000	6.15	5.70	2.85	2.63
200,000	—	7.60	—	3.51
Employee and Dependents				
\$ 10,000	.63	.60	.29	.28
25,000	1.58	1.50	.73	.69
50,000	3.15	3.00	1.45	1.38
100,000	6.30	6.00	2.90	2.77
150,000	9.45	9.00	4.35	4.15
200,000	—	12.00	—	5.54

Because of the new reduced rates and the availability of a new maximum benefit of \$200,000, another enrollment period will be provided during the month of January for all faculty and staff members, whether or not they are currently participating in the program. During this period anyone may take one or more of the following actions: (1) change the dollar amount of coverage, (2) change from individual to family coverage or vice versa, (3) enroll in the plan as a new member, or (4) withdraw from the plan.

In order to make any change in the VADD coverage at this time the faculty or staff member should obtain a VADD enrollment form from his or her Personnel Representative or Business Manager, complete it and return it to the Employee Benefits Division, Room 133 Willard Building, prior to Feb. 1. The changes will be in effect from that date. Only persons who wish to make a change should complete the enrollment form.

Telephone service provided during holiday period

University Park operators will provide telephone service during the holiday period from Dec. 19 to Jan. 5, with the exception of Christmas and New Year's Day, according to Jeff Kuhns, manager of telecommunications.

Persons calling the main information number, 865-4700, during the day will receive operator assistance. From 4:30 p.m. to 8:30 a.m., a recorded message will explain that the University is closed and

direct callers to a police service number. Security personnel will be available to handle emergency calls.

While a direct dialing system makes it possible for faculty and staff members to place most of their calls at any time during the holiday period without operator assistance, because of the length of the break, University employees may wish to inform individuals with whom they do business of the vacation schedule.

Seminars

Dec. 4 — 14

- Thursday, Dec. 4**
Economics/Institute for Policy Research and Evaluation, Robert Eisner, Northwestern Univ., on "Social Security and Saving," 2 p.m., Room 124 Sparks.
Physics, B.P. Stoicheff, Univ. of Toronto, on "New Vistas in Spectroscopy," 3:30 p.m., Room 445 Davey.
Acoustics, Medhat Sadek, Univ. of Birmingham, England, on "The Rational Design of Forging Machines from the Dynamic and Acoustic Point of View," 4 p.m., Room 73 Willard.
Sunday, Dec. 7
Nutrition Program, Avroy Fanaroff, M.D., neonatologist, Case Western Reserve Univ. School of Medicine, on "Feeding the Low Birth Weight Infant," 4 p.m., Room 5-209 Henderson.
Tuesday, Dec. 9
Applied Research Lab, Francis T.S. Yu, electrical engineering, on "A New Technique of White Light Optical Processing," 10:45 a.m., Walker Conference Room, Applied Science Bldg.
Organic/Inorganic Chemistry, D. Hansen, Seattle Pharmaceutical, on "A New Synthesis of Anthracenes," 12:45 p.m., Room 333 Whitmore.
Wittenstein's Vienna, Lowell Manfull, theatre and film, on "Arthur Schnitzler," 3:30 p.m., Room 319 Walker.
Plant Pathology, James Tette, New York State Agricultural Experiment Station, Geneva, on "IPM on Fruit Trees," 3:55 p.m., Room 213 Buckhout.

- Wednesday, Dec. 10**
Acoustics, Richard C. Williamson, Lincoln Lab, MIT, on "Surface Acoustic Wave Signal Processing in a Digital Age," 7:30 p.m., Room 26 Mineral Sciences Bldg.
Thursday, Dec. 11
Chemistry, Charles dePuy, Univ. of Colorado, on "Gas Phase Reactions of Organic Ions," 12:45 p.m., Room 333 Whitmore.
Physics, B. Seraphin, Univ. of Arizona, on "Absorbers and Reflectors for High-Temperature Photothermal Solar Energy Conversion," 3:50 p.m., Room 445 Davey.

Dec. 12 is deadline to arrange holiday mail deliveries

During the period when offices are closed at University Park for the Christmas break, from 5 p.m. Friday, Dec. 19, to 8 a.m. Monday, Jan. 5, interdepartmental mail service, U.S. mail service and United Parcel service will be suspended.

If, however, a department has a special need for delivery of incoming U.S. mail on Dec. 22, 23, 24, 26, 29, 30 and/or 31 and Jan. 2, arrangements can be made for the U.S. Postal Service to deliver by calling University Mail Service, 865-5602, before 5 p.m. Friday, Dec. 12.

A department requesting this service is responsible: (1) for assigning an employee to be at work in the building at a specified time to receive the mail; and (2) for receiving all incoming mail for the building in which the department is housed.

The U.S. Postal Service will only sort incoming mail by building, not by department.

Withholding reminder

The Controller's Office wishes to remind those employees who filed an Earned Income Credit Advance Payment Certificate (W-5) or State Income Tax Non-Withholding Application (RIT-214) for 1980 that these forms expire Dec. 31, 1980.

If you qualify and wish to continue your exemption, or if you are applying for the first time, you must file a W-5 and/or RIT-214 prior to Dec. 19. Forms are available from the Payroll Department, Room 301 Shields Building.

Arts Roundup

Hagen stars in CHARLOTTE

Award-winning actress Uta Hagen will star in the monodrama **CHARLOTTE** at 8:30 p.m. Dec. 5 in Schnibb Auditorium as part of the Artists Series' Drama Series. This dramatic monologue, based on a Broadway play by Peter Hacks, explores the relationship between the 18th century genius Johann von Goethe and his actress, Charlotte Von Stein. Dr. Hagen will give a seminar at 10 a.m. Saturday, Dec. 6, on the art and craft of the actor. Attendance is limited; those with special interest in the seminar should contact the Institute for the Arts and Humanistic Studies for further information. Dr. Hagen has developed dual careers as teacher of acting and as an actress. Her stage credits are voluminous and of great distinction, perhaps best exemplified by her great performance in *Who's Afraid of Virginia Woolf?* Her most recent film performance was in *The Boys from Brazil*.

The winner of numerous awards for acting, including the Drama Critics Award (1951, 1963), the Antoinette Perry Award (1951, 1963), and the London Critics Award (1963-1964), she is the author of *Respect for Acting* (1973), a book widely considered a basic resource for the study of acting. Her seminar session is jointly supported by the Institute and the Department of Theatre and Film.

Musical scheduled for Dec. 7

AINT MISBEHAVIN', the Tony Award winning Broadway musical based on the career of legendary Jazz great Fats Waller, will be presented at 8:30 p.m. Dec. 7 in Eisenhower Auditorium under the auspices of the Artists Series. Currently one of the longest-running musicals on Broadway, **AINT MISBEHAVIN'** received both the Tony Award and the N.Y. Drama Critics Circle Award for the Best Musical of the season.

Fats Waller, born Thomas Waller in Greenwich Village in 1904, was reared in Harlem. His parents were deeply religious; to his father jazz was devil's music. Waller studied classical piano and played church organ at the Lincoln Theatre on 135th Street. In 1920 he met his mentor, the great stride pianist James P. Johnson, and soon became one of the most respected musicians in New York.

Waller raised the art of stride piano to its highest level, and was one of the inventors of swing music. He was a prolific composer, a great comedian, singer and musician — talents which made him one of the first black superstars of America.

Tickets are on sale at the Eisenhower Auditorium box office weekdays, 9:00 a.m. to 4:00 p.m. Phone orders on Mastercard and Visa accepted at 465-0255.

Carl Nordenfalk to speak

Dr. Carl Nordenfalk will be a guest of the Institute for the Arts and Humanistic Studies and the Department of Art History on Dec. 10 and 11. He will give a public illustrated lecture at 8 p.m. Dec. 10 in 230 Arts Building entitled "The Five Senses of Medieval Art." In it he will survey the representations of the five senses which have come down to us in book illumination, wallpainting, graphic art, metal work and tapestry from the 9th century to the end of the 15th century. Dr. Nordenfalk has been director of the National Museum of Stockholm (1944-68) and has taught at universities in Sweden, France, Germany, Denmark and the United States. He is the author of numerous articles and books covering a wide range in interests in art history.

Irish poet to read works

Sean Lucy, a leading Irish poet, will read from his work in the Rare Book Room, Rare Library at 4:00 p.m. Tuesday, Dec.

9. Lucy has edited as well as contributed to *Love Poems of the Irish* (1967), *Five Irish Poets* (1970) and *Irish Poets in English* (1973). His most recent collection of his own poetry is *Unfinished Sequence and other poems* (1979). Professor of Modern English at University College Cork, Lucy has also written T. S. Eliot and *The Idea of Tradition and Goldsmith: the Gentle Master*.

Christmas gala planned at Kern

"Clow at Christmas," a buffet and musical Christmas gala, will be held at 6:30 p.m. Friday, Dec. 12, in 102 Kern Graduate Building.

The buffet, sponsored by the Graduate Commons, will be complemented by instrumentalists, carolers and a Christmas reading. The feature entertainment, "Derby Ram," will perform English and lowland Scottish traditional ballads, lyric folk songs and holiday carols.

Tickets are \$5.50 per person and are available at the Kern Information Desk, 865-1878.

Bookshelf

A comprehensive treatment of running shoes, aimed at the running enthusiast, has been authored by Dr. Peter Cavanagh, associate professor of biomechanics. His 390-page *The Running Shoe* was published by Anderson World, Mountainview, Calif.

Chapters are included on the history of the running shoe, biomechanics of running, shoe manufacture, injury prevention and shoe selection. There are also 25 profiles of individuals in the "running world," among them Penn State professor and sports historian John A. Lucas.

Dr. Emilia E. Martinez-Brawley, assistant professor of social welfare, is the author of a new book, *Seven Decades of Rural Social Work: From Country Life Commission to Rural Caucus*. The book has been published by Praeger.

From the recognition of rural social work as part of Theodore Roosevelt's Country Life Commission to such recent organizations as the Rural Social Work Caucus and Rural American, rural social work has become a well recognized field within the complex network of social welfare programs. This book traces the historical development of rural social welfare within the context of national economic and social development, and helps to dispell the current conception of rural social welfare as a relatively new area of organized social reform.

The book also contains an appendix of selected articles on rural social work published between the 1930s and the 1970s.

G. W. Brindley, professor emeritus of mineral sciences, and G. Brown of the Rothamsted Experimental Station, Harpenden, England, are editors and part authors of a monograph just published by the Mineralogical Society of London and titled *Crystal Structures of Clay Minerals and Their X-ray Identification*. This volume of 504 pages and more than 100 figures and plates replaces an earlier monograph edited by Dr. Brindley in 1951 and a second edition edited by Dr. Brown in 1961.

Praeger Publishers, New York, have just published in their Special Scientific Studies Series a book by Jan S. Prybyla, professor of economics. The book, *Issues in Socialist Economic Modernization*, examines the solutions to intensive, modern economic growth offered by the contemporary Soviet-type economy. Dr. Prybyla discusses also the problems inherent in the Soviet system, the quest for economic modernization by post-Mao China, the Hungarian variant of administrative central command planning, and the model of Yugoslav market socialism.

Anybody There?

I would like to locate researchers interested in factors associated with **ADOLESCENT DEVELOPMENT IN IRELAND**. I have a cross-sectional sample of 700 Irish youth with data related to family structure, achievement, social class, sex role development, family orientation, schooling and heterosexual activity. Faculty or graduate students who would like to collaborate with me in the analysis of the data and contribute additional theoretical perspectives to the research would be welcome.

Thomas Rogers' third novel receives favorable review

"Sometimes books are a kind of blessing," *New York Times* critic Anatole Broyard wrote earlier this month in a highly favorable review of *At the Shores*, the third novel by Dr. Thomas Rogers, professor of English.

Published by Simon & Schuster, the book has an adolescent hero who emerges from his first experience of love with his psyche still intact.

While adolescence is a theme many authors tackle in their first — and frequently autobiographical — novels, Dr. Rogers says that he was drawn to the subject after his two daughters had passed through an adolescent period much happier than his own.

"The book makes a direct use of family background and is a much truer novel than my previous ones, which were held together more by plot than genuine feeling and the interweaving of parts." (Dr. Rogers' first novel, *The Pursuit of Happiness*, was published in 1968, and his second, *The Confession of a Child of the Century*, appeared in 1972.)

If the character of Jerry Engels, the protagonist of *At the Shores*, is not drawn from Dr. Rogers' adolescent experience, the setting in which Jerry moves is one in which the author grew up — the northern Indiana dunes and south Chicago, around the University of Chicago.

"The novel was originally going to be much longer," Dr. Rogers notes, "taking the hero from adolescence into his 30s. But as I worked on the first part, I kept going backwards, and by the time Jerry had reached 17, I found I had a complete novel."

A member of the faculty since 1961, Dr. Rogers says he has a sequel sketched out in his mind with Jerry going to Penn State. "I see him in a freshman English class beginning to get involved with his teacher."

Dr. Rogers has thus far not made use of Penn State in his fiction. "It takes me 10 to 15 years after events until I can begin to get imaginative control of them and use them fictionally," he explains.

"I think this attitude has been shaped by the way my parents related to their environment. My father was from Kentucky, and he felt it was a powerful, poetic, mythical place. My mother grew up in Seattle, and she was always talking about how much better things were in the northwest. Both my parents saw Whiting, Indiana, as nowhere in comparison to their childhood homes, and I was brought up with a sense of having to go back to where you came from. For a long time, I couldn't make connections to Central Pennsylvania because where I came from — Whiting — was the real thing. Within the past two years, however, I've begun to realize how beautiful this area is and how lucky we are to live here."

Dr. Rogers' two previous novels won wide critical praise and were nominated for the prestigious National Book Awards in fiction.

He is not a facile writer, however; eight

years have passed since the publication of his last novel.

"My publisher told me that not having a novel out every two or three years has been bad for my career," he says. "If the intervals between your books are too long, the public forgets you."

From the Press

The Life of Guido Reni. By Carlo Cesare Malvasia. Translated and with an Introduction by Catherine Enggass and Robert Enggass. 150 pages, 8 illustrations. \$11.95.

Malvasia, the close friend of Guido Reni, a major artist of the Italian Baroque, is the principal source of what is known about the painter's life. Far more than a mere chronicle of facts, Malvasia's biography reveals Reni's inner life, his pride and phobias. Reni was obsessed with sorcery and witchcraft, and his overwhelming compulsion for gambling eventually brought about his ruin.

Because this is the first book on Reni in English, the editors have added a section intended as an introduction to his rather complex stylistic development.

Robert Enggass, Callaway Professor at the University of Georgia, is a former member of Penn State's Department of Art History.

University researchers study ancient building materials

Attempting to unlock the secrets of ancient builders who designed cementitious building materials, University researchers are studying samples of mortars, plasters and concrete which have lasted for more than 2000 years.

The research is being carried out by Dr. Della M. Roy, professor of materials science, and Dr. Christine A. Langton, research associate. Also participating is Joan Mishara, a visiting research assistant in the Materials Research Laboratory who is on sabbatical leave from the Smithsonian Institution.

Collaborating with Smithsonian researchers, Dr. Roy and her associates are applying modern analytical, diagnostic and characterization methods to the ancient samples to discover the advanced technology employed by Greek and Roman builders and to compare ancient and currently used materials.

Dr. Roy is the author of more than 100 technical papers and is editor-in-chief of the journal *Cement and Concrete Research*.

Some of the samples under examination were used originally to line cisterns.

Others were part of docks and jetties in port installations built some two millennia ago. Dr. Roy collected materials dating as far back as 300 B.C. during a visit to Italy last summer, and several museums have lent her specimens from their collections.

A team including Dr. Langton, Ms. Mishara and T. A. Wertine, a research associate at the Smithsonian and former cultural attaché to Greece, is currently on a sample collection expedition in Cyprus and Greece — sponsored by the Smithsonian and National Geographic. The team is concentrating particularly on structures which once held water and has been examining archaeological sites dating back to 600 B.C.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Radnor Center

(Continued from page 1)
missile and space division to King of Prussia. In the wake of Sputnik and the resulting government rush to push aerospace research, GE became interested in providing opportunities for graduate study to its engineers and turned to Penn State for help.

"Classes started in Fall of 1961," Dr. Weber recalls. "Initially, about 26 persons enrolled, and the program was administered by Continuing Education. By 1963, the number of students had grown to 47, and some of them had accumulated 15 credits which could be utilized in a master's degree program. The University determined its services were needed in this area of southeastern Pennsylvania, and it rented a school building in King of Prussia. The King of Prussia Center came into being officially in 1964."

The location was selected because it was at the juncture of the Pennsylvania Turnpike, the Schuylkill Expressway and other major roads — "within 45 minutes of just about anywhere in the Delaware Valley," Dr. Weber notes. Over the years, however, the building slowly deteriorated, and the school district was required to pay for repairs. Accordingly, the 3½-mile move to Radnor was decided upon in 1978.

Approximately 1,300 students were enrolled in Radnor's graduate programs during 1979-80, and during the same period another 2,300 were in Continuing Education. Graduate degree offerings include:

- Master of Engineering/Engineering Science, with courses drawn from the fields of mechanical, electrical and aerospace engineering, engineering mechanics; mathematics; computer science; physics; and material science.
- Master of Engineering/Industrial Engineering.
- Master of Education with specializations in the Education of Exceptional Children, General Elementary Education, and Mathematics.
- Master of Public Administration.

"All of these programs and the courses comprising them were approved by the Graduate Council and requisite committees of the University Faculty Senate," Dr. Weber emphasizes. "They are backed up by a library collection of about 10,000 books and documents and a Computer Center linked to the facilities at University Park."

In addition, the Center has just appointed a Program Advisory Committee, its members selected from a spectrum of Philadelphia-based businesses and industries, as well as from educational institutions and government.

Because they can draw upon almost 20 years of experience in their area of the Commonwealth, the staff at Radnor are eager to let others in the Penn State community know what they can do.

"Obviously not every degree should be offered here because of the lack of research facilities," says Lawrence S. Cote, Radnor's assistant director. "However, our location also gives us certain advantages. We are just 30 minutes from downtown Philadelphia and situated in the heartland of a highly diversified industrial area. The large corporations around us run the gamut from petrochemical and heavy engineering high technology firms to the major pharmaceutical and insurance companies. The city offers many research opportunities for graduate students in the social sciences and education; the industrial base of the area provides a market for both graduate and continuing education."

Proposals for new graduate programs from academic departments at University Park are welcomed by the Radnor staff, according to Dr. Weber. The Center is also looking for sophisticated ideas for continuing education workshops or seminars related to Penn State's graduate strengths. In November, for example, Radnor offered a one-day seminar on "Forecasting Techniques: An Introduction

Penn State Center Studies Values and Ethics

Both course development and research are central to the mission of Penn State's Center for Value Studies and Professional Ethics.

Established officially in the Spring of 1979, the Center grew out of a study commissioned by the Office of the Provost, which recommended the strengthening of value studies in the University's curricula.

Although the Center was set up within the College of the Liberal Arts, it has had an inter-college orientation from the beginning. Last Spring, the steering committee was expanded to reflect an even wider range of colleges; and Carl R. Hausman, professor and head of philosophy, was named as director, with Gary T. Alexander, assistant professor of religious studies, as coordinator.

"The nucleus of the Center was the Interdisciplinary Symposium on Values, which has been meeting regularly for five years," Dr. Hausman says. "Out of these meetings a feeling emerged that it was becoming increasingly necessary to encourage questions about values on the part of people entering the professions."

The College of Business Administration responded favorably when it was approached about incorporating a course on business ethics in its curriculum. Dr. Alexander notes, and the resulting course was well received by students.

Based on this experience, "Ethics for Engineers" is now being developed by faculty members in philosophy and the College of Engineering, and an ethics course for students with environmental concerns is being instituted.

Dr. Alexander notes that the Center is considering a project in experimental curriculum development. One possibility is to try to determine whether it is preferable to have a separate course in ethics or to interweave the teaching of ethics throughout a curriculum.

"In developing ethics courses," Dr. Hausman emphasizes, "the focus is on reflection about ethical issues, not on codes or sets of morals. 'Ethics' refers properly to a certain reflective, critical approach to mores presupposed by any profession."

"Whenever the study of ethics is incorporated into a professional course, it is easy to turn it into a justification of what people already believe," Dr. Hausman continues. "It is incumbent on faculty members, therefore, to strive to evoke a critical appraisal from students; such an appraisal may confirm the students' previously held beliefs — but only after first testing them."

"This critical and reflective aspect of the

to Statistically Based Forecasting," designed for business and human services executives.

"We are willing to tailor seminars to the interests of faculty members," notes David K. Furchner, Continuing Education area representative at Radnor.

"We have, for example, arranged seminars by Dr. Gerhard Reethof (professor of mechanical engineering at University Park) in the area of his specialization of noise control."

"Sometimes we hear the argument," Dr. Weber says, "that if we offer a particular program at Radnor, we will be taking enrollment away from University Park. There was a time when people would take off several years to finish a graduate degree, but this is now happening with much less frequency. We at Radnor are serving needs that the University could not otherwise access because our students are full-time working adults."

And Dr. Weber concludes: "We think the Radnor Center has shown that the functions of resident instruction and continuing education can be integrated successfully. By utilizing the expertise of Continuing Education in the promotion of all of our programs, we have broken new ground for the University in terms of serving as an experimental administrative model."

treatment of issues is what distinguishes the approach the Center seeks to foster from a mere repetition of codes and justification of what people already believe."

A further concern of Dr. Hausman's is the incorporation of aesthetic values into ethics courses.

Aesthetic values, he explains, have an impact on both moral and social issues. As an example, he points to problems encountered by planners confronting deteriorating city neighborhoods.

"The decaying buildings are often considered ugly," he says, "and this sense of ugliness may be related to a feeling of moral repugnance, which, in turn, influences how the planners proceed, whether they decide to tear down or preserve and renovate the buildings. The effects of aesthetic judgments are rarely examined, however."

Both Dr. Hausman and Dr. Alexander emphasize that the Center is not trying to establish a moral agency on any campus to tell people how to act. But in the aftermath of Watergate and Vietnam, they point out, many persons in the academic community are seeking a certain moral commitment.

In furtherance of its goals, the Center has already promoted a variety of activities, both applied and theoretical. They include:

- A workshop last May on "Exploring Applied and Professional Ethics."
- Serving as consultant to a program on Moral Education sponsored by the University's Office of Religious Affairs.
- Supporting a proposal dealing with ethics and the human service professions and another concerned with teaching the philosophy of creativity.

In addition to Dr. Hausman and Dr. Alexander, the Center's steering committee members are: Robert O. Blanchard, director, School of Journalism; E.R. Buskirk, director, Human Performance Laboratory; John J. Coyle, head, Business Logistics and faculty director of the College of Business Administration's Undergraduate Program; Sheldon R. Gelman, associate professor of social welfare; Henry Johnson, professor of education; Thomas Magner, associate dean for research, Liberal Arts; John W. Malone Jr., head, Agricultural Economics and Rural Sociology; Nancy F. McKenzie, assistant professor of philosophy; Donald R. Olson, head, Mechanical Engineering; and Theodore Vallance, professor of human development.

News in Brief

(Continued from page 1)

Physical Education and Recreation for 18 years. President Oswald will formally name the building, which was built under Dean McCoy's leadership.

Dean Quinn

(Continued from page 1)

electrical engineering and from The Catholic University of America with master's and doctoral degrees in physics. He joined the Penn State faculty as associate professor of electrical engineering in 1966 and was promoted to professor in 1972.

Dr. Quinn was appointed dean of academic instruction for Commonwealth Campuses in 1971. Under his leadership, the Commonwealth Campus System has developed into the largest and one of the most effective systems of its kind in this country.

Under a reorganization, the Commonwealth Campus System will become part of the new University-wide System for Continuing Education and Commonwealth Campuses, effective Jan. 1.

Staff Vacancies

The following vacancies for positions classified as staff except on staff noncompetitive basis are listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division at 2327 (network line 473-1387). Applications for these three staff vacancies will be accepted until 5 p.m., Dec. 11, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-3) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

LABORATORY SUPERVISOR, COLLEGE OF SCIENCE, UNIVERSITY PARK Operate computer systems, including the newly installed VAX system and microcomputer systems, maintain system documentation, update system, and serve as consultant to faculty. Bachelor's degree in computer science plus one to two years of effective experience. Assemble hardware and several higher level languages (reel and Digital design and interactive operating experience highly desirable.

JUNIOR ENGINEERING AIDE, APPLIED RESEARCH LABORATORY, UNIVERSITY PARK Responsible to the Project Engineer or designated Senior Engineering Aide for assistance in the planning, testing, installation, operation and maintenance of nonstandard electronic or mechanical parts, components, or equipment. Associate degree or its equivalent in electrical or mechanical engineering technology program plus three months of effective experience is required. Powers may require travel in field assignments, including assignments abroadships at sea.

RESEARCH AIDE, COLLEGE OF AGRICULTURE, UNIVERSITY PARK Layout, conduct and collect data on various field, greenhouse, and growth chamber experiments. Perform laboratory analysis of plant tissues and tissue extracts. Responsible for daily operations of crop physiology research laboratory. Install, maintain, check calibration and collect field microclimatology station weather data. Using computer interface, process and store data. Assist with design, construction, and modification of equipment of photosynthesis and plant water status experiments. Bachelor's degree in agriculture or life sciences plus one to twelve months of effective experience in a laboratory environment.

COST ACCOUNTANT, COLLEGE OF MEDICINE, HERSHEY Responsible to the Supervisor Third Party Reimbursement and Cost Accounting for the preparation of all third party cost reports and cost studies and maintenance of controls on third party accounts receivable. A bachelor's degree in accounting or equivalency plus two to three years of experience in hospital cost reporting or hospital auditing.

ENGINEERING AIDE, APPLIED RESEARCH LABORATORY, UNIVERSITY PARK Responsible to the Project Engineer or Senior Engineering Aide for the layout, design, fabrication, and construction of nonstandard electronic or mechanical components of equipment. Assist with conducting tests and with the collection, compilation, and analysis of test data. Associate degree or equivalent in electrical or mechanical engineering technology program, plus one to four years of effective experience in the design, fabrication of experimental equipment. Positions require travel in field assignments including assignments abroadships at sea.

DIRECTOR OF NURSING SERVICES, UNIVERSITY HEALTH SERVICES, UNIVERSITY PARK Responsible for the staffing of the nursing services, direction of nursing staff, maintenance of professional standards for the nursing staff of University Park and the Commonwealth Campuses, nursing policy, and supplies of inpatient and outpatient departments. Graduate of accredited nursing program or its equivalent and current Pennsylvania License as a registered nurse. A degree in nursing desirable. Two to four years of effective nursing experience is required. Post-graduate clinical experience in nursing supervision is highly desirable.

FINANCIAL AID COORDINATOR, OFFICE OF STUDENT AID, UNIVERSITY PARK Responsible to the Director of Student Aid for counseling students on financial aid matters and for assistance in internal administration of financial aid programs. Master's degree or equivalent in student personnel services, counseling education, or higher education plus one year of effective experience is required. This is a FTEED TERM 1 APPOINTMENT.

POLICE SERVICE OFFICER, UNIVERSITY SAFETY, UNIVERSITY PARK Responsible to the Police supervisor for carrying out the functions of protection of life and property, prevention of crime and good order of the community, enforcement of laws, public safety, investigative work and other related duties. Baccalaureate degree in law enforcement or the social sciences or have 60 academic credits at 2.0 or higher average and have one to two years of experience as a law enforcement officer.

BIOMEDICAL ENGINEER, COLLEGE OF MEDICINE, HERSHEY Responsible to a principal investigator in the Department of Surgery, Division of Cardiothoracic Surgery for the design of mechanical and electrical systems and components and the development of computer programs used in various blood flow studies and research. A bachelor's degree in biomedical engineering or equivalency plus one year of effective experience.

Penn State Intercom

Five University faculty members have been named to Evan Pugh Professorships — the highest honor Penn State can bestow on a faculty member.

The five, announced by President Oswald, are:

Dr. George E. Andrews, professor of mathematics;
Dr. Paul T. Baker, professor and head of the Department of Anthropology;
Dr. Rustum Roy, professor of the solid state and director of the Materials Research Laboratory;

Dr. Elliott S. Vesell, professor and chairman of pharmacology, professor of genetics and professor of medicine, and;
Dr. Philip Young, research professor of English and fellow, Institute for the Arts and Humanistic Studies.

"These five most distinguished scholars represent the very highest attainments of our University," Dr. Oswald said. "Each of them has displayed the courage to pioneer in his field, the discipline to remain at the forefront of research and the generosity of spirit to share his

accomplishments with students.

"I congratulate them on this honor, and I thank them for their contributions to Penn State."

The Evan Pugh Professorships, which honor the first president of the University, were initiated in 1960 as the Evan Pugh Research Professorships. The title was changed in 1973.

Evan Pugh Professorships are awarded to faculty members whose "research publications or creative work or both have

been of the highest quality over a period of time, and further to candidates who show evidence of having contributed significantly to the education of students who later achieve recognition for excellence in the candidate's discipline or interdisciplinary area."

A committee of seven distinguished faculty members — five of them Evan Pugh Professors — reviewed nominations for the honor and made recommendations for appointment to the president.

University names five Evan Pugh Professors

Dr. George E. Andrews

Dr. Paul T. Baker

Dr. Rustum Roy

Dr. Elliott S. Vesell

Dr. Philip Young

Dr. George E. Andrews joined the Penn State faculty in 1964 as an assistant professor. He was promoted to associate professor in 1967 and to professor in 1970. His work in his research field of partition theory has earned him recognition as one of the foremost mathematicians in the world. The petition nominating him for the Evan Pugh Professorship called him "a true giant among mathematicians of his era, and one whose name deserves to stand with those of mathematical prodigies of the past two or three centuries."

Some of the world's leading mathematicians joined in urging Dr. Andrews' selection. Referring to these, Dr. Oswald commented: "The numerous letters of recognition, both national and international, are evidence that you are one

of the outstanding mathematicians of this era."

Dr. Andrews received both his B.S. and M.S. degrees in mathematics from Oregon State University in 1960. He earned the Ph.D. from the University of Pennsylvania in 1964.

His writings have included four completed books, three others in progress and more than 100 articles in scholarly journals. He has been invited to lecture throughout the world and is a member of numerous professional organizations, including the American Mathematical Society, the Mathematical Society of America and the Society for Industrial and Applied Mathematics.

As a teacher, he has distinguished himself at all levels, from the elementary to the most advanced. As interim head of his

department, he was "an administrator of incredible persistence and energy," according to the nominating petition.

Dr. Paul T. Baker has been professor of anthropology since 1964 and head of the Anthropology Department since last July.

He joined the Penn State faculty as a research associate in 1957 and has been one of the pioneers in the theoretical restructuring of the field of physical anthropology.

"He is without question one of the two or three major figures in modern physical anthropology," his nominating petition notes. In recognition of his achievements, Dr. Baker was named to the prestigious National Academy of Sciences this year.

In selecting him for the Evan Pugh Professorship, Dr. Oswald stated: "Your

News in Brief

Blissell Library dedicated at New Kensington Campus

The Elisabeth S. Blissell Library at the New Kensington Campus was formally dedicated in ceremonies at the campus last month.

Taking part in the dedication were President Oswald, Mrs. Blissell, Eric A. Walker, president emeritus; Kenneth L. Holderman, member of the University Board of Trustees; Dr. Robert D. Atuckle, campus director, and Dr. Clarence W. Finley, president of the New Kensington Faculty Senate.

The library was presented with a portrait of Mrs. Blissell done by Charles W. Gibbons, New Kensington Campus art teacher and artist-in-residence. A tour of

the facility was conducted following the ceremony.

SAS Users Group Offers training course

The SAS Users Group will be offering a short course on the Statistical Analysis System from 7:30 p.m. to 9:30 p.m. on Tuesdays and Thursdays, Jan. 13-19. The data management facilities of SAS are given primary emphasis although a number of procedures will be discussed.

Individuals who will benefit most by taking the course will:

1. Be able to log on to a terminal and use INTERACT or RJE commands.
2. Have some prior experience with SAS or another comparable package (SPSS, BMD, etc.)
3. Have an INTERACT or RJE account that they can use for course assignments.

There is no enrollment limit, but all interested persons are asked to register for the course by contacting Sharon Stover at 865-6583. Room location for the course will be announced in the first week of January.

Swarthmore office closed

The Swarthmore Continuing Education office is now closed and personnel have moved to the Delaware County Campus. The address is 25 Yearsley Mill Road, Media, PA 19063. Phone 215-565-3300 or Network 361-2011.

James Brucker named major gifts director

James H. Brucker of Vermilion, Ohio, former fund-raising consultant with Ketchum, Inc. in Pittsburgh, has been

appointed director of major gifts in the Office of Gifts and Endowments.

In an effort to expand private fund-raising activity at Penn State, Dr. Brucker's first assignment will be to assist the College of Engineering and the College of Earth and Mineral Sciences in their efforts to seek major gifts from corporations, foundations and individuals. He will be under the direction of Charles Lupton, OGE executive director.

A 1971 magna cum laude graduate of Thiel College, Greenville, Pa., Dr. Brucker holds M.A. and Ph.D. degrees in history from Penn State. He was a graduate teaching fellow at Penn State in 1977-78. Dr. Brucker has served in all phases of pre-campaign and campaign capital fund-raising activities with Ketchum, Inc. since August, 1978.

(Continued on page 4)

Penn Staters

Dr. William T. Sanders, professor of anthropology, received the Alfred Kidder Award at the annual meeting of the American Anthropological Association. The Kidder Award is given to senior scholars for their contribution to American archaeology.

Dr. Sanders has conducted innovative research in Mesoamerican archaeology since the early 1950s. His projects include monumental settlement-system studies of the Basin of Mexico and the Valley of Guatemala, and he currently is undertaking a four-year project centered on the large Mayan site of Copan in western Honduras. In addition to his field research, he is an internationally-known scholar in the theoretical fields of cultural ecology and cultural evolution.

Robert C. S. Downs, director of the writing option, Department of English, was honored by the NAACP at an Awards Ceremony at the Hollywood Paldium Dec. 7 for his made-for-television movie, "White Mama," which starred Bette Davis. The awards are made annually to people in film, television, radio and sports, who have had a positive impact on the national image of Black Americans.

Dr. E. Erwin Klaus, professor of chemistry engineering, has been named co-recipient of the 1980 American Society of Lubrication Engineers' Captain Alfred E. Hunt Memorial Award. The award is presented to an ASLE member in recognition of the best paper published during the previous year in a Society publication.

Dr. Klaus and Dr. Stephen M. Hsu, a former Penn State graduate student in chemical engineering, co-authored the award-winning paper, "Estimation of the Molecular Junction Temperatures in Four-Ball Contacts by Chemical Reaction Rate Studies." The article appeared in the ASLE publications, *Transactions*.

Dr. Thadd R. Preiner, assistant professor of biology, and Dr. Charles R. Bursey, associate professor of biology, both at the Shenango Valley Campus, have received the 1981 Darbaker Award of the Pennsylvania Academy of Science for their research in microanatomy.

The Darbaker Award is given annually to recognize excellence in a published paper utilizing microscopy, and is made possible by a special endowment from the Darbaker Foundation. Their award-winning paper, *Microanatomy of the Terminal Abdominal Ganglion of the Crayfish Procambarus Blandingi* (Decapoda), also will be published in the Academy journal, *Proceedings of the Pennsylvania Academy of Science*.

Dr. H.R. Hardy Jr., professor of mining engineering and director of the Rock Mechanics Laboratory, has returned from Europe, where he spent five months as a visiting professor at the University of Aachen in Aachen, West Germany.

While on sabbatical, he presented invited lectures at the annual joint meeting of the British Geotechnical Society and the Engineering Geology Group of the Geological Society of London; the Technical University of Denmark; Riso National Laboratories in Denmark; the Universities of Karlsruhe and Hannover in West Germany, and the Building Research Establishment in England.

Dr. L.G. Austin, professor of fuels and mineral engineering and the Dr. Richard Klumpel adjunct professor of mineral processing, recently taught a six-day course on the "Theory and Applications of Milling and Classification Circuits" at the University of Concepcion, Chile. Earlier this year, he presented a two-day workshop on "Grinding Simulation" at Laval University, Quebec, Canada.

Dr. Bruce Albrecht, assistant professor of meteorology, spent last summer as a visiting scientist at the

National Center for Atmospheric Research at Boulder, Colo.

There, he presented a seminar on "Modeling the Thermodynamic Structure of the Trades." He also gave a paper, "Radiative Effect in a Model of the Trade-Wind Boundary Layer," at the 1980 International Radiation Symposium, Collins, Colo.

Dr. Harry R. Alcock, professor of chemistry, presented invited lectures at the University of Illinois, Massachusetts Institute of Technology, the State University of New York at Buffalo and the University of Southern California. He spoke on the work carried out at the University on the design and synthesis of new macromolecules containing inorganic elements.

Marian R. Lis has been named assistant director for continuing education at the Shenango Valley Campus.

Ms. Lis, who earned a bachelor's degree and a master of business administration degree from York College of Pennsylvania, has been program assistant in the York Campus Office of Continuing Education.

At a luncheon at the Nuttany Lion Inn, sponsored by the Slavic-Soviet Language and Area Center, John Balaban, associate professor of English, was presented with the Vaptsarov Medal by a delegation from the Bulgarian Writer's Union. There are 500 such medals; two others have been presented to Americans: to the poets William Meredith and Maxine Kumin.

Dr. Donald B. Johnson, associate professor of computer science, presented invited talks last month at the Universities of Arizona, Colorado, Texas at Austin and Texas at Dallas. He discussed optimal algorithms for selection in sorted matrices and the application of these results to certain practical problems.

Dr. Albert A. Anderson, associate professor of art education, has been installed as president of The Pennsylvania Art Education Association. A member of PAEA's Executive Council since 1975, he served as newsletter editor from 1975 to 1978 and as president-elect for the past two years.

Dr. Carlos Zamora, assistant professor of Spanish, was an invited panelist at an international symposium in Albuquerque, N.M., on the modern Spanish novelist, Ramon Perez de Ayala. He spoke on social determinism in the novelist's work. The program was organized by the Department of Classical and Modern Languages of the University of New Mexico and sponsored by the Center for Iberoamerican Cooperation in Madrid and the Consulate General of Spain.

Dr. Robert Stefanko, professor of mining engineering and associate dean for continuing education in the College of Earth and Mineral Sciences, has received the Donald S. Kingery Memorial Award of the Pittsburgh Coal Mining Institute. The award is given in recognition of contributions toward improving health and safety of underground coal mines.

Dr. Stefanko, who has received a number of awards for his work in mining engineering, has been a member of the University Faculty since 1957. From 1964 to 1969, he served as head of the former Department of Mining, becoming assistant dean for continuing education in the College of Earth and Mineral Sciences in 1969 and associate dean in 1976.

Dr. Vladimir S. Stubican, professor of material sciences and engineering, has been named Case Western Reserve University Centennial Scholar. He was awarded a medal by Case Western Institute of Technology and cited for his fundamental work in the field of reactions between solids at high temperature, and for his contributions in educating students who hold important positions in government, industry and universities.

While at Case Western Reserve, Dr. Stubican presented the keynote address,

"Phase Equilibria and Ordering in Zirconia Systems," at the first International Conference on Zirconia.

Dr. Richard E. Tressler, professor and chairman of the ceramic science and engineering program in the Department of Materials Science and Engineering, participated in an international workshop on "The Interaction between Dislocations and Defects in Oxides," in Lyon, France.

Sponsored by the National Science Foundation and its French counterpart, the National Center for Scientific Research, it brought together scientists from several European countries, the U.S. and Canada. Dr. Tressler reported on work he and his students have done on "Solid Solution Effects on the Flow Behavior of Alumina Crystals."

Promotions

Staff Exempt

John E. Booth, Jr., to programmer in Management Engineering.

Dale T. Hollenbach to director, Food Services at Hershey.

Charlotte A. Keene to facilities and services coordinator in Agriculture.

Marian R. Lis to assistant director, Continuing Education at Shenango Valley.

Clifford E. Lutz to supervisor, Police Services in University Safety.

William S. Rose to management assistant II in Physical Plant.

James D. Scanlon to broadcast programming specialist in Continuing Education.

Staff Non-Exempt

Anne B. Risser to research technician at Hershey.

Michael A. Walega to research technician at Hershey.

Clerical

Joyce M. Cox to clerk typist A at Hershey.

Judy M. Evelyn to control clerk B in Management Services.

Ellen L. Groehrer to clerk typist A in Continuing Education.

Donna I. Phalen to clerk Typist A at Hershey.

Audrey J. Smith to secretary B in Graduate School.

Technical Service

Frank Volk to maintenance mechanic, electrical and plumbing, at Ogontz.

John J. Vozar to community service officer at McKeesport.

Paul A. Yatchik to shipping and receiving clerk A in Housing and Food Services.

Retirements

A. Roger Grout, professor of agricultural engineering extension, will retire Dec. 31 with more than 32 years of service.

A native of Kennedy, N.Y., Mr. Grout earned his B.S. at Cornell University and his M.S. from Penn State in 1962.

He placed major emphasis on improvement of dairy housing facilities, formulating state and regional manure management guidelines, and the Penn State Plan Service.

In 1977 he was recipient of the Pennsylvania Dairymen's Association Extension Award for his contributions to the state's dairy industry and in 1978 won

the Pennsylvania Epsilon Sigma Phi Society Ruby Award for excellence in Extension programming.

Charles Golab, assistant professor of general engineering at the Mont Alto Campus, retired Dec. 1. He earned his B.S. in civil engineering at Penn State in 1939 and was associated with the railroad industry before joining the faculty on Sept. 1, 1963.

Jane H. Sheetz, administrative assistant at the Delaware County Campus, retired Nov. 29. She joined the staff July 1, 1967.

Grace K. Sunderland, clerk at the Altoona Campus, will retire Jan. 1. She joined the Altoona staff Aug. 24, 1970.

Homar A. Marshall, who joined the University on Dec. 7, 1970, will retire Jan. 3. She joined the Hershey staff May 12, 1969.

Ruth A. Handwerk, laboratory attendant at the Hershey Medical Center, will retire Jan. 3. She joined the Hershey staff May 12, 1969.

25-year chairs

Each time Shirley N. Witmer left her University employment she never thought she would be returning. "I always thought well, this is it. I'll be raising my family," Mrs. Witmer says. However, she kept returning to Penn State and was recently honored for a quarter century of service with future plans of possibly reaching the 35-year mark.

When she started out at Penn State, Mrs. Witmer was employed as a secretary in the Department of Bacteriology in Agriculture from 1945 to 1949. She returned to work as an accounting clerk in the Continuing Education Business Office from 1953 to 1955. Later, in 1960, she worked as an accounting clerk in research accounting in the Controller's Office. In 1974, she returned to the Continuing Education Business Office to her present position, as a senior accounting clerk. In her job, she works with tuition payments for all Commonwealth Campus Continuing Education courses.

Mrs. Witmer and her husband, Claude, presently live in Maternville. One of their three children, Larry, graduated from Penn State in 1970 with a B.S. degree in the College of Science.

Merrill Barlow views his present position, group leader of composition in Printing Services, as a "big change from Landscape and Maintenance," where he was first employed as a laborer 25 years ago.

"There's always something new coming up — new advances, new equipment," he says of his tenure in the printing profession.

Mr. Barlo began his career in Printing Services as a cutting machine operator in 1959, preparing paper stock for the press and operating equipment for the bindery. He also worked as a letter printer make-up man. As group leader, he supervises assignments varying from letterheads and memos to folders and brochures.

Mr. Barlo and his wife, Freda, are residents of Gatsburg. They have a son and a daughter.

University Park Calendar

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Dec. 11 — 20

Special Events

Thursday, Dec. 11

Holiday Festival VII: International Crafts demonstration, 11 a.m.-1 p.m., Kern Gallery; International Music, noon, Kern Lobby; International Holiday Candlelight Dinner, 4:45-6:45 p.m., HUB Terrace Room.

Kern/WPSX-TV, *Cosmos* series, "The Edge of Forever," noon and 1:15 p.m., Kern Lobby. Black Studies Colloquium, 7:30 p.m., Walnut Bldg. Waldo Emerson Martin, Greensboro, N.C., on "The Mind of Frederick Douglass."

Friday, Dec. 12

Holiday Festival VII: Dough Sculpture demonstration, 11:30 a.m.-1:30 p.m., Kern Gallery; HUB Craft Center, Instructor's Sale, noon-4 and 7-9 p.m., Room 312 HUB; Phi Mu Alpha Dixieland Band, noon, Kern Lobby; International Holiday Candlelight Dinner, 4:45-6:45 p.m., HUB Terrace Room; "Glow at Christmas," buffet dinner and entertainment, 6:30 p.m., Room 102 Kern; Mystery Plays, 8:30 p.m., Eisenhower Chapel.

STS/TCO luncheon, noon; presentation, 12:20 p.m., Room 101 Kern. Ronald F. Abler, geography, on "Is a World University Possible?"

Commonspace Theatre, *Dark Victory*, 7 p.m.; *Key Largo*, 9 p.m., Room 112 Kern.

Saturday, Dec. 13

Holiday Festival VII: HUB Craft Center, Instructor's Sale, 11 a.m.-5 p.m., Room 312 HUB; Children's Christmas Party, 12:30-4 p.m., Robinson Center; CSA Coffeehouse, international entertainment, 8-10 p.m., Room 102 Kern.

Sports: bowling vs. Temple, 1 p.m.; swimming and diving (women) vs. Villanova, 1 p.m.; basketball (women) vs. Villanova, 9:45 a.m. and (men) vs. East Carolina, 8:10 p.m. France-Cinema, *Bluer, Femmes Fatales*, 7 and 9 p.m., Room 112 Kern.

PSU Symphony Orchestra and University Choirs, Ralph Vaughn-Williams, *Hodie*, 7:30 p.m., Eisenhower Auditorium.

Sunday, Dec. 14

Shaver's Creek Nature Center, holiday decoration workshop, 1-4 p.m., Stone Valley. Preregistration required, 865-1851.

Sports: bowling vs. Drexel, 1 p.m. Holiday Festival VII: PSU Glee Club and Women's Chorus Concert, 3 p.m., Schwab.

University Chapel Choir Christmas Concert, 7 p.m., Eisenhower Chapel; Mystery Plays, 8:30 p.m., Grace Lutheran Church.

Commonspace Theatre, *Dark Victory*, 7 p.m.; *Key Largo*, 9 p.m., Room 112 Kern.

Czechoslovakian dough sculpture

Monday, Dec. 15

Late registration deadline. Add deadline. ARL Award Day program, 3 p.m., Room 112 Kern. France-Cinema, *Femmes Fatales*, 7 and 9 p.m., Room 112 Kern. Sports: basketball (women) vs. Polish National Team, 7 p.m. Color Slide Club meeting, 7:30 p.m., Room 189 NRE. Laurence Perkins, viola recital, 8:30 p.m., Music Bldg. Recital Hall.

Tuesday, Dec. 16

Deadline for March graduates to pay these fees at Bursar's Office and to activate diploma cards in Records Office. Comp. Lit. Luncheon, 12:15 p.m.: talk, 1 p.m., Room 204 HUB. Teresa Gonzales-Leon, Spanish, on "The Oral Tradition in Modern Spain."

Comp. Lit. Film Series, *Kamouarska*, 7 and 9 p.m., Room 112 Kern. Artists Series Film, *Bolshev Ballet, Romeo and Juliet*, 8 p.m. Eisenhower Auditorium. Sports: wrestling vs. Tennessee, 8 p.m. Shaver's Creek Environmental Center, Bill Staines, folk, 7:30 p.m., Univ. Baptist Church, 4115 S. Burrows.

Wednesday, Dec. 17

Kern/WPSX-TV, *Cosmos* series, "The Persistence of Memory," 2:15 p.m., Kern Lobby. University Readers, *Christmas Carol*, 7:30 p.m., Room 112 Kern.

Thursday, Dec. 18

Kern/WPSX-TV, *Cosmos* series, "The Per-

sistence of Memory," noon and 1:15 p.m., Kern Lobby.

University Readers, *Christmas Carol*, 7:30 p.m., Room 112 Kern.

Saturday, Dec. 20

Winter Term recess begins, 12:25 p.m.

Seminars

Thursday, Dec. 11

Food Science, Nutrition, Animal Nutrition, Michael Pállansch, U.S. Department of Agriculture, on "Food Science and Nutrition Interactions in the Science and Education Administration, USDA," 11:10 a.m., 117 Borland.

Mathematics, John Loxton, Univ. of New South Wales, on "Automata, Transcendence and Paper-folding," 1 p.m., Room 102 McAllister (new listing).

Computer Science, Peter Honeyman, Bell Labs, on "The Universal Information Assumption and Alternatives," 4 p.m., Room 325 Whitmore (new listing).

Mathematics, R. Michael Range, SUNY/Albany, on "Estimates for the Cauchy-Riemann Complex," 4 p.m., Room 102 McAllister (new listing).

Friday, Dec. 12

Physical Chemistry, Philip Walker, fuel science, on "Carbon Gasification — the Role of Active Site and Catalysts," 2:30 p.m., Room 333 Whitmore.

Monday, Dec. 15

MCGB, Michael Clark, Boston College, on "Interactions of Heavy Metals Ions with Nucleotides and Conenymes," 4 p.m., Room 101 Althouse.

Trinkley. This portion of the concert will conclude with the Glee Club's renditions of Max Regner's "The Virgin's Slumber Song" and "Good King Wenceslas," arranged by Channing Lefebvre.

Three choruses from "The Messiah" — "And the Glory of the Lord," "And He Shall Purify" and "For Unto Us a Child is Born" will be performed by the Pennsylvania Vocal Ensemble. This group, formed by Mr. Trinkley eight years ago, is a chamber ensemble of 26 male and female voices. It is approximately the size of the group that originally performed the "Messiah."

The Women's Chorus and the Glee Club will combine to sing the concluding number on the program, the "Hallelujah" chorus from the "Messiah." John Marcinkowski will provide piano accompaniment.

There is no charge for concert, sponsored by the School of Music.

China photography exhibition

A photography exhibition by Alison Taggart and C.E. Reed titled *China 1922 and 1929* is on display through Dec. 18 at the Kern Galleries.

Alison Taggart, instructor of photo journalism, is a 1977 graduate of Rochester Institute of Technology's School of Photographic Illustration. She traveled in the Peoples Republic of China in the fall of 1979. The exhibition is a result of her artistic interpretation of that visit.

C.E. Reed traveled in China in 1922 and fifteen of his photographs are included in the exhibition.

Dough sculpture demonstration

A demonstration of Czechoslovakian Dough Sculpture will be presented in the Kern Bldg. lobby at 11:30 a.m. to 1:30 p.m., Dec. 12.

The demonstration, part of the Holiday Festival VII, will be presented by Dagmar Tichy who was born and educated in Czechoslovakia and has taught jewelry making at the University.

Concert planned for Dec. 13

The Penn State Symphony Orchestra and the University Choirs will present Vaughn Williams' "Hodie" (Christmas Day) at 7:30 p.m. Saturday, Dec. 13, in Eisenhower Auditorium.

Agriculture, Dale Schwindaman, U.S. Department of Agriculture, on "Animal Welfare Regulations — Thoughts For the Eighties," 3:55 p.m., Keller Bldg. Auditorium.

Tuesday, Dec. 16

Economics/Institute for Policy Research and Evaluation, Mark Ott and Michael Wasylenko, economics, on "Implications of Changes in Energy Prices and the Composition of Final Demand for Labor Productivity," 2 p.m., Room 124 Sparks.

Philosophy of Science, Peter Gould, geography, on "Inappropriate Structures: A View from the Trenches," 3:45 p.m., Room 319 Walker. Organic/Inorganic Chemistry, L. Sneddon, Univ. of Penn., on "Synthetic Applications of Transition Metal Reagents in Polyhedral Boron Cage Chemistry," 8 p.m., Room 333 Whitmore.

Thursday, Dec. 18

Chemistry, Robert Crabtree, Yale Univ., on "Iridium Compounds in Catalysis," 12:45 p.m., Room 333 Whitmore.

Physics, Leslie Tisza, MIT, on "Differential Forms and Gauge Fields," 3:50 p.m., Room 445 Dacey.

Mathematics, Stephen G. Simpson, mathematics, on "The Incompleteness of Mathematics: Hilbert, Gödel, Cohen, Friedman," 4 p.m., Room 102 McAllister.

Schilling Science and Religion, Dale Harris, psychology, emeritus, on "Humanistic Psychology as a Secular Religion," 7 p.m., Gilpen Room, Nittany Lion Inn. Dinner also, for reservations phone 863-0524, 9 a.m.-2 p.m.

Exhibits

Chambers Gallery: Maureen Garvin, paintings, Ron Gallas, ceramics, through Dec. 19.

Kern Gallery: Polish Circus and Cultural Poster exhibit and sale, through Dec. 17. Alison Taggart, photography: International Artifacts exhibit and sale, through Dec. 18.

Museum of Art: Contemporary prints from the permanent collection, through Dec. 14. "The Art of the Needle," 18th to 20th century European paintings and lithographs to 20th century American works from the permanent collection.

Pattee Library: Robert Sadin, lithographs, through Dec. 14; Robert Greder, drawings and paintings, opens Dec. 15. East Corridor Gallery, Dave Hopkins, paintings and drawings, through Dec. 15; Robin Bergstein, mixed media, opens Dec. 16. Lending Services Lobby, Jack Enold, sculpture, Main Lobby. Christmas material from the Allison-Shelley Collection, Rare Books Room. Gordon Studer, drawings and paintings, West Lobby.

Visual Arts Gallery: MFA Graduate exhibit, through Dec. 19.

Also featured will be the Schola Cantorum, the boys' choir from Our Lady of Victory Catholic Church in State College, and three soloists — soprano Kim Dronenberg, tenor Tommie Irwin and baritone Peter Dunham.

The Schola Cantorum, composed of 16 boys between the ages of four and nine, regularly performs the Holy Liturgy of the Mass and also has participated in numerous musical events outside the church. The group is conducted by Christopher Kirkpatrick.

The free concert, which is open to the public, is sponsored by the School of Music.

Folk musician to perform

Folk musician Bill Staines will give a concert of original tunes at 7:30 p.m. Dec. 16 at the University Baptist Church, 4115 S. Burrows St., under sponsorship of the University's Shaver's Creek Environmental Center.

Tickets are \$3 and can be purchased at 267 Recreation Hall, the Shaver's Creek Nature Center at Stone Valley, or at the door. All proceeds will benefit the Nature Center and its environmental program.

Arts Roundup

Women's Chorus joins Glee Club in concert

The Penn State Glee Club will be joined by the Penn State Women's Chorus for the annual Christmas Concert at 3 p.m. Sunday, Dec. 14, in Schwab Auditorium.

The women's group will open the program with Benjamin Britten's "Ceremony of Carols," opus 28, the well-known Christmas work in 11 parts. Harpist Nan Gullo Mann, daughter of former Glee Club director Frank Gullo and a professional who has performed with the Pittsburgh Symphony Orchestra, will be the featured soloist on this piece. Three Christmas carols, Michael Praetorius' "Lo, How a Rose E'er Blooming," "Vaughn Williams' arrangement of "Wassail Song" and "In the Bleak Mid-Winter" by Gustav Holst, will be performed by soprano Suzanne Roy for the second part of the program. Ed Roy, an assistant professor in the School of Music, also will sing "The Praise of Christmas," an English secular carol arranged by Glee Club director Bruce

Evan Pugh

(Continued from page 1)

recognition as one of the major figures in modern physical anthropology and your selection to the National Academy of Sciences. . . are truly impressive."

A 1951 graduate of the University of New Mexico, Dr. Baker received his Ph.D. from Harvard University. In recent years, his research has focused on the biology and adaptiveness of high-altitude populations. He has written, edited and contributed to numerous books, and published articles in a long list of scholarly publications. His publication record also includes many abstracts, reviews and contributions to government publications.

Honors and awards have included a Fulbright lectureship, a Fulbright research scholarship, a NATO Senior Science fellowship at Oxford University and a Guggenheim fellowship. He has worked as a consultant to numerous institutions, foundations and corporations and has delivered invited lectures throughout the world.

Dr. Rustum Roy came to Penn State as a graduate student after studying in England and in his native India. He received his Ph.D. in ceramics from Penn State in 1948 and remained as a post-doctoral fellow and later a faculty member. He became a professor of geochemistry in 1957 and professor of the solid state in 1967. He has directed the Materials Research Lab since 1962.

According to his nominating petition, Dr. Roy "exceeds among Penn State faculty by almost any standard one selects: scholarship, teaching effectiveness, research leadership and accomplishment and breadth of interest and service."

Dr. Roy has pioneered in laboratory synthesis of silicates and oxides under conditions of high temperatures and high water-vapor pressures to stimulate the mineral-forming processes of the earth. In the last five years, his work in radioactive waste solidification has made Penn State the world leader in this area.

In selecting Dr. Roy, President Oswald noted: "Your contributions to the structure of ultra-fine-grained minerals, notably clay and zeolites, important both in geology and soil science, have gained worldwide recognition."

Besides his work in his research disciplines, Dr. Roy has been active throughout his career in numerous interdisciplinary fields. He is a regular guest lecturer in Penn State's Colleges of Education, Human Development and the Liberal Arts.

In recognition of his work in relating technology and science, he was selected to deliver the prestigious Hibbert Lecture last year at London University. His books and articles in various fields total more than 300, and he has lectured extensively throughout the world.

Dr. Roy is a Life Fellow of the Mineralogical Society of America, a fellow of the American Ceramic Society and an active member of numerous other professional groups.

His awards and recognition have included membership in the National Academy of Engineering and membership in the Royal Swedish Academy of Engineering Sciences. He also has served on numerous committees for national and state organizations.

Dr. Elliot Vesell joined the faculty of Penn State's College of Medicine as a professor and department chairman in 1968. He became assistant dean of graduate education in 1973.

A 1955 Phi Beta Kappa graduate of Harvard College, Dr. Vesell received his M.D. magna cum laude from Harvard Medical in 1959. While still a medical student, he and an associate published a discovery related to the enzyme lactate dehydrogenases (LDH). The discovery simplified the diagnosis of many diseases and continues to be important today.

Since 1965, Dr. Vesell has been active in the areas of clinical pharmacology and pharmacogenetics. His studies of the effects of drugs on human twins led to the

discovery that drug tolerance is largely genetically controlled and that dosage and timing of medication must take this into consideration.

Recent work has involved testing the effects of various drugs on human subjects, and his approach to identifying factors causing variation in drug response has influenced the pharmacology profession throughout the world.

Dr. Oswald commented in his selection of Dr. Vesell: "Your pioneering work and several fundamental discoveries in the biomedical sciences are truly impressive."

At the Milton S. Hershey Medical Center, Dr. Vesell became the first chairman of the Pharmacology Department, now considered one of the best in the country. He recently was elected president of the national organization of pharmacology department chairmen.

He also is president of the American College of Clinical Pharmacology and a member of the editorial boards of 10 scientific journals.

Dr. Vesell teaches over a large span of the medical curriculum in a wide diversity of disciplines. He has designed a number of courses himself. Each summer, he directs the research projects of medical students in his laboratory. Many of the projects have resulted in published works.

Before coming to Penn State, Dr. Vesell was associated with a number of health care and educational institutions, including the Loma Linda University School of Medicine, the University of Alabama Medical Center, the Georgetown Medical School, Rockefeller University and Massachusetts General Hospital.

His publications in professional journals total more than 180, and he has edited a number of textbooks and served as a consultant in various capacities.

Dr. Philip Young came to Penn State as professor of American literature in 1959—already acknowledged as the leading authority on the works of Ernest Hemingway. He received the title research professor of English and fellow, Institute for the Arts and Humanistic Studies, in 1966.

According to his nominating petition, "Professor Young typically attacks difficult problems, usually problems with psychological dimensions that invite hazy or reckless speculation, and investigates them so thoroughly, so intelligently, so responsibly and comprehensively that, when he has finished, they have been dealt with once and for all. They need no tidying up, no refining; they resist challenge; they become continually useful thereafter for all other scholars in the field."

In 1952, Dr. Young and his book, "Ernest Hemingway," drew wide critical praise. He was called "an excellent scholar, critic and literary detective" by the New Yorker. Saturday Review called the book "an example of the maturing of modern American criticism."

In citing Dr. Young's achievements, Dr. Oswald commented, "By every index, you have proven yourself an exceptional scholar. In a letter endorsing your nomination, you are identified as 'the foremost critical authority on Ernest Hemingway and a celebrated pioneer in the analysis of the power of certain myths on American literature and thought.' Your career accomplishments are a great source of pride to the University."

Besides his initial Hemingway book, Dr. Young has published two others on the novelist, including an inventory of the Hemingway manuscripts. "Three Bags Full: Essays in American Fiction" was published in 1977, and "Revolutionary Ladies" in 1979. Another book is in progress. Dr. Young also has edited and/or introduced a number of books and has authored many essays, journal articles and reviews. He also has delivered numerous invited lectures in the United States and abroad.

Dr. Young is an authority on the works of Nathaniel Hawthorne and William Faulkner, in addition to Hemingway, and his studies of basic myths in American literature are regarded as classics.

A 1940 graduate of Amherst College, he did graduate work at Harvard University and received his Ph.D. at the University of Iowa in 1948. Prior to his Penn State appointment, he was on the faculties at New York University, Kansas State University and the University of Minnesota.

The appointment of five new Evan Pugh Professors brings to 15, the total active on Penn State's faculty. The others are: Hans A. Panofsky (astrophysics sciences), Vernon J. Aspatarian (political science), Howard E. Morgan (physiology, Hershey Medical Center), Richard R. Nelson (plant pathology), Philip S. Skellern (chemistry), Philip L. Walker (materials science), Eugenio Battisti (art history), Stephen J. Benkovic (chemistry), Herschel W. Leibowitz (physiology) and Fred Rapp (microbiology, Hershey Medical Center).

News in Brief

(Continued from page 1)

Research proposals sought

Faculty from all University campuses are invited to submit proposals to the 1981-82 Research Initiation Grant Program, established to support research and other creative work in the sciences, technology, social sciences, and arts and humanities. The RIG Program for 1981-82 is limited to a new faculty on standing appointments and with a service accumulation of two calendar years or less by September, 1981.

The 12-month awards range from \$2,000 to \$5,000 and will be announced following a preliminary screening by the colleges and final recommendations from a subcommittee of the Administrative Committee on Research (ACOR).

Faculty members desiring further information should call their ACOR representatives or Commonwealth Campus directors. The proposal deadline is Monday, Jan. 19; awards will be announced by Friday, Feb. 27.

Fleet vehicle use outlined

Fleet vehicle users are reminded that only full-time University employees on official University business are authorized to drive Fleet vehicles. Exceptions may be requested under unusual circumstances from part-time employees, such as a graduate student.

Undergraduate students are not permitted to drive Fleet vehicles; however, they may act as a relief driver when accompanying a faculty or staff member on a long trip. An undergraduate student may not drive a Fleet vehicle if a full-time University employee, who assumes full responsibility, is not in the vehicle at the time.

A complete statement on University policy governing use of Fleet Operations' vehicles is in TR-10 of the Penn State Policy Manual.

Committee has funds for international programs

The University Committee for International Programs (UCIP) currently has a small amount of money that may be used by faculty members and departments to help defray costs of speakers, program development or proposals of an international nature. First priority will be given to interdisciplinary or inter-college programs or activities.

Funds should be requested at least 30 days prior to the activity by sending brief biographical data, program details, total costs and the amount requested to UCIP, 306 Willard Building.

Math department hosts visiting Chinese scholar

An international authority in analytic number theory is visiting the Department of Mathematics through Dec. 19. Wang Yuan, a Research Fellow of the Institute of Mathematics, Academia Sinica, Beijing, People's Republic of China, is a member of

an official delegation that has been visiting several American universities.

During his stay on campus, Professor Wang will present a public lecture entitled, "Applications of Diophantine Approximations to Numerical Analysis" at 4 p.m. Dec. 16 in Room 102 McAllister Building.

A graduate of Zhe Jiang University, Professor Wang studied under the mathematician Hua Loo Keng at the Academia Sinica. During the 1950s he gained international recognition for his pioneering work in applied sieve techniques to the Goldbach conjecture that every positive even integer is the sum of two prime numbers. Throughout the Cultural Revolution, Professor Wang continued to work on applications of number theory to numerical analysis. Recently, his area of interest has involved diophantine approximations, a subject of growing importance for numerical analysis.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff non-exempt have been listed with the University Employment Office for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 673-1387). Applications for these staff vacancies will be accepted until 5 p.m., Dec. 18, 1980. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

MANAGER OF PHARMACY, COLLEGE OF MEDICINE, Hershey Responsible to the Associate Hospital Director for the Administrative and technical operation of the Department of Pharmacy to include the recruitment and retention of professional, technical and clerical employees as well as providing quality service at a cost corresponding to the highest level of productivity. A master of science degree or doctor of pharmacy degree, completed ASHP approved residency in hospital pharmacy, plus three to four years of active experience. Pennsylvania registration as pharmacist or eligibility required.

Behrend seeks associate dean

A search committee has begun accepting applications for the new position of associate dean of Behrend College. The associate dean will have principal responsibilities for academic affairs.

Criteria for appointment include prior experience as a faculty member with substantial experience in faculty governance; terminal degree in discipline; substantial evidence of scholarly research and professional activity; demonstrated commitment to multi-disciplinary undergraduate education and experience in graduate education and life long learning; demonstrated ability to set priorities, supervise people, develop plans, and cultivate innovation.

Candidates should be available by Feb. 1, 1981. Nominations and letters of application (with vita) should be sent by Dec. 31, 1980, to: Search Committee, Associate Dean, Office of the Dean, The Behrend College, The Pennsylvania State University, Box 1011, Station Road Erie, PA 16563.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Marlowe Froke

Seven named to Commonwealth Educational Network

Seven administrators have been appointed to key positions in the newly organized network integrating the University's Continuing Education system and 17 Commonwealth Campuses.

Subject to approval of the Board of Trustees, the new organization will be designated The Pennsylvania State University Commonwealth Educational Network.

The network will begin operating Jan. 1 under an administrative reorganization implemented by Dr. Robert J. Scannell, president and dean.

The new appointments are: Daniel T. Hopkins to assistant vice president and director, Division of Continuing Education.

Dr. Gladys I. Ritchie to associate dean for academic affairs.

Dr. Kenneth E. Varcoe to assistant vice president for student affairs.

Marlowe D. Froke to director, Division of Media and Learning Resources.

Angelo R. Bigatell to assistant to the vice president for business.

Thomas E. Tracy to director of the Office of Management.

Dr. John L. Leathers to assistant to the vice president and dean.

"I am extremely pleased with the organization plan worked out by Provost Edward D. Eddy, Dr. Scannell and many other members of the faculty and administration," President Oswald said in announcing the appointments today. "The new network will help to eliminate duplication of effort in carrying out the missions of the Commonwealth

Angelo Bigatell

Campuses and Continuing Education, while adding quality.

"As developed by Dr. Scannell, relationships among key officers within

Thomas Tracy

of the Division of Continuing Education in the new Commonwealth network, Daniel T. Hopkins will be responsible for continuing education programs throughout Penn State's 22-campus system.

Since January, 1980, he has been acting vice president for Continuing Education. Since he began his Penn State career in 1948, he has served in numerous capacities in the Continuing Education system, including director of administration and field services, associate and assistant director of administration and director of what then were the Behrend Campus and the McKeesport Center.

Dr. Gladys I. Ritchie, as associate dean for academic affairs, will oversee academic functions within the new Commonwealth

John Leathers

Educational Network.

She has been associate dean of Commonwealth Campuses since August, 1979. Previously, she served as interim associate dean. She joined the Penn State system as assistant professor of speech at the Delaware County Campus in 1968. She was promoted to associate professor in 1973.

As assistant vice president for student affairs, Dr. Kenneth E. Varcoe will administer student affairs programs within the Commonwealth Educational Network. He also will coordinate the student service functions of the offices of the senior vice president for administration and admissions.

Dr. Varcoe came to Penn State in 1976

the Commonwealth organization are clearly defined, while latitude is allowed for them to develop appropriate channels with the colleges, departments and other units of the University."

As assistant vice president and director

Talks on funding change set

President Oswald and other representatives of Penn State will meet with representatives of the other Commonwealth universities early next year to discuss possible changes in the universities' method of acquiring State support.

The President told a meeting of area media that the question of preferred non-preferred status will be examined fully by representatives of Penn State, Dr. Pitt, and Temple in an effort to secure equitable treatment for the universities in the State budgeting process. "This is the first time we are approaching this issue collectively," Dr. Oswald said. "We will be looking carefully at legal problems that exist.

"I imagine Penn State could become a part of the State budget, but at the same time its relative operational freedom might be seriously jeopardized.

"The fundamental issue facing Penn State is to seek a method of having the University's appropriation considered along with other State agencies, while, at the same time, preserving the relative freedom we have as a state university."

Concerning current University calendar discussions, Dr. Oswald emphasized that a calendar decision has not yet been made. "I put forward the early-semester proposal at the outset to indicate where I was leaning — a calendar which many

(Continued on page 8)

Faculty Senate to discuss PS-23

The University Faculty Senate at its meeting Jan. 6 will discuss proposed changes in the general criteria section of the University Policy Governing Promotion and Tenure.

The changes are being proposed by the Senate Committee on Faculty Affairs, which has reviewed recommendations made by a Joint Faculty/Administrative Commission. The Faculty Affairs Committee proposes the relevant section of PS-23 read as follows:

"PS-23 Policy — II. Criteria for Promotion and Tenure. General Criteria: Promotion and tenure decisions shall be based on the following criteria, which must be applied in light of the mission of the

academic unit and the professional responsibilities carried out by the faculty member. The criteria have purposely been made general in the expectation that each academic unit may further define, elaborate AND WEIGHT them on the basis of documented primary faculty assignment. THE DISCOVERY, SYNTHESIS, TRANSMISSION AND APPLICATION OF KNOWLEDGE ARE THE RAISON D'ETRE OF THE UNIVERSITY. IN LIGHT OF THESE SEVERAL MISSIONS, TEACHING, RESEARCH, SCHOLARSHIP AND SERVICE ARE CENTRAL CRITERIA IN THE EVALUATION OF

(Continued on page 8)

Penn Staters

Dr. John L. George, chairman of the Wildlife Program faculty in the School of Forest Resources, was invited to witness President Carter's signing of the Alaska National Interest Lands Conservation Act — which tripled the nation's wilderness acreage and doubled the number of national parks, scenic rivers and wildlife refuges.

Dr. George has been involved in the nine-year effort which has led to the establishment of 97 new federal parks and wildlife refuges on about 100 million acres. At the ceremony he received a map of Alaska signed by President Carter.

Dr. Gordon F. De Jong, professor of sociology and associate director, Population Issues Research Center, recently gave an invited seminar on "Migration and Politics: An Overview of Causes and Potential Consequences of Population Redistribution in the U.S." at the East-West Population Institute, Honolulu, Hawaii. The talk summarized materials Dr. De Jong and colleagues presented at a recent briefing of the U.S. House of Representatives Subcommittee on Census and Population.

Dr. Philip A. Klein, professor of economics, presented a lecture,

"Analyzing Growth Cycles in Postwar Sweden," in Stockholm last month under the auspices of the Swedish Federation of Employers. Prior to the presentation, he spent four days in Brussels consulting for the European Economic Community.

Dr. Emily Toth, assistant professor of English, last month delivered an invited lecture, "Feminism and Cross-Cultural Translation," for the Women's Studies Society of Kyoto, Japan. Dr. Toth discussed her book, *The Curse: A Cultural History of Menstruation* (co-authored with Janice Delaney and Mary Jane Lupton), and research undertaken since the book was published. *The Curse* has also been published in Japanese translation under the title *Sayonara Blue Day* (Kodansha, publishers).

Dr. Marshall Kaplan, professor of aerospace engineering, will be featured on a one-hour CBS-television special on the space shuttle. It will be aired the evening of Jan. 1.

Dr. Lester S. Golub, professor of education, delivered an invitational paper entitled "Research in Literacy Development of Bilingual Children" at the National Conference on Research in English in Cincinnati last month.

Dr. Margaret Newman, professor of nursing, presented a paper, "The Meaning of Health," at the International Congress on Applied Systems Research Dec. 12 in Acapulco, Mexico.

An article by Dr. David L. Passmore, associate professor of vocational education, has been honored by the Journal of Industrial Teacher Education. The article — "Use of Interdisciplinary Analysis to Plan Education for Work" — was selected as the "outstanding conceptual manuscript" for Vol. 17 of the publication, which is the major journal of vocational-industrial education.

Dr. Kant Rao has been appointed deputy director of the Pennsylvania Transportation Institute. In his new capacity, Dr. Rao will have administrative and budgetary responsibility for the Institute's transportation-related research projects.

Dr. Rao has extensive experience with multimodal transportation analysis. In 1978 he conducted a study for the Pennsylvania Department of Transportation on cost-effective state transportation policies and investments with regard to Pennsylvania coal.

During 1976-78, he worked on an analysis of the impact of federal-aid programs on state expenditure decisions.

Much of his research involves economics (cost-benefit analysis) and statistical techniques. He has also done extensive work in the field of transportation finance.

An assistant professor of business logistics, he received baccalaureate degrees in mechanical engineering and management from M.I.T. and a master's degree in business administration and a doctorate in management science from Penn State.

After joining the faculty in 1976, Dr. Rao took a two-year leave of absence from the University in 1978 to become associate deputy secretary for fiscal and systems management at the Pennsylvania Department of Transportation. There he was responsible for managing the Department's \$1.4 billion budget as well as an \$11 million computer operation.

Dr. R.V. Ramani, professor of mining engineering, recently spent a week as a visiting professor in the Department of Mining, Petroleum and Geological Engineering at the University of Missouri. Earlier this year, he was appointed a member of the planning committee for the Second International Symposium on Training in the Prevention of Occupational Risks in the Mining Industry.

Staff Development

Twenty-two University employees recently took advantage of the opportunity to take a course in Supervisory Management. During the eight sessions, basic management principles were provided by Dennis W. Keiser, coordinator, Employee and Management Development. Those completing the course were:

Rose Ann Alters, secretary B, Personnel Administration; Jean Beaulieu, secretary B, Science; Margaret Bell, clerk A, Business Administration; Victoria Bordin, records team leader, Registrar's Office; Helen DeBucher, counselor, Student Affairs; Helen D'Furio, senior accounting clerk, Mathematics; Anna Dorman, assistant coordinator of contracts and business services, Continuing Education; Susan Govedich, secretary B, IRP;

Linda Gummo, records clerk A, Graduate School; Dorcas Holt, secretary B, Human Development; Lynn Korman, senior clerk, Fleet Operations; Betty Mark, research technician, Earth and Mineral Sciences; Deborah Padgett, senior clerk, Libraries; Sharon Peters, secretary A, Science; Norma Ruedy, secretary A, Business Services; Dean Sholl, business manager, broadcasting, Continuing Education; Edna Shuey, secretary B, Computer Science.

Nelson Smith, media distribution specialist, Continuing Education; Alan Smith, senior clerk, Libraries; Debbie Stahl, secretary A, Education; Jacqueline Wolfe, secretary A, Agriculture; Michael Yarnell, assignment office services assistant, Housing and Food Services.

Twenty-one employees at the Hershey Medical Center have completed an eight-week EXCEL program designed to enhance and improve the various relevant skills essential in the proper and effective performance of their jobs. They are:

Susan Abbott, secretary B, Fiscal Services; Mary Acrt, secretary B, Hospital Administration; Bridget Boyd, Secretary B, General Services; Bonnie Brandt, secretary B, Public Relations; Sharon Coons, senior budget clerk, Biological Chemistry; Betty Cooper, budget clerk, Pediatrics; Carmella DiMaggio, secretary B, Grants and Contracts; Rose Faloney, senior fax operator, Telephone Services; Sally Farr, secretary A, Deputy Controller; E. Joyce Greene, secretary B, Comparative Medicine;

Joan Groh, secretary B, Pediatrics; Mithoo Katrak, secretary B, Social Services; Ruthanne Kontra, secretary B, Medical Computer Center; Brenda Pavone, secretary B, Cardiology Services Lab; Cheryl Rhen, secretary B, Gifts & Endowments; Jeannette Schwartz, secretary

B, Multidiscipline Labs; Verna Schwartz, secretary B, Nursing Administration; Meredith Swager, employment specialist, Personnel; Nancy Thomas, secretary B, Physical Therapy; June Watson, secretary, Humanities; Judith Whalen, secretary A, Medicine.

Fourteen staff employees are recent graduates of the Oral Communications/Talking With People Course taught by Dr. Douglas J. Pedersen, associate professor of speech communication.

Those graduating were:

Ross Adams, classification analyst, Personnel Administration; Lori Benacci, operations supervisor, IRP; Dennis Bender, art specialist, Continuing Education; Howard Finney, editorial assistant, Continuing Education; Betty Fisher, associate housekeeping supervisor, Housing and Food Services; John Harchak, assistant budget supervisor, Continuing Education; Ralph Hosterman Jr., general accountant, Housing and Food Services;

Elaine Huber, assistant housekeeping supervisor, Housing and Food Services; Harry Litten, associate housekeeping supervisor, Housing and Food Services; Pauline Ponish, assistant housekeeping supervisor, Housing and Food Services; Frances Rishell, assistant housekeeping supervisor, Housing and Food Services; C. Louise Trego, administrative assistant, Management Services; Richard Young, operations supervisor, IRP; Grace Youngling, administrative assistant, President's Office.

Thirty clerical employees have completed an eight-week Writing Skills for Secretaries/Clericals program taught by James Hill, assistant professor of English. Employees completing the course were:

Maria Bayliss, production scheduling clerk A, Physical Plant; Connie Blajme, secretary B, Continuing Education; Jean Burfield, secretary B, Science; John Dixon, secretary B, Management Services; Sherry Ellenberger, secretary C, Pattee Library; Sarah Finney, maintenance clerk A, Housing and Food Services; Linda Grieg, secretary B, Publications; Virginia Jones, accounting clerk A, Science;

Sharon Jows, technical secretary C, IRP; Rita Kline, data processing clerk A, Physical Plant; Donna Krach, accounting clerk, Continuing Education; Janis Leitzell, secretary B, Education; Francis Lingle, room assignment and terminal clerk, Housing and Food Services; Sarah Matiz, receptionist, typist A, Mathematics; Jane McCoy, secretary B, Human Development; Jeannette Parson, senior clerk, Pattee Library; Holly Rasdorf, secretary, ARL; Jean Rose, secretary B, Business Administration;

Penny Rosefsky, clerk A, Physical Plant; Susan Runk, secretary B, President's Office; Patricia Simmet, secretary C, Education; Suzanne Sinclair, secretary B, Science; Jill Snook, secretary C, Physical Plant; Barbara Sommers, senior records clerk, Human Development; Sharon Stover, statistical clerk, President's Office; Marilyn Taylor, technical secretary C, ARL; Rochelle Winn, secretary C, Agriculture; Robin Yeane, secretary C, Housing and Food Services; Kathy Zimmerman, clerk typist A, Agriculture.

Carpoolers

Alice Haines, Bibliographic Service Department at Pattee Library, needs a ride from Pattee to Bouslog each weeknight at midday, starting in January. Call 865-1755 or 466-7468.

Janet Grafsmyer is seeking a ride from Pleasant Gap, to arrive for work at 8 a.m. and leave campus at 4:30 p.m. Phone 865-1791 or 359-2473.

25-year chairs

A job that involves preparing and dispensing chemicals for use in undergraduate laboratories requires a very special person — one such as F. Nevil Corl, for example, who has just celebrated his 25th year as a stockroom inventory clerk in the College of Science.

Accuracy and precision are essential in Mr. Corl's job. Unless he sees that solutions and unknowns are prepared correctly, the experiments designed for Chemistry 14 and 15 laboratory courses will not work.

Mr. Corl also keeps records of orders for the various chemistry research programs and delivers materials when they come in. Mr. Corl's wife, Beverly, a teacher's aide with the Central Intermediate Unit, have two children. Their son, Rodney, is completing his third term at Penn State. Their daughter, Sharon, attended the University and is now working at C-Cor.

Mr. Corl's hobby is gardening, and he is thinking about taking some horticulture courses as he embarks on his second quarter century at Penn State.

F. Nevil Corl

Richard J. Truscott

When Richard J. Truscott left his native England for the United States, he brought not only his family, but his training in masonry as well. Although he began his Penn State career in 1955 as a groundsman in landscaping, he was soon employed as a mason's helper. He was later promoted to his present position of mason in Physical Plant. Through his 25-year span of University service, Mr. Truscott has used his experience in the masonry trade to repair and maintain blocks, bricks, cement, and stonework on University buildings and property.

In his spare hours, Mr. Truscott likes to do as much camping as time allows. He presently lives with his wife, Frances, in Housserville. They have four children — three daughters, one son — and three grandchildren. One daughter, Frances, works as a clerk in the Map Room at the Library.

"I really didn't seem like 25 years," says Mrs. Josephine C. Corl of her tenure as a secretary in Continuing Education. "I've been interested in every phase of my work. I enjoy working and helping people."

Mrs. Corl's interest and dedication shows in her work.

"Mrs. Corl has no concept of time as it pertains to work," comments supervisor Marlowe Froke, director of the Division of Media and Learning Resources. "She frequently works at 7 or 7:30 a.m. over the noon hour, and past 5 o'clock. Mrs. Corl is probably one of the most dedicated and efficient secretaries in the University."

Mrs. Corl's many years of experience in Continuing Education have also made her a valuable asset on the job. In 1954 she began as a secretary in Business Administration in General Extension.

(predecessor to Continuing Education) In 1956 she worked in the Conference Center for a short time and left to start a family. She returned later that same year to work for Dr. Stewart Goas, associate director of Graduate and Undergraduate Instruction. After Mr. Goas' retirement in February 1971, Mrs. Corl's working knowledge of the department enabled her to keep the running until her current supervisor, Marlowe Froke, took over in April, 1972.

Mrs. Corl resides near Pine Grove with her husband, Hubert. The Corls have one son, Eugene, who is presently employed as an animal caretaker at the Research Breeder Lab.

Retirements

Mrs. Maude Gill, secretary to Dr. Lee Slenker, head of the Department of Chemical Engineering, is retiring Dec. 31 after almost 43 years of University service.

Mrs. Gill began her career at Penn State in 1938 as a part-time typist. In 1941 she became a full-time typist with the Engineering Science Management War Training Program, where she remained until 1943.

In 1944 she began her long association with the Engineering College and the chemical engineering field. She was a typist at the Petroleum Refining Laboratory founded by Professor Merrell Fenske.

She left Penn State briefly in 1946, returning in 1948 as secretary to Russell Clark, head of housing. In 1949 Mrs. Gill began working in the College of Engineering, and in 1950 became secretary to the head of Chemical Engineering Department. From that time on Mrs. Gill has been secretary to five department heads.

Mrs. Gill and her husband, Philbert, have two sons. Philbert is a graduate of West Haven College and Kansas State University and is currently teacher and baseball coach at the Western Parkway Junior High School. Michael, a Penn State graduate who received his M.S. at Iowa University and his Ph.D. from the University of Ohio, is now on the staff of the VA Hospital in New Haven, Connecticut. The Gills have six grandchildren, 3 girls and 3 boys.

When asked, Mrs. Gill tells people that she plans to relax with her husband during retirement, but it doesn't sound as if she'll have much time to do that. She says, "We expect to visit relatives and friends all over the U.S. And we may take a trip to the Holy Land with a return trip to Hawaii." Her husband, she notes, has already made plans to attend a Little League Congress in Montana in April.

The Gill family collects antiques and paintings of all kinds. Mrs. Gill says she has to do the needlework she has laid out, read all the books she's been buying, and also plans to resume music lessons. Mrs. Gill plays the organ. Most of all, according to Mrs. Gill, "My husband and I enjoy our grandchildren so much we want to go to places and do things with them before they start going their separate ways."

Valerie A. Yerg, a college health nurse in Student Administrative Service, will retire Jan. 1. She has been a member of the staff since Oct. 1, 1966.

Grace H. Oberholzer, an environmental health worker at Hershey since Nov. 16, 1970, will retire Jan. 1.

Maude Gill

Joseph D. Slenker

Joseph D. Slenker, print shop technician in the Department of Chemical Engineering, will retire Dec. 31 after 32 years of University service.

Mr. Slenker has run a multigraph offset printer, and over the years, has been responsible for printing, collating, and binding technical reports, graduate theses and dissertations, and the various class materials needed for the department's faculty and students. If his machine broke down, Mr. Slenker was able to repair the expensive equipment himself.

He began working at the University in March, 1948, in the old Petroleum Refining Laboratory which was located at the present site of Hammond Building. There he also reproduced reports, and did drafting and drawing for the research projects done at the lab.

Before coming to Penn State Mr. Slenker worked for 10 years at the Piper Aircraft Company in Lock Haven. Besides doing some flying he checked out the airplanes and made necessary instrument adjustments prior to flight testing.

Mr. Slenker and his wife, Alice, who retired in June from the Western Parkway Junior High, where she was library secretary, have three children. Their sons, Joseph and Frank, are both PSU graduates. Joseph is the basketball coach at the State College High School, and Frank teaches at Penns Valley High. Their daughter, Mary Elizabeth, is married and lives in Florida. After retirement Mr. Slenker says "I'm just going to do the things I want to do. And I am going to look into community projects such as Meals on Wheels or any other effort that may need volunteers."

Almeda M. Schildt, a senior milk testing machine operator in Agriculture and a member of the University's staff since Feb. 23, 1967, will retire Jan. 5.

Marian N. Forhringer, a resident hall worker in Housing and Food Services, will retire Jan. 9 after serving on the staff since Sept. 6, 1966.

Ellen Bayer, an administrative aide at the Ogontz Campus, will retire Jan. 1 after serving on the staff since Dec. 1, 1960.

Margaret P. Smith, a residence hall worker in Housing and Food Services, will retire Jan. 1 after serving on the staff since Sept. 30, 1969.

Donald Zell

Donald Zell, financial aid coordinator, will retire Dec. 31.

A Penn State employee for some 25 years, Mr. Zell has served in his present capacity since 1969, advising students about financial aid opportunities. Previously he served Penn State as assistant bursar and as an accountant in the departments of auditing and accounting administration.

He earned his B.S. degree in marketing from Temple University in 1950. Previously, the Lancaster County native served in the U.S. Army during World War II, remaining in the Army Reserve until 1959.

Active in community affairs, Mr. Zell has been a member of State College's Alpha Ambulance Club for the past seven years. He also has been active in the Red Cross, Cub Scouts and the Presbyterian Church.

"I'm looking forward to finding a part-time job, which will allow me to still remain active and have more free time to pursue some of my personal interests," the retiring administrator says, noting that he and his wife, Inez, will continue to reside in State College.

Of the couple's three children, Paul is employed in the State College area, Diane is a senior college student in New York State, and Ronald, a high school student, lives at home.

George A. Gardner, who joined the University on March 1, 1962, will retire Jan. 1 as a lead painter in the Office of Physical Plant.

Alice B. Keener, a clerk/typist in Agriculture and a member of the University's staff since July 1, 1962, will retire Jan. 1.

Paul W. Musselman is retiring as a janitorial worker in the Office of Physical Plant on Jan. 2. He has been a member of the staff since Oct. 31, 1973.

George E. Williams, a conference assistant in Continuing Education, will retire Jan. 1 after an association with the University which began July 1, 1966.

Flora Y. Walters, secretary in the College of the Liberal Arts, will retire Jan. 1. She joined the staff Sept. 11, 1967.

Isabelle Sechrist

January 1, 1981, will not only signify the beginning of the new year for Isabelle Sechrist, but it will also mark the beginning of a new way of life. She will no longer be making a daily 30-mile commute from Huntingdon to Penn State and will be filling her newly acquired spare time with church and volunteer work, knitting, and crocheting. Mrs. Sechrist, a University employee for 26 years, will be retiring from her Penn State position as research technician in ARL.

A 1941 Penn State graduate with a B.A. in mathematics, Mrs. Sechrist began her Penn State employment in 1954 as a research technician in the Department of Rural Sociology. She later transferred to the Ordinance Research Laboratory, predecessor to the Applied Research Laboratory. In her duties as a research assistant, she has been involved with data reduction research, computer programming and plotting. Mrs. Sechrist received her 25-year award in 1979.

"I feel that I've had 21 1/2 good years," notes Marian M. Kern. "Although my job has had its ups and downs, the good days have far exceeded the bad days." Miss Kern will retire Jan. 1 as an operator in the Sewing Room in Housing and Food Services.

A Spring Mills resident, Miss Kern plans to do "anything that comes to mind" during her retirement days. She anticipates the possibility of doing some traveling, but not in the chilly winter months. She also enjoys sewing at home and plays the organ and piano at her church.

Miss Kern joined the University staff in 1959 as a maid working in the dorms. She assumed her present position as operator in 1965 and sews "anything that needs to be sewn" from dresses to mending uniforms for University Park and the other campuses.

Rosemary H. Branding, who joined the University on March 1, 1966, will retire Jan. 1 as a secretary in the Graduate School.

M. Ruth Cramer, a secretary in the Office of the Controller, will retire Jan. 1. She has been a member of the staff since Aug. 1, 1962.

Samuel D. Diaz-Pumara, a glassblower in Intercollege Research Programs, retired Oct. 29 after serving on the staff since Jan. 3, 1972.

Esther M. Wilson, who joined the University June 1, 1959, will retire Jan. 1 as a production coordinator in Management Services.

Eleanor A. Frederick, a secretary at the Beaver Campus, will retire Jan. 1. She has been on the staff since July 17, 1967.

Golan studies arid zone planning problems

Dr. Golan is a man with ideas whose have come. Dr. Golan, professor of urban and regional planning in the Department of Architecture, is editor of a new volume, *Housing in Arid Lands: Design and Planning*, published by The Architectural Press, Ltd., London. Dr. Golan, who grew up in Israel, has devoted his professional life to the study of arid zone planning and new town development.

"Financial and other resources for new settlements and large scale development are flowing to the arid zones in Iran, Israel, Saudi Arabia, Egypt, Australia, the southwestern United States and some parts of Africa," Dr. Golan writes in the preface to the book.

Despite this prosperity and growth, Dr. Golan points out that "there has been limited research on non-existent research on the development of traditional and unique urban and urban systems to meet the arid climate of arid zones."

The book, 19 chapters long, represents a pioneering systematic study of many of the problems of arid housing and

planning. Twenty contributors, including several from the Mid East and Australia as well as many Americans, have lent their expertise from such varied disciplines as chemistry, archeology, engineering and, of course, architecture and planning.

Several of the chapters are investigations of arid housing and planning as practiced in ancient cultures and Dr. Golan refers to the current expansion in arid zones as a "redevelopment."

He points out that early civilizations that emerged in arid zones developed urban centers and houses which could cope with the harsh climate. Yet most of this technology has been lost or ignored and "current planning for arid zones has occurred by the simple application of non-arid zone patterns."

He cites three ancient cultures, those of Mesopotamia, the Indus Valley and Egypt, as prime examples from which today's arid planners might learn and "Housing in Arid Lands" offers insight into these early accommodations in harsh climates. (There is also a chapter on Egypt's ancient

Gideon Golan

adaptation to aridity, the pueblo.)

One of the ways that ancient cultures adapted to harsh environments was by moving underground and Dr. Golan has

contributed a chapter to the new book on the development of subterranean settlements. He contends that underground housing, with its attendant lowered temperatures, can provide energy-free cooling in hot and dry climates where air conditioning costs are the major item in energy expenditures.

He offers several modern-day versions of subterranean living, most of them sited on sloping terrain with one side open to the outside, a design that he feels will overcome claustrophobic reactions to this style of dwellings.

"An innovative approach to underground placement can provide a comfortable environment, one that is cost-effective and does not spend our fuel reserves," he concludes.

Not all of Dr. Golan's interest in arid zone development is scholarly. As a young man in Israel he helped to found and build Kibbutz Be'eri in the Negev region and he served in a number of key planning positions with the Israeli government before immigrating to this country in 1967.

He is the author of a dozen scholarly volumes, principally on arid zone planning

(Continued on page 7)

Statement of Policies, Procedures, and Guidelines: The Penn State

To: Members of the University Community

In January of this year, the Board of Trustees directed the administrative integration of our systems of Commonwealth Campuses and Continuing Education. The administrative unit formed by this integration will be known as the University's Commonwealth Educational Network, subject to Board of Trustees approval.

The Trustees further directed that this administrative integration be implemented after basic policies for the new unit had been developed through full and appropriate consultation. The following policy statement has been developed through a six-month period of consultation involving faculty and administrators from throughout the University. It implements the administrative integration and is effective January 1, 1981.

This policy statement supersedes and replaces existing basic policy documents for Continuing Education (1968) and Commonwealth Campuses (1972) and the several discussion papers and policy drafts circulated in recent months concerning this administrative integration.

Sincerely,

President

Purpose and Sources of Policy

This document implements the administrative integration of the previously separate Offices of Continuing Education and Commonwealth Campuses to form The Pennsylvania State University's Commonwealth Educational Network. It does not present all policies, procedures and guidelines of the University which apply to the administrative unit nor does it reiterate all policies and procedures of the unit itself. It is limited to those items which require revision or restatement to implement the administrative integration.

This document deals with the Commonwealth Campuses in much more detail than it does with the formerly separate structure of Continuing Education. This is not an indication of the relative importance of either of the two formerly separate administrative units within the new organization. It reflects the fact that most of the decision making in Continuing Education can be governed directly by general University policies and procedures. The operation of the Commonwealth Campuses, on the other hand, has required, and continues to require, significant modifications of the general University policies.

This document draws from and replaces two separate documents, "Academic Organization, Policies and Procedures for the Commonwealth Campuses," issued by President Oswald in 1972, and "Policies, Procedures and Guidelines for Continuing Education, Program Operation in Commonwealth and Capital Campus Areas," issued by former President Walker in 1968. All other policies and procedures remain in effect until specifically revised by future actions.

I. DEFINITION OF TERMS

Any statement or restatement of policy, procedures and guidelines must be based on a common understanding of the key terms. Most terms utilized herein are not new, either in definition or application. In some instances, however, they have developed implied meanings which are inconsistent with policy and are inconsistent across the University.

The Pennsylvania State University Commonwealth Educational Network

The University's Commonwealth Educational Network is an administrative unit, authorized by the Board of Trustees in 1980. Formed by the integration of the formerly separate administrative units of Continuing Education and Commonwealth Campuses, the new unit is assigned responsibility for two broad groups of University activities:

1. All programs, including Continuing Education, operated through one or more of the seventeen Commonwealth Campuses; and
2. All programs defined as, or administered through, Continuing Education, regardless of location.

Administrative Integration

This statement of policy, procedures, and guidelines implements the administrative integration. It does not change the basic academic policies of the University. It is intended to accommodate, rather than alter, the academic policies of the University. It does not eliminate either the Commonwealth Campuses or Continuing Education as educational concepts or as identifiable entities within the University. It is intended to retain the concepts and strengths that each of the two units embodied while creating a more flexible, efficient and effective total operation.

Continuing Education

The term "continuing education" identifies an educational concept implying community service and life-long education through which people seek self-improvement, for career or personal purposes, through virtually any means of education. The term "Continuing Education" also identifies a major University administrative division charged with the responsibility for providing continuing education opportunities and community services. By definition, Continuing Education does not have responsibility for the programs offered through the Cooper Active Extension Service of the College of Agriculture.

The term "continuing education program" is used interchangeably in two primary ways:

1. To identify a program that has been designed specifically for the continuing education needs of a segment of the population; and

2. To identify any program that is administered by Continuing Education personnel.

Operationally, continuing education programs (other than those of the Cooperative Extension Service) are defined as all informal University instruction programs, such as non-credit workshops, conferences, clinics, institutes, short courses, etc.; unit courses; correspondence courses; all credit courses conducted at locations other than Penn State campuses; and all credit courses conducted on Penn State campuses which are scheduled primarily for students other than full-time degree candidates.

Resident Instruction

The term "resident instruction" identifies an educational concept which implies full-time study, generally in pursuit of an academic degree.

"Resident Instruction" is the term identifying administrative structures, techniques, and procedures that are used in administering those courses and activities designed primarily for the full-time student pursuing an academic degree.

The term "resident instruction programs" identifies programs, generally of credit instruction, offered primarily for full-time degree candidates.

Credit Courses

A credit course is an organized body of instruction for which academic credit is granted. Credit courses may be delivered through Continuing Education or Resident Instruction administrative channels. Credit courses can be used in either Continuing Education or Resident Instruction programs. The basic content and content of a credit course is not changed by the type of students enrolled, the credit goals and aspirations, or the administrative channel through which registration and grades are processed.

Commonwealth Campuses

The Commonwealth Campuses of the University are Allentown, Altoona, Beaver, Berks, Delaware County, DuBois, Fayette, Hazleton, McKeesport, Mont Alto, New Kensington, Ogonitz, Schuylkill, Worthington Scranton, Shenango Valley, Wilkes-Barre, and York.

Continuing Education Service Area of a Campus

A "campus service area" is the geographical area within which primary responsibility for continuing education programs has been assigned to a particular campus. These areas are determined after considering such factors as population, adequacy and location of highways and other transportation facilities, the geographic relationship of one campus with another, boundaries of various governmental units, and administrative feasibility.

The delineation of a campus service area is a matter of administrative necessity by policy and is neither an implicit nor explicit definition of an area from which students must come to participate in programs offered by the campus.

Campus service areas are defined in detail in statement documents. The defined areas serve as guidelines to assure full coverage of the Commonwealth, but as a practical matter are quite flexible. When boundaries are crossed, however, administrators at both of the concerned campuses should be informed fully.

Continuing education programs involving more than one campus or offered as state-wide programs are coordinated by the Office of the Vice President and Dean of the University's Commonwealth Educational Network, frequently with minimum reference to defined area boundaries.

Academic and Administrative Responsibility and Authority

As used in this document, "academic responsibility and authority" refers primarily to the approval of course and program content and the approval of faculty members. This responsibility and authority reside with the faculty of the University as organized through the University Faculty Senate and the disciplinary structure of departments, divisions, and colleges, and with academic offices such as the Provost, college deans and department heads.

The term "administrative responsibility and authority" refers primarily to the responsibility for offering and implementing programs, assigning approved faculty members to specific courses and programs, and related responsibilities.

In colleges, divisions, and departments, administrators directly exercise both academic and administrative authority. The department head is instrumental in the academic approval of course or program content and in the administration of its offering at University Park. When courses are offered through Continuing Education or at a Commonwealth Campus, the primary site of academic authority remains with the college, division, and department unless specifically delegated by the Senate or the academic unit. Administrative responsibility, on the other hand, shifts to the University's Commonwealth Educational Network. In all educational programs offered through Continuing Education or at a Commonwealth Campus, the responsible administrators must interact continually to meet their shared responsibilities.

II. BASIC ASSUMPTIONS

The following general principles and assumptions guide the organization and operation of the University's Commonwealth Educational Network.

1. The University functions as one institution and not as a collection of separate campuses or program delivery systems. Careful planning and coordination of all programs, regardless of location or administrative delivery system, are essential to the implementation of the concept of one University, one academic program, and one faculty.
2. The existence of a unitary University faculty, organized by academic disciplines into colleges, divisions, and departments which cross all geographic and administrative delivery systems, has been a major strength of the University and shall be retained and enhanced in all subsequent policies, organizational structures, and procedures.
3. The University has an obligation to provide a wide array of educational opportunities. The opportunity to pursue educational goals through various instructional programs should be made available to students as broadly as practical, regardless of geographic location. It is essential, therefore, that there continue to be University-wide academic policies and organizational

structures that ensure comparable quality in academic programs wherever and however they are offered.

4. Students enroll in The Pennsylvania State University in specific programs at specific campuses although they frequently change their educational goals and plans during their study within the University. The University, therefore, should maintain and increase appropriate opportunities for flexibility of student movement from program to program and from campus to campus within the total University.

5. Policies, organization and procedures developed for the University's Commonwealth Educational Network, or for any specific campus or other part of the unit, must be compatible with appropriate University-wide policies and with the academic policies of the University.

6. While policies, organizations, and procedures must assure a broad base of comparable academic programs throughout the University, they must also accommodate the important and contributing campus makes to its local community and geographic area.

7. Sufficient organizational and policy flexibility is necessary to permit appropriate response to the unique needs of each campus area. Each campus is expected to establish and maintain effective working relationships with local business, industrial, educational, agricultural, labor, and civic leaders. The assistance and participation of the Campus Advisory Board is a major contribution to the campus in this task. The campus is an essential academic resource at any campus is the local campus faculty. Each campus has a faculty organization to facilitate the exchange of views among its members and between with the campus administration. The extent of academic authority delegated to a campus faculty organization varies and is determined by the University Faculty Senate, the colleges, divisions, departments, and the academic office of the University. Any such delegation should not preclude the faculty from retaining the unitary faculty structure of the Penn State system.

(2) to assure that a campus can be responsive to the educational needs and opportunities of its area.

9. In implementing the unique interaction of authority structure inherent in the Commonwealth Campuses, faculty members should participate in the development of coherent educational plans for their campus, and the identification of unique opportunities or needs, through their local campus faculty organization. Faculty members should participate in the development, revision, and approval of courses, curricula, programs through departmental, college, and University-wide committees and organizations. The identification of needed programs, and the delivery of those programs are primarily campus responsibilities. The development and approval of programs are responsibilities of the appropriate University disciplinary faculty.

10. More than half of the Penn State baccalaureate degree candidates begin their academic programs at a Commonwealth Campus. The Commonwealth Campuses, therefore, provide a unique opportunity for developing and testing new and innovative approaches to instruction. Faculty members at the Commonwealth Campuses should consider improvement of instruction to be significant, although not exclusive, portion of their assignments and should receive reward and recognition accordingly.

III. BASIC ADMINISTRATIVE ORGANIZATION

Vice President and Dean of The Pennsylvania State University Commonwealth Educational Network

Responsibility for the University's Commonwealth Educational Network is delegated to a University administrative office headed by the Vice President and Dean, who reports to the Provost of the University. The Vice President and Dean has been delegated the responsibility as the chief executive officer for both administrative and academic matters of the Commonwealth Educational Network. The Vice President and Dean is authorized to develop, and when necessary, a staff structure, forming the Office of the University's Commonwealth Educational Network, to meet efficiently and effectively the responsibilities of the position. The administrative structure shall accommodate appropriately the similarities and differences among the various campuses of the University and the regional nature of many programs and functions.

Major portions of the responsibilities focused in this position are shared with other University administrators. College deans and department heads, for example, have University-wide academic responsibilities which must be accommodated by the administrative arrangement. Other specialized officers such as the Dean of Administration and Director of Financial Aid are also responsible for University-wide functions. In addition to providing academic administrative leadership to the unit, the Office of the Vice President and Dean must assure that all activities of the unit are consistent with University policies and utilize the most appropriate resources and expertise available.

Commonwealth Campus Director

Responsibility for administering all affairs of the University within a campus area, except specifically excluded programs of the Cooperative Extension and certain practicum courses administered through other campuses, is delegated by the Vice President and Dean to the Commonwealth Campus Director. The Director is responsible for administering the principal functions of the University's Continuing Education, continuing education, and research) within the campus area and for planning and administering the annual budget supporting these functions. The Director is responsible for developing and maintaining relationships with the community through the Campus Advisory Board and effective working relationships with business, agricultural, industrial, labor, educational, and civic leaders in the campus area. The Director is responsible for establishing a campus administrative structure which is responsive both to the needs and to University-wide policies and procedures. The campus administrative staff must work closely with the various academic colleges and departments in planning and implementing programs and must complement faculty development efforts in academic departments.

Pennsylvania State University's Commonwealth Educational Network

Campus Administrative Staff

There is no uniform structure for an individual campus administrative staff. The particular administrative structure of an individual campus requires concurrence between the Campus Director and the Vice President and Dean. The Campus Director is expected to develop an organization for campus administration which effectively and efficiently meets both local and system-wide needs. In general, the basic campus staff will be organized around individuals, or groups of individuals, specializing in the administration of Student Affairs and Services, Business Services, Resident Instruction, Continuing Education, and Community or University Relations. The measure of a particular campus administration is not its structure but how well it meets local and system-wide needs and opportunities. All members of a campus administrative staff report to the Campus Director and are accountable to the Director. The Director, in turn, is accountable to the Vice President and Dean for the performance of the campus administrative staff.

Campus Faculty Organization

The faculty at each campus is an essential resource in planning and implementing programs which fulfill the campus mission. A faculty organization has been established at each campus. The academic authority and responsibility of these organizations may vary from campus to campus. The University Faculty Senate, in accordance with the provisions of its constitution and bylaws, may recommend to the President of the University the delegation of academic authority to local faculty organizations. The campus faculty organization also serves in an advisory capacity to the Campus Director in all matters of concern.

Commonwealth Campus faculty members must be involved actively in the shaping of the curriculum via appropriate departmental, college, and University-wide committees. It is the responsibility of each department head to ensure that Commonwealth Campus faculty members are involved adequately in all appropriate departmental activities concerning academic curricular affairs. A similar responsibility rests with each college dean for involving campus faculty members in collegiate committees. In addition, the University Faculty Senate constitutionally is required to ensure adequate representation of Commonwealth Campus faculty members on its academic and curricular committees.

The important distinction here is that, while the faculty organization is a valuable part of each Commonwealth Campus, curricular responsibilities rest with the University-wide structures of the academic departments and colleges and with the University Faculty Senate. Any change in this arrangement requires constitutional action by the University Faculty Senate and the University President.

Campus Advisory Board

Each Commonwealth Campus (except Ogonite) has established a Campus Advisory Board under policies and procedures stipulated by the University Board of Trustees. Advisory Boards are incorporated as nonprofit organizations within the Commonwealth. The Advisory Boards provide vital support to the campuses in many areas. Most importantly, however, they are the primary bodies of organized contact between the campuses and their communities and, as such, are critical to efforts to develop individual campuses properly responsive to community needs.

Academic Departments

The academic structure of the University is based on groupings of faculty and programs by discipline. Such organizations are generally referred to as academic departments, although some are known officially as divisions or program faculties. Each department is a University-wide structure with University-wide responsibilities. A department has academic responsibility for course and program content approval, and for the approval of faculty assignments to courses and programs, in its discipline regardless of the manner or location of the educational delivery. All faculty members, regardless of location or assignment, are members of their appropriate academic departments and relate to the appropriate department head or administrator.

Each department head is expected to organize the administrative and committee structures of the department to accommodate properly these University-wide responsibilities and the differing needs of faculty at various locations working in various program delivery systems.

Academic Colleges

The academic departments are organized into colleges, each of which is headed by a dean. The University-wide responsibilities of the individual departments are also held by a college. In the case of a department, this responsibility relates to a particular discipline. In the case of a college it relates to a group of departments or disciplines. Each college dean's staff organization includes one or more assistant associate deans who relate to the programs and faculty of the college. In Continuing Education and at the Commonwealth Campuses, the assistant or associate deans serve as the primary liaison between the college and its administration, and the University's Commonwealth Educational Network.

Academic Affairs Committee of The Pennsylvania State University Commonwealth Educational Network

The Academic Affairs Committee of the University's Commonwealth Educational Network provides close liaison among Commonwealth Campuses, other administrative units offering continuing education programs, and the various colleges of the University in the planning, development, and implementation of academic programs at the Commonwealth Campuses or through Continuing Education. Membership includes a cross section of administrators and faculty drawn primarily from the administrative structures of the campuses and colleges.

Constitutive Relationships

The Office of the Vice President and Dean is expected to maintain open relationships with a wide variety of committees, councils, and University officers. Specifically included are appropriate committees of the University Faculty Senate, the Academic Deans, the Campus Directors, appropriate student government groups, and the President's Staff.

IV. ACADEMIC PROGRAMS

All academic programs, courses, and curricula offered through the University's Commonwealth Educational Network are approved by the University Faculty Senate or through mechanisms authorized by it. All instruction must be by faculty members, either full- or part-time, who have been approved for assignment by the appropriate college, department, or division.

The Vice President and Dean of the University's Commonwealth Educational Network is responsible for assuring that the academic offerings of the unit are properly planned, administered, and evaluated. To accomplish this, the Vice President and Dean will establish necessary communication mechanisms between and among colleges, departments or divisions and the Commonwealth Educational Network.

The University's Commonwealth Educational Network has an obligation to serve any location in the Commonwealth with academically approved programs whenever warranted by the needs and interests of adult citizens and whenever suitable resources are available. The Vice President and Dean is authorized to commit all or any part of the local or statewide physical, fiscal, and personnel resources of the Commonwealth Educational Network to such programs, including those programs involving contracts with, or grants from, private or governmental agencies.

V. PERSONNEL

The personnel policies of the University's Commonwealth Educational Network need not repeat or restate basic personnel policies of the University. They address only those situations in which additional interpretation is needed to implement University policies in the unique circumstances of this administrative unit. They primarily address the unique situations shared by personnel at Commonwealth Campuses.

There are three basic principles which guide these personnel policies in the unit:

1. Actions or recommendations concerning academic personnel at Commonwealth Campuses require consultation between the Campus Director and the appropriate college dean and department head. Actions or recommendations concerning personnel classified as administrative or staff at Commonwealth Campuses require consultation between the Campus Director and the appropriate officer holding University-wide responsibilities for the administrative area(s) in which the staff member functions.
2. Many actions or recommendations, specifically including hiring, promoting, tenuring, terminating, or adjusting the salary of academic and staff personnel, require the formal concurrence of the Campus Director and the appropriate University officer(s).
3. To provide for proper coordination, uniformity of practice, and a system-wide point of view, all personnel recommendations and actions are processed through, and require the concurrence of, the Office of the Vice President and Dean of the University's Commonwealth Educational Network.

Communication of Personnel Actions at the Commonwealth Campuses

Notice of all formal actions affecting personnel at a Commonwealth Campus shall be transmitted by the Campus Director. Since most personnel actions require concurrence or consultation among several parties, all involved must accept responsibility for timely effort to avoid unilateral action.

This policy on formal notice of personnel action does not restrict direct communication between system-wide or university-wide administrators and individual campus faculty or staff members on academic, technical, or professional matters.

The operational approach must achieve a balance between the responsibility of the Campus Director to operate a Campus effectively and the responsibility of the University to utilize the best available expertise in its academic and administrative decision-making processes.

Personnel Recruitment

Initial responsibility for personnel recruitment rests with the Office of the Vice President and Dean, which will authorize positions to be filled. For positions at Commonwealth Campuses, the Office will establish procedures to facilitate the cooperative efforts of the Campus Director and the appropriate University officers involved in the recruiting process.

Basic qualifications for faculty and staff positions at Commonwealth Campuses will be determined by the appropriate University officer in consultation with the Campus Director. Qualified candidates will be interviewed by representatives of the college or the department, or other appropriate unit, and the campus.

Appointment of Personnel at Commonwealth Campuses

When the Campus Director and the appropriate University officer(s) concur on the suitability of a candidate, the Campus Director will forward the joint recommendation with respect to rank and salary to the Vice President and Dean of the University's Commonwealth Educational Network. If the Vice President and Dean concurs, the appointment will be approved or, in the case of Associate Professor and Professor appointments, forwarded to the Provost for final action. The offer of appointment, as specified in the section above entitled "Communication of Personnel Actions" shall be made by the Campus Director.

Personnel Development

The Vice President and Dean of the University's Commonwealth Educational Network is responsible for coordinating and facilitating faculty and staff development. Whenever practical, development opportunities shall be made available to all faculty and staff members, regardless of college, department or area of administrative responsibility. The Vice President and Dean must assure that this personnel development program is complementary to, and effectively interacts with, specific personnel development activities and programs of the academic departments and other organizational units.

Evaluation of Personnel

The Vice President and Dean of the University's Commonwealth Educational Network is responsible for coordinating and facilitating a system of annual evaluations of all personnel in the administrative

unit. Evaluation of faculty members shall be based on the criteria of PS-23. Staff shall be evaluated on the basis of their position description and responsibilities. For personnel located at Commonwealth Campuses, this system shall provide for close consultation among the Campus Director and appropriate University officers. The results of this evaluation will provide the general basis for recommendations concerning merit salary increase considerations.

Personnel Discussions

The department head or other appropriate University-wide officer, or a designated and approved representative, shall meet with each member of the faculty and staff of the Commonwealth Educational Network at least once each year for discussion of professional performance. For faculty and staff at Commonwealth Campuses, the general content of such discussions shall be summarized as a matter of record for the Campus Director. It is assumed that such interactions will occur many times each year, but it is required that at least one such meeting occur, and be summarized as a matter of record, each year.

Salary Adjustment

Annual salary adjustments are dependent upon the magnitude of resources available for such purposes and are subject to guidelines established by the President. Within these guidelines, and taking into account the conclusions reached in the annual personnel evaluation process, the Campus Director or other appropriate administrator within the administrative unit may recommend a salary adjustment for each faculty and staff member to the Vice President and Dean. The Vice President and Dean will make a final recommendation to the Provost; based on these recommendations, after consultation with the appropriate deans, department heads and other University officers. It shall be the responsibility of the Vice President and Dean to resolve cases in which there is substantial disagreement between a campus director and a dean, department head or other appropriate officer on any salary recommendation.

Academic Promotion and Tenure

The Commonwealth Educational Network unit is governed by University Policy PS-23 and its annual administrative guidelines in all matters of academic tenure and promotion.

Class Assignment for Faculty Members at Commonwealth Campuses

Responsibility for assigning classes to individual faculty members at Commonwealth Campuses rests with the Campus Director. In making class assignments, the Director must assign faculty members only to courses which they have been authorized to teach by the appropriate college or department. The Director also, insofar as practical, must make the term by term and annual "teaching load" assignments of each faculty member within guidelines provided by the Vice President and Dean after consultation with department heads and deans.

Assignment of Duties

Responsibility for the assignment of duties to personnel at Commonwealth Campuses, including the assignment of courses to faculty members, rests with the Director. The underlying principle to be used by the Director in assigning duties to personnel shall be to make the most effective and efficient use of personnel and facilities in achieving the highest quality program possible within the available fiscal resources.

Cases of unresolved dispute between a campus director and a department head, dean or other officer holding University-wide responsibility, regarding either class assignment or total assignment, shall be resolved by the Vice President and Dean of the University's Commonwealth Educational Network.

Sabbatical Leaves for Faculty Members at Commonwealth Campuses

A request by a Commonwealth Campus faculty member for a leave of absence with pay (sabbatical) must have the approval of the campus director, the dean, and department head before it will be considered by the Vice President and Dean. Assuming concurrence, and the availability of funds necessary to maintain essential services and programs during the period of absence, the request will be recommended by the Vice President and Dean to the Provost for action.

Part-Time Faculty Members

The appointment of part-time faculty members at Commonwealth Campuses or in Continuing Education is subject to concurrence between the appropriate disciplinary department and college and the Campus Director or Continuing Education administrator, regardless of whether the assignment is to be administered through the Continuing Education or Resident Instruction office of the campus. Clerical and Technical Service Personnel

Actions involving clerical or technical-service personnel are not subject to the types of concurrence and consultation necessary for faculty and staff members. Actions regarding such personnel are taken in accordance with University policies and procedures.

VI. BUDGET ADMINISTRATION

The Vice President and Dean of the University's Commonwealth Educational Network serves as the executive officer for budgets supporting activities in the system. Responsibility for the annual budget operation and budget planning for a Commonwealth Campus is delegated to the Campus Director. The Campus Director is responsible for operation and planning Continuing Education programs at locations other than Commonwealth Campuses is delegated to appropriate members of the staff of the University's Commonwealth Educational Network.

There are two exceptions to this general approach. Those budgets administered on a University-wide basis by officers outside the unit of the Commonwealth Educational Network, currently include such functions as major maintenance, bookstores, housing and food service, and parking, are not delegated to a Campus Director. In addition, there are, and will continue to be, specific academic programs which are budgetarily administered on a system-wide basis, generally by the Office of the Vice President and Dean.

The Vice President and Dean is expected to plan and administer all budgets within the unit in an interactive fashion to produce the highest degree of cost effectiveness possible.

University Park Calendar

Dec. 18-Jan. 18 Special Events

Thursday, Dec. 18
Kern/WPSX-TV, *Cosmos* series, "The Persistence of Memory," noon and 1:15 p.m., Kern Lobby.
University Records, *Christmas Carol*, 7 p.m., Room 112 Kern.

Saturday, Dec. 20
Winter Term recess begins, 12:25 p.m.

Monday, Dec. 22
University offices closed for holiday break, through Jan. 4.

Saturday, Jan. 3
Sports: fencing (men) vs. Jersey State, 1 p.m.

Sunday, Jan. 4
Residence Halls open after Winter Term recess, 10 a.m.
Sports: basketball (women) vs. North Carolina, 2 p.m.

Monday, Jan. 5
Winter Term classes resume, 8 a.m.
Sports: basketball (men) vs. Lafayette (at Hershey Park), 7:30 p.m.; wrestling vs. Missouri, 8 p.m.
France-Cinema, Schlöndorff, *The Tin Drum*, 7 and 9:30 p.m., Room 112 Kern.

Tuesday, Jan. 6
Pass/Fail.
Deadlines for applying for Graduate School Tuition Grant-in-Aid for Spring Term 1981.
University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.
CSA Workshop, Home Maintenance by employee of Centre Hardware, 7 p.m., Room 101 Kern.

Wednesday, Jan. 7
Pass/Fail.
Kern/WPSX-TV, *Cosmos* series, "Encyclopedia Galactica," 2:15 p.m., Kern Lobby.
Robeson Center Film Series, *Last Grave at Dim-baza*, 7:30 p.m., Walnut Building.
Sports: wrestling vs. Nebraska, 8 p.m.
Vera Kochanowsky, harpsichord recital, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Jan. 8
Drop deadline.
Course repeat deadline.
Pass/Fail.
Preregistration deadline for Spring Term.
Kern/WPSX-TV, *Cosmos* series, "Encyclopedia Galactica," noon, Kern Lobby.
Cinematheque, *Shampoo*, 7 and 9:15 p.m., HUB Assembly Hall.
Sports: basketball (women) vs. Montclair State, 7:30 p.m.

Friday, Jan. 9
STS/TCO luncheon, noon; presentation, 12:20 p.m., Room 101 Kern. Henry J. Hermanowicz, education, on "The Relationship between General and Professional Education."
Commonplace Theatre, *In Cold Blood*, 7 p.m.; *The Boston Strangler*, 9 p.m., Room 112 Kern.

Sports: gymnastics (women) vs. Southern Cal., 8 p.m.

Saturday, Jan. 10
Deadline for March graduates to deliver doctoral theses to committee.

Sports: indoor track (men), Nittany Lion All-Comers Meet, fencing (women) vs. Fairleigh-Dickinson, 9 a.m.; basketball (men) vs. Rider, 8:10 p.m.

Cinematheque, *Shampoo*, 7 and 9:15 p.m., HUB Assembly Hall.
France-Cinema, *The Tin Drum*, 7 and 9:30 p.m., Room 112 Kern.

Sunday, Jan. 11
University Chapel Service, 11 a.m., Eisenhower Chapel. The Rev. James H. Livingston, Christian and Missionary Alliance Church, State College, speaker.
Commonplace Theatre, *In Cold Blood*, 7 p.m.; *The Boston Strangler*, 9 p.m., Room 112 Kern.

Sports: basketball (women) vs. Detroit, 7 p.m.
Artists Series, Empire Brass Quintet, 8:30 p.m., Eisenhower Auditorium.

Monday, Jan. 12
France-Cinema, *The Tin Drum*, 7 and 9:30 p.m., Room 112 Kern.
Interdisciplinary Symposium on Value, 7:30 p.m., Room 101 Kern. John Balaban, English, on "Politics in Poetry."

Tuesday, Jan. 13
Gallery Talk, 10:30 a.m., Museum of Art.
Judith W. Hansen, Museum research asst., on "Fireworks of Color: The Lithographic Poster 1890-1930."
Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 204 HUB.
Dorothy Roberts, poet, gives a poetry reading.
Comp. Lit. Film Series, *Despair*, 7 and 9 p.m., Room 112 Kern.
Artists Series film, *King Kong* (1933), 8 p.m., Schwab Auditorium.

Wednesday, Jan. 14
Faculty Women's Club, Brown Bag Lunch/Lecture, 11:45 a.m., Faculty Bldg. W.F. Witzig, nuclear engineering, on "How Safe is Nuclear Energy?"
Kern/WPSX-TV, *Cosmos* series, "Who Speaks for Earth?" 2:15 p.m., Kern Lobby.
English Colloquium, 8 p.m., Room 101 Kern. James Rameau, English, on "Colonel Shaw in History."
Sports: wrestling vs. Temple, 8 p.m.
Leonard Feldman, cello recital, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Jan. 15
Kern/WPSX-TV, *Cosmos* series, "Who Speaks for Earth?" noon and 1:15 p.m., Kern Lobby.
Cinematheque, Bertolucci, 1900, 7 p.m. only, HUB Assembly Hall.

Friday, Jan. 16
Cinematheque, 1900, 7 p.m. only, HUB Assembly Hall.
Sports: gymnastics (men) vs. Syracuse, 8 p.m.

Saturday, Jan. 17
Last date for March graduates to take final oral doctoral examinations or to deliver masters' theses or papers to advisers.

Sports: indoor track (men and women) vs. Maryland; bowling (men) vs. Penn State-Capitol, 1 p.m.; wrestling vs. Clarion, 2 p.m.; basketball (women) vs. Connecticut, 5:45 p.m. and (men) vs. Philadelphia Textile, 8:10 p.m.

Sunday, Jan. 18
University Chapel Service, noon, Frizzell Room, Eisenhower Chapel. Martin Luther King, Jr. Sunday. Rev. Dr. Kenneth Lee Smith, Calgate Rochester Divinity School, speaker.
Sports: bowling vs. George Washington, 1 p.m.
Artists Series, Hakan Hegagard, baritone, 8:30 p.m., Schwab Auditorium.

Seminars

Friday, Dec. 19
Physical Chemistry, Kenneth A. Johnson, MC3B, on "Intermediate States in the Pathway of ATP Hydrolysis by Acetomyosin," 2:30 p.m., Room 333 Whitmore.

Monday, Jan. 5
MC3B, Janet L. Schottel, genetics, Stanford Univ., on "Gene Cloning in Antibiotic-Producing Streptomyces," 4 p.m., Room 101 Althouse.

Tuesday, Jan. 6
Plant Pathology, Barbara Lucas, grad. student, on "Aphid Biology in Relation to Transmission of Plant Pathogenic Viruses," 3:55 p.m., Room 213 Buckhout.

Thursday, Jan. 8
Chemistry, John Gladysz, UCLA, on "Rhenium Formyl and Carbene Complexes: Some New and Unprecedented Organometallic Transformations with Relevance to Catalysis and Asymmetric Synthesis," 12:45 p.m., Room 333 Whitmore.
Economics/Institute for Policy Research and Evaluation, Irwin Feller, economics, on "The Measurement of Industrial Innovation," 2 p.m., Room 124 Sparks.

MC3B, Donald A. Bryant, biological sciences, Cornell Univ., on "Structure and Function of Crystalline Polysiloxanes," 1 p.m., Room 101 Althouse.

Physics, J. Gollub, Haverford College, on "Many Routes to Chaos, New Experiments in Turbulence," 3:50 p.m., Room 445 Davey.

Friday, Jan. 9
Physical Chemistry, Gerd Rosenblatt, chemistry, on "Translational, Rotational and Vibrational Gas Surface Energy Transfer," 2:30 p.m., Room 333 Whitmore.

Tuesday, Jan. 13
Biology, Marilyn Hock, Cornell Univ., speaker, 11:10 a.m., Room 8 Mueller.
Chemical Engineering, L.E. Scriven, Univ. of Minnesota, on "Torus Model Analyzed (Structure and Transport: Voronoi Models and Percolation Concepts)," 3:45 p.m., Room 140 Fenske.
MC3B, S. Edward Stevens, Jr., microbiology, on "Regulation of Inorganic Metabolism in Blue-Green Algae," 11 a.m., Room 101 Althouse.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Organic-Inorganic Chemistry, F. Tebbe, DuPont, on "Titanium Methylene Heterocycles," 8 p.m., Room 333 Whitmore.
Plant Pathology, David Ware, grad. student, on "Beech Bark Disease: An Insect-Fungus Complex," 3:55 p.m., Room 213 Buckhout.

Thursday, Jan. 15
Animal Welfare, Andrew Rowan, Institute for the Study of Animal Problems, Washington, D.C., on "Alternatives to the Use of Animals in Biological Research," 12:45 p.m., Keller Bldg. Auditorium.
Chemistry, Gerd Lamar, Univ. of California/Davis, on "NMR, Electronic and Structural Studies of Heme Proteins," 12:45 p.m., Room 333 Whitmore.
MC3B, Daphne D. Blumberg, biology, MIT, on "Cell Contact, Cyclic AMP and the Control of Developmental Gene Expression," 1 p.m., Room 101 Althouse.
Physics, B.V. Bronk, Clemson Univ., on "A Physicist's Definition of Life," 3:50 p.m., Room 445 Davey.

Friday, Jan. 16
Physical Chemistry, William White, materials research lab, on "Nuclear Waste Repositories: An Exercise in Applied Solid State Chemistry, Reaction Kinetics and Geochemistry," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Maureen Garvin, paintings; Ron Gallas, ceramics, through Dec. 19. Graduate Art Education Student Exhibition, opens Jan. 5.

Kern Gallery: Allison Taggart, photography: International Artists Exhibition and Sale, through Dec. 18. Sarah Berndt, watercolors, opens Jan. 5. Kevin O'Toole, sculpture, opens Jan. 6. Metal Craft Exhibition, opens Jan. 7. Fabric Workshop Exhibit, opens Jan. 12.

Museum of Art: "The Art of the Needle," through Dec. 21. European paintings from the permanent collection, through Dec. 23. 18th-20th century American works from the permanent collection, through Jan. 11. Selections from the Pre-Columbian and Oriental collections, opens Jan. 17. "All That Is Glorious Around Us," paintings from the Hudson River School, opens Jan. 18.

Pattee Library: Greg Decker, drawings and paintings, through Jan. 15. Hicks Exchprint National Invitational Exhibition, opens Jan. 16. East Corridor Gallery. Robin Bergstein, mixed media, Lending Services Lobby. Jack Enold, sculpture, through Jan. 5. Nancy A. Norton, stained glass, and Leveta Butler, porcelain, opens Jan. 6. Main Lobby. Christmas material from the Allison-Shelley Collection, through Jan. 9. Rare Books Room. Gordon Studer, drawings and paintings, through Jan. 9. West Lobby.

Visual Arts Zoller Gallery: MFA Graduate Exhibition, through Dec. 19. Wayne Tiebaud Exhibit, opens Jan. 7.

Bookshelf

Dr. Nancy M. Tischler, professor of English and humanities at the Capitol Campus, is the author of *Dorothy L. Sayers: A Pilgrim Soul*, published recently by John Knox Press, Atlanta. Blending biography, character study and literary analysis, Dr. Tischler chronicles Sayers' personal life as expressed through her writing.

"By almost any measurement," Dr. Tischler writes, "Dorothy Leigh Sayers was one of the giants of the first half of the twentieth century. As a scholar, a writer, and a public speaker, she excelled. The reluctance of the world to grant her the appropriate acclaim is partly because of the very diversity and character of her accomplishments."

Sayers polished the mystery story form to the sophisticated level of modern audiences; her well-known sleuth Lord Peter Wimsey ranks with such literary counterparts as Miss Marple, Nick Charles, and Nero Wolfe. She created channel plays that brought Christ to the

modern theatre; her translation of Dante's *Divine Comedy* gave him unprecedented popularity with the reading public. And feminists know her for her book *Are Women Human?*

The Photography Textbook, published this month, was written by Penn State staff member Marc Levey, and includes among its illustrations a number of photographs taken by members of the University community. It is the third book in a series written by Levey, of the Office of Special Programs and Services, and published by AMPHOTO, a division of Watson-Cupitt of New York.

The book was designed as an introduction to photography for students of all ages, but especially for adult students. Levey teaches photography through Continuing Education. He has taught a number of photography courses, workshops and seminars, and has served as a juror for national photographic competition.

Although it presents extensive information on photographic technique, the book is not limited to that subject. It also takes up the question of the photograph as a statement from artist to viewer, and examines the art of communicating through photographs.

Levey did much of his own illustrative work for the book while traveling in Ireland two years ago with a grant from the Irish government. Most of the other contributors to the book are graduates of his photography courses.

Ernest R. Weidhaas, head of the Department of General engineering, is the author of two recently published textbooks focusing on energy conservation in buildings and recent architectural developments.

Published by Allyn and Bacon, Inc. of Boston, the books are the fourth edition of *Architectural Drafting and Design* and the second edition of *Architectural Drafting and Construction*.

The "Construction" text, based upon the "Design" one, contains 14 additional chapters on the classifications and

properties of commercial building materials. A comprehensive Instructor's Handbook, keyed to both texts, was also published.

Prof. Weidhaas is also assistant dean for Commonwealth Campuses in the College of Engineering.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

The Centre County United Way exceeded its goal by \$14,000 this year, thanks in large part to a successful campaign at University Park. Shown posting the record amount are, from left, President Oswald; Galen Dreibelis, chairman of the Centre County United Way campaign; and Dr. Richard E. Grubb, University Park chairman.

UP employees set a record

University Park employees have contributed more than \$100,000 to the Centre County United Way, the most ever collected at the campus, reports Dennis Kulchycki, executive director for the local United Way.

"As a result of the outstanding effort at the University, this year's countywide United Way campaign has exceeded its goal by many thousands of dollars," he wrote in a letter to President Oswald. The total amount collected in Centre County to date is over \$373,000.

"The personal approach initiated this year has been a tremendous success, resulting in an increase in giving by University Park employees of 19 percent or \$16,000 to the United Way," he added.

"We are most grateful to Dr. Richard E. Grubb, University Park chairman, and his assistant chairpersons and hundreds of volunteers who took a mammoth project and shaped it into a smooth-running, well-organized campaign. And we are most grateful to the more than 1,800 University employees who contributed so generously to the United Way drive. This is an increase of almost 700 contributors over last year."

Commenting on the campaign, Dr. Grubb extended thanks to "the volunteers and donors who made this year's United Way campaign a success."

"These individuals," he added, "are another fine example of how the University is responsive to the needs of the community in Centre County."

Money raised this year will help to support the United Way's 27 local human service agencies. They are:

Red Cross, State College, Bellefonte, Philipsburg; Centre County Home Health Service; Youth Employment Service; YMCA, Bellefonte and Philipsburg; Association for Retarded Citizens — Centre County; Centre Crest Auxiliary; Community International Hospitality Council; Childbirth Education Association; Rape/Abuse Crises Center; Skills of Central Pennsylvania; Centre County Library; Mid-State Literacy Council.

Community Alternatives in Criminal Justice; Voluntary Action Center; Transient Fund; On Drugs Inc.; Boy Scouts; Bucktail Council and Juniata Valley Council; Strawberry Fields Day Camp; Community Nursing Service; Society for Crippled Children; Counseling Service; Girl Scouts; Associated Charities.

Golany

(Continued from page 3)

and new town development and has traveled widely teaching and lecturing on these subjects. Earlier this fall he traveled to Cairo, Egypt, to the Fourth Annual Conference of the International New Towns Association, where he delivered a paper on "Arid Zone Settlements Site Selection," using Egypt as a case study.

Using the same method of site selection — a process that he developed through several years of research — Dr. Golany spoke to the International Symposium on the Impact of Climate on Planning and Building, held in Israel Nov. 4-7. In this instance he used the Negev region as a case study.

While in Israel he also addressed the 35th World Congress of the International Federation for Housing and Planning, held Nov. 9-14. His topic was "Planning Principles of Arid Zone Settlements."

News in Brief

Pattee Library sets special holiday hours

In compliance with the University's efforts to conserve energy during the holiday recess, Pattee Library will be closed most of the period between Dec. 20 and Jan. 5. The closing of Pattee, one of the biggest and most expensive consumers of energy on campus, represents a significant effort to ensure fuel conservation at University Park. The closing also will minimize the number of personnel used on campus during the period.

In order to alleviate some of the inconvenience the closed period might cause, permission has been granted to open Pattee Library for several days within the period. They are: Friday, Jan. 2, and Saturday, Jan. 3, 7:45 a.m. to 5:00 p.m., and Sunday, Jan. 4, 1:00 p.m. to midnight. As was the practice during the recess period last year, liberal arrangements will be made for users to charge out many materials which normally do not circulate.

While the extended closing might cause some inconvenience, careful planning such as making arrangements in appropriate service areas to borrow material prior to Dec. 20 will help users minimize problems of access to Library resources.

The schedule for the University Libraries at University Park during the holiday recess period is as follows:
Saturday, Dec. 20-

Thursday, Jan. 1 CLOSED

Friday, Jan. 2 7:45 a.m. to 5:00 p.m.
Saturday, Jan. 3 7:45 a.m. to 5:00 p.m.
Sunday, Jan. 4 1:00 p.m. to mid-
night

University employees urged to take energy-saving steps

Occupants of University buildings are asked to take a few energy-conserving steps before leaving Dec. 19 for the holiday break.

Building occupants who have access to radiator valves are requested to shut them off prior to going home. Wall thermostats, where accessible, should be turned down to the minimum setting. Also, all windows should be closed and lights turned off, according to J. Carroll Dean, manager of energy conservation programs.

Cooperation of faculty, staff and students is needed to ensure maximum savings.

Seven named

(Continued from page 1)

as assistant vice president for student affairs. His present relationship to Dr. Raymond Murphy, vice president of student affairs, will continue. Before that he had been dean of student personnel and associate dean for students at Delaware County Community College, and assistant dean of students and assistant coordinator of activities at Southern Illinois University.

Marlowe D. Froke has been director of the Division of Media and Learning Resources in Continuing Education since 1971. In the Commonwealth Educational Network, he will continue to be responsible for the Division, which includes such operations as WPX-TV, Independent Study by Correspondence and PENNARAMA—Penn State's new educational TV system.

Mr. Froke joined the Penn State faculty in 1959, serving as associate professor in the School of Journalism and as an associate member of the Graduate School Faculty until he assumed administrative responsibilities as director of broadcasting in 1964. He also has been an instructor in journalism at the University of Illinois, visiting professor of journalism at Northwestern University and news editor of Chicago's WGN radio and television stations.

Angelo R. Bigatell, assistant to the vice president for business in the new organization, will coordinate the business functions for the network. These include such areas as housing and food service, maintenance, security, physical plant and personnel administration.

Since 1972, Mr. Bigatell has been director of design and engineering with primary responsibility for the Commonwealth Campuses. A registered professional engineer, he joined Penn State in 1950 as an architectural draftsman. He was promoted to drafting room chief in 1957, to head of Commonwealth Campus maintenance and operations in 1963 and to head of the Division of Plant Improvement and Modification in 1968.

As director of the Office of Management, Thomas E. Tracy will be responsible for coordinating the collective analysis and transmission of all information and data necessary for decision making throughout the Commonwealth network.

Mr. Tracy joined Penn State in 1973 as coordinator of Management Systems in Continuing Education, following his retirement as a colonel in the U.S. Army Finance Corps. His last assignment in a 23-year career as an army officer was as commander of the Army Security Agency.

Dr. John L. Leathers, as assistant to the vice president and dean, will assist Dr. Scannell as necessary throughout the network's administrative structure. Initial additional assignments will include certain responsibilities for public relations, funding, alumni affairs, and non-academic personnel matters at the campuses.

Since 1974, Dr. Leathers has served as administrative director of the Commonwealth Campus system. From 1968 until 1974, he was director of Penn State's Altoona Campus. Prior to that he had served at Muskingum College as assistant to the president and as dean of men.

Funding Sources

For further information, call 865-1372

(350-1) The Kresge Foundation announces that applications for 1981 and thereafter will be accepted only from Jan. 1 through Feb. 15, 1981. Kresge appropriates funds to assist projects involving (a) construction of facilities, (b) renovation of facilities, (c) purchase of major movable equipment \$50,000 and up, and (d) the purchase of real estate. Policies and procedures are available. Contact (313) 643-9630. (Re: Kresge notice 10/31/80)

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 479-1387). Applications for these staff vacancies will be accepted until 5 p.m., Jan. 8, 1981. OO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with *Full Employment practices (PS-1)* and in compliance with the University's *Affirmative Action Compliance Program*, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

COLLEGE HEALTH NURSE-INPATIENT AND EMERGENCY ROOM, RITENOUR HEALTH CENTER, UNIVERSITY PARK Responsible to Head College Health Nurse, Inpatient and Emergency Room, for providing nursing service in the Inpatient Service Area and Emergency Room and assisting licensed physicians and dentist in patient care. Graduate from an accredited nursing program or its equivalent and current licensure in Pennsylvania as a registered nurse, plus six to nine months of effective experience.

SYSTEMS ANALYST, CONTINUING EDUCATION, UNIVERSITY PARK Must have an extensive working knowledge of current telecommunications hardware and software as well as the techniques for using both. Assist in the development of all types of administrative support for office automation efforts. Provide guidance to the central supporting organization on telecommunication and administrative needs of the University-wide system. Identify opportunities for increasing administrative capabilities and/or lowering administrative costs. Document new procedures and develop cost statistics and accounting control procedures. Coordinate the University-wide Systems evaluation of word and data processing capabilities. Participate in the development of new extensions to existing automated systems. Develop and review an annual plan for system-wide automation. A bachelor's degree (or equivalent) in computer science or related field with training in basic information systems planning and design plus two to three years' effective experience in telecommunications design and procedure, computer procedure design and programming, administrative procedure development, systems analysis, and user studies leading to the formulation of systems specifications and design tradeoff analysis is required.

PROGRAM ASSISTANT, CONTINUING EDUCATION Provides assistance to the Area Director in planning, implementing and conducting a Continuing Education program for the campus service area. Is responsible for supervising office procedures, exercising fiscal controls and maintaining related records. Bachelor's degree plus one to two years' related experience.

Research assistant sought

Applications are being accepted for the position of academic research assistant to coordinate activities of the Instruction Support Center of the College of Education. The Center provides computer managed instruction systems and individualized examination and test scoring services to faculty members. It also provides laboratory services and internship experiences for advanced graduate students.

Candidates for the position should have: a master's degree plus advanced course work in computer science, instructional technology or closely related field; programming skills in two or more common computing languages; experience in systems design. Evidence of scholarship and published research studies is desired. Starting date is Feb. 15 or as soon as possible thereafter. The initial appointment is for a fixed term, but plans are being made to assure it will be a continuing position. Applications, accompanied by a resume, should be submitted no later than Feb. 1, 1981, to Dr. Harold E. Mittel, 234 Chambers Building, University Park, PA 16802.

12 to serve on H Dev. Search Committee

Twelve persons have been named to a search committee to consider nominations and applications for the position of Dean of the College of Human Development.

The committee is being chaired by Dr. John R. Nesselhauf, professor of human development. Other members are: Dr. Joseph H. Britton, professor of human development; Dr. Maureen A. Carr, director of the School of Music; Dr. Richard P. Chait, assistant provost; Dr. Irwin Feller, professor of economics; Jay M. Gibson, president of the Human Development Student Council; Dr. Theodore L. Gross, provost and dean of

the Capitol Campus;

Dr. Drew H. Hyman, associate professor of community development; Mrs. Thelma T. Price, assistant vice president for student affairs; Stanley J. Shepherd, associate professor of physics; Dr. Laura S. Sims, associate professor of nutrition in public health; and Bill Solley, assistant professor of criminal justice.

Nominations and letters of application (with resume) should be sent to: Human Development Search Committee, The Pennsylvania State University, 205 Old Main, University Park, PA 16822.

Senate to discuss PS 23

(Continued from page 1)

FACULTY.

1. *Teaching ability and effectiveness*—ability to convey subject matter to students; demonstrated competence in teaching and capacity for growth and improvement; ability to maintain academic standards, and to stimulate the interests of students in the field; EFFECTIVENESS of counseling, advising, and service to students.

2. *Research and CREATIVE ACTIVITY*—COMPETENCE, usually demonstrated through publication, EXHIBITION AND PERFORMANCE, to carry out research AND CREATIVE WORK of high quality and scholarly significance.

3. *SCHOLARLY PERFORMANCE and Mastery of Subject Matter*—evidence of thorough understanding of the field; maintenance of high levels of academic performance; recognized reputation in subject matter; field; evidence of continued professional growth.

4. *Service to the University, the Public and THE PROFESSION*—evidence of participation in the University, college, departmental, and unit affairs; competence in extending specialized knowledge TO THE UNIVERSITY AND to the public; active contribution to professional organizations.

In its rationale for the proposed changes, the Committee says the addition of the word "weight" in the first paragraph is intended to clarify what is implicit in the paragraph. "Each academic unit," the committee report states, "must define what kinds of activities count in which areas (within the guidelines of PS-23) and the appropriate emphasis to be given to each area and activity for a particular faculty member or group of faculty."

In adding a "mission statement" to the first paragraph, the Committee notes that

no single statement can incorporate all the missions of the University and said its purpose is to provide a general statement into which all the missions can fit.

The first change in item 2 (research) is a broadening of the title of the criterion to include all the kinds of activities generally accepted under the criterion. A second change involves omitting "the ability to train students . . ." since, the Committee says, this seems to be teaching and not research.

According to the committee report, the change in item 3 from "Scholarship" to "Scholarly Performance" is intended to emphasize the active nature of this criterion as well as to help clarify the distinction between this criterion and research.

Changes in item 4 (service) are intended to emphasize service to the profession in the title.

In other business, the Senate will receive a summary of Continuing Education activities for 1979-80 from its Committee on Commonwealth Campuses and Continuing Education.

The report includes a listing of innovative Continuing Education programs by the Colleges and Campuses ranging from "Public Policy Seminars" and "Potheole Repair" to "The Nurse's Role in Spiritual Care" and "Transition from Teacher to a New Career."

The Senate Committee on Undergraduate Instruction will present its annual report on grade distributions within the University for the past academic year. A summary of the grade distribution is found on page 7.

The Senate also will receive information reports from its Committees on Academic and Athletic Standards and Admissions, Records, and Scheduling, Arthur Cervo, director of the Department of Public Information and Relations, will present an oral report on the department's activities.

President Oswald (Continued from page 1)

major universities employ. A change from term to semester, if implemented, will require a considerable amount of time, and I felt, as did faculty advising me, we had to get started now on the consideration."

Asked about coed housing, President Oswald said he felt that the University should do anything it can to improve the academic environment of the residence halls.

"I've been opposed to coed housing for the sake of coed housing," he added. "But when I can be shown that that kind of living arrangement will improve the academic environment, I will look favorably upon it. Any proposal must emphasize safety and privacy."

He pointed out that huge numbers of students in the 1950s brought about construction of residence halls without a great deal of thought to diversifying the environment of the different halls.

"When we can see our way clear financially to demolish the Nittany dorms," he said, "they not only will be replaced, but we must do so with a great deal of student input into the type of

facilities that would be best for student living and learning."

In other matters, Dr. Oswald:

— Said he doesn't expect any particular major changes in federal government support of research and special programs, but is anxious about potential cuts in student aid.

— Felt it was beneficial to acknowledge — through addition of a five percent tuition increase in the University's appropriation request — that the costs of Penn State are going up and had to be shared by students.

— Agreed to become a board member of General Public Utilities after being convinced by the company that his experience in dealing with the general public might be of value to a major utility that was in deep trouble following the Three Mile Island accident last year.

"I was told I might be of help to the company and I saw no conflict of interest. I made the decision only after consultation with members of the University Board of Trustees," he said.

Penn State Intercom

Further grade distribution data refinement possible

Comments at the Jan. 6 University Faculty Senate meeting centered on two reports from the Committee on Undergraduate Instruction.

The reports on "Grade Distribution" and "Dean's List Numbers and Graduation with Distinction" were presented by Dr. Richard L. McCarl, outgoing chairman of the Committee on Undergraduate Instruction. Dr. McCarl, a professor of biochemistry who has headed the Committee for two years and who is also a member of the Faculty Advisory Committee to the President, resigned his chairmanship because of the press of his many duties.

His successor is Dr. Robert J. Heinsohn, professor of mechanical engineering.

Dr. McCarl pointed out that the reports, which are presented annually by the Committee, are still evolving. For example, under the current method of reporting, data from the College of Science show that students in its classes earned a grade point average of 2.6 during 1979-80. It might be helpful, however, to be able to discriminate between the GPAs earned by majors in the College and those of students taking required service courses.

Such data are available, Dr. McCarl noted, adding that if the Senate wants to see them, they should be incorporated in next year's report.

Dr. Heinsohn, in an interview, agreed that expanding itemization of the data would be useful. "I see no indication that we have flooded the market with too much data yet," he said. The Committee hopes to get its report out even earlier next year, probably at a Fall meeting.

Commenting directly on the report to the Senate, Dr. Heinsohn called his colleagues' attention to the large number of "W" grades as compared with "F" grades (see table, page 6), attributing the increase to the eight-week drop rule.

"I think we must recognize 'W' grades

for what they are," he said. "They are not really a reflection of emergency as we normally think of that word; for the most part, they are grades received by students who wish to withdraw from classes because they believe their work is unsatisfactory."

English Department offers analysis of some grades

With some 1,500 service writing courses to teach each year systemwide, the Department of English keeps a close watch on grade distribution.

Its records for Spring 1980 show students earning GPAs of 2.84 in English 0-399 courses and 3.01 in 400-499 courses. Considering that the first figure includes the service courses in writing (English 10 and 20), the total difference between student performance in upper and lower division courses is "surprisingly small," according to Dr. Robert D. Hume, associate head.

"The grades in our service courses are a little higher than they should be," he says, "and those in the other courses are less inflated than people sometimes think."

How do the grades of majors and non-majors in English courses compare?

Dr. Hume cites two sets of figures, using charts compiled last year. English 122 (Masterpieces of English Literature II) is composed almost entirely of majors, and they earned a 2.95 GPA. At the same time, non-majors in English 129 (Shakespeare) had a GPA of 2.92.

Again, in English 132 (American Literature to WW I), a course for majors, the GPA was 2.58. English 133 (Modern American Literature) attracts non-majors. GPAs in its two sections were 2.97 and 3.19.

(Continued on page 6)

News in Brief

Berg accepts invitation to speak at Commencement

Dr. Paul Berg, 1980 Nobel laureate in chemistry, has accepted an invitation from President Oswald to be the speaker at Spring Commencement ceremonies on Saturday, May 30.

A 1948 graduate of the University, Dr. Berg is professor of biochemistry at Stanford University School of Medicine. A pioneer in the field of genetic engineering, Dr. Berg was cited for "fundamental studies of the biochemistry of nucleic acids."

Dr. Berg, a native of New York City, earned his bachelor of science degree in ag biochemistry. His Ph.D. was granted by Western Reserve University in 1952.

He was named a distinguished Alumnus of the University in 1972 and returned to University Park in 1976 to serve as an Alumni Fellow in the College of Science.

Ag search committee named

Fifteen persons have agreed to serve on a search committee for the position of Dean of the College of Agriculture.

Dr. John W. Malone Jr., professor and head of the Department of Agricultural Economics and Rural Sociology, will serve as chairman. The other members are:

Donald L. Ace, professor of dairy science extension; Dr. Richard Craig, associate professor of plant breeding; Dr. Virgil E. Crowley, professor of farm management extension; Dr. Joseph A. Dixon, professor and head of the Department of Chemistry; Dr. Charles L. Hosler, dean of the College of Earth and Mineral Sciences; Dr. Philip G. Keeney, professor of food science; Dr. Thomas B. King, associate dean and professor of animal science; Dr. Roland M. Leach Jr., professor of poultry science;

Dr. Richard R. Nelson, Evan Pugh professor of plant pathology; Dr. Monroe Newman, professor and head of the Department of Economics; Alletta Schadler, extension agent, Lebanon County; Dr. Rosemary Schraer, assistant provost; Laurie A. Sollenberger, undergraduate student representative; and Dr. James L. Starling, professor and head of the Department of Agronomy.

Nominations and applications for the position should be sent in care of Dr. Malone to Room 205 Old Main.

Fall arrival date changed

The arrival date for new students for the 1981 Fall Term at University Park has been moved up a day from Tuesday, Sept. 1, to Monday, Aug. 31.

Classes will still begin at 8 a.m. on Tuesday, Sept. 8, following the Sept. 7 Labor Day recess. Following is the new schedule:

Aug. 31 - Arrival date for new students
Sept. 1-4 - Orientation, Advising and Registration (Tuesday - Friday)
Sept. 2-3 - Advising (Wednesday, Thursday)
Sept. 3-4 - Registration (Thursday, Friday)
Sept. 7 - Labor Day recess
Sept. 8 - Classes begin
Faculty and staff members should note also that the 1981 Winter Term Commencement will be held at 1:30 p.m. on Sunday, March 8, in Recreation Building, instead of on a Saturday, as is usual.

(Continued on page 7)

Company licenses Hershey cancer detection test

Penn State and Warner-Lambert Company jointly announced Monday that Warner-Lambert has been licensed to develop commercially and market a cancer detection test from technology developed at the Milton S. Hershey Medical Center.

The technology is known as a tumor-specific glycoprotein assay. It was developed by Eugene A. Davidson, Ph.D., professor of biological chemistry and chairman of the biological chemistry department of the College of Medicine, and a former graduate student associated with Dr. Davidson, Sally D. Bolmer, Ph.D., now at the Massachusetts Institute of Technology.

Warner-Lambert emphasized it was not acquiring a cancer test ready for immediate marketing. The Company said that additional developmental work could lead to the marketing of a test at some future time. Nevertheless, Food and Drug Administration approval would be required before it could be marketed.

Dr. Davidson and Dr. Bolmer discovered that a glycoprotein, one of the fundamental units of the body, is apparently altered by cancer cells or in their presence. They isolated the tumor-specific glycoprotein and developed an assay to quantify its presence in human blood.

The scientists said most cancer tests on the market today monitor only one class of

malignancy, while this technology appears to have the potential to spot a broad spectrum of cancers, including sarcomas, carcinomas and melanomas, as well as Hodgkins Disease.

Dr. Davidson

This new technology has been transferred to Warner-Lambert under a license from Research Corporation, a New York foundation which owns and administers the patent rights to the discovery.

Warner-Lambert will immediately begin further development in the hope that a

commercial test will result from the new technology. Initially, the company will attempt to confirm Dr. Davidson's results, after which any new test that results from the development of the new technology will undergo clinical study in various cancer centers around the country.

Warner-Lambert said it appears that the potential new test, with FDA approval, could be used for cancer management to determine the effectiveness of initial surgery or therapy, and for confirmation of the presence of cancer following a physician's original diagnosis.

The potential new test would work this way: A sample would be taken of the patient's blood. Reagents would be added to the sample, and then, by a type of immunoassay, the amount of the altered glycoprotein would be determined. The presence of cancer would be indicated if the predominate structure were that of the abnormal glycoprotein; otherwise, the absence of cancer would be suggested.

Early Penn State laboratory studies relating to the technology, which are yet to be confirmed by Warner-Lambert, indicate a 96 percent accuracy rate.

Warner-Lambert said that during the four-month field trial a determination would be made as to whether the potential new test would be developed as a radioimmunoassay or a non-isotopic immunoassay.

(Continued on page 6)

Penn Staters

Dr. Inyong Ham, professor of industrial engineering, has received a Fulbright Award for 1981. He will lecture on machining technology and metal cutting operations at the Georgian Polytechnic Institute in Tbilisi, USSR.

Dr. Ham received his Ph.D. in mechanical engineering at the University of Wisconsin and joined Penn State's faculty in 1958. He is internationally recognized for his research on group technology.

Dr. C. L. Hosler, dean of the College of Earth and Mineral Sciences, has been named chairman of the new federal Weather Modification Advisory Panel. The panel was set up under the Office of Science and Technology Policy of the Executive Office of the President. The Weather Modification Advisory Panel is a subcommittee of the Committee on Atmosphere and Oceans, established four years ago by the Federal Coordinating Council for Science, Engineering and Technology.

Dean Hosler was also elected to a three-year term on the board of trustees of the University Corporation for Atmospheric Research, a consortium of 48 North American universities and research institutions with active research programs in atmospheric sciences.

Dr. Vladimir S. Stubican, professor of materials science and engineering has been named Case Western Reserve University centennial scholar. He was awarded a medal by Case Western Institute of Technology and cited for his fundamental work in the field of reactions between solids at high temperature, and for his contributions as an educator. During his stay at Case Western Reserve, Dr. Stubican presented the keynote address, "Phase Equilibria and Ordering in Zirconia Systems," at the 1st International Conference on Zirconia.

Recently, Dr. Stubican was an invited speaker at the International Symposium on "Transport in Nonstoichiometric Compounds" in Cracow, Poland.

Dr. Elliott Vesell, Evens Pugh professor and chairman of pharmacology at Hershey, recently presented the Julius W. Sturmer Memorial Lecture at the occasion of the induction of members to the Alpha Tau chapter of the Rho Chi Society at the Philadelphia College of Pharmacy and Science. His topic was "Why Individuals Respond Differently to Drugs." Dr. Vesell was presented with the Julius W. Sturmer Memorial Lecture Award during the ceremonies "in recognition of his outstanding contributions to medical education and inter-professional cooperation in patient care."

Joseph L. Cavinato, assistant professor in Business Logistics, has been appointed editor of the second edition of *Transportation—Logistics Dictionary*, which will be published in 1982. The second edition is to be greatly expanded from the 459-page first edition.

Rethinking College Responsibilities for Values, a new volume in Jossey-Bass's series, "New Directions for Higher Education," contains a chapter on "Values Education: A Student's Perspective, An Administrator's Response." The student author is Mark A. Bell '79, and the administrator is Provost Edward D. Eddy, in whose office Mr. Bell served as a student intern and later as a special assistant. Dr. Eddy also authored the Foreword of a book, *Tracking Values in College*, written by Richard L. Morrill, former assistant provost and current president of Salem College. With author Kurt Vonnegut, Dr. Eddy did an exchange piece on their student days for the Centennial Edition of the *Cornell Daily Sun*. They also wrote pieces for *A Century at Cornell*, a new volume commemorating

the 100th anniversary of *The Sun* as the oldest university daily newspaper in America.

Dr. David L. Nahrwald, professor and chief of general surgery at Hershey, has been named associate provost and dean for Health Affairs at the Medical Center. He succeeds Dr. Fred Rapp, who has resigned to devote full-time to his duties as professor and chairman of microbiology and director of Hershey's Specialized Cancer Research Center. Dr. Nahrwald's former post of associate dean for patient care will be filled by Dr. John W. Burnside.

Dr. Nahrwald, who came to Hershey in 1970, holds A.B. and M.D. degrees from Indiana University, where he also had his surgical internship and residence. He is the author or co-author of some 90 publications.

A member of the faculty since 1971, Dr. Burnside will continue as professor and vice-chairman of medicine and as associate director of the Hershey Center for Humanistic Medicine. He received his B.S. and M.D. degrees from the University of Illinois-Chicago and was chief resident in medicine at Massachusetts General Hospital. He recently completed a sabbatical on the staffs of the U.S. House of Representatives and Senate as a Robert Wood Johnson Health Policy Fellow.

During a two-week stay in England, where he conducted experiments on the temperature dependence of protein degradation in living cells at Brunel University, Dr. Nathan N. Aronson, Jr., associate professor of biochemistry, presented an invited seminar in the Department of Biochemistry at the University of Bristol. He discussed his research on the breakdown of blood proteins by the liver.

Dr. Peter Gould, professor of geography, presented seminars at three European universities. At the Geographical Institute at Lisbon University, he discussed the "Structure of Agriculture"; at the Open University at Milton Keynes in England, he spoke to the Department of Design on "Letting the Data Define Their Own Topology." He addressed the Department of Geography at Cambridge University in England on "Letting the Data Speak for Themselves." Last summer, Dr. Gould organized a meeting on contemporary philosophy and geography held at the Rockefeller Conference Centre, Bellagio, Italy. He also presented a paper at this meeting.

Samuel H. Levine, professor of nuclear engineering and director of the Breazeale Nuclear Reactor, recently returned from Vienna, Austria. He was one of a small group of advisors from different countries invited by the International Atomic Energy Agency to help plan an in-core fuel management program for the Agency.

Dr. A. James Liedtke, professor of medicine in cardiology at Hershey, recently presented two talks at the first Symposium Heart Center for Asia in Philadelphia on Cardiology, held in Manila. Dr. Liedtke spoke on "Metabolic Consequences of Myocardial Ischemia/Infarction" and "Selected Aspects of Metabolic Therapy for the Ischemic Heart."

Carolyn Wood Sheriff, professor of psychology, delivered an invited paper at the Colloquium on Social Interaction and Individual Development: Cognitive Aspects of Socialization in Urbino, Italy, last month. Her paper included research on adolescent interactions, and group and intergroup relationships conducted in collaboration with Muzaffer Sheriff, professor emeritus of sociology.

William F. Johnstone, professor of agricultural economics extension, received the 1980 Agri Communicators Award from Inter-State Milk Producers Cooperative in recognition of his work with the Pennsylvania dairy industry as an Extension communicator.

Dr. E. Willard Miller, professor of geography and associate dean for resident instruction emeritus, is the author of *Manufacturing in Nonmetropolitan Pennsylvania*, published by the Pennsylvania Department of Commerce. This monograph provides an understanding of the changes in location of manufacturing between 1954 and 1975 in nonmetropolitan Pennsylvania. The study concludes that the areal patterns are basically a response to a complex set of locational factors that have evolved over time, and that there is a never ending search to find industrial locations where industries can thrive.

Promotions

Faculty

Marie Gutzjahr to assistant professor of recreation and parks at New Kensington. Donald Joyce to assistant professor of recreation and parks at University Park.

Diane Raab to assistant professor of physical education at Worthington Scranton.

Sara Jane Winters to assistant professor of physical education at Wilkes-Barre.

Staff Exempt

Marie D. Bloom to financial aid coordinator in Student Administrative Services.

Anthony J. DeLece to applications programmer/analyst in Management Services.

Catherine M. Egan to assistant director, Audio Visual Services in Continuing Education.

Karen B. Gantler to assistant director, Federal and State Programs in Student Administrative Services.

Joan M. Horn to administrative assistant at Hershey.

Gayle W. Kissner to assistant dining hall supervisor in Housing and Food Services. M. Joan Schumacher to assistant director, Student Employment Programs/ Commonwealth Campuses Aid Delivery in Student Administrative Services.

Staff Non-Exempt

Frank J. DiPrima to senior psychiatric assistant at Hershey.

Barbara J. Fetterolf to administrative aide, registration at Oquett.

Donald E. Hartman Jr. to respiratory therapist at Hershey.

Dolores M. Hudock to administrative aide at Hershey.

Virginia McGarvey to research technician at Hershey.

Valerie L. Mock to research technician at Hershey.

Vicki J. Montesano to administrative aide at Hershey.

Clerical

Vicki H. Blazer to secretary B in Controller's Office.

Susan J. Croyle to secretary B in Engineering.

Theresa M. DeMartino to data preparation operator B in Management Services.

Peggy A. Hitz to accounting clerk at Hershey.

Francis M. Klinefelter to secretary A in Alumni Association.

Janice E. Stewart to cash control clerk at Hershey.

Lucy A. Williamson to secretary B at Hershey.

Polly M. Wilson to secretary B in President's Office.

Technical Service

Alexis A. Brolin to electrician A in Physical Plant.

Cecelia I. Grove to laboratory attendant A at Hershey.

William Louis to animal caretaker C in Intercollege Research Programs.

Donald E. Stover to audio visual technician A in Continuing Education.

Joseph Wisniewski to maintenance mechanic B at Berks.

Richard J. Yahner to equipment and locker room attendant at Altoona.

Obituaries

Kent Forster, professor emeritus of European history, died Jan. 9 at the age of 64. Dr. Forster retired from the University last June.

He joined the faculty in 1941 after earning his doctorate at the University of Pennsylvania. He was the author or co-author of five books and was a 1959 recipient of the Lindback Award for Distinguished Teaching.

Deeply committed to international education, Dr. Forster helped launch Penn State's International Study Programs. He received two Fulbright awards and taught in Finland, Austria, West Germany, Lebanon and Africa.

The family has requested that any contributions be sent to the Kent Forster Memorial Fund to provide research opportunities for junior faculty members in the Department of History. Dr. Forster headed the Department from 1970 until his retirement.

A memorial service for Dr. Forster will be held Sunday, Jan. 18, at 2 p.m. in Eisenhower Chapel.

Charles M. Speidel, professor emeritus of health, physical education and recreation and Penn State's head wrestling coach from 1926 through 1964, died Dec. 22 at the age of 80. A native of Elizabeth, N.J., Mr. Speidel came to Penn State as wrestling coach at the beginning of the 1926 season, and during the next 38 years, his dual-meet record was 191 wins, 56 defeats and 13 ties.

In 1960, Mr. Speidel was one of 11 Penn State faculty members cited for "excellence in teaching." He also received numerous other honors during his career, including a Helms Amateur Wrestling Hall of Fame selection. He also served twice as president of the National Collegiate Wrestling Coaches' Association.

Helen Deuss Hill, Penn State's third woman Ph.D. recipient (botany, 1931) and former associate professor of genetics, died Jan. 4 at the age of 85. Mrs. Hill, a native of Chicago and 1961 recipient of an S.B. degree in botany from the University of Chicago, came to Penn State as a bride of the late Dr. J. Ben Hill, professor emeritus of genetics. In addition to her Ph.D., she earned an M.S. in botany at Penn State.

Mrs. Hill served Penn State as a faculty member in the Departments of German, English and Plant Pathology. For 20 years, she was a member of the staff of the U.S. Regional Pasture Research Laboratory. In 1955, with her husband, she published a book, *Genetics and Human Heredity*.

Herbert Kellogg, a farm machinery operator in the College of Agriculture who retired in 1967, died Jan. 4 at the age of 74. Born in Worth Township, he began his University employment in 1949.

Charles H. Miller, Jr., a helper-vegetable gardener in the College of Agriculture at the time of his 1977 retirement, died Dec. 21 at the age of 66. He began his University service in 1962 and was born in Jersey Shore.

Glen L. Moore, who retired in 1976 as an equipment and facilities operator in the College of Health, Physical Education and Recreation, died Dec. 20 at the age of 66. Born in Cumberland, he began his University employment in 1959 as a dishroom worker for the Department of Housing and Food Services, becoming an athletic equipment attendant for the College in 1969. He assumed his most recent position later that year.

Nina L. Conly, accounting clerk in the Department of Housing and Food Services, died Dec. 23 at the age of 58. She had been an employee of the University since 1979 and was born in Osceola Mills.

Leroy M. Inhoff, maintenance worker in the Department of Physical Plant, died Dec. 30 at the age of 53. Born in Ferguson Township, he began his employment with Penn State in 1970.

Dr. Condee

Dr. Ralph Waterbury Condee, professor of English literature and humanities, retired Jan. 1 with emeritus rank after 32 years of service.

A Milton scholar and an authority on Latin poetry written by British poets, Dr. Condee is the author or co-author of five books. They include *Structure in Milton's Poetry*, *The Case for Poetry*, *Exploring Religious Ideas*, *Great Modern Short Stories*, and *Modern Fiction*.

Dr. Condee did his undergraduate work in classics at the University of Illinois and the University of Chicago, received his A.M. in English at Chicago, and Ph.D., also in English, at Illinois. He served 3½ years in the U. S. Navy during World War II, most of the time in the Southwest Pacific.

He came to Penn State in 1949 as an instructor in the Department of English literature and was promoted to assistant professor in 1951, to associate professor in 1956 and to professor in 1958. He received the 1933 Class award for outstanding contributions in the field of Humanities in 1975.

During his tenure at Penn State he was director of the Honors Program in English, associate director of the Center for Continuing Liberal Education, founder and director of the University's Shakespearean Film Project, and a member of the University Faculty Senate. He was one of the three initiators of the General Education Program in Humanities, and served as a member of the committee to set up the School of the Arts (later to become the College of Arts and Architecture) in the College of the Liberal Arts. This same committee established the University's Artists Series, and after its inception he served for a time as acting chairman of the Advisory Board to the Manager.

Dr. Condee taught in six departments and divisions of the University. In addition to the Departments of English and of Classics, they include the Center for Continuing Liberal Education, Comparative Literature, General Education in Humanities, and the former Department of English Literature when it existed separately from English Composition.

He is a Senior Research Fellow at the University of Glasgow, Scotland, a title he has held since 1970.

Dr. Condee will continue to work on his book concerning the influence of Vergil on John Milton, and in the immediate future he will be assisting in the Classics Department at the University. He and his wife, Norma, plan to remain in State College.

Mortimer A. Schultz, professor of nuclear engineering, retired Dec. 31 with emeritus rank.

From 1962 to 1967, he was a visiting associate professor at the University, becoming a full-time faculty member in 1968. A graduate of the Massachusetts Institute of Technology, he spent 22 years on the staff of the Westinghouse Corporation, leaving to work as an independent consultant and to head Millertron, Inc., an electronics firm.

Professor Schultz is the author of a text, *Control of Nuclear Reactors and Power Plants*, as well as of numerous technical papers.

Mr. Powers

Robert A. Powers, Chester County senior Extension agent, retired on Dec. 31 after almost 38 years of service.

Headquartered in Chester County since 1943 (although he served part time for two years in Delaware County), the Glenshaw native earned his B.S. in horticulture from Penn State in 1942.

He developed educational programs in numerous areas of Extension work, including soil improvement and management, forage crop improvement, dairy farming and farm-city understanding and interdependence.

In 1960 he received a Dow Study Tour Award, the first Pennsylvania agent to be so honored. He was the recipient also of a Distinguished Service Award in 1963, presented by the National Association of County Agricultural Agents, for his service to the State's agriculture.

Dr. Seymour T. Brantner, associate professor of vocational industrial education, retired Jan. 1 after more than 25 years on the faculty.

As a specialist on the supervisory and administrative processes in vocational education, Dr. Brantner has served on numerous state and national task forces. His research activities and publications focused primarily on the leadership functions of vocational education in the public schools.

Among the honors he received during his career were a Certificate of Merit for Leadership Development from the U.S. Office of Education in 1967 and an award for meritorious achievement from the National Center for Research in Vocational Education.

A graduate of Lock Haven State College, Dr. Brantner holds an M.Ed. from Penn State and an Ed.D. from the University of Pittsburgh. He has served as a visiting professor at the University of Missouri.

Betty F. Dando, registration clerk in the Office of the Registrar, says of her Jan. 1 retirement: "I'll miss the people I work with very much, but not the winter driving over Skytop Mountain."

A resident of Julian, Mrs. Dando — who began working for the University in 1959 — looks forward not only to forgoing the mountain drive, but also to being able to spend more time on two of her hobbies, crocheting and knitting. In addition, she says she plans to visit her grandchildren in South Carolina.

Mrs. Dando began her Penn State career as a secretary in the Graduate School, after which she served as graduate recorder in the Registrar's Office before assuming her present position.

Active in the Julian Methodist Church, where she is a member of the Women's Society, Mrs. Dando also serves her community as a tax collector for Houston Township.

Of her four children, William R. holds a Penn State degree (1966) in business administration; daughters Janet (Jones) and Gail (Flick) are married and Valerie is a teacher in the Bald Eagle Area School District.

Dr. Mueller

Dr. Werner J. Mueller, professor of poultry science, retired with emeritus status Jan. 1 after some 27 years with the University.

A native of Zurich, Switzerland, Dr. Mueller came to Penn State in 1953 as a post-doctoral fellow to conduct research in poultry nutrition. His initial study of the causes of poor eggshell quality was expanded over the years to analyze the basic problems of calcium metabolism.

The recipient of Alpha Zeta fraternity's 1971 award as the outstanding faculty member in the College of Agriculture, Dr. Mueller taught undergraduate courses in poultry production technology and graduate courses in animal and poultry physiology. He also served as acting head of the Department of Poultry Science in 1978.

In 1962-63, he served at the headquarters of the United Nations' Food and Agricultural Organization (FAO) in Rome, where he was in charge of FAO poultry programs in Africa and Latin America. The author of numerous technical papers, he served as an associate editor of *World's Poultry Science Journal*.

Royal A. Kline, milk processor in the College of Agriculture, retired Jan. 1 after some 28 years of University employment.

Mr. Kline joined the University staff in 1953 as a guard in the Ordnance Research Laboratory, and after serving there for 2½ years, he worked for 10 months in engineering research. He began his association with the College of Agriculture in 1956.

Noting that he has both a hunting cabin and a farm near Black Moshannon State Park, Mr. Kline says he intends to split his time between his Pine Grove Mills residence and Black Moshannon, where he plans to do "a lot of hunting and fishing."

Frances M. Parsons, room clerk at the Nittany Lion Inn, retired Jan. 1 after a University career spanning some 26 years and encompassing a wide range of duties at the Inn.

"I'm really going to miss the people I worked with," says Mrs. Parsons, who came to the Inn in 1954 as a waitress in the Coffee Shop (now the Colonial Room). Among her other posts were stints as hostess in the Coffee Shop, switchboard operator at the front desk, and housekeeper.

Remarking that she's "not going to just quit," Mrs. Parsons says that in addition to seeking a part-time job, her retirement plans include traveling, crocheting and embroidery.

Doris M. Zimmerman, offset duplicator operator in the College of Agriculture, retired Jan. 1 after working for the University since 1962.

Leonard D. Hardy, preparation technician in the College of Science, retired Jan. 10. He joined the University staff Jan. 17, 1966.

Joel Balogh, a research associate in the College of Engineering and University employee since 1969, left his position Jan. 1.

Josephine J. Slean, accounting clerk at Hershey Medical Center and a member of the staff since 1970, left her position Jan. 3.

Fred H. Allison, staff co-pilot in the Office of Business Services and University employee since 1966, retired Jan. 1.

Catherine L. Chewaski, food production worker at the Capitol Campus and staff member since 1967, retired Jan. 9.

Carl Volz, electronic designer in the College of Engineering and University staff member since 1969, retired Jan. 1.

Gracie F. Kinney, anesthesia technician at Hershey, left the University on Dec. 6. She had been a Penn State employee since 1970.

Charles G. Taylor, residence hall worker in the Department of Housing and Food Services, retired Jan. 10 after working for the University since 1970.

Evelyn J. Johnson, second cook in the Nittany Lion Inn's main kitchen and University employee since 1970, retired Dec. 7.

Carpoolers

Dennis Ricker would like to share the driving from Linden Hall to the west end of campus. His hours are 8 a.m. to 5 p.m. Phone 865-3416 or 466-7394.

Bill Kantoski is seeking a ride (he would also help with the driving) from Altoona to arrive at work at 8 a.m. and leave campus at either 4:30 or 5 p.m. Phone 863-2471 or 942-1464.

(381-3) The ASEE (American Society for Engineering Education) has announced three Summer Faculty Research/Fellowship Programs in cooperation with: (1) the U.S. Navy (ONR, Naval Medical R & D Command, Naval Material Command); (2) the Department of Energy, and (3) the National Aeronautics and Space Administration (18 centers and universities). The programs are for U.S. citizens with teaching or research appointments, preferably with two years of teaching experience. Stipends are \$450 per week for ten weeks and a travel allowance. The deadline is Feb. 1 for appointments by March 1, 1981.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-170

Ag honors 30 for their 25 years of service to Penn State

From left: George A. Van Horn, associate professor of agricultural communications; William G. Downs III, assistant professor of agronomy; George W. Conrad, horticulture worker and machine operator; Truman V. Hershberger, associate professor of animal nutrition; and Donna L. Baney (seated), secretary A, horticulture.

From left: Guy H. Temple, associate professor and community resource development agent, North Central Pennsylvania; John E. Creighton Jr., extension agent, Wayne County; Homer F. Mazer, assistant director, Northwest Region Cooperative Extension Service; William H. Lazz Jr., extension agent, Venango County; and Emilie K. Lunger (seated), extension home economist, Wyoming County.

Left photo, Dean James M. Beattie congratulates Paul Grun (right), professor of horticulture. Top center, Philip G. Keeney, professor of food science. Bottom center, James K. Rathmell Jr., professor of floriculture extension.

Professors honored were, from left: Werner J. Mueller, poultry science; Thomas Smyth Jr., entomology; Richard D. Schein, plant pathology; Joseph M. Duich, agronomy; and William E. Sopper (seated), forest hydrology.

Above, from left: Donald L. Ace, professor and extension specialist, dairy and animal science; Nelson H. Gotwals, extension news editor and associate professor of agricultural communications; Richard A. Bailey, senior extension agent, Bucks County; W. Wayne Hinsh, assistant dean and assistant director for administrative management and training, Cooperative Extension Service; Richard S. Adams, professor, dairy science extension; and John Z. Shearer (seated), senior extension agent, Franklin County.

At right, from left, H. Louis Moore, professor, agricultural economics extension; W. Paul Anderson, associate professor, dairy science extension; Robert J. Rugaber, senior extension agent, Butler County; Alfred T. Skala, extension agent, Luzerne County; and Aubrey D. Vose (seated), area marketing agent, Susquehanna Region. Not pictured is Jerry Vonada, barn worker and milker.

University Park Calendar

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Jan. 15 - 25

Special Events

Thursday, Jan. 15
Office of Religious Affairs film, *Legacy of a Dream*, based on work of Martin Luther King, Jr. 9 and 11 a.m.; 1 and 3 p.m.; Eisenhower Chapel Small Lounge.
CinemaTheque, Bertolucci, 1900, 7 p.m. only, HUB Assembly Hall.

Friday, Jan. 16
Office of Religious Affairs film, *Martin Luther King: Man of Peace*, 9 and 11 a.m.; 1 and 3 p.m.; Eisenhower Chapel Small Lounge.
Art History lecture, 4 p.m., Room 230 Arts Bldg., Maarten Wurfball, Lakenhol Museum, Leiden, Netherlands, on "Dutch 17th Century Painting Seen through the Eyes of the Foreigner."
CinemaTheque, 1900, 7 p.m., HUB Assembly Hall.
Folk and Square Dance Roundup, 7:30 p.m., Room 123 White Bldg.
Sports: gymnastics (men) vs. Syracuse, 8 p.m.; ice hockey vs. Upsilon, 9:30 p.m.

Saturday, Jan. 17
Last date for March graduates to take final or doctoral examinations or to deliver master's papers or theses to adviser.
Basketry Workshop, 10 a.m. to 4 p.m., Shaver's Creek Nature Center. Phone 865-1851 for information.
Sports: indoor track (men and women) vs. Maryland, bowling (men) vs. Penn State-Capitol, 1 p.m.; wrestling vs. Clarion, 2 p.m.; ice hockey vs. Upsilon, 3:30 p.m.; basketball (women) vs. Connecticut, 5:45 p.m. and (men) vs. Philadelphia Textile, 8:10 p.m.

Sunday, Jan. 18
University Chapel Service, noon, Frizzell Room, Eisenhower Chapel. Martin Luther King, Jr. Sunday. Rev. Dr. Kenneth Lee Smith.
Colgate Rochester Divinity School, speaker.
Sports: bowling vs. George Washington, 1 p.m.
Artists Series, Vinson Cole, tenor, 8:30 p.m., Schwab Auditorium.

Monday, Jan. 19
Deadline for March graduates to submit cream-ready theses manuscripts to Thesis Office.
Deadline for applications for IAHS Faculty Research Fellowships for Summer/Fall 1981, Hahng Cottage.
CSA workshop, "Cooking for Two," 7 p.m., Room 101 Kern.
Cal State Club meeting, 7:30 p.m., Room 189 MRL.

Tuesday, Jan. 20
Comp. Lit. Luncheon, 12:15, talk, 1 p.m., Room 204 HUB. Walter Dolan, classics, on "Generosity and Politics in the Greek Dark Age: A New Perspective on Homer."
HUB Craft Center, Open House, 7:30-9:30 p.m., Room 312 HUB.

Wednesday, Jan. 21
Communication Disorders Dept. workshop, 2:15 p.m., Room 362 Willard. James Woodward, Gallaudet College, on "Social Linguistics and American Sign Language."
Robeson Center Film Series, *White Man's Land* and *Kenyatta*, 7:30 p.m., Walnut Bldg.
UnCommon Theatre, "Tri-Offenbach," student preview, 8 p.m., Room 112 Kern.
Sports: basketball (men) vs. West Virginia, 8:10 p.m.
Wind Spring Quartet, 8:30 p.m., Music Bldg. Recital Hall.

Thursday, Jan. 22
Cinema-Colleagues meeting, 4:30 p.m., Nursing Consultation Center. Dr. Helen D. Wise, speaker.
CinemaTheque, Okamoto, *Sword of Doom*, 7 and 9:30 p.m., HUB Assembly Hall.
Penn State Federal Credit Union annual meeting, 7:30 p.m., Room 101 Kern.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Friday, Jan. 23
Board of Trustees meeting, Keller Bldg.
Cinema Films, *Rebel Without a Cause*, 7 p.m.: *East of Eden*, 9:15 p.m., HUB Assembly Hall.
Sports: swimming and diving (men) vs. Virginia, 7 p.m.; ice hockey vs. Jr. Flyers, 9:30 p.m.

Alfred Thompson Bricher's "Up the Hudson" (1864), one of the paintings from the Museum of Art's exhibition, "All That Is Glorious Around Us," opening Sunday.

UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.
Artists Series, Irene Worth in *Letters of Love and Affection*, 8:30 p.m., Schwab Auditorium.

Saturday, Jan. 24
Board of Trustees meeting, Keller Bldg.
Sports: fencing (women) vs. St. Johns and Penn, 9 a.m. and (men) vs. Penn, 1 p.m.; swimming and diving (women) vs. Virginia, noon and (men) vs. Johns Hopkins, 3 p.m.; bowling vs. Erie C.C. and SUNY-Buffalo, 1 p.m.; wrestling vs. Lehigh, 2 p.m.; basketball (women) vs. Edinboro, 5:45 p.m. and (men) vs. Northeastern, 8:10 p.m.

Faculty Women's Club, midwinter coffee in honor of Trustees' wives, 9:30 a.m., Nittany Lion Inn.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Sunday, Jan. 25
Sports: volleyball (men), Nittany Lion Invitational, 8 a.m.
HUB Craft Center, second session classes begin, Room 312 HUB.
University Chapel Service for the Week of Christian Unity, 11 a.m., Eisenhower Chapel.
France-Cinema, Fellini, *La Strada*, 7 and 9 p.m., Room 102 Chambers.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Seminars

Thursday, Jan. 15
Animal Welfare, Andrew Rowan, Institute for the Study of Animal Problems, Washington, D.C., on "Alternatives to the Use of Animals in Biological Research," 12:45 p.m., Keller Bldg. Auditorium.
Chemistry, Gerd Lamar, Univ. of California/Davis, on "NMR, Electronic and Structural Studies of Heme Proteins," 12:45 p.m., Room 333 Whitmore.
Physics, B.V. Bronk, Clemson Univ., on "A Physicist's Definition of Life," 3:30 p.m., Room 445 Davey.
Friday, Jan. 16
Analytical Chemistry, Karey Holland, graduate student, on "Porphyrin Based Solar Photovoltaic Cell," 11:10 a.m., Room 333 Whitmore.
Physical Chemistry, William White, Materials Research Lab, on "Nuclear Waste Repositories: An Exercise in Applied Solid State Chemistry, Reaction Kinetics and Geochemistry," 2:30 p.m., Room 333 Whitmore.

Monday, Jan. 19
MC3B, George Rose, Hershey Medical Center, on "Domains and Globular Proteins," 4 p.m., Room 101 Allhouse.

Tuesday, Jan. 20
MC3B, George Rose, Hershey Medical Center, on "Structural Segments in Globular Proteins," 11 a.m., Room 101 Allhouse.
Geosciences, Edward Cotter, Bucknell Univ., on "The Role of Marine Processes and Sea Level Fluctuation in the Origin of the Tuscarora Formation of Central Pennsylvania," 3:45 p.m., Room 22 Deike.
Plant Pathology, Larry Zang, graduate student, on "Insects as a Means of Weed Control," 3:55 p.m., Room 213 Buckhout.
Organic/Inorganic Chemistry, S. Diamond, Allied Chemical, on "Cobalt-Nitro Complexes as Oxygen Transfer Agents: Oxidation of Organic Substrates by Molecular Oxygen," 8 p.m., Room 333 Whitmore.

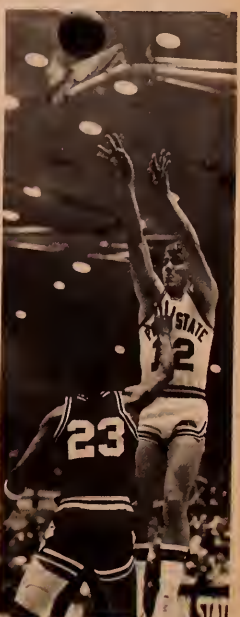

Thursday, Jan. 22
Chemistry, Robert Grubbs, California Institute of Technology, speaker, 12:45 p.m., Room 333 Whitmore.
MC3B, Richard J. Frisque, Cold Spring Harbor Laboratory, on "Mutations in Regulatory Sequences of SV40," 1 p.m., Room 101 Allhouse.
Economics/Institute for Policy Research and Evaluation, Irwin Feller, economics, on "The Measurement of Industrial Innovation," 2 p.m., Room 124 Sparks (rescheduled).
Physics, King Tu, IBM Thomas J. Watson Research Center, Yorktown Heights, on "Metal/Silicon Interface," 3:55 p.m., Room 445 Davey.
Mathematics, Gene Lusk, Bucknell Univ., on "A Good Algorithm for Testing Isomorphism of Trivalent Graphs," 4 p.m., Room 102 McAllister.

Friday, Jan. 23
Physical Chemistry, Milton Cole, physics, on "Superficial Chemistry Probed by Atomic Beam Scattering," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Graduate Art Education Student Exhibition.
Kern Gallery: Sarah Berndt, watercolors; Kevin O'Toole, sculpture. Metal Craft Exhibition; Fabric Workshop Exhibit.
Museum of Art: European works from the permanent collection. Selections from the Pre-Columbian and Oriental collections, opens Jan. 17. "All That Is Glorious Around Us," paintings from the Hudson River School, opens Jan. 18.

Pattee Library: Hicks Etchprint National Invitational Exhibit, opens Jan. 16, East Corridor Gallery. Robin Bergstein, mixed media on paper, through Jan. 20, Lending Services Lobby. Nancy A. Norton, stained glass, and Leveta Butler, porcelain, Main Lobby.
Robeson Cultural Center: the works of Oliver LaGrone, opens Jan. 25.
Visual Arts Zoller Gallery: Wayne Tiebaud Exhibit.

Junior guard Craig Buffie is part of the action as Coach Harter's Nittany Lions play a seven-game home schedule this month.

Senate

(Continued from page 1)

by Spring, Dr. Heinsohn predicted.

A subcommittee headed by Robert Price is examining procedures to develop criteria for use in making recommendations to the Provost about programs facing reorganization or discontinuation.

Data on the University's Basic Skills program — still another annual Undergraduate Instruction report — are also scheduled for release during Spring Term.

In other business, the Committee on Faculty Affairs withdrew its legislative report on modifications to P5-23. Senate Chairman George Franz announced that a special forensic session on P5-23 will be held at the March meeting.

Under the auspices of the Committee on External Affairs, Arthur V. Ciervo, director of the Office of Public Information and Relations, presented an oral informational report on the efforts of the Office to support such major University goals as student recruitment, to increase the number of black faculty and students and to bolster both private and State support.

In support of such broad University goals as student recruitment and the increasing of private and State assistance, the University's Office of Public Information and Relations has contacted radio and television talk shows throughout Pennsylvania and in major cities across the country.

These shows are often in need of articulate and informed guests, and Arthur Stober, head of the Radio-TV Section, will try to place members of the faculty and staff on these programs.

Subjects for discussion are usually general and non-technical. Mr. Stober notes, and topical subjects are frequently aired. Faculty members who have authored a newly published book are a possibility for these shows, as are experts in such disciplines as political science and economics.

No funds are available to underwrite special trips into talk show areas, but if faculty or staff members who plan to visit a major city in Pennsylvania or another state on business notify the Information Office at least a month in advance, a talk show appearance might be arranged.

Persons interested in participating in the program should contact Mr. Stober at 865-7517.

English Department

(Continued from page 1)

"The differences from section to section show that the instructor is much more significant than whether the students are mostly majors or non-majors," Dr. Hume points out. "If a class of majors has a 2.5 GPA, it indicates that the teacher is fairly tough by our standards. If non-majors are getting about a 3.0, the instructor may be a bit soft."

Performances by majors and non-majors in upper level English courses are similar to those of students in 0-399 classes. Majors in English 430 (Early American Literature) had a 2.59 GPA. Non-majors in English 418 (Advanced Technical Writing) scored 3.47.

"What this says," Dr. Hume continues, "is that non-majors receive no grade penalty when they take an English course. Most students who take English are prepared to do pretty well in it if they work. People who can't get good grades in English courses generally won't go near them. In English 418, the students know they have writing problems, but they are bright and highly motivated."

In looking over the grades in its service courses, the Department notes fluctuations from term to term. In Fall, when more sections of English 10 (the freshman entry course) are offered, GPAs are lower. By Winter or Spring, when students enroll in English 20, they have some writing experience and the GPAs rise from about

DISTRIBUTION OF GRADES - RESIDENT INSTRUCTION

Table 1. All-University - Percentage of Grades Given in Baccalaureate Courses

Course Level 0-499

Spring Term	A	B	C	D	F	W	Ps	Fl
1974	31.5	33.3	19.5	5.3	3.2	2.2	3.2	0.2
1975	29.8	33.1	20.4	5.7	3.7	2.3	2.9	0.2
1976	28.0	32.6	20.1	5.8	3.0	4.1	2.5	0.1

BA (16.6)	HPER (13.0)
HPER (14.9)	EM SC (11.3)

2.40 (English 10) to 2.70-75 (English 20).

"Grades in our service courses are a little higher than they should be," Dr. Hume says, "in part because of the high proportion of graduate assistants and lecturers who teach these sections. If you look at the grades given by full-time faculty members in English 10 and 20, they are markedly lower — although their teaching evaluations are better. Inexperienced teachers tend to award higher grades."

Dr. Hume notes that grades in English 10 and 20 drift up and down "depending on how much pressure the director of

composition puts on faculty members to hold to standards." After one major reorganization several years ago, the proportion of "A" grades in composition courses dropped from over 30 percent to under 10 percent between Spring and Fall terms.

GPAs do not vary much overall between the Campuses and University Park, according to Dr. Hume, although there are sometimes "quite astonishing fluctuations from section to section."

"We need to make even greater efforts to see that instructors are conscious of official grading standards," he concludes.

with three to four years' effective experience in computer operations, peripheral and off-line operation, and in supervising personnel.

DRAFTSPERSON, COLLEGE OF MEDICINE, Hershey. Responsible as the Project Coordinator for the development of drawings and specifications for maintenance, operations, alterations, and selected new projects for the Medical Center mechanical systems, electrical systems, buildings, and yards. An associate degree in architectural drafting or equivalency plus two to three years of effective experience.

Applications are being accepted for the position of academic research assistant to coordinate activities of the Instruction Support Center of the College of Education. The Center provides computer managed instruction systems and individualized examination and testing services to faculty members. It also provides laboratory services and internship experiences for advanced graduate students.

Candidates for the position should have: a master's degree plus advanced course work in computer science, instructional technology or closely related field; programming skills in two or more common computing languages, experience in systems design. Evidence of scholarship and published research studies is desired. Starting date is Feb. 15 or as soon as possible thereafter. The initial appointment is for a fixed term, but plans are being made to assure it will be a continuing position. A letter of application, accompanied by a resume, should be submitted by Feb. 1 to Dr. Harold E. Matal, 234 Chambers Building, University Park, PA 16802.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff non-exempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 665-1287 (network line 475-1287). Applications for these staff vacancies will be accepted until 5 p.m. Jan. 22, 1981. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

GENERAL ACCOUNTANT, COLLEGE OF MEDICINE, Hershey. Responsible to the Supervisor, General Accounting, for the overall operation and control of the General Ledger, Financial Statement, Inventories, and various administrative and statistical reports required by Hospital Administration and the Director of Financial Affairs. A bachelor's degree in accounting or equivalency, plus one to two years' effective experience.

SUPERVISOR, COMPUTER CENTER OPERATIONS, COLLEGE OF MEDICINE, Hershey. Responsible to the Manager, Medical Computer Services, for the supervision and coordination of activities of employees involved in the Computer Center operations, such as keypunch operators, control clerks, computer operators, etc., and for the day-to-day operations of the Medical Computer Center. High school or data processing school graduate

IGPH sponsoring five seminars

The Interdisciplinary Graduate Program in the Humanities (IGPH) sponsors five faculty seminars in which every faculty member and graduate student may participate.

Aesthetics, Literary Criticism and Interpretation Theory: This seminar is concerned with issues relevant to interpretation theory, literary criticism, and philosophical aesthetics. The seminar meets once a month; on each occasion, a faculty member, graduate student or guest speaker presents a short paper which is then discussed at length by those present.

Philosophy of Sport: Faculty members and graduate students of the College of Physical Education meet once a month with faculty and graduate students of other colleges, mainly the College of Liberal Arts, to discuss issues that belong to the history, psychology, sociology and philosophy of sports.

Wittgenstein's Vienna: This seminar, now in its second year, takes its point of departure from the book of the same title by Toulmin and Janik. The seminar meets once or twice a month. Guest speakers and faculty members present ideas for discussion on topics that are immediately relevant to the interdisciplinary interaction between leading scientists and artists in Vienna around the turn of the century. Topics discussed belong to art history, psychiatry, psychology, physics, biology, philosophy, political history, etc.

Philosophy of Science: This seminar developed from an earlier seminar on the interaction between biology and philosophy. The seminar meets once a month. Faculty members and graduate students present ideas on topics that are directly pertinent to contemporary literature in the history and the philosophy of science.

The Harold Schilling Seminar on Science, Philosophy and Religion: This seminar meets once a month at dinner in one of the local restaurants; after dinner, one of the participants presents ideas on issues that are important regarding the influence of the sciences today on philosophy and religion. Those who prefer not to join the group for dinner may participate in the seminar, which begins formally at 7 p.m.

Although IGPH sponsors these seminars, some of them were originally developed independently of IGPH. Also the seminars are listed each month in the INTERCOM calendar.

Any faculty member or graduate student interested in any of these seminars may participate; no formal application is necessary. Those who would like to be kept informed about future meetings of one or more of these groups should send their names and addresses to the IGPH, Room 132 Sparks, or telephone 863-0332, between 9 a.m. and 2 p.m.

News in Brief

(Continued from page 1)

1981 Social Security deductions to rise

Social Security (FICA) deductions will be higher in 1981, as mandated by Federal Law.

The Social Security base increases from \$5,900 to \$29,700, and the rate increases from 6.13 percent to 6.65 percent, effective Jan. 1, 1981. The maximum annual deduction will be \$1,975.05. This is an increase of \$367.36 above the 1980 maximum.

Interactive connections applications not being accepted

Due to the heavy demand on the system, the University Advisory Committee on Instructional Uses of the Computer wishes to remind faculty and staff members that applications are no longer being accepted for interactive connections during the present Winter Term, in accordance with policies previously introduced for Fall and Winter Terms.

Dr. Wise to address Campus Colleagues meeting

Dr. Helen D. Wise, executive director of the Delaware State Education Association and a member of the University's Board of Trustees, will be the speaker at a meeting sponsored by Campus Colleagues at 4:30 p.m. Thursday, Jan. 22, in the Nursing Consultation Center.

Dr. Wise will discuss her varied experiences as an educator and as a former member of the Pennsylvania legislature.

WPSX signs agreement with Brazilian agency

An informal agreement for joint telecommunications activities has been signed between the major educational television agency in Brazil and WPSX-TV. The Brazilian agency is Fundacao Padre Anchieta, Radio-Television Cultura, with headquarters in Sao Paulo.

The major part of the agreement, the production of a series of television lessons for an open-learning course to be offered by the University, was conceived by Dr. David J. Myers, associate professor of political science. The course, with a working title of "The North-South Challenge," will present issues related to the growing importance of relationships between Northern Hemisphere and Southern Hemisphere nations.

The television lessons will be produced by WPSX-TV during the next three years with contract and grant funds. Under the agreement, Radio-Television Cultura will provide technical and production assistance for those segments of the lessons which require on-site filming and access to Brazilian archival materials. The initial informal agreement provides for three other activities between the University and Radio-Television Cultura — a program exchange, an annual exchange of staff persons, and a student work-study program.

Credit Union to meet Jan. 22

The annual meeting of members of the Penn State Federal Credit Union will be held at 7:30 p.m. on Thursday, Jan. 22, in Room 101 Kern Building.

Officers will be elected, and the annual report of the Credit and Supervisory Committees presented. Established in 1959, the Credit Union is open to all full- and part-time personnel of the University. During the last year its assets surpassed the \$4 million dollar mark.

While other financial institutions have found it necessary to increase interest rates, the Credit Union is still able to offer loans, to qualified borrowers, at 12 percent

Non-discrimination policy pledged

Editor's note: The following statement has been submitted as part of the University's annual review of its affirmative action program and is made part of the affirmative action plan in compliance with the U.S. Department of Labor, Office of Federal Contract Compliance Program's Revised Order No. 4. The Affirmative Action Plan is available for review in the Affirmative Action Office, Room 22, Willard Building.

As The Pennsylvania State University undergoes a scheduled compliance review of its affirmative action program, the University once again reiterates in the strongest terms its policy of non-discrimination in recruitment, hiring and promotion of all employees. At this time, as is stated in the Board of Trustees policy, "we further reaffirm the University policy of maintaining programs of affirmative action to avoid such discrimination. The officers of the University are directed to continue to administer all personnel policies without regard to race, religion, color, and national origin; and without regard to handicap, age, sex or status as a disabled or Vietnam era veteran, except as provided by law."

Affirmative action has become an integral part of the operation of this institution of higher education. The Pennsylvania State University is deeply involved in efforts to improve opportunities and alternatives so as to make this institution available to all the citizens of the Commonwealth — and it is further committed to providing the widest

opportunity for success to all of its employees and students.

In implementing its program of affirmative action, the University identifies any organizational unit in which there appears to be an under-representation, as specified in the plan, and makes good faith efforts in recruitment and promotion to correct this under-representation. This is the central element in our efforts to assure equity of treatment in all the terms and conditions of employment.

Penn State's experience over several years indicates that the reality of achieving equal opportunity for all is best described by the philosophy that "words do not equal deeds." Our primary goal is to turn the words of affirmation into action which produces results. This concept is an integral part of the major planning document that the University has prepared as a *Perspective on the '80s*.

To assist the University in implementing its goals in this area, the Affirmative Action Office was established in 1973 with authority delegated to it to assure the University's adherence to the principles and practices of equal opportunity.

The task before us all is to focus our efforts on the essential elements inherent in a successful program and to make responsible decisions to meet the aims of equal opportunity.

John W. Smull
President

Vinson Cole to sing Jan. 18

Tenor Vinson Cole, winner of the first prize in the 1977 Metropolitan Opera auditions, will appear Sunday, Jan. 18, as part of the Artists Series. He replaces baritone Hakan Haggard at the 8:30 p.m. performance in Schwab Auditorium.

Mr. Cole made his New York City Opera debut in 1978-79 as Roldolfo in *La Boheme*, repeating the role the following season. Andrew Porter described him in *The New Yorker* as "a tenor who has suddenly taken the step from high promise to high accomplishment."

A leading member of the Opera Theatre of St. Louis, Mr. Cole has also sung major roles with the opera companies of San Francisco, Boston, Dallas, Seattle, Sante Fe and Vancouver. European audiences have acclaimed his performances at the Theatre de l'Opera in Lyon, Opera du Rhin in Strasbourg and the Welsh National Opera. He has appeared as tenor soloist with a number of major orchestras, including Chicago and Minnesota, and this season will make his debut with the Cleveland Orchestra as tenor soloist in Dvorak's *Stabat Mater*.

Mr. Cole studied at the Philadelphia Academy of Music with the renowned Lucia Albanese and at the Curtis Institute with Margaret Harshaw.

Tickets are on sale at the Eisenhower Auditorium box office or at the HUB booth weekdays from 9 a.m. to 4 p.m. Phone orders on MasterCard/Visa may be placed by calling 863-0255 on the days of the sale.

Memorial fund set up to honor Harold Johnson

A memorial fund has been established to honor the late Harold H. Johnson, associate professor of general engineering at Mont Alto and a long-time member of the University Faculty Senate. Professor Johnson died suddenly last summer.

Contributions to the fund will be added to an endowment, the income from which will support a scholarship at the Campus.

Checks should be made out to the University, marked Harold H. Johnson Memorial Fund, and sent either to Mont Alto Director Vernon L. Shockey or to the Office of Gifts and Endowments, Room 116 Old Main, University Park.

APR, and dividends are presently being paid at 7 percent compounded quarterly. A 1 percent interest rebate was also declared for the year 1980.

The Credit Union's office is open from 10 a.m. to 3:30 p.m. Monday through Friday in the Telephone Building at University Park.

Museum director will discuss Dutch painting

"Dutch 17th Century Painting Seen through the Eyes of the Foreigner" is the title of a talk that will be given by Dr. Maarten Wurfbaan, director of the Lakenhof Museum in Leiden, the Netherlands, at 5 p.m. Friday, Jan. 16, in Room 230 Arts Building.

Dr. Wurfbaan's visit to the University is being sponsored by the Department of Art History. His lecture, which is part of a course in Dutch painting, is open to the public.

Alard concert Jan. 21

The Alard String Quartet's first concert of 1981 will be presented at 8:30 p.m. Wednesday, Jan. 21, in the Music Building Recital Hall.

The three works selected for the program are Haydn's Quartet in C Major, opus 1 No. 6; the Quartet No. 2, opus 92 by Sergei Prokofiev; and Beethoven's Quartet in F Major, opus 18 No. 1.

The Alard String Quartet is composed of violinists Joanne Zagst-Feldman and Donald Hopkins, violist Raymond Page and cellist Leonard Feldman.

Singers' performance praised

The Penn State Singers, led by Professor Raymond Brown, presented a concert last month with the Harrisburg Symphony Orchestra. They sang two Bach works, Cantata No. 140, "Wachet Auf, Ruft uns Die Stimme" and the Magnificat in D Major. Harrisburg's paper, *The Evening News*, praised the group's "total quality, adding that the Singers lived up to their name of being one of the best college vocal ensembles anywhere."

VADD premiums increase; new benefit offered

Effective Jan. 1, the more than 9,000 faculty and staff members who participate in the University's Voluntary Accidental Death and Dismemberment insurance program will have their premium payments reduced. In addition to this, a new maximum benefit of \$200,000 will be available. The new rates are as follows:

Type of Coverage	Monthly Rate		Biweekly Rate	
	Employee Only	From	To	From
Type of Coverage	\$ 10,000	.41	.38	.19
	25,000	1.03	.95	.48
	50,000	2.05	1.90	.95
	100,000	4.10	3.80	1.90
	150,000	6.15	5.70	2.85
	200,000	—	7.60	—
Employee and Dependents	\$ 10,000	.63	.60	.29
	25,000	1.58	1.50	.73
	50,000	3.15	3.00	1.45
	100,000	6.30	6.00	2.90
	150,000	9.45	9.00	4.35
	200,000	—	12.00	—

Because of the new reduced rates and the availability of a new maximum benefit of \$200,000, another enrollment period will be provided during the month of January for all faculty and staff members, whether or not they are currently participating in the program. During this period anyone may take one or more of the following actions: (1) change the dollar amount of coverage, (2) change from individual to family coverage or vice versa, (3) enroll in the plan as a new member, or (4) withdraw from the plan.

In order to make any change in the VADD coverage at this time the faculty or staff member should obtain a VADD enrollment form from his or her Personnel Representative or Business Manager, complete it and return it to the Employee Benefits Division, Room 133 Willard Building, prior to Feb. 1. The changes will be in effect from that date. Only persons who wish to make a change should complete the enrollment form.

'Cow College' image revised by University historian

The growth of Penn State has always been linked in the public's mind with prowess in agriculture, but a new study of the University's formative years has determined that it was really never a "cow college."

Indeed, within 31 years after the arrival of the first class in 1859, 75 of the 126 undergraduates in residence were working toward degrees in engineering.

This "revisionist" view of the University's history was presented recently by Dr. Michael Bezilla to the annual meeting of the Pennsylvania Historical Association. Dr. Bezilla has been commissioned by Penn State to prepare a new history of the University and has just completed a history of the College of Engineering.

"Pennsylvania history textbooks that make more than passing reference to Penn State," Dr. Bezilla pointed out, "invariably place its development in the 19th and early 20th centuries almost exclusively within the context of the rise of scientific agriculture."

This misconception on the part of both the public and of professional historians is attributed by Dr. Bezilla to several factors. First, the name given the institution at its founding was The Farmers' High School. Second, the rural setting perpetuated the impression. And finally, the "ag school" image was sustained by a misunderstanding of the aims of the Morrill Land Grant Act of 1862.

"The Morrill Act," Dr. Bezilla explained, "is frequently remembered — possibly because of the very words 'land grant' — as fostering work exclusively in agricultural education and research. In reality, the Morrill Act specified that the fundamental goal of all land grant

institutions 'shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts.'"

Even Pugh, the institution's first president and a vigorous supporter of the Morrill Act, proclaimed that his school's long-range objective was "to associate a high degree of intelligence with the practice of agriculture and the industrial arts."

Pugh's early death in 1864 "dealt a serious blow to efforts to begin a course of studies in engineering," according to Dr. Bezilla. Of the five presidents who succeeded him during the next 17 years, only John Fraser (1866-68) attempted to introduce any engineering courses, and his efforts were stymied by the College's financial troubles.

"The late 1860s and 1870s were years of drift and indecision at the College," Dr. Bezilla pointed out, "and its leaders seemed to ignore the Morrill Act's call for utilitarian education. From an emphasis on agriculture, the College turned toward more general studies and by the mid-1870s had come to resemble those classical institutions whose lack of offerings in practical subjects had made the land grant legislation so necessary."

Dr. Bezilla noted that by 1880, the College had only 56 undergraduates, and the legislature had refused to supplement the modest income from the land grant endowment. A faculty member characterized the school in 1881 as "the laughing stock of the state. As an industrial college we are a failure. When the complaint is made that we do so little for agriculture, the reply is that we are no longer exclusively agricultural."

Unfortunately, we are not anything in particular."

This period of drift and indecision, Dr. Bezilla commented, was by no means unique to Penn State. "With the exception of a few well-endowed schools such as Cornell, most land grant colleges and universities . . . made slow progress in conforming to the mandate of the Morrill Act." Dr. Bezilla noted that engineering at this time was taught primarily in private institutions. In Pennsylvania, these included Lehigh and the Polytechnic College of the State of Pennsylvania — the latter, a Philadelphia school which had attempted to secure land grant designation for itself in the 1860s. Lafayette College, the Western University of Pennsylvania (which became the University of Pittsburgh) and several other schools offered engineering instruction sporadically.

The impetus for degree studies in engineering at Penn State came from a group of faculty members and was finally accepted by the Board of Trustees in April 1881. The following year, a new president with a commitment to the promotion of engineering studies arrived on the scene in the person of George W. Atherton.

The first program in civil engineering was joined by mechanical engineering in 1886. Electrical engineering — which developed out of a course of study in "electrotechnics" in the physics department — became a department in 1893, the same year a curriculum in mining engineering was begun. The School of Engineering and the School of Mines were both inaugurated in 1895.

"As President Atherton had anticipated, the introduction of engineering had an almost miraculous effect on the College's

sagging fortunes," Dr. Bezilla reported.

"The number of students attending Penn State climbed steadily from 56 undergraduates in 1860-61 to 126 in 1890. 91, 75 of whom were working toward degrees in engineering. A decade later, 341 undergraduates were in residence, with about two-thirds enrolled in engineering courses. The Department of Electrical Engineering alone usually accounted for more students than all the non-engineering departments combined."

Dr. Bezilla added that by the turn of the century, the School of Engineering was the largest in the Commonwealth — "hardly the hallmark of a purely or even chiefly agricultural institution. In fact, in contrast to engineering's growth, only a few students elected to study agriculture. In only one year between 1880 and 1900 did the number of undergraduates in the agricultural course rise above 15."

This pattern continued. In 1906-1907, of the 743 undergraduates in residence, 608 were engineering majors.

Still another contribution of engineering studies, according to Dr. Bezilla, was the lift it gave Penn State in public esteem and internal tranquility.

"Many of the non-engineering curriculums — education, home economics, commerce and finance, arts and letters, to name a few — gained popularity only after the institution had won a measure of grass roots support throughout the Commonwealth and after it enjoyed a long period of stability following the turmoil that plagued it during the first 30 years of its life."

"In this sense and in the ways already discussed, Penn State was far more than an agricultural school after 1880," Dr. Bezilla concluded.

Behrend scholar finds certain similarities in viewpoints held by Blake and Freud

On the surface, it may appear that William Blake and Sigmund Freud — both luminaries in their respective domains — would have too little in common for treatment in a single scholarly work.

Blake, after all, was an 18th century British poet and artist, and Freud a 19th century Austrian neurologist and founder of psychoanalysis.

However, Dr. Diana Hume George, assistant professor of English at Behrend College, says that the two men do indeed have much in common, for "their views of the structure of the mind are very similar."

And Dr. George can support her thesis: Her new book, *Blake and Freud*, has been nominated for a 1981 Pulitzer Prize.

Published by Cornell University Press several months ago, Dr. George's book has been eulogized in the category of "a distinguished book of non-fiction by an American author, giving prime consideration to high literary quality and originality."

"Essentially, I have reversed the roles of

history," Dr. George explains, adding that in her book she examines Blake as a psychoanalyst and Freud as a poet.

"It is a process of translating from the language of poetry into the language of psychoanalysis and vice versa," she says, "with the result being that both men are actually expressing many of the same ideas."

For example, Dr. George observes that Blake's poetic characters portray the same mental processes — such as those associated with the Oedipus complex — that Freud developed in his theories of psychoanalysis.

"Both men had a visionary sense of the need to unite opposites in order to resolve the self-destructive tendency to dualize experience — such as mind and body, sexuality and eroticism, wish and fear. Both treated as if any set of structures that we realize as dualisms have a common source deep in the psyche," she comments.

Remarkably that her book "initially began as a feminist study," Dr. George

Dr. George

says that she undertook the project as a result of her desire to find out more about Freud, a man she once believed had little to offer the feminist movement.

"Now, I believe that properly interpreted, Freud can be of great value to feminists," she says, adding that "likewise, Blake's ideas about gender are

revolutionary, witty and appealing — both politically and intellectually."

In fact, Dr. George is currently working on a sequel, *Woman in Blake*, for which Cornell Press has first rights. To support her independent research while writing the book, the National Endowment for the Humanities has awarded her a grant for the 1981-82 academic year.

She is also writing a book about 18th century Massachusetts gravestones, and she points out that this work, too, is motivated by her interest in "opposites in the relationships between life and death as reflected on the tombstones."

A third work in progress is *The Zeal of Her House: A Study of Anne Sexton's Poetry*, a project that has occupied Dr. George off and on for seven years and which is "at least as important" to her as *Woman in Blake*.

A frequently published poet and teacher specializing in creative writing, Dr. George has been a member of the Behrend faculty since 1978. She received the B.A. and M.A. degrees in English in 1971 from the State University of New York College at Fredonia. She also holds a second master's degree and a doctorate in English literature (1977 and 1979) from SUNY-Buffalo.

Penn State Intercom

Names sought for '81 awards

The University community is invited to submit nominations for three all-University awards which will be presented during 1981. They are the AMOCO Foundation Outstanding Teaching Awards, the Christian R. and Mary F. Lindback Award for Distinguished Teaching, and the Raymond R. DiMeo Award for Instructional Improvement.

Nominations should be sent to college deans and campus directors. They, in turn, will submit official nominations from their units to the Vice President for Undergraduate Studies by March 15, 1981.

Four AMOCO awards, recognizing excellence in teaching performance in the undergraduate program by senior faculty members, will be presented. At least two of the awards will be made to professors at campuses other than University Park.

To be eligible for nominations, a faculty member must have a minimum of three years of service; have undergraduate teaching as a major portion of his or her assigned duties; and hold the rank of assistant, associate or full professor.

Candidates for the Lindback Award must be tenured faculty members, with a minimum of five years of Penn State service. Undergraduate teaching should be a major portion of the assignment of the nominee, who should also be young enough to have many productive years of teaching ahead.

The DiMeo award recognizes activities by a faculty member, beyond classroom teaching performance per se, that have made a significant contribution toward improving undergraduate instruction. These activities may be directed toward the processes, materials or environments of instruction, may focus on either students as learners or faculty as instructors and may affect courses or programs of study. Evidence of improvement should reflect changes in the motivation, attitudes or skills of students as learners or faculty as instructors; changes in the outcome of instruction — knowledge, values, understanding, judgment or competencies — or changes in the use of instructional resources — faculty and activities.

Classroom group asking for input

The University's Classroom Committee, currently chaired by Donald W. Johnson, associate professor of education and director of the University Division of Instructional Services (UDIS), reports jointly to Robert Dunham, vice president for undergraduate studies, and Ralph Zilly, vice president for business. The general purpose of this group is to assist the teaching faculty by providing classrooms that are optimum in size and condition and equipped to meet the instructional needs of faculty and students.

Specifically, the committee is asked to review, on a regular basis, University classrooms and instructional facilities to assure an effective instructional environment and to forward recommendations for action to appropriate offices and committees.

This group is responsible in

Brown to discuss world in the '80s Jan. 27

"National Security and the International Crisis: the World in the 1980s" is the title of an address to be given by Harold Brown, his first since leaving his post as Secretary of Defense. He will speak Tuesday, Jan. 27, at 8:15 p.m. in Eisenhower Auditorium.

President Oswald will introduce Dr. Brown, whose appearance is being sponsored by the Office of International Student Affairs and Colloquy.

Dr. Brown was nominated by President Jimmy Carter to be Secretary of Defense and took the oath of office Jan. 21, 1977. Prior to that, he had held a succession of important posts in government and education.

A physicist who earned his doctorate at Columbia University, Dr. Brown was named director of the E.O. Lawrence Radiation Laboratory at Livermore, Calif., in 1960 after serving as a research scientist and in various intermediate management positions there.

He was a member of the Polaris Steering Committee from 1956 to 1968, a member of the Air Force Scientific Advisory Board from 1956 to 1961, and a consultant to and then member of the President's Science Advisory Committee from 1958 to 1961. He was senior science adviser at the

Dr. Brown

Conference on Discontinuance of Nuclear Tests in 1958-59 and a delegate to the Strategic Arms Limitation Talks in Helsinki, Vienna and Geneva, beginning in 1969.

In 1961, Dr. Brown became Director of Defense Research and Engineering, a post he held until 1965 when he was named Secretary of the Air Force. After four years in the position, he returned to California to

serve for eight years as President of the California Institute of Technology.

He has received honorary degrees (D. Eng., LL. D., and Sc. D.) from Stevens Institute of Technology, Long Island University, Gettysburg College, Occidental College, the University of California, the University of Rochester, Brown University, the University of the Pacific, and the University of South Carolina.

Dr. Brown was named one of the Ten Outstanding Young Men of the Year by the U.S. Junior Chamber of Commerce in 1961. In the same year he received the Navy Distinguished Civilian Service Award. In 1963, he was awarded the Columbia University Medal of Excellence. In 1969, he was awarded the Air Force Exceptional Civilian Service Award and the Department of Defense Award for Exceptionally Meritorious Service. He received the Joseph C. Wilson Award in International Affairs in 1976 and an award for Distinguished Contributions to Higher Education from Stony Brook Foundation, N.Y., in 1979.

He is a member of the National Academy of Sciences, the National Academy of Engineering, and the American Academy of Arts and Sciences.

News in Brief

Panelists to discuss Reagan and Latin America

"Reagan and Latin America" is the subject of a panel discussion tonight (Jan. 22) at 7:30 p.m. in Room 101 Chambers Bldg.

Panelists include Dr. Charles D. Ameringer, professor of Latin American history; Dr. John D. Martz, professor and head of the Department of Political Science; Dr. David J. Myers, associate professor of political science; and Dr. John S. Nichols, assistant professor of journalism.

Dr. Terry J. Peavler, associate professor of Spanish and comparative literature, will moderate the panel, which is being sponsored by the Latin American Forum.

UDIS workshop offered

"Instructional Congruency" will be the subject of a 2½-hour workshop to be conducted by George Benscoter, a member of the Instructional Improvement team at the University Division of Instructional Services.

Two presentations will be offered, the first on Tuesday, Jan. 27, and the second on Wednesday, Jan. 28. Both sessions will start at 1:30 p.m. and be held in Room 128 Mitchell Building.

The main objectives of the workshop are to:

1. provide an opportunity for assessing the degree to which individual teachers practice congruency among objectives, strategies and evaluation.
2. discuss some of the instructional "games" instructors may unwittingly be playing with their students,
3. recognize some of the roadblocks to achieving congruent course design,
4. participate in small-group working sessions designed to evaluate case studies involving instructional congruency, and

(Continued on page 4)

IFS program ranks high nationally

While behavioral and social scientists have long been interested in studying how people develop and change from infancy through old age, only in recent years have American universities established formal academic units concerned with the process.

At Penn State, this assignment is the province of the Individual and Family Studies Program (IFS) in the College of Human Development; and, according to Head Fred W. Vondracek, IFS is one of the best programs in the country.

This is not well known within the Penn State community, however; in part, Dr. Vondracek believes, because the study of life-span development is of recent origin. Unlike more traditional disciplines such as chemistry or psychology, the definition and boundaries of the field are still emerging.

But nationally recognized authorities are not shy about acknowledging Penn State's contributions. Says Dr. K. Warner Schaie, a distinguished gerontologist and associate director of the Andrus Gerontology Center at the University of Southern California: "If I had a student interested in graduate work in life-span human development, Penn State is among the top five schools to which I would consider sending him. Penn State's program is known for its methodological innovations and an extremely productive faculty."

"It is one of the few departments that has a serious commitment to strong research and training in all phases of the life-span."

"I think we have tried very hard to become the top program in the country," says Dr. Vondracek. "If we're not there yet, we're very close."

The goal of Penn State's IFS program (and its graduate component, Human Development and Family Studies) is to expand knowledge about the development and functioning of individuals, small groups and families. It also focuses on improving methods for studying the processes of human development/change

and on creating improved techniques and strategies to enhance individual and family functioning.

"Our philosophy is that applied, interdisciplinary research and training are needed to complement the discipline-oriented research carried out in traditional departments," Dr. Vondracek emphasizes.

"The processes and problems of human growth and change are seldom purely social, purely psychological or purely biological," he adds. "We believe that they can be studied only through an integration of these perspectives. I think it's fair to say that not only IFS, but the College of Human Development, has occupied a role of national leadership along with other well-regarded programs — Cornell's for instance — in implementing this interdisciplinary orientation."

Penn State's IFS faculty is in the vanguard of theoretical and methodological work on life-span development. The traditional view of human development states that adulthood is shaped largely by childhood experiences. This was supplanted in the early and mid-'70s by a new school of thought, subsequently popularized in Gail Sheehy's *Passages*, that adults go through predictable life stages; that development does not end with the onset of maturity.

But newer theories, to which many Penn States have contributed, argue that development is a bit more complex. A *Newsweek* article (8/11/80) quoted Dr. Paul Baltes, then professor of human development at Penn State (he is now associate director of the Max Planck Institute in Berlin), as saying: "As people grow older, they become more and more different from one another, so that age means less and less as a determinant of character and behavior."

The article continues: "In their own highly influential model for human development, Baltes and his colleagues distinguish among three kinds of

(Continued on page 4)

Penn Staters

Dr. Robert LaPorte Jr., professor of public administration, delivered a series of lectures on public administration in developing countries and economic development administration in Burma and Pakistan during November and December. His lecture tour was sponsored by the U.S. International Communication Agency. This is the second lecture tour he has undertaken for USICA in recent years as part of the Agency's American Participants in International Communication program. This program is designed to "stimulate exchanges of ideas between selected foreign audiences and leading American authorities in a wide variety of fields." His last lecture tour took him to Bangladesh and Sri Lanka.

Dr. Rodrigue Mortel, professor of obstetrics and gynecology and chief of gynecologic oncology at Hershey, has been installed as president of the Society of Memorial Gynecologic Oncologists. He served also as visiting professor at George Washington University, presenting three talks entitled "Sex Steroid Receptors in Human Endometrium—Clinical Applications in Gynecology and Gynecologic Oncology," "Factors Affecting Survival in Cervical Cancer," and "Current Concepts in the Management of Patients with Epithelial Carcinoma of the Ovary."

Dr. William Lowe Boyd, professor of education in the College's Division of Education Policy Studies, presented an invited paper at Peabody College of Vanderbilt University. Dr. Boyd's paper, "Recent Trends in the Study of Educational Administration: Policy Analysis as a Unifying Framework," was part of Peabody's educational administration seminar series.

Paul West, professor of English and IAHS Fellow, recently served as judge for the Heinz Fiction Prize, offered by the University of Pittsburgh, and also gave a reading from his own fiction in the Cathedral of Learning. On Nov. 12, Professor West was present, as a guest of NASA, at the Jet Propulsion Laboratory, Pasadena, to witness the images sent by Voyager I from Saturn.

His most recent novel, his ninth, *The Very Rich Hours of Count von Stauffenberg*, was published recently to excellent reviews. Essays on his work have recently appeared in *World Authors* and *Contemporary Novelists of the English Language*, and a further one will appear in the series, *The Dictionary of Literary Biography*.

Keith E. Roe, Life Sciences librarian, is co-author of *Dictionary of Theoretical Concepts in Biology*, published recently by Scarecrow Press, Metuchen, N.J. This new reference book serves as a citation index to the named theories of biology, leading users to discussions in the literature of concepts from a Selection to the Zymase Hypothesis. Concept names may be eponymic, such as the Pasteur Effect or Mendel's Laws, while others are colorful or humorous but mnemonic, such as Primordial Soup, the Red Queen Hypothesis, the Losing-your-marbles Theory, or the You-first Principle. Some 1166 named concepts plus their synonyms are included.

Promotions

Staff Exempt

Sally M. Farr to accountant at Hershey.

Robert E. Miller to senior accountant at Hershey.

James T. Rohacek to supervisor, hospital budgets at Hershey.

Staff Non-Exempt

Elen M. Cak to senior staff nurse at Hershey.

John J. Givler to purchasing agent in Applied Research Laboratory.

Alan E. Parker to electron microscopist at Hershey.

Clerical

Donna L. Alexander to senior clerk at Ogontz.

Patricia M. Alters to secretary A in Agriculture.

Ruth Brooks to secretary B in Human Development.

Judith E. Buttorff to secretary B in Liberal Arts.

Bonnie G. Cain to clerk typist A in Science.

Lillian D. Garbrick to clerk processing A in Libraries.

Connie L. Gearhart to accounting clerk in Liberal Arts.

Beverly M. Hosband to secretary A in Education.

Jeannette L. Hurd to clerk A in Business Services.

Cynthia L. Miller to secretary B in Controller's Office.

Vera M. Williams to clerk typist A in Agriculture.

Technical Service

Donna J. Bushman to patient service aide at Hershey.

25-year chairs

Brungart

Pettigill

When Dean A. Brungart's 25-year award ceremony was scheduled, it was important that it didn't conflict with the first day of hunting season. For Mr. Brungart, the winter months are the time for deer hunting and this year's held the reward of a seven-point deer.

During the summer months, Mr. Brungart can be found fishing on either Penns Creek or Elk Creek. An avid sports fan, he enjoys high school wrestling meets and attends Penn State home football games.

From 1952 until 1967, Mr. Brungart was employed as a janitor in West and East Halls. He worked briefly for Corning Glass, returning to work as a janitor in Housing. In 1968, Mr. Brungart became a clerk in the Lending Services Department of the University Libraries and in 1971 was promoted to his present position as senior clerk.

In his job, Mr. Brungart is responsible for training and supervising students who help maintain the stacks. Last Fall, he trained 39 students — "the biggest turnout" since he started in Lending Services.

Mr. Brungart and his wife, Janice, a secretary in the Periodicals Room in Pattee, reside in Madisonburg. They are the parents of a daughter and a son.

Eva Rose Pettigill, according to her supervisor John Meredith, is the kind of employee who has to be forced to take her vacation time. "Even a full scale blizzard won't keep her from coming to work," he adds.

A shipping clerk who works for Audio Visual Services in Continuing Education, Mrs. Pettigill has completed her 25th year at Penn State. She's not up to the record of her husband, Donald, however, she notes. He retired about five years ago after 35 years of service as a food supervisor.

The Pettigills have a married daughter, Patricia Lockhart, and three grandchildren.

Mrs. Pettigill has a favorite hat which she like to wear, and Mr. Meredith says her co-workers kid her about her "Minnie Pearl" used hat special. "We've told her we're thinking about getting her another hat to wear for the next 25 years," he jokes.

Anybody There?

Persons interested in individual and team research projects in the field of Black Studies are invited to attend a symposium series being conducted during the present Winter Term and in Spring Term by the Black Studies Program. "New Directions in Black History" is the topic for the Feb. 19 meeting, with Cyril Griffith and Virginus Thornton the speakers.

Faculty members interested in sharing their research with forum participants or in developing proposals for outside funding should contact: **Dr. James B. Stewart**, Director, Black Studies Program, 865-0458.

Partings

Pixton

Dunkel

Helen L. Dunkel, secretary in the office of the Dean for Research and Graduate Studies, College of Education, retired Jan. 1.

Mrs. Dunkel, who notes that she has performed "all sorts of secretarial duties all around the campus," began her University tenure in June 1953 as a secretary in Continuing Education. She has also worked as a secretary for the Departments of Art and Vocational Education.

Of her retirement plans, Mrs. Dunkel says she and her husband, Lee — a clerk in the biochemistry storeroom in Frear Laboratory — intend to travel, their initial plans including a trip to Florida. In addition, she is looking forward to sewing, "just relaxing" and possibly taking a part-time job.

The Dunks have two daughters, Cindy and Donna, both residents of State College. Cindy received her B.A. degree in art education from the University last May, and Donna (Quaranta) has a son, the Dunks' first grandchild.

Although **Dr. John E. Pixton**, associate professor of history at the Ogontz Campus, officially retired Dec. 31, any real reduction in his activities is most unlikely.

Dr. Pixton is one of the State's most avid cyclists. Chairman of the Bicycling Federation of Pennsylvania, a lobbying group, and master's champion for the 1976 time trial of the U.S. Cycling Federation, his enthusiasm for the sport has taken him pedaling throughout this country and Europe. And he continues to take courses and speak extensively on bicycle racing, touring and safety.

A graduate of Swarthmore College, Dr. Pixton earned his M.A. at the University of Connecticut and his Ph.D. from the University of Chicago.

He came to Penn State at University Park as an instructor in 1954. In 1958, he assumed the position of assistant director for resident instruction at the Ogontz Center. A career decision to return to the classroom and to scholarly research resulted in 1966 in a book, *The Marietta and Cincinnati Railroad 1845-1883*. He also published a number of articles, book reviews and poetry.

A Quaker, actively involved in the American Friends Service Committee, Dr. Pixton took leaves of absence for non-salaried positions as a field director of refugee programs in Morocco and Algeria. He learned Vietnamese, and in 1967 became director of prosthetics in the provincial capital of Quang Ngai, near the war zone of Da Nang.

Dr. Pixton's retirement plans include Ogontz, where he has volunteered to teach a one-credit bicycle safety course. He'll also remain an active member of the Ogontz Speakers Bureau, and he intends to tackle some creative writing projects.

Obituaries

David H. Rank, Evan Pugh professor emeritus of physics and a pioneering giant in the fields of spectroscopy and optics, died Jan. 17 at the age of 74. Dr. Rank published 175 papers in major physics publications before retiring in 1972 after 38 years on the faculty, eight of them (1964-1972) as head of the Department of Physics.

In 1969, he received the American Optical Society's Frederic Ives Medal "in recognition of his outstanding contributions to the fields of atomic and molecular spectroscopy, for his pioneering investigations in Raman and Brillouin scattering, for his many inventive experiments in optics involving a thorough understanding of both theory and experiment and for the guidance he has supplied to scores of students, to each of whom he has provided inspiration and a sense of integrity."

Best known among his colleagues for his work in high-precision infra-red spectroscopy, Dr. Rank devised methods for interferometric wavelength measurements which vastly improved precision in this field.

His work in Raman spectroscopy — the science of identifying gaseous and liquid compounds by their effects on light — substituted the use of photomultiplier tubes for slower and less precise photographic plates, an advance that made this area of science one of great power and precision.

A leader in adapting the laser to spectroscopy, Dr. Rank and his associates discovered in 1962 that the so-called inert gases — argon and krypton — thought for centuries to be resistant to chemical combination, are not inert, but form compounds with the hydrogens and halides.

In the field of Brillouin scattering — related to the scattering of light by crystalline solids — he gave the science a new dimension by applying the continuous wave gas laser.

Born Jan. 2, 1907, in Annville, Pa., Dr. Rank graduated from Lebanon Valley College and came to Penn State as a graduate assistant in 1930, subsequently receiving his M.S. and Ph.D. degrees before joining the faculty.

Richard W. Grant, who served as professor and head of the Department of Music and director of the College Choir and Glee Club from 1922 to 1942, died Jan. 16 at the age of 94.

Among his contributions to Penn State were the establishment in 1929 of the four-year music education curriculum, the organizing of a Summer Session Institute of Music Education, and of the Summer Band, Orchestra and Chorus School for the training of high school music students.

George D. Gummo, a group leader in the landscape construction operation of the Office of Physical Plant, died Jan. 11. A native of Buffalo Run Valley, he was 87 and had worked at the University from 1945 to 1961.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University.

Jan. 22 — Feb. 1 Special Events

Thursday, Jan. 22
Campus Colleagues meeting, 4:30 p.m., Nursing Consultation Center. Dr. Helen D. Wise, speaker.
Winter Carnival '81" candlelight dinner, 4:45-6:45 p.m., HUB Terrace Room.
Caennatque, Okamoto, Sword of Doom, 7 and 9:30 p.m., HUB Assembly Hall.
Latin American Forum, 7:30 p.m., Room 101 Chambers. Panel discussion on "Reagan and Latin America" by Charles D. Ameringer, Latin American history; John D. Martz and David J. Myers, political science; John Nichols, journalism; Terry J. Pawler, Spanish.
Penn State Federal Credit Union annual meeting, 7:30 p.m., Room 101 Kern.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Friday, Jan. 23
Board of Trustees meeting, Keller Bldg.
Winter Carnival '81" candlelight dinner, 4:45-6:45 p.m., HUB Terrace Room.
CA Films, *Coming Home*, 7 and 9 p.m., Room 112 Chambers; *The Wizard of Oz*, 7 and 9 p.m., Room 101 Chambers.
SFO Films, *Rebel Without a Cause*, 7 p.m.; *East of Eden*, 9:15 p.m., HUB Assembly Hall.
Sports: swimming and diving (men) vs. Virginia, 7 p.m.; ice hockey vs. Jr. Flyers, 8:30 p.m.
Shaver's Creek Nature Center, "Owl Prowl," 7:30 p.m., Stone Valley.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.
Artists Series, Irene Worth in "Letters of Love and Affection," 8:30 p.m., Schwab Auditorium.

Saturday, Jan. 24
Board of Trustees meeting, Keller Bldg.
Sports: fencing (women) vs. St. Johns and Penn, 9 a.m. and (men) vs. Penn, 1 p.m.; swimming and diving (women) vs. Virginia, noon and (men) vs. Johns Hopkins, 3 p.m.; bowling vs. Erie C.C. and SUNY-Buffalo, 1 p.m.; wrestling vs. Lehigh, 2 p.m.; basketball (women) vs. Edinboro, 5:45 p.m. and (men) vs. Northeastern, 8:10 p.m.
Faculty Women's Club, midwinter coffee in honor of Trustees' wives, 9:30 a.m., Nittany Lion Hall.
"Our Hitler: A Film from Germany, directed by Hans-Jürgen Syberberg. The seven-hour film begins at 11 a.m. in Eisenhower. Tickets go on sale at 11 a.m. in Eisenhower.

Shaver's Creek Nature Center, "Winter Carnival Day," 1-4 p.m., Stone Valley.
Pregeneration, 865-1851.
CA Films, *Coming Home*, 7 and 9 p.m., Room 112 Chambers; *The Wizard of Oz*, 7 and 9 p.m., Room 101 Chambers.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Sunday, Jan. 25
Sports: volleyball (men), Nittany Lion Invitational, 8 a.m.
University Chapel Service for the Week of Christian Unity, 11 a.m., Eisenhower Chapel.
HUB Craft Center, second session classes begin, Room 312 HUB.
Shaver's Creek Nature Center, "Winter Carnival Day," 1-4 p.m., Stone Valley.
Pregeneration, 865-1851.
France-Cinema, *Fellini, La Strada*, 7 and 9 p.m., Room 102 Chambers.
Folklore Society, Square Dance, 7:30 p.m., Walnut Bldg.
UnCommon Theatre, URTC, "Tri-Offenbach," 8 p.m., Room 112 Kern; dessert following production, Room 102 Kern.

Monday, Jan. 26
France-Cinema, *La Strada*, 7 and 9 p.m., Room 112 Kern.
Sports: basketball (men) vs. Loyola, Md., 8:10 p.m.
Tuesday, Jan. 27
School of Music, master piano class and lecture, 9:30-11:30 a.m. and 1-3 p.m., Music Bldg.
Recital Hall, Jerome Rose, Bowling Green Univ. speaker. Information, Steven Smith, 865-0431.
Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 204 HUB. Bhondradatt Tewarie, comp. lit., no charge.
V.S. Naipaul: A Brutal Third World Vision.

Irene Worth

UDIS, workshop on "Instructional Congruency," 1:30 p.m., Room 128 Mitchell. Reservations, 863-0668.
Comp. Lit. Film Series, *Identification Marks*: None, 7 p.m. only, Room 112 Kern.
Artists Series film, *Phantom of the Opera* (1925), 8 p.m., Schwab Auditorium.
Philosophy Dept. Dorrer Lecture, 8 p.m., Room 174 Willard. Charles D. Parsons, Columbia Univ., on "Intuition and the Concept of Number."
Colloquy/International Student Assn. lecture, 8:15 p.m., Eisenhower Auditorium. Former Secretary of Defense Harold Brown, on "National Security and International Crisis in the World of the '80s."

Wednesday, Jan. 28
UDIS, workshop on "Instructional Congruency," 1:30 p.m., Room 128 Mitchell. Reservations, 863-0668.
Sports: basketball (men) vs. Colgate, 8:10 p.m.

Thursday, Jan. 29
Deadline for submitting reserve reading lists for Spring Term 1981. Reserve Reading Room, W11 Pette.
STS/TCO luncheon, noon; presentation, 12:20 p.m., Room 101 Kern. Daniel Walden, American studies, on "Into the Future: A New Look at C.P. Snow."
Cinemahedge, Trumbull, *Silent Running*, 7 and 9 p.m., HUB Assembly Hall.
Robeson Center, Germantown Theatre Guild, *Sojourner*, based on the life of Sojourner Truth, 8 p.m., Walnut Bldg.
Sports: wrestling, Athletes in Action, 8 p.m.

Friday, Jan. 30
Cinemahedge, *Silent Running*, 7 and 9 p.m., HUB Assembly Hall.
Commonplace Theatre, *What's Up Tiger Lily?* 7 p.m., The Front, 9 p.m., Room 112 Kern.
CA Films, *Wait Until the Dark*, 7 p.m., Nottotown, 9 p.m., Room 101 Chambers.
Fantastic Animation Festival, 7 and 9 p.m., Room 112 Chambers.
IFC Dance Marathon, 7 p.m.-7 p.m., Sunday, White Bldg.
Sports: gymnastics (men) vs. Southern Connecticut (women) vs. Massachusetts, 8 p.m.; ice hockey vs. West Chester, 9:30 p.m.
Nottotown, 9 p.m., Room 101 Chambers.
Music Bldg. Recital Hall.
Student Foundation for the Performing Arts, Charles Place in Young Mr. Douglas, 8:30 p.m., HUB Ballroom.

Saturday, Jan. 31
Sports: bowling, Lions Pride-Penn State Invitational, through Sunday; fencing (women) vs. Navy, Hofstra and California (PA), 9 a.m.; rifle vs. St. Johns, 10 a.m.; basketball (women) vs. West Virginia, 5:45 p.m. and (men) vs. Westminster, 8:10 p.m.; ice hockey vs. Baltimore Blazers, 10:15 p.m.
Shaver's Creek Nature Center, "Winter Carnival Day," 1-4 p.m., Stone Valley.
Pregeneration, 865-1851.

France-Cinema, *Bunuel, Phantom of Liberty*, 7 and 9 p.m., Room 112 Kern.
CA Film, *Wait Until the Dark*, 7 p.m., Nottotown, 9 p.m., Room 101 Chambers.
Fantastic Animation Festival, 7 and 9 p.m., Room 112 Chambers.

Sunday, Feb. 1
Sports: basketball (men) vs. New Hampshire, 2:10 p.m.; ice hockey vs. Baltimore Blazers, 8 p.m.
Commonplace Theatre, *What's Up Tiger Lily?* 7 p.m., The Front, 9 p.m., Room 112 Kern.

Seminars

Thursday, Jan. 22
Computer Science, David Maier, SUNY/Stony Brook, on "DAGs as Lattices," 4 p.m., Room 325 Whitmore (new listing).
Statistics, J.K. Ord, Univ. of Warwick, England, on "Forecasting Epidemics," 4 p.m., Room 62 Willard (new listing).

Friday, Jan. 23
Analytical Chemistry, Joanne Recchia, grad. student, on "Ruthenium-Histidine Complexes as Structure Probes in Proteins," 11:10 a.m., Room 333 Whitmore.
Physical Chemistry, Milton Cole, physics, on "Superficial Chemistry Probed by Atomic Beam Scattering," 2:30 p.m., Room 333 Whitmore.

Tuesday, Jan. 27
Biology, Martha L. Blair, Univ. of Rochester School of Medicine and Dentistry, on "Neutral Control of Renin Release," 11:10 a.m., Room 8 Mueller Lab.

Environmental Pollution Control, Edward Trest, borough manager, Mylesstown, Pa., on "Protecting Citizens Rights in the Allocation of Wastewater Treatment Costs," 2:20 p.m., Room 165 Barnes.
Geosciences, Hu Barnes, geosciences, on "Dynamics of Geothermal and Hydrothermal Systems," 3:45 p.m., Room 22 Deike.
Plant Pathology, Gary Pederson, grad. student, on "Breeding Plants for Insect or Disease Resistance: Similarities and Differences," 3:55 p.m., Room 213 Buckhout.

Thursday, Jan. 29
Chemistry, Gordon Hammes, Cornell Univ., on "Structure and Function of a Membrane-Bound Enzyme: Chloroplast Coupling Factor," 12:45 p.m., Room 333 Whitmore.
Physics, G. Scoles, Univ. of Waterloo, Canada, on "Atomic Beam Scattering from Atoms, Molecules and Surfaces," 3:50 p.m., Room 445 Davy.
Fuel Science, Ashok Maza, Calgon Corp., on "Combustion of Coal-Oil Mixtures," 4 p.m., Room 301 Steidle.
Philosophy, Stanley Rosen, philosophy, on "Dynamics, Energeia and the Megarians," 4 p.m., Room 167 Willard.
Schilling Science and Religion, Chen-Chi Chang, religious studies, retired, on "Impact of Modern Science on Eastern Religious Thought: A Personal View," 7 p.m., Gilpin Room, Nittany Lion Inn. Dinner at 6 p.m., reservations by Tues, Jan. 27, 863-0524.

Friday, Jan. 30
Physical Chemistry, Albert Vannice, chemical engineering, on "Catalytic Behavior of Carbon Supported Iron on the CO Hydrogenation Reaction," 2:30 p.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: Graduate Art Education Student Exhibition, through Jan. 28.
HUB: H. Leroy Harlow, wooden toys, through Jan. 31. Art Alley: Canadian Woodland Indian Art exhibit and sale, through Jan. 31. The Gallery.

Kern Gallery: Fabric Workshop exhibit, through Jan. 29. Sara Berndt, watercolors, and Metal Craft Exhibition, through Jan. 30. Kevin O'Toole, sculpture, through Jan. 31. Sandra Lietzinger, watercolors, and Nancy Ziegenfuss, ceramics, both open Feb. 6.

Museum of Art: European works from the permanent collection; selections from the Pre-Columbian and Oriental collections: "All That Is Glorious Around Us," paintings from the Hudson River School.

Pattee Library: Hicks Ecthrich National Invitational exhibit, recent Corridor Gallery. Dorothy Hook, recent paintings. Lending Services Lobby: Nancy A. Norton and Laveta Butler, stained glass and porcelain, Main Lobby.

Robeson Cultural Center: "The Works of Oliver LaGrone," opens Jan. 25.
Visual Arts Zoller Gallery: Wayne Tiebald exhibit, through Jan. 27. ceramics exhibit, opens Jan. 30.

Arts Roundup

Actress to present program of readings

One of the world's leading classical actresses, Irene Worth, will appear under the auspices of the Artists Series Friday, Jan. 23, at 8:30 p.m. in Schwab Auditorium.

She will present a program entitled "Letters of Love and Affection," consisting of readings from the letters of such luminaries as Lord Byron, Abraham Lincoln, Oscar Wilde, Helen Keller, and Albert Einstein. Her program was originally created for the Pierpont Morgan Library in New York to mark an exhibition of letters from his archives.

Although Miss Worth is closely identified with Britain's classical theatre and has received Britain's Best Actress Awards for theatre, film and television, she is an American. Born in Nebraska, she made her Broadway debut in 1943 in *The Two Mrs. Carrills*, and then moved on to London. In her first season at the Old Vic, her portrayals of Desdemona in *Othello* and of Helena in *A Midsummer Night's Dream* drew acclaim from both critics and audiences.

Among her triumphs, Miss Worth can boast of two Tony Awards, one for her performance as Alice in Edward Albee's *Tiny Alice* and one for her portrayal of Princess Kosmonopolis in Tennessee Williams' *Sweet Bird of Youth*. She also received the Evening Standard Award for her performance in *Suite in Three Keys*, a trilogy of plays which Noel Coward wrote especially for her. In 1977 she received the Drama Desk Award for her portrayal of Madame Ranevskaya in Chekhov's *The Cherry Orchard* at Lincoln Center.

Tickets for Miss Worth's performance are on sale through Friday, Jan. 23, from 9 a.m. to 4 p.m. at the Eisenhower Auditorium box office and the Artists Series HUB booth. Phone orders on MasterCard/Visa may be placed by calling 863-0255 during the days of the sale.

Seven-hour screening of 'Our Hitler' planned

Serious students of the cinema will have an opportunity to view a special seven-hour screening of Hans-Jürgen Syberberg's *Our Hitler: A Film from Germany*. The Department of Theatre and Film will bring the film to Eisenhower Auditorium Saturday, Jan. 24.

When *Our Hitler* premiered in New York last January, it was hailed by the critics. Susan Sontag called it "one of the great works of art of the 20th century."

Syberberg has synthesized Brechtian materialism and Wagnerian mysticism into what he describes as "the horror dream of a child," according to film instructor William Uricchio. The director foregoes traditional narrative and documentary structure and employs a combination of actors, puppets, stage sets and newsreel clips in his effort to isolate the essence of a historical moment.

Our Hitler is composed of 22 "chapters," arranged in four parts. There are a multitude of cross-references to other works of the cinema, as well as to literature, art and music. Writing in the *Village Voice*, critic J. Hoberman concluded that the film "defies superlatives. Part illustrated lecture, part symphony, part circus sideshow, part fever dream, it is a prolux, extravagant, staggering work... astonishingly adequate to the magnitude of its theme."

Tickets for the film are \$10 and go on sale at the Eisenhower Auditorium Box Office at 11 a.m. on Jan. 24. There are no advance sales and no reservations. The film will

(Continued on page 4)

Arts roundup

(Continued from page 3)

begin at 1 p.m., with a 1½-hour intermission approximately half-way through the screening.

Any one desiring further information should call 865-1884.

Indian art at HUB

A rare glimpse into the culture of Canadian Woodland Indians — as well as a chance to purchase unique Indian art — is being offered in the HUB Gallery, where a Canadian Woodland Indian Art Exhibit and Sale is featured through Jan. 31.

Included in the exhibit are paintings and silk-screen prints by 11 Indian artists, including Norval Morrisseau, an Ojibway Indian from Beardmore, Ontario. It was Mr. Morrisseau who in 1957 first defined the ancient taboos of his people by depicting their sacred tribal myths when a vision placed him under the direction of The Thunderbird, an Ojibway deity who protected him from the curses of medicine men.

As the HUB exhibit suggests, the Indian painters and silk screeners have created a significant body of contemporary art, rooted in the Woodland Indians' long tradition of intimacy with the environment.

In addition to viewing the exhibit, art lovers may purchase originals and reproductions, which are unavailable virtually anywhere else. The Gallery is open from 11 a.m. to 4 p.m. and from 6:30 p.m. to 9:30 p.m. weekdays, and from 1 p.m. to 6 p.m. on Saturdays and Sundays.

LaGrone exhibit opens

Sculptor, poet and educator Oliver LaGrone will open an exhibition of his work at the Paul Robeson Cultural Center in the Walnut Building Sunday, Jan. 25, at 3 p.m. The exhibition, which includes more than 18 pieces in bronze, marble, alabaster, wood and cast stone, will remain until Feb. 8. Mr. LaGrone will return to talk about his work on Feb. 6.

IFS

(Continued from page 1)

influences. The first, the forces of biology and social environment, are most powerful from birth through adolescence and tend to affect all individuals in a given culture at the same age and in the same way. The second set of influences are events such as wars, economic depressions and epidemics, which affect most members of the same generation in a similar way. Finally, Baltes discerns "non-normative life events" such as divorce and career change—unexpected occurrences in an individual's life. These can happen at any time. Baltes observes, but their impact on behavior is greatest in adulthood and old age.

"Life-span individual development is only one of several major emphases within the Individual and Family Studies program," observes Dr. Vondracek. The program is the focus of an active teaching and research effort. One faculty group has recently made major contributions to the study of domestic violence and the maltreatment of children (Jay Belsky, Robert L. Burgess, Vladimir deLisovsky, James Garbarino) while another group is conducting an active research program on family processes (e.g., Dr. Burgess on patterns of family interaction, Gunhild Hagestad on intergenerational relations, and Ted Huston on the development of intimacy and commitment in heterosexual relations).

Dr. Vondracek notes that 13 IFS faculty members have been elected as Fellows in their national professional associations.

Among other indices of faculty excellence he includes the appointment of Dr. Richard Lerner, associate professor of child development, as a 1980-81 Fellow of

Museum offers show of Hudson River School

"Why should not the American landscape painter, in accordance with the principle of self-government, boldly originate a high and independent style, based on his native resources?"

Asher B. Durand, a guiding force in the Hudson River School of landscape painting, asked this rhetorical question in 1855 to clarify the tenets inspiring him and his fellow painters. A sampling of what resulted from these tenets is on exhibit now through March 22 at the University Museum of Art where 61 paintings are being shown under the title, "All That Is Glorious Around Us: Paintings from the Hudson River School."

The works came from the private collection of an anonymous lender. John Driscoll, formerly of the Museum's staff, is largely responsible for organizing the show.

Mr. Driscoll introduces the work of the School in his preface to the exhibit catalogue. He notes that the appellation "Hudson River School" was originally coined by a critic from the *New York Tribune*, who derided the group's paintings as stodgy and provincial. Today, however, many art historians consider the School the first truly American tradition in painting.

Mr. Driscoll observes that three generations of painters, active from the 1820s through the 1880s, are represented in the School. These artists worked closely together; many lived on or near the Hudson River. Some travelled widely in and beyond this country, but they continued to return to the Hudson River/Catskill area as a source of inspiration.

Commenting on the exhibit, Dr. Roland Fleischer, professor of art history, points out that "expressiveness of scene" and "meticulousness of technique" are the chief hallmarks of the Hudson River artists.

"A growing feeling of American nationalism followed the War of 1812," asserts Dr. Fleischer, "and these artists braggad of our landscape, saying, 'Look how big we are! Look what magnificent nature we have here!'"

the Center for Advanced Study in Behavioral Sciences at Stanford.

Another IFS faculty member, Dr. Safilios-Rothschild, was recently appointed to a five-year term on the International Expert Advisory Committee on Disability and Rehabilitation of the World Health Organization.

Dr. Graham B. Spanier, associate professor of human development and sociology, is editor of the new *Journal of Family Issues*.

Dr. Garbarino won the 1979 Mitchell Prize (\$5,000) for his essay titled: "The Issue Is Human Quality: In Praise of Children."

Dr. Vondracek points out also that IFS faculty members currently serve on the editorial boards of 12 professional journals.

"Others serve, or have served recently, on grant review boards for NIH Behavioral Sciences and Human Development, NSF Social and Developmental Psychology, HEW Research, NIH Human Development Study Section, NIA Aging Review Committee, and the NICHD Mental Retardation Research Committee," Dr. Vondracek says.

Another indicator of excellence is the fact that IFS faculty members have obtained outside funding for research and graduate training, averaging well over half a million dollars for the past five years.

Penn State's IFS program which was formed relatively early in 1965 was

"blessed with strong researchers from the start," Dr. Vondracek says. "We've made a strong commitment to recruiting the best scholars in the country, and we're getting them. Many, in fact, have left positions at leading institutions, or have turned down offers at other prestigious universities, to come to Penn State."

In contrast to the romanticized, intimate landscapes of European painters, the Americans' works were detailed portraits of overwhelming, rugged wildernesses. Human beings included in these paintings served mainly to emphasize mortal insignificance as compared with Nature's omnipotence.

Yet, Dr. Fleischer points out, as the century wore on and the Age of Industrialism held sway, the portrayal of these uninvited wilds also came to represent a form of psychological escapism. And as the School's era ended, the last of the Hudson River painters were already complaining of pollution in the Hudson's waters.

Judith Hansen, of the Museum's staff, characterizes the painters' skilled use of light and color as one of the show's most striking features. "It's a spectacular collection," she says. "It includes the big names, but there are also excellent pictures by lesser known artists, some of which have never been exhibited before."

Represented at the Museum are Thomas Cole, considered the School's founder; Frederic Church, one of its greatest members; Asher B. Durand; Albert Bierstadt; and Jasper Cropsey.

Mr. Driscoll will present a lecture on the show on Feb. 3 at 10:30 a.m. in the Museum.

News in Brief

(Continued from page 1)

5. better understand the Instructional Systems model and some of the ways UDIS may assist faculty members with course design, implementation and evaluation.

Participants are encouraged to bring with them any course material or course-related questions for discussion as time permits.

Each workshop is limited to 35 participants on a first-come, first-served basis. Reservations or additional information can be had by calling 863-0668.

The IFS program has one of the larger undergraduate enrollments in the University, averaging about 600 majors in recent years. Graduate enrollment averages about 85 students each year; the program has granted 60 doctorates in the last five years.

"As a rule, we support 90 percent of the costs of a graduate student's education, through research and training grants, assistantships and fellowships," Dr. Vondracek says. "As with faculty, we've made the commitment to recruiting the very best graduate students, and I think their track records have justified our choices."

The most recent crop of Ph.D.s, he notes, have accepted assistant professorships at Cornell, Brandeis, Ohio State, USC, Rutgers, Texas, Virginia Polytechnic Institute and State University and the University of Oklahoma. One is a post-doctoral fellow in psychology at Yale School of Medicine and another is a research psychologist at the NIMH Developmental Psychology Lab.

"The emerging priorities in the IFS program," Dr. Vondracek says, "will be adult development and aging, given the changing demographic patterns. At the other extreme of the life-span, we're increasingly concerned with developing innovative models for day care and infant care, recognizing that fully 50 percent of American women work out of the home. We're trying to anticipate the shifting realities of society."

"We have tried very hard, as well, to encourage diversity among faculty members and students, so as not to become dogmatic. We're trying to maintain a viable, dynamic mixture of expertise to address the various problems in the areas of human development and the family."

Correction

The headline to the contrary, the article last week's INTERCOM describing a reduction in premium payments for the faculty and staff members participating in the Voluntary Accidental Death and Dismemberment insurance program was correct. In resetting the headline, the word "increase" was substituted for "decrease."

Hirshhorn trip set

The Department of Slavic Languages and Penn State's chapter of Dobro Slovo, the national Slavic studies honor society, are co-sponsoring a one-day bus trip to the Hirshhorn Museum of the Smithsonian Institution in Washington, D.C., to view the current exhibit, "The Avant Garde in Russia, 1910-1930: New Perspectives."

The excursion — set for Thursday, Jan. 29 — is open to all members of the University community and will be led by Lorraine Kapitounoff, assistant professor of Russian. For further information and reservations, interested persons should contact the Department of Slavic Languages at 865-1352.

Input asked

(Continued from page 1)

large part for the recent improvements to Sparks 10 and 121, Boucke 111 and 214, as well as many other classrooms.

One of the charges to this committee was to develop regular and systematic input concerning instructional support needs in the classroom. If you are aware of such needs or have suggestions on physical improvements which might be made in classrooms, you are encouraged to write to Don Johnson at Room 211 Mitchell Instructional Services Building.

Staff Vacancies

The following vacancies for positions classified at still exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until 5 p.m. Jan. 29, 1981. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

AVIATION INSTRUCTOR, BUSINESS SERVICES, University Park. Responsible to Chief Flight Instructor for instructing flight and ground school students utilizing FAA approved curricula for private, commercial, instrument and flight instructor pilots. Valid FAA Commercial Pilot, Flight Instructor (airplane and instrument), second class medical certificate required. Position also requires 1500 hours total flight time, 500 hours of which should be as flight instructor.

There are positions in certain work units that, because of the large number of such positions, frequently are still available after employees in the work unit have been considered. They are listed below and will not be listed on an individual vacancy basis. Application for such positions may be made at any time, and you are welcome to make your interest known now to the Employment Division for future consideration when such vacancies occur. These positions are:

POSITION TITLE	LOCATION
Assistant Coordinators	Student Affairs
Assistant Food Supervisors	Housing and Food Service
Computer Operators	Intercollege Research Program
Shifts: 8:00 a.m. to 4:30 p.m. 4:30 p.m. to 1:00 a.m. 12 midnight to 8:00 a.m.	
Programmers	Management Services
Residence Hall Area Coordinators	Student Affairs
Cardiology Technicians	Hershey
Clinical Laboratory Assistants	Hershey
Clinical Laboratory Technologists (HEW)	Hershey
Critical Care Monitoring Technicians	Hershey
(Dr. & Sr. Levels)	
Cytotechnologists	Hershey
Licensed Practical Nurses	Hershey
Medical Technologists (CLIA, MLT, CLT, HEW)	Hershey
Nuclear Medical Technicians	Hershey
Perfusionists	Hershey
Pharmacists	Hershey
Physical Therapists	Hershey
Physician's Assistants	Hershey
Psychiatric Assistants	Hershey
Radiology Technicians	Hershey
Research Technicians	Hershey
(Dr. & Sr. Levels)	
Respiratory Therapy Technicians	Hershey
Staff Nurses	Hershey

Penn State Intercom

From the Trustee Docket

Administrator to handle development, fund raising

The establishment of a vice presidency for development, responsible for planning, directing and coordinating private fund-raising activities, was authorized by the Trustees.

"It is extremely important that Penn State strengthen its ability to develop and implement a comprehensive program for private fund raising," Dr. Oswald told the Board.

"A Perspective on the '80s contains 15 separate references to the need for increased private support. It is clear that the combined efforts of an inflationary economy, the dwindling real value of State support and the emphasis on maintaining quality programs make it necessary for Penn State to strengthen its private fund-raising abilities."

Dr. Oswald noted that the reorganization in 1980 of the Penn State Fund Council, an advisory group on fund raising, was "one action to strengthen the fund-raising capabilities of the University by refining and expanding the organization and role of the Council in this critical activity."

Private funds are used to enrich areas of the University in which it does not receive State support.

In recent years, Dr. Oswald said, Penn State has reallocated funds internally to meet major priorities, including establishment of the new position to expand private support.

Dr. Oswald further noted that during the past eight years Penn State has eliminated vice presidencies for planning, fiscal affairs, medical sciences, public affairs, Commonwealth Campuses, Continuing Education and administrative services. A single vice presidency has replaced the two that formerly administered Commonwealth Campuses and Continuing Education.

"The net effect has been a reduction of six positions at the vice presidential level," Dr. Oswald said.

The new vice president for development will report to the senior vice president for administration (Dr. Richard E. Grubb) and will be a member of the President's Staff.

He or she will be responsible for advising the President and Senior Vice President on fund-raising policies and practices.

The individual will supervise the professional staff of the Office of Gifts and Endowments and work closely with the Penn State Fund Council, the senior academic officers and their faculties, alumni and friends of the University and corporations and foundations.

In concert with the Penn State Alumni Association, the Department of Public Information and Relations and the Department of Publications, the vice president will be responsible also for developing an external relations program to support fund raising.

Dr. Oswald said a search will begin immediately to fill the new position. The individual recommended, he added, "must have a full understanding of the functioning and priorities of an institution like Penn State, as well as professional qualifications in the area of fund raising."

Garban vice presidency to support development

Steve A. Garban has been promoted to vice president and controller in a move expected to strengthen the University's capacity to deal more effectively with complex fiscal matters, including an expanded fund-raising program.

Mr. Garban's promotion from controller is effective immediately, and was approved by the Trustees.

President Oswald noted that Mr. Garban has served as controller and staff assistant to Robert A. Patterson, senior vice president for finance and operations, since 1973. "To recognize properly his most recent service and to recognize appropriately his future assignments," he said, "a promotion and change of title are recommended."

"As more emphasis is placed upon private gifts, external contracts and grants," Dr. Oswald said, "it will be necessary to demonstrate continued concern and responsibility for the stewardship of the University's resources."

"In general, Mr. Garban will be responsible, under Mr. Patterson's direction, for the coordination and

Steve Garban

implementation of the resource requirements section of *A Perspective on the '80s*.

"Specifically, he will focus his efforts on establishing close coordination with the Office of Gifts and Endowments in aiding gift development and in developing stewardship and accounting for increased private support."

"Mr. Garban's promotion," Dr. Oswald continued, "will allow Mr. Patterson to spend more time in the areas of strategic and basic policy decisions and on the tools and techniques of financial and investment management."

A native of Brownsville, Pa., Mr. Garban graduated from Penn State in 1959 with a degree in accounting. He served as captain of the varsity football team and vice president of the Undergraduate Student Government.

He returned to the University in 1961 as assistant business manager of athletics and was named coordinator of accounting in 1966. He became deputy controller in 1968, controller in 1971 and staff assistant to the senior vice president in 1973.

Active in both community and alumni affairs, he is past president of the Lion's Paw Alumni Association, the College of Business Administration Alumni Association, the Penn State Quarterback Club and the Park Forest Junior High P.T.A. He is also on the Board of Trustees of Centre Community Hospital and is a

director of the Farmers' National Bank of Millheim.

16 new members added to Fund Council

Sixteen new members of the recently reorganized Penn State Fund Council were named by the Trustees, bringing the Council's total membership to 46.

"We're extremely gratified at the large number of Penn State alumni and friends who have offered to assist the University in the vital area of private fund raising," said Dr. Richard E. Grubb, senior vice president for administration.

The Council, which advises the Board of Trustees and the President of the University on all matters pertaining to private fund raising, was formed in 1974 and originally included 26 members.

Action taken by the Trustees last September provided for an enlarged membership and called for an examination of the challenges and opportunities for private fund raising during the next five years.

Lawrence G. Foster, a 1948 University alumnus from Westfield, N.J., corporate vice president and assistant to the chairman of the board of Johnson and Johnson, was named last year by President Oswald to head the Council.

Mr. Foster is a past president of the Penn State Alumni Association and was named a Distinguished Alumnus of the University in 1979.

The 16 new members include: Richard A. Benefield '48, manager of the Hotel Magee in Bloomsburg.

Philip H. Cease '49 of Mountainside, N.J., vice president of personnel for Kinney Shoe Corp.

Marian "Mimi" Coppersmith '53 of State College, president, Barash Advertising, Mrs. Coppersmith is a member of the Board of Trustees and an active supporter of the Renaissance Fund.

J. Robert Hicks '43 of Akron, Ohio, executive vice president, Goodyear Tire and Rubber Co. A member of the Penn State Alumni Council, he was named a 1981 Distinguished Alumnus.

Edward R. Hintz Jr. '59 of Chatham, N.J., president, Hintz Capital Management.

Sam W. Jack, Indiana, S.W. Jack Drilling Co.

(Continued on page 4)

Alard to premiere a new concerto with The Pittsburgh

A rare work, a Concerto for String Quartet and Orchestra, will be premiered by the University's Alard Quartet and the Pittsburgh Symphony Feb. 6, 7 and 8 in Pittsburgh's Heinz Hall.

Andre Provin will conduct the new work by Ezra Laderman.

The composer, who numbers operas, symphonies, chamber music and oratorios among his published oeuvre, says that writing the concerto was "an extra challenge because of the lack of precedents in the literature."

Only a few works exist for string quartet and orchestra. Burt Fenner, a professor in the School of Music, composed one which the Alard performed with the Pittsburgh players during a 1973 University Park residency by the orchestra. The Quartet also appeared with the Cincinnati Symphony in a work by Nikolai Beresowsky as part of a prize they

At left, Ezra Laderman - Isiah Laderman photo. Alard members, from left: Joanne Zagst Feldman, Raymond Page, Leonard Feldman, Donald Hopkins.

received for winning the National Federation of Music Clubs Award. "One of the unusual aspects of the Laderman concerto," according to violinist Donald Hopkins, "is the role reversal which occurs during the course of the

piece. It begins with the quartet in a dominant role and ends with the orchestra in ascendancy."

"The piece is very inventive rhythmically," cellist Leonard Feldman avers. "The dialogue between the quartet

and orchestra is extremely jagged and therefore difficult to put together rhythmically."

First violinist Joanne Zagst Feldman characterizes the concerto as very

(Continued on page 8)

Penn Staters

President Oswald has accepted a position on the Government Relations Committee of the National Union Way of America. The recently formed committee is chaired by Bill Ellinghaus, president of American Telephone and Telegraph Co.

C.C. Garvin Jr., chairman of the United Way of America Board of Governors, said Dr. Oswald was invited to serve because, "your leadership and experience both as a member of our Long Range Planning Committee and the leadership you have demonstrated in higher education will be of great value to this important committee."

Karl Rao, deputy director of the Pennsylvania Transportation Institute and an assistant professor of business logistics, has been appointed chairman of the State Transportation Advisory Committee by Gov. Dick Thornburgh.

Transportation Advisory Committee members include persons who work in industry, the legislature, PennDOT, State government and citizen interest groups. The Governor annually designates the chairman from among the public members. The Committee meets the first Monday in February of each year and holds at least three additional meetings during the calendar year.

The State legislature created the State Transportation Advisory Committee, along with the State Transportation Commission, in 1970 so that Commonwealth citizens would be able to have a direct influence on transportation decisions. The Transportation Advisory Committee consults with and advises the Commission and the Secretary of Transportation on key transportation policy issues. The Committee also conducts studies at the Commission's request and helps determine transportation goals and the allocation of available resources.

Dr. Martha T. Halsey, professor of Spanish, has edited a play by the contemporary Spanish dramatist, Jose Maria Rodriguez Mendez.

The play, *Los inocentes de la Moncloa*, depicts student life in Madrid of the 1960s and denounces the dehumanizing competition which the playwright sees as characterizing the Spanish university system and contemporary Spain in general. A constant theme of R. Mendez' theatre is the alienation and betrayal of Spanish youth.

Dr. Halsey's edition, published by Ediciones Almar of Salamanca, forms part of a new series of scholarly editions of the most significant dramas of the post-civil war era in Spain. She is also editor of a play of Antonio Buero Vallejo published in the same series.

Dr. William A. Vogely, professor and head of mineral economics, was one of four invited principal lecturers at the Fourth UNESCO Conference on Resource Policy Modeling at Herzliya, Israel. He spoke on Nonfuel Mineral Resources Modeling.

Dr. Lloyd A. Morley, professor of mining engineering, has been elected a senior member of the Institute of Electrical and Electronics Engineers (IEEE). Senior member is the highest professional grade in the IEEE and requires experience reflecting professional maturity. Only about 12 percent of the 200,000 members of the national organization have been elected to this grade.

Two Penn Staters were among 453 individuals elected Fellows of the American Association for the Advancement of Science at AAAS's annual meeting, held in Toronto in early January. Chosen as AAAS members "whose efforts on behalf of the advancement of science or its applications are scientifically or socially distinguished" were Dr. Richard G. Cunningham, professor of mechanical engineering and vice president for research and graduate studies, and Dr. Thomas Wartik,

professor of chemistry and dean of the College of Science.

Dr. Frederick M. Williams, associate professor of biology, presented a seminar earlier this month at the University of Minnesota. His subject was "On Understanding Predator-Prey Interactions." He also lectured at Montana State University, discussing "A Model of Multiple Nutrient Limitation and Its Ecological Consequences" at a seminar in the chemical engineering department, and "Do We Understand Predator-Prey Interactions?" at a microbiology department seminar.

An exhibition of recent pots by Kenneth Beittel, professor of art education and Fellow of the Institute for the Arts and Humanistic Studies, was on display in the Haas Gallery of Art at Bloomsburg State College in Bloomsburg. Dr. Beittel is currently in Japan, where a one-man show of his work is at the newly-completed Saga Museum of Porcelain and Ceramic Arts in Arita, Saga Prefecture, Kyushu.

Dr. Lester S. Golub, professor of education, Division of Curriculum and Instruction, on leave through June 30, is currently serving as a senior research associate with InterAmerica Research Associates. He is working on two federally funded projects: "Strategies for Assessing Bilingual Vocational Training Programs" and "Automatic Data Processing Applied to the Teaching of English as a Second Language in Bilingual Training Programs."

Bookshelf

A retired member of the physics faculty at the University is the author of a new book, *Physics on Stamps*, published by A.S. Barnes and Company, Inc. Dr. Robert L. Weber's book reflects the recent interest in thematic stamp collecting and includes stamps that picture physicists, physical apparatus, physical principles and theories, technological applications and space exploration.

An associate professor at his retirement in 1977, Dr. Weber is the author or co-author of 15 textbooks and has written two other general interest science books, *A Random Walk in Science* and *Pioneers of Science*, a biography of Nobel Prize winners in physics.

Appointments

Robert R. Elliot as assistant professor of management science at Capitol Campus. B. Eng., McGill U.; M.B.A., Ph.D., U. of Massachusetts-Amherst. Formerly principal engineer, Raytheon Co. Douglas R. Marme as assistant professor, costume designer, Department of Theatre and Film at University Park. B.F.A., Carnegie-Mellon U.; M.F.A., Brandeis U. Formerly assistant professor, Ohio U. David J. Spector as assistant professor of microbiology at Hershey. B.A., Ph.D., U. of Pennsylvania. Formerly research associate, Washington U. School of Medicine, St. Louis.

John P. Kohl as instructor of organization behavior at University Park. B.A., Moravian College; M.Div., Yale U.; M.S., American Tech. U.; Ph.D. in progress, P.S.U. Formerly minister, U.S. Army chaplain.

S. Krishnan as lecturer in marketing at University Park. B. Tech., Indian Institute of Technology, Madras; M.B.A., Indian Institute of Management, Calcutta; Ph.D. in progress, U. of Pittsburgh.

Shaaban A. Abdallah as research associate at Applied Research Laboratory. B.S., Cairo U.; M.S., Ph.D., U. of Cincinnati.

Dale H. Hoover as research assistant at Applied Research Laboratory. B.S.E.E., P.S.U. Formerly engineer, General Electric Co., Erie.

David W. Prather as research assistant at Applied Research Laboratory. B.S., Eastern New Mexico U.; M.S., Drexel U. Formerly senior engineer, HRB-Singer.

Promotions

Faculty

Stephen G. Simpson to professor of mathematics.

Staff Exempt

Kathryn E. Giger to research project assistant at Hershey.

Tana Trapuck to senior staff technologist at Hershey.

Clerical

Rosalie M. Fasick to secretary B in Earth and Mineral Sciences.

Donna L. Smith to secretary B in Alumni Association.

Linda K. White to secretary B in Undergraduate Admissions.

Technical Service

Kathryn Kovacevic to food preparer B at McKeesport.

Thomas L. Stevens to utility and relief worker in Business Services.

Cynthia M. Taylor to residence hall utility worker in Housing and Food Services.

Partings

Withrow

Phillips

John E. Withrow, Monroe County Extension director, retired Jan. 16.

His Extension service began in 1953 with an assignment in both Cumberland and Perry counties. He assumed his duties as Monroe County agent in 1962.

During his tenure there, he developed various educational programs to meet the needs of this rapidly growing county located in the Pocono Mountains, a prime recreational area.

Mr. Withrow holds a B.S. in agricultural education from Penn State.

Herbert F. Phillips, equipment operator in the Office of Physical Plant, retired Jan. 6 after serving the University since 1949.

Mr. Phillips began his Penn State career as a landscaper. He joined the Maintenance Building staff in 1971, operating forklifts and crane-lift trucks.

Betty Parks Strutin, Extension home economist in Lackawanna County, retired Jan. 16 after 36 years of service.

Mrs. Strutin, who holds a B.S. in home economics with a major in nutrition from Penn State, has emphasized foods and nutrition education in her three-and-a-half

decades in the Lackawanna County Extension office.

Always active professionally, Mrs. Strutin served as second vice president of the National Association of Extension Home Economists, which presented her, with a Distinguished Service Award in 1958. She was also president of the Pennsylvania Association of Extension Home Economists.

James F. Singer, maintenance mechanic in the Department of Housing and Food Services, retired Jan. 24 after a University career spanning some 29 years.

Mr. Singer began working for the University in 1951 as a custodian. About three years later, he recalls, he became a maintenance mechanic working on laundry equipment.

Noting that his retirement plans include travel and possibly some hunting, Mr. Singer says much of his time will be devoted to his activities with the American Legion. He is the director and sergeant of arms at the William P. Spiker Post 520 in Alexandria, as well as the sergeant of arms for the 18th District.

Mr. Singer's wife, Dorothy, is a residence hall worker in the Department of Housing and Food Services. She has been a University employee since 1953.

Ethel P. Bowman, residence hall worker in the Department of Housing and Food Services, retired Jan. 17 after working for the University from 1960 to 1969 and from 1970 to her retirement date.

"Penn State's students are really wonderful," Mrs. Bowman says, commenting that she will "greatly miss" her association with them and with her co-workers. Mrs. Bowman also will be missed. The students have told her that she "just can't leave," and one of her co-workers showed up for work with a camera to "document" Mrs. Bowman's final days at the University.

She says her plans for retirement include catching up on some work around the house and gardening, as well as caring for her husband—who suffered a heart attack in 1969. And, if her husband's health permits, she adds that a trip to Florida to visit old friends is a "distinct possibility."

Loretta S. Dolan says she is going to be a "go-go girl" after she retires on Feb. 1. "Not a 'go-go girl' in the same sense as a dancer," she adds, "but in the sense of being a girl constantly on the go."

A secretary in Agriculture since 1957, Mrs. Dolan has worked for the University a total of some 30 years. Several years of her credit date from before 1950, when she was a secretary in the Engineering Science and Management Defense Training Program.

(Continued on page 3)

Ralph E. Zilly, vice president for business (at left), and Ray T. Fortunato, assistant vice president for personnel administration (at right), pose with personnel representatives honored for 10 years of service. They are (starting second from left): Jeri Willey, Alumni Assn. and Gifts and Endowments; Chris Liebegott, Western Region CWC; and William Loop, Liberal Arts.

(Continued from page 2)

"My husband, Earl, is also going to retire on Feb. 1 (from Cerro Copper and Brass in Bellefonte), so we're planning to take a trip to Florida as soon as possible," Mrs. Dolan comments, adding that they like to use their "fifth-wheel" camper when traveling.

They also enjoy boating and fishing, with Canada being one of their favorite destinations.

The Dolans, who reside in Bellefonte, have two sons, Gary and Dennis. Gary holds an associate degree from Penn State-Berks.

Joseph A. Lucas, maintenance worker in the Department of Housing and Food Services, will retire Feb. 1 after being an employee of the University since 1961. He began his University career in Housing and Food Services as a worker in the dishroom, after which he served as a janitor in East Halls before assuming his present position some 15 years ago.

Mr. Lucas — whose retirement plans call for hunting, fishing and gardening — also notes that he is planning to travel, with one of his first trips being to Miami Beach, Fla., where he will visit friends.

Richard E. Husted, an experimental and maintenance mechanic in the College of Engineering, will retire Feb. 1 after being employed by the University since 1962.

Carmella P. Lombardo, a cook in the Department of Student Administrative Services, will retire Feb. 1. She will have served two stints as a University employee, from 1962 to 1966 and from 1968 to her retirement date.

Doris V. Brower, a secretary in the College of Agriculture, will retire Feb. 1. She has been a University employee since 1970.

Clifford A. Hewitt, a research assistant in the Intercollege Research Programs, will retire Feb. 1 after serving the University since 1967.

Mildred R. Shilke, director of nursing in the Department of Student Administrative Services, retired Jan. 17. She had been a University employee since 1963.

Carpoolers

Alice Haines is seeking a ride from Pattee Library to her home in Boalsburg at midnight. She can be contacted at 865-1755 from 3:30 p.m. until midnight.

Kay Christine needs a ride from the Bald Eagle-Sandy Ridge Mountain area of Tyrone to arrive for work at 8 a.m. and leave campus at 5 p.m. Telephone 865-4511.

Obituary

Lucy E. Garman, a secretary with University Safety when she retired in 1976, died Jan. 18 at the age of 68. A Benner Township native, she first joined the staff in 1943 as a clerk typist in Continuing Education.

Union Church ("Old Mud Church") of Philipsburg, now a museum, from illustration in "Historic Buildings of Centre County, Pennsylvania." The church, which grew out of an 1820 log dwelling, was remodeled in 1842. It is used occasionally for special religious services.

From the Press

Historic Buildings of Centre County, Pennsylvania. Prepared by the Historic Registration Project of the Centre County Library. George Ramsey, coordinator. 220 pages. 236 maps, photos, drawings. \$15. A Keystone Book.

Centre County, with its mix of historic buildings and villages set in a rural landscape, traces its history back to 1764 when General James Patton first explored the region.

This volume contains four sections: the Penns Valley Region, Centre Region, Nittany Valley and Bald Eagle Valley/Allegheny Plateau. The structures described and photographed range from log houses and round barns to the Georgian and Victorian mansions built by prospering iron masters and landowners.

Local landmarks such as Philipsburg's 1917 Rowland Theatre, Bellefonte's 1866 Brockerhoff House Hotel and Boalsburg's Boal Mansion (enlarged from a 1789 stone cabin) are documented.

Also included is a glossary of descriptive terms for historic buildings, definitions of styles and local building types, and information on the activities and agencies supporting historic preservation.

Stephen Crane and Literary Impressionism. By James Nagel. 190 pages. \$16.50.

Dr. Nagel earned his Ph.D. at Penn State and is currently professor of English and director of research for the Center for the Humanities at Northeastern University. Departing from previous critical interpretations of Crane's work, he argues that it was the norms and methods of Impressionism that constituted "the continuing and informing impulse throughout his work."

Dr. Nagel examines the influence of Impressionism on Crane's narrative methods, themes, structure, characterizations and patterns of imagery. Crane, he concludes, was "an important figure in the line of development of Impressionistic tendencies from Flaubert's fiction through the sensory images of the French Symbolist poets to such writers as George Moore and Virginia Woolf, the Norwegian Jacob Lie, and other writers in the decades around the turn of the century. The relativistic realities of Crane's Impressionism play a key role in the development of what came to be known as Modernism, especially in its sense of an indifferent and undefinable universe and a lack of individual significance."

Pearl Millet. By Kenneth O. Rachie and J.V. Majumdar. 307 pages. \$29.75.

Grown extensively in the drier areas of west and south India and along the southern peripheries of the Sahara Desert, pearl millet is the most important, and probably has the greatest potential, of all the millets and miscellaneous cereals of the pennisetum family.

A forage or pasture plant, it thrives in semi-arid regions and is grown also in the southeastern United States, Australia and South Africa.

The book covers pearl millet's origin and history, cytology and cytogenetics, breeding and growing, and storage. It is a comprehensive review of research literature on the subject.

Kenneth O. Rachie is associate director for agricultural sciences at the Rockefeller Foundation. J.V. Majumdar is a plant breeder.

Theravada Meditation. By Winston L. King. 172 pages. \$15.

The first book in English to relate modern forms of Theravada meditation practice to its Indian roots, this volume rectifies the publishing imbalance toward Mahayana and Zen. The author has written six previous books on comparative religion and Buddhism.

Search Committee appointed for ARL directorship

Seven faculty members and academic administrators have been named to a search committee to consider nominations and applications for the position of Director of the Applied Research Laboratory (ARL).

The committee is under the chairmanship of Dr. Irwin Feller, director of the Institute for Policy Research and Evaluation. Other members are:

C.L. Ackerman, associate professor of engineering research; F.P. Finlon, professor of engineering research (ARL); E.H. Klevas, associate dean for research, College of Engineering; P.H. Kurtz, research associate (ARL); J. Tichy, professor of architectural engineering; and L.N. Zimmerman, associate dean for research, College of Science.

Last Fall, the present director of ARL, John C. Johnson, received the special

academic title of professor of acoustics from President Oswald. In bestowing this title, Dr. Oswald noted Dr. Johnson's major contributions to the graduate level research programs at Penn State through his outstanding research efforts in the science and engineering of acoustics; his stimulation, development and guidance of acoustics as a major field of academic study; and his dedicated efforts to maintain ARL as an integral part of the University. Dr. Johnson has recently requested that he be relieved from the directorship of ARL to devote more effort to exploring the academic opportunities consistent with his new appointment.

The Applied Research Laboratory is the largest organized research unit located on the University Park campus. The director is responsible for the operation of the

laboratory, including ensuring the technical performance of the research and development programs. He must strive to maintain close interaction between the laboratory and other University programs of research, instruction, graduate-student training and public service. His responsibilities also include maintaining technical competencies and resources, the appropriate organizational and management support, and the appropriateness and quality of research and development activities.

Nominations and letters of application (with resume) must be postmarked by April 1, 1981, to Professor Irwin Feller, Chairman, ARL Director Search Committee, Room 207 Old Main, The Pennsylvania State University, University Park, PA 16802.

INTERCOM is an internal communications medium published weekly during the Fall, Winter and Spring Terms of the class schedule and bi-weekly during the Summer Term for the faculty and staff of The Pennsylvania State University. USPS 351-170

Trustee docket

(Continued from page 1)

Owen E. Landon Jr. '51 of Westport, Conn., president, Landon Associates. Louis E. Lash 28, a Villanova attorney. Paul J. Levine '69, a Coral Gables, Fla., attorney.

Robert W. Moore '48 of New York City, president, Financial Executives Institute.

F. Richard Nichol Jr. '64 of Newport Beach, Calif., research president, Institute for Biologic Research and Development.

Allan W. Ostar '48 of Washington, D.C., association executive, American Association of Colleges and Universities.

William A. Schreyer '48 of Princeton, N.J., president, Merrill Lynch, Pierce, Fenner & Smith. Mr. Schreyer was named a Distinguished Alumnus of the University in 1979.

Frank P. Smeal '42 of Rumson, N.J., partner, Goldman-Sachs Co. and a 1974 Distinguished Alumnus.

Samuel S. Vaughan '51 of Tenafly, N.J., publisher, Doubleday & Co., Inc. He is a 1977 Distinguished Alumnus of the University.

Robert W. Welsh '75 of Barrington, Ill., executive vice president, Leslie T. Welsh, Inc.

The new members joining the following individuals on the Fund Council:

Edward R. Book '54 of Hershey, president and chairman of Hershey Entertainment and Resort Company, A member of the Board of Trustees, he is immediate past president of the Alumni Association.

Samuel B. Casey Jr. '50 of Chicago, retired chairman of Pullman, Inc., and chairman of the John F. Casey Co. He is a 1974 Distinguished Alumnus and an Alumni Fellow.

Jay B. Claster, State College, president of M.L. Claster & Sons, Inc. Frederick J. Close '28 of North Madison, Ohio, retired chairman of the board, Alcoa. A former trustee, he was named a Distinguished Alumnus in 1961.

George H. Deike Jr. '31 of Pittsburgh, retired vice chairman of the board of directors and secretary, Mine Safety Appliances Company. He is a former trustee and a 1967 Distinguished Alumnus.

Robert E. Eberly '39 of Uniontown, chairman of the board, CNB Corp. and the Gallatin National Bank. Mr. Eberly is a 1972 Distinguished Alumnus.

William Elliott, Arcola, retired chairman of the executive committee of Philadelphia Life Insurance Co. Mr. Elliott is the recipient of the Penn State Medal.

Robert L. Elmore '41 of Ft. Lauderdale, Fla., president, Hardives Co. He is a 1981 Distinguished Alumnus.

Barbara H. Franklin '62 of Washington, D.C., consultant, writer and lecturer. A trustee, she was named a Distinguished Alumna in 1972 and has been an Alumnae fellow.

Philip M. Greenberg '54 of Miami Beach, Fla., past president, Energy Development Corp.

J. Lloyd Huck '46 of New Vernon, N.J., president, Merck & Co., Inc. He is a trustee and past president of the Alumni Association.

Robert E. Kirby '39 of Pittsburgh, chairman and chief executive officer, Westinghouse Electric Corp. He was named a 1973 Distinguished Alumnus and is an Alumni Fellow.

Charles P. Neidig '40 of Haverford, financial consultant. Mr. Neidig is a former University trustee and past president of the Alumni Association. He also has been president of the Nittany Lion Club and a director of the Penn State Foundation.

Mrs. A. Robert Noll, Manhasset, N.Y. She is the widow of the late A. Robert Noll, who was a Distinguished Alumnus of the University.

Roland W. Oberholzer '36 of Wilmington, Del., retired director, explosive products, ICI America, Inc. He is past national president of the Alumni Fund.

Willard F. Rockwell Jr. '35 of Pittsburgh, retired chairman, Rockwell International Corp. A former University trustee and past national chairman of the Alumni Fund, he was named a Distinguished Alumnus in 1961.

Stanley G. Schaffer '41 of Pittsburgh, president, Duquesne Light Co. He is a trustee and a 1973 Distinguished Alumnus.

Charles W. Shaeffer '33 of Baltimore, retired chairman, T. Rowe Price Associates, Inc. Mr. Shaeffer is a former trustee, an Alumni Fellow, a Distinguished Alumnus and a past chairman of the Penn State Fund Council.

Philip H. Sieg '57 of Bellefonte, president, Federated Home & Mortgage Co., Inc.

Donald D. Smith '48 of Tunkhannock, president, Smith, Miller & Associates, Inc. He is a former vice president of the Penn State Foundation.

Daniel J. Terra '31 of Kenilworth, Ill., chairman of the board of Lawter Chemical, Inc. He is a 1976 Distinguished Alumnus.

Glenn E. Thomson '31 of Clearfield, attorney.

William K. Ulrich '31 of Clearfield, chairman and chief executive officer, Progressive Publishing Co., Inc. A trustee and former president of the Board, he was named a Distinguished Alumnus in 1969.

Roy Wilkinson Jr. '36 of State College, judge, Commonwealth Court of Pennsylvania. He is a 1971 Distinguished Alumnus.

Members ex-officio of the Penn State Fund Council include President Oswald; Quentin E. Wood '48, president of the Board of Trustees; Walter J. Conti '52, vice president of the Board; Jay Feldstein '59, president of the Alumni Association; and Richard A. Zimmerman '53, vice president of the Alumni Association.

Wood, Conti reelected to leadership posts

Quentin E. Wood, president and chief executive officer of the Quaker State Oil Refining Corp. of Oil City, has been re-elected president of the Board of Trustees for a third one-year term.

Walter J. Conti, a businessman from Doylestown, was re-elected to a third term as vice president.

Mr. Wood, a native of Mechanicsburg, has served on the Board since 1976. He is a 1948 Penn State graduate.

Mr. Conti, owner of Conti's Cross Keys Inn in Doylestown, has been a member of the Board since 1974 and has served on its Executive Committee since 1976. He is a 1952 graduate of the University.

The Trustees also re-elected the associate secretary of the Board, Patricia L. Rosdil of Petersburg. Miss Rosdil was elected to that position last year, after having served for four years as assistant secretary to the Board. She is assistant to the Senior Vice President for Administration.

Dr. Oswald continues as ex-officio secretary of the Board, and Robert A. Patterson, senior vice president for finance and operations, as treasurer. Also named again to a one-year term was Richard H. Baker, assistant treasurer.

Grace T. Younginger, administrative assistant in the Board of Trustees office, was elected assistant secretary of the Board. Mary Lou McCorkle, executive secretary to the President, was re-elected as assistant secretary.

1981 Distinguished Alumni chosen by Board

Nationally known leaders in the fields of business, health care, agriculture, the law, the military and education are among the eight Penn State graduates who will be honored in June as 1981 Distinguished Alumni.

The Distinguished Alumni Award is the highest recognition bestowed on an individual by the University and is equivalent to the honorary doctorate given by many institutions.

The Trustees selected the eight from 82 nominations for the 1981 award. To be honored are:

Roscoe O. Brady Jr. '43, Washington, chief of the Development and Metabolic Branch of the National Institutes of Health.

Maj. Gen. William E. Brown Jr. '49, Panama City, Fla., commander Air Defense Weapons Center, Tyndall Air Force Base.

Dennis J. Carney '42, Pittsburgh, chairman-chief executive, Wheeling-Pittsburgh Steel Corp.

Robert L. Elmore '41, Fort Lauderdale, Fla., president-owner, Hardives Co.

Walter E. Eshelman '33, Hedges, Pa., secretary-treasurer, Twin Valley Farmers Exchange Inc.

J. Robert Hicks '43, Akron, Ohio, executive vice president and director, Goodyear Tire & Rubber Co.

Ruth Johnson Holden '59, Santa Barbara, Calif., inventor-navigator.

Edwin S. Malmud '33, Philadelphia, judge, Court of Common Pleas, First Judicial District of Pennsylvania.

"This truly exceptional group of alumni represents the best that Penn State has produced," Dr. Oswald told the Trustees. "They have gone forth from their Alma Mater and — through their considerable energies and talents — are making the world a better place."

The Distinguished Alumni will be invited to return to Penn State in June for the annual Alumni Institute and Class Reunions programs. At that time, they will be honored by fellow alumni and presented brass medals by the President of the Board of Trustees and the President of the University.

Popularity of disciplines affected by national trends

Such national trends as the growing student interest in career-related education have greatly affected the popularity of some fields of study, Dr. Robert E. Dunham, vice president for undergraduate studies, reported to the Trustees.

"Currently, our enrollments are highest, and still increasing, in engineering, business and most areas of earth and mineral sciences," he said.

Dramatic increases in the number of women attending college and the recent decline in numbers of traditional college-age students also have helped to determine which majors now are largest, Dr. Dunham added.

During Fall Term 1980, accounting was the largest major at Penn State with 770 students. Electrical engineering with 737 students was second. Also among the largest majors were business administration (Capitol Campus), mechanical engineering, individual and family studies, biology, nursing and computer science.

The smallest majors at that time were Latin-American studies, East Asian studies and Russian technical translation.

The largest associate degree majors last Fall were electrical engineering technology with 834 students; business administration, 666 students; and mechanical engineering technology, 583 students.

Among the fields of study that have experienced major increases in enrollment are horticulture, up from 38 students in 1970 to 284 in 1980; petroleum and natural gas engineering, from 39 to 285; agricultural business and management, from 27 to 169; and microbiology, from 57 to 357.

Those that experienced downward shifts during the past decade included secondary education from 1,202 students to 199; health and physical education from 603 to 165; community development, from 244 to 70; and sociology, from 159 to 63.

Associate degree programs in which enrollment has grown sharply since 1970 include letters, arts and sciences, from 244 to 581; computer science, from 193 to 365; and mining technology, from 41 to 97.

Dr. Dunham said the dramatic increase in the use of computers in instruction and the effects of inflation on the costs of supplies for laboratories and libraries hold important implications for undergraduate programs at Penn State.

He also cited several other factors characteristic of undergraduate education at Penn State, among them a leveling-off of the drop in enrollment in education, a recent drop in enrollment in agriculture; the emergence of new program proposals combining study in both professional and non-professional colleges, and the high enrollment of freshmen in a very small number of courses.

"At University Park, 50 percent of the freshman credit hours generated are in 16 courses," he noted. "At the other Penn State campuses, 50 percent are generated in from 10 to 17 courses."

Significant shifts have occurred over the past ten years in the needs of students being served at the campuses other than University Park. While enrollment of baccalaureate and associate degree students at the Campuses is down about 8 percent, the number of non-degree and provisional students has increased 45 percent, Dr. Dunham said.

OGE reports establishment of 15 new programs

Through the Office of Gifts and Endowments, 15 new programs have been established to assist and recognize students and to support various other activities. They include:

— The Chamber Music Fund to provide scholarships to attract and recognize outstanding keyboard, brass, woodwind, and string players, and to promote other activities and functions to enhance the image of the School of Music. The fund's initial principal, \$53,346, was received as an anonymous gift, with the stipulation that scholarships be awarded to full-time students who through auditions exhibit outstanding musical talent. Money designated for enhancement of the School's image will be expended with the approval of the School's Director.

— The Heritage Center, an unincorporated association which has been established at the McKeesport Campus to preserve and further the heritage of the community by preserving historic papers, artifacts, photographs and other material. At least \$10,000 will be solicited from interested persons and organizations as an endowed principal.

— The Hy Berman Memorial Scholarship in Ophthalmology to assist financially outstanding students in the College of Medicine. The initial principal, \$9,925, was donated by friends and family of the late Herman I. Berman, a Lebanon, Pa., businessman.

— The Harvey P. Kocher Memorial Fund to assist students and to provide funds for improving instruction and research in the University's Metallurgy Program. The initial principal of more than \$33,400 was provided by a bequest from the estate of the late Harvey P. Kocher, a 1913 metallurgy graduate. Three-fourths of the income earned by the principal will be made available for expenditure annually. The balance will be returned to the principal.

— The Paul Jarmotz Memorial Loan Fund, which will offer loans to outstanding graduate students in chemistry to help them complete their first year. The \$5,000 initial principal of the fund is a gift from relatives of the late Mr. Jarmotz, who was for many years a research assistant in the Chemistry Department. Short- or long-term loans up to \$400 will be made to students who need funds beyond an assistantship or grant, or who encounter needs which threaten their ability to stay enrolled.

— The M.E. John Lectureship Series, a fund to support an annual lecture or lecture series on a major social or economic issue. The fund's initial principal, \$1,500,

(Continued on page 2)

(Continued from page 4)

was contributed by friends and family of Dr. John, head of the Department of Agricultural Economics and Rural Sociology from 1946-1971.

The Edith M. Johnson Memorial Award to recognize undergraduate students of outstanding academic achievement in food service and housing administration. The award's initial principal, \$1,580, was given by relatives and friends of Mrs. Johnson, a University dietitian from 1929-1951. First preference will be given to those enrolled in the administrative dietetics option of the department.

The Mainwaring Scholarship, which will recognize outstanding voices in the Penn State Glee Club. The initial principal, more than \$10,000, comes from the sale of securities donated by Albert H. Mainwaring, a 1916 civil engineering graduate from Collegeville, Pa. Glee club members who, by audition, display outstanding singing ability, will be considered for the scholarships; academic achievement and financial need also will be considered. Ten percent of the income earned annually will be returned to the principal, and at least one award annually must be given to a singer in the tenor vocal range.

The E. Willard Miller Prize for academic excellence by undergraduate and graduate students majoring in geography. The \$3,000 principal was a gift from Dr. Miller, an associate dean for resident instruction and professor of geography emeritus in the College of Earth and Mineral Sciences. One award each will be given in the graduate and undergraduate divisions to students selected by a faculty committee on the basis of academic achievement and a paper submitted to the committee.

The Sayers J. "Bud" Miller Jr. Memorial Award, established to honor the former head basketball trainer and coordinator of the University's athletic training program. The award's initial principal, \$1,500, was given by colleagues, friends, family and students of Mr. Miller. Students of at least ninth-term standing with at least a 3.0 cumulative average who show leadership, professional attitude, and a commitment to an athletic training career are eligible for the award.

The Mont Alto Campus Endowment Fund, which was established to provide monies for approved, unfunded programs in support of the educational, cultural and athletic purposes of the University and the Mont Alto Campus. The initial principal, \$5,000, has been donated by the Campus's Advisory Board and alumni.

The Roland Joseph Riebold and Myrtle O'Connell Riebold Scholarship to help needy students in the forestry curriculum at Mont Alto. The initial principal of the fund will be donated from the estate of Mr. and Mrs. Riebold, of Tallahassee, Fla. Mr. Riebold is a 1927 forestry graduate who attended the Mont Alto Campus.

The Colonel Albert R. Sabaroff Scholarship, which will recognize and financially assist outstanding undergraduate students of elementary and kindergarten education. Funds will be donated by Louis W. Stamps, a 1964 Penn State graduate in psychology; Susan Sabaroff Stamps, a 1966 graduate in elementary and kindergarten education; and their children, Alisa Rebyn and Melissa Elynn, all of La Crosse, Wis.

The Fred Waring Summer Workshop Scholarship, which will recognize talented high school or college-age singers enrolled or planning to enroll in the Fred Waring Summer Workshop held at the University. Funding to support the scholarships will be derived from gifts from friends, alumni, corporations and other sources.

The Fred Waring Music Scholarship, which will recognize and assist Penn State students with exceptional talent as instrumentalists, composers, arrangers and singers. Funding for the scholarships will come from gifts for this purpose from friends, alumni, corporations and other

sources. Undergraduate or graduate students enrolled or planning to enroll at the University may qualify by audition or portfolio.

Improvements proposed for Shavers Creek Dam

Some \$60,000 in improvements to the University's Shavers Creek Dam has been recommended by an engineering dam consultant, the Trustees learned.

"Essentially, the improvements are centered on increasing the dam's capacity by raising the height of the dam and specifying walls by two feet," Ralph E. Zilly, vice president for business, explained.

Located at the Stone Valley Recreation Center in northern Huntingdon County, the dam was the subject of an April 1979 inspection as part of the nationwide federal dam inspection program.

"After the initial inspection, which found that the Shavers Creek Dam failed to meet some requirements of the 1978 National Dam Inspection Program, the University employed dam consultant Berger Associates to study conditions at the site," Mr. Zilly said.

He added that Berger's report "concurs with the initial findings as reported to the University by the Pennsylvania Department of Environmental Resources, which noted that the dam was constructed at the lower end of the range recommended for storage capacity for a dam of its class."

The Department also reported finding seepage and wet areas below the dam, but Mr. Zilly said the Berger report indicates these are "not likely to affect the safety of the dam."

He further notes that Penn State personnel at the dam are continuing to monitor and gather data and that the largest seepage point has not flowed since June 1980.

"The initial report also suggested that the access road be improved so the dam could be reached during periods of flooding," Mr. Zilly said. "The Berger report proposes that these improvements be included in a plan to raise the dam walls using earth removed from the road, thereby combining all costs for improvement in the \$60,000 figure."

Mr. Zilly observed also that the Berger report contains a "Surveillance and Warning Plan" for the dam, but added that the University is giving more consideration to how best to implement the plan.

Finally, Mr. Zilly told the Trustees that Penn State will "probably" be asked to carry out the proposed Berger plan for increasing the capacity of the dam, which was constructed in 1960.

Policy on names revised

The Trustees approved a revised policy under which University facilities may be named for members of the faculty and staff, Board of Trustees, advisory boards, legislators or government officials five years after they leave active service.

The Board of Trustees may name facilities for such persons in less than five years after they leave active service in exceptional cases recommended by the President of the University.

Buildings, sub-units of buildings, roads, and plazas on Penn State grounds may be named in honor of University friends and benefactors or persons who have made substantial contributions to education in Pennsylvania or in the nation.

An advisory committee on naming facilities, chaired by Dr. Richard E. Grubb, senior vice president for administration, makes recommendations to the University President on names for new or existing facilities. Final approval comes from the Board of Trustees.

Options added to math degree programs

Formal options have been added to the undergraduate degree programs in mathematics, three in the bachelor of arts

degree program and eight in the bachelor of science curriculum, according to Provost Eddy.

Options in the B.S. degree program include actuarial science, biological science, business, computational mathematics, graduate study, mathematical statistics, mathematics and physical sciences.

The B.A. degree program will have options in graduate study, social sciences and mathematics.

"The change to formal options has been made in response to a suggestion from the University Faculty Senate," Dr. Eddy explained.

"Although students were able to choose previously from most of these areas of interest, it was not recorded on their transcripts. These options will provide clearer recognition of a student's preparation to prospective employers."

The B.A. degree in mathematics is designed for students whose interests are oriented toward the arts, humanities and social sciences. The B.S. degree is for students interested in combining math with other areas where the field is applied.

Three of the options were not represented previously as areas of interest. Actuarial science is new, along with both the B.A. and B.S. mathematics options.

"The new B.A. and B.S. mathematics options offer students whose interests don't coincide with one of the other options the opportunity to form a personal program suited to their individual interests," Dr. Eddy commented.

No new courses, faculty or additional University funds will be required to offer the options.

Non-major option set for business/liberal arts

A non-major option in business/liberal arts will be offered beginning Fall Term 1981.

"This will provide students who are not business administration majors, but who seek careers in business and industry, with the opportunity to add a business-oriented dimension to their major field of study," Provost Eddy explained.

To be offered jointly by the Colleges of Business Administration and the Liberal Arts, the new option leads to a Business/Liberal Arts certificate and is open to all students other than Business Administration majors.

It will consist of 27 credits, including nine in prescribed accounting and economics courses, 12 to 18 in additional business administration courses and from zero to six in supporting and related areas, depending on student interest.

"The option provides a basic business background in an orderly and prescribed fashion rather than the random selection process which non-business majors now pursue to acquire business skills," Dr. Eddy continued.

The non-major option will be described in the Baccalaureate Degree Programs Catalog and no new courses or additional University funds will be required to undertake it.

Kutztown new affiliate

Kutztown State College becomes the 22nd institution to affiliate with Penn State under a program aimed at allowing qualified students to receive both a liberal arts and engineering education at relatively low cost.

In five years of study, including three at Kutztown followed by two at Penn State, students who complete the program will earn baccalaureate degrees from both institutions.

"This is part of a continuing effort to cooperate with our sister institutions in establishing educational programs that are economical, yet of high quality," Dr.

Robert E. Dunham, vice president for undergraduate studies, told the Trustees. Students who enroll will spend their first three years at Kutztown, where they will take liberal arts and pre-engineering courses. Those who successfully complete that part of the program will move on to

Penn State for two years of engineering courses in any of one several fields.

These fields include aerospace, mining, agricultural, chemical, industrial, electrical, civil and nuclear engineering. Curricula also will be offered in metallurgy, petroleum and natural gas engineering, and other technical fields.

At Penn State, the program is being conducted through the Colleges of Engineering and Earth and Mineral Sciences.

Edward R. Brown honored by Altoona Campus

The "All-Purpose Room" in the Steven Adler Gymnasium Complex at the Altoona Campus has been named the "Edward R. Brown Memorial Room."

The designation honors the late Mr. Brown, former chairman of the Altoona Campus Advisory Board and prominent Altoona-area certified public accountant.

"It is most fitting to honor Mr. Brown in this fashion," President Oswald noted. "His long-standing and generous support was crucial in the growth and development of the Altoona Campus."

Dr. Oswald further remarked that Mr. Brown's "energetic commitment" to Penn State was reflected in a "multitude of services to the University," including his life membership in the Alumni Association and his membership on the Penn Fund Council.

A native of Clearfield and a member of Penn State's Class of 1948, Mr. Brown was a managing partner in the Altoona accounting firm of Young, Oaks, Brown and Company.

Preliminary plans approved for emissions control system

Preliminary plans for an emissions control system for the University's main boiler plant have been approved by the Board.

The plans, which outline the installation of a fabric filter system to remove particulates from emissions at the West Campus Heating and Power Plant, will require an expenditure of \$6.7 million.

"These controls will enable Penn State to bring its power plant into full compliance with State and federal clean air standards, and, by exclusively using coal, to operate it more efficiently," Ralph E. Zilly, vice president for business, told the Trustees.

The project, being carried out by the State's Department of General Services, is being funded by an appropriation passed by the legislature and signed by the governor.

The fabric filter system will be housed in a 59-feet-by-106-feet metal frame building — a "baghouse" — behind the Burrows Road power plant.

Construction for the project will be carried out in several phases, beginning this Spring. Completion is expected by March 1984.

U.P. actions taken

In several actions affecting the University Park campus, the Board:

— Authorized University officials to grant a right-of-way to the Pennsylvania Department of Transportation (PennDOT) for widening selected segments of Park Avenue in State College. PennDOT will use the right-of-way, which consists of 2,702 square feet of land, to construct new turning lanes on Park Avenue at the intersections of North Atherton and North Allen Streets.

— Approved the renaming of the former Special Education Building at the corner of North Allen Street and East Park Avenue as Business Administration Building II. Special Education classes have been consolidated into other College of Education buildings.

— Voted to name the road leading north from Park Road, past the main dairy barn complex and the Joseph M. Valentine Turfgrass Research Center, "University Drive Extension."

University Park Calendar

Jan. 29-Feb. 8

Special Events

Thursday, Jan. 29

Deadline for submitting reserve reading lists for Spring Term 1981, Reserve Reading Room, W11 Patten.

STS/TCO Luncheon, noon, presentation, 12:20 p.m., Room 101 Kern. Daniel Walden, American studies, on "Into the Future. A New Look at C. P. Snow."
Cinemathque, Trumbull, *Silent Running*, 7 and 9 p.m., Room 112 Kern.
Robeson Center, Germantown Theatre Guild, *Sojourner*, based on life of Sojourner Truth, 8 p.m., Walnut Bldg.
Sports: wrestling, Athletics in Action, 8 p.m.

Friday, Jan. 30

Cinemathque, *Silent Running*, 7 and 9 p.m., HUB Assembly Hall.
Commonplace Theatre, *What's Up Tiger Lily?* 7 p.m., *The Front*, 9 p.m., Room 112 Kern.
GSA films, *Wait Until Dark*, 7 p.m.; *Notorious*, 9 p.m., Room 101 Chambers. *Fantastic Animation Festival*, 7 and 9 p.m., Room 112 Chambers.
IFC Dance Marathon, 7 p.m.-7 p.m., Sunday, White Bldg.
Sports: gymnastics (men) vs. Southern Connecticut (women) vs. Massachusetts, 8 p.m.; ice hockey vs. West Chester, 9:30 p.m.; Penn State Symphonic Wind Ensemble, 8:30 p.m., Music Bldg. Recital Hall.
Student Foundation for the Performing Arts, Charles Pace in Young Mr. Douglass, 8:30 p.m., HUB Ballroom.

Saturday, Jan. 31

Interlands: English country dances workshop. Info: 238-6878.
Sports: bowling, Lions Pride/Penn State Invitational, through Sunday; fencing (women) vs. Navy, Holstra and California (PA), 9 a.m.; rifle vs. St. Johns, 10 a.m.; basketball (women) vs. West Virginia, 5:45 p.m. and (men) vs. Westminster, 8:10 p.m.; ice hockey vs. Baltimore Blasters, 10:15 p.m.
Shaver's Creek Nature Center, "Winter Carnival Day," 1-4 p.m., Stone Valley. Preregistration, 865-1851.
GSA films, *Wait Until Dark*, 7 p.m.; *Notorious*, 9 p.m., Room 101 Chambers. *Fantastic Animation Festival*, 7 and 9 p.m., Room 112 Chambers.

Sunday, Feb. 1

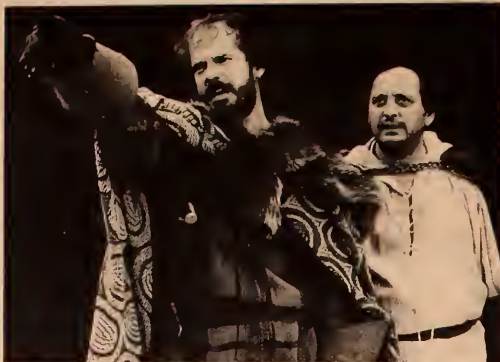

Shaver's Creek Nature Center, "Winter Carnival Day," ice recreation, 1-4 p.m., Stone Valley. Preregistration, 865-1851.
Commonplace Theatre, *What's Up Tiger Lily?* 7 p.m., *The Front*, 9 p.m., Room 112 Kern.

Monday, Feb. 2

First day to sign Spring Term NDSL and University Long Term Loans, Room 108 Shields.
Last date for March graduates to deliver theses to Graduate School and for Departments to certify to Graduate School completion of required papers for March graduates.
Deadline for applying for fellowships through any of the Graduate School programs.
Penn State Invitational Film Festival, noon, Room 112 Kern.
Cinema Cinema, *Phantom of Liberty*, 7 and 9 p.m., Room 112 Kern.
GSA workshop, 7 p.m., Room 102 Kern. Joan Schumacher, ass't. dir., student employment, on "Faculty Aid and Other Loan Programs."
E&MS Student Council lecture, 7:30 p.m., Room 112 Walnut. William Vogely, mineral economics, on "The New Administration's Impact on Energy Policy."

Tuesday, Feb. 3

Red Cross Bloodmobile, 10 a.m.-4 p.m., Walnut Bldg.
Gallery Talk, 10:30 a.m., Museum of Art, John P. Driscoll, curator, William H. Lane Foundation, on "All That Is Glorious Around Us: Masterpieces of the Hudson River School."
Com. Lit. Luncheon, 12:15 talk, 1 p.m., Room 204 HUB. Patrick Cheney, English, on "Magic in *The Faerie Queen*."
University Faculty Senate meeting, 2:10 p.m., Room 112 Kern.
Comp. Lit. Film Series, *Lancelot of the Lake*, 7 and 9 p.m., Room 112 Kern.
Artists' Series Film, *Nosferatu* (1922), 8 p.m., Sch. of Architecture.
Sports: wrestling vs. Wilkes, 8 p.m.
Wednesday, Feb. 4
Red Cross Bloodmobile, 10 a.m.-4 p.m., Walnut Bldg.
Penn State Invitational Film Festival, noon, Room 112 Kern.

Jeffrey King as Macbeth and Gerald J. Quimby as Banquo in upcoming URTC production.

Sports: swimming and diving (women) vs. Maryland, 1 p.m. and (men) vs. Maryland, 4 p.m.; basketball (women) vs. Cheney, 7:30 p.m.
Robeson Center Film Series, *The Georges of New York*, 7:30 p.m., Walnut Bldg.
English Colloquium, 8 p.m., Room 102 Kern.
Paul West, English, reads from his fiction.

Thursday, Feb. 5

Penn State Invitational Film Festival, noon, Room 112 Kern.
Sigma Xi meeting, 3:30 p.m., Colonial Room.
Nittany Lion Lion. H. Arnold Muller, Pa. Sec. of Health, speaker.
Cinemathque, *Rienzi*, *La Guerre est Fini*, 7 and 9:30 p.m., HUB Assembly Hall.
URTC, William Shakespeare, *Macbeth*, 8 p.m., The Playhouse.
German Department Lecture, 8 p.m., Room 124 Sparks. Efi Schneidman of the Univ. of Jena, speaking in German on "Die Lage der Frauen in der DDR. Widerspiegelung von Emanzipationsproblemen in Maxie Wanders *Guten Morgen, du Schone*."

Friday, Feb. 6

Sports: basketball (women), Coca-Cola Lady Lion Classic, through Saturday; ice hockey vs. Duquesne Univ., 9:30 p.m.
Penn State Invitational Film Festival, noon, Room 112 Kern.
Commonplace Theatre, *Obsession*, 7 p.m.; *Alce Does'nt Live Here Anymore*, 9 p.m., Room 112 Kern.
GSA film, *Easy Rider*, 7 and 9 p.m., Room 112 Chambers.
SFO film, *Fleischer, Soylent Green*, 7 and 9 p.m., HUB Assembly Hall.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Artists Series, Concord String Quartet, 8:30 p.m., Schwab Auditorium.

Saturday, Feb. 7

Shaver's Creek Nature Center, training sessions for volunteers on maple sugaring, 9 a.m.-4 p.m., Stone Valley. Info: 865-1851.
Sports: basketball (men) vs. Navy, 2:10 p.m.; ice hockey vs. Univ. of Pittsburgh, 3:30 p.m.
GSA film, *Easy Rider*, 7 and 9 p.m., Room 112 Chambers.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Penn State Symphony Orchestra, 8:30 p.m., Eisenhower Auditorium.

Sunday, Feb. 8

Shaver's Creek Nature Center, "Introduction to Back Yard Beekeeping," 1-4 p.m., Stone Valley.
Commonplace Theatre, *Obsession*, 7 p.m.; *Alce Does'nt Live Here Anymore*, 9 p.m., Room 112 Kern.

Seminars

Thursday, Jan. 29

Mathematics, Richard Block, Univ. of California-Riverside, on "Irreducible Representation of the Weyl Algebra and $s\mathfrak{sl}_2$," 4 p.m., Room 102 McAllister (new listing).

Friday, Jan. 30

Analytical Chemistry, Henry Bult, Univ. of Delaware, on "Novel Spectroelectrochemical systems," 11:10 a.m., Room 333 Whitmore.
Physical Chemistry, M. Albert Vanvance, (chemical engineering, on "Catalytic Behavior of Carbon Supported Iron on the CO Hydrogenation Reaction," 2:30 p.m., Room 333 Whitmore.

Monday, Feb. 6

MC3B, Paul Modrich, Duke Univ. Medical Center, on "The Current Status of DNA Restriction and Modification," 4 p.m., Room 101 Altohouse.

Tuesday, Feb. 7

MC3B, Paul Modrich, Duke Univ. Medical Center, on "DNA Sequence Recognition by Eco Restriction and Modification Enzymes," 11 a.m., Room 101 Altohouse.
Environmental Pollution Control, Jerry Patelunas, senior project engineer, Energy Impact Assoc., Pittsburgh, on "Treatability of Coal Gasification Wastes for the U-Gas Process," 2:20 p.m., Room 163 Willard.
Plant Pathology, Ellen King, grad. student, on "Leaf Hairs - A Structural Mechanism of Resistance to Insects," 3:55 p.m., Room 213 Buckhout.

Thursday, Feb. 8

Chemistry, Darryl Busch, Ohio State Univ., on "Totally Synthetic Heme Protein Models," 12:45 p.m., Room 333 Whitmore.
Physics, G. Stiel, SUNY, on "Recent Progress in the Dielectric Theory of Fluids," 3:50 p.m., Room 445 Davery.

Friday, Feb. 9

Analytical Chemistry, Kevin Corby, grad. student, on "Electron Transfer at Semiconductor Electrodes and Photovaltaic Cell Development," 11:10 a.m., Room 333 Whitmore.
Physical Chemistry, Richard Lundgard, grad. student, on "Polyols of Vinylacetylene," 2:30 p.m., Room 333 Whitmore.
Geosciences, W. Jason Morgan, Princeton Univ., on "Hot Spot Tracks on Continents and Unconformities," 3:45 p.m., Room 262 Willard.

Exhibits

Chambers Gallery: Undergraduate Students' prints and paper works: Third Annual Burk-Hartwick Invitational Glass Exhibit, both open Feb. 6.

HUB: H. Leroy Harlow, wooden toys, Art Alley; Canadian Woodland Indian Art, exhibit and sale, The Gallery. Both exhibits through Jan. 31.

Kern Gallery: Fabric Workshop exhibit, through Jan. 29; Sarah Berndt, watercolors, and Metal Craft Exhibition, through Jan. 30; Kevin O'Toole, sculpture, through Jan. 31; Sandra Leitzinger, watercolors, and Nancy Ziegenfuss, ceramics, both open Feb. 2.

Museum of Art: European works from the permanent collection; selections from the Pre-Columbian and Oriental collections: "All That Is Glorious Around Us," paintings from the Hudson River School.

Patten Library: Hicks Echtricht National Invitational Group Show, through Feb. 5. John Inverna, photographs, opens Feb. 5. East Carolina Gallery: Dorothy Hook, recent paintings; Lending Service Lobby, Nancy A. Norbin and Laveta Butler, stained glass and porcelain, through Feb. 4; and Robert Butler, wood sculpture, opens Feb. 4, Main Lobby.

Robeson Cultural Center: The Works of Oliver LaGrone.

Visual Arts Zolt Gallery: ceramics exhibit, opens Jan. 30.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

URTC to offer staging of 'Macbeth'

The University Resident Theatre Company has chosen *Macbeth* for the third production of its 1980/81 season. The show will be presented at the Playhouse Feb. 5-7, 10-14, and 17-21. Tickets are available now at the URTC Box Office in the lobby of the Arts Building or by phoning 865-1884.

The title role in this production is being performed by Jeffrey Bryan King, URTC professional guest artist. An MFA graduate of the Florida State/Asolo Conservatory in Sarasota, Mr. King has essayed a variety of classical roles.

While at the Asolo he performed the title roles in *Othello* and *Volpone*, and as a professional performer has appeared as Nick Bottom, Benvolio, and Toby Belch. His other work includes parts in *Long Day's Journey Into Night*, *Man and Superman*, *Idiot's Delight* and *Mr. Roberts*. The latter was directed by Joshua Logan and featured Martin Sheen. Mr. King recently made his movie debut with an appearance in Burt Reynolds' *Smokey and the Bandit Part II*.

19th century abolitionist is focus of drama tonight

"Sojourner," a stage dramatization of the life of abolitionist Sojourner Truth, will be presented at 8 p.m. tonight (Jan. 29) in the Paul Robeson Cultural Center.

The play is being produced and performed by Philadelphia's Germantown Theatre Guild, a professional dramatic company founded in 1922. The guild has awarded the American Theatre Association for its productions, and has served as a model for youth theatre around the country.

Using short sketches with gospel music, the dramatization portrays Sojourner Truth's emergence from slavery and life as an illiterate black domestic. Moved by what she felt was divine inspiration, she travelled the northern United States, speaking out against slavery and unequal treatment of women.

Admission to the performance is free.

Wind Ensemble offers 15th-anniversary concert

The Penn State Symphonic Wind Ensemble will celebrate its 15th anniversary with a concert at 8:30 p.m. Friday, Jan. 30, in the Music Building Recital Hall.

Joining the Wind Ensemble for the concert will be pianist Steven Smith, an associate professor of music, and the newly-formed Penn State Chamber Choir, directed by associate professor D. Douglas Miller.

The Wind Ensemble will open the program with the overture to the opera, *Beatrice and Benedict*, by Hector Berlioz. Mr. Smith will assist the group in performing Stravinsky's *Concerto for Piano and Wind Symphony*.

Following an intermission, the Wind Ensemble will play Prokofiev's *March, opus 99*, and "The Leaves Are Falling" by Pennsylvania composer Warren Benson, a piece inspired by Rainer Maria Rilke's poem "Autumn."

The Chamber Choir will join the Wind Ensemble for the two concluding numbers on the program. "A Simple Ceremony" by Martin Maiman and "Variations on a Kolorfolsong" by John Barnes Chance. "A Simple Ceremony," based on a setting of the *Agnus Dei* text, was written in memory of Mr. Chance, who was killed in an auto accident. The latter composition, which features the ensemble's percussion section, is one of the last works Mr. Chance wrote for symphonic band.

(Continued on page 6)

News in Brief

Faculty Senate to consider legislative changes

Two legislative items have been placed on the docket of the University Faculty Senate for its Feb. 3 meeting at 2:10 p.m. in Room 112 Kern Building.

The Committee on Committees and Rules is recommending the elimination of the Committee on Intra-University Relations, requiring a change in the *Standing Rules and Bylaws* of the Senate.

The report notes that IRC has completed the major role assigned it, that of assisting with and approving Faculty Organization Constitutions. In addition, its size (32 members) is cumbersome and in some cases has caused a hardship for small voting units who must elect one representative to IRC and thereby lose membership on another committee.

Committees and Rules has also proposed changes in the Senate Constitution and Bylaws, substituting the word "authority" for "responsibility." The Committee was concerned about the vagueness in the definition of these terms, which are used throughout Senate legislation.

Oral informational reports will be presented by the Academic and Physical Planning Committee (Physical Plant Status) and the Admissions Records and Scheduling Committee (Special Admissions Programs).

Telephone Directory errors should be corrected

Faculty and staff members who have noted errors in their Telephone Directory listings should forward corrections immediately to facilitate the preparation of next year's edition.

Information for the directory was taken from payroll files last summer. Following is a list of common errors and the procedures for getting the correct information into the proper files.

In correcting the forms, it is important to fill in all the information. Missing elements may cause errors or rejection of the correction by the computer file.

Directory listing carrying old or incorrect title:

Must be corrected on Payroll Change Form submitted by your Department Head, through the Office of Personnel Administration.

Listing showing old or incorrect address: Home address — changed by submitting new W-4.

Campus address — changed by submitting Office Address Telephone Information form. Both forms are available from your Personnel Representative.

Name omitted from Directory: Submit O.A.T.I. form to Payroll. Form is available from your Personnel Representative.

Unlisted number appearing in Directory: This can be corrected in two ways. Submit new O.A.T.I. form with a Code 2 in the publish box, or fill out a new W-4 form and omit your unlisted number from the form. Both forms are available from your Personnel Representative.

German Department receives gift of books

The German Department has received a \$2,500 grant, in the form of new editions of books by famous German authors, from the Deutsche Forschungsgemeinschaft (German Research Community).

Included in the gift are volumes by authors such as Clemens Brentano, Georg Buchner, Friedrich Hebbel, Gottfried Keller, Ernst Bloch, Hermann Broch, Max Frisch, Hermann Hesse, Odon von Horvath, Rainer Maria Rilke and Robert Walser. Donated to celebrate Penn State's 125th anniversary, the volumes will be placed in the Department's Seminar Room, where they may be used by faculty members and students.

Back to Basics — Chemistry Department graduate students in Davey Lab illustrate what a difference a few letters make.

State health secretary to address Sigma Xi

Dr. H. Arnold Muller, Pennsylvania's secretary of health and chief of the emergency medical division at the Hershey Medical Center, will address the Penn State Sigma Xi Chapter at 3:30 p.m. on Thursday, Feb. 5, in the Colonial Room of the Nittany Lion Inn. The public is invited to attend.

As associate professor of medicine at the Medical Center and the Commonwealth's secretary of health since late 1979, Dr. Muller will discuss health related issues in Pennsylvania.

Before being appointed to his present position by Gov. Dick Thornburgh, Dr. Muller served five years as medical advisor to the State Health Department's division of emergency health service. During the Three Mile Island Crisis, he was chairman of the Medical Center's Radiation Hazards Committee.

Affirmative Action library available

The Employment Division has a library of Affirmative Action/Equal Employment Opportunity reference material to assist University personnel seeking recruitment and affirmative action information. Such information may prove helpful in ascertaining availability of minorities and women for specific job categories, or in locating recruiting sources in fulfillment of affirmative action, good faith efforts.

Some samples of the kinds of data available in this library are:

- (1) A directory for reaching minority groups.
 - (2) A directory of resources for affirmative action recruitment.
 - (3) A handbook for recruiting at the traditionally black colleges, and
 - (4) A directory of organizations interested in the handicapped.
- While the reference material is not available for overnight loan, it may be used in the Employment Division, Room 117 Willard Building, Mondays through Fridays, between 8 a.m. and 12 noon and 1-5 p.m.

1980 major medical claims due by end of March

March 31, 1981, is the last date on which the Employee Benefits Division will accept charges for a 1980 major medical claim for University employees or their dependents. A major medical claim is established if an employee reports \$100 of

eligible, out-of-pocket medical expenses incurred during the calendar year 1980.

Charges that are acceptable for a major medical claim include doctors' office calls, prescribed drugs, private duty nursing (if medically necessary), local ambulance service, oxygen, physiotherapy, insulin and special equipment and appliances. Among charges not covered are routine physical exams, dental work, eye exams and lenses.

Itemized receipts should be obtained for eligible charges and submitted to the Employee Benefits Division with a claim form. In order to avoid delay of payment by the insurance company, all questions in the employee's section of the claim form should be fully completed. Cancelled checks and cash register receipts are not acceptable evidence of charges incurred.

Claim forms and additional information on how to report a major medical claim are available at the Employee Benefits Division, Room 133 Willard Building, the Business Offices at locations other than University Park; and the Personnel Office at the Hershey Medical Center.

WPXS-TV acquires new remote van

WPXS-TV is going places.

And, it is going in style — the station has just put into operation a new remote van, a "television control room on wheels."

Equipped with three color cameras, two videotape recorders, audio and video switchers and a power generator, the van will enable WPXS-TV to "go remote" for live coverage of sporting, community and cultural events.

The van, which was delivered in December, has thus far been used to produce a "Pennsylvania Town Meeting" program for the Pennsylvania Public Broadcasting System; segments of *Penn's Dream*, a film to help celebrate Pennsylvania's Tricentennial in March; and the Penn State-Lehigh wrestling match on Jan. 24.

"This represents an important first step toward the station's planned expansion of live coverage," says John Grant, executive producer for the "Penn State-Lehigh Wrestling" program.

The van's next excursion will be to Hershey on Feb. 12 to film segments of a "Pennsylvania Town Meeting" program focusing on "The Jobs of the 1980s," a look at the State's economy during the coming decade.

Telephone listings corrected for MC3B

Following is a listing for the Department of Microbiology, Cell Biology, Biochemistry and Biophysics as it should appear in the 1980-81 Faculty-Staff Telephone Directory:

Microbiology, Cell Biology, Biochemistry & Biophysics	108 Althouse Lab — Bernlohr	865-5497
Biochemistry Graduate Program	Office — 108 Althouse Lab	865-5497
Director — Mallette	— 206 Althouse Lab	865-1227
Biochemistry Undergraduate Program	Shigley — 103 S. Frear Bldg	865-1214
Biophysics Graduate Program	Office — 618 Mueller Lab	865-2538
Director — Deering	— 201 Althouse Lab	865-0342
Biophysics Undergraduate Program	Office — 618 Mueller Lab	865-2538
Medical Technology Undergraduate Program	Director — Mohr — 124 S. Frear Bldg	865-4825
Microbiology & Cell Biology Graduate Program	Office — 101 S. Frear Bldg	865-3072
Director — Caffrey — 306 S. Frear Bldg		863-2150
Microbiology Undergraduate Program	Advising Office — 120 S. Frear Bldg	863-0502
Microbiology Preparation Room	Grubbs — 122 S. Frear Bldg	865-4373
Stockroom	Dunkel — 156 N. Frear Bldg	865-1219

Associated Press using University's history series

A series of articles on 300 years of Pennsylvania history — developed by the University's Department of Public Information and Relations in conjunction with faculty members — is being distributed by the Associated Press to newspapers throughout the State.

The first article, describing the geological origins of the State, was transmitted Sunday. The remainder are scheduled for release at a rate of two each month throughout 1981.

"We are pleased to do our part to gain visibility for Pennsylvania's Tricentennial," said Arthur Ciervo, director of public information and relations.

The articles were developed by public information writers using the expertise of a large number of faculty members from various departments, including history, geology, physical education, art history, music and English.

1981 motel-hotel guide available at no cost

The 1981 edition of "The State College Area Hotel-Motel Listing" will be ready by the end of January.

The booklet, which is published by the State College Area Chamber of Commerce, is available free of charge from its office at 131 Sowers Street.

Because hotel and motel rates do change from year to year, the Chamber of Commerce urges University departments and offices to pick up the new edition before using the booklet to arrange accommodations for visitors.

Nutrition Clinic offers counseling services

The Nutrition Clinic offers counseling on a complete range of nutritional practices and questions, including weight control, diabetes, sodium control, alternative eating styles and stages of the life cycle.

Interested members of the faculty and staff and students can schedule appointments by calling 863-0613. Monday-Friday, 8 a.m. — 5 p.m.

Alard

(Continued from page 1)

accessible on the whole, mixing tonality and lyricism with 12-tone ideas. "The slow movement is particularly lyrical, almost operatic in its melodic line," she says.

And violinist Raymond Page sees the concerto as "basically exuberant, a happy work."

Ezra Laderman, a professor of music and composer-in-residence at SUNY-Binghamton, has served since 1979 as director of the Music Program of the National Endowment for the Arts. The Alard has performed a number of his compositions and in 1977 premiered his Fifth Quartet.

A friendship between the members of the Quartet and the composer developed, and when Mr. Laderman indicated an interest in writing for quartet and orchestra, the Alard turned to the University's Institute for the Arts and Humanistic Studies. The Institute provided a grant, and additional support was obtained from the Pennsylvania Council on the Arts and the Pittsburgh Symphony Orchestra.

Ticket information for persons desiring to attend the premiere of the Concerto for String Quartet and Orchestra may be had by phoning 412-281-5000. The performances on Feb. 6, 7 and 8 are scheduled at 8:30 p.m., 8 p.m. and 2:30 p.m., respectively.

Mr. Laderman completed the score last spring and wrote a piano reduction for the orchestral part. The Quartet, which has been rehearsing with pianist Jill Olson, will finally get to hear the full orchestral component of the score when they travel to Pittsburgh Feb. 3 for rehearsals. Mr. Laderman will, of course, be present at the premiere.

"I'm very happy about the work as a work," he says, "but only when I hear the quartet with the Orchestra will I know how they complement one another. I'm looking forward to seeing if I'm right or wrong."

Mr. Page sums up the Alard's feelings: "Personally, I feel truly privileged. Any quartet would love to have the chance to perform such a work."

Serenade your sweetheart

Why not make this Valentine's Day one to remember by surprising your sweetheart with a serenade?

Can't carry a tune? Why about singing in his or her office or classroom?

No problem. Members of Zeta Psi fraternity and Phi Mu sorority will do it for you.

For a small fee — with all proceeds to benefit the American Heart Association, Central Pennsylvania Chapter — the Greeks will deliver singing Valentines, a personal message and a heart-shaped lollipop on campus Feb. 12, 13, 14.

Daytime deliveries will be made to Willard, Sparks, Boucke, Old Main, the HUB, Business Administration and Hammond buildings, as well as the Forum. Absentee serenaders even have a collection of popular love songs, with selections including "Oh, You Beautiful Doll," "Ain't She Sweet," "Let Me Call You Sweetheart," "Baby Face," "All My Lovin'" and "You Are My Sunshine."

Valentines may be ordered Feb. 4, 5, 6, 9, 10 and 11 by telephoning Ed Zehel or Bruce Del Valle at 237-8641 or Interfraternity Council at 865-3455. They may be ordered also in Redifer, Pollock, Waring and Findlay dining halls and in the HUB.

Concord String Quartet will perform as part of the Artists Series on Feb. 6.

Arts Roundup

(Continued from page 6)

The Penn State Symphonic Wind Ensemble is directed by Smith Toulson, an associate professor of music.

Concord String Quartet to perform in Artist Series

The Concord String Quartet, winner of the Naumburg Chamber Music Award, will perform at 8:30 p.m. Friday, Feb. 6, in Schwab Auditorium under the auspices of the Artists Series.

Founded in 1971, the Quartet has presented the world premieres of more than 50 new works, most recently, George Rochberg's "Concord Quartets" (Quartets Nos. 4, 5, and 6) and Quartet No. 7. In addition to holding an Artist-in-Residence appointment at Dartmouth College, the Concord members play about 100 concerts on tour each season. During the current season, they will perform the complete Beethoven string quartet cycle at Lincoln Center's Alice Tully Hall in New York.

The Quartet's members are: Mark Sokol and Andrew Jennings, violins; John Kochanowski, violist; and Norman Fisher, cello.

For their performance at Penn State,

they will play an all Beethoven program — Quartet in G Major, opus 18, no. 2; Quartet in D Major, opus 18, no. 3; and Quartet no. 13 in B-Flat Major, opus 130.

Tickets for the performance, which is part of the Fine Arts Series, will go on sale at the Eisenhower Auditorium box office beginning Tuesday, Feb. 3. Phone orders on MasterCard/Visa will be accepted at 814-863-2055.

One-man drama portrays Frederick Douglass

"Young Dr. Douglass," a one-man drama featuring actor Charles Pace, will be presented at 8:30 p.m., Friday, Jan. 30, in the HUB ballroom.

The drama depicts the first 32 years in the life of Frederick Douglass, the famous ex-slave, turned anti-slavery lecturer and newspaper publisher.

The Student Foundation for the Performing Arts is sponsoring the event to help mark the advent of Black History Month in February.

Mr. Pace, a Texan, has been performing the show throughout the nation. He is a former artist-in-residence for San Antonio and helped establish the Austin, Texas, Afro-American Players, Inc.

Frederick Douglass, the show's focus, was born a slave in Maryland in 1817. He

became a passionate advocate for the cause of human rights and published his own newspaper. In later years he was chief U.S. Marshall of the District of Columbia, resident minister and counsel general to the Republic of Haiti and personal advisor to Presidents Lincoln and Harrison.

Tickets are free and can be obtained at the HUB desk.

Sculptor's works shown in Robeson Center

Sculptor, poet and educator Oliver LaGrone opened an exhibition of his work at the Paul Robeson Cultural Center in the Walnut Building last Sunday. The exhibition, which includes more than 18 pieces in bronze, marble, alabaster, wood and cast stone, will remain until Feb. 8. Mr. LaGrone will return to talk about his work on Feb. 6.

A graduate of the University of New Mexico and Howard University, the artist has studied with Carl Milles. He attended the Cranbrook Art Academy and Wayne State University. From 1970-72, Mr. LaGrone served as special assistant to the Vice President for Undergraduate Studies and was an artist-in-residence at all Penn State campuses.

At present, he is artist-in-residence at the Boas Center for Learning in the Harrisburg School District.

Women gymnasts to host British amateurs

Tickets are now on sale for the International Women's Gymnastics match, set for 2 p.m. on Sunday, Feb. 15, in the Recreation Building.

Sponsored by the University in cooperation with the British Amateur Gymnastic Association, the match will feature Penn State's 1980 National

Collegiate Championship women's team and the National Gymnastic Team of Great Britain, the top team in Western Europe.

The day's festivities will begin with a 2 p.m. concert of English and American ballads by the Penn State Symphonic Blue Band, under the direction of Dr. Ned Deihl. Also performing will be Laurie Bowers and the Touch of Blue Majorettes.

The Blue Band will also perform during the warm-ups before competitions, as well as during the closing ceremonies, which will begin at 5:30 p.m.

All seats are reserved, and persons planning to attend should purchase their tickets well in advance (at the ticket window in the Recreation Building for \$5 each). A limited number of standing-room-only tickets will be available at the door.

Joanna Sime will compete for the British women's team when it visits Penn State's National Championship women's team on Feb. 15.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until 5 p.m. Feb. 5, 1981. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

DIRECTOR OF COLLEGE RELATIONS, BEHREND COLLEGE. Responsible to the Dean of Behrend

College for planning, organizing and conducting comprehensive fund raising and public relations programs for the entire College, including Continuing Education, Public Information and Relations, Gifts and Endowments, Varsity Athletics, Alumni, and four years' effective experience, or a bachelor's degree with four to five years of effective experience. Degree must be in appropriate field of study, and effective experience should be in written or oral communications, public relations and fund raising.

ADMINISTRATIVE MANAGER, COLLEGE OF MEDICINE, HERSCHEY. Responsible to the Associate Hospital Director for managerial planning, organization, staffing, direction and controlling of the Diagnostic Radiology, Nuclear Medicine, Radiation Oncology, CT Scanning, Ultrasound and Endoscopy programs. Also responsible to the Department Chairperson, Radiology, for technical planning, organizing, staffing, direction and controlling of the Diagnostic Radiology, Nuclear Medicine, Radiation Oncology, CT Scanning, Ultrasound and Endoscopy programs. A bachelor of science degree with ARRT registry required, plus four to six years of effective experience as a staff radiologic technician, two years in a managerial capacity. Master's degree preferred.

EMPLOYMENT SPECIALIST — OFFICE OF PERSONNEL ADMINISTRATION, University Park. Duties include recruitment, interviewing and placement of applicants with a wide variety of backgrounds and experience. Assist in filling job vacancies through internal programs of promotion. Assist in determining salaries. Provide information regarding employment policies, procedures and regulations to applicants, employees and supervisors. Prepare reports and records reflecting the activity of the Division. Involves interaction with many levels of administrative, academic and professional staff members. Bachelor's degree, or equivalent, preferably in Personnel Administration or related fields, plus a minimum of two years of related administrative experience.

Penn State Intercom

FAC presents faculty views to President

On President Oswald's 1981 appointment calendar, only a few regularly scheduled meetings have been blocked out a year in advance.

The list contains no surprises — the Trustees, Senate, the Advisory Policy Council (APAC), President's Staff and the Commonwealth Campus Directors. One monthly entry, however, may be slightly less familiar to faculty members — "FAC," the Faculty Advisory Committee to the President.

"The President arranges his schedule around FAC meetings," says Senate Chairman George W. Franz. "We get together the second Tuesday of each month — including summers — from 1:30 to 5 p.m. During the three years I've been on FAC, only one meeting has been cancelled. That was in August, and because a budget crisis arose, the President called us in anyway."

FAC was created as a direct result of the May 1974 report prepared by the Committee on Faculty Participation in University Governance.

Its role is defined under the *Standing Rules of the Senate* as "an instrumental body to the Senate without legislative authority. It shall represent the Senate and thus the faculty at large as an advisory and consultative body to the President of the University. It shall provide advice and consultation to the President on matters of general concern to the faculty pertaining to the welfare and effectiveness of the University."

Members include the chairman, chairman-elect and immediate past-chairman of the Senate, the secretary of the Senate and three elected faculty members chosen for three-year staggered terms. At least one member of the Committee must always be from a location other than the University Park. The Provost of the University also attends the meetings.

"The President confers with me on an agenda a week before each scheduled meeting," Dr. Franz notes. "I bring in a number of suggestions from the Senate as well as from individual faculty members. Most of FAC's concerns are with the broad, institutional policies that affect the functioning and running of the University. We tend not to discuss the specific

Current FAC members are, standing, from left: Richard L. McCarl, John J. Cahir, Nancy M. Tischler, Irwin E. Feller, M. Frank Mallette and George J. McMurtry. Seated: Provost Eddy, President Oswald and George Franz.

academic implications of policies.

"Strictly speaking, all of our discussions are confidential, and information about them can be released only at the discretion of the President. Twice a year, I report to the Senate on the topics FAC has discussed. At our Feb. 3 meeting, for example, I went over the agenda for the last six months."

In general, FAC addresses three kinds of problems, according to Dr. Franz. The first is institutional policies. Under this rubric fall such items as the budget, the University's efforts in the area of private fund raising or the status of administrative searches.

"Our second function I would categorize as general brainstorming," Dr. Franz continues. "We'll select a topic — perhaps how the University should go about keeping its top professors. While there is often no immediate end result, we may come up with ideas for further implementation."

"In the third category are the kind of nitty gritty problems that irritate faculty members and which sometimes cannot be solved at a lower administrative level. One example that comes to mind was the question of classroom light-timers. In this instance, Dr. Oswald actually went over to a classroom — and found himself sitting in

the dark when the light went out in mid-lecture. The problem was corrected."

While the phrase, "full and frank discussion," is often used by diplomats to mask the outcome of unsuccessful negotiations, in the case of FAC, it is an accurate representation of what occurs.

"I don't think any of us hold back in our meetings," Dr. Franz says. "The President knows how we feel and vice versa. He has been very frank with us when he perceives a problem, and we respond in kind. He may not always agree with us, but he listens to what we say."

"In fact, on a number of occasions, input from FAC members has caused Dr. Oswald to change his mind. There have been other times when he has convinced us that we were wrong."

While it is not possible for each academic unit to be represented directly on FAC and still maintain the group's viability as a forum for discussion, Dr. Franz says that throughout his three years as a member, he has seen very little "turf consciousness."

"In our discussions with the President, we try to provide him with what we perceive as the faculty point of view to help him in reaching decisions," Dr. Franz continues. "But we never take a vote on

(Continued on page 4)

Four panels for Scholar's Medal appointed

President Oswald has appointed 20 faculty members to serve on four selection panels for the Faculty Scholar Medal.

The creation of this new form of recognition for outstanding scholarly achievement was announced by Dr. Oswald last September. Panels were named for the areas of arts and humanities, life and health sciences, physical sciences and engineering, and social and behavioral sciences.

The selection panel for the arts and humanities will be under the chairmanship of Robert W. Carrubba, professor of classics. Other members are Paul Axt, professor of mathematics; Frederick R. Matson, professor emeritus of archaeology; Peep Rebane, associate professor of history at Ogontz; and Henry W. Sams, professor emeritus of English.

Howard E. Morgan, Evan Pugh professor of physiology, will chair the panel for the life and health sciences area. Other members are Elsworth R. Buskirk, director of the Human Performance Laboratory and professor of applied physiology; Edward C. Buss, professor of poultry science; Thomas Smyth Jr., professor of entomology; and G.K. Strother, professor of biophysics.

The panel for the physical sciences and engineering area will be chaired by Alfred K. Blackadar, professor and head of meteorology. Serving with him will be Stephen J. Benkovic, Evan Pugh professor of chemistry; Edward H. Kleivas, professor of nuclear engineering and research dean, College of Engineering; Arthur J. Marsicano, associate professor of engineering at Schuylkill; and Philip L. Walker, Evan Pugh professor of materials science.

Carol A. Cartwright, professor of education, will chair the panel for the social and behavioral sciences. Other members are Roy C. Buck, professor of sociology and social science; Peirce F. Lewis, professor of geography; John D. Martz, professor and head of political

News in Brief

Miami journalist, former HEW secretary to speak

Former Secretary of Health, Education and Welfare Joseph A. Califano will discuss the aging of the American city at 8:15 p.m. on Thursday, Feb. 12, in Eisenhower Auditorium.

Mr. Califano's appearance is being sponsored by Colloquy as part of its Urban America series.

Another speaker in this series will be journalist Richard Morin of the *Miami Herald*. He will discuss "Unrest in the Cities" at 8 p.m. on Monday, Feb. 9, in Shwab Auditorium. Mr. Morin covered the racial riots in Miami last summer.

Mr. Califano's government service began in 1961 when he was named a special assistant to the general counsel of the Department of Defense. A lawyer, he

also served as general counsel to the Department of the Army and as a special assistant to the Secretary of Defense before being named a special assistant to President Johnson from 1965 to 1969.

His tenure as HEW Secretary under President Carter lasted from 1977 to 1979. He is now a Washington, D.C., attorney.

Fabled king is lecture topic

"Darius the Great" is the subject of a lecture to be presented by Tom B. Jones, Regent's Professor of History at the University of Minnesota, at 8 p.m. on Monday, Feb. 9, in Room 112 Kern Graduate Building.

Dr. Jones will survey the achievements of the Persian King (c. 522-486 B.C.) and the brilliance of Achaemenid civilization. He will also examine the Persian view of the great conflict between Greece and Persia, describe new evidence for the beginnings of Persian coinage, and discuss

the historical significance of the early Achaemenid cuneiform inscriptions of Darius and Xerxes.

Noted historian to visit

Rowland T. Berthoff, William Eliot Smith professor of history at Washington University, will visit University Park Feb. 9-11.

In addition to time spent with students from the History Honors and University Scholars programs, Dr. Berthoff will present two public lectures. He will discuss the "Berthoff Thesis for 19th and 20th Century America" from 10 a.m. to noon on Tuesday, Feb. 10, in Room 712 Liberal Arts Tower. Later that afternoon, at 3 p.m., he will talk about "Republican Liberty and Peasant Equality in American History" in Room 305 HUB.

A Harvard Ph.D., Dr. Berthoff is prominent among the new school of

(Continued on page 4)

1981-82 Leaves of Absence

College of Agriculture

Richard H. Fox, associate professor of soil science, to work with Dr. David Jenkinson at the Rothamsted Experiment Station in Harpenden, England, to produce a practical computer-based system that can be used for predicting nitrogen requirements for individual fields.

Byron H. Gintner, associate county agent (Huntingdon County), to work toward a master's degree in Agricultural Education at Penn State.

Robert E. Leiby, assistant county agent (Lehigh County), to work toward a master's degree in Agricultural Education at Penn State.

J. Patrick Madden, professor of agricultural economics, to produce a report containing a comprehensive model of the agricultural research and extension components of the survival and prosperity of small to moderate scale family farms. He plans to visit land-grant universities throughout the country and meet with groups of small farm operators.

Stanley P. Pennypacker, associate professor of plant pathology, to do research in the Department of Plant Pathology at Montana State University to develop new research procedures, methods and models to quantitatively estimate crop losses.

C. Marshall Ritter, professor of pomology and Extension specialist in pomology, to work in the Department of Pomology and Viticulture at Cornell University's Agricultural Experiment Station in Geneva, N.Y., investigating new varieties of fruit and rootstocks.

Alletta M. Schaller, Extension agent/county Extension (Lebanon County), to work toward an M.A. in Speech Communication at Penn State, with an emphasis on telecommunication and mass media.

James E. Van Horn, associate professor of rural sociology, to travel throughout the United States to study the effects on the rural family of the current migration to rural areas.

James E. Welshans, associate Extension agent (Clearfield County), to work toward a master's degree in Extension Education at Penn State.

College of Arts and Architecture

Anthony M. Battaglia, associate professor of landscape architecture, to investigate a series of contrasting natural and cultural landscapes to determine what effect landscape has had and is having on emerging, settlement design form.

Kenneth R. Beitell, professor of art education, for research in, and production of, large scale decorated stoneware and porcelain jugs and plates, and the completion of the draft of a projected book, *The Art of Qualitative Thinking*.

Donald E. Hopkins, associate professor of music, to undertake a background study of the history of string music in New Zealand and to investigate music written for strings by New Zealand composers.

Helen A. Manfull, associate professor of theatre arts, to explore the possibility of a study abroad program at Penn State in the areas of children's theatre and educational drama by touring England and selectively visiting the colleges, drama centers, schools and children's theatres that are accomplishing the most outstanding work in educational drama in the world today.

D. Douglas Miller, associate professor of music, for research in choral music. The research would focus on the observation/study of respected conductors (orchestral and choral) in rehearsal, concert, and recorded situations, and an in-depth repertoire study of late 16th and early 17th century English choral music.

Stephen Porter, associate professor of art, to continue work in the development of a series of sculptures that technically involve the combination of polished metal surface materials with rougher or more natural materials such as wood, bronze, steel, or stone.

Brent G. Wilson, professor of art education, for a cross-cultural investigation of ways in which children use their drawings to construct models of reality. The study would take place in Egypt to investigate variables such as parental encouragement, environmental conditions, school art instruction, etc., that may determine how children use narrative drawings to invent world models, and to determine the particular collective world view presented in drawings of Egyptian children in relation to American children.

The Behrend College

Archie K. Loss, head, Arts and Humanities Studies, associate professor of English, to complete a book on Joyce and modern painting, and the research for a book-length manuscript on Noel Coward.

Charles Reden, associate professor of political science, to investigate the relationship between the American ideal of equality and the processes of constitutional change.

College of Business Administration

Jerry C. Olson, associate professor of marketing, to investigate advertising research methods and to explore the area of product hazards — i.e., the risks associated with consumer products and the effects on consumers of warnings about such hazards.

Arnold F. Shapiro, associate professor of business administration, to develop a comprehensive pension cost project model.

The Capitol Campus

Bernard H. Bissinger, professor of mathematics, to study inventory control models used by the Naval Supply System during the past 20 years. Professor Bissinger will also complete a book on modern statistical concepts and techniques for estimating depreciation of physical property.

Sabir H. Dahir, professor of engineering, to continue teaching, research and curriculum development in transportation engineering at the University of Jordan, Amman. Dr. Dahir will conduct research on the seasonal skid resistance variations of public highways in Jordan.

Jacob DeRooy, associate professor of managerial economics, to develop and write a text in managerial economics for use at the upper-division and graduate level.

James R. Hudson, associate professor of sociology and social science, to continue research on urban growth and development. Professor Hudson will complete his study of the conversion of manufacturing space to residential use in New York City's central business district.

Kenneth W. Masters, professor of social science, for research on the information systems utilized by major units of the Pennsylvania state government. Dr. Masters will study the organization of statistical information systems and the requirements for statistical information at various levels.

Commonwealth Campuses

Jerome M. Curry, assistant professor of English at Mont Alto, to complete the final four (of 15) chapters of *A Technical Writing Workbook* to be published by St. Martin's Press, and to begin preparation of the accompanying instructor's manual.

Sukhjit Singh, associate professor of mathematics at Altoona, to study the interaction between the theory of shape and dynamical systems in topology at the University of California at Berkeley.

David P. Wooldridge, professor of biology at Ogonit, to study the taxonomy of a new genus of beetles at the National Museum of Natural History of the Smithsonian Institution.

College of Earth and Mineral Sciences

Hiroshi Ohmoto, professor of geochemistry, to examine the genesis of European deposits of metallic ores to complement his studies on ore deposits elsewhere in the world. The goal is prediction of the location of new ore deposits.

Howard W. Pickering, professor of metallurgy, to work with Japanese scientists on specialized facilities used to determine the properties of metal surfaces to improve our knowledge of how to prevent corrosion by altering surfaces or through metallurgical processes.

William A. Vogely, professor and head of mineral economics, to investigate national nonfuel mineral policies as a part of devising a plan to assure supplies of minerals for the U.S. economy in the future.

Barry Voight, professor of geology, to study the dynamics of the processes associated with the volcanic activity of Mt. St. Helens and the active fault regions of the west coast through field work and association with scientists working in the area.

College of Education

Mary M. Dupuis, associate professor of education, to pursue further study in psycholinguistics and reading at the Ontario Institute for Studies in Education and to examine the field center operations of OISE.

Victor L. Dupuis, professor of education, to renew and update expertise in curriculum theory and development at the Ontario Institute for Studies in Education. Dr. Dupuis will also study R&D activities generated in curriculum through the institute's satellite centers.

Dennis M. Roberts, associate professor of educational psychology, to upgrade his measurement knowledge and to develop instructional materials and modules. Dr. Roberts proposes to study with and seek the consultation of the Director of the Evaluation Centre at the Ontario Institute for Studies in Education and the chief psychometrician of a professional society.

John M. Shernick, associate professor of industrial arts education, to study policies, issues and funding strategies for vocational education on the national level by working directly with the Executive Director of the American Vocational Association of Washington, D.C.

John D. Swisher, professor of education, to examine the knowledge and research base of humanistic approaches to education as he develops a position paper working with personnel at the National Humanistic Education Center of the Sagamore Institute in Saratoga Springs, N.Y.

College of Engineering

Thomas B. Daviny, associate professor of civil engineering, to continue involvement in the design and construction of a major engineering project — an international airport in the Republic of South Africa.

Kenneth K. Kuo, professor of mechanical engineering, to study at the Ballistic Research Laboratory (BRL), Aberdeen, Md., to provide advice in basic research on complex combustion problems of solid propellants. Two series of seminars in the field of combustion will be conducted by Dr. Kuo, under sponsorship of the Ballistic Institute.

College of Health, Physical Education and Recreation

Geoffrey C. Godbey, professor of recreation and parks, to conduct a cross-cultural study in the United States and England on the role of urban parks in the lives of elderly people.

Daniel M. Landers, professor of physical education, for research with Dr. Ronald Smith, professor of psychology at the University of Washington, on anxiety management. Research results will be tested with elite athletes at the U.S. Olympic Training Center at Colorado Springs during the Summer of 1981.

John A. Lucas, professor of physical education, to travel to Europe to research information on the modern Olympics.

College of Human Development

Steven J. Darnish, professor of human development, to work toward developing a framework for studying the relationship between directed physical activity, goal setting, and physical and mental health, and the design of strategies to promote optimal health based on this framework.

David F. Hultsch, professor of human development, to visit several major programs that focus on life event research in order to study coping strategies during adulthood and late life.

Joe A. Miller, associate professor of community development, for research on community adjustments to worker displacements caused by plant shutdowns and other economic disinvestments resulting in substantial cutbacks in local employment.

Sara C. Parks, associate professor of dietetics, to develop the tools and content to augment FSMA 412, to develop a modeling and forecasting component for the FSMA curriculum, and to identify research opportunities for the graduate program which is currently under development. Professor Parks will study future trends, modeling in general, and forecasting in depth.

Intercollege Research Programs

Geoffrey L. Wilson, associate professor of engineering research, ARL, to study methods of measurement of the elastic properties of polymeric materials and participate in a systematic program of measurement on material of interest to industry and to the French and U.S. Navies. Dr. Wilson will study at the Applied Viscoelasticity Laboratory, National Institute of Applied Science, University of Lyon, France.

College of the Liberal Arts

John Balaban, associate professor of English, to continue creative writing projects in fiction and in poetry.

Richard L. Garner, associate professor of history, for research in Mexico and Spain on a book, *Mexico's 18th Century (Colonial) Economy: An Interpretation*. The study will focus on trade between Mexico and Spain, the development of agriculture and industry in Mexico and government policy respecting these activities. A major purpose will be to clarify the link between Mexico's colonial and contemporary economic systems.

Arthur E. Goldschmidt, associate professor of history, for research in Egypt on the development of Egyptian nationalism from the late 18th century to the present, combining a general overview and historical trends with specific biographical sketches of the major individuals involved. The biographical information will become part of a second work, a biographical dictionary of modern Egypt.

H. Eugene Goodwin, professor of journalism, to conduct research in ethics as applied to news business in the United States.

Carl R. Hausman, professor and head of philosophy, to study the relation of metaphorical expressions to creativity and to the ways we interpret works of art. The thesis about metaphors that will be related to creativity and art will concentrate on how good metaphors express insights through the very special (as well as interesting) ways they bring words together.

Philip A. Klein, professor of economics, for analysis of the time pattern of business cycles.

Stanley A. Kochanek, professor of political science, to study government decision-making in India with regard to the allocation of economic resources in the society. Individual case studies will focus especially on three major areas of industrial regulatory policy — industrial licensing, monopoly control and regulation of foreign investment.

Joseph W. Michels, professor of anthropology, to prepare a book-length manuscript concerning his archaeological research in northern Ethiopia focusing on the origin and development of the Aksumite Kingdom, one of the earliest indigenous civilizations of Africa.

Jon P. Nelson, professor of economics, to investigate whether the cost advantage enjoyed by multi-plant firms compared to single plant firms stems from their internal efficiency or from their greater bargaining power with suppliers. If the latter is true, the justification for high levels of concentration of the production of an industry in a relatively small number of firms is seriously diminished, with obvious implications for anti-trust policy.

Gerald M. Phillips, professor of speech communication, to interview couples with various life-styles to discover how communication is used to plan and to resolve conflicts among married and cohabiting adults and to interview counselors and psychiatrists for expert opinion on these issues.

Carolyn W. Sherif, professor of psychology, to develop applications of the principles of social psychology, including completing a new edition of her textbook and redesigning graduate and undergraduate courses.

Donald L. Smith, associate professor of journalism, to complete research on Zecheriah Chafee Jr., a Harvard law professor and the nation's first important scholar of free speech, for the writing of a biography.

Eloise C. Snyder, professor of sociology, to study how sex role stereotypes affect research and treatment in alcohol abuse.

Darrell J. Steffenmeier, associate professor of sociology, to complete research on the organization of crime and its relationships to the "legitimate" business world.

University Park Calendar

Feb. 5 – 15

Special Events

Thursday, Feb. 5

Penn State Invitational Film Festival, noon, Room 112 Kern.
Sigma Xi meeting, 3:30 p.m., Colonial Room, Nittany Lion Inn, H. Arnold Miller, Pa. Sec'y of Health, speaker.
Dr. Charles Dillman, sports medicine coordinator, U.S. Ski Team, and director, Biomechanics Lab, Univ. of Illinois, discusses the sports medicine program of U.S. Ski Team, 7:30 p.m., Room 112 Kern.
Cinequest, *Rennais, Le Gurnee est Fini*, 7 and 9:30 p.m., HUB Assembly Hall.
German Dept. lecture, 8 p.m., Room 124.
Sparke, Elfi Schneidebach, Univ. of Jena, GDR, on "Die Lage der Frauen in der DDR: Widerspiegelung von Emanzipationsproblemen in Maxie Wanders *Guten Morgen, da Stine*," 8 p.m., Room 112 Kern.
URTC, William Shakespeare, *Macbeth*, 8 p.m., The Playhouse.

Friday, Feb. 6

Sports: basketball (women), Coca-Cola Lady Lion Classic, through Saturday; ice hockey vs. Duquesne Univ., 9:30 p.m.
Penn State Invitational Film Festival, noon, Room 112 Kern.
Commonsplace Theatre, *Obsession*, 7 p.m.; *Alice Doesn't Live Here Anymore*, 9 p.m., Room 112 Kern. Also Feb. 8.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Artists Series, Concord String Quartet, 8:30 p.m., Schwab Auditorium.

Saturday, Feb. 7

Shaver's Creek Nature Center, training session for volunteers on maple sugaring, 9 a.m. – 4 p.m., Stone Valley. Info: 865-1851.
Sports: basketball (men) vs. Navy, 2:10 p.m.; ice hockey vs. Univ. of Pittsburgh, 8:30 p.m.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Penn State Symphony Orchestra, 8:30 p.m., Eisenhower Auditorium.

Sunday, Feb. 8

University Chapel Service, 11 a.m., Eisenhower Chapel. Thomas E. Sherry, Church of Jesus Christ of Latter Day Saints, State College, speaker.
Shaver's Creek Nature Center, "Introduction to Back Yard Beekeeping," 1-4 p.m., Stone Valley.

Monday, Feb. 9

Archaeological Institute of America slide lecture, 8 p.m., Room 112 Kern. Tom B. Jones, Univ. of Minnesota, on "Darius the Great."
Colloquy lecture, 8 p.m., Schwab Auditorium.
Richard Morn, journalist for *The Miami Herald*, on "Unrest in the Cities."

Tuesday, Feb. 10

IHS/History Dept. lectures: Rowland T. Berthoff, Washington University, on "Berthoff Thesis for 19th, 20th Century America," 10 a.m., Room 712 Liberal Arts Tower; and on "Republican Liberty and Peasant Equality in American History," 3 p.m., Room 305 HUB.
Comp. Lit. Luncheon, 12:15; talk, 1 p.m., Room 104 HUB. Paul West, English, on "The Tiger in the Music Room, The Mollusk in the Zoo."
URTC, *Macbeth*, 8 p.m., The Playhouse.

Wednesday, Feb. 11

Last day to sign Winter Term NDSL and University Long Term Loans, Room 108 Shields.
Comp. Lit. Film Series, *Effi Briest*, 6:30 and 8:45 p.m., Room 112 Kern.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Yachad lecture, 8 p.m., Room 60 Willard.
Emanuel Lottien, consul for academic affairs, Consulate General of Israel, on "Israel and the Third World."
Students Composers' Concert, 8:30 p.m., Music Bldg. Rectal Hall.

Thursday, Feb. 12

Late drop deadline, 11 a.m., Room 112 Kern.
Cinequest, *Bridges, The Paper Chase*, 7 and 9:15 p.m., HUB Assembly Hall. Also Feb. 13.
Robeson Center Gallery Talk, 7:30 p.m., Walnut Bldg. Oliver LaGrone discusses his works.
URTC, *Macbeth*, 8 p.m., The Playhouse.
Colloquy lecture, 8:15 p.m., Eisenhower Auditorium. Joseph A. Califano, Jr., former Secretary of Health, Education and Welfare, on "The Aging of the American City."

Friday, Feb. 13

STS/CD, luncheon, noon; talk, 12:20 p.m., Room 101 Kern. Warren S. Smith, general education in the arts, emeritus, on "Art and

Professor Rowland Berthoff

Non-Art in the Age of Technology: An Overview."

Faculty Women's Club Pot Luck Supper, 6:30 p.m., Walnut Bldg. Reservations by Feb. 6.

Info: Jane Ziegler 237-7931.

Commonsplace Theatre, *The Wild One*, 7 p.m.; *A Streetcar Named Desire*, 9 p.m., Room 112 Kern. Also Feb. 15.

Eco Action doc. films, "I.F. Stone's Weekly," and "The Pitcairn People," 7 and 9 p.m., Room 102 Folsom. Also Feb. 14, 15.

CSA film, *The Ruling Class*, 7 and 9 p.m., Room 112 Chambers. Also Feb. 14.

Ballroom Dance Club/Hetzel Union Board, "In the Mood . . . to Dance," Phi Mu Alpha Jazz Band with their "Big Band" sound, 8 p.m., HUB Ballroom.

Sports: gymnastics (men) vs. Temple and (women) vs. Utah State, 8 p.m.; ice hockey vs. Buffalo State, 9:30 p.m.

URTC, *Macbeth*, 8 p.m., The Playhouse.
Artists Series, *The Intimate P.D.Q. Bach*, 8:30 p.m., Eisenhower Auditorium.

Saturday, Feb. 14

Sports: rifle, Collegiate Sectionals, 8 a.m., through Sunday; swimming and diving (women) vs. Princeton, 1 p.m. and (men) vs. Syracuse, 4:30 p.m.; ice hockey vs. Drexel Univ., 3:30 p.m.; basketball (men) vs. Drexel, 8:10 p.m.

Artists Series, *The Lovelace Theatre Company, Jack and the Beanstalk*, 10:30 a.m. and 2:30 p.m., Schwab Auditorium.

France-Cinema, Young, *Alambrista*, 7 and 9 p.m., Room 112 Kern.

URTC, *Macbeth*, 8 p.m., The Playhouse.

Sunday, Feb. 15

University Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Donald Crider, rural sociology, speaker.

Shaver's Creek Nature Center, family film festival and toymaking workshop 1-4 p.m., Stone Valley. Info: 865-1851.

Sports: gymnastics (women) vs. British National Team, 2 p.m.; ice hockey vs. Villanova, 3:30 p.m.

Seminars

Thursday, Feb. 5

Fuel Science, James E. Peters, Purdue Univ., on "An Ignition Model for Gas Turbine Engines," 2 p.m., Room 301 Steidle (new listing).

Man-Environment Relations, Luis H. Summers, architectural engineering, on "User Oriented Operational Games," 3:45 p.m., Room 5-131 Henderson (new listing).

Mathematics, Shmuel Kantorowitz, Bar-Ilan Univ., Israel, on "On Spectral Representations of Operators," 4 p.m., Room 102 McAllister (new listing).

Linguistics, E. Woolford, MIT, on "Interaction of Grammars in Bilingual Code Switching," 7:30 p.m., Room 365 Willard (new listing).

Friday, Feb. 6

Analytical Chemistry, Kevin Corby, grad student, on "Electron Transfer at Semiconductor Electrodes and Photovaltaic Cell Development," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Richard Lundgard, grad student, on "Pyrolysis of Vinylacetylene," 2:30 p.m., Room 333 Whitmore.

Geosciences, W. Jason Morgan, Princeton Univ., on "Hot Spot Tracks on Continents and Unconformities," 3:45 p.m., Room 262 Willard.

Monday, Feb. 9

MC3B, Palmer Rogers, Univ. of Minnesota and U.S. Dept. of Energy, Biological Energy Research Division on "Regulation of the *argECB* Operon of *E. coli* by Arginine and ppGpp," 4 p.m., Room 101 Althouse.

Tuesday, Feb. 10

Applied Research Lab., Diana F. McCommon, ARL, on "Acoustic Modeling: Narrow Band Ray Mode," 10:45 a.m., Walker Conference Room, Applied Science Bldg.

Biology, Les Reil, North Carolina State Univ., on "On Uncertainty and the Law of Diminishing Returns in Evolution and Behavior," 11:10 a.m., Room 8 Mueller.

Economics/Institute for Policy Research and Evaluation, Ray Morra, economics, on "Financial Regulation, Government Intervention in Credit Markets and Innovation: Micro Sources and Macro Problems," 2 p.m., Room 124 Sparks.

Water Pollution Control, Philip L. Walker, fuel science, on "Modification of Activated Carbon Surfaces to Enhance the Removal of Contaminants from Water," 2:20 p.m., Room 165 Willard.

Plant Pathology, Sharon Douglas, grad student, on "Potato Glycoalkaloids: A Generalized Mechanism of Resistance to Plant Pathogens and Insects?" 3:55 p.m., Room 213 Buckhout.

Wednesday, Feb. 11

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Thursday, Feb. 12

Chemistry, Eldon Ferguson, NOAA, on "Atmospheric Ion Chemistry," 12:45 p.m., Room 333 Whitmore.

Anthropology, Stuart Marks, St. Andrews Presbyterian College, on "Separating the Men from the Boys by Going to the Dogs: A Decoding of Coon and Fox Hunting Rituals in the South," 3:30 p.m., Room 107 Carpenter.

Geosciences, Robert J. Bodnar, geosciences, on "Fluid Inclusion Geothermobarometry," 4 p.m., Room 101A Kern.

Sunday, Feb. 15

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Monday, Feb. 16

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Tuesday, Feb. 17

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Wednesday, Feb. 18

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Thursday, Feb. 19

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Friday, Feb. 20

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Saturday, Feb. 21

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Sunday, Feb. 22

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Monday, Feb. 23

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Tuesday, Feb. 24

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Wednesday, Feb. 25

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Thursday, Feb. 26

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Friday, Feb. 27

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Saturday, Feb. 28

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

Sunday, Feb. 29

Graduate Women in Science, Mary Mohs, grad student, nutrition, on "Moderate Zinc Deficiency and Behavioral Effects in Young Adult Male Rats," noon, Room 101A Kern.

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Principles, Problems and Possibilities," 3:45 p.m., Room 22 Deike.

Physics, Michael Schluter, Bell Labs, Murray Hill, on "Vacancies in Covalent Semiconductors: An Example of Anderson Negative-U Centers," 3:50 p.m., Room 445 Davey.

Acoustics, John M. Seiner, NASA, Langley Research Center, on "Aeroacoustics of Shock-Containing Supersonic Jets," 4 p.m., Room 73 Willard.

Mathematics, Walter Strauss, Brown Univ., on "The Yang-Mills Equations in Minkowski Space," 4 p.m., Room 102 McAllister.

Friday, Feb. 13

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Saturday, Feb. 14

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Sunday, Feb. 15

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Monday, Feb. 16

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Tuesday, Feb. 17

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Wednesday, Feb. 18

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Thursday, Feb. 19

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Friday, Feb. 20

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Saturday, Feb. 21

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Sunday, Feb. 22

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Monday, Feb. 23

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Tuesday, Feb. 24

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Wednesday, Feb. 25

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Thursday, Feb. 26

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Friday, Feb. 27

Analytical Chemistry, Stephen Ankrand, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Penn Staters

Dr. Charles L. Hosler Jr., professor of meteorology and dean of the College of Earth and Mineral Sciences, has received the 1981 Charles Franklin Brooks Award for Outstanding Service to the American Meteorological Society. Dr. Hosler's many years of service to the society culminated in his being elected its national president in 1976.

Dr. Juan Fernandez-Jimenez, assistant professor of Spanish at The Behrend College, was invited to give two lectures at the Instituto de Enseñanza Media "Tartessos" of Camas, Seville, in January. The first lecture was about "Pedro de Medina, escritor y cosmógrafo andaluz del siglo XVI (vida y obra)" and the second, "Genesis y evolución de la novela sentimental española."

Deborah White, an oncology research nurse at Hershey, is a contributor to a new textbook, *Cancer Nursing*, published by C.V. Mosby Publishing Company. Her contribution was in the area of immunotherapy.

25-year chair

Esther U. Strause, secretary in the Psychology Department, was "totally surprised" by her department's unannounced ceremony in honor of her 25 years of University service.

"I couldn't believe it—they even invited my husband and my old colleagues and friends from around campus," she says of the Jan. 23 affair.

Joining her husband Ed—a German teacher at State College High and a 1957 University graduate—in the surprise were a dozen of Mrs. Strause's old co-workers and friends, as well as the department's current faculty and staff members.

Mrs. Strause, who has been with the Psychology Department for her entire 25-year tenure notes her favorite hobby is cooking for her Creative Cooking Class, a State College group devoted to devising new dishes.

Mentioning that she especially enjoys preparing natural-foods dishes—her last creation was a barley salad—Mrs. Strause observes that among her other interests are gardening, sewing, and hiking.

Partings

Dr. Guy E. Rindone has retired with the rank of professor emeritus of ceramic science and engineering after serving more than 33 years on the faculty.

He is, however, continuing his research in glass science, working with University students and faculty members, and expanding his work with the National Aeronautics and Space Administration. He is also organizing the Sixth Conference on Glass Science, which will be held at Penn State next summer, and a symposium on materials processing in space to be held in Boston next fall, as well as continuing his consulting work with industry.

A graduate of Alfred University with a B.S. in glass technology, he came to Penn State in 1945, receiving his M.S. in 1946 and his Ph.D. in 1948 in ceramic science. He joined the faculty in 1949, becoming professor of ceramic science in 1968. He served as chairman of the Ceramic Science and Engineering Section in the Department of Materials Science and Engineering from 1969 to 1980.

He has taught a number of courses on ceramics and glass including "Ceramics and Glass in the Modern World," which he revised and developed until its annual enrollment grew from 20 to more than 700. He has supervised the preparation of 16 Ph.D., 20 M.S., and 75 senior theses.

His research interests have included small-angle X-ray and laser-light scattering of separated phases in glass, the internal friction of glass, solubilization of glasses, effects of glass microstructure on properties, and ceramic encapsulation of nuclear waste. He holds 10 patents, is the

Dr. Rindone

author of more than 60 articles, and the editor or co-editor of three books.

He has long been active in the American Ceramic Society, serving as one of its national vice presidents in 1977-78. In 1972-74, he was national president of Keramos, professional ceramic engineering fraternity.

For 25 years, Dr. Rindone was a member of the University Faculty Senate. He also served on the Faculty Advisory Committee and the University Budget Review Committee.

He and his wife, Rae, who is retired as a teacher in the State College Area Schools and also taught French and Spanish at the University, will continue to live in State College. Their sons, Wayne and Gary, are both Penn State graduates.

James S. Toothman, associate professor of agricultural economics extension, retired Jan. 16 with 13 years of service.

Josephine R. Harding, food preparer in the Department of Housing and Food Services, retired Jan. 17. She had been a University employee since 1970.

William D. Coughlin, golf course and ice rink assistant in the College of Health, Physical Education and Recreation, will leave the University Feb. 22 after being in its employ since 1969.

Asbury hailed for football feats

Because his mother objected, Bill Asbury didn't play football until his junior year in high school.

But the former Pittsburgh Steeler, now Affirmative Action officer and assistant to the Provost, will be inducted into the Kent State University Sports Hall of Fame on Feb. 7. Among the others who will be inducted with him is Steeler linebacker and all-pro Jack Lambert.

"My mother worried about injuries, so I didn't try out until my sophomore year in high school. And that year, I broke my leg in a pre-season scrimmage," Mr. Asbury recalls.

His luck improved the following year, when—as starting quarterback for the last three games—he brought home two victories for Cincinnati Princeton High, which previously had had 17 straight losses. As a senior under a new coach he had a very good season. His exploits bringing him a football and academic scholarship to Kent State.

"With three brothers and two sisters, I couldn't have gone to college without it. If I hadn't played football, things would have been different for me," he says.

Although he characterizes Kent State's performance on the football field as "nondescript" during the four years (1961-65) he was there, Mr. Asbury was the eighth leading rusher in the country during his senior year and the outstanding offensive player in the conference. He also won UPI honorable mention for All-American.

The Atlanta Falcons made him a fourth-round draft choice but later traded him to the Steelers, where he was a starting fullback.

Faculty Forum

The article regarding the IFS program (January 22, Vol. 10, 17) has a glaring omission which I sincerely hope you correct.

One of the primary reasons for the "national visibility" of the program is outstanding teaching and the distinguished master teacher, Professor Stella Goldberg is the recipient of the coveted national award, the Ernest Osborn Award for Excellence in Teaching Family Relations, from the National Council on Family Relations. In addition Dr. Goldberg has received the Lindback Award for Distinguished Teaching from this university.

This is not to demean other contributions that were noted but to ignore the role of competent teachers is a gross oversight in judging departmental accomplishments.

Vladimir D. Lisovsky, Ph.D.
Professor, Child Development
and Family Relations

Historian

(Continued from page 1)

American historians who are constructing a conservative interpretation of U.S. history. He argues that the liberal interpretation with its emphasis on freedom, individualism and mobility has failed to discern the instability and disorder which Americans suffered, especially in the 19th century.

In his book, *An Unsettled People, Social Order and Disorder in American History*, Dr. Berthoff elaborates on this theme, showing that in the colonial period and again in the 20th century Americans embraced a social order which stressed security and stability through family, community and government, not one in which the individual was cut adrift.

Professor Berthoff's visit is sponsored by the History Department, the Institute for the Arts and Humanistic Studies, the College of the Liberal Arts and the University Scholars Program.

"My first year with the Steelers was my best," he says.

As a rookie, he led the team in rushing and was second in scoring with nine touchdowns. He was 13th in rushing in the NFL that year.

In 1969, after playing four pre-season games, he was told he was being placed on waivers.

"I might have been able to hang around and play a little bit longer," he says. "But I was 26 years old and nearly finished with a master's degree. And I had gotten married the previous year. I decided it was time to get a real job."

Doing so meant taking a two-thirds cut in salary.

"It was a big adjustment for me," Mr. Asbury says. "But I worked for a little over a year with Sanford Rose Associates, a private executive search firm in Akron."

As a consultant there, he recruited professional employees for companies. Because it was 1969 and much of his recruiting was among minority groups, he became familiar with civil rights legislation. That background led to his next job in which he developed and administered anti-discrimination guidelines for the city of Akron.

Four years later, he was hired to administer Kent State's Affirmative Action and Equal Employment Opportunity programs, and from there he came to Penn State in 1976.

Just four years old, Kent State's Hall of Fame honors both male and female athletes from all varsity sports. Although Mr. Asbury also was on the track team at Kent State and once held the school shot put record, his citation is for football.

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filing. This announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (ext. 100) on days 1387. Applicants for these staff vacancies will be accepted until 5 p.m. Feb. 12, 1981. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with the Fair Employment Practices (PS-11) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ADMISSIONS COUNSELOR, ADMISSIONS, CAPITOL CAMPUS. Responsible for the entire admissions process, including the counseling and interviewing of prospective students, decision making regarding the admission of students, and liaison operations with various colleges and campuses. Requires articulation of students and programs. Bachelor's degree, plus one to two years of effective experience in an academic environment.

SYSTEMS ANALYST, CONTINUING EDUCATION, UNIVERSITY PARK. The Systems Analyst should have a working knowledge of current telecommunications hardware and software as well as the techniques for using both. Assist in the development of all types of administrative support for office automation efforts. Provide guidance to the central supporting organization on telecommunications and administrative needs of the University-wide system. Identify opportunities for increasing administrative capabilities and/or lowering administrative costs. Document new procedures, develop cost statistics and accounting control procedures. Coordinate the University-wide Systems' evaluation of word and data processing capabilities. Participate in the development of new extensions to existing automated systems. Develop and review an annual plan for system-wide automation. A bachelor's degree (or equivalent) in computer science or related field, with training in basic information systems planning and design, plus two to three years of effective experience in telecommunications design and procedure. Computer procedure design and programming or systems analysis are required.

Medal

(Continued from page 1)

science; and Carolyn Sherif, professor of psychology.

The prime criterion for the medal will be scholarly or creative excellence, represented by a single contribution or a series of contributions around a coherent theme. The attainment for which the candidate is to be honored shall have occurred during the three years preceding the nomination for the award. The contribution may be original basic research in any area of science; it may represent application of knowledge in the creation of a process or device useful to society; it may be in any area of the arts and humanities. Candidates will be considered annually, but it should not be anticipated that awards will be made in all four areas every year.

FAC

Midyear report on Faculty Senate activities offered

By George Franz, Senate Chairman
The University Faculty Senate is the only organization within the University that speaks for the entire faculty at all locations in all units. Under the governance documents of the University, the Senate's actions are authoritative on all matters that pertain to the educational interests of the University and on all educational matters that concern the faculties of more than one College. In addition, it serves in an advisory and consultative role to the President on any matter that may affect the attainment of the educational objectives of the University.

This year the Senate is composed of 172 elected faculty Senators, six ex officio members, 11 appointed by the President, and 17 students. The major work of the Senate is done through the 13 standing committees, many of which are advisory to a particular administrative area. A detailed description of the duties of each committee and its membership may be found in the red booklet entitled *Constitution, Bylaws, and Standing Rules of the University*.

Faculty Senate, which was distributed to all faculty at the beginning of the 1980-81 academic year several months ago.

It has become customary for each Senate Chairman to present a mid-year report on the activities of the Senate and its standing committees and to indicate some of the issues that they are actively considering. Should faculty wish to express an opinion on any of the matters discussed within the report, they should contact the Senators from their academic voting unit or the Senate Office.

Because of the very crucial question of a possible conversion of the calendar from a term system to a semester system, the early months of the Senate year have been spent in preparing for what was, in my opinion, a very fruitful forensic session at the November meeting on the issues that must be addressed by the faculty in a calendar conversion. As a result of that work, however, the normal activities of many of the committees have been delayed several months and we are only now beginning to receive the reports on matters that were

begun this academic year.

The Senate has approved a legislative report changing Senate Student Policies 54-58, 56-30 and brought them into compliance with federal laws governing confidentiality of student records. At the March meeting, Senators will consider a legislative report addressing some internal Senate Committee structures, abolishing the Committee on Intra-University Relations and augmenting the duties of Senate Council.

One of the more important functions of the Senate is to provide the University community with information about issues that must be addressed, and this is normally done through informational reports from the various committees. Among the more important reports the Senate has received this year are reports on the integration of the Commonwealth Campuses and Continuing Education, the role of Graduate Teaching Assistants, a Special Admissions Program for High School Juniors, the annual report on the

(Continued on page 2)

March date for budget hearings

Legislative hearings in Harrisburg on the University's 1981-82 budget request will be held Monday, March 2, in the House of Representatives and Tuesday, March 10, in the Senate.

Governor Thornburgh has recommended a \$133.7 million appropriation for Penn State, overall, about a 5.3 percent increase over the \$127 million which Penn State received last year.

The Governor's recommendation falls some \$11 million short of the \$145 million which the University had requested. It includes no additional funds for student aid, the Soil Survey and the College of Medicine.

Commenting on the recommendation, President Oswald said: "In view of the serious economic stringencies under which the state and the University must operate, Penn State is pleased to note that Governor Thornburgh has proposed an overall operating funds increase of 5.3 percent for the University for the 1981-82 fiscal year. The Governor's proposed budget, which is equitable in its treatment of the various sectors of public higher education, will be most helpful in assisting the University to cope with inflationary cost increases over which it has little or no control.

"To meet many of its other mandated needs, however, Penn State will be required to continue to reallocate funds internally and to adopt some increase in tuition for students. Until the legislature begins its consideration of the budget, it is too early to speculate on how much a tuition increase might be.

"Our hope, of course, is for the earliest possible legislative action on the Governor's budget."

8 Alumni Fellows to visit colleges

Eight Alumni Fellows will visit the University during Spring Term to meet formally and informally with students, faculty members and administrators. They are:

— Gerald W. Abrams of Los Angeles, president of Cypress Point Film Productions at Universal Studios and a 1961 graduate, College of Arts and Architecture;

— Charles L. Blockson of Norristown, Pa., an authority on and collector of African-American history and literature, College of Health, Physical Education and Recreation;

— Edward Book of Hershey, Pa., president of Hershey Entertainment and Resort Company (Herc) and a 1954 graduate, College of Human Development;

— James J. Callagher of Chapel Hill, N.C., director of the Frank Porter Graham Child Development Center and professor of education at the University of North Carolina, College of Education;

— Robert Klein of Allentown, Pa., chairman of the board and chief executive officer of Alliance-Wall Corp. and a 1948 graduate, College of Business;

— Gilbert Nurick of Harrisburg, Pa., a 1928 graduate and attorney, College of Medicine;

— John F. Speer Jr. of Washington, D.C., executive vice president of the Milk Industry Foundation and the International

News in Brief

Senate holds over reports

Legislative reports proposing elimination of the Committee on Intra-University Relations and changes in the Senate's *Constitution and Bylaws* were presented to Senators at their Feb. 3 meeting.

Because this legislation affects the *Constitution and Bylaws*, it must be tabled for a month before any action on it can be taken.

A status report on construction projects and Jan. 9 was presented by the Committee on Academic and Physical Planning; and a second informational report, this one on special admissions programs, was offered by the Committee on Admissions, Records and Scheduling.

Dr. Philip A. Klein, chairman of the Libraries Committee, questioned the closing of the Libraries during the Christmas break and noted that the Committee might propose legislation to avert an extended closing in the future.

Winter enrollment tops 1980 figure

Winter Term enrollment for 1981 has topped last year's figures — 52,300 resident instruction students, an increase of 1,796.

A total of 31,164 students are at University Park — an increase of 739 over 1980. The 17 Commonwealth Campuses report 16,360 students — up by 982 — and the Radnor Center for Graduate Studies has increased by 91 to 360 students.

"The continued strength of Penn State's enrollment throughout the academic year indicates that students are responsive to the University's emphasis on retention through quality programs," Dr. Robert E. Schram, vice president for undergraduate studies, says. "This excellent retention pattern is especially encouraging following the record enrollment of the 1980 Fall Term."

The final Winter Term enrollment totals show 1,659 students at The Behrend College; 2,197 at the Capitol Campus; and 900 at Hershey.

Man's ONLY friend at minus 20° — Mike with Blue in the sleeping bag he designed for him.

Some like it cold!

On a recent birthday, Mike Monahan decided to celebrate by doing something dramatic.

Since he happened to be in South America, he decided to climb El Misti, a 19,000 foot volcano in Peru. At about 17,000 feet, he pitched camp and spent the night in 20° temperatures and high winds. Probably not most people's idea of the perfect birthday — but Mike is a cold weather camping buff. Sleeping outside when the thermometer reads 20° isn't all that rigorous for him.

Mike, who works at WPSX as a television equipment operator, developed a yen for snow camping during a survival course he took with retired Penn State instructor Don Kepler. He likes tackling the elements, he says, because, "I have a desire to know I can handle myself in the out-of-doors, to know I can survive."

Although he's camped in exotic places like the Alps and the Andes, Mike says some of the coldest nights he's experienced were here in Centre County.

He explains: "The Barrens is a very enjoyable place to go, because it's always colder out there. On many nights the temperature is 15° to 20° lower than it is

on campus — it will sometimes go down to minus 25°. I've been out on nights so cold that when I lie in my bag and exhale, my breath freezes instantly and falls on my face like snow."

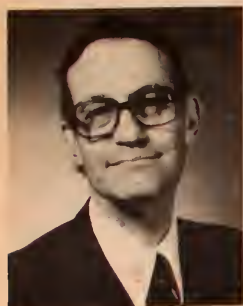

"Sometimes," he continues, "I'll just go out in the late evening, lay down my bag and go to sleep, then head out to work the next morning."

On these overnights, Mike is continually experimenting with different combinations of sleeping bags, liners and clothing, to discover what protects him best from intense cold. He often takes a thermometer with him to ascertain the effectiveness of different protective coverings at different temperatures.

Mike's formula for staying warm on arctic nights is this: He uses a 1½-inch-thick waterproof foam pad as insulation and a down sleeping bag designed to stay warm to about zero degrees. To keep out the cold when temperatures hit -10 or -20, he puts a reflecting tarp on top of the bag, which helps cut down the effects of the wind. Then he'll add a down coat and sometimes down pants, plus wool socks, felt boot liners and perhaps even gloves.

Penn Staters

Philip A. Klein, professor of economics, recently marked his 25th year at the University. Dr. Klein also is research associate at the Center for International Business Cycle Research at Rutgers University. On two occasions, he has been an Academic Visitor at the London School of Economics, most recently in the summer of 1979.

As a Fulbright Fellow, he lectured at the University of Zagreb at Osijek, Yugoslavia, and the European Institute of Business Administration at Fontainebleau, France. In all, he has taught on five separate occasions at Fontainebleau and has given a number of lectures in Europe on business cycles. He has taught also at the University of Hawaii and San Francisco State.

A member of the editorial board of the *Journal of Economic Issues* and past-president of the Association for Evolutionary Economics, Dr. Klein has been a consultant to the UN Centre for Development Planning and Policy, the Organization of Economic Cooperation and Development in Paris and the European Economic Commission in Brussels.

He is the author of two books, *The Cyclical Timing of Consumer Credit, 1920-67*, and *The Management of Market-Oriented Economics*. He also co-authored *The Quality of Consumer Installment Credit Quality* and a monograph for the Department of Commerce, *Monitoring Business Cycles at Home and Abroad*. He was a contributor to *Multi-national Corporate Planning* and for the National Bureau of Economic Research, wrote *Financial Adjustments to Unemployment*.

Dr. Klein has been a member of the senior research staff of the National Bureau of Economic Research. Prior to joining the Penn State faculty in 1955, he was an instructor at Carleton College. He holds a B.A. and M.A. in economics from the University of Texas, his Ph.D., in economics, is from the University of California at Berkeley.

L.N. Mulay, professor of solid state science, presented a plenary lecture entitled "Magnetic and Mossbauer Spectroscopic Characterization of Catalytic Materials and Their Activity" at a symposium on "Current Trends in Magnetism" held in Delhi during December. Earlier, he gave an invited lecture on catalysis at the Chemistry Section of the 66th Indian Science Congress in Hyderabad, India. During his visits he lectured at the Atomic Research Center in Bombay, The National Chemical Laboratory, Poona, and at the University of Poona.

Charles S. Prebish, associate professor of religious studies, has been selected for a five-year term as co-chairperson, with Professor George Bond of Northwestern University, of the newly-formed Buddhism Group of the American Academy of Religion. Dr. Prebish will be responsible for all activities of the group, including program scheduling for the annual meetings of the Academy.

Two University faculty members and a local psychologist have written a book entitled *Helping Others*, published by

Brooks/Cole Company and released this month.

The 179-page text was written by Dr. Anthony R. D'Augelli, assistant professor of human development. Dr. Judith Frankel D'Augelli, a psychologist in private practice, and Dr. Steven J. Danish, professor of human development.

The book is intended to "aid in demystifying the helping process by presenting a comprehensive, skills-oriented approach" to the profession.

Promotions

Faculty

Donald C. Lindenmuth to assistant professor of philosophy at Schuylkill.

Staff Exempt

D. Ross Adams to classification analyst/regional personnel officer in Personnel Administration. Samuel Althouse to janitorial foreman at Berks.

Eugene N. Cannon to business manager at Delaware County.

Allan A. Derzak to coordinator, personnel systems, research and parking in Personnel Administration.

Lynn R. Duffy to senior staff technologist at Hershey.

George L. Hall to receiving assistant in Libraries.

Carol Hayes to supply assistant in Bookstore.

Gloria J. Luckenbaugh to senior staff technologist at Hershey.

Edeltraud A. Smith to personnel coordinator and assistant to the Dean in Business Administration.

Patricia L. Young to assistant director of admissions at Capitol.

Staff Non-Exempt

Dennis E. Haines to draftsman at Hershey.

Constance L. Kramer to clinical laboratory technician at Hershey.

Jeffrey L. Waser to senior computer operator at Hershey.

Clerical

Janet A. Colaluca to secretary B at Beaver.

Cecelia E. Doty to secretary A in Health, Physical Education and Recreation.

Joanna Dovi to clerk, admissions A at Capitol Campus.

Linda K. Gummo to secretary B in Arts and Architecture.

Jo E. Hetrick to inpatient billing clerk at Hershey.

Cynthia A. Horner to secretary A at Hershey.

Eleanor E. Meyer to registration clerk in Registrar.

Nancy P. Murphy to secretary A at Hershey.

Janet E. Neff to senior clerk in Management Services.

Jan L. Shoemaker to secretary C in Liberal Arts.

Josephine Smith to secretary A in Liberal Arts.

Deborah A. Tobias to senior control clerk at Hershey.

Katherine P. Tressler to secretary C in Undergraduate Admissions.

Holly Williams to secretary A in President's Office.

Judy Zanol to secretary B in Liberal Arts.

Technical Service

John M. Albany to maintenance worker (general) B at Delaware County.

Donna L. Burkey to shipping-receiving clerk in Continuing Education.

Senate report

(Continued from page 1)

Division of Undergraduate Studies and the number and types of programs provided by Continuing Education.

A number of issues are currently under consideration by the various committees of the Senate. A brief listing of some of these issues are given below.

Academic and Athletic Standards — Advising, Athletics, Examinations, Dean's List.

Academic and Physical Planning — Policies and procedures for program review, condition of the physical plant at all locations, monitoring the budgeting procedures.

Admissions, Records, and Scheduling — Review of non-degree

and provisional students categories. Commonwealth Campuses/Continuing Education — Surveying CE course cancellations, status report on Extended Degree Programs, providing advice on the implementation of the merger of the Commonwealth Campuses and Continuing Education systems.

Committees and Rules — Change in University Promotion and Tenure Committee Composition, student Senator elections.

Curricular Affairs — Guidelines for the minor in the University, implementation of legislation concerning 800-level courses, baccalaureate degree requirements.

External Affairs — Arrange Spring meeting with State Legislators, monitor the reporting of Snyder Card information, provide faculty input to the Office of Gifts and Endowments.

Faculty Affairs — Review and revision of Promotion and Tenure policy (PS-23) and sabbatical leave policy (PS-17).

Intra-University Relations — Delegation of authority for non-credit courses and associate degree programs, faculty participation in departmental governance.

Libraries — Book funding procedures and problems.

Research — Climate for research at the Commonwealth Campuses.

Student Affairs, Awards, and Scholarships — Programs for mathematically precocious children, student retention.

Undergraduate Instruction — Annual report on the University Division of Instructional Services, procedures for Program establishment, reorganization and discontinuation, Basic Skills report, learning centers, testing centers, W-grades.

In addition, there are several special committees that are expected to report shortly. Among these are the Freshman Year Committee, the Committee to investigate Senate involvement in the use of computers, and the review committee on delegation of authority to Capitol Campus.

Faculty, staff can utilize Public Information program

Faculty and staff members are encouraged to utilize programs initiated by the Department of Public Information and Relations.

"Our department uses a variety of public relations techniques which depend, to a large extent, on the expertise of the members of the faculty and staff," says Arthur Cervo, the department's director. "Thanks to their excellent support," he adds, "Public Information has been able to generate much goodwill for the University. We would like, however, to get even more members of the faculty and staff involved in our programs."

For example, one of the department's techniques which has met with considerable success is the Op-Ed program, which disseminates faculty expertise — and Penn State's name — throughout the mass media.

"As its name suggests, this program focuses on developing opinion pieces used by editors on pages opposite editorial pages," Mr. Cervo says. "The articles, written primarily by faculty members and edited for news by one of our staff members, generally deal with current events and run from 700 to 1,000 words."

Published examples include: Dr. Parris H. Chang's "What Taiwan Can Do" (*Newsweek*); Dr. Gerald P. Glyde's "Big Labor — It's a Big Myth" (*New York Times*); Dr. Rustum Roy's "Soviet Exchanges — the Wrong Target" (*Christian Science Monitor*); Dr. Robert F. Schmalz' "Threatened Species Lose Out" (*Philadelphia Inquirer*); and Dr. John Spicer Nichols' "Castro Needs No Soviet Guards" (*The Harrisburg Evening News*).

Story Ideas, another of the department's techniques, generates ideas for feature

stories based solely on a faculty member's expertise.

"To create these features, our writers brainstorm an idea, find a good faculty source to interview, do so on a recorder, have a transcript made, and write a brief summation of the transcript," Mr. Cervo explains. "All information is then checked back with the faculty source to insure accuracy."

Then, once every three months, an idea sheet containing 10 Story Ideas is sent to newspaper and magazine editors, broadcasters, syndicated columnists and free-lance writers.

"Media people responding to the list are sent interview notes, a biography of the source and the faculty member's telephone number for followup questions," Mr. Cervo adds.

The current Story Ideas sheet includes "Harmful Foods: Myths and Misconceptions" by Dr. Manfred Kroger, College of Agriculture; "How to Keep Your Child From Smoking" by Dr. Robert E. Shute, College of Health, Physical Education and Recreation; "Do you Abuse Your Child Emotionally?" by Dr. James Garbarino, College of Human Development; and "Is Your Legislator Getting Better?" by Dr. Irwin Felder and Dr. Michael R. King, College of the Liberal Arts.

"Story Ideas, generally speaking, are intended to inform the public about important issues in their day-to-day lives," Mr. Cervo points out. "We rely upon solid faculty research and expertise to offer readers up-to-the-minute information. This technique has proved most successful in obtaining state-wide and national media coverage for Penn State."

Another of the department's techniques

is Press Contacts, a directory published annually which lists University experts on topics ranging from acoustics to Yugoslavia.

"Press Contacts is distributed to members of the media, who use it primarily as a resource book on academic expertise needed for feature articles, background information or breaking news stories," Mr. Cervo observes.

Recently, for example, a reporter from Radio Station KYY ("all news radio") in Philadelphia contacted Dr. Trond Gilberg, professor of political science, for a comment about the death of the former Shah of Iran.

A fourth technique — described by Mr. Cervo as "practicing the best kind of public relations, personal contact" — is the department's *Speaker Bureau*, a booklet listing faculty members willing to speak to groups about their fields of expertise. "Faculty and staff volunteers from the 22 campuses give more than 365 talks per year — or an average of more than one a day — to civic, church, social and scholastic organizations around the State," Mr. Cervo notes, adding that it is always up to the faculty or staff volunteer whether or not to accept a speaking engagement.

The department's Talk Shows program, Mr. Cervo says, emphasizes having faculty and staff members appear on radio or television talk shows.

"Again, this represents very good exposure for the University by utilizing the expertise of members of the faculty and staff," Mr. Cervo notes.

Any member of the faculty or staff wanting further information about the Public Information programs is asked to contact Mr. Cervo at 865-7517.

University Park Calendar

Feb. 12-22

Special Events

Thursday, Feb. 12

Last drop deadline.

CineMathque, *The Paper Chase*, 7 and 9:15 p.m., HUB Assembly Hall.
Robeson Center Gallery Talk, 7:30 p.m., Walnut Bldg. Oliver LaGrone discusses his works.

URTC, *Macbeth*, 8 p.m., The Playhouse.
Colquhoun lecture, 8:15 p.m., Eisenhower Auditorium. Joseph A. Califano, Jr., former Secretary of Health, Education and Welfare, on "The Aging of the American City."

Friday, Feb. 13

STS/TCO, luncheon, noon; talk, 12:20 p.m., Room 101 Kern. Warren S. Smith, general education in the arts, emeritus, on "Art and Non-Art in the Age of Technology: An Overview."

Faculty Women's Club Pot Luck Supper, 6:30 p.m., Walnut Bldg.
CineMathque, *The Paper Chase*, 7 and 9:15 p.m., HUB Assembly Hall.
Commonplace Theatre, *The Wild One*, 7 p.m.; *A Streetcar Named Desire*, 9 p.m., Room 112 Kern.

EcoAction doc. films, "E.F. Stone's Weekly" and "The Pesticide People," 7 and 9 p.m., Room 102 Forum. Also Feb. 14 and 15.
GSA film, *The Ruling Class*, 7 and 9 p.m., Room 112 Chambers.

Shaver's Creek Nature Center, "Adventure Series," 7 p.m., Stone Valley.
Ballroom Dance Club/Hetzel Union Board, "In the Groove to Dance," Phi Mu Alpha Zeta Band with their "Big Band" sound, 8 p.m., HUB Ballroom.

Sports: gymnastics (men) vs. Temple and (women) vs. Utah State, 8 p.m.; ice hockey vs. Buffalo State, 9:30 p.m.

URTC, *Macbeth*, 8 p.m., The Playhouse.
Artists Series, *The Intimate P.D.Q. Bach*, 8:30 p.m., Eisenhower Auditorium.

Saturday, Feb. 14

Sports: swimming and diving (women) vs. Princeton, 1 p.m. and (men) vs. Syracuse, 4 p.m.; ice hockey vs. Drexel, 8:10 p.m.
Artists Series, *The Lovelace Theatre Company, Jack and the Beanstalk*, 10:30 a.m. and 2:30 p.m., Schwab.

France-Cinema, *Young, Alambriesta*, 7 and 9 p.m., Room 112 Kern.
GSA film, *The Ruling Class*, 7 and 9 p.m., Room 112 Kern.

Kern Commons Valentine's Day Concert, with Jerry Zolten Combo and Arthur Goldstein Group, 8 p.m., Room 102 Kern.
URTC, *Macbeth*, 8 p.m., The Playhouse.

Sunday, Feb. 15

University Chapel Service, 11 a.m., Eisenhower Chapel. Dr. Donald M. Cridler, rural sociology, speaker.

Shaver's Creek Nature Center, family film festival and toymaking workshop, 1-4 p.m., Stone Valley. Info: 865-1851.

Sports: gymnastics (women) vs. National Team, 2 p.m.; ice hockey vs. Villanova, 3:30 p.m.

Commonplace Theatre, *The Wild One*, 7 p.m.; *A Streetcar Named Desire*, 9 p.m., Room 112 Kern.

Monday, Feb. 16

Sports: swimming and diving (women), AIAW Diving Qualification Meet, through Feb. 17.
France-Cinema, *Alambriesta*, 7 and 9 p.m., Room 112 Kern.

GSA workshop, Car Maintenance, 7 p.m., Room 102 Kern.
Colquhoun slide meeting, 7:30 p.m., Room 169 MRL.

Tuesday, Feb. 17

Comp. Lit. Lecture, 12:15-1:15 p.m., Room 204 HUB. Glyn Norton, French, on "Humanist's Theory of Translation: Salutati, Bruni, and Manetti."

Comp. Lit. Film Series, *Death of a Bureaucrat*, 7 and 9 p.m., Room 112 Kern.
Artists Series film, *Nosferatu - The Vampire* (1899), 8 p.m., Schwab.

URTC, *Macbeth*, 8 p.m., The Playhouse.

Wednesday, Feb. 18

Robeson Cultural Center Film Series, *Black History: Lost, Stolen or Strayed*, 7:30 p.m., Walnut Bldg.

URTC, *Macbeth*, 8 p.m., The Playhouse.
Sports: basketball (men) vs. St. Bonaventure, 8:10 p.m.

Music at Camera, 8:30 p.m., Music Bldg. Recital Hall.

Arts Roundup

Alard premieres work

Sunday's snow storm forced several carloads of Penn State performers to Pittsburgh to turn back without hearing the Alard Quartet perform with the Pittsburgh Symphony Orchestra.

The Quartet was premiering Ezra Laderman's Concerto for String Quartet and Orchestra, commissioned for the group by the Institute for the Arts and Humanistic Studies. The work, conducted by Andre Previn, was presented Feb. 6, 7 and 8 in Heinz Hall.

Robert Croan, music critic for the Pittsburgh Post-Gazette, praised the Concerto and said that the Alard "played the composite solo part superbly."

The review continues: "The composer's stated musical credo at this point eschews one language at the expense of all others, and he describes this new Concerto as moving easily in and out of tonality. It is amazing to hear what can still be done with a C major triad in common time, the opening material of the first movement—even more so to discover the chord's compatibility with the jagged drama of his non-tonal episodes. This is a significant addition to the symphonic repertoire, and Previn molded its first hearing with beautiful sonority and careful attention to detail."

Artists Series bringing P.D.Q. Bach

"The Intimate P.D.Q. Bach," under the questionable artistic direction of the madcap Professor Peter Schickele, will be presented by the Artists Series Feb. 13, at 8:30 p.m. in Eisenhower Auditorium.

Called "a very, very funny show—even for people who like music but don't know why" by the *New York Times*, Professor Schickele's program brings to audiences the music of the heretofore undiscovered (for reasons which will be made clear) son of the great Johann Sebastian Bach, and proves conclusively that "like father, like son" is not necessarily true.

The program, which will include such infamous works as the *Goldbrick Variations*, the *Abbaconcerto*, and *Twelve Quite Heavenly Songs* (an imposing song cycle based on the signs of the Zodiac), also will feature the noted bargain-counter tenor, John Ferrante, who has, for some reason, been with the P.D.Q. Bach Show since its premiere in New York in 1965.

Thursday, Feb. 19

CineMathque, *Blueback, The Birds*, 7 and 9:30 p.m., HUB Assembly Hall.
URTC, *Macbeth*, 8 p.m., The Playhouse.

Artists Series, The Jose Limon Dance Company, 8:30 p.m., Eisenhower Auditorium.

Friday, Feb. 20

Last date for submitting petitions to Records Office to graduate in absentia in March.

CineMathque, *The Birds*, 7 and 9 p.m., HUB Assembly Hall.
Commonplace Theatre, *The Hunchback of Notre Dame*, 7 p.m.; *Dr. Jekyll and Mr. Hyde*, 9 p.m., Room 112 Kern.

GSA film, *M*A*S*H*, 7 and 9 p.m., Room 112 Chambers.

Shaver's Creek Nature Center, Owl Prowl, 7:30 p.m., Stone Valley.

Sports: gymnastics (men) vs. Indiana State and Southern Illinois, 8 p.m.; ice hockey vs. Univ. of Pennsylvania, 9:30 p.m.

University Chapel Service, 8 p.m., Eisenhower Chapel. Rabbi Jeffrey Eisenstat, 8'nal B'rith Hillel Foundation, State College, speaker.

URTC, *Macbeth*, 8 p.m., The Playhouse.

Saturday, Feb. 21
Shaver's Creek Nature Center, chair caning workshop, 10 a.m., Stone Valley. Info: 865-1851.

Sports: fencing (men) vs. Navy, 1 p.m.; wrestling vs. Lock Haven, 2 p.m., basketball

Professor Schickele

The new second edition of "The Intimate P.D.Q. Bach" program will include comments on the life and times of P.D.Q. Bach, fully illustrated by Professor Schickele's collection of rare slides, manuscripts, and other memorabilia, and will conclude with the hilarious spoof, *Hansel and Gretel and Ted and Alice*, an opera in one unnatural act.

Tickets are on sale at the Eisenhower Auditorium box office from 9 a.m. to 4 p.m. through Feb. 13. Phone orders on MasterCard or Visa may be placed by calling 863-0255 during sale hours. If any tickets remain, they will be on sale at the box office beginning at 7 p.m. the evening of the performance.

Chamber group to play

Works from the Baroque, Classical and 20th century repertoires will be performed by Musica da Camera, the University's chamber orchestra, in a concert at 8:30 p.m. Wednesday, Feb. 18, in the Music Building Recital Hall.

The group will open its program with "L'Inverno" ("Winter"), the second concerto of Antonio Vivaldi's "Seasons." Violinist Mary Beth Ions, a candidate for the M.Mus. degree in performance, will be the featured soloist.

Bela Bartok's Divertimento for String Orchestra has been selected by Musica da Camera to commemorate the 100th anniversary of Bartok's birth.

Haydn's Symphony No. 94, the well-known "Surprise Symphony," will close the program.

Music da Camera, which is composed largely of graduate students in the School of Music, is directed by D. Douglas Miller, associate professor of music.

(women) vs. Maryland, 7 p.m.; ice hockey vs. Univ. of Pennsylvania, 8 p.m.

France-Cinema, *Annand, Hothead (Coup de tete)*, 7 and 9 p.m., Room 112 Kern.

GSA film, *M*A*S*H*, 7 and 9 p.m., Room 112 Chambers.

Carl Goshy, trumpet recital, 8 p.m., Music Bldg. Recital Hall.

URTC, *Macbeth*, 8 p.m., The Playhouse.

Sunday, Feb. 22

Shaver's Creek Nature Center, Walnut Springs Walk, 1-3 p.m., Walnut Springs Park, State College.

Sports: gymnastics (women) vs. UCLA, 3 p.m.

Commonplace Theatre, *The Hunchback of Notre Dame*, 7 p.m.; *Dr. Jekyll and Mr. Hyde*, 9 p.m., Room 112 Kern.

Artists Series, Wuerntemeb Chamber Orchestra, 8:30 p.m., Eisenhower Auditorium.

Seminars

Thursday, Feb. 12

Fuel Science, Juan C. Lasheras, Princeton Univ., on "Combustion and Vaporization of Emulsified and Multicomponent Fuel," 2 p.m., Room 301 Stridle (new listing).

Philosophy, Joseph Kockelmanns, philosophy, on "How to Read Aristotle's Metaphysics," 4 p.m., Room 167 Willard (new listing).

A daily calendar of events is available around the clock at 863-1100. For the latest information on College of Arts and Architecture events, telephone 863-1200.

Friday, Feb. 13

Analytical Chemistry, Steven Ankabrando, grad. assistant, on "Determination of Several Inorganic Sulfur Species by Differential Pulse Voltammetry," 11:10 a.m., Room 333 Whitmore.

Physical Chemistry, Peter Monson, chemistry, on "Some Recent Developments in the Theory of Monolayer Adsorption," 2:30 p.m., Room 333 Whitmore.

Monday, Feb. 16

MC3B, Dwayne C. Savage, Univ. of Illinois, on "Genetic Approaches to Study of Mechanisms by which Indigenous Microorganisms Associate with Gastrointestinal Epithelial Surfaces," 4 p.m., Room 101 Altitude.

Tuesday, Feb. 17

MC3B, Dwayne C. Savage, Univ. of Illinois, on "Indigenous Microorganisms, Absorptive Enzymes and Turn-over of Intestinal Epithelial Cells," 11 a.m., Room 101 Altitude.

Water Pollution Control, Bernie Sarnoski, Drinking Water Section, EPA, Philadelphia, on "Safe Drinking Water Act," 2:20 p.m., Room 165 Willard.

Wittgenstein's Vienna, Glen Helman (philosophy) on "Frege," 3:30 p.m., Room 319 Walker.

Chemical Engineering, Alex Jamieson, macromolecular science, Case Western Reserve Univ., on "Studies of Polymer Diffusion by Quasi Elastic Light Scattering," 3:45 p.m., Room 140 Fenske.

Plant Pathology, Matthew Royer, grad. student, on "Sampling Aerial Dispersal of Insects in 'Trivial Flight' or of Airborne Fungal Spores," 3:45 p.m., Room 213 Buckhout.

Acoustics/Speech Communication, Anton J. Roszypal, linguistics, Univ. of Alberta, on "Perception of Jitter and Shimmer in Synthetic Vowels," 4 p.m., Room 73 Willard.

Mathematics, Rouben Rostaman, Purdue Univ., on "Determining Parabolic Equations," 4 p.m., Room 102 McAllister.

Thursday, Feb. 19

Animal Welfare, PSU faculty members discuss the impact of animal welfare on production agriculture, wildlife, biological sciences, laboratory animal care, animal health and animal behavior, 12:45 p.m., Keller Auditorium.

Chemistry, Sidney Hecht, Univ. of Virginia, on "Bleomycin: Studies on the Total Synthesis of an Antitumor Antibiotic," 12:45 p.m., Room 333 Whitmore.

Geosciences, Robert C. Reynolds, earth sciences, Central College, on "Kinetics of Illitization during Burial Metamorphism of Shales," 3:45 p.m., Room 212 Deike.

Acoustics/Physics, Arthur H. Benade, Case Western Reserve Univ., on "Wind Instrument Radiation Systematics," 3:55 p.m., Room 445 Davey.

Friday, Feb. 20

Analytical/Physical Chemistry, Paul Shepson, grad. student, on "The Photooxidation of Propionaldehyde," 11:10 a.m., Room 333 Whitmore.

Exhibits

Chambers Gallery: PSU students and faculty, handmade paper artifacts: Burk-Hartswick Invitational Glass Exhibit.

Kern Gallery: Sandra Leitzinger, watercolors; Mary Stokrocki, drawings and photographs; Nancy Zegenfuss, ceramics.

Museum of Art: European works from the permanent collection; selections from the Pre-Columbian and Oriental collections; "All That Is Glorious Around Us," paintings from the Hudson River School.

Pattee Library: John Inerra, photographs, through Feb. 19, Charles Emlan, sculpture, opens Feb. 19, East Corridor gallery, Diane Cissel, paintings, Lending Services Lobby.

Robert Butler, wood sculpture, through Feb. 17, Randy Cleaver and Michael Rodenas, sculpture, opens Feb. 17, Main Lobby.

"World's Fair," opens Feb. 16, Rare Books Room.

Robeson Cultural Center: "The Works of Oliver LaGrone," through Feb. 13.

Visual Arts Zoller Gallery: ceramics exhibit, through Feb. 14; sculpture students' exhibit, opens Feb. 17.

HUB Gallery: James Baker, recent photographic prints.

500 students volunteering to raise funds for Penn State

A sociologist interested in understanding changing student attitudes can stop by 201 Kern this week.

Some of the rebels of the late '60s and early '70s are there — pledging money to the University as today's students contact them by telephone.

The 500 Penn State students placing the calls have volunteered to help during a 16-night phonathon sponsored by the Office of Gifts and Endowments. OGE expects their efforts to raise about \$60,000 for the University between Jan. 26 and Feb. 19.

This is the largest of the three "Lion Line" phonathons OGE operates each year, and the one in which the University's colleges participate directly. While some nights are set aside for raising funds for University-wide needs, other evenings are reserved for students to contact alumni from their colleges and request donations directly to the college. (Colleges use these funds for such purposes as augmenting scholarships and awards, helping finance student service projects, or bringing in visiting speakers.)

"Our phonathons are targeted at specific groups who may not respond as readily to mail appeals," explains Cynthia Tift, assistant director of annual giving. "We phone younger alumni who haven't contributed before, as well as those who haven't donated for from two to ten years."

OGE takes care of all the arrangements for the phonathons, including briefings for the phoners, getting the phone lines and paying for the long distance calls, each of which is billed separately.

"While office phones already in existence could be utilized," Mrs. Tift continues, "we've found that it is very important to have all the callers together in one room to ensure a certain esprit — and to encourage a little healthy competition. We keep a running tally of how much has been collected so student phoners representing different colleges or groups can see how they stand."

Callers receive a "Lion Line" tee shirt and compete for such prizes as Big Macs and ice cream cones, which are awarded to students eliciting \$50 and \$100 pledges. The average pledge, Mrs. Tift notes, is about \$25. The best individual caller for the entire phonathon will receive a free dinner for two.

Colleges that have chosen to participate in the current effort are Business Administration, Liberal Arts, Agriculture, Science and Human Development. In addition, Renaissance Fund scholarship holders raised money for that cause, while Food Service and Housing Administration majors approached graduates of their curriculum on another evening. Members of Alpha Phi Omega, Gamma Sigma Sigma, Parmis Nous and Skull and Bones are also lending a hand in raising funds for University-wide needs.

"Calls are placed between 6:30 and 9:30 p.m., and an enthusiastic student will complete between 50 and 60 conversations a night," Mrs. Tift reports.

The personalities of the callers vary not only among the colleges but also among the volunteers themselves. College of Business Administration students, for example, are often more aggressive and sales-oriented than those from other colleges. CBA has also mounted the biggest effort, assembling enough students to keep 24 telephones busy for four nights. Liberal Arts, Science and Human Development each were scheduled for two nights with 12 phones. The number of phones in use does not reflect the number of volunteers, however, since ideally some students are calling while others are doing necessary paperwork.

Students are given a briefing before they begin dialing and a sample script to help them respond to such questions as: "Why didn't I get football tickets in the section I requested?" Answer: "I can't answer that personally, but I am going to forward your concern to someone who can."

Whenever a graduate agrees to pledge or responds with a "Maybe," the student making the call writes a brief personal note of thanks. "Our files are full of letters from alumni telling us how much they appreciated these notes," Mrs. Tift observes.

Of those alumni who pledge a specific amount, about 70 percent follow through with a contribution. About one third of the "Maybe's" eventually contribute.

"In the six years we have conducted phonathons," Mrs. Tift says, "we have found that general mail appeals sent to persons who have never contributed generate only about a .5 percent response.

misdeed and has requested the University to bring this matter to the attention of those persons who are affected by the requirement. Questions concerning the procedure and/or the report form should be directed to the Department of Defense.

HUB slide show on view

A brief narrated slide program has been developed by the Department of Housing and Food Services to describe the renovations being made in the HUB. The show can be viewed on weekdays in the vicinity of the HUB ballroom (now serving as a temporary snack bar) and on weekends around the HUB deck.

The program begins by tracing the history of the HUB from its original construction through remodelings and additions and then proceeds to the construction currently underway on the ground floor in the old Lion's Den and Terrace Room. The overall impact of the project is also described.

The slide show will be updated as construction progresses.

Alumni

(Continued from page 1)
Association of Ice Cream Manufacturers and a 1955 graduate, College of Agriculture; and

— Sam Vaughan of New York City, publisher and president of Doubleday Publishing Co. and a 1951 graduate, College of the Liberal Arts.

Science and Human Development students kept all lines busy at Jan. 29 phonathon.

A phonathon aimed at the same group will bring in definite pledges from 18 to 26 percent of those contacted — and our expenses are generally less.

"Among past donors, the same general mailing will produce about an 8.5 percent response, but at a cost of about 6 cents per dollar raised. A phonathon to former donors results in specific pledges often exceeding 30 percent of those contacted, but at a higher cost of 19 cents per dollar raised."

"We have concentrated on using phonathons to broaden our base of support; consequently, those donors phoned have often not been among our most recent contributors, and gift pledges are generally smaller, resulting in the higher cost per dollar raised. We are, however, beginning to use the telephone for upgrading prospects to a higher level of giving. Still another benefit is the opportunity it gives us to update alumni records."

While many of Penn State's newer alumni — those from about 1974-76 — are not yet sufficiently established in their careers to pledge large amounts, OGE feels that phonathons give these recent grads a better understanding of the importance of private support and thus lay the groundwork for future contributions.

"Our student callers are also being educated about the need for private support at Penn State," Mrs. Tift points out. "We hope that their phonathon

experience will produce a positive response one day when they find themselves on the other end of the phone."

During the Fall phonathon, OGE's student volunteers placed calls to non-donors and lapsed contributors, but on a University-wide rather than a college basis. In the Spring, the target will be alumni who contributed in the previous year but have not responded during the current campaign. Again, selected non-donors will be contacted.

During the 1980 fund year, according to Mrs. Tift, calls were attempted to more than 28,000 alumni, and 16,700 contacts resulted. (There are always wrong numbers or persons who are not at home.) Almost 4,900 specific pledges with amounts, and 600 with no specific amount, were received. Another 2,300 persons indicated an interest or "Maybe." The total amount pledged was \$88,700, and more than \$107,600 was actually sent in.

Many of the student phoners become so enthusiastic that they ask to return. OGE likes "repeaters."

"Usually it takes a few phone calls before a caller loosens up," Mrs. Tift explains, "so the more experienced the student, the more successful he or she tends to be."

As for the students, asked why they donate their time, one summed up: "I just feel I owe something for the education my college is giving me."

Staff Vacancies

The following vacancies for positions classified as staff exempt or staff nonexempt have been listed with the University Employment Division for filling. The announcement is made so that all University employees who are interested in promotion may apply by calling the Employment Division, 865-1387 (network line 475-1387). Applications for these staff vacancies will be accepted until 5 p.m., Feb. 19, 1981. DO NOT CONTACT THE AREA THAT HAS THE VACANCY.

Applications for staff vacancies are considered, in accordance with Fair Employment practices (PS-1) and in compliance with the University's Affirmative Action Compliance Program, without regard to race, color, religion, national origin, handicap (as provided by law), sex, or status as a disabled or Vietnam era veteran.

ASSISTANT FOOD SERVICE MANAGER, COLLEGE OF MEDICINE, HERSHEY Responsible to the Director of Food Service for operation of the cafeteria, coffee shops, main kitchen and patient tray assembly line. A bachelor's degree in food and nutrition, or equivalent, and two to three years' effective experience.

ASSISTANT MANAGER OF PHARMACY, COLLEGE OF MEDICINE, HERSHEY Responsible to the Manager of Pharmacy for managing and directing the Pharmacy Department and clinical pharmacy program. Participate in education and research programs in the Medical Center as requested, review and revise old programs as necessary and assume the responsibility for the Department in the absence of the Manager. A master's degree or doctor of pharmacy degree, residency, plus two to three years of effective experience, with experience in a supervisory capacity preferable. Pennsylvania registration in pharmacy or eligibility required.

AREA REPRESENTATIVE, CONTINUING EDUCATION, BEAVER CAMPUS This position is responsible for the functions of development, organization, operation and administration of Continuing Education programs and services within an

assigned geographic district. Bachelor's degree or equivalent, plus two to three years of directly related experience in business, industry or education.

Cold

(Continued from page 1)

For a final touch of comfort, he props a pillow beneath his knees.

Mike's chief problem right now is finding others who want to explore the possibilities of cold weather camping with him. (He's designed a special sleeping bag for Blue, his dog, to insure that he at least has canine companionship on his camping ventures.)

He'd like to talk with people who share his interest and want to camp locally or possibly up north. Ideally he'd like to see a group of snow camping aficionados formed on campus. Anybody interested in talking to Mike about this subject can contact him at 234-0646.

INTERCOM is an internal communications medium published weekly during the four terms of the class schedule for the faculty and staff of the Pennsylvania State University.

News in brief

(Continued from page 1)

Calendar news due

A glimpse of hope through the winter's ice — material for INTERCOM's Spring Term Calendar is due by Friday, Feb. 20. Please send to Lee Morrill in Room 312 Old Main, 865-2501.

Not that busy

Personnel at the DuBois Campus wish to inform the University community that they were not on a 72-hour talking jag Feb. 2, 3 and 4.

A phone cable to the Campus was broken, resulting in callers receiving a busy signal for three days running. The cable has since been repaired.

DOD reports needed

The University has been asked to remind former military or civilian officers and employees of the Department of Defense currently from service on or after July 1, 1975, and currently employed by the University that they are annually required to submit a report to the Department of Defense.

The report is for the fiscal year (Oct. 1 through Sept. 30) and should be submitted prior to Feb. 15 each year. The form to be completed is known as DD Form 1787.

The Department of Defense has indicated that failure to complete with the filing requirement constitutes a

Penn State Intercom

Holiday savings of \$131,530 estimated

An estimated \$131,530 in energy expense was avoided by lowering temperatures and reducing ventilation in most buildings at University Park during the recent holiday recess.

Members of the University's Executive Energy Conservation Committee were given the information at their February meeting by J. Carroll Dean, manager of energy conservation programs.

"The estimate takes into account weather severity, the costs of reducing and then bringing back into operation the heating and ventilation systems in campus buildings, as well as repair costs attributable to the reduction," he noted.

Richard Crowley, assistant vice president for business services, reported to the Committee on energy use trends in the University's motor vehicle fleet and on efforts to reduce energy consumption.

The overall miles-per-gallon figure for the University fleet is up 30 percent since June 1977, he noted, reflecting smaller car sizes. Trucks and specialty vehicles, however, comprise 25 percent of the fleet and are less flexible in size and fuel efficiency.

Comparing the number of full-size, intermediate, sub-compact and compact cars in the fleet today with the number several years ago is not totally meaningful, he added, since automakers have changed the standards in recent years. Nonetheless, Penn State has significantly fewer full-size cars than was the case five years ago.

Salary deposit plan can be extended

The University will extend its salary deposit program to any Pennsylvania bank which enrolls 25 or more University employees in the plan.

Currently, 37 percent of the University's employees have their salaries deposited directly into the 16 banks which participate in the program.

It is not necessary for University personnel who wish to join the plan to be employed at a single campus location or to be paid on the same monthly schedule, according to Richard H. Baker, assistant treasurer and director of financial management at the University.

If 25 employees at Capital Campus, York and Hershey, for example, were to agree to use one bank in their area, the University would extend the salary deposit service to that bank.

Mr. Baker also notes that when a bank has been approved for salary deposit, all of its branches are included in the plan.

The participating banks include: Central Counties Bank, Commonwealth National Bank, County National Bank, Farmers Community Bank, First National Bank of Centre Hall, First National Bank of Pennsylvania, Gallatin National Bank, Hamilton Bank, Hershey National Bank, Maritime National Bank, Mid-State Bank and Trust Company, Mt. Nittany Savings & Loan, Peoples National Bank of Central Pennsylvania, State College Federal Savings & Loan, Union National Bank and Trust Company, and Valley Trust Company of Palmyra.

Persons wishing further information about the salary deposit plan should contact the Office of the Assistant Treasurer, Room 408 Old Main, 865-1359.

News in Brief

Participants sought for Canadian studies meeting

Plans are underway to hold a Conference on Canadian Studies at the University Friday afternoon, April 3, and Saturday morning, April 4. The chief purpose of the meeting is to discuss ways of further developing Canadian studies in Pennsylvania and neighboring regions.

Professors Henry S. Albinsky (political science) and Gerard J. Brault (French) will serve as co-chairmen.

There will be no formal papers; instead, participants will be given an opportunity to confer with one another in both structured and informal settings. There will be no registration fee. A business meeting will be held on Saturday morning.

Persons wishing to attend the Conference should inform the Program Organizer, Professor Brault, Room 316 Burrowes Building (865-1492).

German novelist to present reading

Walter Kempowski, one of the best known of contemporary German novelists, will visit the University from Feb. 24 to 26.

On Tuesday, Feb. 24, at 8 p.m. in Room 101 Kern, he will read from his works, which include *Aus grosser Zeit*, *Tadellose und Wolff*, *Uns geht's ja noch gold* and *Ein Kapitel für sich*. His books have been recognized in Germany with great critical acclaim.

Born in Rostock, Mr. Kempowski experienced the Nazi period, the war and the collapse of the Third Reich from his Baltic seaport. In 1948 he was arrested for political reasons by the Soviet military authorities and sentenced to 25 years in prison. However, he was paroled after eight years.

Mr. Kempowski draws on the happenings and the spirit of these times in his novels, several of which have been made into films.

New chairman named

President Oswald and Provost Eddy have named Dr. Donald L. Ace, professor of dairy science Extension, chairman of the Dean's Search Committee for the College of Agriculture. Dr. Paul E. Nelson, professor of plant pathology, has been added to the membership of the Committee. These changes result from the request of Dr. John W. Malone, professor and head of agricultural economics, to resign as chairman and a member of the Committee.

Program offered for parents of younger children

The Individual and Family Consultation Center offers programs for parents of children from 3 to 10 years of age. In a series of sessions, parents are systematically taught and supervised in the use of skills designed to: a) enhance communication, b) create a sense of mutual understanding and harmony, c) utilize emotions constructively, and d) teach children personal and social skills efficiently, effectively and with a minimum of discord. Interested persons may obtain further information by calling 865-1751 Monday-Friday, 9 a.m. to 5 p.m.

Housing rental service available to faculty

Faculty members who are interested in renting their homes while away on leave can take advantage of the Housing Referral Service sponsored by the Faculty Women's Club.

Information on how to receive a listing is available in Room 313 Willard Building Tuesdays from 9:30 to 11:30 a.m. or by telephoning 865-1538.

SERS statements out

Retirement account statements have been distributed to faculty and staff members who belong to the State Employees' Retirement System (SERS). These statements provide information about retirement accounts as of Dec. 31, 1980.

Some faculty and staff members who are age 50 or older have received statements containing projected retirement annuities. The State Employees' Retirement Board is working toward the goal of eventually providing this more detailed report for all members age 50 and older.

Faculty and staff members with questions about their retirement account statements should contact the Employee Benefits Division at 865-1473 (network: 475-1473).

New capabilities added by Telephone Services

Three new features will be added March 2 to upgrade the University's Centrex I Telecommunications System.

The new Centrex II will enable all calls, regardless of origin, to be transferred within the University system without the services of a University operator. At present, only calls originating off campus can be transferred.

Users will have available also a "Consultation Hold," allowing them to consult with a third party by telephone while excluding the original party from the conversation.

The third feature will allow a third party to be added to the original conversation.

Instructions on the use of Centrex II were issued by Telephone Services in a letter released Feb. 13. Persons with further questions can contact Telephone Services at 865-8311.

Search Committee appointed for new development officer

President Oswald and Richard E. Grubb, senior vice president for administration, have appointed a Search Committee to seek and review nominations and applications for the newly established position of Vice President for Development.

The Committee will be chaired by Dean Eugene J. Kelley of the College of Business Administration. Its members are:

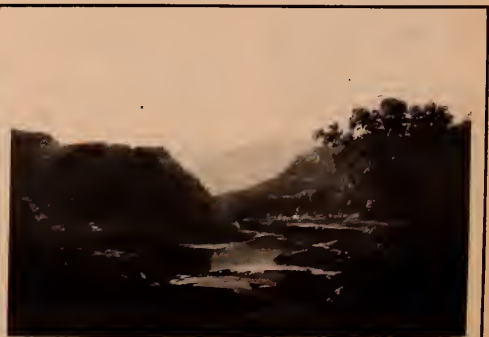

Dr. Maureen A. Carr, director, School of Music; Steve A. Garban, vice president and controller; William Hull, director of exhibitions; Peter A. Irvin, president, Graduate Student Association; Irvin H. Koehl, assistant vice president for administration; Herbert Kravbyll, director, gifts and endowments; Hershey, Ross B. Lehman, executive director, Alumni Association; Dean Stanley F. Paulson, College of the Liberal Arts; Dr. Harold W. Perkins, director, Berks Campus; Dr. Doris M. Seward, executive assistant to the President; Dr. James B. Stewart, director, Black Studies Program; and Dr. Nancy M. Tischler, chairperson-elect, University Faculty Senate.

Among the responsibilities of the new vice president will be advising on fund-raising policies and practices, as well as planning, coordinating and directing the University's fund-raising program. The individual, in cooperation with other appropriate officers, will be responsible for developing an external relations program to support fund raising.

Candidates should have at least five years of successful, executive-level fund raising or administrative experience and should possess a full understanding of the functions and priorities of a university such as Penn State.

Dr. Oswald stated, "During the past five years, under the professional leadership of Charles Lupton, the University has made significant progress in attracting private funds. Between 1975 and 1979, private giving to Penn State doubled, showing an increase from \$5 million per year to \$10 million per year. The challenge ahead for the new vice president and the entire University is to

(Continued on page 3)

"Autumn Landscape" by William Sonntag is one of the paintings in the Museum of Art's current show, "All That Is Glorious Around Us." Visitors can view this comprehensive survey of outstanding works by Hudson River School painters through March 22.

Penn Staters

Dr. Gerard J. Brault, professor of French and Fellow of the Institute for the Arts and Humanistic Studies, has been named Officer in the National Order of Merit by the French Government. This is the second French decoration for Professor Brault who, in 1965, was awarded the Palmes Academiques and, in 1975, was promoted to the rank of Officer in that order.

In a letter, the French Ambassador to the United States has specified that the latest decoration is in recognition of Professor Brault's outstanding teaching and research in the field of French. Professor Brault is the author of numerous books and articles on French medieval and Renaissance language and literature, and on the French Canadians of New England. Over the years, he has received many other national and international honors; he is a Fellow of the Academie Internationale d'Heraldisque (Geneva), the Heraldry Society (London), the Mediaeval Academy of America, and the Society of Antiquaries (London). He is also currently vice president of the Societe Rencvals, an international organization promoting the study of the medieval Romance epic.

Dr. Hellmut Hager, professor and head of the Department of Art History and Fellow, Institute for the Arts and Humanistic Studies, and Eugenio Battisti, Evan Pugh professor of art history, were recently invited to present papers at a January symposium, "Bernini e il Barocco Europeo," held in Rome to commemorate the 300th anniversary of that artist's death. Dr. Hager's paper, "Bernini e il revival del 'Full Baroque' nell'architettura romana del '700," and Dr. Battisti's paper, "Sul concetto di Barocco," will be printed in the "Atti del Convegno" published by the "Ufficio Attivita' Culturali dell'Istituto della Enciclopedia Italiana."

Robert A. Schlegel, assistant professor of molecular and cell biology, presented invited lectures at the Johns Hopkins Oncology Center and The Medical College of Wisconsin. His subject was "Mercosanine 540: A Fluorescent Membrane Probe which Detects Leukemia Cells and Immature Hematopoietic Cells."

Work by Zeljko Kujundzic, professor of art at Fayette, has been included in the permanent collection of the Sculptor's Society of Canada. Currently on exhibit in Toronto, the collection will be shown throughout Canada.

Dr. Inyong Ham, professor of industrial engineering, recently received the 1980-81 Outstanding Faculty Teaching Award from the Penn State student chapter of the American Institute of Industrial Engineers.

Introduction to *Simulation and SLAM*, a book co-authored by Claude D. Pegden, associate professor of industrial engineering, and published by Halstead Press, recently was awarded Honorable Mention by the Lancaster Prize Committee of the Operations Research Society of America. The book is a reference for a new language called SLAM (Simulation Language for Alternative Modeling) and is a textbook on the methodology of computer simulation.

Appointments

Three new appointments have been announced at the Hershey Medical Center. They are:

John L. Pennock as assistant professor of surgery. B.S., PSU; M.D., Temple U. School of Medicine. Internship, Harrisburg Hospital; Resident, Hershey; Fellowships, Hershey, Stanford U.

Thomas V. Shankey as assistant professor of pathology. B.S., M.S., U. of Dayton; Ph.D., U. of Florida; N.I.H. postdoctoral fellow, U. of Pa.

Beverly L. Renford as senior assistant librarian. B.S., Medaille College; Ed.M., SUNY-Buffalo; M.L.S., Western Michigan U. Formerly senior assistant librarian, University Park.

12 IAHS Fellowships awarded

Twelve faculty members have been awarded Research Fellowships for the 1981 Summer and Fall Terms by the Institute for the Arts and Humanistic Studies.

They are:

— Dr. Dean R. Baldwin, assistant professor of English at Behrend College, for research and study of the life and works of English novelist H.E. Bates, leading to a biography.

— Dr. Robert E. Burkholder, assistant professor of English at Wilkes-Barre, to complete three studies of Ralph Waldo Emerson and initiate a fourth work;

— John A. Cook, professor of art, for research and study of Renaissance and classical medals in order to design a medal for the Society of Medalists;

— Dr. Anthony Cutler, professor of art history, for research and study of late antique and early medieval carved ivories;

— Carole Franklin, associate librarian and assistant professor of music, for research on a critical edition of selected keyboard sonatas by Moravian composer Franz Beck;

Dr. Stamatis M. Zervanos, associate professor of biology at Berks, has been named associate director for academic affairs at the Reading campus.

Dr. Zervanos earned his bachelor's degree at Albright College, his master's degree at Penn State and his Ph.D. in zoology at Arizona State University. He taught at the Altoona and University Park campuses before moving to the Berks Campus in 1972.

He has received national recognition for his studies of the wild ponies of Assateague Island, and he participated in the NASA Bio-space technology program and studies at the Naval Arctic Research Laboratory at Point Barrow, Alaska.

Promotions

Staff Exempt

Paul W. Hornack to chief flight instructor in Business Services.

Robert C. Hoult to supervisor, engineering shop services in Engineering.

Donna M. Rittler to assistant patient unit coordinator — ACCC at Hershey.

George W. Schimmel to director, physical plant maintenance and operations in Physical Plant.

Stephen W. Wiley to manager of pharmacy at Hershey.

Staff Non-Exempt

Joanne E. Chryst to cardiology technician at Hershey.

Douglas L. Ednie to senior research technician at Hershey.

Jane E. Kegerise to senior staff nurse at Hershey.

Clerical

Teresa K. Reed to secretary B in Engineering.

Rose A. Reedy to senior medical transcriptionist at Hershey.

Hattie C. Reese to clerk accounting A in Controller's Office.

Delphine C. Smith to secretary B in Continuing Education.

Deborah Tabolt to secretary A in Planning and Budget.

Rochelle D. Winn to secretary B in Agriculture.

Rachel E. Yoder to clerk typist A in Engineering.

Technical Service

Arthur J. Askey to senior electronics technician, computer systems in Physical Plant.

Thomas Barrall to maintenance worker general B at Berks.

Helen A. Hall to senior operator, sewing room in Housing and Food Services.

Lewis C. Needles to maintenance mechanic A at Delaware County.

Bonita A. Reifsnider to laboratory technician C at Hershey.

— Dr. Mary S. Mander, assistant professor of speech communication, for research in the William Randolph Hearst family papers for a biographical study;

— Dr. Joseph W. Michels, professor of anthropology, and Dr. Beno Weiss, associate professor of Italian, to establish a scholarly framework for the study of Sardinian cultural history;

— Dr. William H. O'Donnell, associate professor of English, to organize an exhibition of selected works from the art collection of William Butler Yeats;

— Dr. Gerhard Strasser, assistant professor of German, for research and study of 16th and 17th century cryptography and universal languages;

— Dr. Donald P. Verene, professor of philosophy, for research for a proposed book, "Vico's and Hegel's Conceptions of Memory"; and

— Dr. Roger R. Zeller, assistant professor of art education, Altoona, for study of rosemarling techniques in the Norwegian-American Museum in Decorah, Iowa, and their application to ceramics.

Wayne Shirk to preventive maintenance worker (electrical) in Physical Plant.

John A. Tomco to maintenance mechanic (laundry equipment) in Housing and Food Services.

John M. Wojcik to maintenance worker (general) B at Delaware County.

Louis W. Zimmerman to maintenance worker — housing in Housing and Food Services.

Faculty Forum

I was very much interested in reading the announcement of the play *Sojourner* in the Penn State Intercom, Jan. 29, 1981. Only one thing was missing: the names of the playwrights. Perhaps the publicity releases from the Germantown Theatre Guild left us out; in fact, we didn't even know the play was to be given at all, particularly at Penn State in the Paul Robeson Cultural Center. Had we known, we would have taken a trip up the main campus to see the play we had written.

I am making a particular point here as the writers of the script have associations with Penn State University.

Pat Stenberg, now professor of theatre at SUNY, was lecturer in theatre arts at the Ogonitz Campus of Penn State in Abington for eight years. In 1978, I took her place at Ogonitz, and am now the current lecturer in theatre arts there.

I am sorry you did not receive adequate information from the Guild, and I do thank you for rectifying their error in the omission of our names for our copyrighted script.

Dolly Marilynn Beechman

Editor's Note: INTERCOM is happy to rectify the omission. The names of the playwrights were not supplied in the release made available to us.

Partings

Clair L. Harper, supervisor in engineering shop services, College of Engineering, left University service on Feb. 14 after 13 years on the staff.

Leonard D. Hardy, preparation technician in the College of Science, retired Jan. 10. He joined the University staff Jan. 17, 1966.

William J. Hufnagel, maintenance worker at Delaware County, retired Feb. 1. He had been at the Campus since Jan. 4, 1971.

Mary H. Decker, a residence hall worker in Housing and Food Services, will retire Feb. 28 after serving on the staff since Nov. 22, 1965.

Wayne W. Greenawald, janitorial foreman at the Ogonitz Campus, will retire March 1 after working for the University since Sept. 1, 1964.

Funding Sources

For further information, call 865-1372

(352-1) **Disertation Grants** to encourage research and analysis of data recently gathered about federally assisted housing programs will be made by HUD. Up to 10 grants will be awarded on a competitive basis to doctoral candidates. Grants will amount to \$7,000, plus \$3,000 for computer time at HUD. The deadline for applications is April 15, and awards will be announced June 1. (Ref: HUD Announcement File 1980-2)

(352-2) **Grants for Dissertation Research Support 1981** have been announced by the HHS/PHS National Center for Health Services Research. Twenty awards for up to \$20,000 each will be made to graduate students in the social, medical, management, or health sciences for research on organization, delivery, financing, or quality of health care services. For information call 301-435-6920. The deadline date for applications is April 7, for a July 1981 award. (Ref: NCHSR Program Solicitation)

(353-1) **The Resource Information Service (RIS)** provides information to faculty and staff to support their mission of obtaining project funding for instruction, research, continuing education and for fellowships. RIS is the liaison between Penn State and the Office of Federal Programs (OFFP), Washington, D.C. OFFP provides Penn State with continuous monitoring of public and private agencies. RIS reviews subsisting information from numerous sources including the Federal Register and the Commerce Business Daily and receives direct mailings from agencies. RIS makes unsolicited information distributions to faculty and staff to promote awareness of public and private programs, responds to faculty staff inquiries about programs and contacts, and through a Preliminary Proposal Office (PPO) mechanism, helps locate support funds with the assistance of OFFP and Penn State's Office of Gifts and Endowments (OGE). For detailed information about RIS assistance, contact M.R. Kohler, Room 5 Old Main, 685-1372. (Network 8-475-1372).

(353-2) NSF has set a March 9, 1981, target date for receipt of proposals for its RISE Program (Research in Science Education). Two areas of particular interests NSF are (1) science literacy and science technology and society and (2) computer-related technology for science and mathematics education. In lieu of preliminary proposals in these areas, the RISE staff is available for questions and discussions. Call 202-287-7445. NSF's guidelines are available here. (Ref: NSF Bulletin, Feb. 1981)

Obituaries

Francis C. Blazer, janitor in the Department of Housing and Food Services from 1938 until his retirement in 1952, died Feb. 4 at the age of 91.

Lee E. Corter, an assistant professor of political science from 1947 until his retirement in 1967, died Feb. 9 at the age of 74. Mr. Corter, who was also affiliated with Penn State's Institute of Local Government, held B.A. and M.A. degrees from the University. He was a teacher and principal in several western Pennsylvania schools before joining the faculty.

Robert B. Sims, a maintenance worker at the Altoona Campus since Jan. 3, 1972, died Feb. 5. He was born in Gazierville, Pa., on Aug. 23, 1930.

Emma E. Stuart, an accounting clerk in the College of Agriculture at her retirement in August 1971, died Feb. 7. A native of Boalsburg, she was 72 and had first come to work at the University in November 1945.

Gilbert R. Whiteman, a native of Snow Shoe, died Feb. 8 at the age of 81. He joined the Office of Physical Plant as a fireman in 1952 and was working as a sewage plant operator when he retired in September 1965.

INTERCOM is an internal communications medium published weekly during the four terms of the class schedule for the faculty and staff of The Pennsylvania State University.

Special Events

Thursday, Feb. 19
Black Studies Colloquium, Cyril Griffith, history, and Virginius B Thornton, former black studies coordinator, on "New Perspectives on Black History," 3:30 p.m., Rare Books Room, Pattee.

Cinemathèque, Hitchcock, *The Birds*, 7 and 9:30 p.m., HUB Assembly Hall.
U.R.T.C., Macbeth, 8 p.m., The Playhouse.

Artist Series, The Jose Limon Dance Company, 8:30 p.m., Eisenhower Auditorium.

Friday, Feb. 20
to graduate for submitting petition to Records Officer to date in absence in March.

Cinemathèque, *The Birds*, 7 and 9:30 p.m., HUB Assembly Hall.

Commonplace Theatre, *The Hunchback of Notre Dame*, 7 p.m., Dr. Jekyll and Mr. Hyde, 9 p.m., Room 112 Kern.

Folk and Square Dance Roundup, 7-8:30 p.m., Room 133 White Bldg.

GSA Film, M*A*S*H, 7 and 9 p.m., Room 112 Chambers.

Shaver's Creek Nature Center, Owl Prowl, 7:30 p.m., Stone Valley.

Sports, gymnastics (men) vs. Indiana State and Southern Illinois, 8 p.m., ice hockey vs. Univ. of Pennsylvania, 9:30 p.m.

University Chapel Service, 8 p.m., Eisenhower Chapel. Rabbi Jeffrey Eisenstat, 8 p.m., 81st Hill Foundation, State College, speaker.

U.R.T.C., Macbeth, 8 p.m., The Playhouse.

Saturday, Feb. 21
Shaver's Creek Nature Center, chair caning workshop, 10 a.m., Stone Valley. Info: 863-1851.

Sports, fencing (men) vs. Navy, 1 p.m.; wrestling vs. Lock Haven, 2 p.m.; basketball (women) vs. Maryland, 7 p.m.; ice hockey vs. Univ. of Pennsylvania, 8 p.m.

France-Cinema, Annaud, *Hothead (Coup de tête)*, 7 and 9 p.m., Room 112 Kern.

GSA Film, M*A*S*H, 7 and 9 p.m., Room 112 Chambers.

Carl Cowley trumpet recital, 8 p.m., Music Bldg.

U.R.T.C., Macbeth, 8 p.m., The Playhouse.

Sunday, Feb. 22
Shaver's Creek Nature Center, Walnut Springs Walk, 1-3 p.m., Walnut Springs Park, State College.

Sports, gymnastics (women) vs. UCLA, 3 p.m. Commonsplace Theatre, *Hunchback of Notre Dame*, 7 p.m.; Dr. Jekyll and Mr. Hyde, 9

p.m., Room 112 Kern.
Artists Series, Wuernttemberg Chamber Orchestra, 8:30 p.m., Eisenhower Auditorium.

Monday, Feb. 23
France-Cinema, *Hothead*, 7 and 9 p.m., Room 112 Kern.

Tuesday, Feb. 24
HUB Craft Center closes for term break, Room 312 HUB.

German Dept., lecture, 8 p.m., Room 101 Kern.

Walter Kempowski, contemporary German novelist, reads from his works.

Museum of Art, lecture, 8 p.m., W.E. Esber, 1011 East College Ave. Webb Esber on "Persian Rugs: Past, Present and Future."

Wednesday, Feb. 25
Last day to sign Winter Term Emergency Loans, Room 108 Shields.

Early registration for Spring Term, 8 a.m.-4:30 p.m., Shields Lobby. Also Feb. 26 and 27, March 2 and 3.

Sports, basketball (men) vs. Robert Morris, 8:10 p.m.

Winter Term classes end, 9:55 p.m.

Thursday, Feb. 26
Final examinations. Also Feb. 27 and 28, March 2.

SFO film, Carol Reed, *The Third Man*, 7 and 9 p.m., HUB Assembly Hall.

Friday, Feb. 27
Interludia, folk dancing, 7:30 p.m., Room 3 White Bldg.

Saturday, Feb. 28
Sports: bowling vs. Bloomsburg, 1 p.m.; volleyball (men) vs. Ohio State, 7 p.m.

Seminars

Thursday, Feb. 19
MC3B, Russell A. Maurer, biology, MIT, on "Genetic Analysis of a Complex Pathway in Salmonella: DNA Replication," 1 p.m.

Room 101, Althouse (new listing).

Aesthetics, Literary Criticism and Interpretation Theory, Nicholas Webb, art education, on "The Notion of Autonomy as Integral to the Idea of a Work of Art," 4 p.m., Writing Room, Nittany Lion Inn (new listing).

Fuel Science, P.G. Felton, Univ. of Sheffield, on "Droplet and Particle Sizing by Laser Diffraction," 4 p.m., Room 301 Steidle (new listing).

Friday, Feb. 20
Analyst/Physical Chemistry, Paul Shepson, grad. student, on "The Photooxidation of Propionaldehyde," 11:10 a.m., Room 333 Whitmore.

public institutions, 14 percent for private universities and 16 percent for other four-year private institutions.

□

Political liberalism has declined among the current class of college freshmen, according to the annual survey of college freshmen conducted by UCLA Professor Alexander Austin and sponsored by the American Council on Education.

Only 19.6 percent of the new students call themselves liberals, compared with 22.5 percent last year. Ten years ago, 33.5 percent described themselves in this manner.

Sixty percent of the students reported they were middle-of-the-road, compared to 45.3 percent in 1970-71 and 39.7 percent last year. The proportion of freshmen labeling themselves conservative is 17.1 percent, up from last year's 16.6 percent but the same as 10 years ago. Only 2.1 percent of the freshmen said their politics were far left; 1.2 percent identify themselves with the far right.

Responding to questions about specific issues, more than 80 percent of the freshmen list inflation as the biggest domestic problem. Fifty-three percent feel abortions should be legal and women subject to military draft.

The number of born-again Christians among the entering students showed a slight decline, 27.2 percent this year compared with 28.7 percent last year and 29.8 percent two years ago.

Tuesday, Feb. 24

Biology, Robert H. Broyles, Univ. of Oklahoma Health Sciences Center, on "Developmental Switches in Gene Expression: Hemoglobin and Red Cells as a Model," 11:10 a.m., Room 8 Mueller.

Water Pollution Control, Caru P. Bose, Philadelphia Water Dept., on "Treatment for Control of Trihalomethanes," 2:20 p.m., Room 165 Willard.

Plant Pathology, Norman Lalancette, grad. student, on "Mite Model: An Integrated Pest Management Approach," 3:55 p.m., Room 213 Buckhout.

Organic/Inorganic Chemistry, J.I. Tufariello, SUNY/Buffalo, on "Nitrogen in Organic Synthesis," 8 p.m., Room 333 Whitmore.

Thursday, Feb. 26

Physics, Martin Perl, SLAC, on "Quarks, Leptons and Very High Energy e⁺e⁻ Physics," 3:50 p.m., Room 445 Davey.

Exhibits

Chambers Gallery: PSU students and faculty, handmade paper artworks, Burk-Hartswick Invitational Glass Exhibit, both through Feb. 26.

HUB Galleries: Nittany Divers, PSU Women's Swim Team and PSU Camera Club exhibitions, Art Alley, Imaginus Galleries, Woodland Indian Art Exhibit and Sale, The Browsing Gallery, James M. Baker, recent photographs, The Gallery. All exhibits through Feb. 28.

Kern Gallery: Sandra Leitzinger, watercolors: Mary Stokrocki, drawings and photographs, both through Feb. 27, Nancy Ziegenfuss, ceramics, through Feb. 28.

Museum of Art: European works from the permanent collection, selections from the Pre-Columbian and Oriental collections, "All That Is Glorious Around Us," paintings from the Hudson River School.

Pattee Library: Charles Emlen, sculpture, opens Feb. 19, East Corridor Gallery, Diane Cisel, paintings, through Feb. 24; Milwaukee's Lakefront Planning and Design Competition: The Design Process, opens Feb. 24, Landing Services Lobby; Robert Butler, wood sculpture, through Feb. 23; Randy Clavner and Michael Rodemer, sculpture, opens Feb. 23, Main Lobby; "World's Fairs," Rare Books Room.

Visual Arts Zoller Gallery: Sculpture Students' Exhibit, through Feb. 28.

From the Press

Benjamin Tompson, Colonial Bard: A Critical Edition. By Peter White. 218 pages. \$16.75.

The life and works of one of the country's early poets, Benjamin Tompson (1642-1714) are examined in this book by Dr. White, a Penn State Ph.D., who is now teaching at The University of New Mexico.

A Harvard graduate and schoolmaster (Cotton Mather was his pupil), Tompson wrote occasional, elegiac and satirical poems. His *New England's Crisis*, describing the 1675-76 war against the Algonquins (in which the poet did first-aid duty) instills journalistic realism into the classical epic form.

Professor White's edition presents 30 poems, three letters and a Latin oration, all annotated. Support for the preparation and publication of this work was provided by the National Endowment for the Humanities.

Search Committee

(Continued from page 1)

continue to build on this success through the 1980s in order to double again the level of private giving to the University as suggested in *A Perspective on the 80s*.

Applications and resumes should be sent by March 31 to Dr. Eugene J. Kelley, Chairperson, Vice President for Development Search Committee, Room 309 Old Main, University Park, PA 16802.

Maurice Andre

Trumpeter to play with Wuernttemberg

The Artists Series will present the Wuernttemberg Chamber Orchestra, under the direction of Jorg Faerber, on Sunday, Feb. 22, in Eisenhower Auditorium.

The performance, a part of the music series, will be highlighted by solo trumpeter Maurice Andre, a Grammy Award nominee in the category of "Best Classical Performance: Instrumental Soloists (with orchestra)." Mr. Andre will perform Concerto for Trumpet and Orchestra in D Major by Stozel and Concerto for Trumpet and Orchestra in D Major by Tartinì. Other works to be performed by the orchestra include Vivaldi's Concerto grosso in D Major, Mendelssohn's Concerto in D Minor for Violin, and Tchaikovsky's Serenade in C Major for Strings.

The Wuernttemberg Chamber Orchestra is a familiar name in Germany, where it regularly appears with renowned guest soloists. The orchestra performs numerous guest concerts and tours in Germany, as well as abroad. Other concert tours have taken the ensemble throughout Europe and Africa. In November 1974, with Mr. Andre as soloist, the ensemble made its first U.S. tour.

Since his debut, Mr. Andre has drawn critical and audience acclaim for his virtuosity on the trumpet. He is known throughout the world for his many recordings and appearances in leading musical centers.

Born in southern France, Mr. Andre graduated with the Prix d'Honneur from the Conservatoire de Paris, and was awarded the First Grand Prize at the International Music Competition of the German Radio in 1963. He went on to serve for eight years as the solo trumpeter for L'Orchestre Radio Television Francaise, and was simultaneously engaged by the Concert Orchestre de Lamoureux.

Mr. Andre's long association with conductor Karl Richter has led to tours in the U.S. and the Soviet Union, Italy, France, Austria and Germany, where he has performed under conductors Herbert Von Karajan and Karl Bohm.

Mr. Andre has appeared in many music festivals, including those of Salzburg, Vienna, Munich, Athens, Oxford and Buenos Aires. He is responsible for bringing many works back into the repertoire, especially such Baroque masterpieces as the Telemann and Torelli concerti. Mr. Andre also holds a professorship at the Conservatoire de Paris.

Tickets for the performance are now on sale at the HUB Book Office and Eisenhower Auditorium box office from 9 a.m. to 4 week days. Phone orders will be accepted on Master Card/VISA at 863-0255.

Elsewhere in Academe

During the 1981-82 academic year, students and their parents will have the dubious pleasure of pioneering five-figure charges for tuition, room and board at such schools as Bennington College, Harvard and Stanford, which were the first to announce that total costs for their undergraduates will be more than \$10,000—a 12 to 15 percent increase over the previous year.

While five-figure charges may not be common, double-digit percentage increases could be, continuing a pattern set last year. Northeastern University, for example, will raise tuition costs in several colleges by 20 percent (to \$4500).

Oregon's Governor has proposed a higher education budget calling for public institutions to boost tuition by 15 percent in each of the next two years. The University of Minnesota increased its general tuition rate by 7 percent during 1980-81 and then was forced to add a 10 percent surcharge for the 1981 quarters because of a deficit in the state treasury.

Increases of 9.1 percent in 1981-82 and 8.6 percent the following year have been proposed by Minnesota's Governor.

According to the government's National Center for Education Statistics, the average percent of increase in undergraduate tuition last year was 11 percent for public universities, 10 percent for other four-year

Personnel analyst calls golf "most challenging" game she's ever played

Why do golfers golf?

Sandy Eriksson, senior classification analyst/operations in the Office of Personnel Administration, wants to find out.

A University graduate student as well as employee, Ms. Eriksson is completing her master's degree program in sports administration with a thesis titled "Motivational Assessment of Golf as a Leisure Activity."

"Some golfers take to the links for social reasons, others to relieve tension, and still others for reasons ranging from loving to develop certain physical skills to just loving to be outside," she says.

To conduct her study — which focuses on why persons of different age groups say they play golf — Ms. Eriksson is using a "Q-sort," a testing process in which her subjects choose from some 75 reasons for playing golf, eventually arriving at the single, "definitive" reason that most precisely sums up their love of the game. And why does Ms. Eriksson, who has a handicap of nine, love to get out on the links?

"Golf is the most challenging game I have ever played," she says, noting that she has sampled a wide variety of sports.

"Once a person has mastered the basic skills, shooting a good game of golf is 98 percent mental and only 2 percent physical."

"I like the game because playing it well requires me to challenge myself — to test my powers of concentration and observation — to my personal limits. There's a lot of satisfaction in being able to meet that kind of self-imposed goal."

Also satisfying to Ms. Eriksson is her University position, which she describes as "very rewarding professionally."

Ms. Eriksson, who is primarily concerned with salary administration as it relates to non-faculty positions, is further engaged in conducting job evaluations, monitoring salary programs and conducting salary surveys for clerical, technical service, staff exempt and staff non-exempt positions.

"This office operates in a highly professional manner," she notes,

Sandy Eriksson (left) serves as a volunteer instructor for the Lady Lions golf team. Here, she offers advice to senior Lady Lion Lynn Marriot.

adding that she enjoys, much as in her golf game, the challenge of performing to the best of her ability.

She also enjoys playing golf courses of professional caliber and catching glimpses into the world of professional golf.

In fact, her master's degree program offered her just those opportunities.

As part of her program, she took a leave of absence to spend a 10-week, six-credit internship at the headquarters of the National Golf Foundation (NGF) in North Palm Beach, Fla., where her project was serving as fourth edition editor of the NGF's 1980 Golf Instructor's Guide.

And, in addition to editing the

comprehensive 148-page Guide, she gained access to several of America's finest courses.

"Playing on the 'Cadillac' courses of southern Florida was a dream come true," she says, explaining that her NGF internship opened the way to "very exclusive" links of "extremely high quality."

She also was able to attend a Ladies' Professional Golf Association Seminar, watch such pros as Patty Berg play and hear first-hand stories about many of the game's greatest personalities.

A native of Connecticut, where she received a B.A. degree in history from Western Connecticut State College, Ms. Eriksson also is interested in the history of golf.

"My ultimate dream is to play the course at St. Andrews, Scotland, where the first golf club was founded in 1774," she says.

Another of her golfing passions is instructing, and she assists, on a volunteer basis, with coaching the Lady Lion golfers.

"Considering the very short outdoor playing season we have in this climate, Penn State's women's golf team really distinguishes itself," she says, noting that the team is traditionally "one of the best in the Northeast."

To help overcome the climate, the University's golfers practice extensively in the Recreation Building, where stations are set up for working on all the fundamental skills, from putting to driving.

"Still, it's not the same as being out on the course, and we're all getting 'cabin fever' and anxiously awaiting those first, beautiful spring days on the links," she says.

"A golfer's game won't suffer as much from the winter interlude," she adds, "and the golfer will avoid being sore after those first outdoor rounds if he or she keeps their body in tone."

She also has one final word of advice: PRACTICE...

"Golf, like any skill, requires practice to maintain consistency," she says, adding that for her to maintain her handicap, she needs to golf about three times per week.

Penn Staters conduct survey of wildlife remaining in Sierra Leone

The first wildlife survey ever made in the West African nation of Sierra Leone reveals a country almost stripped of its formerly abundant animal population.

"There are 2,000 chimpanzees left — not the 6,000 claimed by animal exporters," says Lori Baldwin, whose plans for the survey were first described in a May 1979 issue of *The Penn State Reporter*.

"We estimate that 400 hippos, between 200 and 300 elephants, and fewer than 100 leopards remain. The last lion was shot by a foreign hunter in 1965. There are supposed to be several types of crocodiles in the country, but in six months of searching, we didn't find a single one."

Ms. Baldwin, a wildlife biologist who is the editor of the Behavioral Sciences Film Library at Penn State, conducted the survey from November 1979 to April 1980 with Dr. Geza Teleki, a Penn State Ph.D. now at George Washington University. Their work was sponsored by the New York Zoological Society and the World Wildlife Fund.

In a report to the Sierra Leone government, the researchers recommend a ban on all animal exports pending the establishment of several national parks. They also recommend that Sierra Leone sign existing international trade agreements controlling the import and export of wild animals.

Sierra Leone, which is smaller than South Carolina, has been the leading exporter of animals — particularly chimpanzees — in West Africa.

"The original purpose of the survey was to locate and make a census of chimpanzees," Ms. Baldwin says. "But that quickly turned into a nationwide

survey of large mammals and a study of the remaining wilderness areas to determine conservation priorities for the country."

The threat to the chimps and other wild animals of Sierra Leone is not just trapping and hunting for export and food but the fact that their natural habitat has been all but destroyed by farmers and loggers.

"Since the turn of the century," Ms. Baldwin says, "Sierra Leone's rain forest has shrunk from 18,000 square miles to only 500 square miles. Most of the country is now covered with 'farmbush' — dense thickets of grass and shrubs unsuitable for use by man or animals."

"What you see in Sierra Leone is an 'occasional hill, which still has trees on it, standing isolated while the land all around it is stripped bare. It's like oases in a vast wasteland which contain remnant groups of animals. You'll find, on one of these still-forested hilltops, one or two old chimps — all that are left."

Ms. Baldwin, who has worked in East Africa at the chimpanzee research station established by noted researcher Jane Goodall, says one 380-square-mile section of forest land in the north of Sierra Leone is the largest single area where wildlife can be found.

She and Dr. Teleki recommend that the tract — called Outamba Kilimi — be reserved as the country's first national park.

"The few people who live there are Muslims who will not hunt animals," says Ms. Baldwin. "It's an undeveloped area, and the soil is unsuitable for agriculture, so the local people are in favor of the park. It would mean an increase in government

services such as roads and schools and would provide jobs for local people."

The World Wildlife Fund-U.S., an international conservation organization based in Washington, D.C., is trying to raise \$200,000 to help Sierra Leone establish its first national park. Money would go for roads, bridges and the training of wildlife officers, Ms. Baldwin says.

"The fund-raising goal is really no more than the cost of a house in many affluent U.S. communities," she says. "Put another way, it is costing \$1.22 per acre for the national park."

In addition to disappearing forest, Sierra Leone's animals are threatened by the economics of West African wildlife trade, according to Ms. Baldwin.

"In the capital city of Freetown, one wildlife trader controls most of the animal export business. He pays his representatives in the interior \$1 for a bird or \$30 for a bongo (a large African antelope) and up to \$40 for a chimp."

The bird will bring between \$100 and \$3,000, the bongo from \$40,000 to \$50,000 and the chimp will fetch for the trader up to \$5,000 on the world market.

"When we went into the interior and spoke to some of the tribal chiefs and local people, no one had any idea that animals were worth thousands of dollars. Some of the animal catchers we talked with were quite irate to find they had been getting ripped off."

At least one tribal group has vowed not to procure any more animals for the trader in reaction to the economics lesson given by Ms. Baldwin and Dr. Teleki.

Public radio will be reality by '82-'83

Public radio at Penn State moved a little closer with the University's application to the Federal Communications Commission for a construction permit.

The application was filed last month after a frequency search conducted for an available channel on which to broadcast.

The station could be on the air sometime between July 1982 and April 1983, according to Marlowe Froke, director of the Division of Media and Learning Resources.

The proposed broadcast facility would operate at a frequency of 820 kilohertz on the AM radio band, Mr. Froke said. Its power would be 50,000 watts during daylight hours and 5,000 watts at night.

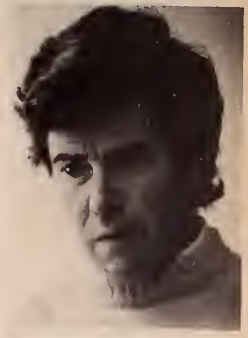

The signal would reach north to the New York State line, south to the Maryland border, east to Wilkes-Barre and Lebanon and as far west as Johnstown.

"The University has taken advantage of recent FCC rule changes that permit additional stations on frequencies that had been reserved for 'clear channel' stations," Mr. Froke explained, adding that an AM radio signal is more effective than FM in the mountainous terrain of central Pennsylvania.

Programming plans for the station are diverse, including credit and informal course offerings, cultural programming, and public affairs. In addition, in-school services that complement and supplement the in-school programming of WPS-TV will be offered.

"The station will greatly enhance the public service aspect of the University's mission," Mr. Froke predicted.

Penn State Intercom

Faculty Scholar medals designed by John Cook, professor of art, will be awarded to Gerard J. Brault, top left; Hiroshi Ohmoto, bottom left; Peter R. Gould, top right; and John Waldhausen.

Four faculty members are chosen to receive the first Scholar Medals for their outstanding achievements

Four Penn State faculty members will receive The Faculty Scholar Medal for Outstanding Achievement for 1981, President Oswald announced today.

They are Dr. Gerard J. Brault, professor of French; Dr. John A. Waldhausen, professor and chairman of the Department of Surgery; Dr. Peter R. Gould, professor of geography; and Dr. Hiroshi Ohmoto, professor of geochemistry.

Presented for the first time this year, the medal honors scholarly excellence represented by a single contribution or series of related contributions in one of four areas — arts and humanities, life and health sciences, physical sciences and engineering, or social and behavioral sciences. Each award consists of a medal

and a check for \$1,000.

"All four of these faculty members have brought honor to themselves and to Penn State through scholarly contributions in their respective fields," Dr. Oswald said. "All have exemplified the highest professional standards in carrying out the work for which they are being honored."

The awards honor scientific research, achievements in the arts or humanities, or creation of a device or process useful to society. Each contribution must have occurred in, or culminated during, the three years preceding the recipient's nomination.

Dr. Brault is being honored for his two-volume analytical edition and translation of *The Song of Roland*, the 12th-century

poem, published in 1978 by The Pennsylvania State University Press. It was the culmination of seven years of research.

Published to coincide with the 1200th anniversary of the Battle of Roncevaux, the historical event in 778 which inspired the poem, Dr. Brault's edition reviews all previous scholarship on the subject and gives the first systematic analysis ever made of the entire text.
